10 DOLLARS REWARD,
For a GOLD REPEATER, LOST.

ON the last of January or 1st of March was lost by a person in the city of Washington, a small Gold Repeater, the figures on her face being red. The watch is one which may be easily known, being remarkable on account of the bell having been broken and repaired again. The cap was perforated all round with small holes.

As this watch was supposed to have been taken by a person of color, the above reward and all charges will be paid to any person delivering her to Mr. Wood, Watchmaker, Navy Yard, or Mr. Barnett, George Town.

WILL BE PUBLISHED
IN A PAMPHLET AT THIS OFFICE IN SHORT TIME,
AN ADDRESS

To the People of the United States on the importance of encouraging AGRICULTURE AND DOMESTIC MANUFACTURES:

Tending to shew that by a due encouragement of these essential interests, the nation will be rendered more respectable abroad and more prosperous at home.

Together with an account of THE IMPROVEMENTS IN SHEEP AT ARLINGTON.

The native sheep of Smith's Island, & the plans proposed of extending this valuable race of animals, for the benefit of the country at large:

BY GEORGE W. P. CUSTIS, Esq. *Of Arlington House, in the District of Columbia.*

At a time when the energies of the nation seem awakened to the state of our foreign and domestic concerns, we conceive that the important interests of agriculture and manufactures should meet with a considerable share of the public discussion. Certain it is, that at no period of our political history could these national subjects excite more interest or be more properly urged to the notice of the public mind. The unsettled and impending appearance of our foreign affairs, and the present disturbed state of the European world, renders it doubly necessary for the citizens of America to cherish and promote their domestic policy, whereby they may derive those resources which are now obtained from abroad and create wealth and industry within themselves. Too long have these important and patriotic interests been neglected. The nation now feels their want, and we trust will duly provide for their support. Government, hitherto engaged in other concerns, will now cherish those domestic institutions, which will preserve the nation's dignity and promote the people's welfare.

Of the merits of the little work we are about to issue to the public, it is not our province to decide, but of the advantages to be derived from its sale we would beg leave to say every thing which a disinterested exertion in the cause of domestic manufacture justly demands. And as the profits of this work, after the expences of publication are paid will be solely devoted to the purposes of the Arlington Institution, we may hope and confidently expect a liberal patronage from a discerning and patriotic community.
