"Keep Old Liberty's Light Still Burning!" Lewis A. Boss.

1

Keep Old Liberty's light still burning; let her gleam show across the wave;
In this world's fierce, most frightful struggle she must conquer, yes, she must save
Tis the palladium of our Country's safety and it guides our great Ship of State
As she sails in her long darkest hour--do not leave her to a sad fate!

2

Keep Old Liberty's light still burning; keep her forever burning bright;
With all radiance of hallowed power, let her throw out her guiding light; redeem
While a world full of roused, angry freemen, will her dim sullied lights then
In the fierceness of a mighty struggle yes, they'll keep that upright torch
(hand; sclean!

3

Keep Old Liberty's light still burning; as she stands there with her upright
Let her beaming rays reach over further, over sea, yes, and over the land;
Keep her Heavenly torch closely guarded; guard it close 'round with all Free-
dom's might;
That no arrogant, despoiling despot, may sneak up and then snuff out the light

CHORUS.

Keep Old Liberty's light still burning!
Let her burst forth all aglow;
In the world's most dark, drear hour
She will show the way to go;
Do not let her dim or weaken--let her shine with all her might;
Keep Old Liberty's light still burning--for the cause of Truth and Right.
