SELIM.

A GENUINE Arabian HORSE, brought to this country last summer by captain James Barron, in the United States Frigate Chesapeak, on her return from the Mediterranean. The said horse was brought from Egypt by the way of Malta, and from thence to Gibraltar, at which place capt. Barron obtained him from captain Ramsay, of the Queen's Regiment, who intended him for England, but was prevailed on to let him come to this country! He will stand the ensuing season at my house in Dinwiddie county, near the Cut Bank Bridge, on Nottoway River.— The terms will be made known in due time. And whereas doubts may have arisen with respect to his being an Arabian, the subscriber pledges himself in case it should be made appear otherwise than has been stated in captain Ramsay's certificate, at any future reasonable time, to reimburse the money the said horse covers at to such gentlemen as think proper to send to him. The manner of his coming, and the character who brought him, are in addition to this guarantee, as well as undeniable respectable certificates, such testimony of his being a genuine Arabian, whatever interested or prejudiced minds may advance to the contrary, that an attempt to further proof of this horse being really Arabian bred, is thought at this time unnecessary, yet I beg leave to subjoin that he is considered upon the grounds of being genuine, a great acquisition by those who are really acquainted with the character of the Arabian horses.

Thirty thousand dollars will be taken and payment made easy, to the purchaser, for the following valuable property free from any incumbrance whatever.

A SET of saw mills working two saws—a grist mill with two run of stones and bolting machine, also a cotton and rice machine complete all worked by water, also one saw mill about 200 yards from the former and on the same dam, now about finishing that will work from two to fourteen saws under the same roof—this mill is insured for three years after her being completed—they now going in good repair and the whole in a progressive way of improvement, with about Ten thousand acres of land all adjoining and immediately contiguous to the mills, on which are several valuable farms. The timber for mill use are inexhaustible and unexceptionably good—they are situated on the waters of Drowning Creek ninety seven miles from George Town South Carolina, to which place the lumber is carried being rafted at the mills without the trouble of hauling, a valuable convenience.
