Dear Abe:

With the long string of no pictures staring us in the face -- and having read last week's Time Magazine, I am reminded of the fact that for several years now Al Capp has been after us for Danny to make some picture versions of "Li'l Abner."

I think it might be well for you to investigate this since the thing that always stymied us was that we would get a letter from Capp's brother that would outline Al's intense interest in this project and then would want a commitment without any proper procedure. Will you let me know if there is anything in this?

We miss you, of course, and Allenberg is getting even thinner - if that is possible - for the same reason.

Love,

(Sylvia)
