A Lesson in French

Words and music by Jane Kerley

One day a lady say to me that I should teach the French to boys who go a-

cross the sea, to dig the great big trench. I say of course you count on me, I teach those boys my

tongue One thousand times I say each day until the work is done.

Chorus

"J'aime", that means "I love" and after that, comes "Aime moi". "Aime moi" means "love me"

"Love me" "Aime moi" "J'aime that means I love", "Now please you say the aime moi" "Love me" joy".

"Aime moi," "Oh stay where you are, you're a very very smart boy"! —

2 verse over

I think it very funny now

That down there — the school

There are so many ladies

Teaching French by the old rule

I never bother with the book

And get you just should see

How I can teach those boys the French

And how they flock to me! —

Chorus
