R

AMERICA DON'T FORGET

1

The scrap and everything's over
The boys are coming home
The glory and the hoorah are all done
They've only a few little medals
And some wound stripes on their arms
To prove the glorious victory they've won.
You stand along the curb stone
You wave a lot of flags
You say that they're the best the world's seen yet
And then you go off home
With your wifie on your arm
And that's the time you're liable to forget

CHORUS

Don't forget America
The debt you owe each one
If they hadn't gone
To fight your fight
Your country'd now
Be governed by the Hun
Don't forget America
It's you, I mean, and you, and you, sir, you bet!
Give him a job
Give him a chance
Remember his misery over in France
And don't forget America
Don't forget!
