Treasury Department of the United States, June 21, 1806.

WHEREAS the commissioners of the Sinking fund, at a meeting held on the 18th day of April, 1806, did resolve, that the time remaining to complete the expenditure of the annual appropriation of eight millions of DOLLARS, should among other purposes be applied to the reimbursement of the twelve per cent. stock, created by virtue of an act of Congress passed on the 30th day June, 1798 and to the reimbursement of the five and half per cent. Stock, created by virtue of an act of Congress, passed on the 3d day of March, 1795.

This is therefore to give notice, that the principal of the said twelve per cent. Stock, with the interest due thereon, will on future days of the certificates, be paid on the 1st day of October next, including the date hereof, to the respective Stockholders or their lawful representatives or attorneys duly authorized and authenticated, either at the Treasury, or the Loan office, at the city near the place, where receive have been accustomed to pay such of such principal only paid by virtue; and that the principal and the five and half per cent. Stock, with the interest due thereon, will in like manner, at the same places, be paid on the 1st day of January next, or the respective days hereafter, as their lawful representatives or attorneys duly authorized and authenticated.

For further information known, for the information of the parties concerned, that no transfers of the twelve per cent. Stock, either from or upon the books of the treasury, or transfer to the books of the Bank of the United States, will be allowed after the 1st day of September ensuing, or of the five and half per cent. Stock, after the 1st day of December ensuing. And the interest on such certificates of said Stock, as shall not have been surrendered, in purchase of this application, will cease and determine, on the 1st day of October, and the 1st day of January for the reimbursement thereof.

ALBERT GALLATIN,
Secretary of the Treasury.

June 23—tf.

GENUINE PURIFYING FAMILY MEDICINES

OF RICHARD LEE & SON

MUST APPLY TO

Dr. Daniel Rapine, Capitol Hill, Washington, Dr. John Ott, George-Town.

"An ounce of prevention is worth pounds of cure."

For the prevention and cure of Bilious and Malignant Fevers, is recommended to

Lee's Anti-Bilious Pills,

Prepared by Richard Lee & Son, Baltimore.

THIS medicine has for eight years past been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the Well Indies, and the southern part of the U. States, particularly in Baltimore, Philadelphia, Wilmington, Delaware, Norfolk, Richmond, Wilmington, Charleston and Savannah. The testimony of a number of physicians of each of the above places has been adduced, who have witnessed the effects that a timely use of this delicate remedy has, under Providence, prevented their lives when in the most alarming circumstances.

Facts of this excellent nature, speak more in favor of a medicine than volumes of impertinent eulogy, founded on mere affection.

It is now, and will continue to be recommended as an infallible cure, but the inventor has every possible reason that can result from extensive experience, and believing that a cure of chills pills taken once every two weeks, during the prevalence of bilious fevers, will prove an infallible preventative; & further, that in the early stages of their distress, their use will very generally succeed in reforming health, and frequently in entire chronical debilitation, if they are used with perseverance.

The operation of these pills is perfectly mild, and may be used with safety by persons of every constitution, and of every age.

They are exceedingly convenient to carry off superfluous bile, and prevent its morbid generation, and consequently, they are a powerful antidote to many vexatious, and should be procured and carefully preferred for sale by every grocer.

Lee's Infallible Fever and Ague Drops,

For the cure of Agues, Remittent and Intermittent Fevers.

Thousands can testify of their being cured by these drops, after the hard and every other medicine have proved ineffectual, and for a hundred has had occasion to take more than one bottle before they had a better.

These drops are particularly recommended to those who have been long in country, or where the well part of agues generally prevail, and to those who have been long in the Well Indies, or where the constitution accordingly, being on droplets, partial fever, or a variety of complaints of the moll dangerous and alarming nature. Many other medicines are daily offered to the public for the cure of this disorder, which, upon trial, have been found either dangerous or useless. The back is the usual remedy made use of; but being a very nauseous medicine, and taken taken in considerable quantity, it often fails; children and those who have weak stomachs, are particularly for wary of a more easy and pleasant remedy.

Sovereign Ointment for the Itch,

A preparation which for pleasantness, safe, and speedy operation, takes place so adjudication whatever; free from mercury, or any pernicious ingredient.

Lee's Worm Destroying Lozenges.

Which within twelve years will cure upwards of one hundred thousand persons of both sexes of worms, of every description, of various dangerous complaints arising from worms and from obstructions or indigestion, and such as have been given to a nearly fatal end physicians and may be given to the tender of age or the most delicate pregnant lady with propriety.

Lee's Genuine Eye Water.

A foreign remedy for all disease of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which relieves immediately and killing relief in the most severe instances.

Genuine Persian Lotion,

So celebrated among the fashionable ladies, for preserving the complexion unbroken, perfectly innocent and free from corrosive and repellent substances, and from other lotions, and unparalleled efficacy in preventing and removing blemishes of every kind, particularly freckles, pimples, sunburns, scurvy redness, tetters, ring worms, tan burns, prickly heat, pocketmark worms, &c.

Lee's Genuine Essence and Extract of Mustard.

A safe and efficient remedy for Acute pains in the side, Pleurisy, Sore throat, Lumbago, Numbness, White Swellings, Chilblains, Sprains, Bruises, Pains in the face and neck, &c.

The Anodyne Elixer,

For the cure of every kind of Head-Ache.

Lee's Damask Lip Salve,

Is recommended (particularly to the ladies) as an elegant and pleasant preparation for chapped and sore lips, and every blemish and inconvenience confining to cold, fever, &c. specially referring a beautiful rosy color and delicate tolerable to the lips.

Restorative Powder for the Tooth ganis.

Lee's genuine Corn Plaster.

An infallible remedy for speedily removing Corns, Root and Branch, without giving pain.

Italian Vegetable Specific,

For the cure of Venereal Complaints.

It will be prudent in all who enlimate the value of health, to enlisten that each of the above articles have the signature of Richard Lee & Son, on the outside wrappers, without which none are genuine.

Letters directed for Richard Lee & Son, 17, Market street, Baltimore, will be punctually attended to.

A BARGAIN.

THE subscriber offers for sale the farm he now occupies, containing near 200 acres, which is about six miles from Bladensburg.

This distant from the cities of Georgetown and Washington, about four miles, and well grown as a healthy situation. There is much low fresh meadow, and abounds with springs, affording respond water in the United States, a considerable proportion of the land has been in cultivation, and will yield large acres for the fertile the enfeeling farmer. It is now in a very improving state, being altogether clear of brown hedges, and from 40 to 50 acres ploughed and prepared for a spring crop, and from 30 to 40 acres will lie with wheat and rye—some part of the land is in timber, and the remainder is in fine meadows well with it all. The dwelling house and other improvements may well stand in pairs, be rendered very comfortable—from its vicinity to two growing cities, many advantages could be enjoyed by the farmer. The purchaser may calculate on a good bargain, particularly if the cash application be made. Some part of the purchase money will be required in cash or approved negotiable paper; the remainder rendered easy—one quarter received in payment. The subscriber or William Scarfy residing on the land will show it when required, and the terms made known by application to *Mr. John Thomas*, George Town, or Dr. Wm. THORNTON Wallington.

Isaac Polock,

Prudi Hill.

Some Tablets calculated for the enhance cation, for lotion and small grain, stones, so as to regulate river in the healthful part of the state of Georgia, will also be sold on reasonable terms or exchanged for negro.

The edition of his allotment is expected by the Ship Lemitia, by the William and John.

September 29—tf

PROPOSALS for opening, bridging and improving the road laid out by the commissioners of the Secretary of War, between Middletown and Washington, in Grindstone Ford on Pierce river in the Mississippi territory, will be received at the General Post Office until 12 o'clock day of December next.

For the convenience of contractors the road will be divided into three parts, and separate proposals received for each.

First, From Rulleville on the Tennessee river, 121 miles.

Second, From Tennessee river to Leonardtown creek, a branch of the Big Black river, 113 miles.

Third, From Leonardtown creek to Grindstone Ford, 135 miles.

NOTES.

Note 1. The road is to be cleared of all trees and brush of breath, twenty feet in width and made passable for a wagon; and the trees not over forty feet wide are to be bridged, and the banks of streams are to be so fashioned or dipped down in that they may be passable for a wagon.

Note 2. The bridges are to be twelve feet long and supported by proper abutments, the bridge part to be compoled of four pieces of timber not less than 10 inches in diameter at the smallest end, and covered with halved logs wh ch original diameter was not one inch less than 8 inches, or bridges of equal strength not to be more than twenty feet long.

Note 3. Some parts of the road will require embanking, these will be pointed out by the Pub Maller General's agent. The embanking is to be so made with logs and brush, that it shall not less than 8 not over 9 inches in diameter, earth is to be thrown upon them to make it even pitable, and where the places to be embanked exceeds fifteen feet in length, the embankment is to be fashioned in a rider on each side keyed down by stakes, stones or thrown and gravel.

Note 4. As it is proposed to have a monthly a closed wagon path on some part of the road, the bridges are to be made wide enough for the carts. The work is to be completed by the 1st of October 1807. Reasonable advances will be made at the commencement of the work, and the balance paid as soon as the work is completed. Mr. Thomas Mdge, and Mr. Thomas Wrigge are to decide whether the work is performed according to contract.

Note 5. The proposals should state the price by the mile for clearing, the price by the mile for bridging, and improving, the price by the foot in length for the bridge work, and the price by the entire yard for dipping or fashioning the banks of embankments.

GIDEON GRANGER,
Postmaster general.

FOR PUBLISHING BY SUBSCRIPTION,

PYRROLOIMOCHA,

Or; Inquiries into the

PESTILENCE CALLED THE YELLOW FEVER.

CONTAINING the history of its frequency and prevalence in different parts of the world; the peculiarity distinctive symptoms of it; corresponding its origin, modes of propagation and treatment; with an attempt towards a new theory of the nature of its phenomena and gulvanic influence arising from terrugacous & terrugacous electricity, according to the ideas of preliminary discoveries, further research and experiments.

By PHILIP PASCALIS, M. D.
Of New York.

Formerly Physician and Member of the Board of Health in the State of Pennsylvania, Honorary Member of the Medical Societies of Philadelphia, and of Connecticut; and Author of several American and European Literary publications.

The author has been a medical practitioner in Philadelphia, and has been employed in the curiosities of the Yellow Pestilence. To undertake the sphere of his experimental observations on the nature of the Yellow Fever, he has travelled in the South of Spain, and also visited the Island of Malta, where he has for many years supplied to be endemic. With the knowledge of the Yellow Pestilence, the author offers notwithstanding, to be ready with the support of the learned in the U. States, to prove that the Yellow Fever appears in this then theory of Europe to exercise their influence on a fatal Pestilence, and to the welfare of this country—a country with which many Europeans have been frequently intercrich the intercourse of their fellows, as it is were absolutely the abode of pestilence. Whatever chance the author may imagine is derive to his experiment, he will, however, be ready to receive any opposition to the theory he proposes. He, therefore, refer, whether it be in favor or against, nothing either to exhibit or to invalidate the truth of an Electrical and Galvanic influence, &c. as a cause of the Pestilence. Such contrifting papers on their fashions as he shall be favored with previously to the 8th of December next (post paid) will be gratefully acknowledged and duly matters, unless otherwise requested.

CONDITIONS.

This work shall be printed in handsome type, on fine wove paper and new type, to form an a sufficient number of subscribers shall be obtained to defray the necessary expences.

It will be completed in two volumes octavo, each volume containing more than 300 pages to be delivered to subscribers in boards at Five Dollars the far, or handsomely board and lettered at Six Dollars.

Subscriptions received at the Gazette office in Washington.

Chichester, Aug. 13—
