Pinkerton's Geography.

THE Subſcribers to the reviſed edition of PINKERTON'S MODERN GEOGRAPHY, are informed, that the firſt volume is juſt publiſhed, and may be had in a few days at,

Rapine, Conrad, & Co's.

New Jerſey avenue, near the Capitol, where they are requeſted to call or ſend for their copies. The publiſhers have uſed their beſt endeavors to make the work deſerving of the very liberal encouragement afforded to it by the public, and equal in all reſpects to the Engliſh quarto edition which ſells for nearly three times the price. The geography of this country is reviſed and conſiderably augmented by Dr. Benjamin Smith Barton; the American maps drafted by Samuel Lewis, principally from actual ſurveys; and engraved by Harriſon, Lawſon, and Tanner; careful attention has been paid to correcting the preſs, to binding, and to every thing that would inſure to the publiſhers the approbation of the ſubſcribers. Subſcriptions will be received at twelve dollars per copy until the work is completed, when it will be raiſed to fifteen dollars.

Character of Pinkerton's Geography from the New Annual Regiſter, for 1802.

" Mr. Pinkerton may well ſay that this Geography is digeſted on a new plan. It forms in reality a new era in the ſcience, or rather for the firſt time ſcientifically arranges that which till now was poſſeſſed of no ſcientific features whatever. Mr. Pinkerton is a moſt attentive inveſtigator; he is not ſatiſfied with ſimply copying from his predeceſſors; he has examined for himſelf, his authorities moreover ſo far as we have been able to trace them are of the higheſt repute, and that he has examined for himſelf he ſufficiently proves by offering for the firſt time his references to the eye of the reader.

" Curtailing the uſual introductory routine of the planetary ſyſtem, its laws, phaſes and terreſtrial influence, and the political hiſtory of the various countries he deſcribes, he has properly ſupplied their exuberance with that which is an integral and eſſential part of Geography, although hitherto never admitted into publications upon this ſubject, the hiſtory or progreſſive political changes of the ſtates that paſs in order before him——accounting for the riſe and variation in the names of their different diſtricts—their appropriate meteorology, ſoil, agriculture, botany and zoology. The maps and charts are delineated with peculiar preciſion; they are the joint production of Meſſrs Arrowſmith and Lowry, and to theſe the author principally refers in all his verbal deſcription, as with ſtrict juſtice he may, for a more clear and definite comprehenſion of the large rivers and mountains that occur to him in his progreſs."

This lottery has been authoriſed by the legiſlature of Virginia, for the laudable purpoſes of erecting a ſeminary of learning in or near the metropolis of this ſtate. With this view, it is contemplated to raiſe 20,000 dolls. and 2,500 dolls. in addition, for defraying the expences attendant on drawing the lottery. Citizens of the firſt reſpectability have been ſelected as truſtees, and they have pledged themſelves to uſe their utmoſt exertions to carry it into effect. The ſcheme has the advantage of giving to each adventurer, a chance for ſome very large prizes, whilſt the proportion of prizes to blanks, is ſo great as to invite the friends of the intended inſtitution to partake in the lottery, with very little riſque of their becoming loſers. The treaſurer of the ſtate is to be appointed to receive the money for the tickets as they are ſold, and to pay the amount of the prizes to the fortunate adventurers. It is believed that the above conſiderations will induce a rapid ſale of tickets, and the drawing will commence as ſoon as a ſufficient number ſhall be ſold to authoriſe it——which it is believed will be on the ſecond Monday in December next.
