Salute! A Golden Star Is Passing By

Words and Music
By
Donald T. Austin

Hats off a golden star is passing by No matter who they are or whence they come What

matter now the deeds of other year We know they gave their all that we might live Brave sons have gone to answer

Freedom's call we cheered with joy we know they gave their all. See you grey head wrinkle care worn old but

on his coat the gleams star of gold. Salute! a golden star is passing by

not her sacrifice to Freedom made And millions more will gladly give their lives un

till the debt to Liberty is paid Till every star in Heaven shall turn to gold and

every home shall help to bear the cross. Well gladly send the blue stars over ther and gladly

take the gold stars sent to us. Sa- us.
