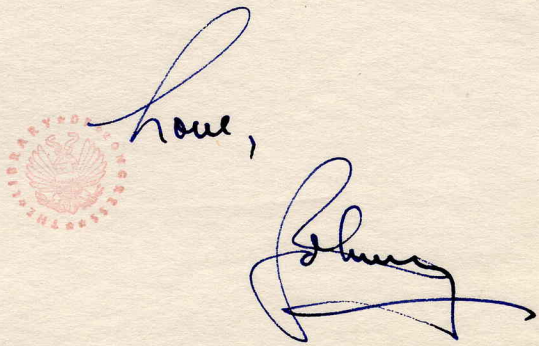
Dear, dear Danny:-

Just a line to thank you again for my exquisite birthday gift. I have already told you how thrilled I am with it, but I am even more thrilled that so special a present should have come to me from you and Sylvia.

Beyond this, Danny, I must tell you, quite seriously, how very deeply I admire your extraordinary gifts and what a privilege I count it to have a part in bringing the expression of those gifts to the public.

Also, while I'm serenading you, may I tell you that noone has ever made me laugh as you do - and can at will - and for the joy that your company has brought to many,

many hours of my life, I shall be ever grateful.

Many thanks again for my handsome present, Danny dear, and may you find a deep and gratifying happiness for yourself to equal the happiness that you, with such consummate grace and skill, bring to your audiences!


Love,
