'Tis ſaid he has a brother ſomewhere in the weſtern country, if ſo, it is probable he has gone to him—He uſually rode a grey mare, which it is ſuppoſed he rode away, as ſhe is miſſing from his farm.

United States of America.

Fifth circuit, Virginia district, May term, 1803.

Under a decree of the ſaid court, We the commiſſioners will expoſe for public ſale, on the premiſes, at 12 o'clock on Friday the 30th day of September next, *that valuable and extensive*

F A R M,

CALLED Mount Salus, alias Millthrope, lying in Fairfax county, on Difficult and Wolf Trap runs, containing by deed 550 acres, and by ſurvey 673 acres. The manſion houſe is on a high healthy and agreeable ſituation, convenient to which are ſprings of good water—The houſe is 40 by 18 feet, two rooms on a floor, with a nine feet paſſage and ſtair caſe, two brick chimnies, with a fire place to each room, a piazza the whole length of the front, a cellar 40 by 18 walled with ſtone and divided into two apartments. There are ſeveral ſmall buildings near the manſion houſe and garden. There are alſo a valuable merchant and griſt mill, ſaw mill, diſtillery, miller's houſe and overſeer's houſe. The mill houſe is 40 by 30, two ſtories high, half the lower ſtory of ſtone, the other part framed work, and covered with ſhingles. There are one pair of burr, and one pair of Cologne ſtones, three bolting cloths almoſt new, and one ſcreen, all now in uſe in manufacturing wheat and grinding griſt. The ſtill houſe 40 by 30, one ſtory high, walls of ſtone and ſhingled roof, the floors planked, the upper laid for malting grain, and troughs fixed round the whole houſe, conſtructed to carry water to every veſſel which may need it. Three ſtills and one boiler can be worked to advantage in ſaid houſe. The waters of Wolf Trap, on which the mill and ſaw mill ſtand, are conſtant ſtreams. The ſituation for country cuſtom, or purchaſing wheat is exceeded by none in the county or neighborhood, not being more than 17 miles from Alexandria and 13 from George Town, where there are excellent markets for country produce of every deſcription; and about 14 miles from the city of Waſhington. The land is fertile and productive, and the ſoil well adapted to received improvement from the uſe of plaiſter of Paris. There are upwards of 3000 pannels of fence on the land, about 160 or 170 acres of well timbered land belonging to the tract. There have been nearly 20 acres of timothy made, lying on Wolf Trap and Difficult runs, 50 acres more may be made at a ſmall expence. This farm enjoys many natural advantages, which are unneceſſary for us to mention, it being taken for granted that any perſon wiſhing to buy ſuch property will avail themſelves of the opportunity of viewing the premiſes previous to the day of ſale.

The terms of which are, one third of the money to be paid on the day of ſale, (at which time deeds will be made to the purchaſer) one third in ſix months, and the other third in 12 months, with the intereſt accruing on the two laſt payments from the day of ſale. A deed of truſt will be expected to ſecure the laſt payments.

Some informality in the decree prevented the ſale agreeably to the former notice This defect being obviated by the parties, the property will moſt certainly be ſold as now notified.

Captain James Wiley, reſiding near the land, will ſhew the premiſes, and alſo a plat of the ſurvey, which is left with him for the information of thoſe concerned. The title papers will be exhibited on the day of ſale.

JAMES WILEY,

DANCING.

MR. NUGENT, heretofore a principal dancer at the Theatres of Philadelphia and Charleſton, reſpectfully informs the public that he intends to teach the art of dancing in the city of Waſhington and George Town. He was regularly bred to that art in France, and has been aſſiſtant to Mr. Second the moſt eminent dancing maſter in the city of Bath. He is recommended by Mr. Francis, ballet maſter of the Philadelphia Theatre and dancing maſter, and by Mr. Quesnet, dancing maſter in Philadelphia. He thinks it neceſſary thus to inſiſt on his qualifications, from having ſeen in various parts of theſe ſtates men pretend to teach dancing, who, he believes, never received a leſſon from a dancing maſter. He will commence ſchool in George Town, on Monday the 12th inſt. at Mr. Ritchie's in High ſtreet, where further particulars may be known. Commands from the city of Waſhington directed to him at Mr. Ritchie's George Town, will be punctually attended to.

Mr. Nugent wiſhes to hire a room convenient for a Dancing School, in the city of Waſhington.

A CARD

H. O. HEBERT (from Philadelphia) ſolicits the attention of the citizens of Baltimore in general, and invalids in particular, to his "Air Pump Vapour Bath," a machine conſtructed on true philoſophical principles, the efficacy of which in gout, rheumatiſm, palſy, contractions and enlargements of the joints, withered and enlarged limbs, cutaneous and many other diſeaſes, both chronic and acute, can be teſtified by many reſpectable perſons who have had recourſe to it.

This machine comprehends, and combines the application of fomentation and the cupping glaſs, two of the moſt powerful external applications for the removal of diſeaſe, and that on a plan more extenſive than was ever before known.

As many perſons who have never ſeen the apparatus might be deterred from uſing it, either from the reports of prejudiced perſons, or fear, they are reſpectfully aſſured that its application is not attended with either pain or inconvenience.—It poſſeſſes all the good effects of warm bathing, without its attendant conſequences, debility and relaxation; on the contrary, it invigorates and ſtrengthens the whole ſyſtem, but particularly the part to which the machine is applied. Perſons deſirous of further information reſpecting the nature and effects of this machine, will pleaſe to apply to the proprietor, at No. 5, Eaſt ſtreet, near the aſſembly room.

N. B. "The Air Pump Vapour Bath" is particularly adapted for the removal of all obſtructions occaſioned by violent colds, which are the forerunners of conſumptions, &c.

Complaints peculiarly incident to females, which too generally baffle the remedies hitherto applied, and to which they frequently fall victims in the prime of life, are readily and effectually removed by the application of this machine.

May 31.

TO COTTON MANUFACTURERS.

THE Subſcriber offers to make the following machinery, and to ſet them to work in any part of the United States.

Carding engines, either ſingle or double, with flat cards or top rollers, as may be required, and the cylinders of any length from 20 to 32 inches.

Drawing frames, with as many ſyſtems as ſhall be required—each ſyſtem having three or four heads (according as they are ordered) will draw from 20 to 25lb. of cotton per day.

Roving frames, with any number of heads, each having two roving cans, will rove from 10 to 25lb. per day.

Water ſpinning frames, of 84 ſpindles; (42 on each ſide) which will ſpin from two to two and a half hanks on each ſpindle per day, the hank being 840 yards in length.

Mules, of from 60 to 216 ſpindles each, which will ſpin by an experienced hand, from one to one and a half hanks per ſpindle, daily.

Twiſting frames, to double and twiſt the yarn into two or three threads, for ſtockings fringes netting, tambouring, &c.

Looms, for weaving any width with the fly ſhuttle, either ſingle or double boxes.

Warping mills, either woollen, cotton or linen yarn.

The above machinery will be made and ſet to work in any part of the United States, by the ſubſcriber, who has ſerved an apprenticeſhip to the above buſineſs, in Mancheſter, and followed it for twenty two years.

Any perſon who may want any of the above machinery, may ſee the ſame kind at work, at his manufactory, Upper Derby, Delaware county, ſeven and a half miles from Philadelphia, where they will receive any ſatiſfaction as to the price, when the ſize and quality of the machinery wanted ſhall be deſcribed; and letters from the country directed to the care of the Editor of the Aurora will be duly attended to.

MR. XAUPI

Alſo that he will open his dancing ſchool the 19th of this month, in the city of Waſhington, (having for that purpoſe a ſpacious and very convenient room) in the ſame houſe where he has lately removed to—any perſon wiſhing to be inſtructed in the different branches of that art, will on applying at the ſubſcriber's reſidence, be informed, with the neceſſary particulars.
