Heliopolis. Feb. 15th: 1933

—

My dear Mr. Moftah,

In reference to our conversation, I am not yet quite sure how long it will be convenient for me to stay in Egypt.

But I am needing to get together a certain sum of money for the New Life Movement as soon as possible; I on this account, & provided the fees are paid regularly each Monday morning, I shall be very pleased to try & stay a little longer, & will gladly continue the work for one extra week: namely, up

to Feb. 25th. It may be possible to stay until March 11th, (3 extra weeks); but I think I shall be able to say more definitely as to this after my next letter from England. In any case I think it is best to put this in writing, so as to try & avoid any possible misunderstanding; & in the event of anything preventing our completing all we have in view, this visit, it is possible that I could return again in the Autumn.

Yours in Haste,

Ernest Newlandsmith
