PAX. LETCHWORTH. ENGLAND

Dear Mr. Moffat,

I am thankful to say that I hope I am gradually getting better in health, & trust that I may be well enough to travel soon. But as I require to be in England after the middle of April, (& through the summer,) I am not sure that it may not be wiser to postpone coming to Egypt again until the

Autumn. Then I could stay on for several months, if necessary, & I should have more hope of being able to compile a really "standard" work. Will you kindly let me know, by return, what you think? I have interested several people in the forthcoming book, & have received an advance order; & I think it may help to form another link, between East & West, of great value.

Yours v. truly,

Ernest Musolandsmith
