Dearest Sand W !! —

Thank you - my lovely shirt! I like it immensely, but I faithfully promise not to enjoy it. What a shame it would be to break my almost perfect record! I remember once having my appendix out and also a handsome hemorroid operation. I seem to recall enjoying both of those — but then that was all right — one could enjoy things like that! — I love you for thinking of me and I love you for other reasons — and I thank you again and God bless you both!
