Fredericktown Maryland.

This is to certify that agreeable to a contract with us, the subscribers, appointed by the Legislature of this state, Managers of a Lottery to raise money for such purpose, the bearer, *John Achman*, has constructed a FIRE ENGINE, which we have accepted as fully complete. It throws water through a tube 3 4ths of an inch diameter, 100 feet distance, and through a hose of 104 feet in length, with a tube 1-2 inch diameter, the additional distance of 70 feet. The plan on which this Engine is constructed, is new to us, and he says is according to the late improvements. The box is made of copper, the pumps of brass, and the rest of the works of iron, on four wheels adapted to the convenience of such occasions as may require its use. We further certify, that we consider Mr. Achman as possessing a competent knowledge of the mechanism of this description, from the above specimen of his work.

Given under our hands this 24th day of June, 1808.

20 *DOLLARS REWARD.*

RAN AWAY from the subscriber on the 28th *May*, a negro man named BAPTIST, about 21 or 22 years old, 5 feet 6 or 8 inches high, well made, is neither black nor yellow—had on when he went away a pair of dark corded pantaloons, a home spun round about cotton waistcoat with large red spots, a felt hat half worn, but he will probably change his cloathing; he plays the fiddle and is somewhat knock kneed, walks with his toes well out, tells different stories when examined and will try to make his escape. I suppose he has made for St. Mary's county, where he was born, as he was seen near the Long Old Fields, on the day that he left home. *Whoever* takes him up and secures said fellow so that I get him again shall receive the above reward, and if brought home all reasonable charges paid by me.
