Waſhington, Dec. 21—3t

I DISCOVERED a few day ſince (in the Telegraphe) a challenge by Samuel Norwood, Eſq Bonaparte againſt Democrat—

At Annapolis this fall, I propoſed running Democrat againſt Bonaparte, carrying from 110 lbs to 140 at the diſcretion of Mr. Norwood; which was rejected. As Mr. Norwood refuſed the propoſitian made by me at that time, I am not bound to run the race propoſed by him in the Telegraphe—Democrat will run Bonaparte over the Annapolis race courſe, on the third Tueſday in May next, four miles and repeat, for 1000 DOLLARS, play or pay, carrying 126lbs. each; which is the weight they are to carry by the rules of racing, both being ſeven years laſt ſpring—Should Mr. Norwood decline this offer, Democrat will cover mares next ſpring at the ſubſcribers farm, from the firſt day of March until the firſt day of Auguſt, at Sixteen dollars each and Fifty cents for the groom. Democrat's pedigree is equal to the pedigree of any horſe to be produced, having in him the blood of Medly, Eclipſe, Figure, Dove, Godolphin, Arabian, and Mr. Taſkin's Tilima.

If this propoſition is approved of by Mr. Norwood, notice will be given in the Maryland Gazette within forty days from the date hereof.

By his Excellency

ROBERT BOWIE,

Governor of the State of Maryland.

A PROCLAMATION.

Whereas the general aſſembly of Maryland, did, by an act paſſed at November ſeſſion, ſeventeen hundred and ninety, entitled, An act directing the time, places and manner, of holding elections for repreſentatives of this ſtate, in the congreſs of the United States, and for the regulations of the ſaid elections; and alſo to repeal the act of aſſembly therein mentioned—direct that the governor and council, after having received the returns, papers and inſtruments, containing the number of votes for repreſentatives of this ſtate in the congreſs of the United States, ſhould enumerate and aſcertain the number of votes for each and every candidate and perſon choſen as repreſentative—We, in purſuance of the directions of the ſaid act, do, by this our proclamation, declare, that John Campbell, eſq. was elected for the firſt diſtrict; Leonard Covington, eſq. was elected for the ſecond diſtrict; Patrick Magruder, eſq. was elected for the third diſtrict; Roger Nelſon, eſq. was elected for the fourth diſtrict; Nicholas Ruxton Moore and William Mac Creery, eſqr. were elected for the fifth diſtrict; John Archer, eſq. was elected for the ſixth diſtrict; Joſeph Hopper Nicholſon, eſq. was elected for the ſeventh diſtrict; and Charles Goldſborough, eſq. was elected for the eighth diſtrict.

Given in council, at the city of Annapolis, under the ſeal of the ſtate of Maryland, this 28th day of November, in the year of our Lord, one thouſand eight hundred and four.

ROBERT BOWIE.

By the governor and council,

Ninian Pinkney, clerk of the council.

Ordered, That the foregoing proclamation be publiſhed twice in each week, for the ſpace of three weeks ſucceſſively, in the American, Telegraphe and Federal Gazette, at Baltimore; the Maryland Gazette, at Annapolis; the National Intelligencer, Mr. Smith's paper at Eaſton; the Republican Advocate, at Frederick-town; and Mr. Grieves's paper at Hager's-town.

By order,

NINIAN PINKNEY, Clerk,

Dec. 1, 1804. Dec. 14—3w

To be ſold at Auction.

At the Court-House in Alexandria,

ON Monday the 14th day of January next, at 10 o'clock in the forenoon, about 96 acres of land, lying one quarter of a mile from the built parts of that city, and a great part laid out into ſtreets and lots correſponding with the ſtreets and lots of it. The near vicinity of it to a city ſo faſt increaſing, of which it muſt ſoon become a part; its lying within the Diſtrict of Columbia, and other advantages render it an object worthy the attention of monied men, who by retaining it ſome time cannot fail of making great advantages. In the mean time either the whole or one half if more convenient to a purchaſer, may be had at private ſale.

The terms of payment are ten per cent. in caſh, or a good endorſed note at 60 days, and the remainder in three equal annual inſtalments, on intereſt from the date. The ſecurity required will be a bond, with a conveyance of the land to certain truſtees agreed on, who ſhall have authority to ſell, in caſe of non payment of intereſt or principal at the time fixed. Perſons wiſhing for information will pleaſe apply to Col. George Deneale, at Alexandria, or the ſubſcriber in New-York

NATHANIEL PENDLETON.

Dec. 24th, 1804—tJan. 14.

To be Sold.

PART of a tract of Land called Lonehead lying on the Northweſt Branch in, Prince George's county about 7 miles from the city of Waſhington, and 3 from Bladenſburg; containing by ſurvey about 78 4-3 acres, nearly one third meadow ground, moſtly of prime rich bottom, there is on the Land a young thriving orchard, a dwelling houſe partly new, ſtanding on a high and pleaſant ſituation with a ſpring of water convenient thereto, the ſoil is remarkably kind to any kind of grain and graſs; a further deſcription of this valuable piece of property is unneceſſary, as any perſon wiſhing to purchaſe may ſee the place and know the terms by applying to the ſubſcriber living on the premiſes.

PATENT THRESHING MACHINE.

THE ſubſcriber having invented a machine (for which he has obtained a patent) for threſhing all kinds of grain, particularly wheat and thoſe kinds of grain moſt difficult to be ſeparated from ſtraw, ſtem or chaff, takes the liberty of recommending the ſame to his fellow citizens as worthy their attention. The ſubſcriber is well aware that the public attention has often been ſolicited to inventions for threſhing wheat, and it has been lamented that thoſe inventions have often fallen ſhort of the deſired effect, but from the actual experiment which has been made on the one now offered to the public, the inventor is emboldened to recommend it in terms of confidence and a well grounded expectation of its becoming of great profit and utility both to the farmer and manufacturer. This machine is conſtructed upon entire new principles, its operation is by flails, encircled by a cylinder, moved by friction wheels, and can with eaſe be regulated ſo that no ſtraw ſhall paſs off before the grain is entirely threſhed out of it. It is worked by two horſes, and ſo geared that their ſpeed will not exceed the rate of three miles per hour and the draught moderate; nor does it require more than two perſons to attend it. The ſtraw is diſcharged at one part and the wheat at another, perfectly ſcreened and fanned ready for market: the ſhrivelled wheat, cockles, &c. are depoſited by themſelves and the chaff alſo, ſo that no mixture takes place.—This machine will threſh at the rate of from fifteen to twenty buſhels per hour, is not ſubject, if properly built, to get out of repair, and if kept under cover will laſt many years. The wheat prepared for market by this machine is worth to the manufacturer conſiderably more than that got out in the uſual mode of trading, and the coſt of the machine will not exceed from one hundred and fifty to two hundred dollars.

The ſubſcriber will grant permits to uſe his threſhing machine and furniſh a drawing or written deſcription by which it can be executed for fifty dollars each, or any perſon can view the one he has erected at his mills near Dumfries, Virginia, ſo as to enable them to erect one from it. The ſubjoined certificates being from gentlemen whoſe good underſtandings and ſteady habits entitle them to reſpect, and ſome of whom being perſons of ſcientific knowledge, he hopes will be ſufficient to recommend his machine to public uſe: he will alſo contract for the privilege of uſing his machine in any particular ſtate.

Letters poſt paid directed to him at Dumfries, Virginia, will be duly attended to.

JAMES DENEALE, Jun.

Dumfries, Dec 3, 1804.

Dumfries, 30 *Oct.* 1804.

WE, the underwritten, inhabitants of the town of Dumfries and its vicinity, having frequently attended experiments made with a machine invented by Mr James Deneale, of the Quantico Mills, near this place, for the purpoſe of threſhing out wheat, have no heſitation in giving our united teſtimony in ſupport of the uſefulneſs which will reſult to the community from this excellent invention. As Mr Deneale is about to apply to the proper authority for a patent when the conſtruction will be generally diffuſed, we deem it unneceſſary to add more on the ſubject.

Occoquan, 30th Oct. 1804.

BEING called on by James Deneale, of Dumfries, in the ſtate of Virginia, to view a Threſhing Machine of his invention, and executed by *himſelf*, for which he is about to obtain a patent, I waited on him, but went with prejudice againſt all threſhing machines heretofore invented, having never ſeen or heard of one that anſwered a good purpoſe, and hardly thought it likely that this ſhould be much ſuperior to thoſe which had preceded it; but contrary to my expectation, it did its work perfectly, leaving not a grain of wheat in the heads, nor even any chaff on the grains, it made no difference whether the wheat (in the ſtraw) was put into the machine in a ſtraight or in a tangled ſtate, it delivered the ſtraw well, and did not appear difficult to manage, nor ſo complicated as to be hard to keep in repair: it threſhed, while I ſtood by, nine dozen ſheaves of wheat, (ſuch as two dozen in common ſeaſons would have made a buſhel) in ſixteen minutes, ſo that I have no doubt it will threſh fifteen to eighteen buſhels an hour with two horſes to draw it, and two hands to attend it with much eaſe to the hands and horſes with the aſſiſtance of a common Dutch fan placed under the machine, which would be turned with and by the machine, the wheat might be rendered nearly fit for market, with only the expence of two hands and two horſes working at leiſure at the rate abovementioned of fifteen to eighteen buſhels an hour, clear from all dirt or filth of any kind. And as moſt Millers would find it their intereſt to give 3d to 6d per buſhel more for wheat got out in this way than that got out in the ridiculous mode of treading with horſes on the dirt; I can with confidence, and on the principle of doing to others as I ſhould wiſh others to do to me recommend this machine to all conſiderable farmers as worthy their moſt ſerious attention and adoption. Seeing the farmers generally in this ſtate do not get for their wheat within 6d. to 1ſ. per buſhel of what the northern farmers get at market, I attribute the cauſe to the difference in management only.
