"America's Aeroplanes In German Skies". By James A. Mulvey.

1.

When our airmen take a flight they will go up out of sight;
Then they let loose that bomb and what a ruction down below
For then you'll hear all the Germans squall and you will hear them holler oh!oh!oh

CHORUS.

What an eruption down below-and you'll hear them holler oh!
When all the Yankee aeroplanes so swift and high fly in German Skies
When the Americans take a flight they're not afraid to go out of sight;
So what an eruption down below when you hear them holler "Oh"!.

2

Look up in the sky and seewhere Americans now flee,
Out,out with mister Zeppelin who's looking for a Yankee plane;
But he's taken,now,another lane that will surely land him home again.

3

Mister German Zeppelin,he goes prowling round and round,
At last our plane it takes a dip and then you'll hear the Zeppelin rip
And then such a squalling you never heard as they go falling to the ground.
