English Upholstered Pieces of Most Unusual Quality

We have just received an importation of London-made Upholstered Chairs and Lounges which we can recommend as the most remarkable example of the upholsterer's craft that we ever have offered. It is generally conceded that the leading English makers have attained a higher standard of quality in this field than is possible elsewhere. The rare combination of rigid strength and deep, soft, luxurious back and seat found in these pieces has been widely copied, but never in a way to rival the originals. Owing to the conditions abroad, it is very likely that our present showing may be the last importation of this highly desirable furniture for an indefinite time. An early selection is therefore advisable.

What is Economy in a Refrigerator?

Compared with the ice expense, the first cost shrinks into insignificance. The Refrigerator which is thoroughly efficient with the smallest consumption of ice is unquestionably the least expensive in the end.

BOHN SYPHON REFRIGERATOR

is enabled by the Syphon System of rapidly circulating pure, dry air, to keep its temperature down to 40°. Naturally ice melts very slowly at only 8° above freezing. Moreover the insulation of the Bohn Refrigerator is the most effective ever devised for heat resistance. Besides the wood cases and lining, the walls have 7 heat-resisting layers, including two of Flaxlinum, the exclusive Bohn insulating material. It is significant that practically all Refrigerator and Dining Cars in use today are equipped with the Bohn System. The Car Builders Know!

CAUTION!—Do not confuse so-called "elastic enamel," "French enamel," "baked porcelain," and similar linings, which usually are nothing but enamel paint over tin or wood, with the genuine porcelain lining in Bohn Refrigerators.

Model No. 43, Style A, (illustrated above,) size 39x21¼x48½ inches, ice capacity 125 pounds, price $50, is an exceptional value. Our very large line of refrigerators meets every requirement of both size and price. Call or write for illustrated catalog.
