YANKS MOVE 12 MILES IN 3 DAYS

Important Points Brought Under Artillery Fire.

Washington, Nov. 4.—The first American army has captured dominating heights from the Germans northwest of Verdun and brought under the fire of its heavy guns the important railroads at Montmidy, Longuyon and at Conflans. General Pershing so reports in his Sunday evening communique, announcing a advance for the first army of twelve miles o an eight mile front in three days.

Prisoners captured numbered more than 5,000 and guns more than 100 In the action have been regulars and national army troops from Texas, Oklahoma, Kansas, Missouri, Colorado, New Mexico, New York, New Jersey, Maryland, West Virginia, Virginia and the District of Columbia.

JAMES SMITH KILLED IN ACTION, REPORT SAYS

Unofficial word received in Muskogee late Monday brought the news of the death of James F. Smith, 22 years old, who was killed in action in France some time about the first of September.

In a letter to his father, A. F. Sylvester, Joe Sylvester said that he was now in a hospital with three wounds in his body and that James Smith has been killed in a recent attack that the Americans made.

Smith was the first member of the Muskogee department to enter the military service, he having been drafted September, 1917. He left for overseas service on June 7, 1918. He was the son of James A. Smith, one of the oldest members of the Muskogee police department.

No official word from Washington has been received as to the death of James Smith but inquiries have been sent asking for information.

CHARLES HOPKINS ACCEPTED IN NAVAL OFFICERS' CAMP

Charles Hopkins, formerly news editor of the Times-Democrat, and for the past four years assignment editor of the Kansas City Star, has been accepted for the naval officers' training camp at Chicago and ordered to report there for duty. He will leave Kansas City tonight.

Mr. Hopkins' parents, Mr. and Mrs. T. B. Hopkins, are well known in Muskogee where they have resided for a number of years.

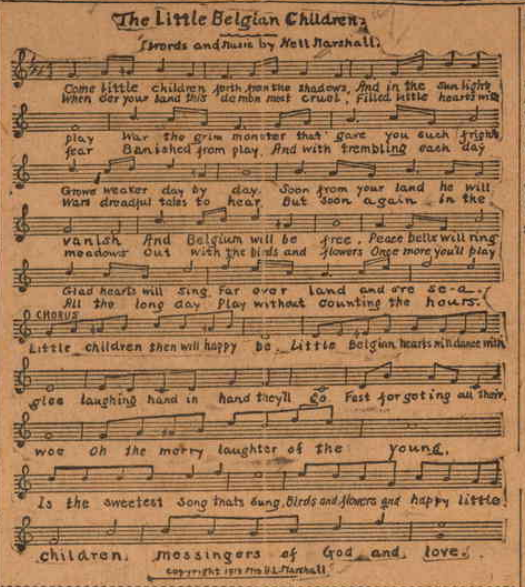
READ THE WANT ADS



COTTON MARKETS

(By private wire to Brandberg, McGreevy & Co., 118 North Third street.)

New Orleans, La., Nov. 4.—As if concurring in our conviction that peace in Europe would make for higher prices for cotton, especially ultimately, news that Italy had granted an armistice to Austria, which virtually puts the latter country out of the war, leaving Germany alone to stand against the allies, the market scored a sharp advance today.

As a house divided against itself cannot endure, it is likely only a question of a comparatively short time when Germany will fall in despair, as did Bulgaria, Turkey and Austria, when the world will be blessed with the return of universal peace upon which alone can commerce expand.

Italy's great victory over Austria will probably result in the opening of the Mediterranean to trade, preparations for which will likely soon begin, especially as tonnage is released for commercial purposes.

In the event of Germany falling by the wayside shortly, as is probable, all of northern Europe will begin the readjustment of general conditions looking to the resumption of business, in which cotton is apt to figure largely.

Therefore, the south has every reason to look forward to the future with implicit confidence of the gradually improving for its chief staple crop. There may be hesitation in values advancing in the immediate future, but the outlook is illumating for the distant future perhaps before the opening of the new year.

Meanwhile southern spot owners should refrain from selling their cotton at prevailing prices, as the world outside of the United States is hungry for cotton and cotton goods to feed the spindles and to cloth its people, many who have been practically deprived of supplies for the past four years.

Late press advices indicate that Germany, deserted by her allies, is apparently facing a great disaster on the western front.

Now there is a greater possibility than ever that Germany's military doom may not be far distant.

MEDICAL EXAMINATIONS HERE PROCEED RAPIDLY

Two hundred and twenty county registrants of September 12, were physically examined by medical members of the county board during Sunday and Monday. This number completes the examination of all class one men who have filled out questionnaires.

Local board number two will examine 20 white men and 20 colored men today and a like number Tuesday. Local board number one has not set a date to resume examinations but it is expected this work will be completed by next week.

Approximately 80 percent of the negro registrants examined Sunday and Monday were accepted for general service, according to Dr. H. D. Burns, medical member of the county board. The white registrants did not make such a good showing. A large number of them were rejected possibly because the majority were over 30 years old.

T.-D. WANT ADS FOR RESULTS

GET U. W. W. LITERATURE

Several thousand poster and many sheets of literature on the United War Work campaign have been received at the chamber of commerce and employees of that office were busy today mailing these out over the county, which will be completely and thoroughly covered by workers in the campaign. Each of the seven organizations represented in the United War Work campaign has its own posters.

Use Resinol first for skin troubles

Delay in the proper treatment of skin troubles is dangerous. Every day spent in trying unproved remedies may only let the disorder spread and become more and more deeply seated.

The value of Resinol Ointment is known. For over twenty years it has been used as a soothing, healing remedy for the skin.

If applied in time, it usually checks the itching and reduces the eruption right away. But even in stubborn, long-standing cases, it is surprising, how quickly this gentle, yet effective ointment brings results.

All druggists sell Resinol Ointment.

Mom with tender fingers find the rich lather of a mild Shaving Stick delightfully soothing.

PUBLIC AUCTION

SALE AT PUBLIC AUCTION

HIGHEST BIDDER OF THE COAL AND ASPHALT DEPOSITS, LEASED AND UNLEASED, IN THE CHOCTAW AND CHICKASAW NATIONS, OKLAHOMA, BY THE UNITED STATES GOVERNMENT.

There will be offered at public auction to the highest bidder at McAlester, Oklahoma, on December 11, 12, 13 and 14, 1918, the coal and asphalt deposits, leased and unleased, underlying the surface of 441,107 acres of the segregated mineral land in the Choctaw and Chickasaw Nations, Oklahoma; 289 unleased tracts aggregating 258,276 acres will first be offered for sale, and next 128 leased tracts containing 112,831 acres. The coal is bituminous and semi-bituminous, mainly of low volatile bunker coal for steamship use, high grade, domestic coal, railroad steam coal, high-grade blacksmith coal and cooking coal, seams averaging 4 feet thick with an average dip of from 10 to 15 degrees outcropping at the surface and extending to a vertical depth below the surface estimated to be 2,500 feet at the deepest part of the basin. Practically all of the tracts offered are located near cities, towns and railroads, many being crossed by railroads, making them easily accessible and attractive for mining purposes. The surface is already sold, only the coal and asphalt minerals will be offered for sale. Leased lands will be sold subject to any existing valid leases thereon. No preference right given except to lessees of leased tracts and the State of Oklahoma as to the coal and asphalt underlying State Penitentiary grounds. Government retains supervision over all leases and mining operations until full payment of such purchase price is made and deed issued, when supervision, terminates. No person can acquire more than four tracts of 90 acres each, except where such person, firm or corporation has such tracts under existing valid leases. Bids must conform to tracts as advertised. No bids for fractional parts considered, nor for less than advertised minimum price. Bids may be made in person, by mail or by authorized agents; 25 per cent of each separate bid must be accompanied by bank draft or certified check payable to D. Buddrus, cashier. Terms: 20 per cent in cash at time of sale, balance four equal installments, payable in one, two, three and four years from date of sale, 5 per cent interest per annum on deferred payments. Full payment purchase price may be made at any time when deed will issue. Local office at McAlester, Oklahoma; main office, Muskogee, Oklahoma. For descriptive lists, literature, free of charge, address Mr. Gabe E. Parker, Superintendent for the Five Civilized Tribes, McAlester, Oklahoma. The United States government sends out no advertising or exhibit cars to advance or exploit the sale of Indian lands. All such concerns are private enterprises in no wise connected with the government.

CATO SELLS,
Commissioner of Indian Affairs.

HUN PAPER IN ENGLISH IS WAFTED INTO YANK LINES

Paris, France, Nov. 4—A daily newspaper, printed in English, for circulation by hook or crook back of the American lines was a part of the German peace propaganda.

Up to the middle of September this paper even printed baseball scores from the States!

It was called the Ardennes Herald, camouflaged to make it appear to be a regular publication in the region held by the Germans. Each copy, however, bore a rubber-stamp message: "For the benefit of our American brethern."

Thousands of copies of the paper were sent over the American lines every day when the wind was blowing in that direction. They came tied to balloons made of yellow, oiled paper similar to the Fourth of July balloons back home.

The paper contained photographs often showing American prisoners surrounded with comforts. It gave remarkably accurate lists, headed "We have buried with honors the following—" or "We have taken the following prisoners—" and the lists not only gave names but also home addresses in the United States.

The propaganda daily was no crude affair. The English was perfect. The editorial attitude was not bitter, as it invariably is against the British. Rather, an attempt was made to make the Americans believe they were the "goats" of the British.

Thousands of copies of the paper gathered by American soldiers were scornfully burned by them.

PARIS STEET NAMES ARE PRINTED ON DIM LAMPS

Paris, Nov. 4.—Getting lost in the pitch-black streets at night is so easy that municipal authorities are having street names painted on sidewalk lamps.

Darkened Paris minimizes danger of air raids and also economizes coal and oil. All street lamps are painted blue, giving off a ghastly half-light.

Heretofore all but a few lamps were turned out at 9:30 o'clock and every street became as black as the inside of a hat. Now since Paris has turned back its clocks for the winter, the lamps are in use up to 10:30.

To facilitate travel, especially for the thousands of Americans and other strangers here, the city authorities have had street names painted in black on the glass top of 2300 lamp posts.

Luminous paint i s being used in certain quarters. In some cases house numbers are being made out of tiny mirrors so as to reflect the light. House numbers are also painted on street lamps directly opposite.

The Want Ad columns of the Times-Democrat are read by thousands of people every day.

Government Sale of Indian Lands
