WHEREAS the commissioners of the Sinking fund, at a meeting held on the 28th day of April, 1806, did resolve, that the sum remaining to complete the expenditure of the annual appropriation of eight MILLIONS of DOLLARS, should among other purposes be applied to the reimbursement of the navy six per cent. stock, created in pursuance of an act of Congress passed on the 30th day June, 1798 and to the reimbursement of the five and half per cent. stock, created in pursuance of an act of Congress, passed on the 3d day of March, 1795.

PROPOSALS

FOR PUBLISHING A

Geographical Description

OF ALL THE STATES & TERRITORIES IN THE UNION,

In separate volumes; with a particular and correct description of the several counties and towns, in each state. Illustrated with Maps,

By JOSEPH SCOTT,

Author of the United States' Gazetteer, the Modern Geographical Dictionary in 4 vol. oct. a Geographical Dictionary of the United States of North America, &c. &c.

THE geographical description of each of the larger states, with the counties, towns, &c. will form a neat little volume of about 150 pages. Two of the smaller states may form a volume, or one of them may be comprised in the same volume with a larger adjoining state, as Maryland and Delaware.

Each volume will be complete in itself; so that subscribers may take one, two, &c or the whole number. The paper, type, and size of the page, will exactly correspond with the description of Pennsylvania, now published; so that subscribers for the whole may have two or more bound together to suit their own taste.

They will be published neatly done up in boards.

The description of each state will be embellished with a handsome map.

It is supposed that the whole will amount to about FOURTEEN LITTLE VOLUMES. A general description of the United States will be given in the last, which will render the whole the fullest, and most correct geographical description of the United States, that has hitherto been published.

The plan, which the author has adopted, is the most comprehensive that could be suggested, as it will comprise, under proper, and distinct heads, every thing worthy of notice.

No money will be required till on the delivery of the work.

The Price of each Volume will be Fifty Cents.

The next volume will contain,

A Geographical description of MARYLAND and DELAWARE, illustrated with a Map of each state.

The work is nearly ready for the press, and will soon be published.

☞ The Editors of newspapers, in Maryland, are requested to insert the above proposals twice. They will be paid on the publication of the work.

JUST PUBLISHED.

AND FOR SALE,

At Mr. Morford's and Bailey and Wallace's Book stores, Broad-street, and at the Courier Office,

PRICE, 18 1-2 CENTS;

A pamphlet on the importance of cultivating the BOURBON COTTON, by the Agricultural Society of the Bahama Islands.

The very great importance of this pamphlet to the Planters of this state, and every other cotton country, has induced its publication. It consists of copious extracts of letters from Cotton Planters of the different islands; and the amount of their general evidence is that the Bourbon Cotton is decidedly preferable to the anguilla or Georgia Cotton; that it is of quick growth and produces earlier than the common cotton; that it yields about 150 lb. of clean cotton to the acre; but the greatest advantage is, that it is secure from the ravage of the caterpillar, which so often blasts the hopes of our planters.

This subject is deserving the attention of our planters, and this pamphlet is recommended to their examination as the probable means of increasing the value of their crops.

CHASE'S TRIAL.

This day is Published

By SAMUEL H. SMITH.

TRIAL OF SAMUEL CHASE,

An ASSOCIATE JUSTICE *of the Supreme Court o the United States,*

IMPEACHED

By the House of Representatives, for HIGH CRIMES AND MISDEMEANORS, before the *Senate o the United States.*

Taken in short hand, By SAMUEL H. SMITH & THOMAS LLOYD.

In Two large Octavo Volumes—in Boards, price—to subscribers four dollars and a half—and to non-subscribers five dollars.

A much greater delay has been incurred in the publication of this trial than the Editor contemplated. He has, however, the satisfaction of saying that no effort has been omitted by him to give it to the public at an earlier period. The delay has arisen from the revision of the speeches of the Managers and Counsel. The publication might long since have been made in a less perfect dress; but it was deemed highly desirable that in a case which, independently of its own importance might be a precedent in future times, to sacrifice time rather than precision. The work now appears before the public, with the expectation of the editor that it will be considered as meriting the character of an impartial, comprehensive and faithful statement of facts. All the speeches have been revised, and inserted at length, in connection with whatever else formed a part of the trial.

Editors of other prints will confer a benefit by inserting this advertisement a few times in their papers.

Proposals

FOR PUBLISHING BY SUBSCRIPTION,

PYRROLOIMOGIA,

Or; Inquiries into the PESTILENCE CALLED THE YELLOW FEVER.

CONTAINING the history of its symptoms and prevalence in different parts of the world; a comparative statement of all controversies respecting its origin, modes of propagation and treatment; with an attempt towards a new theory of the electrical phenomena and galvanic influence arising from terraqueous & putrid exhalations, which explains the causes of pestilential diseases, their remedies and preventatives.

By FELIX PASCALIS, M. D. Of New York,

Formerly Physician and Member of the Board of Health in the state of Pennsylvania, Honorary Member of the Medical Societies of Philadelphia, and of Connecticut; and Associate to other American and European Literary institutions.

The author has been a medical practitioner in Philadelphia during seven epidemical recurrences of the Yellow Pestilence. To enlarge the sphere of his experimental observations on that interesting subject, he has lately travelled in the south of Spain, and also visited South Carolina, where that disease has by many, been supposed to be endemic. With so many motives to trust to his opinions, the author wishes notwithstanding to be honored with the support of the learned in the U. States, who have had so many more opportunities than those of Europe to exercise their judgment on a subject highly important to the welfare of this country—a country with which many European nations frequently interdict the intercourse of their subjects as if it were absolutely the abode of pestilence. Whatever claims the author may imagine he derives from his experience, he will, however, thankfully receive any documents contrary to the theory he proposes. He, therefore, respectfully solicits communications tending either to establish or to invalidate the truth of an Electrical and Galvanic influence, &c. as a cause of pestilential diseases. Such interesting papers on these subjects as he shall be favored with previously to the first of November next (post paid) will be gratefully acknowledged and duly noticed, unless otherwise requested.

CONDITIONS.

This work shall be printed in a handsome style, on fine wove paper and new type, as soon as a sufficient number of subscribers shall be obtained to defray the necessary expenses.

It will be comprised in two volumes octavo, each volume containing more than 300 pages, to be delivered to subscribers in boards at Five Dollars the set, or handsomely bound and lettered at Six Dollars.

Subscriptions received at the Courier-office No. 1. Broad street.

60 DOLLARS REWARD.

RANAWAY from the subscriber living in Prince George's county on Sunday the 29th inst. the three following slaves—a mulatto young man who calls himself BILL STEWART, he was born at Montgomery court house, was once the property of Horace Martin, was purchased of him by the late Rich. Contee who sold him to me; he is a likely well made fellow about 21 years of age, 5 feet 10 inches high, his hands and feet are large, the evening before he absconded he had his hair cut close; he had with him a variety of clothing, viz. 1 blue coat and overals, one light colored bearskin coat and overalls, 2 swansdown waistcoats 3 fine Irish linen shirts and some coarse shirts, three muslin neckcloths, a fine hat, price 7 dollars; he took away a prayer book, in the first page of which is written Mary Duckett.

JOE who calls himself Joe Grimes, alias Graham, and HARRY, both young negro men about 21 years of age—the clothing of these cannot be described. Joe has one of his arms broken near the wrist, which makes it longer than the other; when he is spoken to he speaks fast as if his tongue was too large for his mouth. Harry, I am informed has several large scars on his body and one of his thighs occasioned by burns when he was young.

The above reward will be paid for confining the three in jail, or 20 dollars for confining Bill in jail so that I get him again.

WALTER BOWIE.

Twenty Dollars Reward.

WILL be given for apprehending and securing in jail a young Mulatto man slave named ANDREW. He was hired by me last year to Mr. Joseph Thomas who keeps the said ferry to Alexandria, and absconded from that place about the last of August last. He is about 23 years of age, 5 feet 8 or 9 inches high, lusty and well made, has short curly hair, and is frequently subject to have several large pimples on his face. He is reckoned to be a sensible fellow of an easy agreeable address for a man in his low sphere of life. As he has not been heard of by me since his elopement, I suspect he has had the address to ship himself as a freeman on board some vessel either at Alexandria or Baltimore. Whoever takes him up and secures him so that I receive him from the above reward, or as soon due information thereof is given to me or to Dr. N. P. Causin at Port Tobacco.
