This lottery has been authorised by the legislature of Virginia, for the laudable purposes of erecting a seminary of learning in or near the metropolis of this state. With this view, it is contemplated to raise 20,000 dolls. and 2,500 dolls. in addition, for defraying the expences attendant on drawing the lottery. Citizens of the first respectability have been selected as trustees and they have pledged themselves to use their utmost exertions to carry it into effect. The scheme has the advantage of giving to each adventurer a chance for some very large prizes, whilst the proportion of prizes to blanks is so great as to invite the friends of the intended institution to partake in the lottery, with very little risque of their becoming losers. The treasurer of the state is to be appointed to receive the money for the tickets as they are sold, and to pay the amount of the prizes to the fortunate adventurers. It is believed that the above considerations will induce rapid sale of tickets, and the drawing will commence as soon as a sufficient number shall be sold to authorise it—which it is believed will be on the second Monday in December next.

American Printed goods.

Calicoes, Shawls, Pocket Handkerchiefs, &c. manufactured by the subscribers near Baltimore, and sold at No. 13 Calvert street.

TO remove that distrust often felt respecting new undertakings, and so prejudicial to manufacturing attempts in America, they think it proper to observe, that nothing is wanting in the business to enable good artists to perform their work here as well as in Europe. That they have these artists; that two of the partners were bred to the business in a factory of the best repute carried on by their father, & long afterwards by themselves. They trust that while foreign goods are received without a question, an unreasonable suspicion will not prevent their countrymen from giving that trial to their goods, which only can prove their value. Besides a natural doubt, they know that certain interests, national as well as well as individual, will suggest objections to their undertaking. They have no difficulty in saying, that work of the like kind shall be as well executed here, as in other countries. The colors capable of being fixed, will be found as permanent; the cloths perhaps better substance, and the prices lower than of the imported cottons.
