*Calicoes, Shawls, Pocket Handkerchiefs, &c. manufactured by the subscribers near Baltimore, and sold at No. 13 Calvert street.*

TO remove that diftruft often felt refpecting new undertakings, and fo prejudicial to manufacturing attempts in America, they think it proper to obferve, that nothing is wanting in the bufinefs to enable good artifts to perform their work here as well as in Europe. That they have thefe artifts; that two of the partners were bred to the bufinefs in a factory of the beft repute carried on by their father, & long afterwards by themfelves. They truft that while foreign goods are received without a queftion, an unreafonable fufpicion will not prevent their countrymen from giving that trial to their goods, which only can prove their value. Befides a natural doubt, they know that certain interefts, national as well as well as individual, will fuggeft objections to their undertaking. They have no difficulty in faying, that work of the like kind fhall be as well executed here, as in other countries. The colors capable of being fixed, will be found as permanent; the cloths perhaps better fubftance, and the prices lower than of the imported cottons.

N. B. Prizes fubject to a deduction of 15 per cent.

This lottery has been authorifed by the legiflature of Virginia, for the laudable purpofes of erecting a feminary of learning in or near the metropolis of this ftate. With this view, it is contemplated to raife 20,000 dolls. and 2,500 dolls. in addition, for defraying the expences attendant on drawing the lottery. Citizens of the firft refpectability have been felected as truftees, and they have pledged themfelves to ufe their utmoft exertions to carry it into effect. The fcheme has the advantage of giving to each adventurer a chance for fome very large prizes, whilf the proportion of prizes to blanks, is fo great as to invite the friends of the intended inftitution to partake in the lottery, with very little rifque of their becoming lofers. The treafurer of the ftate is to be appointed to receive the money for the tickets as they are fold, and to pay the amount of the prizes to the fortunate adventurers. It is believed that the above confiderations will induce rapid fale of tickets, and the drawing will commence as foon as a fufficient number fhall be fold to authorife it——which it is believed will be on the fecond Monday in December next.

## Patent Machine,

*For hulling Clover Seed, bearding Barley, and taking the white cap from Wheat.*

The encouragement which the fubfcriber received laft feafon from a number of refpectable farmers, for the invention of the above machine, has induced him to fpare no labor or pains in its further improvement; in thofe endeavours he has fo far fucceeded as to render it fuperior, it is prefumed, to any machine ever before applied; as a proof of this affertion, the following inftance of expedition can be attefted to as a real truth, by feveral difinterefted reputable perfons, viz.—Three men employed at it, have hulled in one half hour, a bufhel of clover feed.

We may now make what deductions we pleafe for the clover being well filled, for its being previoufly well cleared of ftraw, and for extra exertions, to know the extent of what the machine was capable of performing; and after thofe deductions it will be granted, that five bufhels per day muft be a very moderate average; and yet this quantity is fufficient to give general fatisfaction—It will however be found more commonly to exceed than fall fhort of this laft quantity. The machine occupies about the fame room as the Corn Fan, and is equally portable; its frictional parts are few, and thofe compofed of durable materials; in fhort, it is acknowledged, by thofe who have had experience of its utility, to be an interefting & almoft indifpenfable implement of hufbandry.

A number of them may be feen at the fubfcriber's fhop in Frankfort, five miles from Philadelphia, in preparation for the enfuing feafon, where they are fold at 30 dollars. Perfons who apply for permits to make them muft produce recommendations of good character, and be profeffional machinifts; fuch only will meet with encouragement.

Perfons inclined to purchafe the Machine for their private ufe, will pleafe to obferve, that no one is authorifed to make and fell them, but fuch as are furnifhed with engraved plate certificates, attefted by the fubfcriber, one of which certificates is to accompany each machine, and will be the purchafer's voucher to ufe it.

## PROSPECTUS.

THE utility and rational amufement derivable from well conducted Magazines, probably will not be controverted. They afford an afylum for many fugitive effays, that might otherwife meet with a more rigorous fate than they merit. The brevity of their articles and their longer duration of exiftence than that of fome other periodical publications hold out an inducement to that indolence, too frequently the attendant of genius, and to thofe preffed by the cares of bufinefs, to devote an hour or two to their own entertainment, and the pleafure and inftruction of the community, while the greater variety of fubjects they comprife, give them a decided fuperiority over feveral other works. —For they contain fomething to fuit the Palate of every one, and may be particularly pleafing and inftructive to thofe who have not the inclination or the leifure to perufe more prolix writings. There are few countries, where a love of reading prevails and fcience is regarded, in which Magazines are not numerous and well received. And yet the Subfcriber thinks he is correct in faying that not one is publifhed in the refpectable ftate of Virginia. He defigns to publifh one, principally of a Literary complexion, provided he obtains adequate fupport, in which cafe he flatters himfelf, that his exertions will prove fully fatisfactory to his patrons. For any reluctance to fubfcribe, arifing from a non compliance of any perfons who may have iffued propofals, fimilar to the foregoing, the fubfcriber has it only in his power to fay that he pledges his honor to comply with his engagement, if fupported by the public.
