CHARLES H. VARDEN,
Merchant Taylor

New Texas Avenue, near the Capitol.

RESPECTFULLY informs the gentlemen of the district of Columbia, that he has received by late arrivals at Philadelphia from London, a fresh supply of the best superfine cloths, cassimeres, &c. with a choice assortment of plain cambrees, corron cassimeres, India nankeens, Marseilles vestings, Merino Thrillings, white and fancy Marcilles, with a variety of other articles suitable for the season.

N. B. Ladies habits, regimentals and navy uniforms made to the first fashionable.

Richard Harrison now invented patent elastic suspenders, which are far superior to any heretofore in use, to be had on the firm terms as at his manufactory.

June 23—tf

Greek and Latin authors,
Roman and Grecian Antiquities,
English Grammar,
Rhetoric, Logic, Arithmetic, &c.

He hopes from his long experience as a preceptor, to meet with the support of a generous public.

His number will board in his family young gentlemen, who may be sent for from the west of TEN GUINEAS. For certain branches two GUINEAS per month had and boarding inclusive, by their parents and friends.

JOHN MAGRUDER.

Upper Marlboro, June 24—tf

On a liberal credit.

THE subscriber will dispose of at private sale, his well located Chandlery, lying in his office lands, immediately opposite the city of Washington. This trade is long continuing, yet seems to be full of business $3 to $4 extra for the convenience of purchasers. Some of the principal and most profitable are in the hands of colonel Hanson at the very yard, and Charles Weymss of George Town. The lots will be shown by Mr Weston, living on the premises, near the Gadsen Market.

ANTHONY ADDISON.

Bermuda, 14th June 1806—tf

IS for sale for cash or money equivalent of all the property belonging to the Ferry Boat, who owing to the weather being unfavorable to the parties.

WILL offer FOR SALE

at his residence near the Chapel on Monday the 30th inst. a few Herbs and Horned cattle, also some excellent Household and Kitchen furniture, very good Beds and bare floor, a good cart, a full work set of tackle, plantation utensils, cooper tools, and a large quantity of well cured fodder, hay and straw — For sale will commence on the above day, thence down fall, at cost on the day before the sale and continue from day to day till all is sold—for all things of a good kind and under cash will be required, and for all every per month for the remainder will be given on the purchaser giving good or approved security to attend from the date.

GEORGE LEE.

October 3—tf

The subscriber having finished his Library engagements with the public will now endeavor devote his time and attention to the practice of PHYSIC in George Town, Washington and the neighborhood.

ELIJAH KNELL.

EST A YOUNG GENTLEMAN of Business Habits will be taken to Board the Office of Mr. Gales.

George Town, October 8—tf

FOR SALE.

WILL be SOLD to the Highest Bidder, on the 1st of July next, at 12 o'clock, on the premises, that very valuable property, adjoining the Bank of Columbia, in George Town, which is now occupied as a tavern by Mr. Wm Gadsden. This property is in the centre of George-town, the best of large and commodious, with every convenience necessary for a tavern, viz. a large chrcnwa, a kitchen, stables, and necessary out houses. There is attached to the property an excellent well of big water, a pump that will be sold with the house.

No tavern in George-Town can compare this for a tavern, nor can there be more fashionable for the best purpose than this and fair property.

The terms of sale are, one third of the purchase money to be paid within 60 days with interest, and the other two thirds to be paid in one two, and three equal annual instalments, with interest thereon from the day of sale. The whole to be secured by good approved indemnitors with approved endorsers. Possession will be given immediately.

CORBAN SPRIGG.

Prince George's county.

October 1—tf

Treasury Department of the United States, June 21, 1806.

WHEREAS the commissioners of the Sinking fund, at a meeting held on the 18th day of April, 1806, did resolve, that the sum remaining to complete the expenditure of the annual appropriation of eight millions of DOLLARS, should among other purposes be applied to the reimbursement of the navy debt prior to the payment of the principal of an act of Congress passed on the 10th day June, 1798 which will be reimbursable on the 1st and 2d per cent. stock, created in pursuance of an act of Congress, passed on the 2d day of March, 1795:

This is therefore to give notice, that the principal of the said 1st and 2d per cent. stocks, with the interest due thereon, will on termination of the subscription, which is the 1st day of October next, ending the date hereof, to the respective foreholders, or their lawful representatives or attorneys duly constituted and authorised, either at the Treasury, or at the Loan office, to the order of the holders, where stocks have been given for the amount of such, respectively held by them; and that the principal of the five and half per cent. stock, with the interest thereon, will be paid on the 1st day of the same place, be paid on the 1st day of January, 1807, to the respective foreholders, or their lawful representatives or attorneys duly constituted and authorised.

ATTENTION!!,

Those persons that wish to purchase the GENUINE PATENT SUPERFINE MEDICINES OF RICHARD LEE & SON MOST APPROVED TO

Mr. Daniel Hughes, Capitol Hill, Washington, & Dr. John Ott, George Town.

"An ounce of prevention is worth pounds of cure."

For the prevention and cure of Billious and Malignant Fevers, is recommended

Lee's Anti-Billious Pills,

Prepared by Richard Lee & Son, Baltimore.

THESE medicines has, for eight years past been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern part of the U. States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of these places has been obtained, which have been offered to make a timely use of this salutary remedy has, under these circumstances, proved their love when in the most alarming circumstances.

Fully, in all the conclusive nature, speak more in favor of a medicine than columns of panegyric, lavished on mere vendible nostrums.

It is not indeed presumptuous prophesied on an infallible cure, yet the inventor has every positive reason that can result from extensive experience, for believing that a dose of these pills taken once every two weeks, during the prevalence of our billious fevers, will prove an infallible preventive; *it further* will be the early begin of these disorders, their use will very generally be found, by refusing them, and frequently in cases obtained deliverance, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to deal with facility by persons in delicate health, and of tender age.

They are excedingly adapted to carry off billious bile, and prove effectual in most fevers—to relieve and unwind the appetite—produce a fine perspiration, and thereby prevent colds, which are sign of first contagion; a dose never fails to remove a cold, if taken on its first appearance. They are recommended for removing habitual costiveness—also to be administered to children and low and eight to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing dysentery attended with long voyages, and Marine Officers are and carefully preferred for sale by every seaman.

Lee's Infallible Fever and Ague Drops,

For the cure of Ague, Remittent and Intermittent fevers.

Thousands can testify of their being cured by these drops, which have been and every prepared medicine have proved ineffectual, yet these drops have been found in ratio more than one, and numbers out half a bottle.

Which drops are particularly recommended to the inhabitants of low marshy countries, where the worst fort of agues generally prevail, which, which early attended to, as specifically removed, injure the constitution extremely, being an obstinate, partial fever, and a variety of complaints of the most distressing and alarming nature. Some other medicines are daily offered to the public for the cure of this disorder, which, upon trial, have been found either deceptive or worthless. The bark is the ultimal remedy made use of, yet, from the inconvenient quantity, and from taken in sufficient quantity, is very often only; children and adults have been weak stomachs, are frequently left for want of a more easy and pleasant remedy.

Superior Ointment for the Itch.

A preparation which for cleanliness, celerity, and expedition, gives place to no application whatever; free from mercury, or any poisonous ingredients.

Lee's Worm Destroying Lozenges.

Which have within seven years past earned upwards of one hundred thousand portions of both sexes of every age and in every disorder, arising various contagious complaints arising from worms and from obstructions in the bowels the stomach and bowels—they are perfectly safe and pleasant, and may be given to the tender infant or the most delicate pregnant lady with propriety.

Lee's Genuine Eye Water.

A foreign remedy for all diseases of the eyes, whether the effect of natural weakness or accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief to the most severe inflamed.

Genuine Persian Lotion.

Is celebrated among the fashionable circumspect Europe, as an invaluable cosmetic, perfectly innocent and free from corrosive and repellent substances, (the bane of other lotions) and unparalelled efficacy in preventing and removing blemishes of every hues, particularly freckles, pimples, inflammatory redness, tetters, ring worms, tan-burns, prickly heat, chapped hands, &c.

Lee's Genuine Essence and Extract of Musk.

A fine and effectual remedy for Acute Chronic Rheumatism, Gout, Palsy, Lumbago, and for lips, and sore nipples, Chilblains, Bruises, Pains in the feet and neck, &c.

The Anodyne Elixir,

For the ease of every kind of Bodily Aches.

Lee's Diamond Lip Salve,

Is recommended (particularly to the Ladies) as an elegant and pleasant preparation for chapped and fine lips, and as a specific that any inconvenience occasioned by colds, fevers, &c. speedily effaces a beautiful rosy color and delicate fairness to the lips.

Restorative Powder for the Teeth and Gums.

Lee's genuine Corn Plaster,

An infallible remedy for speedily removing Corns, Root and Branch, without giving pain.

Indian Vegetable Specific,

For the cure of Venereal Complaints.

It will be prudent in all who estimate the value of health, to observe that each of the above articles is the genuine preparation of Richard Lee & Son, on the outside wrappers, without each which none are genuine.

Lee's Letters Granted to Richard Lee & Son,

Sep 17, Market Street, Baltimore, which particularly intended to.

In a beautiful octavo volume, containing near 500 pages, price $2 50

Price THREE Dollars in extra boards

PLAIN DISCOURSES

OF

THOMAS ROWELL, M. D.

LATE OF BRISTOL.

WHICH detail the properties of Matter, on principles of Modern Chemistry, designed for domestic as well as professional gentlemen.

Unfortunately for the interests of mankind, of all the sciences there has been outrauded on the world, many books relating to Chemistry, which have been only in part illustrated the objects of this science, but have been obscured by technical terms, with which author could understand. In consequence of this, the word Chemistry generally conveys with it something mysterious. An attempt is made in these discourses to remove this error, and to the beneficial *policy* and proper objects a fact, instead of developing pages to the consideration of useless compounds, the work is engrossed by subjects of importance to *every individual*. The author of this interesting work will be readily recollected, has long been and should be distinguished by the approbation of many of the first characters of the country, and the publishers now offer the work to the public with peculiar pleasure, because they can confidently assert that the acceptation is equal to the plan. With a strict regard to the rules of the Chemical Society no Chemical Work contains *more engagetions entirely original*, or more information so important and so interesting to every part of the community.

To detail all the valuable topics treated of in these discourses, would be giving almost an index. The enquiries respecting the nature and the burning of fuel—the preparation of soil—the manures—and spirituous and fermented drinks—of vinegar and of food—the acts of working metals—of making mortar—of the nature and the mode of purifying butter—metals—infectious or contagious airs—fogs—the nature of fire—and hundreds of other subjects of equal importance are treated of in this volume. In fact, it will be difficult to find a character, which, on the uninformed farmer, down to the most uninformed farmer, or delirious mind, who will not be benefitted by the perusal of this work. Under such circumstances it would be useless to make further recommendations; it is deemed to be presumed in this country to suffer it to be said, that American citizens were not the *first patrons of American genius* not labors, when devoted to purposes so *universally useful*.
