American Printed goods.

Calicoes, Shawls, Pocket Handkerchiefs, &c. manufactured by the subscribers near Baltimore, and sold at No. 13 Calvert street.

TO remove that diftruft often felt refpecting new undertakings, and fo prejudicial to manufacturing attempts in America, they think it proper to obferve, that nothing is wanting in the bufinefs to enable good artifts to perform their work here as well as in Europe. That they have thefe artifts; that two of the partners were bred to the bufinefs in a factory of the beft repute carried on by their father, & long afterwards by themfelves. They truft that while foreign goods are received without a queftion, an unreafonable fufpicion will not prevent their countrymen from giving that trial to their goods, which only can prove their value. Befides a natural doubt, they know that certain interefts, national as well as well as individual, will fuggeft objections to their undertaking. They have no difficulty in faying, that work of the like kind fhall be as well executed here, as in other countries. The colors capable of being fixed, will be found as permanent; the cloths perhaps better fubftance, and the prices lower than of the imported cottons.

Herford's diftillery and about half way between the Capitol and the Prefident's houfe, as alfo between the Theatre and Centre Market; for which he refpectfully folicits a fhare of the public patronage; his charges will be moderate, correfponding with Pennfylvania tavern rates, as to victualing, lodging, liquors, &c. and horfe feed as markets will permit—he deems it unneceffary to exaggerate as is ufual on fuch occafions, or to ftile his houfe by the ufual epithets of, large, beft, commodious, &c. as probably no occupation has more ready means of recommending and advertifing its own convenience than that of tavern keeping: he muft however inform fuch of his friends, who wifh to take boarding for a time, and have their lodging rooms retired or diftinct from the tavern, that he has rented the houfe oppofite his own buildings lately built by Mr. Young, which is fuitable for that purpofe.
