PAX : LETCHWORTH

June 24 : 1933

—

My dear Mr. Moftah,

I much hope that all is going well with you? Since leaving Egypt I have managed to put in the equivalent of a "week's" work on the Coptic Music, (spread over a long period,) & am now about to enter upon a second such period. So will you kindly send the £10: now due; as I think it will be better, don't you, to pay this way rather than to run up a big bill?

There are two points that we also ought to bear in mind just now. First, if possible, I should prefer to settle a date for next

winter's visit, & to make it as early in the Autumn as may be convenient; & to consult with you & Mr. Michel about the final Ms. S. & its "details", for the printer. Second, can you set in motion the plan for a possible Chair of "Aesthetic Philosophy", by arranging for a series of lectures at the University? Something "additional" is really needed, if I come, besides our special work & the last visit has so worn out that I have been more or less laid up ever since.

Much hoping that you are enjoying your stay at Alexandria & with all kind greetings to you all

Yours v. sincerely,

Ernst Neulandsmith
