"Our Country. America!"
H. C. Daniels.

1

God Bless Our Dear Old Country for the wondrous good she's done;
In this great world war far across the seas!
Twas not for gold or silver, lands nor was it for a throne,
But to bring militarism to its knees.
But for our own dear Country that we call "America"
The outcome sait is could ne'er have been;
But God: "Uncle Sam, proclaim, throughout the whole wide world,
The cry of" Peace on earth, good will to men!"

CHORUS.

Ring out, sweet bells, in Jubilee; for the noble work our Country's done; begum;
Let the name of America take the lead, for the help she's given since the war
Ring out, sweet bells! ring louder! ring! ring! till the setting of the sun!
Ring out the beautiful story, let our praise be heard from ev'ry one!

2

God bless the brave brave men who gone and crossed the angry seas!
Their heroes to our Flag and dear old land;
They fight and die that others here may live in peace and rest
All aided by the Great Almighty's Hand.
God bless our noble President--for Wilson's done his best--
To cause that shall shall triumph over might;
And let all honor rest upon the men who there have led,
Our boys all through the thickest of the fight!

over.
