Do Your Bit Over Here
For the Boys over There

Music by
Harry Jenter

Verse

Over there over there Yankee boys are over there
over here over here its up to us to do our share Victory
Victory means sacrifice and grit. So lets put our shoulder to the
wheel and start to do our bit.

Cho. Do your bit over here for the boys over there while they
battle for you and me They have answered the call and its
up to us all to guide them back to home and liberty
We are in it to win it and Gods will be done And its
up to the man behind the man behind the gun So do your
bit over here for the boys over there for they're doing they're
bit for you —

DO YOUR BIT OVER HERE FOR THE BOYS OVER THERE

(I)

Over there--over there,
Yankee boys are over there;
Over here--over here,
It's up to us to do our share.
Victory--victory,
Means sacrifice and grit,
So let's put our shoulder to the wheel,
And start to do our bit.

Cho.
Do your bit over here,for the boys over there,
While they battle for you and me;
They have answered the call,
And it's up to us all,
To guide them back to home and liberty.
We are in it-to win it and God's Will Be Done,
And it's up to the man behind the man behind the gun,
So do your bit over here
For the boys over there,
FOR ~~While~~ they're doing their bit for you.
