Administrative Information

Provenance:

The papers of Sigmund Freud, founder of psychoanalysis, were given to the Library of Congress by the Sigmund Freud Archives between 1952 and 2001. Additional material was given to the Library between 1970 and 1976 by Anna Freud who subsequently bequeathed to the Sigmund Freud Archives the remainder of her father's papers in her possession at the time of her death in 1982. The archives deposited these papers in the Library of Congress in 1986 and converted the deposit to a gift in 2000. Numerous other donors gave material directly to the Library of Congress between 1942 and 2001. Further items were acquired by the Library through purchase, transfer, and exchange between 1943 and 1999.

Processing History:

The Sigmund Freud Papers were arranged and described in 1991 in seven lettered series (A, B, C, D, E, F, and Z) in accordance with restrictions and conditions that applied to the collection at that time. Material within each series was arranged in groupings

of family papers, general correspondence, subject file, writings, supplemental material, and interviews and recollections. When the bulk of the restrictions were lifted in 2000, the lettered series were abolished and the papers were rearranged. Ten new series (Family Papers, General Correspondence, Subject File, Writings, Supplemental File, Interviews and Recollections, Artifacts, Restricted, Closed, and Oversize) were created by consolidating subgroupings within the lettered series. Although their series designations had been changed, most folder titles were not altered during reprocessing.

Descriptions of the Sigmund Freud Papers appear in *Library of Congress Acquisitions: Manuscript Division, 1985*, pp. 27-31, and *Library of Congress Acquisitions: Manuscript Division, 1986*, pp. 33-36.

Transfers:

Items have been transferred from the Manuscript Division to other custodial divisions of the Library. Books have been transferred to the Rare Book and Special Collections Division. Some photographs have been transferred to the Prints and Photographs Division. Motion picture films and audio recordings of interviews have been transferred to the Motion Picture, Broadcasting, and Recorded Sound Division. All transfers are identified in these divisions as part of the Sigmund Freud Papers.

Copyright Status:

Copyright in the unpublished writings of Sigmund Freud in these papers and in other collections in the custody of the Library of Congress is reserved. Consult a reference librarian in the Manuscript Division for further information.

Scope and Content Note

The papers of Sigmund Freud (1856-1939) span the years from about the 6th century B.C. to 1998, with the bulk of material dating from 1871 to 1939. The collection documents Freud's founding of psychoanalysis including the birth and maturation of psychoanalytic theory, the refinement of its clinical technique, and the proliferation of its adherents and critics. Many facets of Freud's life and work are featured including his early medical and clinical training; his relationship with family, friends, colleagues, students, and patients; his association with early psychoanalytic societies; his perspectives on analytical training; and his numerous writings. The collection includes family papers, correspondence, holograph and typewritten drafts of writings, patient case files, legal documents, estate records, receipts, military and school records, certificates, notebooks, a pocket watch, a Greek statue, genealogical data, interviews, research files, exhibit material, bibliographies, lists, photographs and drawings, newspaper and magazine clippings, and other printed matter. The papers are arranged in ten series: Family Papers, General Correspondence, Subject File, Writings, Supplemental File, Interviews and Recollections, Artifacts and Paintings, Restricted, Closed, and Oversize. They are, for the most part, in German, English, and French.

The bulk of the collection consists of original documents, photocopies and other facsimiles, transcripts, English translations, and published editions collected and given to the Library of Congress by the Sigmund Freud Archives. The archives was founded in 1951 by a group of New York analysts, including K. R. Eissler, Heinz Hartmann, Ernst Kris, Bertram David Lewin, and Herman Nunberg, to collect Freud letters and writings which were at risk of being lost or destroyed in the aftermath of

World War II. Because Freud did not retain copies of his outgoing correspondence, letters written by him were geographically dispersed among his many correspondents. The archives succeeded in obtaining original Freud material through gifts, most notably Anna Freud's bequest, and through purchase. When unable to acquire original documents, it solicited copies, transcripts, translations, and printed editions.

The Family Papers series contains Freud's correspondence with members of the Freud and Bernays families. Included are exchanges with his mother Amalia Freud, his wife Martha Freud, and their children Ernst L., Martin, Mathilde Freud Hollitscher, Oliver, Sophie Freud Halberstadt, and Anna, the only one of Freud's children to become a psychoanalyst. Among Freud's correspondence with his wife are a series of courtship letters or “brautbriefe” written on an almost daily basis between 1882 and 1886. The letters detail Freud's activities, associations, and aspirations during the period following his graduation from medical school to the establishment of his private practice in Vienna. Extensive correspondence with his sisters, brothers, nieces, nephews, grandchildren, and in-laws reveals the part played by Freud as paternal head of a large and extended family. Among these letters is correspondence between Freud and Minna Bernays, his sister-in-law and close confidante. The series also contains correspondence between individual family members other than Freud as well as correspondence between family members and persons outside the family. Included are letters by several prominent individuals including Princess Marie Bonaparte, Ruth Mack Brunswick, C. G. Jung, and Otto Rank. A subject file containing legal documents, certificates, estate records, school records, writings, and printed matter also relates to Freud's family.

The General Correspondence series features Freud's correspondence with friends, mentors, colleagues, students, and patients spanning seven decades from his school days to his death in 1939. Nearly six hundred correspondents are represented in the series. At times, their correspondence is limited to a single letter to or from Freud. In other cases, the correspondence is extensive, revealing Freud as a prolific correspondent who frequently chastised others for a lack of similar diligence. The earliest of such correspondence consists of Freud's adolescent letters to friends Eduard Silberstein and Emil Fluss while a student at the Leopoldstädter gymansium and the University of Vienna. Freud's subsequent correspondence includes letters from individuals who influenced his early work including Josef Breuer and J. M. Charcot.

The formative years of Freud's psychoanalytic theories is detailed in his correspondence with Berlin physician Wilhelm Fliess. Beginning in 1887 and continuing until just after Freud's break with Fliess in 1902, these letters are among the more revealing in the collection. The series also contains Freud's correspondence with many of his earliest adherents, some of whom also later broke with him. The letters trace the development of a psychoanalytic movement that coalesced around Freud in the years following his break with Fliess. Included is correspondence with Karl Abraham, Alfred Adler, Franz Alexander, A. A. Brill, M. Eitingon, Sándor Ferenczi, Eduard Hitchmann, Ernest Jones, C. G. Jung, Oskar Pfister, Otto Rank, Theodor Reik, Hanns Sachs, Ernst Simmel, Wilhelm Stekel, and Edoardo Weiss, among many others. The Abraham, Brill, Eitingon, Jones, Jung, Pfister, and Reik correspondence includes original Freud letters. Prominent women in the field represented in the series include Lou Andreas-Salmoné, Ruth Mack Brunswick, Emma Eckstein, Jeanne Lampl-de Groot, and Joan Riviere. Princess Marie Bonaparte's correspondence with Freud is located in her papers in the Manuscript Division. Notable among Freud's patients with whom he corresponded is Sergius Pankejeff whom Freud referred to as the “Wolf-Man.” Other prominent correspondents include Albert Einstein with whom Freud corresponded on the nature of war, Carl Koller who shared Freud's interest in the medical uses of cocaine, and novelist and essayist Thomas Mann.

The Subject File series includes patient case files from the Allgemeines Krankenhaus in Vienna and the Bellevue Sanatorium in Kreuzlingen, Switzerland, largely during the 1880s. Copies of book annotations and marginalia by Freud provide glimpses into the development of his theories. His career is highlighted in a large file of newspaper and magazine clippings as well as material concerning the Goethe Prize he received in 1930 and the Nobel Prize which he coveted but never received. Calendars kept by Freud record his daily activities from 1916 to 1918. Freud's early life is documented by biographical data, birth and marriage certificates, and gymnasium, university, and military records. His departure from Nazi-controlled Austria and immigration to London in 1938 is tracked through American diplomatic cables and newspaper clippings. The series also contains letters and telegrams written on his death just over a year after his arrival in England.

The Writings series contains holograph and typewritten drafts, galley proofs, offprints, and published copies of many of Freud's writings. Because of the large format of many of these items, the material has been filed in the Oversize series. The writings range chronologically from an 1877 article on his early research on eels to portions of his last major work, *Der Mann Moses und die monotheistische Religion*, published shortly before his death. Included in the series are articles, case histories, portions of books, published letters, lecture notes, prefaces, introductions, a travel journal, chronologies, obituaries, bibliographic notes, and casual jottings. The writings are arranged and described largely according to the bibliographic sequence established by James Strachey in *Indexes and Bibliographies*, volume 24 of *The Standard Edition of the Complete Psychological Works of*

Sigmund Freud (London, 1974) and, for works published after 1974, by Ingeborg Meyer-Palmedo and Gerhard Fichtner, *Freud-Bibliographie mit Werkkonkordanz* (Frankfurt am Main, 1989).

The Supplemental File series consists of material about Freud's life and work written or collected by Freud associates and scholars. The bulk of the material dates after Freud's death. Apart from articles and other writings, the series includes material related to observances in 1956 of the centenary of Freud's birth; Norman Kiel's compilation of contemporary and posthumous reviews of Freud's published works; and a medical file comprising correspondence, notes, and case histories by Hans Pichler and Max Schur relating to Freud's illness with cancer. Lists and research guides include Gerhard Fichtner's bibliographies, chronologies, lists, and inventories of Freud's correspondence and writings. Also included are auction catalogs listing the sale of Freudiana and lists of Freud's lectures and students at the University of Vienna. Miscellany at the end of the series consists primarily of printed matter including a clipping file dated largely between 1954 and 1979 which traces scholarly and popular treatment of Freud in the decades following his death.

The Interviews and Recollections series was compiled by K. R. Eissler, a founder and longtime secretary of the Sigmund Freud Archives. More than three hundred of Eissler's interviews with Freud's associates, patients, and family are included in the series, most of them conducted in the 1950s. The series contains transcripts, some with corrections by the interviewee, and summaries of interviews, usually made when the subject requested that the interview not be tape recorded. Audio recordings that were made have been transferred to the Library's Motion Picture, Broadcasting, and Recorded Sound Division. Among those interviewed by Eissler are family members Anna Freud Bernays, Anna Freud, Ernestine Drucker Freud, Harry Freud, Oliver Freud, Judith Bernays Heller, and prominent associates such as Franz Alexander, Ludwig Binswanger, Felix Deutsch, Eduard Hitschmann, Edith Banfield Jackson, Ludwig Jekels, Sergius Pankejeff, Oskar Pfister, Theodor Reik, Joan Riviere, Philipp Sarasin, Hermann Swoboda, and Edoardo Weiss. Also included in the series are recollections about Freud contained in letters, writings, and notes either addressed to or collected by Eissler.

Many of Eissler's interviews and recollections are located in the Restricted and Closed series. Apart from interviews and recollections, other items in the Closed series including correspondence and patient case files have been reviewed for patient names. Photocopies of these items with the names of patients obscured have been placed in the unrestricted series.

Artifacts in the collection consist of Freud's pocket watch which he gave to his personal physician Max Schur and a small Greek statue which Freud kept on his desk and later gave to Angelika Frink. The collection also includes two oil portraits of Freud.
