FOR PUBLISHING BY SUBSCRIPTION,

PYRROLOIMOGIA,
Or, an Inquiry into the
PESTILENCE CALLED THE YELLOW FEVER.

CONTAINING the history of its symptoms and prevalence in different parts of the world; a comparative statement of all controversies respecting its origin, modes of propagation and treatment; with an attempt towards a new theory of the electrical phenomena and galvanic influence arising from terraqueous & putrid exhalations, which explains the causes of pestilential diseases, their remedies and preventative.

By FELIX PASCALIS, M. D.
Of New York,

Formerly Physician and Member of the Board of Health in the state of Pennsylvania, Honorary Member of the Medical Societies of Philadelphia, and of Connecticut and Associate to other American and European Literary institutions.

The author has been a medical practitioner in Philadelphia during seven epidemical recurrences of the Yellow Pestilence. To enlarge the sphere of his experimental observations on that interesting subject he has lately travelled in the south of Spain, and also visited South Carolina, where that disease has by many, been supposed to be endemic. With so many motives to trust to his opinions, the author wishes notwithstanding to be honored with the support of the learned in the U States, who have had so many more opportunities than those of Europe to exercise their judgment on a subject highly important to the welfare of this country—a country with which many European nations frequently interdict the intercourse of their subjects as if it were absolutely the abode of pestilence. Whatever claims the author may imagine he derives from his experience, he will, however, thankfully receive any documents contrary to the theory he proposes. He, therefore, respectfully solicits communications tending either to establish or to invalidate the truth of an Electrical and Galvanic influence, &c. as a cause of pestilential diseases. Such interesting papers on these subjects as he shall be favored with previously to the first of November next (post paid) will be gratefully acknowledged and duly noticed, unless otherwise requested.

CONDITIONS.

This work shall be printed in a handsome style, on fine wove paper and new type, as soon as a sufficient number of subscribers shall be obtained to defray the necessary expences.

It will be comprised in two volumes octavo, each volume containing more than 300 pages; to be delivered to subscribers in boards at Five Dollars the set, or handsomely bound and lettered at Six Dollars.

Subscriptions received at the Courier-office No. 1. Broad-street.

PROPOSALS
FOR PUBLISHING
A
Geographical Description
OF ALL THE
STATES & TERRITORIES
IN THE UNION,

In separate volumes; with a particular and correct description of the several counties and towns, in each state. Illustrated with Maps,

By JOSEPH SCOTT,
Author of the United States' Gazetteer, the Modern Geographical Dictionary in 4 vol. oct. a Geographical Dictionary of the United States of North America, &c. &c.

THE geographical description of each of the larger states, with the counties, towns, &c. will form a neat little volume of about 150 pages. Two of the smaller states may form a volume, or one of them may be comprised in the same volume with a larger adjoining state, as Maryland and Delaware.

Each volume will be compleate in itself; so that subscribers may take one, two, &c. or the whole number. The paper, type, and size of the page, will exactly correspond with the description of Pennsylvania, now published; so that subscribers for the whole may have two or more bound together to suit their own taste.

They will be published neatly done up in in boards.

The description of each state will be embellished with a handsome map.

It is supposed that the whole will amount to about FOURTEEN LITTLE VOLUMES. A general description of the United States will be given in the last, which will render the whole the fullest, and most correct geographical description of the United States, that has hitherto been published.

The plan, which the author has adopted, is the most comprehensive that could be suggested, as it will comprise under proper, and distinct heads, every thing worthy of notice.

No money will be required till on the delivery of the work.

The Price of each Volume will be Fifty Cents.

The next volume will contain,
A Geographical description of MARYLAND and DELAWARE, illustrated with a Map of each state.

The work is nearly ready for the press, and will soon be published.

☞ The Editors of newspapers, in Maryland, are requested to insert the above proposals twice. They will be paid on the publication of the work.

JUST PUBLISHED.
AND FOR SALE,
At Mr. Morford's and Bailey and Wallace's Book stores, Broad-street, and at the Courier Office,
PRICE, 18 1-2 CENTS;

A pamphlet on the importance of cultivating the BOURBON COTTON, by the Agricultural Society of the Bahama islands.

The very great importance of this pamphlet to the Planters of this state, and every other cotton country, has induced its publication. It consists of copious extracts of letters from Cotton Planters of the different islands; and the amount of their general evidence is that the Bourbon Cotton is decidedly preferable to the Anguilla or Georgia Cotton; that it is of quick growth and produces earlier than the common cotton; that it yields about 150 lb of clear cotton to the acre; but the greatest advantage is, that it is secure from the ravage of the caterpillar, which so often blasts the hopes of our planters.

This subject is deserving the attention of our planters, and this pamphlet is recommended to their examination as the probable means of increasing the value of their crops.

CHASE'S TRIAL.

This day is Published
By SAMUEL H. SMITH.

TRIAL
OF
SAMUEL CHASE,

AN ASSOCIATE JUSTICE *of the Supreme Court o the United States,*

IMPEACHED
By the House of Representatives, for HIGH CRIMES AND MISDEMEANORS, before the *Senate o the United States.*

Taken in short hand,
By SAMUEL H. SMITH & THOMAS LLOYD.

In Two large Octavo Volumes—in Boards, price—to subscribers four dollars and a half—and to non-subscribers five dollars.

A much greater delay has been incurred in the publication of this trial than the Editor contemplated. He has, however, the satisfaction of saying that no effort has been omitted by him to give it to the public at an earlier period. The delay has arisen from the revision of the speeches of the Managers and Counsel. The publication might long since have been made in a less perfect dress; but it was deemed highly desirable that in a case, which, independently of its own importance, might be a precedent in future times, to sacrifice time rather than precision. The work now appears before the public with the expectation of the Editor that it will be considered as meriting the character of an impartial, comprehensive and faithful statement of facts. All the speeches have been revised, and inserted at length, in connection with whatever else formed a part of the trial.

Editors of other prints will confer a benefit by inserting this advertisement a few times in their papers.

BY ORDER
OF THE
PRESIDENT
OF THE UNITED STATES,
General Post Office, August, 15th 1806.

PROPOSALS will be received at this Office until the 15th day of December next inclusive for making and repairing the several parts of the Post Road from Nashville to Natchez, hereinafter mentioned—that is to say:

No 1. From Nashville to Buffaloe Creek. The distance is estimated at 154 miles—All this distance, or the principal part of it, the road has been cut out by the military & prepared conveniently for use some few years since.

No. 2. From Snake Creek to Grindstone ford. Distance estimated at 40 miles. This part of the route, was likewise, some years since, cut out by the military and the road prepared for public use.

The route marked out some years since by Edmund P Gaines, esq. will be pursued the whole distance excepting the space between the Chickasaw towns and the first fording place of the waters of the Big Black which will be resurveyed, with a view of materially lessening the distance.

The road is to be made and completed by the first day of October in the year 1807, and the work is, in all respects, to be done to the approbation of Return Jonathan Meigs, esq. or Thomas Wright esq agent for the United States, residing in the Indian countries. In making the same the following rules are strictly to be observed.

1st. The road must be made at least twenty feet wide, and all the timber and under brush taken off for that distance.

2nd. All marshy places are to be causewayed, and all causeways are to be at least ten feet wide.

3d. All streams under forty feet in width, not fordable at their common winter tide, are to be bridged, by good secure bridges, well built and made safe and secure for passage, the bridges to be at least twelve feet wide.
