ST. EDWARD'S HOUSE,
GREAT COLLEGE STREET,
S.W.1.

As by the blessings & grace of Our Lord after working some years in the Ancient Coptic Music we ~~by~~ have found gems of divine art for praising Him in His Glories & the bringing of the Spirit of man ~~in~~ in one with the divine spirit,

& as this is to add new Art to the divine world not known to it since its earlier blessed days,

we feel led by the Holy Spirit to forward this to all those who want to drink of the living waters of heavens,

on the divine lines & principles & that is in so much that we mean nothing but divine

& if we feel oblidged to go to some worldly paper or

institute ~~institute~~ God knows that we are on His side for otherwise we have to get entirely out of the world

The means

1) Devotional Services in some Churches
2) Articles in the Musical Standard & daily papers
3) Recitals & Lectures in the Royal Academy, Oxford & Cambridge
4. Invitations to the concerned authorities if they want to say their opinion about our work & to be in connection with institutes ~~for~~ or societies of divine music if there is any

N.B Special invitations are to be made for the meetings
