Broadway Doctor go to town
Everybody scrub
B'way doctor
Everybody scrub
When you see an MD on a musical spree
you know he will go far
When a Broadway Doctor opens his mouth
and says "Ah!"

When you're a doctor you're a Dr.
When you're a nurse you're a nurse
When you're a nurse you're not a Dr.
" " " Dr. " " " nurse -
But when you're an intern you're a star
Yeah! - with two names
Ben Casey Ben Casey

I've got those TV doctor blues
I absolutely refuse
To wake them ~~[illegible]~~ alone
Over any old cadaver
The prop man decided to choose

You don't need Dr Kildare
" " " Dr Casey
What you need is a ~~B'way Doc~~ specialist like me
Even ol' Doc Gillespie
He does not know the rec'pe
Because he is an MD on TV
But a B'way physician
Understands the tradition
And knows all else above
Whatever your psychosis
the only diagnosis is
You're not sick you're just in love —

I am not Doc Gillespie
And I don't know the rec'pe
That'll cure all you dizzy dames
So ahead of you Kildare
Go and call Dr. Kildare
Or that ~~the~~ big fell a with 2 names

Not in medical annals
But on all TV channels

You're a classical hebdic
That was started by Medic
And it grows as the season goes
It is just a new disease
Started by TV MDS
You're just sick of Dr. Dr. Gloss

B'way Doctor you got me everybody scrub

Mr Dr Patient nurse

I hear music (there, it comes to me)
It's my stomach gurgling way off key
Both my elbows have got consumers
knee
And when I cough my nose falls off

I keep eating like my sleep at night
And what's more I have no my appetite
And I swim without a molecule
of water in the pool

I go swimming like a crazy fool
But there is no water in the pool
Half the time I know that Fred Astaire
Is in my frigidaire
I wonder why.
