## To Avoid Shaving Sores and for Cleanliness

hundreds of thousands of men have learned  
Pompeian Cream is indispensable. It does  
with after-shaving discomfort, and takes out  
dirt that mere soap-and-water washing can  
remove. After a day of dusty travel, work  
sport, it cleanses and refreshes as nothing else  
do. It also gives the ruddy, healthy, athletic  
that all normal men desire.

# POMPEIAN MASSAGE CREAM

is the first face cream to be recognized as a stable household  
product, for women and men both use it to the extent of many  
millions of jars a year. It is unequalled for effectiveness in  
maintaining the face in youthful lines and in keeping the skin  
free from blackheads, chapping, tan, and other annoying  
blemishes. Sold by all druggists.

### TEST IT WITH A SAMPLE SENT FREE

Your name and address on a postal card will bring you a gen-  
erous sample and our famous book on Facial Massage, free to any  
part of the world. Write us to-day.

## TO IMPROVE AND PRESERVE THE COMPLEXION

women should use a natural aid to skin-health—no pore-  
clogging cosmetics. Pompeian Massage Cream **frees** the pores  
of infecting impurities and allows the blood to circulate. To  
attain a **natural**, youthful glow to the cheeks; to eradicate  
“laughing wrinkles” and “crow’s-feet”; to reduce the double  
chin as well as to round out unsightly angles, discriminating  
women the world over are using Pompeian Cream regularly. It  
contains no grease or anything to promote the growth of hair.  
See sample offer above.

## China, Japan, Philippines, and Australia Mails.

FIGURES in parentheses indicate number of days in transit from port of embarkation. The Post-Office Department allows 5 days for transmission of mails from New York to San Francisco, Seattle and Tacoma, and 9 days from New York to London, Eng. Leave London, Eng., every Friday for Aden (10), Bombay (15), Colombo (16), Singapore (22-25), Hong Kong (29-32), Shanghai (35), Yokohama (39-41). By Peninsular and Oriental Steam Navigation Co. and Messageries Maritimes. Leave San Francisco, Cal., about every 7 to 15 days for Hong Kong (32), Shanghai (29), Yokohama (19). By Pacific Mail and Occidental and Oriental Steamship lines. Leave Seattle, Tacoma or Victoria, about every 7 days for Hong Kong (32), Yokohama (17), Shanghai (24).

AUSTRALIA MAILS.—Mails for West Australia are all sent *via* London, Eng. Leave San Francisco, Cal., every few days for Honolulu, Sandwich Islands (7); and every 21 days for Auckland, New Zealand (18), Sydney, New South Wales (22), Brisbane (24). Leave London, Eng., every Friday for all parts of Australia, New Zealand, Tasmania, etc.

PHILIPPINE ISLANDS, ETC. Mails for the Philippine Islands are sent by steamers from San Francisco, Seattle or Tacoma to Hong Kong 3 or 4 times a month, thence to Manila 3 or 4 times a week; time from Hong Kong to Manila about 3 days. Steamers leave San Francisco for Manila about once a month, due at Manila in about 28 days. Mails for Samoan Islands leave San Francisco every third Thursday.

**Occurrences During Printing.**

SOME weeks are occupied in printing a volume so bulky as THE WORLD ALMANAC, and it is necessarily put to press in parts or "forms." Changes are in the meantime occurring. Advantage is taken of the going to press of the last form of the First Edition to insert information of the latest possible date, which is done below. The readers of the ALMANAC are requested to observe these additions, corrections, and changes, and it would be well to make note of them on the pages indicated.

176. National Civic Federation officers were elected December 17, 1907, as follows: Seth Low, President; Victor Morawetz, Chairman of Finance Committee; Secretary of War William H. Taft, Chairman of Public Employes' Welfare Committee; D. L. Cease, Secretary; Samuel Gompers, Vice-President; Nahum J. Batchelder, Vice-President; Ellison A. Smyth, Vice-President; Benjamin Ide Wheeler, Vice-President; Isaac N. Seligman, Treasurer; John Mitchell, Chairman Trade Agreement Committee; Melville E. Ingalls, Chairman Public Ownership Commission; Seth Low, Chairman of Conciliation Committee; Nicholas Murray Butler, Chairman Industrial Economic Department; Franklin MacVeagh, Chairman Immigration Department; Charles A. Moore, Chairman Welfare Department; Ralph M. Easley, Chairman Executive Council, New York City.
178. American Federation of Labor: At the Annual Convention at Norfolk, Va., November 11, Samuel Gompers was re-elected president. The reports of Secretary Morrison, showing a present paid membership of 1,538,970, and Treasurer Lennon, showing total funds to be \$127,910, were received.
181. Knights of Labor in convention at Washington, D. C., elected the following officers: Simon Burns of Pittsburgh, general master workman; P. H. Farrell of New York City, general worthy foreman; J. Frank O'Meara, of Washington, general secretary-treasurer.
232. A commercial treaty, under the terms of which British objects of art will be admitted to the United States at a reduction of 25 per cent. on the present duty, was signed November 30 by Ambassador Reid and Sir Edward Grey, the Foreign Secretary. In return, American travelling salesmen will have their samples admitted free at British ports. In future, the duty on British works of art entering American ports will be 15 per cent. ad valorem.
232. Additional list of Reciprocity treaties—Argentine Republic, took effect April 9, 1855. Bolivia, took effect January 8, 1863. China, took effect January 13, 1904. Costa Rica, took effect May 26, 1852. Haiti, took effect July 6, 1865. Japan, took effect March 21, 1895. Liberia, took effect March 18, 1863. Paraguay, took effect March 12, 1860. Servia, took effect December 27, 1882. All the above treaties are still in force.
239. The Republican National Committee at Washington, December 7, chose Chicago as the place of meeting of the National Convention, and June 16, 1908, as the time. The vote stood, Chicago, 31; Kansas City, 18; Denver, 4, after which it was made unanimous.
239. The Democratic National Committee at Washington, December 12, chose Denver as the place of the meeting of the National Convention, and July 7 as the time.
245. Socialist Party National Committee—That last elected is composed as follows: Victor L. Berger, 344 Sixth Street, Milwaukee, Wis.; Ben Hanford, Leesburg, Fla.; Morris Hillquit, 320 Broadway, New York, N. Y.; J. M. Patterson, Chicago Athletic Club, Chicago, Ill.; A. M. Simons, 182 Washington Street, Chicago, Ill.; Ernest Untermyer, Box 97, Grangeville, Idaho; John M. Work, 1313 Harrison Street, Des Moines, Ia.
294. A census of Cuba, the result of which was announced December 17, 1907, showed the total population of the island to be 2,028,282, divided as follows among the provinces: Pinar del Rio, 240,781; Havana, 518,524; Matanzas, 289,866; Santa Clara, 457,897; Camaguey, 117,432; Oriente, 453,782. The increase for the whole island is 29 per cent. since the Census of 1899.
296. The British turbine torpedo boat destroyer Tartar on December 17 broke all records in fast steaming, in her final trial over the official course, attaining a speed of 37.037 knots. She also established a new record for a six hours' trial, covering 233 miles in that time and maintaining the unprecedented speed of 35.363 knots. The contract calls for 33 knots.
326. Another grandson was born to John D. Rockefeller November 29, 1907, the mother being his daughter, Mrs. E. Parmalee Prentice.
367. Standard Oil: Stock outstanding, \$98,338,382; rate per cent., last dividend, 10, November 26, 1907; highest and lowest quotations 1907, 564-390.
458. Automobile Records: S. F. Edge, on the Brooklands automobile race track at Weybridge, England, December 10, travelled 1,581 miles and 1,310 yards in 24 hours in a 60-horse power car. He broke the world's one-hour record with 76 miles and 453 yards, and the two-hour record with 151 miles, 146 yards.
512. Benefactions: On December 10 Andrew Carnegie added the sum of \$2,000,000 to the \$10,000,000 endowment fund of the Carnegie Institution.
558. College Fraternities: The Sigma Pi Fraternity of the United States was founded at William and Mary College in 1752. The membership is now 355, with five active and five inactive chapters. William Jennings Bryan is a graduate member, as is former Governor Richard Yates, of Illinois. The president is Robert G. Patterson, of Chicago, and the secretary Frank Hollyday, of Easton, Md.
558. College Fraternities: The legal fraternity of Phi Delta Phi was the first professional fraternity organized. It was founded at the University of Michigan, Ann Arbor, in 1869, and has now 35 chapters of 8,000 members. The Secretary-Treasurer is George A. Katzenberger, Greenville, Ohio. At the tenth convention in Columbus, Ohio, last May, charters were granted for new chapters at Vanderbilt University, University of Colorado, Brooklyn Law School and the University of Southern California. The professional fraternities now number 52, with a membership exceeding 37,000. They are located in both technical and professional schools. With the exception of Theta Xi, members of professional fraternities may also belong to the general college fraternities.
576. Baptist Young People's Union of America: Officers elected in 1907: President, Rev. E. Y. Mullins, D.D., Louisville, Ky.; General Secretary, Rev. George T. Webb, 324 Dearborn Street, Chicago, Ill.
586. Army and Navy Union of the U. S. A.: Officers of National Corps: National Commander, J. Edwin Brown, Baltimore, Md.; Adjutant General, E. J. Bonner, 42 Knickerbocker Building, Baltimore, Md.

(Continued on next page.)

## OCCURRENCES DURING PRINTING—Continued.

591. Naval and Military Order of Spanish-American War Veterans: National Commandery, Capt. Taylor E. Brown has been elected Commander-in-Chief; Major Frank Keck, 78 Broad Street, New York City, Recorder-in-Chief.
601. Heads of Governments: Dr. Ernest Brenner was elected President of Switzerland, December 12, by the Federal Assembly.
- 601, 606. King Oscar II. of Sweden, died December 8, and his oldest son succeeded him as Gustave V.
622. Population of largest cities: A population of 1,000,000 is claimed for Shanghai and suburbs, practically one city. A late Japanese census makes the population of Tokio 2,085,160; Osaka, 1,117,151, Kobe, 345,952; Nagasaki, 169,941.
684. The Oklahoma Senators drew lots December 17, 1907. Thomas P. Gore drew the term expiring March 3, 1909; Robert L. Owens drew that expiring March 3, 1913.
694. Judiciary of New York: Governor Hughes appointed Abel E. Blackmar a Justice of the New York Supreme Court.
727. Elections, New York State: The official canvass of votes cast in 1907 for and against proposed Amendments to the State Constitution, shows both were carried. The vote: No. One, for, 352,905; against, 137,721. No. Two, for, 309,159; against, 123,919.

For the benefit of the friends and relatives of the sailors on the battleship fleet, the Navy Department wishes it made known that all-mail matter destined for the 15,000 men afloat in the big ships can be sent at domestic rates of postage. So no matter what part of South America Admiral Evans' ships may be, the sailors' letters will be delivered to them if they bear the ordinary two-cent American stamp for each ounce.

All mail matter for the fleet should be addressed care of Postmaster, New York,

# Specify These Brands

Don't select your ROOFING TIN on hear-say. Specify the weight of coating as well as the Brand when you're ready to select your roof covering, and you'll get exactly what you pay for ; while the life of the roof will depend largely upon the selection you make. Our brands are enumerated below.

**The World.**

JOSEPH PULITZER.

“PERFORMANCE IS BETTER THAN PROMISE.” WHAT THE WORLD HAS ACCOMPLISHED DURING THE PAST TWENTY-FIVE YEARS.

Against its promises made a quarter of a century ago, promises not easy to keep, THE WORLD to-day proudly writes the word—fulfilled! Fulfilled—because THE WORLD’S heart has throbbed with the heart of the people and because the cry of the humblest citizen, native or adopted, if heard in a just cause, has never been unheeded. Fulfilled—because “do right and fear not” was the motto adopted in May, 1883, when THE WORLD passed into the hands of Mr. Joseph Pulitzer, and the public read at the head of its editorial columns this memorable announcement:

“The entire WORLD newspaper property has been purchased by the undersigned, and will, from this day on, be under different management—different in men, measures and methods; different in purpose, policy and principle; different in objects and interests; different in sympathies and convictions; different in head and heart.

“Performance is better than promise. Exuberant assurances are cheap. I make none. I simply refer the public to the new WORLD itself, which henceforth shall be the daily evidence of its own growing improvement, with forty-eight daily witnesses in its forty-eight columns.

“There is room in this great and growing city for a journal that is not only cheap, but bright; not only bright, but large; not only large, but truly democratic, dedicated to the cause of the people rather than that of purse-potentates, devoted more to the news of the New than the Old World; that will expose all fraud and sham, fight all public evils and abuses; that will serve and battle for the people with earnest sincerity.

“In that cause and for that end solely the new WORLD is hereby enlisted and committed to the attention of the intelligent public. JOSEPH PULITZER.”

From the day that Mr. Pulitzer made the foregoing pledge to the public THE WORLD became one of the great journalistic forces in American life. Soon it outstripped all contemporaries and took the proud position of leader in the newspaper field—the place it holds to-day—after two and a half decades of relentless, unceasing war against wrongs; the place of a peerless, dominant moral power. Hundreds of standards of iniquity have been furlled and laid at the feet of THE WORLD when corruption in high circles has been fearlessly attacked on right, left and centre by this journal of the people. Criminals have feared THE WORLD, argus-eyed, as they have not dreaded the keenest professional detectives. Political parties have trembled at its voice, and nations have recognized THE WORLD as an influence for peace, good will and prosperity. Through its trained army of correspondents—a news-gathering corps unparalleled in history for alertness and intelligence—nothing is too small, if significant, to attract the instant attention of THE WORLD, and nothing is too great to make it swerve an instant from its line of duty when its course has been decided.

Soon after Mr. Pulitzer’s salutatory THE WORLD declared its ten Political Commandments as representing its view of true Democracy, the sort for which it intended to fight, caring nothing about being deemed politically “regular,” if regularity be interpreted as party fealty, no matter to what extremes the so-called Democratic party might go. In other words, it promised that no particular body of politicians, large or small, should control it under the Pulitzer regime. Its principles and policies were then, as now, living issues. THE WORLD demanded:

- The taxation of luxuries.
- The taxation of inheritances.
- The taxation of monopolies.
- The taxation of large incomes.
- The taxation of the privileges of corporations.
- A tariff for revenue.
- Reform of the civil service.
- Punishment of corrupt office-holders.

Punishment of vote-buying.

Punishment of employers who coerce their employees in elections.

THE WORLD has kept these pledges of adherence to vital Democratic principles, though often furiously assailed by politicians and by great "Democratic" party organs.

#### THE EVOLUTION OF THE WORLD.

Although old things passed away and all things became new in connection with THE WORLD when Mr. Pulitzer purchased the paper, the journal had nevertheless had a long and eventful career, which can be traced back to 1812, when, during America's war with England, the National Advocate was born in New York, with Henry Wheaton, an eminent scholar and exponent of international law, as founder. It became one of the foremost newspapers in America. It supported President Monroe and the "doctrine" which is now accepted as the basic principle of the foreign policy of America. The National Advocate became the Enquirer in 1826, Maj. M. M. Noah, editor. Three years later it was merged with the Morning Courier, with the title of Courier and Enquirer, six editors, James Gordon Bennett, James Watson Webb, James Brooks, James Lawson and Prosper M. Wetmore, joining Major Noah.

Those were the days of the "blanket-sheet" newspapers, and rivalry took the form of striving for the biggest sheet. In 1853 the Courier and Enquirer's leading rival, the Journal of Commerce, proudly boasted an issue on sheets measuring sixteen and one-third square feet, and announced itself to be the "largest newspaper" in the world.

In 1860 a one-cent religious daily was put forth. It was called The World. It had the support of several rich men. It refused to print police or theatrical news or "scandals." It rejected theatrical advertisements. The public did not take to it kindly. After an inglorious career it was merged with the Courier and Enquirer, with its own name first in the triple head, The World and Courier and Enquirer. A short time after two-thirds of the title was dropped, leaving THE WORLD.

August Belmont, S. L. M. Barlow and other wealthy Democrats bought THE WORLD in 1872. The brilliant Manton Marble became its editor, and it grew to be the most powerful Democratic newspaper of the time. Mr. Marble became its sole owner after a while, but sold the paper to a group of capitalists represented by William Henry Hurlbert, who became its editor in 1876.

THE WORLD in the meantime had come under the control of Jay Gould, Mr. Hurlbert remaining as editor. Self-announced as the leading organ of a great political party, it really represented the interests of a speculator in railroads and a plutocrat in politics. Of course, it lost influence. It was discredited by the people. Its circulation dwindled until it was less than 10,000 in the city. It was bankrupt by forsaking the paths of true journalism. It was used as a private enterprise for personal ends. It did not trust the people. The people did not trust it.

It was at this point in THE WORLD'S career, when its very existence was threatened, that the unexpected happened, or, to put it more accurately, was accomplished by Joseph Pulitzer. With unbounded faith in the people, and also with audacity and faith in himself, Mr. Pulitzer bought the paper, saluted his new constituency, and ordered from R. Hoe & Company the largest and fastest press they could construct in the quickest possible time. The great printing press builder cautiously asked, "How do you know you shall need it?"

"I must need it to succeed, and I shall succeed," was the reply. But the builder of printing presses, with the narrow income and narrowing credit of THE WORLD, stipulated that before the new press left the Hoe shops Mr. Pulitzer should give him a mortgage on the entire plant in the office. In violation of the cardinal principle of life never to give his note or other obligation to any man, Mr. Pulitzer assented. Long before the new, largest and fastest press was completed a second was ordered, and was necessary. Mr. Hoe repudiated his own bargain and refused to accept the mortgage. From that day to this the greatest printing press makers in the world have been kept busy studying and inventing larger, faster presses to accomplish the task of printing the constantly growing editions of THE WORLD. The first "quadruple press" ever built was for THE WORLD. The biggest "sextuple" was designed immediately after, and then the mammoth "octuple presses" were invented for THE WORLD. They were too big for any newspaper but THE WORLD at the time, but were not quite as fast as were needed to print the "foremost New York newspaper," grown in circulation from less than 20,000 to nearly 1,000,000 per day.

#### THE BIRTH OF THE PULITZER BUILDING.

The wonderful growth of THE WORLD soon made the securing of more ample quarters

a necessity. To meet this need Mr. Pulitzer purchased on April 10, 1888, for \$630,000 what was then known as the French's Hotel property, long the site of a famous hostelry, on which stands the magnificent home of THE WORLD. The spot is historic, and its occupancy can be traced to 1642, when one Van de Grist and Govert Loockerman, of New Amsterdam, were granted a large tract of land which included this property. Loockerman's daughter Elsie, after having been for some years the wife of Peter Cornelison Vanderveer (who built the first three-masted schooner and the first brick building in Manhattan Island), became a widow, and later married Jacob Leisler, who grew rich and influential, but who mixed in politics until he was accused of treason, and died on a gibbet erected where the Pulitzer Building now towers. Leisler's property was confiscated and was later restored to his heirs, the stigma of treason against him having been removed. In Revolutionary days the old commons opposite the Pulitzer Building were the scene of many stirring gatherings, and history now fixes them with reasonable accuracy as the place where Nathan Hale, regretting that he had but one life to give for his country, was hanged by the British as a spy. Tammany's first hall was built in 1811 on the corner of Nassau and Frankfort streets, the site adjoining that of the Pulitzer Building. In 1849 French's Hotel was opened and was continued until Mr. Pulitzer bought the property and demolished the noted structure to make place for the Pulitzer Building of to-day, an edifice largely designed by Mr. Pulitzer.

The preliminary work for the foundations of the new structure was begun on June 20, 1889. The corner-stone was laid on October 10, 1889, by Master Joseph Pulitzer, jr., then four years old. Bishop Tuttle, of Missouri, made the invocation, and Chauncey M. Depew delivered the oration. Gov. David B. Hill, Daniel Dougherty and others made addresses. From Mr. Pulitzer, who was ill at Wiesbaden, Germany, came the following cablegram, which was read:

"God grant that this structure be the enduring home of a newspaper forever unsatisfied with merely printing news—forever fighting every form of wrong; forever independent; forever advancing in enlightenment and progress; forever wedded to truly democratic ideas; forever aspiring to be a moral force; forever rising to a higher plane of perfection as a public institution.

"God grant that THE WORLD may forever strive toward the highest ideals; be both a daily school-house and a daily forum; both a daily teacher and a daily tribune; an instrument of justice; a terror to crime; an aid to education; an exponent of true Americanism.

"Let it ever be remembered that this edifice owes its existence to the public; that its architect is popular favor; that its moral corner-stone is love of liberty and justice; that its every stone comes from the people and represents public approval for public services rendered.

"God forbid that the vast army following the standard of THE WORLD should in this or in future generations ever find it faithless to those ideas and moral principles to which alone it owes its life and without which I would rather have it perish.

"JOSEPH PULITZER."

The readers of THE WORLD to-day who were its readers twenty-five years ago know how well Mr. Pulitzer's fervent prayer, flashed under the Atlantic, has been answered. The aim of THE WORLD has never changed. The army that followed it then has grown to mighty legions, and is still growing. Where THE WORLD is willing to lead, millions are always glad to go, because they have faith in THE WORLD and THE WORLD has faith in them.

On December 10, 1890, occurred the formal opening of the Pulitzer Building in the presence of the most notable assemblage that ever came together for such a purpose. Among those present were Governor Hill, of New York; Governor Beaver, of Pennsylvania; Governor Abbett, of New Jersey; Governor Bulkeley, of Connecticut; Governor Campbell, of Ohio; Governor Davis, of Rhode Island; Governor-elect Amsden, of New Hampshire; Governor-elect Morris, of Connecticut, and Governor-elect Pattison, of Pennsylvania; Senator Calvin A. Brice, Congressmen Mills, McMillin, Blount, Crisp, Wilson, Tarnsey, Caruth, Springer, Flower, Allen, Cooper, Turner, McCarthy, Dunphy, Cummings and Fitch; Mayor Grant and the heads of the various city departments; Warner Miller, George W. Childs, Joseph C. Hendrix, Col. Charles H. Taylor, and many other eminent men, irrespective of political affiliations, from all parts of the country. In all, some 7,000 persons inspected the great building that night, being guided through it by members of the staff of THE WORLD, a collation being served in the reception-rooms on one of the upper floors.

The speech-making included addresses by Governors Hill, Abbett, Beaver, Campbell

DEVIS and Bulkeley, Governors-elect Pattison and Amsden, Mayor Grant, Daniel Dougherty, Colonel Taylor, of the Boston Globe, Murat Halstead, Warner Miller, St. Clair McKelway, and Congressmen Flower, Mills, McMillin, Wilson, Caruth, Allen, Cooper and Turner, and Judge Manson, of St. Louis.

Since that memorable early Winter day seventeen years ago the Pulitzer Building has been visited by people from every clime, and hundreds of thousands have viewed from its dome the marvellous panorama stretching in all directions, and have also witnessed in THE WORLD'S various departments the making of a great newspaper.

#### THE NEW WORLD'S FIRST ACCOMPLISHMENT.

As hundreds of thousands of eyes daily turn with admiring gaze to the Eartholdi Statue of Liberty Enlightening the World in New York Harbor, and as millions of eyes daily see the emblem chosen nearly twenty-five years ago to fittingly grace the first page of THE WORLD, older readers remember with pride the incident which gave THE WORLD the proud right to adopt this emblem—an incident of international interest.

Three days after Mr. Pulitzer had assumed control, THE WORLD attempted to raise funds by a popular subscription to build a pedestal for the Eartholdi Statue, the beautiful and colossal bronze figure given by the people of France to the people of America as a token of endearing friendship between two liberty loving nations. The American committee had failed to arouse the public from apathy as to the project, and the press sneered at the situation. THE WORLD'S early efforts also failed, as its limited circulation did not reach the masses, which it was confident would respond when called upon to aid so patriotic and worthy a cause. Twenty months later, on March 16, 1885, it again took up the work with energy, being able to appeal to thousands where it had before appealed to hundreds. The rich had remained indifferent and failed to contribute, but in four months, through THE WORLD, the people gave more than \$100,000, which represented the free-will offerings of 120,000 men, women and children. With this money was built the noble pedestal, on which "Liberty" has stood for nearly twenty-two years at the gate of the nation's metropolis. The inauguration ceremonies on October 22, 1886, were attended by President Cleveland and his Cabinet, the Governors of many States, members of diplomatic corps, and many distinguished American guests; also by a notable deputation from France, including M. Auguste Bartholdi, the statue's creator; Count Ferdinand de Lesseps, Admiral Jaures, General Pelissier and other high representatives of French official and civil life. There was a naval parade in the harbor and a huge land parade, the latter being reviewed by President Cleveland and the French guests at Madison Square. On Bedloe's Island, the site of the statue, Count de Lesseps, on behalf of the Franco-American Union, made an address. Senator William M. Evarts made the presentation speech, and President Cleveland the speech of acceptance. The French plenipotentiary, M. Lefalvre, also made an address, and the commemorative oration was by Chauncey M. Depew. The Rev. Dr. R. S. Storrs offered a prayer, and the benediction was pronounced by Bishop Henry C. Potter.

#### THE ELECTION OF CLEVELAND AS PRESIDENT.

The most striking example of THE WORLD'S loyalty to Democratic tenets at a time when such an illustration was sadly needed was its advocacy of the nomination of Grover Cleveland, then Governor of New York, by the National Democratic Convention for President of the United States. Mr. Pulitzer, realizing that a turning point in national history had been reached, and that opportunity for success was knocking at every true Democratic door, had, before obtaining control of THE WORLD, steadily urged in his St. Louis Post-Dispatch the nomination of Cleveland. The new WORLD, daily gaining influence in New York, found itself bitterly opposed in its Cleveland attitude by John Kelly, of New York. Tammany Hall and others to whom the independence of Governor Cleveland was decidedly distasteful. Nothing daunted, THE WORLD threw down the gauntlet and followed its challenge with a vigorous battle for Cleveland's nomination.

John Kelly declared that Tammany Hall would not attempt to help elect Cleveland if he was nominated. THE WORLD said Kelly did not mean what he said and continued its fight. When Samuel J. Tilden was the Democratic leader and Cleveland was Mayor of Buffalo THE WORLD had picked Cleveland as Tilden's logical successor and as a Presidential candidate, and it did not propose to strike its colors to Tammany. Kelly's threat, however, had influenced delegates from other States, as Kelly was the New York leader, and they felt that success in New York was a vital necessity. THE WORLD took upon

itself the task of disproving Kelly's statement, exposed the pretence that Tilden opposed Cleveland, and brought forth every item of evidence to show that Cleveland, by his steady independence of the party bosses, had made himself the strongest man in the State before the people.

On the eve of the National Convention THE WORLD told why it favored the independent Governor for President in an editorial under the head, "Why THE WORLD Likes Cleveland." It said:

"He is a poor man.

"He came from plain, common people.

"He has no so-called aristocratic lineage or illustrious ancestors, but owes everything he is to his own efforts and own character.

"He has clean hands and a spotless record.

"He is a poor politician, because an absolutely honest reformer.

"He has no lifelong political record to defend."

Mr. Pulitzer's heart and soul were in this first great public service to the whole American people, and he went to the convention as a reporter for his own paper, and his graphic dispatches from the convention scene gave primacy to THE WORLD'S reports.

The New York delegation had been divided by the State convention between Tammany Hall and its traditional opponents, but the persistent work of THE WORLD finally brought the opposing camps together to cast the entire vote of the Empire State for Cleveland, insuring his nomination.

It has always been generally conceded that THE WORLD, more than any other agency, contributed to Cleveland's success. From convention day to election day it was persistent, insistent and indefatigable in Cleveland's behalf. History has told how Cleveland won by a narrow margin after what was perhaps the fiercest campaign ever waged in the United States. A change of 700 votes in New York State would have elected James G. Blaine. Mr. Blaine frankly expressed the belief, after the election, that the use instantly made by THE WORLD of the millionaires' banquet to him, which it cartooned as "Belshazzar's Feast," and of the tactless "Rum, Romanism and Rebellion" speech of the Rev. Dr. Burchard on the eve of election influenced far more than enough votes in this city to decide the result.

Writing to the twentieth anniversary number of THE WORLD, Mr. Cleveland said:

"The New York WORLD is just closing twenty years of work under its present ownership and management. I have quite often differed with it very broadly, both as to things advocated and its methods of advocacy. It has condemned and still deprecates some of my public and official acts which to the day of my death I shall recall with the greatest satisfaction, and though it has quite recently dealt with me in such a kind and partial manner as to challenge my grateful appreciation, even in this I must insist that to some extent at least it has been led away from a correct estimate of actual conditions.

"I would, however, be ashamed if any differences between us made it difficult for me to cheerfully testify to the notable service which this great newspaper has rendered within the last twenty years to the cause of Democracy. Concerning this I can speak largely from personal knowledge and observation. I never can lose the vividness of my recollection of the conditions and incidents attending the Presidential campaign of 1884, how thoroughly Republicanism was entrenched, how brilliantly it was led, how arrogant it was, and how confidently it encouraged and aided a contingent of deserters from the Democratic ranks. And I recall not less vividly how brilliantly and sturdily THE WORLD then fought for Democracy; and in this, the first of its great party fights under present ownership, it was here, there and everywhere in the field, showering deadly blows upon the enemy. It was steadfast in zeal and untiring in effort until the battle was won; and it was won against such odds and by so slight a margin as to reasonably lead to the belief that no contributing aid could have been safely spared. At any rate, the contest was so close it may be said without reservation that if it had lacked the forceful and potent advocacy of Democracy at that time by the New York WORLD the result might have been reversed."

Daniel S. Lamont, private secretary to Grover Cleveland, Secretary of War in the second Cleveland Administration and manager of Mr. Cleveland's earlier campaign, contributed this "appreciation" of THE WORLD'S part in the Cleveland Presidential campaign of 1884;

"In the campaign THE WORLD was the great Democratic newspaper in New York City battling for Mr. Cleveland's election. It took the lead in the fight. Mr. Pulitzer personally participated in the campaign, and in the result, which was decided by a **narrow**

margin of 600 votes, too much credit cannot be given THE WORLD. It bore the leading share among the newspapers.'

#### OTHER NOTABLE POLITICAL CAMPAIGNS.

Five days after Mr. Pulitzer assumed direction of THE WORLD he commenced, in a leading editorial, a fight for an income tax, declaring it to be "the fairest and most democratic tax a government can impose," and saying: "An income tax exempting incomes below \$4,000 or \$5,000 could not touch anybody to whom payment could be a serious burden." Many newspapers and individuals denounced this new idea as revolutionary and socialistic. THE WORLD, however, patiently and forcefully urged it as "essentially a people's tax." and slowly but surely the proposition grew in popular favor, until eleven years afterward President Cleveland signed a law providing for just such an income tax as THE WORLD had advocated for more than a decade. The friends of this law praised THE WORLD for having secured its passage by Congress, and the enemies of the new statute were severe in their criticism, blaming THE WORLD for their defeat and thus paying it a high compliment. The United States Supreme Court, by a vote of 5 to 4, declared the law unconstitutional because of its construction. Subsequent Congresses have been hostile to a revival of the measure in constitutional form, but THE WORLD'S attitude remains unchanged, and THE WORLD believes that the day is not far distant when an income tax will add to the nation's revenues and permit a reduction of other taxes.

When Judge Maynard was nominated for the Court of Appeals he had been guilty of a gross offence to the law by abstracting an election return from the Secretary of State's office two years before in the interest of a political master. THE WORLD began the agitation in favor of "taking the bench out of politics and politics out of the bench." It called upon the people to defend the honor of the State and preserve the purity of the bench by defeating Maynard. And they did defeat him by a majority of 101,000 votes.

So firmly had this WORLD idea of a non-political bench since become fixed in the public mind that when the Republicans refused to indorse the renomination of Judge Gray in 1902, although their candidate was an exceptionally good man, he was defeated, and that at an election when the rest of the Republican ticket was successful.

With an earnestness that commanded the respect of the thinking men of the land, THE WORLD used its utmost power to avert the growth of the free silver movement, and when the Chicago National Convention, in a fit of hysterics, nominated William J. Bryan, THE WORLD, which during all its eighty-three years of existence had never supported any but Democratic candidates for President, refused to yield to popular hysteria and repudiated both Bryan and free silver. It declared that "the proposal to debase the currency to the standard of a few half-civilized countries against the standard and experiences of the most enlightened nations cannot stand the trial of a four months' discussion." In the face of great party enthusiasm, and with great financial loss involved, it made an uncompromising campaign against political heresy, a heresy which meant national disaster and disgrace. THE WORLD put country above party and won. And it foretold in "A Judicial Forecast" on October 21, two weeks before election, the exact result in the Electoral College, naming the States that were "certain for McKinley."

THE WORLD predicted the nomination of President Roosevelt to succeed himself in 1904, and urged the nomination of Grover Cleveland as the logical candidate to oppose him and as the only man likely to defeat Roosevelt. When, instead, Judge Alton B. Parker was nominated, THE WORLD, while it supported him as the Democratic standard-bearer, read and truthfully reflected the signs of the hour and never prognosticated his success. It fought for him on principle, regardless of result, recognizing no connection between political success and moral convictions. Toward President Roosevelt THE WORLD has always been fair, while opposing much that he has stood for most conspicuously as his party leader. It praised him for maintaining the peace in Venezuela, defended his hospitality to Booker T. Washington, applauded his independence in the Northern Securities warfare, and has supported him whenever his attitude or achievement in the interests of the public have deserved commendation.

#### A GREAT INTERNATIONAL SERVICE BY THE WORLD.

The consistency of THE WORLD in its never-ending fight against jingoism and the splendid results of sticking to its colors was demonstrated in 1895, when stern duty to itself and to humanity compelled it to instantly and passionately oppose President Cleveland's attitude in the Venezuelan crisis. It saw his serious error and the unhappy consequences to which it might speedily lead. It mattered not that THE WORLD had done so much

toward twice making Mr. Cleveland President. His message to Congress had aroused a war clamor contrary to reason and common-sense, and there was grave danger that America and Great Britain might become engaged in conflict. The voice of the jingoes here and in England grew daily louder—raving for war—because of a boundary dispute between Venezuela and Great Britain. THE WORLD called the message "a grave blunder," and declared that Cleveland had falsely interpreted the Monroe Doctrine. He had asked the Senate for a commission to settle the dispute which he had not been asked to settle. The paper appealed to the sanity and common-sense of the people, and its editor sent 500 cable and telegraphic messages to the leaders of thought in the British Isles and in America. Next day it published responses from the leading public men, prelates and statesmen of England, messages of peace and good will. Gladstone said, "Only common-sense is necessary." The Prince of Wales, now King Edward VII., forsook traditions of royal etiquette and addressed a friendly message to America through THE WORLD, expressing his hope of a peaceful settlement of the imbroglio. Peace was restored, and the plaudits and thank offerings of the whole English-speaking race poured in upon THE WORLD for staying the hands of the two nations just ready to imbrue them in each other's blood. Mr. Cleveland's Venezuelan commission made no report. The dispute was arbitrated, and England and America joined in organizing an International Court of Arbitration.

THE WORLD'S service in averting "bloody war" was recognized by the Peace and Arbitration Societies of Great Britain, and in evidence of the gratitude of that portion of the English-speaking people who live in the British realm for that service these societies waited upon Mr. Joseph Pulitzer, then in London, and presented an address to him, the late Cardinal Vaughan being the spokesman.

Of THE WORLD'S fight Joseph Chamberlain said:

"THE WORLD led public thought when it secured expressions of opinion from the leading men of America and Great Britain. It performed an inestimable service to the English-speaking people of the whole world."

The cause of universal arbitration was far advanced by the triumph thus won, and hastened the movement which culminated in the establishment of the International Arbitration Commission at The Hague.

#### NATIONAL CREDIT RESTORED BY THE WORLD.

On another vitally important occasion in 1895, when THE WORLD realized that the bond policy of President Cleveland was inimical to the interests of the people, it did not hesitate to show the President's error. THE WORLD still classes among its greatest triumphs its action at that time in the smashing of the "bond ring" and the restoration of the national credit by turning the searchlights of "publicity" upon the project of the Administration to sell \$100,000,000 worth of bonds to the Morgan syndicate of capitalists at a figure many millions lower than similar bonds were held at in the market was one of THE WORLD'S greatest triumphs.

It was announced from Washington that this issue of 4 per cent. bonds had been sold in bulk to the Morgan syndicate "at about the same price" paid for an issue of \$63,300,000 worth the year before. The country was shocked, for THE WORLD had pointed out that these bonds, sold to the same syndicate at 104 $\frac{1}{4}$ , were quoted on the market at 118 or more, and the new bonds would surely bring as much. The sale, as planned, would not only involve a great loss to the Treasury, but the very suggestion impaired the national credit at home and abroad. It printed "An Appeal to the President." It showed him the nature of the blunder he was making, and entreated him to abandon the arrangement and "trust the people," offering the bonds to them, assuring him that the people would quickly subscribe for the whole issue and pay a higher price for them. In evidence of its own faith in the people THE WORLD pledged itself to take \$1,000,000 worth at the highest market price. THE WORLD stood alone for fourteen days in defence of the nation's honor and credit, printing from thirty to forty columns daily of arguments and appeals. It sent messages to 10,370 bankers in all parts of the country. It received 7,130 replies, offering to take more than \$300,000,000 in bonds at the market price. That settled it. President Cleveland rejected the syndicate's contract. The "bond ring" was smashed. The bonds were offered at public sale, and the people bid for almost six times the amount of the issue, or, to be precise, wanted to buy not \$1,000,000 worth of bonds, but \$558,269,850. Over 800 bids at 110 or better were received, where Mr. Morgan had offered only 104 $\frac{1}{2}$ . The head of the smashed syndicate betrayed the "deal" by bidding 110.6877 for all or any part of the issue—\$6,000,000 more than his syndicate would have paid under the "arrangement." The whole issue was disposed of at an average price of nearly 112, netting \$6,888,836 more to the

Treasury than would have been received had the secret deal been consummated. THE WORLD kept its promise, taking \$1,000,000 worth of the bonds and paying \$1,130,000 in gold for them.

#### THE WORLD AND THE BOER WAR.

Following its splendid victory in the cause of peace and arbitration in the Venezuelan boundary controversy, THE WORLD was the guiding spirit in an effort to avert the South African conflict in 1900. On September 27, 1889, President Kruger, in THE WORLD, summed the issues from the Boer viewpoint and alleged that the crisis was due to certain British residents "to whom the very existence of the republic is an eyesore," and who, not content with the best mining laws in the world, wished also to have complete control of legislation and administration, the destruction of the republic, and complete control of the richest mines in the world." He concluded sadly that "we have no such powerful friend as you proved to be to Venezuela and other republics. We have strong faith that the cause of freedom and republicanism will triumph in the end." THE WORLD cabled President Kruger's message in full to Joseph Chamberlain, British Secretary for the Colonies, who was quick to reply with a reference to the British Blue Book for his side of the controversy.

President Kruger answered through THE WORLD that his Government had ever been ready to submit the dispute to arbitration, and suggested that a board of arbitration be selected, two members by England, two by the Transvaal, and the fifth by the President of the United States or the President of Switzerland, concluding with: "We have yielded everything but the life of the republic. We wish most earnestly for arbitration to prevent a war which would be an outrage against religion and humanity."

THE WORLD immediately set going the movement for arbitration, which resulted in the most powerful petition ever drawn to President McKinley, asking him to offer the kindly offices of the American Government in mediation of the dispute which had reached a stage that threatened the existence of two sister republics.

President Steyn, of the Orange Free State, cabled his grateful indorsement of THE WORLD'S effort for peace and urging the necessity for speedy action.

Premier W. R. Schreiner, of the British Cape Colony, cabled from Cape Town his appreciation and sympathy with the movement for a peaceful settlement of the South African difficulties.

Archbishop Croke cabled: "Avert war by all honorable means."

Cardinal Logue said: "I am most anxious for peace."

The Archbishop of York, Archbishop of Canterbury, Right Hon. Leonard Courtney, M. P., Michael Davitt, and other prelates, statesmen and public men of England, indorsed THE WORLD'S effort to secure peace, while the signers of the petition to President McKinley in this country made it the most formidable document of the kind and of the most representative feeling since the Declaration of Independence. Among the signers were ex-Senators George F. Edmunds and John Sherman, Archbishop Ireland, Gen. O. O. Howard, President Jordan, of Leland Stanford University; Donald G. Mitchell; Mayor Phelan, of San Francisco; President Warren, of Boston University; Frederic R. Coudert, ex-Vice-President Adlai E. Stevenson, ex-Senators Manderson and Ingalls, ex-Representative Breckinridge, John P. Altgeld, Augustus Van Wyck, William B. Hornblower, Ernest H. Crosby, T. Estrada Palma, Carl Schurz, Horace Boies, J. Sterling Morton, Archbishops Kain and Christie and sixteen Bishops of the Roman Catholic Church, Bishops Potter, Dudley, Whittle, Hare and fourteen other Protestant Episcopal Bishops, ninety university and college presidents, forty Federal and State judges, the Governors of thirty-five States, one hundred and eight Senators and Congressmen, State officers, mayors, editors, clergymen, lawyers, business and professional men, and thousands of others of lesser note. After this petition had been indorsed by a great mass meeting in Carnegie Hall, New York, the paper was taken by a representative delegation to President McKinley, who declined to offer his services as mediator unless formally asked to do so by the disputants. President Kruger, fearing further delay, then boldly warned England that unless troops were withdrawn by a fixed hour war would begin, and served notice to civilization through THE WORLD in words that have already become historic:

"The republics are determined that if they must belong to England, a price will be paid which will stagger humanity."

Then came the clash of arms. Having done all it could to avert the war, THE WORLD now turned its attention to its next highest duty—that of presenting the earliest, most graphic and complete report of each movement in the war. It retained Lieut. Winston

Spencer Churchill, the talented son of Lord and Lady Randolph Churchill, with the American blood of the Jeromes in his veins, as its special correspondent in the field.

It presented to its readers an immense map of the section of South Africa, which was the scene of the conflict, with carefully compiled descriptive statistics of the country. It printed comprehensive articles on Cecil Rhodes, the uncrowned diamond king and maker of modern Africa; the war itself, by Lieutenant-General Schofield; the arms and marksmanship of the Boers, by Maxim, and life in Boerland, by H. C. Hillegas, the American authority on South African matters. Lieutenant Churchill was taken prisoner by the Boers, and E. F. Knight, one of the ablest war correspondents on earth, took his place, only to be wounded at the famous fight at Belmont. He heroically dictated a graphic account of that battle, the best account that came over the cable. John Stuart, a third correspondent of THE WORLD, was cut off by the Boers at Ladysmith. THE WORLD presented the fullest and earliest news from the beginning of hostilities.

#### THE SPANISH-AMERICAN WAR RECORD.

During the many months that preceded the outbreak of the Spanish-American war THE WORLD chronicled the fullest and most accurate accounts of incidents in Cuba's long struggle for freedom. It published the signed statements of General Gomez, Captain-General Weyler, Gen. Fitzhugh Lee, Marshal Campos, Sagasta, Blanco, Harris Taylor, former Minister to Spain, Gen. Julio Sanguilly, President Cisneros and others. It was largely through THE WORLD that the American people first learned the truth about the barbaric captivity of the reconcentrados who were driven into the Cuban cities by General Weyler—a condition which led to diplomatic notes between the United States and Spain and to an offer of autonomy and greater liberty for Cuba by Spain. THE WORLD was especially invoked by Cubans to make known their terms and point the way to peace. Marshal Campos expressed through THE WORLD from Madrid his approval of reforms proposed by Spain. General Gomez, in THE WORLD, declared Cuba's ultimatum—liberty and nothing else. At midnight, on September 29, 1897, THE WORLD was the first to inform Senor Dupuy de Lome, the Spanish Minister, of a ministerial crisis in Spain. On January 12, 1897, THE WORLD, fifty days in advance of any other newspaper, outlined the President's offer of mediation, and predicted that both Spain and Cuba would reject intervention. THE WORLD, too, predicted the deposing of Weyler, Blanco's return to Cuba, the overturning of the Azcarra ministry, and the organization of a Liberal Government in Spain, with Sagasta at its head.

During the Spanish-American war THE WORLD easily led all its competitors. Its average circulation through the war was 1,300,000 a day, and during the year 5,000,000 a week. In some of the city schools it was regarded as a text-book of current history. Its great "beat" in giving the first news of Dewey's victory in Manila Bay will never be forgotten.

When war with Spain was declared THE WORLD called upon the people of Greater New York to fling the starry banner of freedom to the winds on an appointed day, and a hundred thousands flags made the city bright and beautiful on April 21, 1898, "Flag Day," and aroused the patriotism of the city to fighting pitch. THE WORLD employed the finest despatch boat in the service, the Triton, and in this vessel its correspondent, Sylvester Scovel, performed most valuable scouting services for Admiral Sampson. The steamer Three Friends was also employed on many venturesome voyages. THE WORLD'S special war correspondents were Henry N. Cary, Sylvester Scovel, Stephen Crane, A. C. Kenealy, F. H. Nichols, George Bronson Rea and Charles H. Thrall in Cuba and Porto Rico, and E. W. Harden and John Fay in Manila. Some of their achievements are treated elsewhere in this brief review of THE WORLD'S accomplishments. To those stories may be added these incidents: THE WORLD sent an expedition to Gen. Maximo Gomez with important despatches and supplies. When the complaints of volunteers at Camp Thomas, telling of hard fare and no delicacies, came up from Chickamauga, THE WORLD headed a movement which resulted in the sending of a train loaded with all sorts of comforts for the New York soldiers in camp. The Spanish flag captured at Manila, the first trophy of the war, was sent to THE WORLD and was displayed in front of the Pulitzer Building. Michael Davitt, the Irish statesman, cabled to THE WORLD his views of England's attitude toward us. Gen. O. O. Howard reported for THE WORLD from Camp Alger. Gen. Joe Wheeler wrote his description of the Santiago campaign. Agunaldo, the leader of the Filipinos, addressed the American people through THE WORLD August 25. General Merritt cabled the story of the battle of Manila August 26, and Admiral Dewey expressed thanks to the people for the commendation on the same day. General Shafter published an exclusive story of his campaign in THE WORLD of September 2. General Miles gave his

story of that affair to THE WORLD September 8. Capt. Charles E. Clark, of the Oregon, told how he made the 14,000-mile sail around the Horn from San Francisco to Key West. THE WORLD discovered and first revealed that an American and an English firm had sold mines and the apparatus to operate them to the Spanish Government and delivered the goods at Havana in 1897. Thus, in the face of the Spanish denial that there were any such appliances at Havana. Admiral Cervera's flag lieutenant wrote a graphic story of the last hours on board the doomed Santiago fleet. Charles H. Thrall, a WORLD correspondent, moved in and out of Havana during the most perilous time at the Cuban capital, bringing news of highest importance to the American Government. Signor Crispi, Italy's great statesman, in an exclusive interview on April 26, said prophetically: "It is the end of Spain." George Bronson Rea, an intrepid correspondent of THE WORLD in Porto Rico, having escaped with difficulty to St. Thomas, was asked by cable how he escaped: "Police surveillance, eluded vigilance, midnight, bicycle, horse, coach, schooner, smuggler's boat." This is a fair sample of the chances taken in securing the most important and exclusive news for THE WORLD. THE WORLD published an exact summary of President McKinley's war message nearly two weeks before it was delivered to Congress, and, of course, long in advance of any other paper. THE WORLD sent submarine divers to Havana to rescue the bodies of the American sailors in the Maine, but the Spanish authorities would not allow them to perform their mission of humanity. General Breckinridge wrote an account of the battle of San Juan Hill. Rear-Admiral Jouett wrote a careful analysis of the sea fight off Santiago. Hassam Enver Pasha, representative of the Turkish Government at the front in the late war, and one of Europe's great generals, reviewed the war for THE WORLD in a six-column article. Col. John Jacob Astor, the forty-millionaire patriot soldier, wrote a personal narration of his experiences at Santiago.

THE WORLD also sent to Camp Wikoff sanitary experts, who denounced the camp as unhealthy. It also showed that the remodelled old hulk Merrimac, a collier costing \$192,000, offered to and rejected by the Auxiliary Board in April, was sold to the War Department in July for \$342,000, or at an advance of \$150,000 over her cost, and then towed into the mouth of Santiago Bay by Hobson and sunk as a worthless vessel. It exposed the method of letting contracts for army overcoats, the winning firm being mulcted by go-betweens in the sum of \$75,000 for "influence." It showed that eleven times as many men died from disease in the camps as were killed in battle, and quoted eminent authorities that nine out of every ten of these deaths by disease might have been avoided by the War Department. When the appointment of the investigation commission was announced THE WORLD presented to the commission "A Record of Facts Concerning Camp Wikoff," arranged in chronological order, together with the names and addresses of witnesses by whom each could be proven.

#### EXCLUSIVE NEWS IN THE WORLD.

While not a day passes in which THE WORLD does not contain exclusive news, known in newspaper parlance as "beats" and "scoops," it has won an international reputation of being first to print news of great importance on many occasions. One of the most notable instances of this sort of enterprise was immediately after Dewey's victory in Manila Bay. On Saturday, May 7, 1898, E. W. Harden, THE WORLD'S correspondent at Manila, having steamed across the China Sea to Hong Kong, cabled the first authentic description of the great naval duel between the American Asiatic Squadron under Commodore George Dewey and the Spanish fleet under Admiral Montojo, and the complete annihilation of the eleven vessels of the Spanish fleet inside the Bay of Manila, and between the belching forts of Cavite and Corregidor. President McKinley got his first information of Dewey's victory from THE WORLD. The news was recabled to London for the afternoon papers there. Commodore Dewey congratulated THE WORLD in this hearty fashion: "I congratulate THE WORLD on the excellence of its report. I congratulate THE WORLD on its enterprise in getting the first story as cabled by Mr. Harden before even my official report reached Washington. I am still wondering how it got through, as I was under the impression I had control of the wires."

THE WORLD was twenty-four hours ahead of all its contemporaries in informing its readers of the occupation of Santiago by General Shafter.

On April 10, 1898, THE WORLD announced exclusively that President McKinley had decided to ask Congress for authority to intervene on behalf of Cuba, and Congress would give its consent.

THE WORLD correspondents established the first newspaper camp on Cuban soil June 17, 1898, at Cuero, thirteen miles from Santiago.

The news of the Maine disaster was first received by THE WORLD. To do it, its Havana

correspondent, Mr. Scovel got the Government officials to open the cable offices at night. The first authentic information that the battle-ship had been blown up from the outside was given to the people through THE WORLD five days after the disaster, its intrepid correspondent having made a personal examination of the broken keel of the ship. At the same time it was demonstrated that the explosion of a submarine mine or torpedo under the Maine could not have occurred without the connivance of the Spanish officials in charge of the submarine explosives. Fifty physical proofs were given that the Maine was blown up. This was corroborated by the official report of the Court of Inquiry a month later, while THE WORLD published it exclusively on February 20, 1898. THE WORLD proposed this epitaph for the Maine's martyrs: "They died that Cuba might be free."

On December 17, 1900, THE WORLD exclusively told of the severe illness of Queen Victoria, and how her death might be hastened by the British defeats in South Africa; how she was unable to sleep because of worry over the losses to British manhood in the war for which she had never seen any justification.

It was first to give positive warning of the near approach of Queen Victoria's death, stating on January 18 that a special train was kept in readiness to convey the Prince of Wales and the royal family to Cowes upon a moment's summons. An official announcement confirmed the news next day. The Queen died four days later.

The complete list of the securities owned by the dead millionaire railway king, Cornelius Vanderbilt, were first published in THE WORLD.

The important points in the decision of the United States Supreme Court in the Porto Rico cases—the most important decision handed down in a generation, establishing the doctrine that "the Constitution follows the flag"—were first given to an anxiously waiting nation by THE WORLD.

The public first learned through THE WORLD of the sinking of the French steamer *La Bourgogne*, with all on board.

In 1891, among many other items of exclusive news, was THE WORLD'S interview with Sir William Gordon Gordon-Cumming immediately after his trial in the famed baccarat case; also the announcement that the British Government had determined to prosecute William Henry Hurlbert on a charge of perjury in the Gladys Evelyn case. THE WORLD was toward the close of the same year the only paper to tell of the plot existing in Santiago de Chile to burn the United States Legation in that city.

At the time of the death of Jay Gould, in 1892, THE WORLD published the most complete biography of the dead financier, and subsequently added many chapters to the facts known about his achievements during life.

During December, 1892, while Panama Canal revelations were convulsing French political life, THE WORLD told the American end of the story in a series of articles about the canal, revealing incompetent and extravagant management, which could not fail to bring disaster to the enterprise.

THE WORLD told exclusively on June 24, 1893, of the unexpected meeting of Mrs. Jefferson Davis, widow of the President of the Southern Confederacy, and Mrs. Ulysses S. Grant at West Point. They had never met before, but greeted each other most cordially, and spent considerable time in exchanging reminiscences of their famous husbands. The incident excited great interest throughout the United States, and THE WORLD scored a distinct news "beat."

The revolution in Brazil in 1893, which attracted the attention of the civilized world, broke out during the first week of September. Almost immediately afterward THE WORLD became conspicuous as the only paper publishing exclusive news direct from Rio, in spite of the fact that an embargo had been put upon all news in Rio, and the cable and telegraph lines were in the hands of the combatants.

One of the famous WORLD exclusives was the graphic description of the ramming of the British battle-ship *Victoria* by the *Camperdown*, near Tripoli, June 23, 1893. The *Victoria* was sunk. Admiral Sir George Tryon and hundreds of British officers and sailors went down with her. The bare fact of the great tragedy was known in London, but for three days the civilized world called in vain for the story. On that day a WORLD correspondent reached Tripoli, and in the afternoon, in obedience to cabled instructions from THE WORLD, cabled all the ghastly details—a powerful story. The story was immediately cabled by THE WORLD to London, and then Queen Victoria, her Ministers and the English people first learned how Admiral Tryon and his battle-ship and crew were lost.

THE WORLD was the only American newspaper which had the foresight to send a correspondent to Asia at the breaking out of the war between Japan and China, in 1895. He cabled the famous "beat" describing, in graphic story, the naval battle in the Yellow Sea

between two Pagan navies, and later the four days' butchery of unarmed Chinamen at Port Arthur. The Japanese tried to bribe THE WORLD'S correspondent, 10,000 miles from home, and offered to pay THE WORLD'S cable bills and give its correspondent a monopoly of the war news on condition that he refrain from sending his 10,000-word despatch describing the Port Arthur massacre—a "news scoop" that thrilled and horrified the civilized world.

A trusted agent of THE WORLD in the Philippines visited Aginaldo in January, 1901, in the mountain fastness where Funston found and captured him later in the year, and secured from him a long interview in which he set forth his aims and ambitions regarding the Filipino people and their government, and stated the terms on which he would treat with President McKinley for peace. This exclusive interview with the Filipino chieftain was forwarded, uncensored, to THE WORLD.

In 1893 the great question which was disturbing religious bodies all over the United States was the opening of the World's Fair on Sunday. What was the attitude of Catholics, who outnumbered any other denomination, was a question which THE WORLD solved by securing a long and authoritative interview with Cardinal Gibbons, Archbishop of Baltimore and primate of the Catholic Church in the United States. This was published June 12. His Eminence came out squarely in favor of opening the World's Fair on Sunday, saying that it was the people's only day, and that innocent pleasures on the Sabbath were a necessity for the thousands.

The first poll of Congress showing that the Sherman Silver law would be repealed was taken by THE WORLD on June 17, 1893. A majority of 175 members of the House were pledged over their own signatures to THE WORLD to vote for repeal. The publication of this poll had a quieting effect, the country being threatened with a financial panic, resulting from a senseless scare, rather than from insolvency or inflation. Under these circumstances THE WORLD decided to ascertain from presidents of the leading banks of the country the exact facts as they saw them. The result was a long series of statements, published by THE WORLD June 3. What the country at large thought of the situation was shown from what bank managers in a score of cities in the South and West had to say about it.

#### MINOR BUT IMPORTANT ACCOMPLISHMENTS.

Many great newspapers would eulogize themselves upon performances which THE WORLD would merely deem natural and expected accomplishments by it day after day, month after month, and year after year. In redeeming its pledge to fight public and private wrongs, and to interest and instruct its readers, THE WORLD continually adds to its long list of victories. It is impossible to mention more than a small fraction of such triumphs, and of news-getting, in the limited space given to this review, but a score or two of instances will be sufficient to prove the statement:

THE WORLD sent a correspondent, Nellie Bly, rushing around the globe in 1889 in 72 days, 6 hours, 11 minutes and 14 seconds, to show that the imaginary record of Jules Verne's "Phileas Fogg" could be beaten. The trip caused great excitement, and THE WORLD received nearly a million guesses as to when the intrepid voyager would reach home.

When Stanley emerged from the African wilderness, the first man to meet him was a WORLD correspondent, and the first news of the explorer's return to the confines of civilization was sent by him. THE WORLD'S mission to Africa was twofold—to meet Stanley and to make a thorough investigation of the African slave trade. Both of these objects were successful, despite extraordinary difficulties which beset the effort.

WORLD reporters in New York City began the year 1892 by "showing up" one of the most extraordinary expeditions in the annals of Spanish-American revolutions. This was the fitting out and expected departure for Hayti of a man-of-war called La Pays, intended to aid the revolutionary leader there, whose description and movements had been given at columns' length in a big metropolitan journal. The revolutionists who had chartered the vessel had an office in New York, had all their arrangements complete, and had spent many thousand dollars on the venture, when THE WORLD exposed the fact that the vessel was a myth, the expected revolution a fraud, and the agents in this city the dupes of the Haytian Minister to the United States.

Early on the morning of Sunday, February 7, 1892, a terribly fatal fire at the Hotel Royal occurred, and THE WORLD of that day contained exclusively the names of guests, secured through a characteristic piece of WORLD-reporter enterprise. While the building was a mass of flames, and while burning timbers were falling to the ground floor, which was ankle deep in water, a WORLD reporter went into the office and secured the register of the hotel, which was thus saved from destruction, and proved of much value subsequently in identifying the dead and estimating the number of lives lost.

THE WORLD exposed the Broadway Railway boodle combine in the New York Board

of Aldermen, sent several of the bribed Aldermen to prison, and drove others to permanent retirement.

When Gladstone was leading the battle for Irish home rule, THE WORLD raised a fund from 11,000 contributors for a magnificent memorial of solid silver to the "Grand Old Man." In presenting the gift to Mr. Gladstone, Mr. Pulitzer designated it as "an evidence that there is an irrepressible sympathy between the liberty-loving masses which is more sincere than that of rulers."

The Weekly Payment bill, passed by the New York Legislature, after a vigorous fight in behalf of the measure by THE WORLD, brought relief to millions of wage-earners, and was in line with THE WORLD'S work for Saturday half holidays, its support of the eight-hour movement, and other beneficial and remedial efforts in aid of toiling humanity.

On March 24, 1890, THE WORLD struck a vital blow at the Louisiana Lottery octopus, which had paralyzed a State and was swindling the nation to the extent of \$10,000,000 a year. THE WORLD showed that the corporation was illegal, and exposed its nefarious doings and those of kindred operators. The opening guns of this campaign were followed by shots which hit the mark every time. When the bandits of the wheel attempted to gain a foothold in Dakota THE WORLD defeated them there, and finally the United States Government completed the work begun by THE WORLD, stopped the use of the mails as a channel from the pockets of deluded victims to the coffers of the lottery robbers, and ultimately made lotteries of any sort illegal.

In 1889, by a vigorous crusade against the oyster pirates in Chesapeake Bay, THE WORLD rescued twenty-four men and boys who had been "shanghaied" from New York and were virtually leading lives of slavery on oyster boats. The affair, as exposed by THE WORLD, caused much excitement, and four of the pirates were tried, convicted and punished through THE WORLD'S efforts.

The exposure of the cruelties practiced, and the dangers menacing the young girls and children employed in the sweat-shops, where government and civilian clothing was made, resulted first in the decision of the Army and Navy Department that no more uniforms should be made in these vile places, and then, by the passage of the Costello "Anti-Sweat-Shop" bill by the Legislature, Governor Roosevelt appointed Jacob A. Riis a special commissioner to investigate the sweat-shops. Citizens in mass-meeting indorsed the bill, the Central Federated Union, the President of the Board of Health, and several clergymen approved THE WORLD'S crusade, and the Governor signed the bill. Mr. Riis said of THE WORLD'S fight against the sweat-shops: "It is the best thing that has been done for the women and children, to whom starvation wages are paid. Doing away with the sweat-shop evil means better pay and shorter hours for thousands."

THE WORLD'S long war against "Brockwayism" resulted at last in the abolishing of the paddle, the strap, and the chain as implements of punishment in the Elmira Reformatory, though not until Z. R. Brockway, the Superintendent of this institution for the reformation of young first offenders against the law, had admitted that thirty-three reformatory inmates had become insane in the first ten months of 1899, and had been sent to the State Hospital for Insane Criminals. THE WORLD exposed the brutality of Brockway by scores of sworn witnesses. Many judges flatly refused to sentence young criminals to Elmira after that, and until Governor Roosevelt selected a new board of managers. The new board put a stop to Brockway's methods, and no inmate will ever again be paddled or chained to the floor.

The indictment of United States Senator Matthew S. Quay, of Pennsylvania, was for a crime identical with the offence charged by THE WORLD years before—the unlawful use of State funds for purposes of private speculation. THE WORLD dug out the facts and the evidence establishing the embezzlement and published them broadside. It challenged Senator Quay to sue it for libel, but in vain.

THE WORLD was the first to propose the revival of the naval rank of Admiral, extinct for a generation, and to advocate that that distinguished rank be conferred upon Commodore George Dewey, whose victory at Manila and subsequent government of the conquered Philippine city practically settled the war with Spain and insured the independence of Cuba.

In 1891 a notable achievement of a WORLD reporter was the clearing up of the mystery of the bomb thrower in the office of Russell Sage. Police and public were in doubt whether it was an act of concerted villainy on the part of leagued anarchists or the act of an individual maniac. THE WORLD man took up the meagre clews, one of which was a button, went to Massachusetts, and pointed out the murderer and suicide in Henry L. Norcross, a Boston note broker.

One of the most successful and dramatic achievements of THE WORLD in 1891 was the rescue from slavery of a band of Samoans and their return to their native land. These poor wanderers from the Pacific had performed heroic work in the rescue of American seamen during the hurricane which swept the islands in the Spring of 1889, driving three United States men-of-war on the rocks. Against the wishes of their king, they had joined a theatrical troupe, and were held in a state of veritable bondage by a hard-hearted master when discovered in New York by THE WORLD. In addition to being practically slaves, they were slowly dying from the rigors of the Northern climate, and several had already found untimely graves, while Manogi, their chieftain, was then sick with consumption in Bellevue Hospital. THE WORLD instantly secured their release from the task-master who was using them for his own ends, and the joy of the poor natives was pathetic to witness when they were informed that they would be returned to Samoa. In a few days the preparations were complete, and the reporter who was to accompany them was appointed a commissioner by the United States Government. Manogi died on the way and was buried on the summit of the Rockies. THE WORLD reporter then continued the journey with the three remaining Samoans. His work was only finished when he had landed them upon their native shores; and THE WORLD, through its representative, received the heartfelt thanks of the King and the entire population of the island.

The release, in 1904, of Mrs. Maybrick, the American woman who had been for fifteen years a prisoner in an English prison on the charge of poisoning her husband, but doubt of whose guilt was in every mind, recalled the efforts of THE WORLD to secure her release, and of the noble work of the late Mrs. Harriet Hubbard Ayer, for many years a member of THE WORLD editorial family, in behalf of her unfortunate country-woman. Subsequently Mrs. Maybrick's articles in THE WORLD comparing American prison systems with those of England were widely read in the United States and abroad with keen interest.

THE WORLD denounced the "Employer's Liability" bill in 1901 as a complete travesty of the equitable law which it pretended to be, because, under it, no injured employee could recover damages unless he sued within ten days, and no other injured person could recover damages unless he filed a written notice that he intended to sue within sixty days after the injury. This bill was killed.

The decision of the Court of Appeals declaring the anti-ticket scalpers' law, passed at the behest of the principal railroad corporations, to be unconstitutional, was in exact support of THE WORLD'S contention in its fight against its passage.

The defeat of the attempt of the Astoria Light, Heat and Power Company to grab a monopoly of the city's streets, under the guise of a bill before the Legislature purporting to be intended only to give the Consolidated Gas Company the right to lay pipes under the East River, connecting the company's new works on the Long Island side with its feed pipes on the New York side, was one of the notable services of THE WORLD to the public of New York City in 1889.

When Lord Mayor Tallon, of Dublin, and John Redmond, M. P., visited America and appealed on behalf of the Irish people for assistance in paying off the long-overdue mortgage upon the home of the late leader and idol of the home rulers, Charles Stewart Parnell, THE WORLD joined in the work, and in three days more than enough money was raised, and the home of Ireland's greatest leader of modern days was saved.

When, in October, 1898, the managers of the Buffalo Pan-American Exposition were confronted by Sculptor August Langenbahn's demand for the two most beautiful women in the Western world for models for the Pan-American Exposition, they were in a quandary. THE WORLD offered to help them out, and immediately arranged the SUNDAY WORLD'S great Pan-American beauty contest, which was one of the most interesting competitions of the age. It came to a close on June 1, and after six months of deliberation, which involved the inspection and discussion of thousands of portraits, the best products of the photographic art in all parts of North and South America, the committee of ten judges announced their decision in the SUNDAY WORLD of December 2. The beauties selected to typify North America and South America were Miss Maud Coleman Woods, the famous Virginia blond beauty, and Miss Maxine Elliott, the incomparable brunette.

The defeat of the attempt of the Astoria Light, Heat and Power Company to grab a monopoly of the city's streets, under the guise of a bill before the Legislature purporting to be intended only to give the Consolidated Gas Company the right to lay pipes under the East River, connecting the company's new works on the Long Island side with its feed pipes on the New York side, was one of the notable services of THE WORLD to the public of New York City.

In 1889, when street railway competition in New York was reduced to two companies,

through the absorption of all the others, and these two "pooled their issues" and agreed to divide up the eighty miles of streets for which each had asked a franchise, THE WORLD pointed out that this meant an absence of that competition which would make the public sale of the franchises a real auction. Each company asked only for a franchise for such streets as had been allotted to it in the combine, and offered to the city 3 per cent. of the gross receipts for the first five years, and 5 per cent. for the twenty years remaining of the term of the franchise. THE WORLD protested that these were the most valuable franchises the city had to give, with a monopoly of the traffic from the city to Yonkers, and that much higher compensation should be given. It showed that sixteen street surface railways alone, capitalized at \$78,000,000, with gross earnings in 1896 of \$13,860,000, paid into the city treasury on franchise account only \$192,000. The Board of Estimate saw the light, and fixed the rates for the first sixteen-mile franchise at 4 per cent. for the first five years, 6 per cent. for the second five years, 8 per cent. for the third five years, and 10 per cent. for the remaining ten years.

THE WORLD'S exposure of the armor-plate frauds, naming the warships upon which rotten armor had been placed, resulted in an official investigation, which ended in the Carnegie Company paying \$144,000 fine.

At the suggestion of THE WORLD a reform ticket was named in Brooklyn in 1893. John Y. McKane, the absolute boss and the Poobah of Gravesend, tried to save the spoils-men's ring by falsely registering thousands of names. Schieren and Gaynor were elected by 30,000 majority, and McKane served seven years in Sing Sing.

The conviction of Charles A. Buddensieck, a rich builder, in 1885 for using mud instead of cement in eight tenement-houses, by reason of which one of them collapsed, killing a dozen workmen, was the first victory for tenement-house reform. THE WORLD accomplished it and followed it up by urging the passage of a Tenement-House Reform bill in the Legislature. It is now a law.

Single-handed and alone THE WORLD exposed and stopped the scandalous deal between the McKinley Administration and the Union Pacific Railroad reorganizers by which, on October 22, 1897, Attorney-General McKenna announced the Government would sell the Union Pacific and Kansas Pacific for \$50,000,000 to satisfy their debt to the Government. THE WORLD exposed and denounced the job, organized a new syndicate, and forced the pool to pay \$58,000,000 for the Union Pacific and \$6,303,000 for the other road, a saving of \$14,000,000.

THE WORLD is given the credit of having effected the establishment of the Improved Staten Island ferry service and for the first city-owned and city-operated ferry, which was opened between the Battery and Staten Island in October, 1903.

After a long fight THE WORLD drove from the post he had held for twenty years as Superintendent of the Westchester Temporary Home for Destitute Children, James H. Pierce, who abused his little charges, and whose dismissal was recommended by the Westchester County Grand Jury on THE WORLD'S evidence. The Board of Managers of the Home, convinced by THE WORLD, discharged Pierce.

THE WORLD forced the establishing of the block system on the New York Central and Hudson River Railroad from New York to Buffalo, after a terribly fatal accident at Hastings through an "end-on" collision of two trains.

When the first infected cholera ships arrived at this port in 1892, and the health authorities, with mistaken judgment, caused a panic by withholding information, THE WORLD did a great public service, and allayed fears by sending a tug daily to each ship, bringing mail from passengers and carrying to them messages from anxious ones ashore. Finally, when the authorities secured the hotel at Fire Island, and the wearied, hungry and impatient prisoners at last landed, they found that one of THE WORLD reporters, whose face had become familiar on the tug, was in charge of their interests and chief clerk of the Surf Hotel. THE WORLD reporter welcomed the quarantine guests, assigned them to their rooms, and made them feel comfortable. The public service rendered by THE WORLD during the cholera excitement was carefully conducted, no reporter set foot on any of the infected ships, no quarantine law was violated, and every message from the detained vessels was thoroughly disinfected.

When Andrew Carnegie saw the picture of the Wyoming dinosaur in THE WORLD, sitting on its haunches and looking into the eleventh story windows of a skyscraper, with the descriptive account of the bones of this enormous animal of prehistoric times, he cut out the picture and sent it to the Director of the Pittsburgh Museum, with instructions to "Buy this for Pittsburgh." The purchase was made.

When THE WORLD, in 1901, discovered that James McAuliffe, found dying in the

street, had been arrested and locked up the night before without a mark on him, and that he had been the chief witness against Wardman Glennon on his trial, it struck a killing blow at the police "system" by which troublesome witnesses were done to death or frightened out of town. The Coroner's Jury found that McAuliffe had been murdered. Justice Mayer, after an exhaustive inquiry, decided that McAuliffe was uninjured when arrested and received his injuries some time after he fell into the clutches of the police. Because of the indifference of the prosecuting officers no one was punished, but THE WORLD'S exposure checked police intimidation.

The news that no less than \$360,000 of the stealings of Capt. Oberlin M. Carter had been recovered by the Government, having been traced to its place of hiding, recalled what a distinguished army officer said was "one of the very great services" for the maintenance of the army's high standard of personal honor. When THE WORLD brushed the deep accumulation of dust from the papers containing the court-martial's condemnation of Capt. Oberlin M. Carter, and held them up until his political pull grew weak before the public demand for justice, there was a mighty outcry from his friends and their friends that he was a martyr and that he was being persecuted, that he was innocent. And even after his uniform was stripped from him and he was put in the penitentiary, distinguished counsel, pledging their private honor for a fee, continued to try to begot the public mind by juggling the complicated features of the case.

THE WORLD sent a despatch boat with provisions, medical attendants and nurses to the relief of Greek armies in the Cretan war.

When the interest of all the world centred upon the celebration of the jubilee of Queen Victoria, THE WORLD had the pleasure of laying before the American people a brilliant and complete account of the imperial pageant. In addition to the vivid pen pictures by its staff of correspondents, trained observers, and accurate writers, there were accounts from these special correspondents: The famous Dean Farrar, of Canterbury, who described the religious ceremonies; Gen. Nelson A. Miles, commander of the United States Army, and official military representative of the nation at the jubilee, who wrote of the soldiers, and Dr. Chauncey M. Depew, who treated of the social side of the celebration. The story cabled to THE WORLD from London comprised 9,950 words.

When the scandals in the management of the War Department had demonstrated the necessity for a change, THE WORLD demanded a surcease of Algerism. It kept up the fight until more than half the newspapers in the United States joined in asking for the dismissal of Secretary Alger from the Cabinet. THE WORLD published, in reduced facsimile, editorials from 132 daily newspapers of all parties, sustaining its position. It showed that the United States Government had spent \$99,660 in an investigation, in which the investigators had plainly whitewashed the Secretary. Alger left the Cabinet July 19, 1889, and THE WORLD was ahead of all its contemporaries in publishing the news.

The first revelations in the remarkable story of Carlyle W. Harris were made late in March, 1891, when pretty Helen Potts, to whom he had been secretly married, died mysteriously in a New York fashionable boarding school. THE WORLD took the matter up at once, showed up Harris's record before he administered the pills to his young wife, related her mother's story in a long interview in the paper of March 21, and the reply of Harris the following day. WORLD reporters followed the case in all its crooked turnings, and forged a chain of evidence about Harris which led to his arrest, indictment, conviction, and electrocution. The Harris case is cited because of its publicity. The bringing of criminals to justice by THE WORLD during the past twenty-five years, when police methods and professional detective efforts had failed, have led to its recognition as the most powerful sleuth in the newspaper field. It can point to hundreds of convictions upon evidence secured by its tireless reporters, it rarely having been baffled. Many of these cases, shrouded in mystery, attracted attention throughout the country.

Thus THE WORLD could continue to cite, by thousands, instances of its accomplishments. Its exposures led the State Board of Health to purify the streams that feed Croton Lake, the source of New York's water supply. Its battles against policy sharks have resulted in innumerable convictions. It showed the complicity of the Western Union Telegraph Company with the poolrooms, and forced the directors to cut off all special services on the race-track news. It was largely instrumental in abolishing the gallows in New Jersey. It has saved millions of dollars to the City of New York and the State by stopping land grabs of all sorts. It has succeeded in having opened public baths, playgrounds and parks in all directions. It secured the anti-flat car wheel ordinance. It caused the dismissal of five-cent extortionists among free bath attendants. It raised the money to erect seventy drinking fountains for dogs and other small animals about the

City of New York. THE WORLD exposed the honeycomb of corruption in the Immigration Bureau, and was the cause of an upheaval there and a complete reorganization of the Bureau along the lines of honesty and decency. With the opening of the new Children's Court by Justice Olmsted in September, 1902, the consummation was reached in THE WORLD'S philanthropic and reformatory movement of seven years' duration. Comptroller Grout, adopting THE WORLD'S suggestion of a popular loan, offered city bonds at \$10 each, instead of offering them in the usual fashion—"all or none"—to Wall Street. The public snapped up the bonds, and 117 bidders took them at prices which produced \$22,470 more for \$3,000,000 worth than at any previous sale. THE WORLD proved, in 1902, the innocence of George Frank, known as "Fienchy," the friendless Algerian, who was serving a life sentence for the murder of "Old Shakespeare" in a Cherry Street dive in 1891, and secured his pardon. When Dock Commissioner Hawkes announced that the bands on the recreation piers, secured by law passed by THE WORLD, would play only classical music, THE WORLD started the crusade which resulted in the rescinding of the order. The people of the tenements preferred "rag-time." THE WORLD'S long and persistent advocacy was rewarded by the passage of the law forbidding trap shooting of pigeons. THE WORLD has eradicated many moral plague spots at Coney Island. THE WORLD has rescued hundreds of girls from bondage worse than death, and has forced the punishment of their abductors. THE WORLD secured, and first published, the confession of Pat Crowe, the man who kidnapped the Cudahy boy, after a jury of twelve citizens of Omaha had acquitted him, though he still had \$21,000 left of the ransom he had received for the restoration of the boy to his millionaire father. But why continue the list? Enough has been written to prove clear THE WORLD'S title to being the people's cudgel and the people's voice.

#### FIRST IN THE RUSSO-JAPANESE WAR.

The Russo-Japanese war was so recent an occurrence that THE WORLD'S masterly work in portraying everything of interest in connection with the great struggle is still fresh in the public mind. From the beginning of hostilities between the Russians and the Japanese THE WORLD presented to its readers the earliest, most complete and reliable news from the Manchurian battlefields. In addition to this, it printed valuable views and opinions of eminent statesmen, soldiers and sailors of both contending nations, as well as those of other prominent men throughout the world, concerning all the aspects of the conflict. Its war correspondents were brainy, fearless observers who had won their spurs in previous campaigns. The corps included E. F. Knight, whose daring on the battlefield cost him an arm. Gov. William Dinwiddie left his post as the head of a Philippine province to become a WORLD correspondent. He it was who cabled a 2,000-word interview with Lieut.-Gen. Baron Kodama, "the brains of the Japanese army," just before the war began, in which he said that Japan had an available fighting force of 400,000 men, and predicted that the war would be a long one. From Dinwiddie, too, came the graphic story of the retreat from Liao-yang, with a powerful character sketch of the grim fighter Kuro-patkin. Others of THE WORLD'S corps were Henry James Wigham, Thomas F. Millard, who was a noted correspondent in China during the Boxer rebellion; Col. Edward Emerson, McKenzie and others. From the pens and cameras of THE WORLD'S artists in the field came the picture stories, thrilling and instructive, of the havoc of shot and shell, and of scenes in camps, hospitals, trenches and on the march. Almost daily THE WORLD was the first to present the news of big events. It was the first to tell of the fall of Port Arthur and of the entrance of General Nogi into the citadel of the Gibraltar of the East. When the happy ending was near, and Count Witte and Baron Komura were trying to agree at Portsmouth upon peace with mutual honor for their respective nations, THE WORLD, twenty-four hours ahead of all contemporaries, announced that the Japanese terms would be much less drastic than as first proposed; that "the peace outlook was never so good as now," and that "if Russia must pay an indemnity it may be under a guise that will 'save her face.'" During the conflict, among those who contributed to THE WORLD symposium of views which shed a flood of light on the situation were Jihei Hashiguchi, who wrote of "The Yellow Peril" as seen by Japanese eyes; Takahira, the Japanese Minister at Washington, who contributed several articles; Baron Kiichi Kaneko appeared in many articles showing the Japanese side, answering Count Cassin, delivering a personal estimate of Oyama, the greater figure of the combat, and touching into life the story of the Japs; Surgeon-General Suzuki wrote a complete expose of the methods of the Japanese in the treatment of the well, the sick and the wounded on the battlefields, and Lieut.-Commander Albert X. Gleaves, of the United States Navy, presented as an analysis of the aims and movements of Togo and Rojestvensky on the eve of battle, described as the

greatest naval conflict since Trafalgar. Gen. Nelson A. Miles presented an understandable account of the war as it had progressed down to and including the battle of Mukden. Andrew D. White, scholar, diplomat and member of The Hague peace tribunal, contributed to the illustration of the effect of the war upon international politics, and Capt. H. A. Saxe, of the Russian Navy, told a graphic story of the terrors of life at Port Arthur, where he was in the thick of it.

#### THE WORLD DURING THE CHINESE TROUBLE.

During the Boxer trouble in China, before and after the operation of the allied Powers, THE WORLD kept its readers constantly informed, from the most reliable sources, of all that transpired there. Its war correspondent, Mr. Frederick Palmer, was the first to reach the ground. Appreciating the sensitiveness of the situation from a standpoint of world politics, it was alert in its watchfulness of the steps of the American Government, constantly arousing the American conscience with its trusty searchlight of Publicity to the dangers of any false step. It constantly insisted that the true American policy was not one of vengeance, but of conciliation, with proper compensation for any damage done. When the President announced on July 3, 1902, in a note to the Powers, his programme of co-operation with the European armies "in aiding to prevent a spread of the disorders to the other provinces and a recurrence," THE WORLD immediately began to point out the inevitable consequences of this programme of joint pacification and joint bayonet rule. Mr. McKinley, firm in the belief that the country was infected with his craze for imperialism, and "glory," and foreign domination, steadily made his preparations, increased his army for Chinese conquest, and sent munitions of war and supplies for a six months' campaign. And on July 19 Mr. Root, the Secretary of War, said: "No matter what action is taken by the Powers, the troops of the United States will remain in China."

THE WORLD vigorously denounced it, and was joined by all the other newspapers of the land, irrespective of politics.

THE WORLD insisted that as our Minister and our other citizens shut up in Peking were rescued, our army had accomplished its mission, the object for which alone it was sent, the only excuse for its presence in China was gone, and there was left no reason why a single American soldier should stay on Chinese soil. It should withdraw, leaving China to restore her disorderd affairs. When peace was restored our Government could arrange for indemnity and reparation. On September 22, 1902, President McKinley bowed to public opinion, voiced by THE WORLD, and in his reply to Germany, Russia and China, he announced a policy of peace, justice and civilization; peace through independent negotiation.

#### RAMAPO STEAL AND ICE TRUST KILLED.

Among the most distinguished of the public services of THE WORLD must rank its destruction of the Ice Trust and the killing of the Ramapo steal. It was THE WORLD that first discovered and published Mayor Van Wyck's pecuniary connection with the ice monopoly. On May 5, 1900, THE WORLD exclusively printed the news that Mayor Van Wyck and John F. Carroll, then the Tammany leader, owned millions of dollars, par value, of the stock of the ice monopoly, which had doubled the price in New York City, and was then perfecting an absolute monopoly of the ice trade in New York City by control of the docks. THE WORLD invoked the anti-Tweed law and forced Mayor Van Wyck to testify before Justice Gaynor, eliciting the confession that he held \$400,000 worth of the stock, having paid only \$50,000 in cash, the rest being covered by notes. Charges were preferred before Governor Roosevelt, but his action was long delayed, the Governor being away campaigning for the Vice-Presidency in the West. He finally refused to remove the Mayor, but said the Mayor's moral guilt was proved.

The Ramapo scandal involved a projected steal of \$200,000,000 from the city in the giving of a water contract for twenty years on the plea that the city's water resources were exhausted and the Ramapo Water Company had gained possession of the only available watershed in the State, the city being prohibited by law from going to any other State.

It was attempted by the Tammany administration in 1899 to sneak through the Board of Public Improvements a contract by which the city was to pay \$70 a million gallons for water from the Ramapo Company. THE WORLD showed that the same company had been ready to sell at \$53 a million gallons, and that this was a combination of Republican and Democratic politicians to loot the city through its supposed helplessness. The contract had been approved by Corporation Counsel John Whalen, and the Tammany President of the Board of Public Improvements was eager to execute the contract. THE WORLD obtained from the Supreme Court an injunction forbidding the city to make the contract.

The fight was carried on until the Legislature convened, and THE WORLD secured the passage of a bill repealing the Ramapo charter.

#### GRAB KILLED AND MILLIONS SAVED.

Under the pressure of a powerful lobby, the New York State Legislature, in its closing moments in 1901, jammed through a bill giving to the New York and New Jersey Bridge Company, financed by a syndicate whose personality was a deep, dark mystery, a franchise in perpetuity, worth not less than \$100,000,000, under the guise of a permit for a terminal and bridge approach.

The bill granted the right to construct an overhead railway along the New York water-front to connect with the New York Terminal Railway's tracks of the same company's bridge on the Hudson River, and no limit to the length of the water-front overhead road was named. It might go to the Battery south and north to the Yonkers line, and a careful study of its provisions for compensation failed to discover anything under which the city could force the company to pay for this invaluable privilege more than \$60,000 a year, compensation depending on computation of gross receipts by a system that would enable the company to show that its bridge earned everything, the water-front terminal nothing.

THE WORLD denounced it as a 'steal that made the Ramapo job look insignificant.

A further analysis of the bill developed the astounding fact that it did not guarantee the construction of the bridge over the Hudson at all. In other words, the holders of the franchise could build and operate the overhead road along the water-front, on the recently reclaimed and enormously valuable bulkheads of the city, and practically force shipping interests to transmit goods to and from their piers on their tracks, and besides, under the provisions of the bill, the company would have the right to construct spurs and branches across town through every street, and up and down through any avenue.

"Next to rapid transit," said THE WORLD, "nothing will do so much good for New York as a bridge over the Hudson annexing New York to the continent, and there must be a connecting road along the water-front to collect and distribute the enormous traffic that would pass over it. But this is no reason why the city should not get a suitable payment for this privilege, and there is every reason why such a franchise should not become a perpetual monopoly."

All these points were laid before Governor Odell, who vetoed the measure in a ringing message, in which he recited the very objections raised by THE WORLD.

#### FATHER OF GREAT INSURANCE REFORMS.

It cannot be disputed that the most herculean task ever attempted and performed with amazing results by a newspaper has been the cleaning of the Augean stables of life insurance companies by THE WORLD. The labor is still going on, and THE WORLD'S campaign against extravagance and corruption by men who have posed as the zealous guardians of widows and orphans is too fresh in the mind of the public to make necessary more than a brief rehearsal of THE WORLD'S war against insurance vices during the past two years. It was THE WORLD that awakened the press of the country and millions of policy-holders to join in its thundering denunciation of the crimes of high-paid insurance company officials. It was THE WORLD that first produced evidences of these crimes, and it was THE WORLD that first bearded in his den at Albany the "silent" lion, Francis Hendricks, State Superintendent of Insurance, and later exclusively published the report of Mr. Hendrick's investigation of the affairs of the Equitable Life Assurance Society before District-Attorney Jerome could get a copy. It was THE WORLD'S insistence which led to Governor Higgins requesting the appointment of a Legislative Investigating Committee, and, better still, to a real investigation, calling attention to the fact that the testimony taken by the Superintendent plainly showed that THE WORLD'S charge that there was a combination, or "system," in which the Equitable, New York, Mutual and Prudential Insurance Companies were engaged, and worked together, was proven.

Governor Higgins finally yielded to THE WORLD'S pressure "because of the great public demand for it," and sent a special message to the extraordinary session of the Legislature requesting the appointment of a committee to investigate insurance methods, and report to the next session, with recommendations for changes in the laws so as to more completely safeguard the interests of policy-holders, "although I am still of the mind that there is nothing to be gained by it."

The people know whether "anything has been gained by it."

The story of the "system," as revealed in testimony before the Armstrong Committee, reads like a recital of what THE WORLD had been telling for months before the committee was named. It shows that more than a million dollars has been spent by the "Big

Three" in corrupting Legislatures during the past ten years; that each of these companies paid \$50,000 to \$75,000 to the Republican National Committee to help along the election of McKinley in 1900, and like sums in 1904 to the Roosevelt campaign fund, substantiating the charge made by THE WORLD during that campaign and denied by the Republican managers with much righteous indignation.

Hyde testified that the Mercantile Trust Company, one of the Equitable's subsidiary companies, was "held up" by ex-Governor Odell and made to pay him his losses in the Shipbuilding Trust fiasco. Hyde said that Odell's friend Harriman told him it would be best to settle Odell's suit. He feared Odell would make reprisals. Senator Ambler had introduced a bill cancelling the charter of the Mercantile Trust Company, one of the most valuable of the assets of the Equitable. Odell could stop this bill. Odell got \$75,000 in settlement, and the Ambler bill was allowed to sleep to death "in committee."

Harriman and Odell denied Hyde's story, and a jury of twelve clergymen, to whom the question was submitted, were unable to agree as to which of these witnesses was guilty of perjury.

The investigation revealed that the Mutual and the New York Life were run as strictly family affairs by the McCurdys and the McCalls; that Richard A. McCurdy received a salary of \$150,000 a year, a rise of \$146,000 in twenty years, and that the Mutual had paid an aggregate of \$4,918,607 to McCurdy, his son, his son-in-law, and other members of the McCurdy family—more than the salaries of all the Presidents of the United States during 116 years combined.

The New York Life Insurance Company paid \$509,127 for "legislation," which is only another name for "bribery."

The Equitable Life Assurance Society loaned \$250,000 to the Depew Improvement Company in 1895, and no interest had ever been paid until THE WORLD'S exposures. Then the original loan was repaid in full, with interest.

The Equitable had a "Yellow Dog" fund in the Mercantile Trust Company in the form of a loan. It amounted to \$685,000 when THE WORLD began its crusade. It had been \$1,400,000 at one time. It was secured by the notes of James W. Alexander, Thomas D. Jordan, comptroller of the Equitable, and William H. McIntyre, fourth vice-president. It was used to enable the Equitable to make secret payments and avoid scandal. Out of it were paid political campaign assessments, to the settlement of blackmailing suits and the like. After the exposure this loan was mysteriously paid and the account settled, Hyde paying \$212,000 of it out of his own pocket.

While the salaries of the McCurdy family were mounting, the dividends to policyholders went down. In 1872 the dividend on a \$5,000 policy was \$149.96. In 1889 it was \$110; in 1893, \$50; in 1903, \$22, and in 1904 it had got down to \$7. The average policy in the Mutual is \$2,346, on which the annual premium is \$95. The premiums on more than 1,500 policies were eaten up in paying President McCurdy's salary, and the salaries of all the McCurdys ate up the premiums on 4,784 such policies, or all the dividends on 100,922 policies.

President John A. McCall, of the New York Life, admitted that his company paid \$235,000 to Judge Andrew Hamilton, the notorious insurance lobbyist at Albany, but compromised himself by swearing he did not know what was done with the money.

The capital stock of the Equitable is only \$100,000, of which Hyde held by inheritance \$52,200, par value. The law under which the Equitable operates limits Hyde's profit on his holdings to \$3,514 in annual dividends, yet he sold his stock to Thomas F. Ryan for \$2,500,000, after declining an offer of \$7,000,000, because of its possibilities as a money-maker through "juggling" by the "system."

Cashier Banta, of the New York Life, testified how the Chemical National Bank evaded paying taxes by "borrowing" \$700,000 worth of bonds from the company, leaving its check for that amount, and after the tax-gatherer had passed by brought the bonds back and exchanged them for the check.

The Mutual maintained a house in Albany called the "House of Mirth," where members of the Legislature were welcome free guests, and ex-Senator Charles P. McClelland, who was promoted to a membership in the Board of Appraisers by President Roosevelt, was one who lived there.

For five years Senator Depew had been paid an attorney fee of \$20,000 a year, and David B. Hill \$5,000 a year; Elihu Root, Premier in the Roosevelt Cabinet, had received \$25,000 in the first half of 1905; the Mercantile Safe Deposit Company was earning 29 per cent. dividends, "all at the expense of the parent company," the Equitable, and Superintendent Hendricks said all THE WORLD'S charges regarding the Hyde-Alexander syndi-

cates, and their looting of the funds in loans, sales of securities at inflated prices, and the like, were true, and that Hyde and Alexander ought to refund.

On the reading of the evidence, the Merchants' Association held an indignation meeting, and passed resolutions declaring these givers of the money of policy-holders to campaign funds "plain thieves," and demanding that they be removed and that they be compelled to make restitution.

The year 1906 crowned with glorious triumph THE WORLD'S struggle against insurance corruption when the New York State Legislature passed the Armstrong bills, reorganizing and remodelling the whole system of life insurance in the State of New York. These laws embody the exact insurance reforms recommended by THE WORLD in the best interests of the policy-holders. They wipe out the whole tainted system, the foundations of which were laid by Henry B. Hyde more than forty years ago, and were wrought to perfection by adroit men during the years that followed, until its alliances reached into the Capitol of every State in the Union, into the United States Senate, and into the organizations of both political parties. It sought to buy Ambassadorships; it corrupted Legislatures, and paid for it all with the savings of policy-holders all over the earth, turning the proceeds of their thrift into the channels of political and financial corruption.

The Convention composed of Insurance Commissioners, Governors and other public officials of a number of States at Chicago in March, 1906, adopted almost word for word, THE WORLD'S life insurance reform platform. The Arena said: "THE NEW YORK WORLD, seizing on the opportunity for the unmasking of the festering moral corruption, began a series of editorial leaders devoted to the expose of the true inwardness of the company that have seldom, if ever, been equalled for boldness and lucidity of persistence."

A review of some of the occurrences following THE WORLD'S merciless blows reads like a page of tragedy.

John A. McCall, late president of the New York Life Insurance Company, after making a brave defence of his management and justifying it with so much earnestness that the conviction was forced upon most people that he had really erred more in the head than the heart, first gave up all that he had in partial restitution, and then died of a broken heart, leaving his family practically penniless; James W. Alexander, former president of the Equitable Life Assurance Society, whose dislike and jealousy of James Hazen Hyde gave THE WORLD the instrument it had been searching for for many months with which to break through the case-hardened shell of the egg of insurance corruption and expose the rottenness inside, is mentally and physically broken down; Richard A. McCurdy, former president of the Mutual Life Insurance Company, is a physical wreck, vainly searching in Europe for health and surcease of worry; James Hazen Hyde, former vice-president of the Equitable, is an exile; Lewis A. Thebaud, son-in-law of McCurdy, is an exile, and Robert A. McCurdy, son of Richard, has been forced out of the company; Vice-President W. H. McIntyre, of the Hyde regime, has been forced out and is seeking his fortune in Texas; Vice-Presidents Robert A. Grannis and Walter R. Gillette, since indicted for perjury, and the latter convicted, were forced to resign; "Judge" Andrew Hamilton, who "handled" over \$1,600,000 for the "Big Four" as legislative agent and was never asked for an accounting, is no longer in power; Andrew Fields, who was a legislative agent and host at the "House of Mirth" at Albany, has been dropped, the house closed, and he is broken in health; Thomas D. Jordan, former comptroller of the Equitable, and with Hyde and McIntyre a co-trustee of the \$685,000 "yellow dog" fund, out of which secret payments were always made—as of political campaign contributions, "promotion" of legislative action and the like—and in the restoration of which James Hazen Hyde paid \$212,000 out of his own pocket and the rest came from anonymous sources, is removed from office; Frederick A. Burnham, president of the Mutual Reserve Life Insurance Company, was indicted by the Grand Jury five times for larceny and forgery; Vice-President George D. Eldridge was also indicted on five counts of larceny and forgery, and George Burnham, Jr., vice-president of the Mutual Reserve, was tried on a charge of grand larceny.

Suits have been commenced by the looted companies against the looters or "high financiers" for the restoration of an aggregate of more than \$10,000,000, and there are more to follow.

All of this is the result of the persistence of THE WORLD having for its aim the service of the people.

#### THE DESTRUCTION OF ST. PIERRE.

On May 10, 1902, THE WORLD gave to the public the first account of the destruction of St. Pierre, on the island of Martinique, by the eruption of Mount Pelee, the supreme

catastrophe of the age, rivalling in sudden, swift and wholesale annihilation of man and his works the greatest tragedies in history, the burial of Pompeii, the swallowing up of Lisbon by an earthquake, and the cremation of Catania. In the twinkling of an eye 30,000 people passed from life to death. Their bodies were found afterward, just as they had fallen, unmarked. They had been asphyxiated by the deadly gases of the lava-dust which had fallen like a rain storm upon the land.

Simultaneously with the publication of the news THE WORLD appealed to the public for funds and supplies for the relief of the survivors of the calamity, and at the same time cabled to Governor Hunt, of Porto Rico, to charter a ship and send relief to Martinique in its name, and THE WORLD steamer Longfellow, on May 17, arrived at the island with the first relief supplies. It carried also fifty tons of supplies from the Government.

A WORLD correspondent at Fort de France was the first to reach the scene of the catastrophe. Two days later he gave the first complete survey of the situation, and told the saddening news that the survivors of the calamity were so very few that the supplies already received were ample for all probable needs. From the first THE WORLD easily led in the completeness and comprehensiveness of its accounts, illustrated by photographs.

At the same time the long-smouldering volcano La Soufriere in St. Vincent erupted, laying waste two-thirds of the island, and killing more than 2,500 people. In a tug, through an electric storm on raging seas, THE WORLD correspondent reached St. Vincent from Fort de France, and after traversing the devastated British island sent from St. Lucia the first complete story of the St. Vincent tragedy.

#### THE WORLD AS A MEDIUM OF COMMUNICATION.

One of the proudest distinctions of THE WORLD is its long record of occasions when it has been requested to lend its columns to distinguished leaders of thought and action as the best possible medium of reaching the greatest number of people in the United States and in all directions abroad. The pre-eminent standing of THE WORLD as an international forum has so long been undisputed that it is recognized by dignitaries everywhere as a means of communication. Elsewhere is told how marked was the service by THE WORLD at the time of the Venezuelan boundary dispute, and preceding and during the South African war, as are other instances. Among the many additional examples are these:

Ambassador White addressed the American people through THE WORLD in an impressive summing up of the work of the International Peace Conference at The Hague, saying: "It marks the first stage of the abolition of the scourge of war."

The last great public utterance of Congressman Nelson Dingley, Chairman of the Ways and Means Committee of the House of Representatives, was in the form of an address to the people, in which he presented an able and remarkable exposition of the finances of "Empire," and he chose THE WORLD as the medium through which to reach the people.

Emperor William II. talked to the people of this country through THE WORLD of a closer union of the United States with Germany.

Cardinal Gibbons, head of the Roman Catholic Church in America, reached the people through THE WORLD in a 3,000-word communication on "The Cancer of Divorce."

Vice-President Figuere, of San Domingo, informed the American people through a despatch to THE WORLD that the assassination of President Heureau was a murder, not a political killing. This gave much relief to those having commercial connections likely to be injured by an uprising in the "Black Republic."

Governor Jennings, of Florida, desiring to thank the people of New York for their prompt and generous assistance to the fire sufferers of Jacksonville, did it through the recognized medium. "The people of Florida," said her chief magistrate in a telegram to THE WORLD, "are grateful to the people of New York. I beg you to express our earnest gratitude."

The first message sent out by King Edward VII. after his accession was to THE WORLD. It was a message of thanks for the sympathy of the American people.

In those trying days when Queen Wilhelmina and all the statesmen of Holland were striving to smooth out the domestic troubles of the Queen and her Prince Consort, THE WORLD was asked by the authorities at The Hague to deny to the American public the sensational rumors of the domestic discord.

Zanardelli, the Italian Prime Minister, told the people of America through THE WORLD how he admired the United States, and hoped the existing feeling of mutual good will might grow stronger every day.

Upon his inauguration as President of the Republic of Cuba, Senor T. Estrada Palma outlined his policy in *THE WORLD* for the information of the American people.

Like an appeal was the message sent to the American people through *THE WORLD* by the venerable Danish Senator Thygeson, who, at nienty-seven years of age, was making his last fight against parting with the Danish Indies to the United States: "Tell the people of America the United States is grand and big enough without those small islands, but Denmark is small, and cannot afford to get any smaller."

The Prince of Wales and the Duke of York, Gladstone, Lord Rosebery, Cardinals Logue and Vaughan, Archbishops, Bishops, and other dignitaries of church and state in Great Britain, who responded to *THE WORLD'S* request for a Christmas sentiment at the time of the Venezuela war excitement, and thus helped to allay that excitement, set the example and made a precedent for other public personages in Europe to speak to the great people through the press, according to the American method. They set the fashion of publicity.

During the same week in which King Oscar addressed himself to America and the universe through *THE WORLD*, views and statements from Prince Bismarck, President Cleveland, General Gomez and Marshal Campos were given publicity through the same medium.

William O'Brien's manifesto, published in *THE WORLD*, was accepted on both sides of the Atlantic as the first authoritative declaration of the policy of the Irish party in the new Parliament.

Richard Olney, President Cleveland's great Secretary of State, addressed the people of the country on the issues of the 1900 campaign by the medium of a letter published exclusively in *THE WORLD*.

Dato Mandi, a famous Sulu chief, sent a message to the American people through *THE WORLD* that "You have displaced Spain in my affections, and I am a loyal American citizen."

In 1893 the vital question in European politics early in June was the result of the German elections and the attitude toward the subject of the Army bill of the leaders on both sides. The position of Kaiser Wilhelm II. was first known in an authoritative statement of his favorite minister, Dr. Miquel, made through *THE WORLD*. The following day, June 18, Wilhelm Liebknecht, the leader of the German Socialists, replied in a remarkable statement. He voiced the Socialist hatred of Bismarck, said anarchy was nonsense, predicted that the Kaiser's Army bill would be defeated, and that a series of great political battles was inevitable.

It was in 1893, too, when the personality and policy of Mgr. Satolli the Apostolic Delegate and head of the Catholic Church in this country, were shrouded in mystery, that *THE WORLD* interviewed him and sketched from life his various attitudes. It broke through his European conservatism, and made him quick to appreciate *THE WORLD* and its position as a public institution. As head of the Catholic Church in America he spoke through *THE WORLD* to the millions of the faithful regarding his mission and work. At the same time was depicted Satolli, the man, in a series of instantaneous sketches from life. The great ecclesiastic, wielding the power of a Richelieu, was seen to be a man of simple habits and austere tastes. The interview was widely copied and commented upon, and public curiosity as to the new figure in American public life was satisfied.

Gov. Joseph D. Sayers, of Texas, communicated his thanks to the American people for their aid to stricken Galveston through *THE WORLD*.

United States Minister Conger, imprisoned in Peking, and in hourly peril of becoming a victim to the Boxer assassins, cabled to *THE WORLD* the first message that had escaped the Chinese censor in ten days. It was addressed to his fellow-countrymen, an appeal to "Save us or avenge us."

When Admiral Dewey, told by thousands of his admirers that the people wanted him for their President, and urged to say he would accept a nomination if tendered, decided to state his position to his countrymen, he selected *THE WORLD* as the medium through which he would most surely reach them all, saying, "If the American people want me for the high office of President, I shall be only too happy to serve them. It is the highest honor in the gift of the nation; what citizen would refuse?"

M. Emile Loubet, President of the French Republic, addressed a "greeting to the American people," through *THE WORLD* of April 15, 1900, on the opening of the Universal Exposition at Paris. It was full of high, good sense, simple cordiality, and generous enthusiasm for "the great Republic across the ocean, whose glorious past and wonderful present contain so much that challenges France's special regard." Next day M. Cambon, French Ambassador to Washington, epitomized the reason for the natural affection of the

peoples of the two republics in the epigram, "French blood drenched the Revolutionary battlefields."

Prince Henry greeted the American people through THE WORLD; and the Kaiser, through THE WORLD, thanked the American people for their welcome to his brother.

When every newspaper in the land had published General Wheaton's criticism of President Schurman's Philippine speech, saying "Men have been sent to prison in the Philippines for talking like that," Dr. Schurman chose THE WORLD as the medium through which to address the American people in reply.

Nicholas, Czar of all the Russias, thanked America for kindly interest through THE WORLD.

Queen Wilhelmina cabled to THE WORLD her thanks to America for interest in her illness.

John C. Dimsdale, Lord Mayor of London, sent a message to America through THE WORLD regarding the King's illness.

General Botha cabled to THE WORLD a final statement of the position and policy of the Boers.

Mayor Low and every head of department of the Reform Administration made their first report to the people through THE WORLD of the work of their departments for the first six months. Comptroller Grout had given an exclusive report to THE WORLD earlier.

It was through the columns of THE WORLD that Gov.-Gen. Leonard Wood presented his report of his stewardship on the eve of his surrendering the Government of Cuba to President Palma, of the new republic.

When the scattered and demoralized hosts of Democracy, apparently arrived at the turning point, cast about for a leader and guidance, and Grover Cleveland, that sturdy leader to victory in the past, recognizing that the time had come for him to break the silence of six years, chose THE WORLD as the medium through which to address his penitent party on "The Future of Democracy." He knew that through it he could most surely reach the masses, and delivered the summons to Democrats to return again to Democratic principles, which carried courage to every Democrat in the country.

Mr. Addicks, the man who, at an expense of \$20,000 a year, kept Delaware without representation in the United States Senate because of his ambition to be a Senator, and the corruption of the Legislature, "expressed his grief" through THE WORLD because of the bad reputation the newspapers have given him in the land. He knew he could make his "grief" known to everybody through THE WORLD.

Andrew Carnegie told the people of America through THE WORLD that he had offered to President McKinley to pay \$20,000,000 for the Philippine Islands, and set the "little brown men free." Said he to the people in May, 1903: "I would gladly pay twenty millions to-day to restore our Republic to its first principles."

It was to the columns of THE WORLD that M. Serge De Witte, the great Russian diplomat, trusted his parting message of friendship to the Jews of America and the promise of his protection for their brethren in Russia:

"Tell the Russian Jews through THE WORLD that I am greatly delighted at their behavior in this country. I am much pleased at the way they are building themselves up. Tell them that, with the help of God, if there happen to be any more disturbances and misunderstandings in Russia, they will soon pass away. Tell them this is my greeting on the eve of my departure to the Russian Jews of this country."

A little later Lamsdorf, the Czar's Chancellor, cabled to THE WORLD his message to the American people, saying that their President had earned a clear title to the \$40,000 peace prize bequeathed by the late Alfred Nobel, a Russian, to be given to him who had rendered the most eminent services to humanity and for the promotion of peace between Russia and Japan having been largely the result of the President's efforts.

Premier Fejervary presented the defence of the interim ministry in Hungary and advocated universal suffrage for the Hungarians in a signed statement in THE WORLD. A Prime Minister's signed statement about a grave crisis involving possible revolution in a great European power was certainly a remarkable newspaper feature. But this was followed by the statement of the appeals of Francis Kossuth, leader of the Independence party, and Count Apponyi, and thus THE WORLD became the forum for a full discussion of the political situation and crisis in Hungary.

Emile Combes, late Premier of France, wishing to speak his gratitude to, and admiration for, President Roosevelt for his part in bringing about peace between Russia and Japan to the American people, addressed them in a long cabled message through the customary medium of communication with them. Prince Louis of Battenberg wrote his com-

pliments to America for the hospitality of her people on his sailing for Europe to THE WORLD, and "the divine Sarah" Bernhardt sent her greetings to America on ahead by wireless telegraph to THE WORLD while her ship was yet two days out at sea.

Postmaster-General Gary, when he desired to inform the people of the United States that he was preparing to introduce a national scheme for postal saving banks, selected THE WORLD, which first proposed, and has strongly advocated, the project as the medium through which to address the people.

#### THE WORLD AND GOVERNOR HUGHES.

THE WORLD was the first paper to urge the Republicans of New York State to nominate Charles Evans Hughes for Governor, which it did on March 19, 1906, when it said in a leading editorial:

"The insurance question makes Charles E. Hughes the logical candidate of his party for Governor, for he is the very personification of the issue. Moreover, his monumental work as counsel for the Armstrong Committee has earned for him any office within the gift of the people of New York."

Daily, until the Republican convention at Saratoga heeded its advice, THE WORLD pleaded with the delegates to lift their party, by the nomination of Hughes, above the levels to which it had been dragged by unscrupulous machine politicians. It threw the limelight of publicity on the coquetting of "Boss" Murphy and William R. Hearst, and warned the Republicans that Hearst, as an independent nominee, would not be a weak candidate, as the Republican leaders believed. It showed, however, that if Hearst carried Tammany on his back Hughes could beat him. The Murphy-Hearst deal went through at the Buffalo convention, which nominated Hearst. Governor Higgins, frightened, declined a renomination at Saratoga, and Hughes consented to head a weak ticket—and alone the day after election he towered above its wreck. So ardently did THE WORLD support Hughes during the campaign that Harper's Weekly said: "With the exception of Mr. Hughes himself, the most able and zealous supporter of the Republican ticket in the State of New York is THE NEW YORK WORLD." To which THE WORLD replied: "Not 'the Republican ticket in the State;' by no means! THE WORLD asks independent voters to make Hughes Governor for his record, for his character, for his ability, for his manly pledges of energetic action. It asks no man to vote for such Republicans as Merton Lewis."

A careful canvass of the voters of the city was made by THE WORLD, and a painstaking survey of the situation in the rural counties, and upon the results obtained, THE WORLD boldly predicted three days before the election that Hughes would be elected. On November 4 it said: "Many thousands of Democrats will vote for Hughes. The up-State Democratic organization has gone out of business. The Brooklyn organization has repudiated Hearst. Tammany is split. Croker has denounced Murphy's deal with Hearst as un-Democratic, and unless many thousands of Republicans vote for Murphy's candidate, Hearst has not a ghost of a chance of election."

#### "TO HARLEM IN FIFTEEN MINUTES!"

Greatest of its accomplishments in its many efforts for a betterment of passenger transit conditions in Greater New York is THE WORLD'S securing of fast trains to Harlem. On April 8, 1893, it said in an editorial:

"To Harlem in Fifteen Minutes! That and nothing less is rapid transit. That is what the city needs, and the elevated road can never give. That is what the city will get unless impatience surrenders the prospect to the greed of the elevated monopoly. To Harlem in Fifteen Minutes!"

On October 27, 1904, after eleven and a half years' persistent fight by THE WORLD, the great \$40,000,000 subway and viaduct rapid transit railroad from end to end of the "old" City of New York, now the Boroughs of Manhattan and the Bronx, was opened with appropriate ceremonies at the City Hall, and Mayor McClellan's hand on the electrical controller in the motorman's box of the first train over the line. Thirty thousand people thronged City Hall Park, making a gala day of it, and shouting their approval of the new road, and 100,000 others massed themselves about the stations along the line. Their rallying cry was "To Harlem in Fifteen Minutes," and nearly all the accounts of the occasion began with these words. Fourteen minutes is schedule time for express train runs from City Hall Station to Ninety-sixth Street, Harlem.

At the opening day celebration credit was freely given to THE WORLD. John H. Starin, the Nestor of rapid transit, who was a member of the original Rapid Transit Commission, appointed by Mayor Grant in 1890, and who is still a member, said:

"This should be a day of special satisfaction to THE WORLD. It was THE WORLD

that started agitation for rapid transit fully fifteen years ago. It has never flagged in its zeal for the project. Early and late, it has kept up its cry for rapid transit. It secured and published a vast amount of information concerning underground roads throughout the world and made the idea familiar to its readers.

"THE WORLD has advocated and helped to secure the passage of every law which has been secured to advance the project. Its enterprise in sending a trainload of people to Albany on one occasion prevented the passage of a bill that would have been harmful.

"THE WORLD advocated the lending of the city's credit to the enterprise when the idea of municipal ownership was a novelty, and it was THE WORLD, after consolidation, helped to secure constitutional amendments that made possible the selling of the necessary bonds to proceed with the construction of the road. For these reasons I say THE WORLD has special reason for congratulating itself and for being congratulated.

"Back in those days," continued General Starin, "THE WORLD was our one support among the newspapers. It was always aggressively optimistic, while certain others were caricaturing us as guests of Barbarossa's table, fast asleep, and our beards taking root in the table-top, and the big hole still not dug. The work of THE WORLD for rapid transit has been magnificent, and its importance can hardly be overestimated. In fact, I have sometimes wondered whether we could have been successful without it."

President Alexander E. Orr, of the Rapid Transit Commission, said:

"THE WORLD'S slogan, 'To Harlem in Fifteen Minutes,' was adopted as a pledge. It is now fulfilled. THE WORLD has reason to feel proud of the course it has pursued in this matter."

William Barclay Parsons, Chief Engineer of the Rapid Transit Commission: "It is an admitted fact that THE WORLD has stood by the Commission and fought for the subway from the start. It has been the one unfailing friend of rapid transit among the newspapers of New York. THE WORLD'S cry: 'To Harlem in Fifteen Minutes,' is now possible with a completed subway."

No public service in the long list of those performed by THE WORLD affords it more satisfaction or has brought to it more commendation than its fifteen-year fight, most of the time single handed, for real rapid transit for the Metropolis, brought to a complete successful issue on October 27, 1904.

#### THE WORLD'S RECOGNITION OF WOMEN.

In the work of uplifting woman THE WORLD has long been without a peer among newspapers. In its championship of woman's advance toward that higher life which is the ideal of the sociologist it has been splendidly aided by the pens of many eminent and progressive women, as well as by thoughtful contributions from thousands of women in the more retired walks of life. THE WORLD'S views of woman's proper place are exalted ones; and especially do THE EVENING WORLD and THE SUNDAY WORLD team with the news, gossip, helpful hints and other subjects dear to the feminine heart. THE WORLD believes in the power of the hand that rocks the cradle, and it applauds and assists every well-directed effort to broaden woman's sphere of influence, recognizing in every self-respecting, useful woman a queen of the earth, whether she actually sits upon a throne or rules in her domestic palace, the home.

In the long list of women whose articles or other expressions in THE WORLD have attracted widespread attention are found the names of Mrs. Elizabeth Cady Stanton, Susan B. Anthony, Queen Victoria, Adelina Patti, Sarah Bernhardt, Rejane Emma Nevada, "Jennie June" (Mrs. J. C. Croley), Mrs. Russell Sage, Mrs. Harriet Hubbard Ayer, Maude Adams, Marie Corelli, Julia Marlowe, Mrs. John Gilbert, Lady Drummond, Mrs. Burton Harrison, Beatrice Harraden, Mrs. John King Van Rensselaer, Mrs. Hetty Green, Elizabeth Stuart Phelps, Countess de St. Maurice, Mrs. Leonard Wood, Mrs. Frederick Funston, Miss Clara Morris, Mrs. Jefferson Davis, Mrs. John A. Logan, Mrs. Eliza Rogers Sigsbee, Julia Ward Howe, Helen H. Gardener, Mme. Calve, Miss Jane Priscilla Sousa, Miss Helen Gould, Mary Baker Eddy, Lady Jeune, Mrs. Emily Crawford, Lady Colin Campbell, Queen Wilhelmina of Holland, Flora Annie Steel, Fanny J. Crosby, Maude Gonne McBride, Mrs. Elizabeth B. Grannis, Mrs. John Sherman, Mrs. Russell A. Alger, Clara Lipman, May Irwin, Lillian Russell, Fanny Davenport, Amelia E. Barr, May E. Wilson, Mrs. Mary E. Lease, Miss Frances Willard, Jeanette L. Gilder, Rose Hawthorne Lathrop, Mrs. Frances Hodgson Burnett Townsend, Hallie Erminie Rives, Mrs. William Tod Helmuth, Mrs. Patrick Campbell, and many others.

#### THE WORLD AND FREE EDUCATION.

Since "THE WORLD'S Free Lecture Bill" was passed twenty years ago, emphasizing

the logic of THE WORLD'S contention that the public school rooms of New York City belonged to all the people, a conservative estimate shows that 25,000,000 people have heard lectures by eminent men in the People's University course. What brighter jewel could shine in THE WORLD'S diadem of accomplishments? Five thousands lectures each season to an average now of a million and a half auditors from October to May in nearly 150 auditoriums of the metropolis! Surely that is touching the brow of the masses with the ennobling wand of education!

The subjects of the lectures are such as will promote the purpose of the system, which is summarized by Dr. Henry M. Leipziger, the conductor of the courses from the beginning: "To afford to as many as possible the fruits of a liberal education; to make education a life purpose, and to apply the best methods of study to the problems of daily life, so as to create in our citizens a sound public opinion."

Among the general subjects discussed in the lectures are physiology, hygiene, natural science, astronomy, biology, anthropology, physics, electricity, chemistry, metallurgy, domestic sciences, household art, modern industries, history, biography, sociology, geography, commercial, physical, political and descriptive literature, music, art, American citizenship.

The lectures are delivered in English, Yiddish, and Italian, and many of them are illustrated by lantern slides, each lecture centre being equipped with a stereopticon.

Among those who have delivered lectures in the People's University courses are President Roosevelt, ex-Mayor Low, ex-Postmaster-General Thomas L. James, Dr. Rossiter Johnson, and Presidents Wilson, of Princeton; Harper, of Chicago University; Taylor, of Vassar; Hall, of Clark, and McAllister, of Drexel Institute; Felix Adler, Charles Sprague Smith, Garrett P. Serviss, and Dr. Draper, State Superintendent of Instruction, and many others of equally distinguished reputation.

Mention may also be made, with propriety, of the free scholarships founded by Mr. Joseph Pulitzer for boys who would otherwise be unable to enjoy the benefits of a college education, the far-reaching effects of which splendid benefaction cannot even be conjured. It can only be abstrusely measured by the possibilities of the influence of educated men in the wonderful years of development in the future.

#### THE SUNDAY WORLD.

While the news sections of THE SUNDAY WORLD preserve the continuity of the record of happenings everywhere, and form by themselves a complete newspaper, giving all the news of the civilized world, gathered by the Associated Press and an army of its own special correspondence, its additional sections make it the greatest Sunday journal ever conceived. The editorial section is a remarkable symposium of news and comment. The metropolitan section, fully illustrated, pictures all the lights and shadows of life in America's greatest city. The funny section, four pages of comics in colors, intended especially for the little folk, pleases thousands of children of a larger growth as well. The magazine, a costly twelve-page in color and half-tone, in which the work of many of the best known artists and writers appear, is a fascinating instructor for all the family. For fresh, original material for the magazine section THE SUNDAY WORLD invades the realms of invention, art, science, travel, romance, literature, and discovery. The society pages, pages for women, weekly reviews of finance and the markets, cable pages of news and discussion from the capitals of the old world, resort pages, and other special departments add to the sum total of newspaper completeness every Sunday.

#### THE EVENING WORLD AND ITS INFLUENCE.

As THE WORLD towers above its competitors in the morning newspaper field, so THE EVENING WORLD is the giant of the Evening city dailies. Its growth and power have been remarkable, due to its observance of the same principles upon which THE WORLD has been reared. It was first issued on October 10, 1887, and quickly found favor with the public. When it was barely out of its cradle its power was recognized by all who believed in publicity or who feared it. Its staff is distinct, in all departments, from that of the morning WORLD, and while, like its big father, it regards newsgathering as paramount in importance, it is distinctively a home newspaper. There is daily in THE EVENING WORLD something of interest for every member of the family—for the child who likes funny pictures, for the mother and daughter who study the fashions or read helpful words by brainy women, and for the father and sons who are interested in its news stories, terse editorials, sporting pages, and other features. Like the morning WORLD, it daily "beats" its contemporaries, sparing neither effort nor expense to be first with the news,

## THE WORLD IN 1907.

The Public Service Commission created by the Legislature under the lead of Governor Hughes, sustained by public opinion, is the direct outgrowth of the relentless warfare waged by THE WORLD against the law-defying corporations holding invaluable franchises from the people to serve them the great utilities of city life, like light and transportation.

In March, 1903, THE WORLD published the exposure of corruption in the surface railway manipulation, and one of the completed works of the Commission, led by its chief inquisitor, William M. Ivins, is the entire substantiation of the charges made by THE WORLD nearly five years ago.

On the heels of THE WORLD'S exposure the books of the Metropolitan were destroyed and much of the evidence of the high financiering by which the floating debt of that ancient "gold mine," the Third Avenue Railroad, was jumped in six years from \$2,000,000 to \$24,000,000, and the construction account padded with \$15,000,000 partly to balance it, by which the Fulton Street line was exploited, the Twenty-eighth Street and the Twenty-ninth Street line bought for \$25,000 and "capitalized" for \$3,000,000, loaded with a bogus construction expense account, so as to make \$5,000,000 in profits for the insiders, and bonds issued to "electrolize" East Side lines were sold and the price pocketed, while weary horses still drag the cars along the rails, was destroyed with them.

The confession of Quigg revealed a state of things comparable to the revelations in insurance corruption; that he, Quigg, received \$217,000 in four years from the company for lobbying at Albany for the Metropolitan, or rather for those who ruled the company to its ruin.

The testimony of Anthony N. Brady, showed how he had sold the Cortlandt Street line, which never existed except "on paper," to the Metropolitan for nearly \$1,000,000 and divided the proceeds among the "insiders," Whitney, Ryan, Dolan, Widener, and Elkins.

As a result of this official corroboration of THE WORLD'S charges, the Metropolitan Street Railway went into the hands of a receiver, a confessed insolvent, and the "holding company," having nothing else to hold but watered securities, also went into the hands of a receiver.

Under the Public Utilities bill there will be no more "holding companies;" no more watering of stocks in public utility corporations; for the consent of the Public Utilities Commission must first be obtained before new stock may be issued, and then it must be shown that the added capital is needed for, and to be used for, material improvements to the road, equipment or service, and not to create a false and fabulous profit for the manipulators, and the consent of the Commission must be first obtained before any railroad can assign, transfer, or lease its property or franchise.

## TEN UNANSWERED QUESTIONS.

October 1, 1904, THE WORLD asked these ten questions:

- "1. How much has the Beef Trust contributed to Mr. Cortelyou?"
- "2. How much has the Paper Trust contributed?"
- "3. How much has the Coal Trust contributed?"
- "4. How much has the Sugar Trust contributed?"
- "5. How much has the Oil Trust contributed?"
- "6. How much has the Tobacco Trust contributed?"
- "7. How much has the Steel Trust contributed?"
- "8. How much has the Insurance Trust contributed?"
- "9. How much have the National Banks contributed?"
- "10. How much have the six great railroads contributed to Mr. Cortelyou?"

Mr. Roosevelt's reply to these questions addressed to him was the appointment of Mr. Cortelyou to the post of Secretary of the Treasury, but, as a result of THE WORLD'S insistent demand in the Spring and Summer of 1905 for a legislative investigation of the life insurance companies, it was disclosed under oath that four of them had contributed \$158,500 to the Roosevelt campaign fund in 1904. These contributions were:

New York Life Insurance Company..	\$48,500	Mutual Life Insurance Company....	\$50,000
Equitable Life Assurance Society...	50,000	Prudential Life Insurance Company..	10,000

On April 2, 1907, by its exclusive publication of the famous letter written by E. H. Harriman to his friend, Sidney Webster, a further contribution to the Roosevelt campaign fund of 1904 of \$260,000 was also disclosed by THE WORLD.

This fund of \$260,000 was made up after a conference between Odell, Cortelyou, and Treasurer Cornelius N. Bliss, of the Republican National Committee, at which it was

decided to call upon E. H. Harriman to "save the day." The contributions and their respective contributors were as follows:

Edward H. Harriman.....	\$50,000
H. McK. Twombly (representing the Vanderbilt interests).....	25,000
Chauncey M. Depew (personal).....	25,000
James Hazen Hyde.....	25,000
The Equitable Life Assurance Society.....	10,000
J. Pierpont Morgan.....	10,000
George W. Perkins (New York Life Insurance Company).....	10,000
H. H. Rogers and John D. Archbold (Standard Oil Company).....	30,000
Banking interests.....	10,000
Cornelius N. Bliss (personal).....	10,000
Seven friends of Senator Depew (\$5,000 each).....	35,000
Sent to Mr. Harriman in smaller donations.....	20,000

Total ..... \$260,000

Later on THE WORLD was able to show that Ryan, Dolan, Elkins, Whitney, Widener and the other Metropolitan Railway Company managers had contributed equally to a \$600,000 fund "to remove obstacles and care for political obligations," and that they recouped the amounts given to the Republican campaign fund by the sale of the Cortlandt Street "paper road" to the Metropolitan Securities Company for \$965,607.19 by Anthony N. Brady. Brady returned to each of the contributors \$111,652.78.

#### TRAPPING A BOODLE ALDERMAN.

THE WORLD, with the assistance of the detectives employed in the District-Attorney's office, caught W. S. Clifford, a Municipal League Alderman from the Borough of Queens, red handed in the sale of the votes of eleven Aldermen for the election of a Recorder to fill the vacancy caused by the promotion of Recorder Goff to the Supreme Court bench. Alderman Clifford came to an appointed place and received \$6,000 in marked bills.

#### VICTORY FOR SUBWAY BRIDGE LOOP.

The adoption by the old Board of Rapid Transit Commissioners and the confirmation by the Board of Estimate of THE WORLD'S plan for a four-track subway loop to connect the Brooklyn Bridge and the Williamsburg Bridge on the Manhattan side was a victory not only over the traction combine of the Interborough and Brooklyn Rapid Transit, but over the Legislature, which passed a bill providing for an elevated loop.

The loop is now in course of construction by the city. Both the Brooklyn and Manhattan Companies, surface and underground, will be compelled to operate their trains and cars through it under a car mileage arrangement which will pay the cost of maintenance and provide a sinking fund to extinguish the debt incurred for construction.

#### EXPOSURE OF WARD'S ISLAND CRUELITIES.

One of the latest and one of the most important of the public services of THE WORLD during 1907 was the exposure of brutalities practised upon helpless patients in the Manhattan State Hospital for the pauper insane on Ward's Island. Reports had reached THE WORLD during the three months preceding October of the ill treatment of insane patients by the attendants in the institution. An agent was immediately employed to ascertain the truth. This agent was experienced in the treatment of the insane at Bellevue Hospital and the Bloomingdale Asylum, a physician equipped with the special learning necessary for his calling—Dr. John C. McCarthy.

Dr. McCarthy secured employment as an attendant in the State Asylum and served for a whole month. He made a careful diary, describing what he witnessed during that month in one ward, and his report shows an amazing prevalence of brutality among the attendants.

#### THE WORLD'S PUBLIC SCHOOL FIELD DAYS.

Believing in the doctrine that a healthy mind is best developed in a healthy body, THE WORLD instituted in 1906 a grand competition in athletics among the grammar school boys. Two thousand medals of silver and bronze were offered for competition, twenty to each of the first 100 grammar schools in Greater New York that should hold field days. The medals were given through the Public School Athletic Association, of which General George W. Wingate, a member of the Board of Education, is President, and Luther Halsey Gulick, Director of Physical Training in the Public Schools, Secretary.

The idea met instant favor, and competition was eager and earnest. The grammar school field days were enthusiastic events in the school life of the lads. A grand final grammar school meet was held in September, at which all the winners from their respective schools met in competition, the prizes given by THE WORLD being gold, silver and bronze medals.

Comptroller Metz was so much impressed by the beneficial results of THE WORLD'S field days that he gave an athletic field to the school boys of Brooklyn Borough.

Thirty-eight schools in Manhattan Borough, twelve in the Bronx, twenty-eight in Brooklyn, seventeen in Queens and five in Richmond Borough, held each a separate field day in 1907, and more than 20,000 grammar grade boys competed in the games, while upward of 100,000 school teachers and children witnessed the athletic combats.

Two thousand medals given by THE WORLD were awarded, 1,200 of silver and 800 of bronze, to the winners in the field day games. Six hundred principals of schools and teachers officiated at the meets as umpires, referees, judges, scorers and timekeepers, and at the field day of Manhattan No. 109, 520 boys participated in the sports. Eight city park playgrounds, fourteen athletic fields and eight National Guard armories were used by schools for THE WORLD games, and four meets were held on the roof gardens of the respective schools, while eight meets were in city streets.

Two thousand grammar school boys participated in the grand final meet at Celtic Park, the prizes being gold, silver and bronze WORLD medals.

The games effected mental and moral good to an extent which both parents and teachers commended. More enduring than the hour's glory of the games, however, was the quality of clean manliness among the young athletes, stimulated and developed by this competition.

James E. Sullivan, President of the Amateur Athletic Union of America, declared the finals "the most remarkable athletic meeting ever attempted," and General Wingate, President of the Public Schools Athletic League, and Grammar School Principals Benjamin Veit, John D. Fruanf, Frederick A. Berghane, W. L. Ettinger, Charles C. Roberts, John D. Condon, Charles D. Raine, William J. Leary, Gustave A. Carls, N. J. Lowe, T. O. Baker, W. L. Sprague, George Millard Davison, J. D. Reardon and others declared enthusiastically that the beneficial influence of THE WORLD'S meets was felt in every branch of the work of their schools.

#### THE WORLD'S PLATFORM.

On the occasion of a dinner of the executive staff of THE WORLD in honor of the sixtieth birthday of Mr. Joseph Pulitzer, the following cablegram was received from him:

"Express to the editors, managers and entire staff my warm appreciation of their excellent and successful work for an institution which should always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunder, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent, never be afraid to attack wrong, whether by predatory plutocracy or by predatory poverty.

"JOSEPH PULITZER."

Said the "New York Commercial": It is easily possible—more than probable, indeed—that most of the members of the executive staff of THE NEW YORK WORLD, who were dined in this city in celebration of the sixtieth birthday of Mr. Joseph Pulitzer on April 10, know that publication and its proprietor only in the latter-day relation of both to the American public and American affairs. But there are men in plenty here in New York and in every section of the country who recall vividly and with satisfaction how this "Lochinvar" in journalism "came out of the West" in 1858—he was only thirty-six years old then—and within an astonishingly short time had practically revolutionized newspaper making here in the metropolis. He established new standards that had never been dreamed of in the old order of things, and set a new pace that all of his competitors were forced to recognize and "catch step" with, but with which not all of them were able to keep up. It is no exaggeration to say that every daily newspaper existent in New York twenty-four years ago is the better to-day for Mr. Pulitzer's coming, and in no wise discredits any one of them or of those later established to place with him and THE WORLD the initiative and the leadership in taking up abuses and wrongs and evils and injustices in every form—public or semi-public—great or small, political or social or industrial or what not, and by persistent and vigorous exploitation seeking to displace them with right and justice. His ideals have uniformly been high, his purpose unselfish, his method for the most part commendable, and the example of them all-inspiring.

From "Life": Mr. Pulitzer's paper has been governed by those sentiments. The editorials in THE WORLD are squarely for morality, public and private. Not only excellent specimens of English literature, clean-cut and forcible and always to the point—they display a persistent courage and a love of justice unique in modern journalism.

It is not expected that all our contemporaries will agree with the statement so often made that "THE WORLD editorials are the best in town."

## **The World Almanac and Encyclopedia.**

### **AN ANNUAL REFERENCE BOOK OF UNIVERSAL CONTEMPORANEOUS FACTS.**

THE WORLD ALMANAC, prior to the acquisition of THE WORLD by Mr. Pulitzer, was a thin pamphlet, published annually, containing, besides the customary astronomical calculations and monthly calendars, the election returns, a list of Federal and New York State officials, a necrology and record of important events, and sometimes statistical summaries of a few Government reports. This matter was usually embraced within a hundred pages, and served the needs of the times. The first issue appeared in 1866.

With the initial number of the present series, appearing in 1886 under Mr. Pulitzer's proprietorship, THE WORLD ALMANAC took on the encyclopedic form. It ceased to be a political manual merely, and became an expositor of all current information about the universe; a reference book of facts concerning everything of contemporaneous human interest.

In accomplishing this stupendous purpose THE WORLD ALMANAC has spared neither labor nor expense. It has employed the best brains in organizing, and the best expert knowledge in supplying information. The ablest specialists in the domains of science, literature, art, statistics, and political and social economics have been drawn upon yearly for service. Thousands of circulars, accompanying return blanks, are sent to original sources of information. The vast mass of material thus obtained has been collated and arranged for publication by a permanent office staff. In all, it is estimated that ten thousand persons contribute in some measure annually to the perfection and completion of THE WORLD ALMANAC.

The distribution of THE WORLD ALMANAC is co-extensive with the planet. It will not only be found in the book shops of every principal city of the world, but it has its constant users at such extremes of human habitation as Iceland and New Zealand, Manchuria and Cape Colony, Alaska and the Argentine Republic. It has been equally welcomed in the study of a great European savant and the domestic circle of the Grand Turk, as an order from Sir Monier Monier-Williams, professor of Sanscrit at Oxford, and a larger one from the Ottoman Minister at Washington in the same mail testifies. A single order has come from Japan for as many as three thousand copies. An Arctic explorer departing for the North Pole has taken a score of bound almanacs on board for the entertainment of the ship's company during the long Winter nights. Copies will be found in the reading-rooms of practically every library and clubhouse in the United States. The Government supplies the consulates abroad with the book annually.

THE WORLD ALMANAC is used for reference yearly by two million inquirers after current facts, and it is permanently kept in half a million homes and business offices.

And surely THE WORLD ALMANAC, in its own pages, may modestly call attention to its influence and growth. A publication with millions of readers who look upon it as final authority quite easily takes place among the "best sellers," even though it does not appear weekly in the list. It is up a class by itself, and has a marvellous record.

### **TOKENS OF APPRECIATION FROM HIGH SOURCES.**

From many hundreds of appreciative communications received annually, the following have been selected for the wide range of personalities, vocations, and countries they represent:

WALTER WELLMAN, after his first Polar voyage:

"I embrace the first opportunity since my return to express my recognition of the service which THE WORLD ALMANAC has done me and my companions while we were in the Arctic Circle. During the long Winter nights, when we were encased in ice and forced to depend on indoor material for entertainment, it never failed to be the source of constant amusement, instruction and comfort. It did more to reconcile us to our surroundings than anything else we had with us."

WILLIAM JENNINGS BRYAN in The Commoner:

"The amount of valuable information crowded into THE WORLD ALMANAC is little short of marvellous, and it will repay its cost many times over during the year."

OSCAR S. STRAUS, Secretary of Commerce and Labor:

"I keep the ALMANAC on my desk for reference during the year, and I find it a most ready reference book."

The late GEORGE WASHINGTON CHILDS, of Philadelphia:

"Too much praise can hardly be lavished on this almost invaluable annual compendium.

It would be difficult to suggest any method by which the work could better fulfill its functions—that of being a handy and trustworthy guide for busy people of every class of life.”

WILLIAM T. HARRIS, Commissioner of Education:

“As a book of ready reference, I consider the ALMANAC unsurpassed.”

The late MAYOR PINGREE, of Detroit:

“I have thought so well of the book as to purchase and distribute a dozen or more of them among my friends.”

SENATOR TILLMAN, of South Carolina:

“I regard THE WORLD ALMANAC as one of the most valuable and handy compilations I have ever seen.”

GOVERNOR CHAMBERLAIN of Oregon:

“I have had frequent occasion to refer to THE WORLD ALMANAC, and I have never failed to find the information sought.”

T. M. MILLER, late Attorney-General of Mississippi:

“Like the great paper with which THE WORLD ALMANAC may said to be connected, its worth cannot be overestimated. I have frequently consulted THE WORLD ALMANAC and have been astonished at the variety, extent and accuracy of the information it contains.”

GOVERNOR TOOLE of Montana:

“I wish to testify to its general accuracy.”

AUGUSTUS VAN WYCK, Jurist, Democratic Candidate for Governor of New York in 1898:

“Never was so much information of daily use crowded in so small a space.”

JOHN W. YERKES, United States Commissioner of Internal Revenue:

“The amount of valuable information in the 1906 WORLD ALMANAC, and the ease with which this information can be reached, renders this publication of great value to a busy man's desk.”

CARROLL D. WRIGHT, late Commissioner of Labor:

“I use this ALMANAC a great deal and find it very trustworthy and valuable.”

H. M. M'CRACKEN, D. D., LL. D., Chancellor of New York University:

“THE WORLD ALMANAC is used by me as a constant reference book on educational and other matter, and is found worth many times its cost.”

THEODORE L. SEIP, D. D., President of Muhlenburg College:

“It is a thesaurus of useful information.”

JAMES B. ANGELL, LL. D., President of the University of Michigan:

“I have found it of great convenience. It is compiled with care and accuracy.”

DANIEL C. GILMAN, LL. D., late President of Johns Hopkins University:

“Valuable alike for its accuracy and comprehensiveness.”

THOMAS S. GATCH, Ph. D., President of the University of the State of Washington:

“It is used almost constantly by the members of our faculty, by our students in civics and political economy, as well as by those connected with the debating societies. It is the best bureau of information of which we know.”

W. J. BRIER, President of the Wisconsin State Normal School:

“It answers more questions correctly than any other volume in the library, with the possible exception of the unabridged dictionary.”

JOHN M. VAN DYKE, Principal of the Blairstown (N. J.) Public School:

“By its side lies an encyclopedia of eighteen volumes, and still another large book calling itself a ‘book of facts.’ Weeks will go by possibly without a glance at any of these, while THE WORLD ALMANAC is used almost every hour. I do not make an exaggerated statement when I say that I could get along without the others before I could the last.”

FRANCIS J. CHENEY, Principal of the New York State Normal and Training School:

“There has been brought together in compact and systematic form a vast amount of

practical information, the mastery of which will make a student an intelligent citizen, so far as current history is concerned."

HENRY WHITTEMORE, Principal of the Massachusetts State Normal School:

"One of the 'immortal indispensables.'"

C. M. LIGHT, Principal of the New Mexico Normal School:

"It is current history and deserves as much attention by pupils as earlier events."

E. W. WETMORE, Department of Natural Science, New York State Normal College:

"In preparing material for lessons in geography, history, literature, and science, it furnishes, in concentrated and available form, needed facts which it would take hours to find in the standard text-books and elaborate encyclopedias. I have both used it myself and have recommended it to our pupil teachers for years as the most efficient and possible. Every teacher and every scholar above the primary grade should have one constantly within reach."

FRED S. ROOT, Pastor of the Park Congregational Church, Hartford, Ct.:

"In a weary mood this evening I picked up a copy of THE WORLD ALMANAC and read, and read, and read until, to my surprise, the evening had almost disappeared, with my work all unfinished. Your ALMANAC is full of the most fascinating information, and is easily superior to anything of its kind in the language. I am almost tempted to study a page a day as an exercise in memory."

J. E. RANKIN, D. D., LL. D., President of Howard University, Washington, D. C.:

"When I took my grip-sack for a three months' trip abroad last Summer, the only books I insisted on were the New Testament, Emerson's Poems, and THE WORLD ALMANAC—religion, poetry, statistics."

STEPHEN A. NORTHROP, Pastor of the First Baptist Church, Fort Wayne, Ind.:

"I would not do without it under any circumstances. I keep it on my desk by the side of my Bible, Webster's Dictionary, and Roget's Thesaurus."

The late WALTER S. CARTER, of Carter, Hughes & Rounds, Attorneys, New York:

"A great book is THE WORLD ALMANAC. In congratulating Mr. Leonard, editor of 'Who's Who in America,' the other day, I told him that his book was worthy to rank with Baedeker and THE WORLD ALMANAC."

Berlin Correspondent of THE WORLD:

"Travelling in the express to St. Petersburg, there sat opposite me Count Muravieff, the Russian Foreign Minister. During the long journey he was completely absorbed in a copy of THE WORLD ALMANAC."

K. Y. FUKUYAMA, Yokohama, Japan:

"It is a wonderful book."

The late A. OAKEY HALL, ex-Mayor of New York:

"The copy used in this club (the Lotus Club) shows by its dilapidation how much it has been used. And what impresses all users whom I have met is the exceeding cleverness and elasticity of arrangement for ready reference by author, journalist, and seeker after 'notes and queries' allied to daily domestic, business, or other conversational life."

The London Standard:

"The American Whitaker. It is a detailed census of Uncle Sam's people and an inventory of his belongings."

The New York Times:

"Its contents have always been what an almanac's contents should be—accurate, concise, inclusive."

Thousands of less distinguished, but just as highly appreciated, readers as those quoted in the foregoing paragraphs write complimentary letters to THE WORLD ALMANAC. One of the most valued tributes is from a prisoner in a great Western penitentiary, who sent through the warden of the prison for a copy of the 1907 ALMANAC, and wrote:

"For several years I have studied THE WORLD ALMANAC, and have turned many hours which would otherwise have been dreary and wasted into hours of study. I have acquired from THE ALMANAC quite a liberal education, and when I leave here a free man I will be better fitted to make my way in the world than I was when I entered this prison. It is a wonderful book."

The list need not be augmented. THE WORLD ALMANAC for 1908, without claiming perfection, is nevertheless put forth with knowledge that a vast army will welcome it as the peerless statistical and encyclopedic publication of the year.

**A Quarter-Century Record of Events.****THE STORY OF HUMAN ENDEAVOR AND ACCOMPLISHMENT SINCE 1883.**

So rapid has been the march of events during the past quarter of a century, and so vital a bearing have those events had upon the world's history, that a mere retrospective glance over the record since 1883, indicates with intensity the certainty of still greater changes by a restless civilization before Father Time's dial marks the passing of another twenty-five years.

When the new regime of The World begun with a wedding to progress, Victoria sat upon England's throne, nearing her diamond jubilee celebration. Chester A. Arthur, of New York, had been elevated, by the assassination of James A. Garfield, to the Presidency of the United States. The German Empire destinies were ruled by William I. The Emperor of Russia was Alexander III. Humbert I. was completing his fifth year as King of Italy. Francis Joseph I. had been for thirty-five years Emperor of Austria, and the veteran Pius IX. was Pope. Alphonso XIII., now King of Spain, had not yet been born. Wilhelmina, Queen of the Netherlands, was just out of her cradle, and her father, William III., was King. In brief, the vast majority of the ruling powers of 1883 have now laid their sceptres before the great monarch Death.

**1883**

In the United States, the year 1883 opened with eyes centred on Washington, where Congress was debating the House bill to reduce internal revenue taxation, which bill the Senate reported with amendments embracing a thorough revision of the tariff, based upon the report of the Tariff Commission. The bill was adopted by both houses on March 3. In April, May and June political excitement ran high during the trials of General Brady and ex-Governor Kellogg, of Louisiana, for complicity in the Star-Route frauds. They were acquitted. In May the Brooklyn Bridge, from City Hall, New York, to Brooklyn, was opened, after an expenditure of thirteen years' labor and \$15,500,000. In June the U. S. S. Yantic and Arctic steamer Proteus sailed from St. Johns, Newfoundland, for the relief of the Greely scientific expedition to Lady Franklin Bay. In September the last spike of the Northern Pacific railroad was driven at Independence Gulch, western Montana. The bi-centennial of the first German settlement in America was celebrated at Germantown, Pa., in October. In the same month the United States Supreme Court pronounced unconstitutional a number of the provisions of the Civil Rights bill. On October 1 domestic letter postage was reduced from three cents to two. In November Lieut.-Gen. Philip H. Sheridan succeeded Gen. W. T. Sherman in command of the armies of the United States, General Sherman retiring upon age limit.

In February, 1883, while the English Parliament gravely listened to the "speech from the throne," expressing satisfaction at the "settlement" of the Egyptian struggle, events in the Soudan were really precipitating the great clash less than a year later, when General Gordon was hurried to Khartoum by the Gladstone government to find glory and death in the noted siege. In Ireland the echo of the Fenian troubles which had led in 1882 to the murder of Lord Frederick Cavendish and Thomas H. Burke in Phoenix Park, Dublin, was heard when fell the drop of the gallows on which the assassins were hanged.

The universe, however, was fairly quiet twenty-five years ago, the earth's big family behaving itself in a much more exemplary manner than it has in later days, when the spirit of possession has stalked about with outstretched hands over widespread territory, despite the instituting of international peace conferences. It is an historic fact worthy of record in 1908 that one of the things that has not changed in the two and half decades now under consideration is the appetite of the lion for the lamb.

**1884**

The year 1884 was one of commotion in the United States, bringing the recurrence of a Presidential campaign in which were crushed the ambitions of James G. Blaine, the non-

inee of the Republican party, through his defeat by Grover Cleveland, of New York, the Democratic candidate. The battle was hard fought and acrimonious, and the triumph of Mr. Cleveland opened freely to the National Democracy the White House doors, which had been closed to it since the incumbency of Abraham Lincoln. In the nominating convention Mr. Blaine wrested the prize from President Arthur, Gen. John A. Logan, Senators John Sherman, Joseph R. Hawley, George F. Edmunds and others. Logan was consoled by being named for the Vice-Presidency. The Democratic National Convention considered the names of Thomas F. Bayard, Thomas A. Hendricks, Allen G. Thurman, John G. Carlisle, Governor Hoadley, of Ohio, and Governor Cleveland. Cleveland was nominated on the second ballot, with Thomas A. Hendricks as running mate. In the election on November 4 Cleveland and Hendricks received 4,911,017 popular and 219 electoral votes, the Republican ticket receiving 4,848,334 popular and 182 electoral ballots. In this campaign Gen. Benjamin F. Butler, of Massachusetts, was the candidate of the Greenback and Anti-Monopoly parties, polling 123,835 popular votes. The Prohibition party polled 151,809 votes for its candidate, John P. St. John, of Kansas.

The month of May, 1884, was marked by a financial sensation which attracted international attention. The failure of James R. Keene, who was said to have lost \$4,000,000, was immediately followed by the collapse of the Marine Bank, the Metropolitan Bank and the firm of Grant & Ward, with which firm ex-President Grant was said to be connected. General Grant borrowed \$150,000 from William H. Vanderbilt to avert the crash, and lost his savings. The Grants had much sympathy, and mortgaged all their property, declining to let Mr. Vanderbilt cancel his loan. James D. Fish, president of the Marine Bank, and Ferdinand Ward, active member of the firm of Grant & Ward, were arrested for fraud, convicted and each sentenced to ten years' imprisonment at hard labor in Sing Sing, N. Y., prison. Other noteworthy events of the year in the United States were: The funeral ceremonies in New York City of the remains of the victims of the Jeanette Arctic disaster, Lieutenant-Commander George W. De Long, U. S. N., and others, on February 23; the vetoing by President Arthur of a bill to restore Gen. Fitz-John Porter to the army and retire him with rank of Colonel; the ratification of a treaty between the United States and Mexico; the signing of a commercial convention between the United States and Spain; the trial, conviction and twelve years' suspension of Brig.-Gen. D. G. Swaim, Judge Advocate-General of the United States Army, charged with having attempted to defraud a banking firm in Washington; the return of the Greely Relief Expedition from Arctic seas, with Lieut. A. W. Greely and a few of his party alive, and with numerous dead; the laying of the corner-stone of M. Bartholdi's statue of "Liberty Enlightening the World" on Bedloe's Island, New York Harbor, with Masonic ceremonies, on August 5; the opening of the Prime Meridian Conference in Washington, D. C., on October 1; the signing of a reciprocity treaty between the United States and Santo Domingo, and the setting of the capstone of the Washington Monument in December. The New Orleans Exposition was formally opened on December 16.

Abroad, in November, Prince Bismarck opened the Berlin Conference, dealing with important questions anent Africa, and presaging a change in the time-honored foreign policy of the United States. The American representative was John A. Kasson, who contended for and attained in part the neutralization of the Congo and Niger, and who, in conjunction with England's and Belgium's representatives, secured provisions for the suppression of slavery and the slave trade, the amelioration and preservation of native races, religious liberty and the encouragement of many laudable enterprises. If, however, the terrible tales of subsequent Belgian cruelty to the blacks of Africa be at all true, both the letter and the spirit of the conference seem to have had little effect in recent years toward the betterment of conditions. In the Soudan, in 1884, General Gordon was besieged at Khartoum from February 18 by the Mahdi. In October a British expedition set out from Cairo to ascend the Nile and release the beleaguered garrison.

## 1885

The inauguration of Grover Cleveland as President, on March 4, 1885, was marked by great rejoicing among Democrats of the United States. He named Thomas F. Bayard, of Delaware, as Secretary of State; Daniel Manning, of New York, Secretary of the Treasury; William C. Endicott, of Massachusetts, Secretary of War; William C. Whitney, of

New York, Secretary of the Navy; Lucius Q. C. Lamar, of Mississippi, Secretary of the Interior; A. H. Garland, of Arkansas, Attorney-General; William F. Vilas, of Wisconsin, Postmaster-General. On March 12 the President withdrew the Nicaragua Canal and Spanish reciprocity treaties from the Senate for further consideration; on March 13 he warned, by proclamation, all white settlers off the Oklahoma country, Indian Territory; on March 19 the Senate approved the convention with Mexico for rectifying the boundary and prolonging the term for ratifying the treaty of commerce. On March 20 Secretary Whitney asked for an accounting from John Roach, the noted ship builder, and instituted an investigation of the Navy Department; the suspension of Roach followed this action. The United States Supreme Court declared the Edmunds Anti-Polygamy bill constitutional on March 23. On April 30 Mr. Cleveland named Anthony M. Keiley, of Virginia, as Minister to Italy, which country declined to receive him, whereupon he was appointed Minister to Austria, and when that government followed Italy's course the nomination was withdrawn and the mission left vacant. In June a diplomatic understanding was reached at Washington between the State Department and the British Minister for the extension of the privileges secured by the Treaty of Washington during the open season. In September massacres of Chinamen in Wyoming, Idaho and Washington Territory led to a protest by the Chinese Government; the President issued a proclamation against the outrages, and thirteen ringleaders were later indicted. Six months later he sent a message to Congress expressing his opinion that the United States was not liable either by treaty or international law for the loss of life or property, but suggested that Congress indemnify the Chinese sufferers as a matter of humanity. The first session of the Forty-ninth Congress was opened on December 7, with John Sherman, of Ohio, as President pro tem of the Senate (Vice-President Hendricks having died), and with John G. Carlisle, of Kentucky, as Speaker of the House. On December 19 Congress voted a pension of \$5,000 a year to the widow of ex-President Grant. The successful blowing up of Flood Rock, near Hallett's Point, East River, New York, by Gen. John Newton, U. S. A., in October, thus removing a dangerous menace to navigation, was a noted engineering feat of the year 1885. The year also witnessed troubles in Central America. An alliance was formed by Costa Rica, Salvador and Nicaragua to resist the President of Guatemala, who crossed the frontier of Salvador with 15,000 men on March 28. The insurgents burned Aspinwall on April 1, and United States troops and marines were sent there next day to protect the communications between Aspinwall and Colon. Peace was concluded between the Central American republics on April 16, and on May 3 was concluded a treaty between the United States and Colombo for the joint preservation of order on the Isthmus. General Preston was executed on August 25 for the burning of Aspinwall, and thus the warlike incident closed.

England lost her heroic Gordon on January 26, when the Mahdi took Khartoum, and he fell two days before the British troops, under Wilson, reached that city. Wilson, finding his mission vain, returned to Egypt. In Parliament the franchise was greatly lowered, a redistribution of seats was effected, and, by the Parnellite defection, Gladstone was defeated on the budget and resigned June 9, the Conservatives taking office with Salisbury as Premier. On June 12 Bechuanaland was annexed to the British Empire, and on November 13 Great Britain declared war against King Theebaw of Burmah.

## 1886

The events of 1886 in the United States included serious labor troubles. In March the Knights of Labor boycotted the Gould railroad system in the Southwest, with fatal conflicts between striking railroad men and military and civic authorities. Strikes were general, demands being for higher wages and shorter hours, or both. On May 1, while railroads and factories were paralyzed in Chicago, 40,000 workmen paraded. Anarchists threw a bomb among the police in Haymarket Square with fatal effects. Rioting continued for two weeks. In August eight of the Anarchists were convicted of murder and seven were sentenced to be hanged. The Cunard steamship Oregon, with 846 passengers on board, was sunk by collision with a schooner off Long Island on March 14 without fatalities. President Cleveland was married on June 2 to Miss Frances Folsom in the White House, Washington, D. C., by the Rev. Dr. Byron G. Sunderland. On June 17 the Most Rev. James Gibbons, Roman Catholic Archbishop of Baltimore and Primate of the Church in the United States, was created a Cardinal and was solemnly invested with the biretta

in his cathedral on June 30. An earthquake shock on the night of August 31, felt throughout a large portion of the Eastern States, killed sixty-one persons at Charleston, S. C., destroyed many buildings, entailing a financial loss of millions, and making thousands homeless. The Boston sloop *Mayflower* defeated the British cutter *Galatea* in two consecutive races for the America's Cup in September over Sandy Hook course. Geronimo and several Apaches surrendered on September 4 to General Miles, on Skelton Canyon, Ariz., and were imprisoned at Fort Marion, St. Augustine, Fla. In October 247 lives were lost in Sabine Pass, Tex., and Johnson's Bayou, La., by inundations caused by a great gale in the Gulf of Mexico. Bartholdi's statue of "Liberty Enlightening the World," on Bedloe's Island, New York Harbor, was formerly unveiled with imposing ceremonies, including a naval parade and land procession, on October 28. At Washington the Senate passed, on January 15, and the President approved, on January 19, the Hoar Presidential Succession bill. On February 1 the House passed a bill to increase from \$8 to \$12 a month the pensions of widows and dependent survivors of Union soldiers. On March 1 President Cleveland sent to the Senate a message forcibly stating his views as to the rights of that body to demand from the Executive the various papers considered by him in connection with removals from office, claiming such information to be of a strictly confidential character, to be used only for the benefit of the country as an aid to the Executive in discharging his duty in the matter of appointments and removals. The Senate, led by Senator Edmunds, decided by a majority of one that it had the right to call for all such documents. On March 5 the Senate passed the Blair Educational bill providing for an appropriation of \$79,000,000 to be distributed among the States on the basis of the illiteracy of persons over ten years of age, except in the cases of the white and colored schools, where distribution should be on the basis of illiterate persons of school age. In November elections to the Fiftieth Congress resulted in a Republican gain of thirteen members. During this year Secretary of State Bayard tried, but failed, to settle the international question of the right of a foreign country to arrest, try and convict a foreigner who, in a foreign country, commits a crime against a citizen of the complaining country. An American citizen named Cutting had been arrested in Mexico for an offence committed in the United States against a Mexican citizen. Secretary Bayard demanded Cutting's release, and notified the Mexican Government that the application of such a law against an American citizen would not be tolerated. The Mexican Government released Cutting as having been already sufficiently punished by his imprisonment, but did not withdraw its claim.

Abroad, the British Empire, after six weeks' war with King Theebaw of Burmah, annexed Burmah to the empire on January 1. The Salisbury ministry was defeated in Commons in January and resigned, Mr. Gladstone resuming office with a Liberal ministry, remaining in office until August, when a Tory ministry under Salisbury again came into power. Home Rule for Ireland was defeated in Commons in June by a vote of 241 to 311. In France the de Freycinet ministry, formed in January, continued until December, when it resigned, and the Goblet ministry succeeded. The posthumous birth of the present King of Spain occurred on May 17. The "Mad King" Ludwig of Bavaria committed suicide in Starnberg Lake on June 13. The Royal and Imperialist princes were expelled from France on August 24. Between July 31 and August 15 Home Rulers and Orangemen rioted in Belfast. On August 21 Russian conspirators abducted Prince Alexander of Bulgaria from his palace and sent him out of the country. He returned to Sofia in September and abdicated. In October General Kaulbars, Russian agent, intrigued unsuccessfully for Russia in Bulgaria. In November Prince Waldemar of Denmark was elected Prince of Bulgaria, but declined. In New Zealand volcanic eruptions in June caused vast destruction. A new extradition treaty between the United States and Great Britain was signed at London on June 25.

### 1887

The world's page of history for 1887 records the dissolving of the German Reichstag in January by the government for having refused to pass the Septennate Army bill, which bill was finally passed by the Reichstag on March 11, the parliamentary elections in February having resulted favorably to the government. Canadian parliamentary elections sustained the Macdonald ministry. Attempts were made to kill the Czar on March 14. On March 22 the ninetieth birthday of Emperor William of Germany was celebrated with enthusiastic demonstrations. On March 28 the Salisbury ministry brought in the Irish

Coercion bill. It passed the Commons July 8 by 349 to 262. Royal assent was given July 19. Irish counties were proclaimed July 24, and the Irish National League was proclaimed August 19. Mrs. James Brown Potter made her debut in the Haymarket Theatre, London, on March 29. War excitement was caused on April 20 by the arrest of M. Schnaebles, French Commissary, by the Germans on the Franco-German frontier; he was released April 29. The French crown jewels were sold at auction on May 12. The Goblet ministry in France resigned in May and the Rouvier ministry was installed. At Toronto, May 18, William O'Erien, the Irish Home Rule agitator, was mobbed by Orangemen. The Opera Comique in Paris was burned May 26, with a loss of 130 lives; five days later panic in the cathedral at Chihuahua killed 300 children and injured 60 others. In June Queen Victoria's "Diamond Jubilee," or semi-centennial of her coronation, was celebrated with imposing ceremonies in London and throughout British possessions, only Ireland remaining lukewarm, the Irish Nationalists struggling vainly at that time against the passing of a Coercion bill for Ireland. In India 25,000 prisoners were liberated in honor of the jubilee celebration. Revolution in the Hawaiian Islands caused a change of ministry and a revision of the constitution June 30. On July 7 Prince Ferdinand of Saxe-Coburg-Gotha was elected Reigning Prince of Bulgaria by its Parliament; he was proclaimed August 14. The excommunication of the Rev. Dr. McGlynn was announced on July 8. An American testimonial to Mr. Gladstone was presented on July 9. On September 1 Joseph Chamberlain was appointed chairman of the British Fisheries Commission. The burning of the Theatre Royal at Exeter, England, on September 5 cost 140 lives. Home Ruler William O'Erien was convicted at Cork of sedition and imprisoned. On October 1-3 an alliance between Germany, Italy and Austria was created at Friedrichsruh by Bismarck and Crispi. The Chinese Government on October 12 granted extensive banking, railroad and telegraphic concessions to an American syndicate. On October 14 General Caffarel, of the French army, was disgraced for selling decorations, and General Boulanger was arrested for insubordination. The German Crown Prince's disease was pronounced to be cancer November 11. The French Chamber of Deputies voted on November 7 to prosecute M. Wilson, the President's son-in-law, for trafficking in offices, 527 to 3; he was acquitted by the tribunals December 3, on which date the Tirard ministry was again installed. M. Jules Grevy resigned the French Presidency on December 2, and Marie Francois Sadi-Carnot was elected by Congress to succeed him. The Pope's jubilee began on December 30 with the celebration of the fiftieth anniversary of his ordination.

Notable events of the year 1887 in the United States began with the sale of the Hoosac Tunnel to the Fitchburg Railroad Company for \$10,000,000. In January Congress passed the Interstate Commerce bill, and a little later the Canadian Retaliation bill. In February an attempt was made to assassinate Patti in San Francisco by an infernal machine. The President vetoed the Dependent Pension bill on February 11, and on February 24 the House refused to pass the bill over the veto. Severe earthquake shocks in northern Mexico, Arizona and vicinity caused topographical changes. Queen Kapiolani of Hawaii was entertained at the Executive Mansion, Washington, May 6. The Garfield Statue at Washington, D. C., was unveiled with demonstrations. On June 16 the President revoked the War Department order restoring captured Southern battle flags. In New York City, after long delay, Jacob Sharp, briber of the "Boodle Aldermen," was convicted June 29 and sentenced July 14 to fourteen years' imprisonment; stay was granted, appeal taken, and a new trial ordered November 29 by the Court of Appeals, Sharp being released on \$40,000 bail. The Ute Indians, under Chief Colorow, went on the warpath in Wyoming on August 14. The Baltimore and Ohio Railroad was sold by the Garrett interest on September 2, and the Western Union Telegraph Company purchased the Baltimore and Ohio telegraph properties. The ninth international congress of physicians met at Washington, D. C., on September 5. The centennial celebration of the signing of the Constitution was held at Philadelphia September 15-17. During September and October President and Mrs. Cleveland made an extensive Western and Southern tour. The Lincoln Monument was unveiled with demonstrations at Springfield, Ill., on October 22. President Cleveland received a memorial from the British International Arbitration Delegation on October 31. On November 10 Lingg, the Chicago anarchist, committed suicide by exploding dynamite in his mouth; on the following day his convicted companions, Spies, Fischer, Engel and Parsons, were hanged at Chicago, the Governor of Illinois commuting the sentences of Fielden and Schwab to life imprisonment. Barnum's Winter quarters, with many valuable

animals, were burned at Bridgeport, Ct., November 20. On December 5 the United States Supreme Court rendered its "States Rights" decision in the Virginia Habeas Corpus case. The year closed with labor troubles and a strike of 60,000 men on the Reading Railroad.

## 1888

The year 1888 was marked by numerous incidents of international interest in the United States and abroad. Of these the most important outside of this country were: The making public on February 3 of the treaty of alliance between Germany and Austria against Russia, concluded in 1879; the performing of tracheotomy on the German Crown Prince at San Remo on February 9; the death of William I. of Germany on March 9; the marriage of Prince Oscar of Sweden to Miss Elba Munck in England; the depriving of General Boulanger of his command by the French Government for breach of discipline; the introducing of a local government bill for England and Wales in the House of Commons; the retirement of General Boulanger, the defeat of the Tirard ministry in the French Chamber of Deputies by the Floquet ministry, and the election of Boulanger to the Chamber by a great majority; the issuing of a Papal rescript condemning the Irish "plan of campaign" and boycotting; the sentencing of John Dillon, M. P., to six months' imprisonment under the "Crimes" act; the loss of the steamer *Pemptos* in the Indian Ocean, with 1,100 lives; the abolition of slavery in Brazil by the Brazilian Chambers; the marriage of Prince Henry of Germany and Princess Irene of Hesse at Charlottenburg Castle; the unanimous re-election of President Diaz of Mexico; the resignation of General Boulanger from the French Chamber of Deputies and his severe wounding in a duel with Floquet; the forcible separation of Queen Natalie of Servia from her son by order of King Milan; the taking by Italy of formal possession of Massowah, Africa; the opening of the Australian Centenary Exposition at Melbourne; Charles Stewart Parnell's suit against the *London Times* for \$250,000 damages; revolution in Hayti overthrowing the Salomon Government; Henry M. Stanley, the African explorer, heard from at Bonyala, on the Aruwhimi; the marriage of Princess Letitia Bonaparte, daughter of Prince Napoleon (Jerome), to her uncle, the Duke of Aosta, brother of the King of Italy; the defeat of the Thibetan army in Thibet by the British under Colonel Graham; the introduction by Premier Floquet of his proposed revision of the Constitution in the French Chambers; the election of General Legitime as President of Hayti; the announcement of the failure of the Panama Canal Company in December; the election of M. Hammer as President of Switzerland; the defeat of the Arabs, with great slaughter, by British troops at the battle of Suakin; the acceptance, by the Paris Municipal Council, of the statues of Washington and Lafayette, presented to the city by Mr. Joseph Pulitzer. Minor foreign occurrences worthy of note were: The celebration of the centennial of the *London Times*; the presentation of a jubilee gift from President Cleveland to Pope Leo XIII.; the appointment of Lord Stanley, of Preston, as Governor-General of Canada; the celebration in London and Greece of the centennial of Lord Byron's birth.

Stirring events in the United States in 1888 were: The signing of the fisheries treaty with Great Britain at Washington; the introducing of the Mills Tariff bill in the House of Representatives April 17; the ratification of a treaty with China by the United States Senate; the adjustment of the differences between the United States and Morocco May 9; the laying of the corner-stone of the Catholic University at Washington, D. C.; the signing by Governor Hill of the law substituting electricity for hanging as the death penalty in New York June 4; the marriage of the Duke of Marlborough and Mrs. Hammersly in New York City; the confirming of Melville E. Fuller as Chief Justice of the United States by the Senate July 20; the passing of the Mills Tariff Reduction bill by the House, 162 to 149, July 21; yellow fever epidemic at Jacksonville, Fla., lasting from July 29 to December 7, with 4,704 cases and 412 deaths; the rejection of the Canadian fisheries treaty by the United States Senate and the sending of a message by the President to Congress recommending retaliation upon Canada; the passing of the Chinese Exclusion bill by the United States Senate, it having previously passed the House; the touching at \$2 by September wheat on the Chicago Board of Trade; the debut of Coquelin and Jane Hading in New

York October 8; the adjournment of the first session of the Fiftieth Congress; the opening of the National Exposition at Atlanta, Ga.; the affirming by the Supreme Court of the United States of the right of the Government to sue the Bell Telephone Company; the marriage of the Right Hon. Joseph Chamberlain and Miss Mary C. Endicott, daughter of the Secretary of War, at Washington; the placing of the railway postal employees under the Civil Service law by the Postmaster-General. Naturally the occurrence of greatest interest in the United States in 1888 was the Presidential election. On June 6 the National Convention of the Democratic party at St. Louis renominated Grover Cleveland by acclamation, with Allen G. Thurman for Vice-President. In the National Republican Convention at Chicago, June 25, Benjamin Harrison, of Indiana, was nominated for President on the eighth ballot, his leading opponents being Senator John Sherman, Gen. Russell A. Alger and Walter Q. Gresham. Levi P. Morton, of New York, was nominated for Vice-President on the first ballot. Money was freely used in the campaign which followed, it being estimated that the two great parties expended \$6,000,000. Blaine threw himself into the campaign for Harrison, many former Cleveland supporters deserted the Democracy, and the lowering of the tariff made an issue which united protectionists. A Republican trick, however, did much toward turning the tide of battle against Cleveland. In September George Osgoodby, of Pomona, Cal., wrote, ostensibly as an Englishman, to Lord Sackville-West, British Minister at Washington, cleverly asking the Minister's advice as to how naturalized Englishmen in the United States should vote, and reviewing the President's record of acts which Osgoodby termed "friendly to England." Lord Sackville-West fell into this decoy letter trap, and replied expressing his confidence in Cleveland and the Democracy. These letters were scattered broadcast by Republicans, and Cleveland was forced, by party pressure, to ask for the Minister's recall. It was refused, whereupon Sir Sackville-West was given his passports. This action was so strongly resented by the British Government that the British Embassy in Washington remained vacant during the rest of Cleveland's term. The November elections resulted in a substantial Republican victory, Harrison being elected, the Senate remaining Republican, and a face majority of ten in the House being secured by the Republicans.

## 1889

Two great disasters, the one of international interest, occurred in 1889. The first was on March 16-17, when a hurricane at Apia, Samoan Islands, wrecked the United States warships *Nipsic*, *Vandalia* and *Trenton*, and the German warships *Eber*, *Olga* and *Adler*. The loss of life was 146, including Captain Schoonmaker, of the *Vandalia*. The ships, with the British *Calliope*, which escaped by putting out to sea, were at Apia because of the dispute between Germany, Great Britain and the United States concerning protectorate government of the Samoans. The hurricane tragedy was so distinguished by the heroic conduct of all the officers and men, irrespective of nationality, that war talk ceased. The other extraordinary disaster of the year was the flooding of Johnstown and the Conemaugh valley, Pennsylvania, on May 31, by the breaking of a dam. The loss of life was 2,295, and the property loss was \$10,000,000. A third notable disaster was at Antwerp, Belgium, on September 6, when an explosion of dynamite cartridges killed 125 persons, wounded 300 and destroyed \$6,000,000 worth of property.

In the United States the Republican party resumed full power at Washington, when Benjamin Harrison was inaugurated President on March 4, making Blaine his Secretary of State. In January the Republican tariff bill was passed by the Senate by a strict party vote, 32 to 30. One of President Cleveland's last important official acts was to sign, on February 22, the Territorial bill, admitting North and South Dakota, Montana and Washington as States. The Oklahoma lands were opened to settlers by Presidential proclamation on April 22. President Harrison was the central figure in the centennial celebration of the inauguration of President Washington in New York City on April 29-May 1. On May 13 the United States Supreme Court affirmed the constitutionality of the Chinese Exclusion act. The Sioux Indians ceded 11,000,000 acres, their reservation in Dakota, to the United States on August 6. A congress of North, South and Central American States convened at Washington on October 2. The Dakotas, Montana and Washington Territory were admitted as States by Presidential proclamation in November. Thomas B. Reed, of Maine, was

electd Speaker of the House in the Fifty-first Congress, which opened on December 2. The principal non-political occurrences at home were: The murder of Dr. P. H. Cronin, the Irish nationalist agitator, at Chicago, and the subsequent conviction of Burke, Coughlin, O'Sullivan and Kunze, four of his alleged assassins; the annexation of Chicago's suburbs to the city; the holding, at the Mayor's office, New York, of the initial meeting for a World's Fair in 1892; the unveiling of a monument to the Pilgrim Fathers at Plymouth, Mass.; the forming of a memorial association by Union and Confederate veterans on Chickamauga battlefield September 20; the debut of Mr. and Mrs. Kendal at the Fifth Avenue Theatre, New York, October 7; the celebration at Baltimore of the Roman Catholic centenary in America and the opening of the Catholic University of America at Washington, D. C., with impressive ceremonies; the opening of the Chicago Auditorium, President Harrison and Mme. Patti assisting, December 9. In France the Boulanger troubles continued. General Boulanger fled to Belgium on April 2 to avoid the consequences of prosecution by the French Government, removing to London April 24. On August 13 the French Senate pronounced him guilty of treason and embezzlement. In February the Floquet ministry was defeated in the Chamber of Deputies and resigned, on the question of revision of the Constitution, and the Tirard ministry was installed. The Eiffel Tower, in Paris, 1,178 feet high, was opened on March 30. The centennial of the beginning of the French Revolution was celebrated in France and elsewhere May 5, and the French Universal Exposition in Paris was opened May 6. In July, at the sale of the Secretan paintings in Paris, Millet's "Angelus" sold for 553,000 francs. President Carnot unveiled at Paris a replica of the Bartholdi Statue of Liberty on July 4. The fall of the Bastille was celebrated throughout France on July 14; the French elections of Council-Generals returned 949 Republicans and 489 Conservatives. The remains of the elder Carnot were deposited in the Pantheon, Paris, August 4. The Republicans triumphed in the elections for the Chamber of Deputies in September.

In England the Lord Mayor of London gave a great banquet in honor of United States Minister Phelps in January. William O'Brien was lodged in Clonmel jail and roughly treated, refusing to wear the prison garb, in January. A month later, in the Parnell inquiry, the government witness, Richard Pigott, broke down and confessed forgery; he fled February 26, and committed suicide in Madrid March 1. Great Britain, Germany and the United States began at Berlin their conference over Samoan affairs March 29. The Marquis of Londonderry resigned the Lord-Lieutenancy of Ireland in April and was succeeded by the Earl of Zetland. The Shah of Persia was received with demonstrations in London on July 1, and on the same day in London was opened the world's Sunday-school convention. Parnell and his counsel withdrew from representation before the commission of inquiry on July 13. Mr. and Mrs. Gladstone celebrated their golden wedding on July 25. Labouchere's motion in opposition to further grants to the royal family was voted down in the House of Commons, 398 to 116. Princess Louise of Wales and the Duke of Fife were married in London on July 27. Emperor William of Germany visited England in August and witnessed a great naval review. The British and Egyptian troops defeated the Dervishers in a battle in upper Egypt on August 3. A strike of dockmen in London, which spread to 250,000 other workmen, lasted from August 22 to September 20. Happenings in other countries were: Crown Prince Rudolph of Austria committed suicide at Meyerling, near Baden. Prince Alexander of Battenberg and Marie Loisinger, opera singer, were married at Mentone; she died November 7 following. King Milan of Serbia abdicated in favor of his son March 6. A statue of Bruno, the Italian liberal philosopher, was unveiled amid a great demonstration at Rome. King Alexander I. of Serbia was consecrated at Saitchar July 2. An insurrection in Honolulu to overthrow the government was defeated July 31. Mrs. Florence Maybrick was convicted in Liverpool of the murder, by poison, of her husband. Her death sentence was commuted to penal servitude for life August 22. President Legitime abandoned Hayti, and the rival President, Hippolyte, took possession of Port-au-Prince. Floods in Japan destroyed 10,000 people in August. On October 27 Princess Sophia of Germany and the Duke of Sparta, Crown Prince of Greece, were married at Athens. On November 16 a revolution in Brazil overthrew the monarchy, banished the Emperor and his family, and established a republic. The explorer Stanley reached the eastern coast of Africa at Bagamoyo on December 3. Charles I. was proclaimed King of Portuga on December 28.

1890

The first year of the last decade of the nineteenth century was one of comparative quiet throughout the world. Two record-breaking trips around the globe, both ending in New York, were made. The first was by Nellie Bly in 72 days, 6 hours, 11 minutes and 14 seconds; the second journey was by George Francis Train, the philosopher, in 67 days, 13 hours, 13 minutes and 3 seconds. At Washington, D. C., the wife and daughter of Secretary Tracy were burned to death in February. The centenary of the Supreme Court of the United States was celebrated in New York February 4, and on the same day the Samoan treaty with Germany and Great Britain was ratified by the United States Senate. Speaker Reed's new rules were adopted by the House of Representatives, 161 to 144, February 14. Chicago was chosen by the House for the World's Columbian Exposition February 24. On March 10 the Blair Educational bill was defeated in the United States Senate, 37 to 31. The Pan-American Conference closed at Washington on April 18. Commander McCalla, U. S. N., was suspended in May for three years for cruelty to seamen. The McKinley Tariff bill passed the House of Representatives, 162 to 142, two Southern Republicans voting in the negative. Amid a great concourse from all the Southern States the statue of General Lee was unveiled at Richmond, Va., on May 29. The following day the Garfield Memorial was dedicated at Cleveland, Ohio. The corner-stone of the Washington Memorial Arch, Washington Square, New York, was laid May 30. On July 2 the Lodge Force bill passed the House of Representatives, two Southern Republicans voting in the negative. The President signed the Idaho Admission bill July 3, and the Wyoming Admission bill on July 11. The Louisiana Lottery bill was vetoed by Governor Nichols, of Louisiana. The New Croton Aqueduct was opened in New York on July 15. William Kemmler, the first victim of the new electrocution law in New York State, was executed in the electric chair in Auburn (N. Y.) prison. The United States cruiser Baltimore sailed on August 25 for Sweden with the body of Captain Ericsson; the remains were received with imposing ceremonies at Stockholm September 16. The Senate passed the McKinley Tariff bill, 33 to 27; the President signed it the next day, when the first session of the Fifty-first Congress ended. The President of the Mormon Church, on October 6, published a decree forbidding plural marriages of Mormons in the future. On October 8 Chief of Police Hennessy, of New Orleans, was assassinated by Italians, some of them members of the Mafia; later the murder led to international complications. The House of Representatives, by a vote of 139 to 95, passed the International Copyright bill December 3. King Kalakaua of Hawaii landed at San Francisco December 4. The Sioux Indians in South Dakota made trouble in December. In one of the skirmishes with soldiers the noted chief, Sitting Bull, was killed, and in another Captain Wallace and several United States soldiers were slain.

The record of the year abroad was: A federation conference of the Australian colonies was held at Melbourne February 6. The young Duke of Orleans visited Paris and was arrested and imprisoned February 7; he was pardoned by President Carnot June 7 and escorted out of France. The railway bridge across the Forth, 8,269 feet long, was opened to traffic. The Tirard ministry in France resigned March 14 and the Freycinet ministry was installed. Prince Bismarck resigned the German Chancellorship March 17. The Government Irish Land Purchase bill was brought forward by Mr. Balfour, Chief Secretary for Ireland. On June 18 the British and German treaty, settling their African claims and ceding Heligoland by England to Germany, was made public. The city of Fort-de-France, Martinique, was nearly destroyed by fire June 22. On the same day the sudden death of President Menendez, of Salvador, was followed by a revolution, and General Ezeta seized the government. The new Constitution was promulgated in Brazil June 23. Major Panitza was executed at Sofia, Bulgaria, for conspiring against the government June 28. Henry M. Stanley and Miss Dorothy Tennant were married in Westminster Abbey July 12. From July 15 to August 31, when peace was finally proclaimed, hostilities existed between Salvador and Guatemala, during which several battles were fought with Salvadorean victories. An insurrection against the government broke out in Buenos Ayres on July 26, and peace was promptly restored by concession to the revolutionists. The Armenian Cathedral in Constantinople was mobbed by Mohammedans July 28. Emperor

William of Germany visited Queen Victoria at Osborne August 4; later he visited other crowned heads of Europe. President Celman, of the Argentine Confederation, resigned, and was succeeded by Senor Pellegrini. The German Emperor formally took possession of Heligoland on August 10. General Barrundia, the Guatemalan refugee, was killed by Guatemalan officers on the American steamer Acapulco at San Jose August 22. In Switzerland a revolution broke out in the canton of Ticino September 11. Fire partially destroyed the famous palace of the Alhambra in Spain September 16. The Portuguese Cabinet resigned September 17. In Ireland, Home Rulers John Dillon and William O'Brien were arrested for advising tenants not to pay rents September 18; they soon after escaped to New York. Von Moltke's ninetieth birthday was celebrated in Germany October 26. The first Japanese Parliament was opened November 1. The attention of the world was arrested on November 4 by the publication of the statement of Professor Koch concerning his remedy for tuberculosis. A revolt against President Bogran in Honduras was suppressed with the aid of American residents November 9, and the rebel leader, Sanchez, was killed. The British torpedo cruiser *Serpent* was wrecked on the Spanish coast with a loss of 173 lives November 10. A divorce was granted November 17 to Captain O'Shea from his wife, who deserted him for Charles Stewart Parnell. The scandal was disastrous to Parnell. Although he was re-elected leader of the Irish National party on November 25, he was deserted by Justin McCarthy and forty-four other Irish Members of Parliament, who elected McCarthy leader on December 6. General Seliverskoff, Russian agent at Paris, was assassinated at his hotel November 19. At Kilkenny, on December 24, the opponents of Parnell triumphed in electing Sir John Pope Hennessy to Parliament by 1,171 majority. On December 30 the leaders of the Irish faction began a conference at Boulogne.

## 1891

Little Chile frequently occupied the centre of the international stage in 1891. On January 7 a part of the Chilean navy revolted against the Balmaceda government, when President Balmaceda assumed the dictatorship of the country. On May 7 the Chilean steamer *Itata* escaped from the harbor of San Diego, Cal., while in charge of a United States marshal, but on June 4 she surrendered to United States naval vessels at Iquique. Balmaceda's army was finally defeated at Vina del Mar, Chile, on August 28, the insurgents took Santiago August 31, and the new Chilean Government was recognized by the United States September 7. On September 19 ex-President Balmaceda committed suicide. The United States Government, on October 26, demanded reparation from Chile for the assault on the crew of the war steamer *Baltimore* in Valparaiso on October 17, two being killed and eighteen hurt. Other warlike events of the year were: The termination of the Indian wars in Northwestern America by the surrender of the hostiles January 15; the suppression of a Republican uprising at Oporto, Portugal, January 31; the defeat of Osman Digna by the Egyptians at Tokar February 19; insurrectionary troubles in Buenos Ayres, following the election of General de Fonseca, March 2. He proclaimed himself Dictator November 5, but resigned November 19. In New Orleans the lynching of eleven Italians by citizens in revenge for the murder of Chief of Police Hennessy led to talk of war between the United States and Italy. Baron Fava, the Italian Minister at Washington, was recalled, and the trouble was finally settled by the payment of an indemnity of \$25,000 to the families of the sufferers. Secretary of State Blaine did not regard the indemnity as a right, but as a courteous redress. He also boldly refused "to recognize the right of any government to tell the United States what it should do," adding, "we have never received orders from any foreign power, and shall not begin now." On March 30 the Manipur tribes massacred 400 Goorkhas troops at Assam; ten days later a large force of Manipurs were defeated by the British under Lieutenant Grant, but on April 13 Mr. Qupton and other British officials were murdered and mutilated at Manipur. By order of President Hippolyte there were many executions in Hayti on June 8. A British naval force landed at Mitylene on September 14 and erected fortifications. France severed diplomatic relations with Bulgaria December 14. Among the incidents less warlike than the foregoing abroad were: The making public by Dr. Koch of the ingredients of his consumption lymph January 15; the announcement at the British Museum of the discovery of a

lost work by Aristotle; the formation of a new ministry in Italy with the Marquis di Ruffini as Premier February 9; the surrender of Dillon and O'Brien, the Irish Nationalists, to the English police February 12; a Conservative triumph at the general elections for Parliament in Canada March 5; the consent of France to arbitration on the Newfoundland fisheries question with the United States March 11; the sinking of the steamship Eutopia by collision in Gibraltar Bay, 571 Italian passengers drowning, March 17; the first conversation by telephone between London and Paris March 17; the Czar proclaimed the expulsion of Jews from Moscow April 22; Prince Bismarck was elected to the Reichstag May 1; Queen Natalie of Serbia was expelled from Belgrade May 19; the British Parliament passed the Behring Sea bill June 9; Sir William Gordon Cumming was convicted in England of cheating at baccarat June 9, and the next day was married to Miss Garner, a wealthy New York woman. A new Canadian ministry was formed by Premier Abbott June 16. Charles Stewart Parnell and Mrs. O'Shea were married June 25. The triple alliance of Germany, Italy and Austria was renewed for six years June 30. Emperor William of Germany visited England and was received with great demonstrations July 4-14. An attempt was made by a madman to assassinate President Carnot July 13. Lord Salisbury received the Columbian World's Fair Commissioners in England July 23. A French fleet visited Cronstadt, Russia, and was enthusiastically received July 27. The six hundredth anniversary of Swiss nationality was celebrated on August 1. The International Congress of Hygiene and Demography was opened by the Prince of Wales at St. James's Hall, London. The export of every kind of grain from Russia was prohibited August 11. Sir Hector Langevin, Canadian Minister of Public Works, resigned because of disclosures of corruption made before a Parliamentary committee. The French fleet was received with great ovations in English waters August 18-21. A hurricane and earthquake at Martinique destroyed every vessel in the harbor and cost 340 lives August 19. The "holy coat" was exposed to view in the cathedral at Treves August 20. The Meyerbeer centenary was celebrated at Berlin September 5. In San Salvador an earthquake destroyed many villages and lives September 9, and at Seville, Spain, 2,000 people were drowned by floods September 16. The first performance of "Lohengrin" was given in Paris September 16. On September 30 General Boulanger committed suicide at Brussels. Demonstrations were made against the French Catholic pilgrims at Rome on October 2. Arthur J. Balfour was appointed First Lord of the Treasury October 18. The Italian Government permitted the importation of American pork October 21. A commercial treaty was signed by Germany, Austria and Italy October 27.

In the United States the notable events of 1891, not already mentioned, were: The death of Secretary of the Treasury Windom at a Board of Trade banquet at Delmonico's, New York, after a speech, January 29. President Harrison proclaimed reciprocity with Brazil February 5. Edwin Booth played "Hamlet" in Brooklyn and bade farewell to the stage April 4. The beginning of the second century of patents in the United States was celebrated at Washington April 8. Ground was broken for the Grant Monument, New York City, with imposing ceremonies April 27. The Chinese Government notified the United States of its disapproval of Henry W. Blair, American Minister, April 28. The new Carnegie Music Hall in New York City was opened May 5. The United States Supreme Court upheld the constitutionality of the "original package" law May 25. President Harrison issued a proclamation declaring a close sealing season in Behring Sea June 15. A commercial treaty between the United States and Spain was made public June 26. An inland lake appeared in the Colorado desert June 29. The reciprocity treaty with San Domingo was made public August 1. The new lands in Oklahoma were opened to settlers September 22. The Leland Stanford, Jr., University at Palo Alto, Cal., was opened. Phillips Brooks was consecrated Bishop of Massachusetts October 14. The New York Presbytery acquitted the Rev. Dr. Briggs of heresy October 4. A memorial meeting in honor of Charles Stewart Parnell was held in New York November 15. Norcross, a Boston lunatic, attempted to assassinate Russell Sage in New York by exploding a bomb December 4.

## 1892

The United States, in 1892, went through the throes of another presidential campaign, in which the tariff was the issue. The Republicans, at Minneapolis in June, renominated

President Harrison on the first ballot, he receiving 535 votes to 182 for Blaine, 182 for McKinley and 4 for Speaker Reed. Whitelaw Reid, of New York, was unanimously nominated for Vice-President. The Democrats, at Chicago in June, nominated Grover Cleveland on the first ballot, with Adlai E. Stevenson for Vice-President. David B. Hill, of New York, who received 114 votes, and Horace Boies, of Iowa, with 103 votes, were Cleveland's chief opponents for the Presidential nomination, he receiving 617 ballots. In the election on November 8, out of a popular vote of 12,110,636, Cleveland received 5,556,533; Harrison, 5,175,577. The electoral vote stood: Cleveland, 277; Harrison, 145; Weaver, People's candidate, 22, he carrying Colorado, Idaho, Kansas and Nevada, and getting one electoral vote in North Dakota and one in Nevada. Weaver's votes were obtained by fusion with the Democrats. Practically universal peace prevailed throughout 1892, and there were few radical departures from humdrum national existence anywhere. Tiny Honduras had a revolution in August, and in October a Venezuelan revolution triumphed in a battle won by General Crespo. The world, however, wagged on like a well regulated pendulum. On January 25 Chile withdrew the offensive note by Minister Matta to the United States and apologized for the Valparaiso riots. The United States calmed Italy's ire over the New Orleans "Mafia riots" by paying \$25,000 indemnity to families of the victims. Among the noteworthy events in the United States were: The United States Supreme Court affirmed the constitutionality of the McKinley Tariff act March 1; the Senate ratified the Behring Sea arbitration treaty without opposition March 29; the United States invited other nations to a monetary conference April 21; President Harrison laid the corner-stone of the Grant Monument in New York April 27; the bridge across the Mississippi River at Memphis was opened with ceremonies May 12; Dr. Parkhurst's crusade against vice in New York, following his denunciation of New York City officials as "a damnable pack of administrating bloodhounds," was indorsed at a mass meeting at Cooper Union. A conflict between strikers and Pinkerton men at Homestead, Pa., resulted in ten killed and many wounded July 6, and led Governor Pattison to order out State troops July 9 to preserve order. The Stewart Free Silver Coinage bill was defeated in the House of Representatives, 154 to 136, July 13. Congress appropriated \$2,500,000 to be coined into memorial half dollars in aid of the World's Columbian Fair at Chicago. New York State troops were ordered to Buffalo and quelled a switchmen's strike in August. President Harrison issued a proclamation retaliatory upon Canada by establishing tolls on Sault Ste. Marie Canal August 20. To shut out the cholera the United States Government proclaimed twenty days' quarantine for all European vessels September 1, a death occurred in New York City from cholera on September 13, but the city was declared free of the disease after September 19. The discovery of America by Columbus was commemorated in New York October 9-15 by a series of celebrations, including a great military pageant October 12; in Chicago, October 20-23, there were magnificent ceremonies dedicatory of the World's Fair. A \$5,000,000 fire in Milwaukee burned over twenty-six acres October 28. The Amalgamated Association declared the strike at Homestead at an end November 20; the anarchist, Berkman, who tried to kill Manager H. C. Frick, of the Carnegie Steel Works, was sentenced to twenty-two years' imprisonment. The corner-stone of the Protestant Episcopal Cathedral of St. John the Divine, New York, was laid December 27. The Rev. Dr. McGlynn was restored to his priestly functions by the Papal delegate, Mgr. Satolli.

Abroad, in 1892, the much-mooted "unwritten law" came into prominence when Edward P. Deacon, an American, shot and killed his wife's friend, M. Abeille, in Paris February 18. On the same day Lieutenant Hetherington, U. S. N., also killed a too persistent admirer of his wife at Yokohama, Japan. The French ministry was defeated on a religious question and resigned February 18, and M. Loubet formed a new ministry February 27; a ministerial crisis in Greece occurred at the same time. An extradition treaty between France and the United States was signed at Paris March 26. At Tokio, Japan, a fire destroyed 6,000 houses on April 12. The Cafe Very, Paris, was destroyed by dynamite April 25. One thousand lives were lost through a hurricane at Mauritius April 29. The Rudjni ministry in Italy resigned May 5. An American steamer laden with grain for the starving Russians arrived at Riga May 13. The Danish King and Queen celebrated their golden wedding May 23. The Twelfth Parliament of Victoria was dissolved and elections for the new Parliament began June 28. St. John's, N. F., was nearly destroyed by fire July 9. Rava-

chol, the anarchist and dynamiter, was guillotined at Paris July 11. An avalanche from Mont Blanc destroyed villages and 200 lives July 12. The Christopher Columbus celebration began at Cadiz, Spain, July 31. The new British Parliament was opened August 4. On August 11 a vote of "no confidence" in the Conservative ministry was carried in the House of Commons, 350 to 210; the Conservative ministry thereupon resigned, and Mr. Gladstone formed a Liberal ministry. The railroad from Joppa to Jerusalem was completed September 13. On September 20 the Italian people celebrated the twenty-first anniversary of the unification of Italy. The centennial of the birth of the First Republic was celebrated in France on September 22. Stuart Knill, a Roman Catholic, was elected Lord Mayor of London September 29. The German and Austrian Emperors had a fraternal conference in Vienna October 11. The Anchor Line steamer Roumania was wrecked on the coast of Portugal, with a loss of more than 100 lives, October 28. Celebrations in honor of Luther were held at Wittenberg October 31. Anarchists caused dynamite explosions in Paris November 8. The International Monetary Conference met in Brussels November 22; on December 17 it suspended its sessions until May 13, 1893. Sir John Thompson succeeded Sir John Abbott as Canadian Premier November 25 and chose a new ministry. The investigation of the Panama Canal scandal was begun in France November 25; on this scandal issue the Loubet ministry resigned November 28, and the Ribot ministry succeeded December 5. Ferdinand de Lesseps was arrested for complicity in the canal frauds December 16; excitement was high in France; Clemenceau and Derouledé, the French political leaders, fought a bloodless duel on December 23.

## 1893

The political change in 1893 in the Washington administration by the inauguration of Mr. Cleveland as President on March 4 did not cause as much excitement as did Mr. Cleveland's first accession. Walter Q. Gresham, of Illinois, was made Secretary of State. The notable political events of the year were: The Senate confirmed the Russian extradition treaty February 8; the Hawaiian annexation treaty was returned to the State Department by the Senate at the President's request March 9; the Supreme Court declared the Geary Chinese Exclusion act to be constitutional May 15; President Cleveland called an extra session of Congress, to convene August 7, to consider the financial crisis June 30; when the extra session begun currency was selling at a premium in New York City. The House of Representatives voted to repeal the silver-purchasing clause of the Sherman act, rejecting all free coinage amendments, August 28, and on September 20 the bill to repeal the Federal Election law was reported in the House. The Senate passed the Silver Repeal bill October 30. The first Chinaman was officially deported from San Francisco August 10 for non-registration. During the year American eyes were turned frequently toward Hawaii, where Queen Liliuokalani was dethroned by revolutionists on January 16; Minister Stevens landed United States marines at Honolulu, raised the United States flag, and established a protectorate February 1; this protectorate ended April 13, when the United States forces were withdrawn by order of Commissioner Blount. Other noteworthy American incidents of 1893 were: President Harrison raised the American flag on the Atlantic liner *New York* February 22; the World's Fair at Chicago was opened by President Cleveland May 1 and continued until October 30; a \$5,000,000 fire in Boston, March 10, was followed by the burning of Tremont Temple in that city March 19; the New York Central Railroad's engine "999" raised the speed limit to 112½ miles per hour; Princess Eulalie, representative of the Spanish Government, was received with honors in New York May 18; the body of Jefferson Davis was reinterred at Richmond, Va.; the Presbyterian General Assembly suspended Dr. Briggs from the ministry June 1; the Ford Opera House in Washington, D. C., used by the Pension Record Division of the War Office, collapsed during business hours, killing twenty-one clerks and wounding many, June 9; Governor Altgeld, of Illinois, caused a furore by releasing the Haymarket anarchists from prison June 26; the Clearing-House banks of New York prevented a money panic by the loan of \$6,000,000 June 29; the South Carolina liquor dispensary law took effect July 1; Lieutenant Peary's expedition left New York for the Arctic regions July 2; by Mr. Drexel's will many public bequests and \$1,000,000 for the erection of an art gallery in Philadelphia were announced July 20;

Minneapolis had a \$2,000,000 fire, by which 1,500 people were made homeless, August 13; the resuming of work in the iron, steel and cotton mills of Pennsylvania and Massachusetts restored 20,000 men to labor August 14; 1,000 lives were lost by a cyclone in Savannah and Charleston August 28; President Cleveland opened the Pan-American Congress in Washington September 5; the Parliament of Religions began its sessions at Chicago September 11; the Cherokee strip was opened for public settlement September 16; yellow fever became epidemic at Brunswick, Ga., September 17; a disastrous cyclone raged on the Gulf coast of Louisiana, about 2,000 persons, mostly whites, being killed, and much property destroyed; the Union Pacific Railroad was placed in a receiver's hands October 13; the English yacht Valkyrie was defeated by the American yacht Vigilant in races for the America's Cup off New York harbor October 7-13; eastbound and westbound records were broken by the Cunard steamships *Lucania* and *Campama*, respectively, October 20; Mayor Carter H. Harrison, of Chicago, was assassinated October 28; F. H. Weeks, of New York, embezzler of \$1,000,000; was sent to Sing Sing prison; the new cruiser *Columbia*, U. S. N., made nearly twenty-five knots on an unofficial trip; a successful test of an electrical canal boat on the Erie Canal was made November 19; the United States Supreme Court decided the Great Lakes to be high seas November 21; a statue of Nathan Hale was unveiled in New York City by Sons of the Revolution November 25.

Abroad: Princess Marie of Edinburgh and Prince Ferdinand of Bulgaria were married January 10. The Ribot ministry in France assumed power January 10. The Pope appointed Mgr. Satolli Permanent Apostolic Delegate to the United States January 14. The Khedive of Egypt appointed a new cabinet without consulting the British Government; the next day he dismissed it under British pressure. Princess Margaret, sister of the German Emperor, and Prince Frederick Charles of Hesse were married January 25. Many persons were killed and injured and buildings demolished by an earthquake on the island of Zante. Count de Lesseps and son, MM. Fontaine, Cottu and Eiffel were found guilty of swindling in the Panama scandal trials February 9. Mr. Gladstone introduced the Home Rule bill in the British House of Commons February 13. The Pope's Episcopal jubilee was celebrated February 19. The Mayor of Moscow was assassinated March 21. The Behring Sea arbitration court opened in Paris March 23. Spurgeon's son succeeded him in the Tabernacle pulpit, London, March 29. Brazilian revolutionists defeated the Castilhistas and massacred 4,000 men at Alegrete April 5. Japan seized the Pellew Islands in the North Pacific April 11. The English, Scottish and Australian Chartered Bank of London failed, with liabilities of \$30,000,000, April 12. A complete Syrian text of the four gospels of the New Testament was discovered in the Mount Sinai Convent April 12. Alexander, the young King of Servia, by a coup d'etat, established his authority. The Australian Joint Stock Bank failed for £13,000,000 sterling April 20. Mr. Gladstone offered the Poet Laureateship to John Ruskin May 8. The Earl of Aberdeen became Governor-General of Canada May 11. Fifty villages were destroyed and many lives lost by floods in Austria June 7. On June 23 the sympathetic attention of the universe was extended to England when the English battleship *Victoria* collided with the *Camperdown* off Tripoli, Syria, and sank, with 400 officers and seamen, among others, Vice-Admiral Sir George Tryon, the fleet commander. India closed her mints to free coinage of silver June 25. There was rioting in Paris by students and afterward by the disorderly classes July 3-4. The Duke of York and Princess Mary of Teck were married in London July 6. Great disorders and fighting in the House of Commons occurred July 27. The French Cabinet accepted Siam's surrender of territorial rights July 30. The Behring Sea Court of Arbitration denied the right of the United States to a closed sea August 15. The House of Lords rejected the Home Rule bill September 8. The Brazilian rebel fleet began the bombardment of Rio de Janeiro September 13. The Matabele tribe, under Lobengula, attacked the British strongholds near Victoria, South Africa, October 3. The President of Guatemala dissolved Congress and declared himself Dictator October 13. Russian naval officers were feted in France October 15-20. A cargo of dynamite exploded in the harbor of Santander, Spain, killing and wounding at least 1,000 persons, while more than 100 houses were burned, November 4. Thirty persons were killed and eighty injured by a bomb thrown by anarchists in a Barcelona theatre November 8. One of the insurgents' best warships was sunk in Rio harbor by Peixoto's guns. An anarchist exploded a bomb in the French Chamber of Deputies December 9.

1894

The red hand of war, disorder and disaster dropped blood upon the pages of the record of 1894. Chief among the conflicts was a sanguinary struggle between Japan and China. On June 30 Korea declared its independence of China and invoked Japanese aid. On July 2 insurgents defeated the Korean Government troops, and war between Japan and China was imminent, Japan having insisted on needed reforms in Korea. War was finally declared July 27, and the King of Korea was held a prisoner by Japan. There was a great battle at Ping Yang between the Japanese forces and the Chinese September 15; 16,000 Chinese troops were killed, wounded and captured, while the Japanese losses were trifling. On November 21 there was an awful massacre of Chinese by the Japanese troops at Port Arthur. This was raging as the year closed. In Russia, January 2, Catholics were massacred at Krosche by Cossack soldiers, 100 being killed. A Sicilian revolution was crushed by government troops January 15. The Umzizi tribe near Cape Town, Africa, killed 250 blacks in battle January 15. Pillaging and rioting followed the destruction of Jeremie, Hayti, by fire January 20. The United States flag was fired on in Rio harbor by the insurgents engaged in the Brazilian war January 30; prompt satisfaction was exacted by Admiral Benham. Information was received February 3 of the slaughter of French troops by Africans near Timbuctoo, in the Soudan. At Yuzzat, Turkey, 125 Armenians were killed and 340 were wounded February 14. Many British sailors and marines were killed by native tribes on the West Coast of Africa February 24. On the same day the war in Honduras ended, when the capital city, Tegucigalpa, capitulated to the Nicaraguans. A British force of thirty-four men was slain by Abor tribesmen in Assam, India, March 9. The war in Brazil was ended March 13 by the final surrender of the rebel forces to President Peixoto, who extended executive clemency to the Rio rebels. Hundreds were killed and thousands were wounded in a battle at Bornu, in the Central Soudan, April 2. Diplomatic relations between Brazil and Portugal were broken off May 14, war being threatened. In the defeat of the government troops in Salvador 600 men were slain June 3. President Carnot, of France, was assassinated while driving through the streets of Lyons June 4 by one Santo, who was captured and later beheaded. More than 6,000 Armenian Christians were massacred by Turks in Kurdistan November 16. The great disasters in 1894 were: The World's Fair buildings in Chicago were burned, with \$2,000,000 loss, January 8; the famous Mosque of Damascus was destroyed by fire January 15; on the same day was received news of the loss of the lives of 300 women and children by fire in the Ningpoo Temple, China; the Cauca valley, South America, was inundated by the most destructive flood of the century January 25; on the same day came information of the complete annihilation by earthquake of the town of Kuchan, Persia, 12,000 persons being killed and 20,000 cattle being destroyed; the wrecking of the bark Port Yarrock, in Brandon Bay, Ireland, drowned twenty-five men January 29; the United States warship Kearsarge, famous as the destroyer of the Alabama, was wrecked on Roncador Reef February 2; thirteen miners were entombed in the shattered Gaylord mine, Plymouth, Pa., February 13; forty German sailors were killed by a boiler explosion on the cruiser Bradenburg at Kiel February 16; eighteen persons were killed and seven injured by a dynamite explosion at Santander, Spain, March 23; more than 1,000 buildings were destroyed by fire in Shanghai, China, by fire April 4, and 1,000 persons were drowned in a rising of the Han River, China, April 21; an earthquake near Athens, Greece, killed 227 persons April 23; thirty-seven miners were killed at Franklin, Wash., April 24; fifty pleasure seekers were drowned by a crowded pier giving way at Brohlov, Roumania, April 30; Merida, Egidio and several villages in Venezuela were destroyed by earthquake, and about 11,000 persons were killed May 9; 2,000 persons were made homeless by fire in Boston, which burned over twenty acres and destroyed 177 buildings, May 15; at Karwin, Silesia 200 miners were killed January 15; an attempt was made to assassinate Premier Crispi, of Italy, June 21, on the same day many persons were killed by an earthquake at Yokohama and Tokio, Japan; about 250 miners were killed at Cardiff, Wales, June 23; by the foundering of the tugboat Nichol off Sandy Hook, N. J., forty-two persons were drowned; nearly 200 persons were drowned by a ferryboat accident at Budapest, Hungary, July 4; Constantinople was shaken by an earthquake July 10, more than 1,000 persons being killed; many negro miners in Alabama were slaughtered by strikers July 16; great fires in Wisconsin killed many persons July 28; a disastrous fire in Chicago

destroyed \$3,000,000 worth of property August 1; 100,000 people were killed by a storm along the coast of the Sea of Azov, Russia, August 26; a great fire raged among the flower-boats on the Canton River, China, and 1,000 natives perished August 31; at Hinckley and other Minnesota towns 500 perished in an awful conflagration September 2; by the wreck of the steamer Wairarapa off the New Zealand coast 134 persons were drowned November 1; an earthquake in Southern Italy and Sicily cost many lives November 16; at a Christmas festival at Silver Lake, Ore., forty persons perished by fire December 29; the Delevan House, Albany, N. Y., was burned December 30 and sixteen lives were lost.

General events abroad which excited worldwide interest were: The Manchester Ship Canal, England, was opened to traffic January 1; Emperor William of Germany became reconciled to Prince Bismarck, and there was great rejoicing in Berlin and elsewhere January 26; Russia yielded to England in the Pamir dispute January 31; Prudente Moraes was elected President of Brazil March 1; Mr. Gladstone resigned as Prime Minister of England March 2, and Lord Rosebery was appointed Premier March 3; Labouchere's motion to abrogate the veto power of the House of Lords was adopted in the House of Commons March 13; a funeral procession five miles long followed the body of Louis Kossuth, the patriot, to his grave in Budapest, Hungary, April 1; announcement was made April 20 of the betrothal of Grand Duke Nicholas, Czarewitch of Russia, to the Princess Alix of Hesse; President Gonzales, of Paraguay, was deposed and banished June 9; M. Casimir-Perier was elected President of France June 27; the Hawaiian Republic was proclaimed July 4; the French Senate passed the Anti-Anarchist bill by a vote of 205 to 35 July 27; the new serum cure, antitoxine, for diphtheria, was announced by Dr. Roux, of Paris, November 1; Nicholas II. was proclaimed Emperor of Russia November 2, succeeding Alexander III., who died November 1; a financial panic in Newfoundland December 10 paralyzed the business interests of the colony and caused the resignation of the Government; Sir John Thompson, Premier of Canada, died suddenly while a guest of Queen Victoria, and Mackenzie Bowell was appointed in his stead December 12. In the United States in 1894 labor troubles were frequent and serious. At Columbus, O., 136,000 coal miners were ordered to strike for more wages April 20. Coxey's "army" of unemployed invaded Washington, D. C., on April 29. A boycott was declared June 25 by the American Railway Union against the Pullman Palace Car Company, which resulted in the stopping of railroad traffic in the West and affected nearly 50,000 miles of railroads; the United States Court issued an injunction to prevent interference with railroad trains by strikers July 2. On July 6 United States deputy marshals, at Kensington, Ill., near Chicago, fired on strikers, killing two and injuring others; much railroad property was burned by mobs in Chicago. The American Railway Union strike was declared off July 13. Sixty-eight factories closed at Fall River, Mass., August 13, and more than 22,000 were made idle thereby. In New York City 12,000 tailors struck against the task-work system September 4. Eugene V. Debs, the labor leader, was sentenced to six months' imprisonment for contempt of court during the great railroad strike December 4. In New York City Police Captain Schmittberger testified, before the Lexow Investigating Committee, of great corruption in the New York Police Department; Captain Stephenson, of the police, had already been convicted of receiving a bribe, and Captain Creedon testified to paying \$15,000 for a police captaincy. Captains Stephenson, Cross, Doherty and Devery were dismissed from the force. Politically, at home, the principal events of interest included the passing of the Wilson Tariff and Income Tax bills by the House of Representatives; the passing of the Bland Coinage bill by the United States Senate, 44 to 31; a legislative deadlock in New Jersey from January 9 to March 21, with two Senates, both Democrats and Republicans, claiming legal organization, until the United States Supreme Court decided in favor of the Republicans; the Greater New York bill was signed by the Governor, making it the second largest city on earth, February 28; the New York and New Jersey Bridge bill was signed by President Cleveland June 8; the United States Government obtained proofs of armor-plate frauds June 29; President Cleveland signed the Enabling act, making Utah a State, July 17; Senator Gorman assailed the President in a speech, impugning the President's honor, July 23; the Hawaiian Republic was officially recognized by the United States Government August 9; the new tariff law became a law without President Cleveland's signature August 27; a new treaty between the United States and Japan was proclaimed December 9. A noted defalcation of the year was that of Samuel C. Seeley, a bookkeeper of the National Shoe and Leather Bank of New York, who robbed the institution named of \$354,000.

1895

The civilized world stood aghast through 1895 at the flow of blood of Armenian Christians, it being estimated that the Turks and Kurds massacred 30,000 and plundered and rendered homeless more than 200,000 Armenians; the humanity of nations was shocked, but interference was slight. China and Japan continued their warfare. The Japanese captured Wei-Hai-Wei January 31; on March 5 they captured New-chwang, after a thirteen hours' battle; the Chinese Government notified Japan of its wish to treat for peace March 10; on March 14 the Chinese peace envoy embarked for Japan, and the conferences were begun at Shimonoseki March 21; on March 24 a Japanese attempted to assassinate Li Hung Chang, the Chinese envoy, at Shimonoseki; a cessation of hostilities between Japan and China was ordered by the Mikado March 29; on April 24 the Russian, French and German governments protested against the acquisition of Chinese territory by Japan; a treaty of peace between Japan and China, concluded April 17, was ratified at Chefoo May 8, thus ending the war of nearly ten months' duration. Other nations, too, had their troubles. A Royalist outbreak at Honolulu was suppressed by the Dole Government, and the leaders were arrested January 8; ex-Queen Lilioukalani formally renounced her right to the throne of Hawaii; on February 28 she was sentenced by the Dole Government to five years' imprisonment for conspiring against the Republic. The boundary dispute between Brazil and the Argentine Republic was settled by President Cleveland, in favor of Brazil, February 6. On February 20 was begun the Cuban revolution, by simultaneous risings in different parts of the island, and from which developed the Spanish-American war and Cuban independence, a topic exhaustively treated elsewhere on these pages. In April the British expedition to Chitral gained several victories over the natives. On April 28 the British naval forces took possession of the Nicaraguan custom-house at Cominto; the forces were withdrawn upon the agreement of the Nicaraguan Government to pay indemnity. A revolt in the island of Formosa broke out and a so-called republic was set up May 15; the British Government announced a protectorate for Uganda, Central Africa, June 13; the Chinese massacred English missionaries at Whasang August 1; a revolution in Ecuador terminated August 27 by the triumph of Gen. Elvy Alfaro; the French army, under General Duchesne, captured Antananarivo, Madagascar, and the Queen and her husband fled, September 27; the Queen of Korea was murdered in her palace at Seoul October 1. Less warlike incidents than the foregoing abroad were: Casimir-Perier resigned the Presidency of the French Republic January 15, and on January 17 Felix Faure was elected to succeed him by the National Assembly at Versailles. The North German Lloyd steamship *Elbe* was sunk by collision in the English Channel and more than 300 lives were lost January 30. William Court Gully, the Liberal candidate, was elected Speaker of the House of Commons April 10. The opening of the Baltic Canal was celebrated by the Germans, with the warships of all maritime nations as guests, June 19. The Rosebery Liberal ministry in England resigned, having been defeated in the House of Commons on the war estimates by a vote of 132 to 125 June 22; the Marquis of Salisbury accepted the British Premiership and formed a Conservative ministry June 24; the British Parliamentary elections, June 12-August 10, resulted in the return of 338 Conservatives, 177 Liberals, 73 Unionists, 70 McCarthyites and 12 Parnellites. On August 16 Viscount Wolseley succeeded the Duke of Cambridge as Commander-in-Chief of the British Army. The twenty-fifth anniversary of the entrance of Garibaldi into Rome was celebrated by the Italians September 20, and a statue of Garibaldi was unveiled at Rome. The Peary Arctic relief expedition left St. Johns, N. F., on its return home, September 21. The Ribot ministry in France resigned October 28, and the Bourgeois ministry succeeded November 1. The bronze group, "Washington and Lafayette," by Bartholdi, presented to the city of Paris by Joseph Pulitzer, was unveiled in the Rue des Etats Unis with appropriate ceremonies December 2.

In the United States the year 1895 was comparatively quiet. President Cleveland, on January 28, sent a message to Congress on the financial affairs of the Government, and asked authority to issue gold bonds; on February 8 he informed Congress of arrangements made with the bankers' syndicate to take an issue of \$62,400,000 government bonds. On May 20 the Supreme Court of the United States, by a vote of 5 to 4, declared the whole Income Tax law null and void. Secretary Carlisle spoke against the free coinage of silver

at the Sound Money Convention at Memphis May 23. A monument to the Confederate dead was dedicated in Oakwoods Cemetery, Chicago, May 30. The Harlem Ship Canal, New York City, was opened with ceremonies July 17. The Cotton States and International Exposition at Atlanta was opened, President Cleveland setting the machinery in motion by wire from Gray Gables, his summer home, in Massachusetts; the exposition closed December 31. The National Park, on the site of the Chickamauga battle ground, Tennessee, was dedicated by a great gathering of Union and Confederate veterans September 19. At Chicago, on September 27, was organized the Irish National Convention, to free Ireland from Great Britain by physical force. Major-General Miles assumed command of the United States Army October 5, succeeding Lieutenant-General Schofield, who retired because of having reached the age limit.

## 1896

The year 1896 brought to the people of the United States another lively Presidential campaign. The Republican National Convention at St. Louis, June 18, nominated William McKinley, of Ohio, for President on the first ballot, he receiving 661½ votes out of 922, the rest being given to Thomas B. Reed, of Maine; Senator Quay, of Pennsylvania; Levi P. Morton, of New York, and Senator Allison, of Iowa. For Vice-President, Garret A. Hobart, of New Jersey, was nominated on the first ballot. The Democratic National Convention at Chicago, July 10, nominated William J. Bryan, of Nebraska, on the fifth ballot, his leading opponents being: Bland, Missouri; Boies, Iowa; Pattison, Pennsylvania, and Blackburn, Kentucky. The Vice-Presidential nomination went on the fifth ballot to Arthur Sewall, of Maine. The People's Party National Convention at St. Louis indorsed Bryan, but Gold Democrats, under the title of the National Democracy, met at Indianapolis, September 3, and nominated Senator John M. Palmer for President and Gen. Simon B. Buckner, of Kentucky, for Vice-President. The Bryanites fought hard for the free coinage of silver at the ratio of 16 to 1, while the Republicans battled for the maintenance of the gold standard. McKinley won a signal victory, receiving 601,854 popular votes over Bryan and 286,452 over all. McKinley's electoral vote over Bryan was 95. The total popular vote of 1896 was 13,923,102. The final year of President Cleveland's administration was marked by his announcement of the members of the Venezuelan Boundary Commission January 1; a call by Secretary Carlisle, January 6, for bids for \$100,000,000 bonds as a popular loan; the making public of the Venezuelan Arbitration correspondence between Secretary Olney and the Marquis of Salisbury July 17; the President's proclamation of warning to Cuban filibusters July 30; the reception of Li Hung Chang, the Chinese statesman, by President Cleveland August 29. Abroad, apart from the stirring revolution in Cuba, a notable incident was the raiding of the Transvaal Republic by the British under Dr. Jameson, the invaders being defeated in battle January 1, upon which the German Emperor congratulated President Kruger; on January 5 Cecil Rhodes resigned the Premiership of Cape Colony; on April 28 John Hays Hammond and other Johannesburg reformers were convicted of high treason in the Transvaal Republic and sentenced to death, but they were subsequently banished.

In other nations, noteworthy happenings of 1896 were: The formal annexation of Madagascar by France was announced January 23; ex-Queen Liliuokalani, of Hawaii, was pardoned by the Government February 5; Ballington Booth, who was displaced from the command of the American Salvation Army, declared his independence February 24; mobs assailed the United States Consulate at Barcelona, Spain, March 2; on the same day the Italian army was disastrously defeated by the King of Abyssinia; the Bourgeois ministry in Paris resigned April 23 and was succeeded by the Méline ministry April 28; the Persian Shah, Nasir-ed-Din, was assassinated at Teheran May 1; on the same date the new Canadian ministry, under Sir Charles Tupper, assumed office; on May 26 the Emperor and Empress of Russia were crowned at Moscow; on May 29 2,000 people were killed at Moscow during coronation festivities by a disaster; the Cape Colony steamship Drummond Castle was wrecked on the French coast, with a loss of 250 lives, June 16; England gave a warm welcome to the Ancient and Honorable Artillery Company of Boston July 8; Porfirio Diaz, of Mexico, was re-elected President of Mexico without opposition July 13; an attempt was made to assassinate President Faure, of France, in Paris July 14; the trial of Dr. Jameson and his fellow raiders in the Transvaal was begun in London July 20; they were convicted

July 28 and sentenced to various terms of imprisonment; a commercial treaty between China and Japan was signed July 21; on the same date the one hundredth anniversary of the death of Robert Burns was celebrated at Dumfries, Scotland, where he is buried; Rev. Sebastian Martinelli was appointed Papal Delegate in the United States by the Pope July 30; Nansen, Arctic explorer, arrived at Vordoe, Norway, on return, August 13; the German Emperor's yacht Meteor collided with the yacht Isolde at the South Sea regatta, England, and the owner of the Isolde was killed August 18; the rebellious Matabeles in South Africa submitted to the British August 22; the British fleet bombarded Zanzibar and deposed the usurping Sultan August 27; P. J. P. Tynan, the Fenian agitator, known as "No. 1," was arrested at Boulogne September 12; Dongola, in the Soudan, was captured by the Anglo-Egyptian expedition September 19; the Russian Emperor and Empress visited Scotland and France in September and October; the Peary expedition arrived at Sydney, C. B., from Greenland September 26; the Earl of Rosebery resigned the leadership of the Liberal party October 7. In the United States the Confederate States' Museum at Richmond, Va., was dedicated February 22; receivers for the Baltimore and Ohio Railroad were appointed February 29; Earl Dunraven was expelled from the New York Yacht Club February 27, after the club's investigating committee had declared unfounded his charges of unfairness against the owners of the yacht Defender; the International Arbitration Congress met at Washington April 22; the centenary of the settlement of Cleveland, O., was celebrated July 22; a hurricane across Florida destroyed many lives and much property October 22.

## 1897

While the Spanish-American war cloud was beginning to cast its shadow over the United States in 1897, and American sympathy with Cuba was becoming daily more apparent, other events attracted a full share of public interest. Congress counted the electoral vote on February 10, formally choosing McKinley and Hobart President and Vice-President, respectively, and they were inaugurated March 4. Previous to that, a treaty of arbitration between the United States and Great Britain was signed at Washington by Secretary Olney and Ambassador Pauncefoot January 11; the National Monetary Conference met at Indianapolis January 12; the bill to regulate immigration was passed by the United States House of Representatives, 217 to 37, on February 9, but was vetoed by President Cleveland. The new Corcoran Art Gallery at Washington, D. C., was opened to the public February 22; Mayor Strong vetoed the Greater New York Charter bill April 9; notwithstanding this veto, it passed the New York State Senate April 13, by a vote of 34 to 10, the Assembly having previously passed it, 106 to 32. Memorial services at the dedication of the new tomb of General Grant, New York, were accompanied by a great military and naval display April 27. The Tennessee Centennial Exposition was formally opened May 1. The Congress of the Universal Postal Union opened at Washington, D. C., May 2. Fire at Pittsburgh, Pa., destroyed \$3,000,000 worth of property May 3. The United States Senate rejected the treaty of arbitration with Great Britain May 5. The bi-centennial jubilee of Trinity Church, New York, was celebrated May 6. The United States Supreme Court decided the Berliner patent case in favor of the Bell Telephone Company May 10. The Washington statuery of the Pennsylvania Society of the Cincinnati was unveiled by the President amid extensive ceremonies May 15. A chess match was played by telegraph between members of the United States House of Representatives and British House of Commons May 31. The International Commercial Conference at Philadelphia was opened by President McKinley June 2. The Venezuela boundary treaty between Great Britain and Venezuela was ratified at Washington June 14. President McKinley signed the new tariff act July 24. Wheat touched the dollar mark at the Produce Exchange, New York, and went above, August 20. A treaty of annexation to the United States was unanimously ratified by the Hawaiian Senate September 14. Secretary of State Sherman and Lord Salisbury, British Foreign Minister, held correspondence over the Behring Sea seal question October 4-12. The Yerkes telescope was formally dedicated to science at Lake Geneva, Wis., October 21. A treaty to protect the seals in Behring Sea was signed at Washington by representatives of the United States, Russia and Japan. President McKinley signed the treaty adopted by the Universal Postal Congress November 16. Yellow fever returns to the Surgeon-General of the Marine Hospital Service at Washington showed that since the epidemic broke out on the Mississippi coast

there were 4,286 cases of fever, of which 446 were fatal. Of these cases 1,837 were in New Orleans, where 14½ per cent. of the cases died.

Important affairs abroad in 1897, apart from those connected with the Cuban revolution, were: A British trading expedition was murdered by the King of Benin, Central Africa, January 6. Count Muravieff was appointed Russian Minister of Foreign Affairs January 10. A Greek squadron arrived at Canea, Crete, and the union of Greece and Crete was proclaimed at Halepa February 8; on February 21 the insurgents at Canea, Crete, were bombarded by the fleet of the Powers; the next day Fort Voukouleis, in Crete, was captured from the Turks by Greek troops; the Powers ordered Greece to withdraw from Crete February 23, and on March 21 the blockade of Crete by the Powers' fleets began; the Turks and Christians fought near Malaxa, Crete, on March 25; Turkey declared war against Greece April 17, and on the following day the Greek Legislative Assembly declared its acceptance of such war; the Turks captured Domokos, in Thessaly, after a sanguinary battle in Milouna Pass, April 24; the Delyannis ministry in Greece resigned and was succeeded by the Ralli ministry April 29; the Turks occupied Pharsalos, after a battle, May 6; Volo was occupied by the Turkish army May 8; the representatives of the Powers intervened in the war May 11, and Greece accepted their terms and ordered the withdrawal of her forces from Crete; Turkey agreed to an armistice with Greece May 18, and a treaty of peace between the two warring nations was finally signed at Constantinople September 18. Japan adopted a gold standard March 1. Queen Ranavalona III., of Madagascar, was exiled by the French conquerors of the island March 7. Emperor William unveiled a statue of his grandfather on the centenary of the latter at Berlin March 22. The massacre of 700 Armenians at Takat, in Anatolia, was reported March 25. The Congress in Venezuela ratified the boundary arbitration treaty with Great Britain April 5. Peru suspended the coinage of silver April 9. An attempt was made to assassinate King Humbert of Italy at Rome April 22. The log of the *Mayflower* was transferred from British possession to the American Ambassador at London May 9. The plague ravaged Bombay, India, in May and June. By the burning of a charity bazaar in Rue Jean Goujon, Paris, some 180 persons, mostly of the French aristocracy, lost their lives May 4. The French line steamship *Ville de St. Nazaire* foundered at sea off Cape Hatteras, with a loss of many lives, May 7. The Brussels Exposition was opened May 10. A memorial bust of Sir Walter Scott was unveiled in Westminster Abbey May 21. Cambridge University refused to confer degrees on women by a vote of 1,713 to 662 May 30. A bomb was exploded near the carriage of President Faure, in France, June 13. Queen Victoria began the celebration of her jubilee, which was observed throughout the British Empire; services were held in St. Paul's Cathedral, and there was a great naval review near Portsmouth in honor of the occasion. The Pan-Anglican Conference of the Church of England and Episcopal Bishops began at Lambeth, England, forty-five American Bishops being in attendance, June 30. Herr Andree, with two companions, started in a balloon from the Island of Fromsøe for the discovery of the North Pole July 11. Great Britain cancelled its commercial treaty with the German Zollverein July 30. A tidal wave destroyed many towns and thousands of lives on the coast of Japan August 5 and 6. Senor Canovas, Prime Minister of Spain, was assassinated by an anarchist August 8. The Emperor and Empress of Germany visited Russia as the guests of the nation August 8-11. The Anglo-Egyptian army captured Abu-Hamid on the Nile August 9. The surrender of the King of Benin, Central Africa, to the British was announced August 11. Prince Henry of Orleans and the Count of Turin fought a duel with swords near Paris, both being wounded, August 15. President Faure, of France, visited St. Petersburg and was entertained with enthusiasm August 23-27. President Borda, of Uruguay, was assassinated at Montevideo August 25; on the same day it was reported that a treaty offensive and defensive between Russia and France was signed at St. Petersburg. An attempt was made to kill President Diaz, of Mexico, September 15, and the assailant was hacked to pieces by a mob. There was severe fighting on the border of Afghanistan between the British and tribesmen September 16-20. A hurricane in the South Pacific Ocean destroyed many thousand lives October 12. The British troops stormed Dargai Ridge, or the Samana range, northern frontier of India, driving out the tribesmen; the Gordon Highlanders suffering severely, October 20. An attempt was made at Rio de Janeiro to assassinate President Moraes November 6. General Westmacott's column in the Maidan valley, northern frontier of India, met with a severe reverse November 10. A German naval expedition occupied Kiaochow, China, in retaliation for the massacre of German missionaries, November 15-16.

A great fire in the Cripplegate quarter of London, destroyed \$10,000,000 worth of property November 19. The Austrian ministry resigned, after disorders in the Reichsrath, November 28.

## 1898

The entire civilized world watched, in 1898, the Spanish-American war (see special article on the following page), and drew lessons from its incidental developments and consequences. Especially were the war and navy departments of the universe keenly interested in the methods and results of the battles on land and sea, while the question of American expansion and other future policies entered largely into the brief struggle which resulted so disastrously to Spain. Other events of international interest and of a warlike nature were: Gen. Joaquin Chespo, ex-President of Venezuela, was killed in battle with the insurgents April 18; the Venezuelan revolution was ended by the capture of General Hernandez June 12; Fashoda, on the White Nile, was occupied by Major Marchand and a French force September 1; Sir Herbert Kitchener, commanding the British and Egyptian army in the Soudan, won a great victory over the Dervishers at Omdurman, near Khartoum, which he occupied, September 2; a Mohammedan outbreak in Crete was followed by a massacre of Christians and a bombardment of Candia by the Powers September 6; there were strained relations in Crete between the Turks and the warships of the Powers September 9-14; General Kitchener took possession of Fashoda and raised the British flag over it, despite the presence of the French occupants, September 20; diplomatic relations between Italy and Colombia were severed September 22; Chile and Argentina agreed to submit their boundary dispute to arbitration, thus averting war, September 23; Turkey consented to the evacuation of Crete by its troops October 11; France agreed to withdraw from its pretensions at Fashoda, in the Soudan, November 2. Noteworthy general happenings during the year abroad were: Germany demanded indemnity from China for the killing of German missionaries February 1; the trial of Zola by the French Government was begun at Paris February 7; he was found guilty of libelling the Esterhazy court-martial, February 23, and sentenced to one year's imprisonment and 3,000 francs fine; President Barrios, of Guatemala, was assassinated February 8; an attempt was made to assassinate the King of Greece February 26; Senor Campos Salles was elected President of Brazil March 2; China leased Port Arthur to Russia for ninety-nine years March 7; the Spurgeon Tabernacle in London was destroyed by fire April 20; bread riots in Italian cities caused loss of life, the troops firing on the mobs, May 2-3; China paid the remainder of the war indemnity to Japan May 7; rioting in the streets of Milan were suppressed by the army with great loss of life May 8; Great Britain took possession of Wei-Hai-Wei, China, May 24; the public funeral of William E. Gladstone was held in Westminster Abbey May 28; a new ministry was formed in Italy by Marquis Rudini May 31; the constitution of federated Australia was defeated in New South Wales June 5; the Anglo-French convention relative to the Niger boundary was signed June 13; the Norwegian Arctic expedition, on the Fram, sailed from Christiania June 24; the Japanese Cabinet, under Premier Ito, resigned June 27; the French steamer La Bourgogne collided with the British ship Cromartyshire and was sunk sixty miles south of Sable Island; 560 lives were lost, including those of the captain and most of the officers, July 4; the Anglo-American League was organized in London July 13; Zola was convicted a second time of libel in Paris July 18; the appointment of George Nathaniel Curzon as Viceroy of India by the British Government was announced August 10; great fires at Nizhnee-Novgorod, in Russia, caused loss of many lives August 17; the United States and Canadian Joint High Commission met at Quebec August 23; the Czar of Russia announced proposals for a universal peace conference August 27; Colonel Henry, of the French army, committed suicide after confessing that he forged a letter to secure the conviction of Captain Dreyfus August 31; Mme. Dreyfus appealed to the French Government for a revision of the court-martial proceedings in her husband's case September 4; Queen Wilhelmina of the Netherlands became reigning monarch September 5; the Empress of Austria was assassinated by an anarchist at Geneva September 10; a hurricane in the British West Indies destroyed much property and 500 lives September 11; a balloon ascended from London, attaining an altitude of 27,500 feet, September 15; the French Ministry of War ordered the prosecution of Colonel Picquart, in connection with the Dreyfus case, September 21; the Emperor of China made a forced

abdication in favor of the Dowager Empress September 22; the alleged remains of Christopher Columbus were exhumed in Havana, preparatory to shipment to Spain, September 26; the German Emperor and Empress left Berlin to visit Palestine October 12; they received a flattering reception at Constantinople by the Sultan, October 23, and entered Jerusalem October 29; the French Court of Cassation decided to grant a new trial in the Dreyfus case October 29; a new French ministry under M. Dupuy was installed October 31; the Earl of Minto took the oath of office as Governor-General of Canada November 12; Sir William Vernon Harcourt resigned the leadership of the Liberal party in England December 13.

Interesting events in the United States were: The monetary convention met at Indianapolis January 25; President Dole, of Hawaii, arrived in Washington as the guest of the United States January 26; silver was beaten in the House of Representatives by a vote of 182 to 132 January 31; an earthquake in California did serious damage March 31; avalanches in the Chilkoot Pass, Alaska, killed more than 150 persons, mostly gold seekers, April 3; the levee at Shawneetown, Ill., on the Ohio River, broke, and many lives were lost by drowning, April 3; a commercial treaty with France was signed at Washington May 30; the Trans-Mississippi and International Exposition opened at Omaha, Neb., June 1; a joint resolution for the annexation of Hawaii passed the House of Representatives June 15, and the Senate June 17; Senator Quay, of Pennsylvania, was held for trial on the charge of misusing public funds October 12; an explosion by gas in the Capitol at Washington wrecked the Supreme Court room and library November 7; general elections throughout the United States secured a small Republican majority in the House of Representatives of the next Congress November 8; the steamer Portland, bound from Boston to Portland, Me., foundered in a gale off Cape Cod, with a loss of 118 lives, November 29; President McKinley and his Cabinet attended the Peace Jubilee at Atlanta, and visited Montgomery, Savannah and other Southern cities, receiving great ovations, December 13-19.

#### THE SPANISH-AMERICAN WAR.

Although the overstrained temper of the American people precipitated the Spanish-American war, immediately after the destruction of the battleship *Maine* in Havana harbor on February 15, 1898, a long series of persecutions of Cuba by Spain had aroused the sympathies of American humanitarians, while years of disorder in the island made business men of the United States also insistent upon a speedy restoration of tranquillity. The wanton massacre of the *Virginius* prisoners during Cuba's ten-years' war was never forgotten by Americans, and Spain's haughty attitude did not tend to strengthen the bonds between Washington and Madrid. In February, 1895, a new insurrection began in Cuba, and the Spanish Government was warned that prompt and effective measures to suppress the trouble must be taken. Spain sent great numbers of soldiers to Cuba, recalled General Campos for alleged lack of activity and supplanted him by General Weyler, who soon won the sobriquet of "Butcher" by his bloody methods. To fire, rifle and sword he added the weapons of starvation and disease by driving non-combatants into reconcentrado camps, where he deprived them of food and other necessities. This was the state of affairs in Cuba in February, 1896, when the United States Congress entered into investigation and debate which resulted, April 6, in the passing of a resolution recognizing war between Spain and the Cuban insurgents, offering the friendly offices of the United States to Spain, and declaring that the United States should maintain a strict neutrality. General Weyler, who had boasted when he assumed command that he would end the insurrection in a few months, accomplished little beyond increasing the sufferings of the Cubans, and his brutalities led to vigorous remonstrances by the United States Government to the Spanish ministry. Weyler was thereupon recalled, being succeeded by General Blanco; the policy toward the reconcentrados was modified, and the semblance of an autonomous government for Cuba was instituted. When 1898 came matters were worse instead of better in the island, and the American press and public clamored for immediate improvement. The Spanish population in Havana resented this, and there were ugly demonstrations against the Americans, even the life of Consul-General Lee being threatened. The North Atlantic squadron had assembled in the neighborhood of Dry Tortugas, Gulf of Mexico, during the first two weeks of the year, and on January 25 the battleship *Maine* arrived at Havana on a friendly visit and to preserve cordial relations between Spain and the United States. Spain at once informed

the United States that the Spanish battleship *Vizcaya* would pay a similar visit to New York harbor. Tension was increased on February 8 when publication was made of a letter written by Senor de Lome, Spanish Minister to the United States, to a friend, in which he grossly reflected upon President McKinley. De Lome then resigned. On February 9 the United States Senate discussed intervention in Cuba. On February 14 resolutions requesting the President to transmit information relative to the situation in Cuba were adopted by Congress. On February 14 Senor Luis Polo y Bernabe was appointed Spanish Minister to the United States to succeed Senor de Lome. On February 15 occurred the blowing up of the battleship *Maine* in Havana harbor by a floating mine, 260 American lives being destroyed.

The United States was frenzied by this incident, few Americans believing that the Spaniards were not responsible. Captain Sigsbee, of the *Maine*, asked for a suspension of judgment pending an official investigation, while Spain promptly disclaimed any responsibility and expressed regret. A Court of Inquiry was at once appointed. It consisted of Capt. W. T. Sampson, of the *Iowa*; Capt. F. E. Chadwick, of the *New York*; Lieut.-Commander W. P. Porter, of the *New York*, and Lieut.-Commander Adolph Marix, of the *Vermont*. The court sat for a month at Key West and Havana, and the American people, with surprising patience, awaited its verdict. Many witnesses were examined, divers were employed on the sunken vessel, and voluminous testimony was taken.

On March 21 the court unanimously agreed: "That the loss of the *Maine* was not in any respect due to fault or negligence on the part of any of the officers or members of her crew; that the ship was destroyed by the explosion of a submarine mine, which caused the partial explosion of two or more of her forward magazines, and that no evidence has been obtainable fixing the responsibility for the destruction of the *Maine* upon any person or persons."

While the high Spanish authorities were thus exonerated from any complicity in the affair, and no disposition was shown in the United States to impute guilt to Marshal Blanco, the finding that the *Maine* had been blown up by external means further intensified American feeling. In the meantime, on March 7, a bill appropriating \$50,000,000 for the national defence was introduced in the House of Representatives. It passed the House March 8, and the Senate March 9, and was signed by the President, the vote in Congress having been unanimous. The mobilization of the army was ordered, and active preparations were begun for the war which then seemed inevitable. On April 3 Consul Hyatt left Santiago. On April 10 Consul-General Lee left Havana, after seeing American refugees' embark. On April 11 General Lee landed in Key West, and President McKinley sent to Congress a message describing the intolerable conditions existing in Cuba; advising against the recognition of the insurgents, to avoid international complications, and asking Congress to take action.

#### THE WAR BEGUN.

On April 13, by a vote of 311 yeas to 6 nays, thirty-eight members not voting in the House, and in the Senate, by a vote of 42 yeas to 35 nays, twelve not voting, a joint resolution was passed recognizing the right of Cuba to be free; demanding the immediate withdrawal of Spanish land and naval forces from Cuba and Cuban waters; directing the President of the United States to use the entire land and naval forces and the militia of the United States to enforce the resolution, and disclaiming any intention to exercise sovereignty, jurisdiction or control over Cuba, except for the pacification thereof. The President signed this resolution at 11.24 o'clock A. M., on April 20. When a copy was served on the Spanish Minister he immediately asked for his passports and left Washington. The resolution was also cabled to the United States Minister at Madrid, instructing him to inform the Spanish Government, and giving Spain until April 23 to reply. Before Minister Woodford could comply he received, at 7 o'clock on the morning of April 21, his passports from the Spanish Minister for Foreign Affairs, and this act constituted the actual beginning of war. On the day previous to this the Queen Regent of Spain appeared with the boy King before the Cortes and pleaded for support of the throne.

On April 24 the Cortes formally recognized the existence of war, and April 25 Congress, without a division, declared that war had existed since the 21st day of April, inclusive.

The President had proclaimed the blockade of Cuba April 21, and ordered Admiral Sampson's squadron to enforce it. On April 23 a call was issued by the President for 125,000 volunteers, the regular army was concentrated at Tampa, Fla., and a great camp for volunteers was laid out at Chickamauga.

Great Britain issued a proclamation of neutrality April 26, and the other Powers, except

Germany, did the same. The President, by proclamation, reaffirmed the intention of the United States to adhere to the Declaration of Paris, defining the position of the United States in regard to privateering, blockades, and Spanish and neutral merchant vessels with their cargoes. Commodore Dewey's fleet sailed from Hong Kong for the Philippines April 25; Congress passed an act for the increase of the regular army April 26; the batteries at Matanzas, Cuba, were bombarded April 27; Admiral Cervera's fleet left the Cape Verde Islands for the West Indies April 30.

#### DEWEY'S VICTORY AT MANILA BAY.

On Sunday evening, May 1, at sunrise, the first great battle of the war was fought in Manila Bay and indicated to the world that the conflict between Spain and the United States would be of short duration. Acting Admiral Dewey, engaging the fleet of Spanish war vessels commanded by Admiral Montojo, in a few hours entirely destroyed the fleet. The Spanish loss was 412 officers and men killed, while on the American side none was killed and only seven men were wounded. This victory aroused the wildest enthusiasm in the United States, where Dewey became the hero of the hour, and was correspondingly depressing to Spain. Ten days later Dewey was made a Rear-Admiral.

On May 11 an attack was made on Cienfuegos and Cardenas, Cuba, and Ensign Bagley and four men on the torpedo-boat Winslow were killed; on May 11 Admiral Cervera's fleet appeared off Martinique; on May 12 Admiral Sampson bombarded San Juan, Porto Rico, with but slight effect; on May 13 the Flying Squadron left Hampton Roads for Eastern Cuba via Key West; a new Spanish ministry under Senor Sagasta came into office May 18; Admiral Cervera's fleet arrived in the harbor of Santiago de Cuba May 19; the cruiser Charleston sailed from San Francisco for Manila May 22; the battleship Oregon reached Jupiter Inlet, Florida, May 24; the President issued a second call for volunteers, the number being 75,000, May 25; the first Manila expedition from San Francisco May 25; Admiral Sampson's fleet arrived at Santiago from Porto Rico May 30. On the following day the forts at the entrance of Santiago harbor were bombarded by the fleets of Sampson and Schley, Cervera being "bottled up" in the harbor. No damage was done to either the city or the Spanish vessels, and, as the American fleet could not enter the harbor because of mines, it was decided to wait until a land force could co-operate to drive Cervera out or until he should attempt to escape.

Three days later than this occurred the daring episode of the sinking of the collier Merrimac at the entrance to the harbor by a body of seven picked men under Naval Constructor Richard P. Hobson, with the intention of blocking the harbor entrance. Under the Spanish guns at the entrance to the forts, and in sight of the American fleet, the Merrimac was driven at full speed and sunk by a hole being blown in her side, Hobson and his companions trying to escape under fire, but being captured by the Spaniards. Despite the bravery of the act, however, the result of making a barrier was not obtained.

When Shafter's army arrived and begun an attack on the outer works of the city, Cervera found himself in the extremity of remaining in the harbor and being captured by the troops or making a dash for the open sea. He chose the latter alternative, and on Sunday morning, July 3, at 9.30 o'clock, he pushed his vessels out in single column. They were the Viscaya and Oquendo, powerful armored cruisers; the Cristobal Colon and Maria Theresa, and two torpedo-boat destroyers. The waiting American ships gave chase, and in two hours had wiped the Spanish fleet out of existence, with a Spanish loss of 600 killed and drowned and 2,000 captured, including Admiral Cervera. Again the United States rejoiced, and the names of Sampson, Schley, Hobson and others who shared the naval victory were written with those of Manila Bay fame on the roll of honor.

#### THE FALL OF SANTIAGO DE CUBA.

The army's turn came next. Santiago de Cuba, strongly entrenched, was the objective point. As soon as Cervera had been safely locked in the harbor, orders were given to General Shafter to take his entire corps, the Fifth, on transports to Santiago. Because of lack of sufficient means for transportation only 815 officers and 16,072 men went from Tampa. On June 20 the convoy reached Guantanamo Bay, where for two weeks a small force of marines had held the town and adjacent country, after skirmishing with the Spaniards, and where there had been a bombardment of Fort Caumanera by American warships. The beginning of the disembarkation of Shafter's troops was at Daquiri on June 22, 6,000 men having landed the first day with a loss of one killed and four wounded. The following day 6,000 more were landed, and on the night of June 24 the entire corps was ashore, having met

with but little resistance. General Lawton's division pushed forward to Siboney, followed by Kent's division, the Cubans, in uncertain numbers under Garcia, assisting.

It had been intended that Lawton's division should occupy a strong defensive position on the road from Siboney to Santiago, supported by Bates's brigade, with Wheeler's Cavalry in the rear, on the road between Daquiri and Siboney. On the night of June 23, however, General Young's brigade of Wheeler's division passed Lawton, and was therefore in advance of Lawton on June 24. This brigade consisted of a part of the Tenth United States Cavalry and two battalions of the First Volunteer Cavalry, better known as the Rough Riders. Three miles from Siboney, on the road to Santiago, in a strong, natural position called Las Guasimas, General Young found the Spaniards posted in considerable numbers, and the American brigade, numbering 964 men, was taken by surprise. A battle ensued, and the enemy driven from position, after obstinate resistance, with a reported loss of nine killed and twenty-seven wounded. The American loss was one officer and fifteen men killed and six officers and forty-six men wounded. From this time until June 30 the American troops were concentrated, and preparations were made for further advance. It was then decided to attack and carry the San Juan hills and block-houses and the village of El Caney, north-east of and three miles from Santiago, the positions named being strongly defended outposts of the city. The Americans had but four light batteries, of four guns each. Lawton's division, assisted by Capron's battery, was ordered to move out June 30, make an attack along the road to El Caney early on the morning of July 1, carry El Caney, continue to move along El Caney road and take a position near Santiago at the extreme right of the line. Grimes's battery, of the Second, attached to Kent's division, was ordered on June 30 to prepare the way next morning for the attacks by Kent's and Wheeler's divisions on the San Juan hills, the attack of which was to be delayed by the infantry until Lawton's guns were heard at El Caney.

Information that the Spanish General, Pando, with 8,000 men, was rapidly approaching to reinforce Santiago's defenders, made quick action imperative. At 6 o'clock A. M., on July 1, Lawton was in position, with Chaffee on the right, Ludlow on the left, and Miles in the centre. Stone block-houses and forts made doubly strong the position of the enemy, a well-chosen, natural vantage ground. A general engagement soon followed the opening guns at 6 o'clock. For two hours Lawton's command fought unaided, and then Bates's brigade was ordered from the rear to support them. This brought the Seventy-first New York Volunteers into the action. Slowly, but surely, the Spaniards, driven from their intrenchments, fighting stubbornly, were forced to retire. Grimes's battery, after Lawton had become well engaged, fired very effectively on the San Juan block-houses from the heights of El Pozo. The Americans, however, were at a disadvantage, not using smokeless powder, as did the enemy, with the result that it was difficult to locate the Spaniards, who soon had the American range. The Spaniards also had the advantage of using field pieces.

When Lawton had become well engaged, the divisions of Wheeler and Kent, which had been partially concealed, were ordered to deploy, to the right and left, respectively. The terse report of General Shafter thus officially tells the result:

"In the meantime Kent's division, with the exception of two regiments of Hawkins's brigade, being thus uncovered, moved rapidly to the front from the forks previously mentioned in the road, utilizing both trails, but more especially the one to the left, and crossing the creek, formed for attack in the front of San Juan Hill. During this formation the Second Brigade suffered severely. While personally superintending this movement, its gallant commander, Colonel Wikoff, was killed. The command of the brigade then devolved upon Lieutenant-Colonel Worth, Thirteenth Infantry, who was soon severely wounded, and next upon Lieutenant-Colonel Liscum, Twenty-fourth Infantry, who, five minutes later, also fell under the terrible fire of the enemy, and the command of the brigade then devolved upon Lieutenant-Colonel Ewers, Ninth Infantry.

"While the formation just described was taking place, General Kent took measures to hurry forward his rear brigade. The Tenth and Second Infantry were ordered to follow Wikoff's brigade, while the Twenty-first was sent out to the right-hand road to support the First Brigade, under General Hawkins, who had crossed the stream and formed on the right of the division. The Second and Tenth Infantry, Col. E. P. Pearson, commanding, moved forward in good order on the left of the division, passed over a green knoll, and drove the enemy back toward his trenches.

"After completing their formation under a destructive fire, and advancing a short dis-

tance, both divisions found in their front a wide bottom, in which had been placed a barbed-wire entanglement, and beyond which there was a high hill, along the crest of which the enemy was strongly posted. Nothing daunted, these gallant men pushed on to drive the enemy from his chosen position, both divisions losing heavily. In this assault Colonel Hamilton, Lieutenants Smith and Shipp were killed, and Colonel Carroll, Lieutenants Thayer and Myer, all in the cavalry, were wounded."

Thus, on the night of July 1, the battle of El Caney was over, with the Americans strongly holding all they had gained during the day, but with heavy losses, while the reputed approach of General Pando made necessary a decisive victory before the enemy could be reinforced. The Spaniards still held strong positions and must be driven out. While the American lines were being rearranged and strengthened during the afternoon and night of July 1, the two remaining batteries took positions near Grimes's and played on the Spanish trenches. General Duffield's brigade, composed of the Thirty-third and Thirty-fourth Michigan, with a Massachusetts regiment, assaulted the small outposts of Aquadores. On the morning of July 2 the Spaniards opened battle with a fierce assault, repelled, as were subsequent ones, by Kent and Wheeler, who remained behind their works. On the right, meanwhile, Lawton advanced his lines and gained strong and commanding positions. Fighting was renewed on the morning of July 3, but firing soon ceased, as the enemy's lines gave way. At 8.30 o'clock A. M. General Shafter sent, under a flag of truce to the Spanish commander, a demand for the surrender of the army and of the city of Santiago. The reply, while not acquiescent, impelled General Shafter to wait. The Spaniards were disheartened by the destruction of Cervera's fleet and by the knowledge that reinforcements for the Americans were on their way. After numerous parleys, the Spaniards surrendered the city and province of Santiago de Cuba on July 17, with more than 22,000 troops, thus ending the campaign. The Spanish loss during the first three days of July, while not accurately known, was about 1,500 officers and men, killed and wounded. The American losses were 22 officers and 208 men killed, 81 officers and 1,203 men wounded and 79 men missing.

#### THE PORTO RICO CAMPAIGN.

Porto Rico was won by military strategy rather than by fighting. The credit for this belongs to General Miles and his officers, while in the Santiago campaign the courage and discipline of the soldiers contributed largely to the splendid results. The Spaniards held strong, natural positions throughout Porto Rico, with a garrison of 8,233 regulars and 9,107 volunteers. The force landed by Miles was but one-fifth of this number, 3,514 officers and men. After Santiago had surrendered General Miles promptly organized his Porto Rico expedition, sailing from Guantanamo, Cuba, on July 21. The Spaniards had assumed he would land near San Juan, the capital, on the north side of the island, but while he held the enemy's attention by naval demonstrations off San Juan, and by the shelling of Ponce, on the south side of Porto Rico, he quietly and quickly disembarked his forces at Guanica, a short distance west of Ponce, drove back the Spanish troops in a short but spirited engagement, and proceeded to occupy Guanica and Ponce. The brigade of Generals Henry, Ernest and Schwan pushed along the island roads to the interior, sending the heaviest forces along the noted military road connecting Ponce and San Juan. On this road, on August 10, an engagement resulted in a loss of one American killed and 16 wounded. At Coamo, on August 9, General Ernest's troops captured 167 Spanish soldiers, and a little later the Spaniards were shelled from an apparently impregnable position at Aibonito Pass. There were but nineteen days of active campaigning in Porto Rico, during which time much of the island was captured by United States troops, with a total loss of only three killed and forty wounded. There were six engagements, in all of which the Spanish were defeated, and all their positions, except that of San Juan, were made untenable. On August 12 news of the suspension of hostilities ended the campaign, by which Porto Rico became a part of the United States.

#### THE FALL OF MANILA.

Although Dewey destroyed the Spanish fleet at Manila, and might have captured the city by bombardment, the holding of such captured territory and the adjacent country without a land force was obviously impossible. The Philippine campaign was therefore actively begun immediately after the battle of Manila Bay. Gen. Wesley Merritt was

appointed Military Governor of the Philippine Islands, was assigned to the command of the Eighth Corps, with headquarters in San Francisco, and was ordered to send troops as rapidly as possible to the investment of Manila. The first expedition sailed on transports from San Francisco on May 25 and consisted of 158 officers and 3,428 men. Between then and October other expeditions rapidly followed, General Merritt himself arriving in the Philippines late in July. By that time the Spanish lines were fairly well surrounded, the outer lines of Manila having been invested by the preceding expeditions, under Generals Anderson and Greene, and by the insurgents, under Agumaldo. The Spanish centre was at Malate, a suburb of Manila. The American forces, reinforced by a division under General MacArthur, numbered more than 11,000 men on July 31. On that day the Tenth Pennsylvania Volunteer Infantry and part of the Utah Volunteer Artillery were posted behind breastworks about 750 yards in front of Malate. Taking advantage of the fact that the insurgents had withdrawn to celebrate a feast day, the Spaniards, 3,000 strong, attacked the American position on both flanks and front. The small American force was becoming demoralized, when Battery K, Third United States Artillery, opportunely arrived and restored confidence. Captain O'Hara, of the Third Artillery, intercepted a courier going to General Greene for reinforcements and ammunition, and, without awaiting orders, sent out the remaining battery H, of the Third, and hurried to assist Lieutenants Krayenbuhl and Kessler, who, with Battery K, had halted the Spaniards. The regular battalion, with Battery H, now numbered 125 men, who, with a cheer and with rapid and effective fire, charged the Spaniards and put them to rout. The early arrival of reinforcements under General Greene resulted in driving the enemy from the field. The honors of the day thus rested largely with the small, regular battalion. The next night there was more fighting, with slight American and heavy Spanish losses. When General Merritt arrived it was decided to force the situation, and he demanded the surrender of Manila. The Spanish commander asked for a truce until August 13 to enable him to consult with his Government. As he did not reply by the date last named, the American commanders ended the suspense by a land and sea attack. The bombardment by the fleet opened in the morning, and General Greene assaulted the city defences, losing eight killed and forty wounded. Shortly after noon Manila capitulated. Further reinforcements arriving, the Americans became masters of Luzon, with 18,000 men encamped on the former Spanish territory.

The Spanish Government, through French Ambassador Cambon, asked for terms of peace on July 26, 1898. President McKinley, through the French Ambassador, stated the American terms on July 30. These terms were, on August 9, formally accepted by Spain, and the French Ambassador was officially clothed by Spain with power to sign a protocol. Spain agreed: To relinquish all claim of sovereignty over and title to Cuba; to cede to the United States the island of Porto Rico and other islands then under Spanish sovereignty in the West Indies, and also an island in the Ladrões, to be selected by the United States; that the United States should hold and occupy the city, bay and harbor of Manila pending the conclusion of the treaty of peace, which treaty should determine the control, disposition and government of the Philippines; to immediately evacuate Cuba, Porto Rico and other islands under Spanish sovereignty in the West Indies. The protocol also provided for the appointment of Spanish and American Evacuation Commissioners, to meet at Havana, Cuba, and San Juan, Porto Rico, to arrange for the evacuation of the two islands named by Spanish troops; also, for the appointment of five Spanish and five American Commissioners to treat of peace, at Paris, not later than October 1, 1898. Secretary of State William R. Day, for the United States, and French Ambassador Jules Cambon, for Spain, signed this protocol at 4.23 o'clock P. M. on August 12, 1898.

Upon receipt of the news of the signing of the protocol hostilities ceased, the blockade of the Cuban coast was at once raised, and the battleships and cruisers returned to the United States for needed repairs. On September 9 the United States named its Peace Commissioners to meet at Paris, and on September 18 the Spanish Government did the same. The American Commission was composed of William R. Day, of Ohio; Cushman K. Davis, of Minnesota; William P. Frye, of Maine; George Gray, of Delaware; Whitelaw Reid, of New York. The Spanish Commission consisted of Eugene Montero Rios, Buenaventura Abarzuza, M. W. Z. de Villaurrutia, Gen. R. Cerero, M. J. de Garnica. The Evacuation Commissions appointed to superintend the evacuations of Cuba and Porto Rico were: For Cuba, Americans: Maj.-Gen. James F. Wade, Admiral W. T. Sampson, Brig.-Gen. John C. Bates. Spaniards: Admiral Manterola, General Parrado, the Marquis of Montoro. For

Porto Rico, Americans: Admiral W. T. Schley, Maj.-Gen. John R. Brooke, Maj.-Gen. W. W. Gordon. Spaniards: Admiral Vallarino, General Ostega, Senor Delalginia.

On September 17 the United States Peace Commission sailed from New York for Paris, where they were received by the French Foreign Office, presented to the representatives of Spain, and shown a series of graceful attentions. The two bodies sat from October 1 to December 10, when the Treaty of Peace was signed. This treaty, in seventeen articles, provided: For the relinquishment of Cuba; the cession of Porto Rico; the cession of the Philippines for \$20,000,000 as compensation; for the return of Spanish prisoners in the hands of the Tagalogs; the cession of barracks, war materials, arms, stores, buildings and all property appertaining to the Spanish administration in the Philippines; for the renunciation by both nations of their respective claims against each other and the citizens of each other; for the granting to Spanish trade and shipping in the Philippines the same treatment as American trade and shipping for ten years; for the release of all prisoners of war held by Spain, and of all prisoners held by her for offences committed in the colonies acquired by the United States; for the guaranteeing of legal rights of Spaniards remaining in Cuba; for the establishing of religious freedom in the Philippines and guarantees of equal rights to all churches; for the composition of courts and other tribunals, and for the administration of justice in Cuba and Porto Rico; for the continuance for five years of Spanish copyrights in the ceded territories, giving Spanish books admittance free of duty; for the establishment of consulates by Spain in the ceded territories; for the granting to Spanish commerce in Cuba, Porto Rico and the Philippines the same treatment as to American for ten years, Spanish shipping to be treated as coasting vessels; for the termination of the obligations of the United States to Spanish citizens and property in Cuba with the withdrawal of the United States authorities from the island; and, finally, for the ratification of the treaty within six months of the date of the signing by the respective governments. The treaty was transmitted to the United States Senate by the President January 14, 1899, was ratified by the Senate February 6; signed by the President February 10; signed by the Queen Regent March 17, and ratifications were exchanged April 11. The evacuation of Cuba by Spanish troops was completed on January, 1899. In Porto Rico the evacuation was completed on October 17, 1898, and on the following day the United States flag was hoisted at San Juan, formal possession thus being assumed, with Gen. John R. Brooke as first Governor.

## 1899

The calm of peace settled upon the United States, except in the Philippines, in 1899, both governmental and popular interest centring largely in the new insular possessions. The American flag was raised at Guam February 1, and Commander Taussig, of the Bennington, was made first Governor. While en route to Guam, Commander Taussig raised the United States flag over Wake Island. The President signed the peace treaty with Spain February 10, and on June 16 United States Minister Bellamy Storer was received in formal audience by the Spanish Queen Regent. On January 12 Commissary-General Eagan aspersed the veracity of General Miles before the War Investigating Committee at Washington; a court-martial recommended Eagan's dismissal from the army, but he was suspended for six years instead. Fire in the Brooklyn Navy Yard destroyed \$1,000,000 worth of property February 15. The Windsor Hotel, New York City, was burned with great loss of life March 17. Resolutions were introduced in the Massachusetts Legislature April 18 revoking the order banishing Roger Williams in 1635. Ex-Senator Quay, of Pennsylvania, was acquitted of a charge of conspiracy to use State funds for private gain April 21. A reciprocity treaty with France was signed July 24. The National Export Exposition opened at Philadelphia September 14. An Anti-Trust Conference at Chicago ended September 21. Admiral Dewey arrived in New York harbor September 26 from Manila; a great naval parade in his honor was held in the harbor and North River September 29, and a huge land parade in the city September 30. England and the United States agreed on a temporary arrangement of the Alaska boundary dispute October 12. The Dismal Swamp Canal, the original survey of which was made by George Washington, was opened October 14. The cruiser Charleston was wrecked on a reef on the northwest coast of Luzon, Philippines, November 7. The Samoan partition treaty was signed at Washington December 2, England having relinquished its territorial rights November 8, and hostilities between naval claim-

ants for the throne having been pending since January 1. American and British naval forces were attacked at Apia, Samoa, by Mataafa's followers April 1, and one British and two American officers were killed. The Philippine war of 1899 begun on February 4, when the Filipinos, under Aguinaldo, attacked the American defences at Manila; the next day the Americans assumed the offensive, and in the several days' fighting which ensued lost 57 killed and 215 wounded, the Filipinos losing 500 killed, 1,000 wounded and 500 captured. The battle of Calocan was fought February 10. In all the engagements, which followed to the end of the year in a warfare largely desultory, the Americans were almost uniformly successful, the enemy retreating after making a more or less determined stand. General Wheaton attacked and occupied Pasig March 13-19. General MacArthur advanced toward and captured Malolos March 21-30, and on April 25-May 5 he captured Calumpit and San Fernando. General Lawton led an expedition to San Isidro April 22-May 17, and, with General Wheaton, he advanced south to Imus June 10-19. General Hall took Colamba June 26. Military operations were partially suspended during the rainy season, but General MacArthur captured Angeles August 16. Meanwhile the southern islands were occupied by American forces; Iloilo, by General Miller February 11; Cebu, by the Navy March 27, and Mindanao, Negros and the smaller islands subsequently. A treaty was concluded with the Sultan of Sulu, in which his rights were guaranteed, and he acknowledged the supremacy of the United States. The Philippine Commission, appointed by the President, and composed of President Schurman, of Cornell University; Prof. Dean Worcester, Charles Denby, late Minister to China; Admiral Dewey and General Otis sat in Manila from March 20 until September. On April 4 the Commission issued a proclamation to the people of the Philippines announcing a broad but firm American policy in the islands. On November 2 the Commission submitted its preliminary report to the President at Washington. The army of occupation having been reinforced by 30,000 men, military operations on a much larger scale than before were begun with the advance of the dry season. General MacArthur, after several days' fighting, occupied Porac September 28. General Schwan's column operated in the south part of Luzon, and captured Rosario and Malabon October 1-10. A military expedition on board transports, under General Wheaton, captured Dagupan November 7. Major Bell entered Tarlac November 14; on the same day Maj. John A. Logan was killed during brisk fighting near San Jacinto. On November 24 General Otis announced to the War Department that the whole of Central Luzon was in the hands of the United States authorities; that the President of the Filipino Congress, the Filipino Secretary of State and Treasurer were captured, and that only small bands of the enemy were in arms, retreating in different directions, while Aguinaldo, a fugitive with a small escort, was being pursued toward the mountains. The navy captured Vigan, on the coast, November 26. The President directed General Otis to open the ports of the Philippines to commerce December 11. General Lawton was killed in attacking San Mateo December 19.

Abroad, the event of worldwide interest in 1899 was the beginning of the South African war between the Transvaal Republic and Great Britain, the story of which appears on following pages of this quarter-century record of events. The war opened October 10, when the Boers sent an ultimatum to Great Britain and invaded Natal, October 12. Other important foreign events were: Lord Curzon, of Kedleston, assumed the Vice-Royalty of India January 6; President Faure, of France, died suddenly February 16, and M. Emile Loubet was elected President to succeed him February 18. Russia deprived Finland of certain liberties in home government February 20; the Sagasta ministry resigned in Spain March 1; China refused Italy's demand for a lease of San Mun Bay as a naval base March 5; the naval powder magazine at Toulon, France, was blown up, killing 60 and wounding 100, March 5; the Anglo-French treaty, agreeing on the Nile boundary, was signed March 21; the English excursion steamer *Stella* was lost on Casquet Rocks, near Alderney Island, and seventy-three were drowned March 30; the Cuban Military Assembly voted to disband the army and to dissolve April 4; the three hundredth anniversary of Cromwell's birth was celebrated in England April 25; the Italian Cabinet resigned May 2; the Tuberculosis Congress at Berlin convened May 15; President Kruger, of the Transvaal, and Sir Alfred Milner conferred at Bloemfontein regarding the grievances of the Outlanders May 30; Major Marchand was received with enthusiasm in France June 1; the French Court of Cassation decided in favor of a revision of the Dreyfus verdict June 2; Esterhazy admitted that he wrote the bordereau in the Dreyfus case June 3; President Loubet, of France, was attacked by a mob at the races June 4; the Depuy ministry in France was defeated by a vote of 321 to 173

and resigned June 12; the first formal meeting of the Venezuelan Arbitration Commission was opened June 15, and on October 3 rendered its unanimous decision, which was promptly accepted by Great Britain and Venezuela, thus ending a sixty-years' controversy and averting war; M. Waldeck-Rousseau succeeded in forming a new French ministry June 22; the International Council of Women opened in London June 26; French soldiers killed their officers in the French Soudan July 14; President Heuraux, of Santo Domingo, was assassinated July 26; the Peace Conference at The Hague held its final sitting July 29; the Dreyfus trial was opened at Rennes, France, August 7; Captain Dreyfus was convicted September 9 and pardoned September 19; on August 18 a hurricane in Porto Rico destroyed 2,000 lives; throughout August, in Paris, there were anti-government riots, and on August 14 an attempt was made to assassinate Maitre Labori; the revolution in the Dominican Republic succeeded August 27; the Seventh International Geographical Congress opened in Berlin September 28; an earthquake in Java killed 4,000 people October 12; General Jimenez was elected President of the Dominican Republic October 20; Puerto Cabello, Venezuela, surrendered to General Castro, after holding out for two days, November 12; Kaiser Wilhelm arrived at Windsor Castle on a visit to England November 20; the Khalifa of the Soudan was killed in battle November 23.

## 1900

"The war which staggered humanity," to use the words of President Kruger, of the Transvaal; the Boxer rebellion in China; a Presidential election in the United States and general unrest made historic events follow in quick succession in 1900. The Boer war and Boxer troubles are treated on following pages. In the United States Secretary Hay announced the success of the "open door" policy in China January 2; the Senate ratified the Samoan treaty January 16; the Hay-Pauncefote treaty, amending the Clayton-Bulwer treaty, was signed at Washington February 5; President McKinley signed the Gold Standard Currency bill March 14; Admiral Dewey announced himself a candidate for the Presidency April 4; General MacArthur succeeded General Otis in the Philippines April 7; Charles H. Allen was appointed first civil Governor of Porto Rico April 12; the United States Senate denied admission to Matthew Quay, who had been appointed by the Governor of Pennsylvania; a mine explosion killed 200 at Scofield, Utah, May 1; Boer delegates arrived in New York May 16 and were subsequently received unofficially by the President; General MacArthur issued a proclamation of amnesty to the Filipino insurgents June 15; at Hoboken, N. J., on June 30, occurred a fire in which hundreds of lives were lost, and docks, vessels and other property to the value of \$10,000,000 were destroyed; the United States Government took measures for the relief of destitute miners at Cape Nome, Alaska, August 31; a tornado at Galveston, Tex., destroyed 7,000 lives and \$30,000,000 in property September 8, and about \$1,000,000 was subscribed throughout the States for relief; a great strike prevailed in the anthracite coal regions of Pennsylvania September 13-October 13, and was ended by mutual concessions; the United States cruiser Yosemite was wrecked at Guam by a typhoon November 13; fifty lives were lost by a hurricane in Tennessee November 21. The Republican National Convention at Philadelphia, Pa., nominated William McKinley, of Ohio, for President, and Theodore Roosevelt, of New York, for Vice-President, both by acclamation. Every vote in the convention was cast for McKinley, and 929 of 930 votes for Roosevelt, the candidate, who was a delegate, not voting. The Democratic National Convention at Kansas City, Mo., nominated William J. Bryan for President by acclamation. On the first ballot Adlai E. Stevenson for Vice-President, his leading opponent being David B. Hill, who received 200 votes out of 936 cast, Stevenson getting 559½ ballots. The Silver Republican National Convention at Kansas City, Mo., July 6, the People's Party (Fusion) at Sioux Falls, S. Dak., May 10, and the Anti-Imperialist League at Indianapolis, Ind., August 16, indorsed Bryan, and the National Democratic party (Gold Democracy) refused to indorse him, and voted in convention at Indianapolis to oppose him July 25. The money issue was paramount in the campaign, and on November 6, in the general election, McKinley and Roosevelt had a popular plurality of 849,435 over Bryan, a popular majority of 457,027 over all, and an electoral majority of 137. The total popular vote was 13,961,566.

Among the notable incidents in foreign countries in 1900 were: The announcing of the Delagoa Railroad award, making Portugal pay nearly \$5,000,000, March 29; Sipido attempted

to shoot the Prince of Wales in Brussels April 4; the Paris International Exposition was formally opened by President Loubet April 14; Queen Victoria departed from Ireland after a three weeks' visit April 26; Hull and a part of Ottawa, Canada, were destroyed by fire April 26, making 12,000 persons homeless and causing \$15,000,000 property loss; the Marquis de Galliffet resigned as Minister of War of France and was succeeded by General Andre May 29; the International Miners' Congress began at Paris June 25; a British force of 400 was attacked by 10,000 Ashantis, near Dampoassi, six officers and eighty-seven men being killed, June 26; the United States battleship Oregon grounded thirty-five miles north of Chefoo, China, June 29, and was subsequently taken to Japan and repaired; a statue of Lafayette, the gift of American school children, was unveiled in Paris July 4; General Porfirio Diaz was re-elected President of Mexico July 9; the Earl of Hopetown was appointed Governor of the new Commonwealth of Australia July 13; King Humbert of Italy was assassinated by Angelo Bresci at Monza, Italy, July 3, and was succeeded August 11 by King Victor Emmanuel, who took the oath of office August 11; President Sanclemente, of the Republic of Colombia, resigned, and Vice-President Marrogun succeeded him August 15; the Duke of Abruzzi's polar expedition returned to Tromso, Norway, and announced that it had reached 86° 33' north latitude, the highest point yet touched, September 6; Cuba held an election of delegates to a constitutional convention September 15, which convention was opened at Havana November 5; England held elections for a new House of Commons in October, and a reconstructed British Cabinet, Conservative, with the Marquis of Salisbury as Prime Minister, was approved by Queen Victoria November 1; in October and November there were Carlist disorders in Spain; on October 17 the betrothal of Queen Wilhelmina of the Netherlands to Prince Henry of Mecklenburg-Schwerin was announced; a new Spanish ministry was formed under General Azcarraga October 22; the five hundredth anniversary of the death of Chaucer was commemorated in London October 25; the Canadian Parliamentary elections were carried by a Liberal majority November 7; the steamer Monticello foundered in the Bay of Fundy and thirty-one lives were lost November 10; the Paris Exposition closed, 50,000,000 visitors having passed through the gates, November 12; President Kruger landed at Marseilles, France, and began a triumphal journey to Paris November 22; arsenic poison in beer caused 60 deaths and the illness of 1,000 persons at Manchester, England, November 30; General Mercier, in the Senate of France, projected the unionism of England, by arms, December 4; tension between Portugal and the Netherlands over South African affairs caused the withdrawal of their respective ministers December 7.

#### THE BOXER REBELLION.

For three years prior to the enforced occupation of China by the Powers in 1900 trouble for foreigners had been brewing in the Flowery Kingdom. Since 1898 Russia had taken Port Arthur and the adjacent harbor of Talien-wan. Germany had leased Kiaochau and gained great concessions in the province of Shang Tung. France had suggested privileges in portions of Chinese territory adjacent to the French possession of Tonquin. Great Britain, to cap the climax, had obtained from China a lease of Wei-Hai-Wei, on the south shore of the Gulf of Pechili, opposite Port Arthur, and thus commanded the entrance to the gulf and the water approach to Peking.

Many Chinese were resentful of these encroachments by foreigners, but the Dowager Empress did not, and hence she was bitterly opposed by her people. The leader of this opposition was Prince Tuan, the sixth son of the Emperor Kwang-Su's grandfather. Prince Tuan had long been an athlete and had a following of many athletic young men in the kingdom, who, because of their ability in sports, were known as boxers, a name which Tuan's recruits adopted. Tuan proclaimed his nine-year-old son heir presumptive to the throne. The Emperor, then but a figurehead, dominated by the Dowager Empress, had little popular support. The Boxers revolted, massacred missionaries at many interior points of the Empire, and finally made a concerted attack upon the foreign legations in Peking in which movement the Imperial troops eventually participated.

The Chinese Tsung-li-Yamen, the equivalent to a responsible government ministry in Europe, was in sentiment hostile to foreigners, and hence either would not, or could not, protect the legations or escort them safely from the country. The civilized world received distressing reports of massacres and outrages, and was for several weeks in suspense as to the

fate of the foreign ministers in China, their families, legation attaches and converted Chinese under foreign protection. The offended Powers decided upon concerted action and hurried vessels and troops to the ports nearest to the danger points. Upon Chinese resistance to the landing of marines at Taku the forts were shelled by all the allies except Americans, and on June 17, while the Chinese shelled the allies' fleet, the allied troops landed and captured the Taku forts, after a sanguinary conflict. On June 18 the Ninth United States Regiment was ordered from Manila to China, other troops following. On June 20 German fury and general international indignation was aroused when Baron von Ketteler, the German Minister, while proceeding on a diplomatic mission to the Tsung-li-Yamen in Peking, was beset by Chinese soldiers and butchered. On the same day an allied expedition under Vice-Admiral Seymour, of the British Navy, began a march upon Peking for the relief of the British legationers. Such countless hordes of Chinese opposed him that he was obliged to turn back, suffering casualties of 374. The allied warships shelled Tien-tsin on June 21, and the combined forces, two days later, occupied the foreign quarters of that city. The Chinese, on June 23, requested an armistice through Minister Wu at Washington. The United States promptly replied that free communication must first be allowed with the legations, and on July 4 Secretary of State Hay outlined to the Powers the American policy.

On July 13-14 occurred one of the noted conflicts of history, when the allied forces stormed the Chinese part of Tien-tsin, which they captured with a loss of 800 killed and wounded. Col. E. H. Liscum, commanding the United States contingent, was among the slain. On July 19 the Emperor of China appealed to President McKinley for peace. The advance of the allies upon Peking began August 4, under command of Field Marshal von Waldersee, of the German army, who was unanimously selected to command the allied forces.

The first news from the beleaguered foreigners reached the United States in the form of a cipher message from Minister Conger. It read: "Still besieged. Situation more precarious. Chinese Government insisting on our leaving Peking which would be certain death. Rifle firing upon us daily by Imperial troops. Have abundant courage, but little ammunition or provisions. Two progressive Yamen ministers beheaded. All connected with the legation of the United States well at present moment." The receipt of this message caused intense excitement throughout the United States, for, though it broke the long suspense, it added to public fury and anxiety. On August 8 Li Hung Chang was appointed Envoy Plenipotentiary to propose to the several Powers for the immediate cessation of hostile demonstrations. On August 14 Peking was captured by the allied forces of the Americans, British, Germans, French, Austrians, Italians and Japanese, the American troops being the first to enter the city, and Captain Reilly being killed. The Emperor and Empress had fled. The legationers were promptly relieved and told thrilling stories of their danger and distress during the long siege. The Chinese, on August 16, asked for an armistice, which was refused. Li Hung Chang's appeal was rejected by the United States, and China was informed that the demands of this Government must be complied with. At the same time General Chaffee was given full power to act. The American refugees from Peking reached Tien-tsin safely on August 25.

#### CHINA PAID THE PENALTY.

On November 19 the negotiations between the allies and the Chinese authorities for terms of peace and compensation, which were begun when the allies took full possession of Peking, had progressed so far that the German Imperial Chancellor in the Reichstag announced that the allies had unanimously agreed upon the following as their demands upon China:

First: China shall erect a monument to Baron von Ketteler on the site where he was murdered and send an Imperial Prince to Germany to convey an apology. She shall inflict the death penalty upon eleven princes and officials already named, and suspend provincial examinations for five years where the outrages occurred.

Second: In future all officials failing to prevent anti-foreign outrages within their jurisdiction shall be dismissed and punished.

Third: Indemnity shall be paid to States, corporations and individuals. The Tsung-li-Yamen shall be abolished and its functions vested in a Foreign Minister. Rational intercourse shall be permitted with the Emperor, as in civilized countries.

Fourth: The forts at Taku and other forts on the coast of Chi-li shall be razed, and the importation of arms and war material prohibited.

Fifth: Permanent legation guards shall be maintained, and also guards of communication between Peking and the sea.

Sixth: Imperial proclamations shall be posted for two years throughout the Empire suppressing Boxers.

Seventh: Indemnity is to include compensation for Chinese who suffered by being employed by foreigners, but not compensation for native Christians.

Eighth: China shall erect expiatory monuments in every foreign or international burial ground where the graves have been profaned.

Ninth: The Chinese Government shall undertake to enter upon negotiations for such changes in existing treaties regarding trade and navigation as the foreign governments deem advisable, and with reference to other matters having in view the facilitation of commercial relations.

In December, 1900, the Chinese authorities had accepted all the foregoing conditions imposed by the allies, and the preliminary note of the demands of the Powers was signed by Li Hung Chang and Prince Ching. Another year, however, was devoted to a final settlement of affairs. The allied commanders in Peking organized a judicial system on January 15. On January 22 the Shan-hai-Rivan Railway was given over to the Germans by the Russians. Russia refused, on February 2, to consent to the execution of Prince Tuan, and public demand was made on February 6 by the foreign ministers in Peking for the heads of twelve Chinese officials. The United States, on February 19 protested against further military expeditions in China. The next day the Germans were attacked at Paoting-fu. On February 21 the Powers agreed to acquire no Chinese territory without international consent. Chi Hsin and Hsu Ching Tu were executed at Peking February 27. On March 8 the Chung-sun Pass was captured by the Germans. Japan's protest regarding the Manchuria Convention was replied to by Russia April 3, Russia saying that terms would be discussed after their acceptance; China, on the same date, declared herself unable to sign the Manchuria Convention. On April 23 the Germans, in an engagement, forced the Chinese over the great wall, but with considerable loss. Peking was evacuated by the American cavalry and artillery May 5, and General Chaffee embarked for the Philippines May 18. The Powers, on May 9, demanded of China a formal indemnity of 450,000,000 taels (about \$300,000,000), which was agreed to by China and the Powers, on July 26, formally accepted China's offer to pay the sum named on time at 4½ per cent. interest. Prince Chun, at Berlin, September 4, formally apologized to Emperor William for the insult to German honor in the murder of Baron von Ketteler. On September 17 the American and Japanese troops in Peking handed over the Forbidden City to the Chinese. Li Hung Chang, who had taken such a prominent part in peace negotiations, died on November 7.

The terms of the new Manchuria agreement were made public on November 18. By this agreement China gave to Russia exclusive mining and railway privileges in Manchuria, and the command of all the Chinese troops there by the Russian authorities, Russian occupation to end in three years. President Roosevelt, in his annual message to Congress on December 2, 1901, highly praised the United States Plenipotentiary, William Woodville Rockhill, for his good judgment and energy in the conference of the Powers which induced China to sign a final protocol for the betterment of conditions in China and assurance of more desirable international relations. On January 7, 1902, the Emperor and Empress Dowager re-entered Peking, and on April 8, 1902, was signed, at Peking, the convention between China and Russia regarding Manchuria.

The United States Congress, by act approved April 29, 1902, re-enacted much of the Chinese Exclusion act of September 13, 1888, extended said law to all territorial possessions of the United States, authorized the Secretary of the Treasury to make and prescribe necessary rules and regulations to secure efficient execution of the act, and provided for the issuance of certificates of residence to Chinese laborers entitled to remain in the United States or insular possessions. All Chinese in the United States were compelled to register such a certificate or be deported within a year. Exemption was granted to Chinese coming to the United States to install or attend to exhibits in any fair or exposition authorized by act of Congress. In the Philippines the term of registration was extended to within two years, if so long a time was found to be necessary.

## 1901

The advent of the twentieth century was celebrated with demonstrations throughout the United States and in many cities of the Old World on January 1, 1901. Quiet generally prevailed, except in South Africa, where the Boer war raged during the entire year, and in China, where the Allies and Chinese frequently met in armed conflict, as described elsewhere. At home, the nation was inexpressibly shocked and well-nigh frenzied by the assassination of President McKinley while he was holding a reception in the Temple of Music at the Pan-American Exposition, Buffalo. The assassin, Leon Czolgosz, fired two shots, one bullet entering the President's arm and the other perforating his stomach. The President survived an immediate operation, but died on September 19 from his wounds at the home of John G. Milburn, in Buffalo. Vice-President Theodore Roosevelt took the oath of office as President immediately after McKinley's death. The assassin Czolgosz was tried September 24, and was in nine hours found guilty and sentenced to death in the electric chair during the week of October 28. On October 29 he was electrocuted at Auburn prison. Mr. McKinley was inaugurated on March 4 for his second term. In May he made a trip to the Pacific Coast and was received with great enthusiasm. Other notable occurrences in American territory during the year were: On a trial trip the torpedo-boat Bailey made 30.88 knots an hour January 17; hazing was abolished at West Point Military Academy by an agreement signed by the cadets January 19; the United States Government surrendered Neely, the alleged postal defaulter, to the Cuban authorities January 21; the Army Reorganization bill was signed by President McKinley February 2; the centenary of the installation of Chief Justice Marshall was celebrated February 4; the canteens were closed by the War Department February 4; the Supreme Court of Michigan held public franchises to be taxable February 12; the first Territorial Legislature of Hawaii began its session February 20; the Pacific Mail steamship Rio de Janeiro sank off the Golden Gate, San Francisco, after striking in a fog and 128 lives were lost February 22; the United States Steel Corporation was incorporated February 25; the United States Supreme Court decided against the Bell Telephone Company in the Berliner case February 27; Andrew Carnegie presented \$5,200,000 to the City of New York for libraries March 13; Aguinaldo, the Filipino insurrectionary chief, was captured by General Funston in the Province of Isabella, Luzon, March 23; on the same date the United States paid Spain for the islands of Cagayan and Sibutu; President McKinley received the Cuban Commissioners April 26; the Pan-American Exposition was formally opened at Buffalo, N. Y., May 1; it was closed November 4; civil government was established at Manila, in the Philippines, May 3; Jacksonville, Fla., suffered a \$10,000,000 fire May 3; Cardinal Martinelli was invested with the red biretta at Baltimore; five cadets were dismissed and six suspended at West Point for insubordination May 22; a decision was rendered by the United States Supreme Court declaring duties collected prior to the Porto Rican Tariff law to be illegal (and refundable), but the law itself to be constitutional, May 7; Senators McLaurin and Tillman resigned their seats in the United States Senate, but their resignations were not accepted by the Governor of South Carolina, May 30; the Hall of Fame at New York University was inaugurated May 30; General Chaffee was appointed Military Governor of the Philippines June 22; Minister Leishman, of the United States, obtained a final settlement from Turkey of indemnity claims July 2; the will of Jacob S. Rogers, of Paterson, N. J., bequeathed \$5,000,000 to the Metropolitan Museum of Art, New York City, July 5; William H. Hunt was appointed Governor of Porto Rico July 23; in response to the request of Rear-Admiral the Secretary of the Navy ordered a Court of Inquiry into his conduct in the Spanish-American war July 24; Admiral Schley was exonerated from all blame December 13; the new battleship Maine was launched at Philadelphia July 27; a general strike was made by 14,000 employees of the United States Steel Corporation August 10; the bi-centennial of Yale University was celebrated October 20-24; the Isthmian Canal Treaty between the United States and Great Britain was signed by Secretary Hay and Lord Pauncefote November 8; the South Carolina and West Indian Exposition at Charleston, S. C., was opened with religious ceremonies December 1.

Abroad, in 1901, the noteworthy events were: Lord Roberts was made Earl and Knight of the Garter by Queen Victoria January 2, and was received in London with royal honors the following day; the Kingdom of Prussia celebrated its bi-centenary Jan-

uary 17; Queen Victoria died at Osborne House, Isle of Wight, January 22, and King Edward VII. of Great Britain and Ireland, Emperor of India, was proclaimed January 24; after many honors, the final ceremonies of the entombment of Queen Victoria were held at Frogmore Mausoleum, Windsor, February 4; Queen Wilhelmina of Holland wedded Duke Henry of Mecklenburg-Schwerin February 7; the Italian Ministry resigned February, and the Zanardelli ministry was formed February 14; General Weyler, as Captain-General, proclaimed martial law in Madrid February 13; King Edward VII. opened Parliament February 14; Russia retaliated on the advance of the United States duty on Russian beet sugar by adopting additional duties on certain American goods February 16; the Cuban Constitution was signed by the delegates in the convention at Havana February 21; Count Tolstoi was excommunicated by the Orthodox Greek Church March 9; Great Britain declined to accept the Senate amendments to the Hay-Pauncefote treaty March 11; the Spanish Cabinet approved of a treaty of friendship with the United States April 3; the Glasgow International Exposition was opened May 2; a protest was made by foreign representatives at Constantinople against the alleged tampering with the mails by the Porte May 8; the British Government pardoned Arabi Pacha, the Egyptian rebel, May 22; Bresci, the assassin of King Humbert of Italy, committed suicide at San Stefano prison, Rome, May 22; a volcanic eruption at Keloet, Japan, caused great loss of life May 23; the franchise was conferred on women taxpayers by the Norwegian Parliament May 25; Scotch universities received a gift of \$10,000,000 in steel bonds from Andrew Carnegie June 7; a monument to Commodore Matthew C. Perry, U. S. N., was unveiled at Kurlhama, Japan, June 14; the Arctic exploring expedition of Baldwin and Ziegler sailed from Tromso, Norway, July 17; the British House of Lords arraigned and sentenced Earl Russell to three months' imprisonment, on his pleading guilty to a charge of bigamy, July 18; the International Tuberculosis Congress was opened in London July 22; Dr. Snering Berson, of Berlin, Germany, made a balloon ascension of 33,500 feet August 1; France and Turkey severed diplomatic relations owing to differences over quay concessions August 21; the release of Miss Ellen M. Stone, an American missionary, and her companion, captured by brigands in Bulgaria, was ordered by the Sultan; she was still in imprisonment, waiting to be ransomed, at the close of the year, although \$56,000 was raised in the United States in October to pay the ransom; the steamer Erik brought news to North Sydney, Cape Breton Island, of Lieutenant Peary's Arctic discoveries September 13; the British torpedo-boat Cobra buckled and sank off the Lincolnshire coast and carried down sixty-seven men September 19; the statue of King Alfred the Great was unveiled by Lord Rosebery at Winchester, England, during the millenary celebration September 20; the King Alfred, the largest cruiser in the world, was launched in England October 28; the French fleet seized three Turkish ports, which were held until the Porte settled the French claims, November 5; the Colombian Liberal troops surrendered at Colon November 28.

## 1902

The strenuous career of President Roosevelt was well under way when 1902 opened. On January 20 he sent to Congress the report of the Isthmian Canal Commission, recommending the purchase of the Panama Canal Company rights for \$40,000,000. On February 19 he refused to reopen the Sampson-Schley controversy. On July 4 he issued orders establishing civil government in the Philippines and granting amnesty for political prisoners. On September 3 he narrowly escaped being killed near Pittsfield, Mass., his coach being struck by a trolley car; the President was slightly injured, and Secret Service Agent Craig was killed. On October 16 he appointed a commission to investigate and settle questions involved in the coal strike. It was in 1902 that the question of the annexation of the Danish West Indian islands of St. Thomas, St. Johns and St. Croix to the United States aroused international attention. A treaty with Denmark for the purchase of these islands was ratified by the United States Senate February 17, after a plebiscite showed a large majority of the islands to be in favor of annexation. The Danish Upper House, however, on October 2, refused, by one majority, to cede the islands to the United States. Other events of special interest in the United States were: The visit of Prince Henry of Prussia February 23-March 11 to attend the launching of Emperor William's yacht Meteor, which was christened by Miss Alice Roosevelt, the President's daughter, at Shooter's Island, New York Bay, February 25; the provisions of the will of

Cecil Rhodes relating to scholarships for American and German students at Oxford were made public April 4; a great strike of anthracite coal workers in the Pennsylvania region begun May 12; the Rochambeau Statue was dedicated at Washington, D. C., a delegation of French notables being present, May 24; three days later the Rochambeau delegation from France was received in New York by a great military parade and dined with the Society of the Cincinnati; the celebration of the centennial anniversary of West Point Academy was begun June 9; the Vatican answered the note of Governor Taft concerning the friars in the Philippines July 9, and negotiations between the Vatican and the United States Government in regard to the question were abandoned, the Pope being unable to consider the sale of friars' lands, July 16; troops were ordered out to put down rioting at Shenandoah, Pa., among anthracite coal miners July 30; United States naval manoeuvres off the New England coast began and continued three weeks August 20; McKinley memorial services were held in many places throughout the United States September 14; Speaker Henderson refused to accept renomination to Congress because he disagreed with his constituents on the tariff question, September 16; Secretary Hay addressed a note to the Powers signatory to the Berlin treaty, urging relief for the Roumanian Jews, September 17; Lieutenant Peary, American Arctic explorer, arrived at Sydney, C. E., having penetrated as far north as 84° 17', northwest of Cape Hecla; a stampede at the National Negro Baptist Convention at Birmingham, Ala., resulted in the death of more than 100 persons September 19; Admiral Casey refused to permit the transportation of soldiers across the Isthmus of Panamá, and the Colombian Government formally protested against his action October 10; the decision of The Hague tribunal in the Pious Fund case, adverse to Mexico and in favor of the United States, was announced October 14; the great strike in the Pennsylvania coal region was declared off October 21; the Samoan controversy was decided adversely to the United States by King Oscar of Sweden and in favor of Germany October 21; Wu Ting-fang, Chinese Minister at Washington, was recalled October 27; the reciprocity treaty between the United States and Newfoundland was signed November 8; the United States Supreme Court denied a petition for an injunction against the State Board of Canvassers of Virginia on behalf of negroes disfranchised by the new State Constitution November 29; the United States Navy manoeuvres in the Caribbean resulted in the success of the "White Squadron" representing the enemy December 9. The Venezuelan Government appealed, through the United States, for arbitration of European claims December 15. This was the result of several warlike incidents in Venezuela. On November 4 a revolution ended, General Mendoza having been defeated with a loss of 3,100 killed and wounded, and President Castro re-entered Caracas November 10 and issued a bombastic proclamation. On November 26 England and Germany united to press their claims against the republic, and presented an ultimatum on December 9, seizing the Venezuelan fleet the same day. On December 10 the British and German fleets landed marines at La Guayra, Venezuela, and seized the custom house. On December 14 the same fleets bombarded and demolished a Venezuelan fort at Puerto Cabello.

One of the most terrible disasters in the world's history marked 1902, when, on May 7, an eruption of Mont La Soufriere, St. Vincent, British West Indies, destroyed 2,000 lives and laid two-thirds of the island in waste. The next day, early in the morning, Mont Pelee, Martinique, destroyed the city of St. Pierre, with 30,000 people. All civilization shuddered at the tragedy, and the United States was the first to afford relief. A second violent eruption of Mont Pelee, August 30-September 4, killed 2,000 more persons in a vicinity not devastated by the first great outbreak of the volcano.

Other events abroad were: The Emperor and Empress Dowager of China re-entered Peking January 7; a British-Japanese alliance to preserve the integrity of China and Korea was announced February 12; about 2,000 persons were killed by an earthquake around Shamaka, Trans-Caucasia, February 16; rioting in Barcelona, Spain, led to the killing of 500 people February 20; Miss Ellen M. Stone and her companion, Mme. Tsilka, were released by the Macedonian brigands February 23; a five days' celebration of the centenary of Victor Hugo's birth was begun in Paris February 26; a convention was signed at Peking between China and Russia, the latter agreeing to evacuate Manchuria, April 8; revolutionists in Santo Domingo deposed President Jimenez May 5; the first Congress of the Cuban Republic met in Havana May 5; the coronation of King Alfonso of Spain took place at Madrid May 17; Tomas Estrada Palma was inaugurated as first President of Cuba May 20; Waldeck-Rousseau, Premier of France, resigned May 23, and M. Combes

formed a new French Ministry June 6; Lord Kitchener announced that a peace treaty had been signed between England and the Boers May 21; King Edward VII submitted to an operation for appendicitis June 24, and the coronation, set for June 26, was postponed, finally taking place August 9, when he, with Queen Alexandra, were crowned in Westminster Abbey; General Kitchener received a hearty welcome on his return to England after the Boer war and was decorated with the new Order of Merit by the King July 12; the famous Campanile at Venice, Italy, fell July 14; the Marquis of Salisbury resigned as Premier of England, and Arthur J. Balfour succeeded him, July 14; a decree for closing certain religious schools was signed by President Loubet, and there was great excitement throughout France, July 25, followed by Socialist demonstrations in Paris August 3, in support of the Government's attitude on the school question; the Boer Generals Botha, DeWet and Delarey received a cordial welcome in England August 16; the German gunboat Panther sank the Haytian gunboat Crete-a-Pierrot, flagship of Admiral Killick, who went down with his ship September 7; Captain Sverdrup, Arctic explorer, returned to Christiana, Norway, in his vessel, the Fram, September 28, Zola, the novelist, died by accidental asphyxiation in Paris September 29; a typhoon at Yokohama, Japan, drove a battleship ashore and cost 500 lives September 29; the Canadian-Australian cable was completed from Vancouver to Fanning Island, a distance of 3,455 miles, October 6; French coal miners, to the number of 25,000, went out on strike October 6; the French Chamber of Deputies sustained the ministry on the question of the enforcement of the associations law October 17; General Uribe-Urbe, leader of the insurgents in Colombia, surrendered to the Government October 28; about 1,600 Doukbouhors marched into Yorktown, Northwest Territory, Canada, demanding food October 28; the volcano Santa Maria, in Guatemala, was active and a large district was disturbed October 30; an attempt upon the life of King Leopold of Belgium was unsuccessful November 15; the reputed ashes of Christopher Columbus were deposited in a special mausoleum in the cathedral of Seville, Spain, November 17; the civil war in Colombia was ended by the signing of a treaty of peace between the Government and the insurgents November 22; labor riots in Havana resulted in the killing of two strikers and in the injury of eighty-two other persons November 24; Joseph Chamberlain, British Colonial Minister, started on an official visit to South Africa November 25; the Assuan Dam, on the Nile, in Egypt, was opened December 8.

#### THE BOER WAR.

The reinforcing of the British troops in South Africa along the borders of the Transvaal Republic, together with differences on the franchise question, coupled with grim recollections of former armed clashes between Great Britain and the sturdy, patriotic Boers, all tended to hasten the conflict of 1899-1900, one of the most sanguinary in the world's history. As an effort to avert war a conference was held May 31, 1899, between Sir Alfred Milner, Governor of Cape Colony, and the Presidents of the Dutch Republics at Bloemfontein, in which terms for the adjustment of the claims of the Outlanders were discussed, but no agreement was reached. Between June 1 and October 10 negotiations proceeded between the governments of Great Britain and the Transvaal, while the Legislature of the latter adopted franchise laws which were not acceptable to Great Britain. In the meantime both countries made energetic preparations for war, and the Orange Free State announced that in case of hostilities it would support the Transvaal.

On October 10 the Transvaal sent to the British Government an ultimatum demanding: That all points of mutual difference be regulated by friendly recourse to arbitration or by whatever amicable way might be agreed upon by the governments concerned; that all British troops on the border of the Transvaal Republic should be instantly withdrawn; that Great Britain should withdraw all reinforcements of troops landed in South Africa since June 1, 1899, with assurance that during further negotiation the Republic would not attack any British possessions, and that upon compliance with the ultimatum the Republic would be prepared to withdraw from the borders the armed burghers of the Transvaal; that the British troops then on the high seas should not be landed in any part of Africa; that an answer to the ultimatum be received by the Republic not later than 5 o'clock P. M. on October 11; that an unsatisfactory answer would be regarded by the Republic as a formal declaration of war by Great Britain, as would also be a further movement of British troops in a nearer direction to the Republic's borders.

On October 12, 1899, the reply of the British having been unsatisfactory, the Trans-

vaal Boers invaded Natal, advancing toward Newcastle, which was defended by the British Generals White and Symons. The British evacuated Newcastle and fell back on Ladysmith, where, on October 13, there was a strong British force. On October 20 the Boers begun the siege of Kimberley, and on the same day in Natal was fought the battle of Dundee, in which the British repulsed the Boers, suffering a loss of 215 in killed and wounded. On October 1 General French captured the Boers' position at Elandsplaagte after a hard battle, with a British loss of 257 killed and wounded. General White repulsed a Free State force at Rietfontein, near Ladysmith, October 24. Five days later the Boers began the siege of Ladysmith. On October 30, in a sortie near Ladysmith, the British were entrapped and defeated, and the Boers captured 870 prisoners. Communication with Ladysmith was cut off by the Boers on November 2, and the next day the British evacuated Colenso, in Natal. The Boers shelled Mafeking November 6, but were repulsed in an attack on the British position. The first British transport carrying reinforcements reached Cape Town on November 9 and proceeded to Durban. The Boers wrecked a British armored train near Eastcourt, Natal, on November 16, capturing fifty-six prisoners, including Winston Churchill. On November 23, near Gras Pan, Lord Methuen attacked the Boers and drove them from their position, and on November 26 the British won a sanguinary victory at Modder River. A series of Boer successes then followed. On December 10 the British, under General Gatacre, were led into a Boer ambush near Stormberg Junction and lost 1,000 men, including 672 captured, while on the same and following day Lord Methuen failed to take the Boer position at Spytfontein after desperate fighting and heavy losses, General Wauchope being killed. On December 15 General Buller was severely defeated while attempting to force the Tugela River, near Colenso, he losing 1,000 men and eleven guns. The British losses to this date were 7,630 men killed, wounded and missing, and the attention of the civilized world was riveted upon the war. After Buller's signal defeat Field Marshal Lord Roberts was ordered, December 18, to South Africa, to take command of military operations, with Lord Kitchener as chief of staff, and with a reinforcement of 100,000 men.

General French captured Colesburg on New Year's day, 1900. On January 6 Roberts and Kitchener arrived in South Africa, and on the same date the Boers were repulsed with heavy loss in an attack on Ladysmith. On January 23-25 occurred some of the most desperate and famous fighting of the war, when a British storming party under General Warren captured Spion Kop, but, after heavy losses, withdrew. General Buller made a third attempt to relieve Ladysmith, but failed, February 9, and Lord Roberts began an invasion of the Orange Free State on February 12. General French relieved Kimberley on February 15. On February 22-27 there was severe fighting between Roberts and Cronje, terminating with the capitulation of the latter, with 4,600 men and six guns. Lord Dundonald entered Ladysmith on February 28, and General Gatacre occupied Stormberg on March 5. On March 7 Lord Roberts turned the Boer position near Modder River and advanced triumphantly on Bloemfontein, capital of the Orange Free State, which surrendered to the British on March 13. The Boer Commander-in-Chief, General Joubert, died on March 27, and Colonel de Villebois Mareuil, French officer with the Boers, was killed in a skirmish on April 5. General Cronje and the other Boer prisoners were sent to St. Helena, where they arrived April 14, and the demoralization of the Boers seemingly begun. On April 20 Mr. Pettigrew, in the United States Senate, introduced a resolution of sympathy with the Boers, but it was voted down, 29 to 20. On May 3 Lord Roberts began his advance on Pretoria.

The Boers now turned to the United States and Europe for intervention. Consul Hay, on May 10, sent to Washington from Pretoria a telegram stating that he was officially requested by the governments of the republics to urge intervention by the United States with a view to the cessation of hostilities. The same request was made to representatives of the European Powers. President McKinley directed Secretary of State Hay to convey to the British Government the substance of Consul Hay's telegram, expressing the earnest hope that a way to bring about peace might be found, and to say that the President would be glad to aid in any friendly manner the promotion of so happy an end. The Transvaal Government was at the same time informed of President McKinley's action in the matter. Lord Salisbury replied to Secretary Hay thanking the President for the friendly interest shown by him, but added that Her Majesty's Government could not accept the intervention of any Power. Through Consul Hay at Pretoria this communication was immediately

transmitted to President Kruger, of the South African Republic. The United States, so far as Secretary Hay was informed, was the only Government in the world of all those approached by the South African Republic which tendered its good offices to either of the combatants in the interest of the cessation of hostilities.

Thus the war continued. On May 10 the British crossed the Zand River and occupied Kroonstad, and on May 15 General Buller occupied Dundee. The Boer envoys to the United States reached New York on May 16, the day that Mafeking was relieved, after a siege of 217 days. President McKinley received the envoys unofficially, but they were officially informed by Secretary of State Hay that the United States could not intervene in the war. The end of the struggle was not yet, however, in sight. On May 28 Lord Roberts proclaimed the annexation of the Orange Free State to the British Empire. The British entered Johannesburg on May 30, and on the same day President Kruger retired from Pretoria, which city surrendered on June 5 to the British army. General Prinsloo and 3,343 Boers surrendered at Naauwpoort, and Harrismith surrendered to General Macdonald on August 4. Several conspirators against the life of Lord Roberts were tried at Pretoria August 17, and their leader was executed. Machadodorp, Kruger's new capital, was occupied by General Buller August 28. On September 1 the Transvaal was proclaimed a part of the British Empire by Lord Roberts. Guerilla warfare, which had begun July 1, was now general in the Transvaal, and the Boer Generals DeWet and Botha continued to harass the British by sporadic raids. Ex-President Kruger, abandoning the Transvaal, began his journey to Europe September 12. He arrived at Marseilles on November 22 and had an ovation from the French people, the demonstrations of welcome continuing through his journey to Paris, while the National French Assembly adopted resolutions of sympathy. On November 30 the supreme military command in South Africa was turned over to Lord Kitchener by Lord Roberts, who departed for home, sailing for England from Cape Town on December 12. In the meantime the German Government intimated to Mr. Kruger on December 1 that a visit by him to Berlin would be inopportune. Queen Wilhelmina of the Netherlands, on the contrary, welcomed Mr. Kruger at a dinner on December 15. The British met with a severe reverse at Nootgedacht December 13, Colonel Legge being killed. On December 14 Sir Alfred Milner was appointed Administrator of the Orange River and Transvaal colonies, and the year closed with both sides grimly determined to continue the terrible warfare to a definite conclusion.

#### A YEAR OF DEADLY STRUGGLE.

The first battle of 1901 was at Lindley, Orange River Colony, where forty British officers and men were killed or wounded. On January 7 the British position along Delagoa Bay Railway was unsuccessfully attacked by the Boers, who were also driven back on January 17 near Standerton, when they attacked a British column under General Colville. On January 18 New Zealand troops and Bushmen, under Colonel Gray, routed 800 Boers near Veustersburg. On January 30 the Bloemfontein-Ladybrand line was crossed by DeWet near Israel's Poort, and the Boers captured the British post at Modderfontein. In the Transvaal, on February 3, at about which time the British War Office decided to reinforce Kitchener with 30,000 additional mounted troops. General Smith-Dorrien was attacked by Louis Botha with 2,000 men at Orange Camp February 6, but repulsed him. On the same date the Boers cut the Delagoa Bay Railroad, near Lorenzo Marques; ten days later DeWet crossed the railroad at Bariman's Siding and was engaged by Crabbe and an armored train, and on February 19 the Boers blew up a supply train at Clip River. Four severe Boer reverses then followed in quick succession. The Boers, 5,000 strong, were defeated by General French at Piet Retief February 22; DeWet's force was scattered by Colonel Plummer at Disselfontein, Orange River, February 23; General French captured 300 Boers, ammunition, cattle and supplies at Middleburg February 26; Lord Kitchener drove DeWet north of the Orange River, with a loss of 280 men captured, March 1. Lord Kitchener then granted General Botha a seven days' armistice to make communication with other Boer leaders, after which truce hostilities were resumed. The Boers captured a British supply train near Viaklaagte March 22, but were defeated three days later near Vryheid by General French. On March 27 Fourie's commando and Bruce

Hamilton's command held a running fight for twenty miles. Commandants Prinsloo and Englebrecth surrendered to the British March 30, and the British reoccupied Pietersburg on April 9, on which date the Boers captured seventy-five men of the Fifth Infantry and Imperial Yeomanry. General Botha, on April 10, renewed negotiations for peace. Sir Alfred Milner, returning home from South Africa, was received by the King and created a peer May 21. The Boers, again for a time, rejoiced over successes. They attacked and partially destroyed the convoy of General Plummer's column May 25; captured a British post of forty-one men near Maraisburg May 27, and attacked General Dixon's brigade of the Seventh Yeomanry near Vlakkfontein May 29, causing a heavy British loss. On June 3 an attack by 700 Boers under Scheeper upon Willomore, Cape Colony, was repulsed after a nine hours' fight. The British and Boers lost heavily in an engagement between Elliot and DeWet near Reitz June 6, and on the same day Colonel Wilson, with 240 men, routed 400 Boers under Bever near Warm Baths. The Boers captured 200 members of the Victoria Mounted Rifles at Steenkoolspruit June 12, and the Midland Mounted Rifles were overpowered by Commandant Malan at Waterkloof June 20.

President Schalk-Burger, of the South African Republic, and President Steyn, of Orange Free State, issued a proclamation for "no peace without independence" June 20, and on August 7 Lord Kitchener issued a proclamation of banishment against all Boers in South Africa not surrendering by September 15. In the meantime General Benson repulsed the Boers in a mountain pass near Dullstroem, and, though the inevitable end of the warfare was becoming daily more apparent, fighting was continued. Fifty of General French's scouts were captured in Cape Colony August 16; three officers and sixty-five British north of Ladybrand were captured August 21; the Boers attacked a convoy near Kooipopje and killed nine men of the Seventy-fourth Yeomanry, wounding twenty-three, on August 24; Colonel Vandeleur and nine men were killed and seventeen wounded by the blowing up of a train in the Transvaal August 31; Von Tonder and Delarey engaged General Methuen in the Great Maries valley September 8. Then, on September 16, the British troops captured Lotter's entire command south of Pietersburg, and on the following day the Boers partially evened matters by ambushing and capturing three companies of British mounted infantry under Major Gough near Scheeper's Nek, and also by capturing a company of mounted British infantry and two guns at Vlakkfontein September 20. Two Boer commandos were captured September 21 near Adenburg, and Col. the Hon. A. Murray and Captain Murray, his adjutant, were killed in a fight with Krintzinger, who crossed the Orange River. On September 29 Commandant Delarey attacked Colonel Kekewich's camp at Moedwill, with loss on both sides.

#### THE APPROACH OF THE INEVITABLE END.

Martial law was declared throughout Cape Colony on October 9. The following day Gen. Sir Redvers Buller admitted in a speech that he advised the surrender of Ladysmith and was severely criticised for his utterances. Commander Scheeper was captured October 12, and Captain Bellew and four others were killed in a fight October 16 at Twenty-four Streams. On November 1, in a heavy Boer attack on Colonel Benson's column near Brakenlaagte, the British lost 25 officers and 214 men in killed and wounded. During the next sixty days numerous small skirmishes were reported, but the year closed with all signs pointing to the early conclusions of peace.

During the first three months of 1902 the war was more or less of a desultory character, negotiations for peace between the Boer leaders and the British Government beginning on March 23, the latest notable Boer accomplishment having been the capture of General Methuen and 200 men, 41 British being killed, on March 11. On March 23 Acting President Schalk-Burger, Mr. Reitz, former Secretary of State of the South African Republic, and Commandant Lucas Meyer applied to Lord Kitchener at Pretoria for a safe conduct to the Orange River Colony with the view of discussing terms of peace with the Boer generals in the field. On April 9 Mr. Steyn and Generals Delarey and DeWet entered Klerksdorp with a flag of truce and met Mr. Schalk-Burger and his party, and Gen. Louis Botha, Commander-in-Chief of the Boer forces. These leaders, in conference, determined to submit to the burghers in the field the question of a cessation of hostilities, and by

this method learned that the fighting Boers were for peace. Formal negotiations were opened with the British Government through Lord Kitchener. On June 2, in the House of Commons, was announced by First Lord of the Treasury A. J. Balfour, the following British terms of peace:

The burgher forces in the field to forthwith surrender all their arms and ammunition of war, desist from further resistance, and acknowledge King Edward VII. as their lawful sovereign; all burghers outside the limits of the Transvaal and Orange River Colony, and all prisoners of war who are burghers, outside of South Africa, to be brought back to their homes, suffering no loss of personal liberty or property, as soon as transportation and subsistence can be assured; no proceedings, civil or criminal, to be taken against surrendering burghers for any acts in connection with the prosecution of the war, Great Britain retaining the right to try by court-martial persons guilty of violating the usages of war; the Dutch language to be taught in the public schools of the Transvaal and Orange River Colony, where the parents desire it, and its use permitted in the courts of law for the better and more effectual administration of justice; the use of rifles to be allowed in the Transvaal and Orange River Colony, by license, by persons requiring their protection; civil government in the Transvaal and Orange River Colony to succeed military administration as soon as possible, and the establishing of representative institutions leading up to self-government; the question of granting franchise to the natives to be decided after the granting of self-government; no special tax to be imposed on landed property in the Transvaal or Orange River Colony to defray the expense of the war; the assisting, by the British Government, in the restoration of the people to their homes and resumption of their normal occupations by a British loan of £3,000,000 (\$15,000,000) free of interest for two years, and afterward repayable over a period of years, with 3 per cent. interest, such loans to be made through a commission, in which each district of the Transvaal and Orange River Colony shall be represented; the British Government to indemnify holders of the South African Republic's notes of 1900, considering such notes as war losses.

With regard to the treatment of the Cape and Natal colonists who were in rebellion, but who had surrendered since April 12, 1901, the British Government offered broad immunities, with restoration of voting privileges, reserving the right to try others, who had held official positions in the Cape Colony Government, and who held commands in rebel or burgher forces, for high treason, provided, that in no cases the death penalty should be inflicted as punishment unless the rules of civilized warfare had been violated. These arrangements, which were suggested by the Cape Government, were approved, as submitted, by the British Government.

On May 31, 1902, Lord Kitchener announced that a peace treaty had been signed between Great Britain and the Boers, Commandant-Gen. Louis Botha, assisted by General Delarey and Chief Commandant DeWet, acting for the Boers. Lord Kitchener returned to England, where he was heartily welcomed, July 12, and was decorated by the King with the new Order of Merit. On August 16 Generals Botha, DeWet and Delarey were cordially received in England, and the Boers were thus further mollified.

## 1903

The year 1903 was one of general calm, when compared with the five years immediately preceding it. The events of greatest interest in the United States were: The Panama Canal treaty between the United States and Colombia was signed January 22; the United States and Great Britain signed a treaty providing for a mixed commission to settle the Alaskan boundary dispute January 24; John D. Rockefeller's gift of \$7,000,000 to be used in research for tuberculosis serum was announced January 27; Great Britain, Germany and Italy signed, February 13, protocols providing for the settlement of the Venezuelan controversy at Washington, and protocols for the settlement of the French, Mexican and Dutch claims against Venezuela were signed at Washington February 26-28; the President signed the bill creating the Department of Commerce and Labor February 14; the Cuban Senate ratified the reciprocity treaty with the United States March 11, and it was ratified at Washington, with amendments, March 19; the Panama Canal treaty was

ratified by the United States Senate by a vote of 73 to 5 March 17; the height of the Mississippi River at New Orleans, 19.8 feet, was the greatest ever known March 20; the New York State Legislature passed the bill for \$100,000,000 canal improvements; President Roosevelt started on an extensive Western trip April 1; the Moro fort at Bacalod, Philippines, was captured by a force under Captain Pershing April 10; the United States Court of Appeals decided the Northern Securities Company merger illegal April 9; Tuskegee Institute, Alabama, received a gift of \$600,000 from Andrew Carnegie April 23; the United States Supreme Court sustained the clause in the Alabama Constitution disfranchising the negroes April 27; the dedication of the Louisiana Purchase Exposition buildings at St. Louis took place with imposing ceremonies April 30; President Roosevelt assisted at the laying of the corner-stone of a monument to Lewis and Clarke at Portland Ore., May 21; the Presbyterian General Assembly formally enacted amendments to the Confession of Faith May 28; St. Gauden's Statue of General Sherman was unveiled in New York City May 30; floods at Topeka, Kan., drowned more than 200 persons, rendered 8,000 homeless, and destroyed \$4,000,000 worth of property May 31; the following day there was great loss of life and property by a tornado at Gainesville, Ga.; on June 6 a cloudburst at Clifton, S. C., resulted in a loss of fifty lives and a property damage of \$3,500,000; at Hepner, Ore., on June 15, 500 people lost their lives through a cloudburst and \$1,000,000 worth of property was destroyed; the Textile Council declared the strike at Lowell mills ended, the strikers having lost \$1,300,000 in wages, June 21; the European Squadron of the United States arrived at Kiel and was received by the German Emperor June 23-26; an explosion in a coal mine near Hanna, Wyo., killed 200 people June 30; Cuba ceded to the United States two naval stations, and government of the Isle of Pines was settled July 2; the Pacific cable was completed, and on July 4 President Roosevelt sent the first message over to Governor Taft, of the Philippines; the President sent another message around the world by cable in twelve minutes; Russia refused to receive or consider the Kishineff petition from America July 16; the time for the ratification of the St. Thomas treaty between Denmark and the United States having expired, the treaty, which provided for the purchase of the Danish West Indies by the United States, was dead, July 24; the battle-ship Kearsarge completed her long-distance run across the Atlantic, 2,885 miles, in 9 days, 4½ hours, at an average speed of 13.1 knots per hour, July 26; Lieut.-Gen. Nelson A. Miles issued an address to the army on the occasion of his retirement August 7; Caleb Powers, formerly Secretary of State of Kentucky, was convicted and sentenced to death for complicity in the assassination of Governor Goebel August 29; the Federal Grand Jury indicted G. W. Beavers, A. W. Machen and others in connection with post-office frauds September 8, many more indictments being found later; Chicago celebrated the hundredth anniversary of the first settlement September 26-October 1; a commercial treaty between the United States and China was signed October 8; floods in Paterson, N. J., did \$3,000,000 damage October 9-11; the Alaskan Boundary Tribunal in London decided in favor of the United States on all points except the Portland Canal October 17; the Republic of Panama was proclaimed November 3, and the United States recognized the independence of Panama November 6; Congress met in extraordinary session to consider the Cuban reciprocity treaty November 9; the Cuban naval station at Guantanamo was transferred to the United States November 11; the House of Representatives passed the Cuban Reciprocity bill by a vote of 335 to 21 November 19; Grover Cleveland announced that he would not accept a renomination for the Presidency November 28; the report on the postal frauds was made public by the President, who urged extension of statute of limitations for Government employees, November 29; by the burning of the Iroquois Theatre in Chicago 600 lives were lost December 30.

The leading happenings of 1903 abroad were: The ceremonies of the coronation of Durbar at Delhi, India, continued, January 1; the German gunboat Panther bombarded a Venezuelan fort January 17; Col. Arthur Lynch was found guilty in England of high treason in fighting for the Boers January 23; Mr. Wyndham, Chief Secretary for Ireland, introduced the Irish Land bill into the House of Commons March 25; the King of Serbia suspended the Constitution of that country April 7; there was a massacre of Jews at Kichineff, Russia, April 19-20; Andrew Carnegie gave \$1,500,000 to erect a Temple of Peace for The Hague Court of Arbitration April 20; King Edward became the guest of King Victor Emmanuel at Rome April 27, and was later received by President Loubet and the French people in Paris; the Russians reoccupied the Province of New-chwang, Manchuria, with a large force of troops May 8; General Manning's British troops defeated

the Mad Mullah in Somaliland May 25; the King and Queen of Servia were assassinated at Belgrade June 11, Peter Karageorgevitch was proclaimed King by the conspirators, who were mainly army officers; the Servian National Assembly offered him the crown, and he accepted, assuming the title of Peter I., June 15; Bulgaria appealed to the Powers to compel Turkey to withdraw troops from the frontier July 1; President Loubet, of France, was entertained in England, July 6; Pope Leo XIII. died July 20 and was succeeded, August 4, by Cardinal Giuseppe Sarto, Patriarch of Venice, who assumed the title of Pius X.; King Edward and Queen Alexandra were warmly received in Ireland July 21; the House of Commons passed the Irish Land bill, 317 to 20, July 21; the battleship King Edward VII., then claimed to be the largest in the world, was launched at Devonport, England, July 23; Andrew Carnegie made a gift of \$2,500,000 to his native town of Dunfermline, Scotland, August 5; Bulgarian insurgents blew up the Governor's palace at Keushevo, killing fifty Turks, August 6; the coronation of Pius X. as Pope took place at the Vatican August 9; more than 100 lives were killed by asphyxiation in the underground tunnel at Paris, two trains being fired by a defective dynamo, August 10; the Irish Land bill passed the third reading in the British House of Lords August 11; a West Indian hurricane destroyed \$15,000,000 in values and many lives August 11-13; Bulgaria sent a memorandum to the Powers detailing outrages committed by Turkey in Macedonia August 15; the Russian squadron arrived in Turkish waters August 19, but was withdrawn by the urgent request of Turkey the next day; the Zionist Congress opened at Basel, Switzerland, August 22; the Turks massacred all the women and children in twenty-two villages in the districts of Florina and Monastir August 24; the British Royal Commission issued a report condemning the lack of preparation of the army in 1900 August 25; Joseph Chamberlain, Charles T. Ritchie and Lord George Hamilton resigned from the British Ministry September 17; Premier Balfour declared for a protective tariff for England October 1; Russian troops entered Moukden October 29; an operation for the removal of a polypus from the larynx was performed on Emperor William November 8; Wos y Gil, President of San Domingo, took refuge in the German Consulate from the revolutionists November 10; Queen Victor Emmanuel and Queen Helena were cordially received in England November 17; the Dreyfus case was reopened in France December 1.

## 1904

The war between Russia and Japan, reviewed in a special account on pages 96-101 in this quarter-century record of events, was the paramount event in 1904, the struggle being eagerly watched by all nations. At the same time, Great Britain was fighting an interesting warfare in Thibet, Germany's troops were active in Southwest Africa, and the United States sent a naval squadron to Tangier because of the kidnapping of Perdicas, an American citizen, by the Arabs. At home, a Presidential campaign added to the excitement. In the political arena in the United States it was obviously a "Roosevelt year." The Republican National Convention at Chicago, June 23, nominated Theodore Roosevelt, of New York, for President, and Charles W. Fairbanks, of Indiana, for Vice-President. The Democratic National Convention at St. Louis nominated Alton B. Parker, of New York, for President on the first ballot. Judge Parker sent a telegram to the convention saying that he regarded the gold standard as irrevocably established, and that he wished the convention to understand his position before it adjourned. The convention replied that it did not regard the gold standard as an issue in the campaign, and proceeded to complete its ticket by nominating Henry G. Davis, of West Virginia, for Vice-President. Roosevelt had a "walk over," receiving 2,541,635 popular votes to Parker's 1,729,809. Roosevelt's electoral vote was 336 to Parker's 140. Other events in the United States were: The United States Supreme Court decided that Porto Ricans are not aliens, January 4; the commercial treaty between the United States and China was ratified at Washington, President Roosevelt issuing a proclamation to that effect January 13; William H. Taft became Secretary of War, Elihu Root retiring, February 1; fire in Baltimore's business district destroyed \$70,000,000 worth of property, burning over 140 acres, comprising seventy-five city blocks, wiping out about 2,500 buildings, February 7-8; the United States Senate ratified the Panama Canal treaty by a vote of 66 to 14 February 23; the business district of Rochester, N. Y., suffered a \$3,200,000 fire February 26; the Wisconsin State Capitol at Madison was burned, loss, \$300,000, February 27; one of the tunnels under the Hudson, between New Jersey and New York, was completed March 11; the

United States Supreme Court decided by a vote of 5 to 4 that the Northern Securities Company was a trust, and therefore, illegal, March 14; President Roosevelt made a ruling that all civil war veterans sixty-two years of age are entitled to pensions March 16; the United States Senate, in executive session, ratified the treaty with Cuba, embodying the Platt amendment, March 22; United States Senator Joseph R. Burton, of Kansas, was convicted at St. Louis of accepting a bribe March 28; Chicago voted overwhelmingly for municipal ownership of street railways April 5; an explosion of powder on the United States battleship Missouri killed twenty-nine men and injured five more April 13; Andrew Carnegie established a fund of \$5,000,000 to provide for those who risk their lives for others and for the widows and orphans of those who sacrifice their lives for others April 15; the contract for the transfer of the Panama Canal property to the United States was signed at Paris April 22; the Louisiana Purchase Exposition was opened at St. Louis April 30; the excursion steamer General Slocum, having on board a Sunday-school picnic, was burned in the East River and more than 1,000 persons, mainly women and children, were lost June 15; the American Perdicaris and his stepson, Varley, having been released by the bandit Rais-Üli, arrived at Tangier June 24; the Prohibition party nominated Dr. Silas C. Swallows, of Pennsylvania, and George W. Carroll, of Texas, for President and Vice-President, respectively, June 30; the centennial anniversary of the birth of Nathaniel Hawthorne was observed at Concord, Mass., July 4; the People's party nominated Thomas E. Watson, of Georgia, for President, and Thomas H. Tibbles, of Nebraska, for Vice-President, July 5; a strike of 45,000 employees in the meat packing establishments of Chicago begun July 12, and on July 24 began a strike involving 24,000 operatives in the textile mills at Fall River, Mass., the United States Government directed Minister Bowen to protest against the seizure of asphalt properties by the Venezuelan Government August 1; the collapse of a bridge at Dry Creek, Pueblo, Col., caused a railroad wreck, in which seventy-six persons were killed and many injured, August 8; Turkey consented to give American schools equal rights with those of other Powers August 14; military manoeuvres on the battlefield of Bull Run (Manassas), Va., were begun September 7; in a collision on the Southern Railway, near Knoxville, Tenn., 70 people were killed and 125 injured September 24; the thirteenth International Peace Conference opened at Boston October 3; the President directed Secretary Taft to go to Panama to reassure the people of the pacific intentions of the United States October 19; the President invited the signatory Powers to a second peace conference at The Hague October 20; the triennial general convention of the Protestant Episcopal Church at Boston agreed to a new divorce canon October 24; the Earl of Dartmouth laid the corner-stone of a hall at Dartmouth College October 26; the New York subway was opened from City Hall to 145th Street October 27; Secretary of State Hay and the French Ambassador signed an arbitration treaty at Washington, D. C., November 1; Miss Eva Booth was appointed Commander of the Salvation Army in the United States November 2; an arbitration treaty was signed at Washington between Germany and the United States November 15; the statue of Frederick the Great, presented to the United States by Emperor William, was unveiled at the Army War College in Washington November 19; all differences between the United States and Panama were settled by an agreement between Secretary Taft and President Amador December 2.

The foreign record for the year included, outside of the Russian-Japanese war, these occurrences: Joseph Chamberlain's Tariff Commission met in London January 15; fire in Aalesund, Norway, rendered 10,000 people homeless January 23; Mrs. Florence Maybrick, after spending nearly fifteen years in British prisons, convicted of poisoning her husband, was released on parole January 25; demand was made by the Thibet authorities that the English expedition be withdrawn January 29; The Hague Arbitration Tribunal decided unanimously that Great Britain, Germany and Italy had right to a preference of 30 per cent. of the customs duties of Venezuela February 22; the French Chamber of Deputies passed a bill debarring the religious orders from teaching in France, the vote standing 316 to 269, March 28; the British, under Colonel Younghusband, repulsed the Thibetans March 31; Premier Combes, of France, ordered the removal of religious emblems from the French courts of justice April 1; an Anglo-French Colonial treaty, covering all disputed questions, was signed in London April 8; German troops near Okahandja, in Southwest Africa, defeated 3,000 Hereros April 11; fire in Toronto destroyed \$10,000,000 worth of property April 20; Mr. Watson, leader of the Labor party in the Australian Parliament, formed a ministry April 26; President Loubet and King Victor Emmanuel received the French and Italian fleets at Naples April 29; France decided to reject the protest made by the Vatican

against the visit of President Loubet to the King of Italy May 6; the British, under Colonel Younghusband, captured a strong position near Karo Pass from the Thibetans May 6; France recalled her Ambassador to the Vatican May 21; General Count Bobrikoff, Russian Governor-General of Finland, was assassinated at Helsingfors June 16; the steamer Norge was lost off the Scottish coast and 646 persons perished June 28; Porfirio Diaz was elected President of Mexico, and Ramon Corral Vice-President July 11; the Russian Minister of the Interior, M. Plehve, was assassinated at St. Petersburg July 28; the British, under Colonel Younghusband, entered Lassa unopposed, the Dalai Lama having fled to a monastery, August 7; Russia protested against the Anglo-Thibetan treaty September 20; King Peter of Serbia was crowned at Belgrade September 21; the Contraband Commission, sitting at St. Petersburg, declared coal, cotton and iron contraband of war September 22; Don Jose Pardo was proclaimed President of Peru September 23; J. Pierpont Morgan presented the stolen Ascoli Cope to the Italian Government November 3; Canadian elections gave the Liberals a majority exceeding 70 November 4; the French Chamber ratified the Anglo-French treaty, including the cession of the French shore of Newfoundland, November 12; the King and Queen of Portugal visited England November 12-20; the first assembling of representatives of the Russian Zemstvos took place at St. Petersburg November 19; General Andre, French Minister of War, resigned November 21; Prince Sviatopolkmirsky, Russian Minister of the Interior of War, presented to the Czar the petition of the Zemstvos, asking for a share in the national Government, November 24.

#### THE RUSSIAN-JAPANESE WAR.

Japan, logically alarmed at the virtual occupation of Manchuria by Russia after the Boxer rebellion, and incensed by Russian possession of Port Arthur, grew restless and aggressive in 1903. An extension of Russian influence to Korea was threatened, and there were numerous indications that Japanese progress and expansion were imperilled by Russia's policy of permanent control of Manchuria. Russia's Trans-Siberia Railroad system had been extended to Port Arthur, and naturally Russian occupation of that stronghold, Japan's rich prize of its war with China, outraged Japanese national pride. Diplomatic protests by Japan were answered by a growl from the Russian bear, and the strain between the two nations rapidly grew more tense. Japan was ready for the struggle, and Russia was not, and hence Japan began the war to force Russia back. The storm broke quickly and with fury. On February 6, 1904, Russia having made an unsatisfactory reply to Japan's demands, the Mikado's Minister at St. Petersburg, Count Kurino, was summarily recalled, and on the same day Baron Rosen, the Russian Minister, was recalled by his Government.

Forty-eight hours after the severing of diplomatic relations Japan struck her first hard blow, attracting the fascinating attention of the civilized world by the roar of her guns against the Russian naval force at Port Arthur. Admiral Togo, with the main fleet of Japan, found the enemy unprepared when he took the Russians completely by surprise, making the initial attack at night. The next day the Japanese made a second attack, the first having been made by torpedo-boats. In the two engagements the Port Arthur squadron of the Russians was so badly damaged that it was made practically inefficient. On the same day, February 9, a Japanese squadron with torpedo-boats forced the Russian cruisers Variag and Korietz out of the harbor of Chemulpo, Korea, compelled the Russian vessels to fight, and sunk them, with more than 500 killed and wounded. Thus Japan immediately settled the question of naval supremacy and was ready to capture Port Arthur, expel the Russian troops from Manchuria, incidentally seizing the railway at Harbin, thus cutting off Vladivostok, Russia's important garrisoned northern port on the Pacific Coast.

The Czar proclaimed war with Japan on February 10, and the United States, on February 11, declared neutrality, Japan also having formally declared war the day previous. Secretary Hay made proposals, which resulted in the belligerent Powers agreeing to confine war operations to Manchuria and to respect other Chinese territory. Russia protested against Japan's hostile actions in advance of a declaration of war as being "treacherous," but civilization in general seemingly supported Japan's conduct.

On February 18 the Japanese army begun its move into Korea, occupying Ping Yang

on February 28 without opposition, and when warm weather came the Japanese First Army, under General Kuroki, was at the Yalu River, which separates Korea from Manchuria, and was ready for operations on a gigantic scale. General Kuropatkin, who had been appointed on February 23 to command the Russian armies in the East, had only 100,000 men with which to check a Japanese advance from Korea, and three Russian troops were being used to guard the railway, Russia's only method of military communication. His only hope was to retard a Japanese forward movement until he could be reinforced. His position was extremely trying, transportation methods being entirely inadequate. Even water for the wood-burning locomotives of the single-track railway was carried several miles along some divisions.

At the beginning of the war Vice-Admiral Alexeieff commanded the Russian naval forces in the East, but his evident lack of administrative ability led to his being supplanted by Vice-Admiral Makaroff on the day that Kuropatkin was assigned to command the army. Alexeieff's only offensive move had been a sortie of the Vladivostok squadron, which sunk some Japanese transports off the west coast of Japan. Alexeieff then moved his headquarters from Port Arthur to Harbin, and his downfall speedily followed, his request to be relieved of his duties being speedily granted.

On April 13 the Russian battle-ship *Petropavlovsk* was sunk by a Japanese torpedo near Port Arthur, Admiral Makaroff and 600 men being drowned. On May 1 the Russians were driven from their position at Kiu-lien-cheng by the Japanese under General Kuroki, and later were driven back still further. On May 7 the Japanese captured Fengwang-cheng, the Russians retreating without giving battle. On May 26, after a battle lasting sixteen hours, the Japanese captured Kinchow and Nanshan Hill by storm. Previous to this the Japanese had bombarded Vladivostok, and had made desperate attempts to "bottle" the Russian fleet in Port Arthur harbor by sinking merchant vessels. The Japanese had also guaranteed the independence of Korea, had assumed a protectorate over that country, and received in return the assistance of the Korean army. The landing of Japanese troops in the rear of Port Arthur was begun May 5, and the siege of Port Arthur was begun the next day. A Cossack attack upon Anju was repulsed May 10. The Russians destroyed the town and port of Dalny May 11, and torpedoed a Japanese cruiser off Port Arthur; two more Japanese warships were destroyed at Port Arthur, one by a mine and the other by collision, on May 17. The Russians almost entirely evacuated Newchwang May 15. They defeated the Japanese north of Fengwang-cheng and before Kinchow, May 18. On May 28 the Japanese defeated 2,000 Cossacks and occupied Ai-pien-men. At the end of May the Second Japanese Army, under General Oku, had cut off Port Arthur's communication with General Kuropatkin and made itself master of the neck of the Liao-tung Peninsular. The Third Japanese Army, under General Nodzu, moved up from Takushan to Siuyen, in touch with Kuroki, by June 8. During May Kuropatkin had strengthened General Stoessel in Port Arthur by 25,000 reinforcements, and General Kassulitch's troops had been ordered along the Yalu River. Kuroki, however, had outgeneralled Kassulitch, crossed the river with three divisions, and repulsed an attack which Kassulitch made without orders at the Aiko River, costing the Russians 2,600 killed and wounded, 600 prisoners, 21 field pieces, 1,000 rifles, and 350,000 rounds of ammunition, a blow which was keenly felt. The Japanese losses were 1,000 men. The Japanese Third Army operated from May 23 to May 26 against Stoessel's attempt to restore the line of communication between Mukden and Port Arthur, and finally earned a hard-won victory at Nanshan, displaying reckless courage, and losing 4,300 killed and wounded. The Russians, however, were driven from commanding positions, and, under General Fock, retreated southward, leaving 600 dead and 50 guns behind them.

#### THE ADVANCE OF THE JAPANESE.

In June the Russians concentrated a large force at and near Telissu, on the line of the railroad to Port Arthur, General Stakelberg commanding, apparently intending to move to Port Arthur's relief. General Oku, with 50,000 men, fell upon this force near Port Adams on June 14, catching the Russians in ambush and causing them a loss of 4,300, the Japanese losing 1,163. The Russians fell back upon Kalping, from which position they were driven on July 9. On June 27 General Nodzu effected a junction with General Kuroki,

flanked the Russians, and advanced to Sunachen. after two days' fighting. Kuroki pushed toward Motien Pass, along the valley of the Patao River, and gained important positions at Hancnen and Sidogult.

The first stage of the Japanese advance was completed by the operations of May and June, as just recounted. Four Japanese armies had been landed. Kuroki, having gained the mountain passes into the Manchurian plains, was advancing toward Liaoyang. Oku was beyond the Fenshulling Pass, on the road to Haicheng. Nogi had begun to drive Stoessel back into Port Arthur. At this stage Field Marshal Oyama was given supreme command of the Japanese operations, which had heretofore been controlled by the general staff.

The Russians now realized the imminent danger of a division of their forces should the enemy move forward to seize the railroad between Liaoyang and Mukden. Kuropatkin therefore ordered General Keller, with 20,000 men and 24 guns, to attack the Japanese at Fenshulling, which Keller did unsuccessfully on July 17, losing 1,200 men, and then retiring to a strong position in the Yantze Pass. On July 23 Oku attacked General Zarubaieff's position before Tashihchiao, compelling the Russians to abandon that place and Yinkow, thus depriving Russia of its last base on the Chinese sea coast, and cutting off Russian supplies by the Peking Railroad. On July 31, after a two hours' fight with Kuroki at Yantze Pass and Tushulin, in which Lieut.-Gen. Count Keller, of the Russian army, was killed, the Russians retired toward Liaoyang. At the same time Oku and Nodzu, by a combined attack on the Russian right fifteen miles below Haicheng, turned their enemy northward, forcing the abandonment of Haicheng by the Russians on August 2. The Japanese, with a loss of 2,400 men, in a few days had now driven their enemy from the mountains into the Manchu plains, and had compelled a concentration of the Russians along the railroad to Liaoyang, with a Russian front of twenty-five miles between Anping and the railroad at Anshanchan. Rains then prevented further fighting during August. Earlier in the month the Japanese stormed the fortifications of Port Arthur and were repulsed. On August 17 General Stoessel refused a Japanese demand for the surrender of Port Arthur. On August 21 the Japanese began to take the inner forts around Port Arthur, and on August 31 they failed in a second general assault upon the city. On August 10 part of the Russian squadron escaped from Port Arthur, but was dispersed in battle, and on August 14 the Russian Vladivostok squadron was defeated off Tsu Islands, Korean Straits.

The great Japanese attack on the Russians before Liaoyang was renewed on August 26. The Russian strength was about 148,000 men, with 400 guns guarding the three roads centring upon Liaoyang, and extending in a twelve-mile semi-circle among the low hills. The Japanese had 200,000 men, with 520 guns. Kuroki's First Army was on the right, Nodzu's in the centre, and Oku's on the left. There was a general advance by the Japanese, soon forcing a Russian retreat, with small losses, Kuropatkin evacuating Liaoyang on September 3 and falling back upon Mukden. After this notable conflict heavy rains delayed large operations until October 1. On September 4 General Stakelberg's command eluded the Japanese and rejoined Kuropatkin's army, but the Japanese had practically surrounded Kuropatkin's forces by September 5. A Russian sortie at Port Arthur was repulsed September 18, and the Japanese were repulsed at Da Pass, near Mukden, September 20. Two days later the Japanese carried this pass by storm, and on September 24 they captured the forts commanding the water supply at Port Arthur.

On October 3 Kuropatkin, with 300,000 men and with a force of artillery superior to Oyama's, advanced on the Japanese, inspiring his troops with a proclamation that Russia was now prepared to drive the enemy back. For a week the armies struggled along the Sha River in one of the greatest battles of modern history, fighting day and night. The most important Russian achievement was the capture of Lone Tree Hill, a commanding Japanese position; after repeated charges and heavy losses. This hill was finally carried by a force under Colonel Putiloff in so brilliant a manner that the Russians, in official orders, named it Putiloff Hill. All the Japanese attempts to retake the eminence failed. In the general engagement, which was indecisive, except that it checked the Japanese advance, the losses were about even on either side, being estimated at 45,000 in each army. During the succeeding Fall and Winter the huge main commands, close to each other, did little fighting.

Active operations about Port Arthur, however, were continued. On November 4 the Japanese captured Wantai Hill, before the city, and on November 17 gained, by assault, important underground chambers. On November 26 a Japanese attack upon Port Arthur was repulsed with enormous loss to the assailants, but on November 30 they captured the important position of 203-Metre Hill, commanding the city and harbor. From this point, on December 6, they shelled the Russian fleet, sinking the turret-ship *Poltava* and the battle-ship *Peresviet*, besides damaging other vessels.

#### THE FALL OF PORT ARTHUR.

After the occupation of 203-Metre Hill by the Japanese the doom of Port Arthur was evident. The siege guns there prevented a final sortie of the fleet, and the city's condition was most distressing. General Stoessel's last dispatches to St. Petersburg were sent out by the torpedo-boat *Rastoropyn* on November 15, but her commander destroyed her in Chefoo harbor to prevent his messages from falling into the hands of the Japanese. Hence the world has never learned the contents of these dispatches. Subsequent disclosures, however, and Japanese praise of General Stoessel within the past year, when his Government accused him of cowardice in surrendering his stronghold, indicate that he fulfilled his promise to defend Port Arthur to the last extremity. The capitulation of the city took place on January 2, 1905, after more than six months' resistance. General Stoessel receiving the full honors of war, the Emperor of Japan having ordered General Nogi to show General Stoessel every courtesy. Stoessel and four other general officers had been seriously wounded, and two had been killed, out of ten. Parole, with permission to retain side arms and return to Russia, was offered to all Russian officers. General Fock and many others refused to accept this and went to Japan as prisoners. Authentic figures place the total of Port Arthur casualties at 15,448 Russians, being 34.33 per cent. of the force engaged, and 45,156 Japanese, 42.6 per cent. of the force engaged.

The surrender of Port Arthur was still exciting the world, when Kuropatkin, on January 25, ordered a general attack on the Japanese left flank, hoping to break through or turn the enemy's left toward Liaoyang. The Russian Second Army, under General Gripenberg, fought desperately for six days and was repulsed with heavy losses. Gripenberg then quarreled with Kuropatkin and resigned, being succeeded by General Kaulbars. Nogi's army from Port Arthur hastened to join Marshal Oyama, and from February 20 to March 15 a series of engagements, known as the battle of Mukden, one of the greatest in modern history, occurred. The Russian line extended over a semi-circle more than 120 miles long, with centre resting on the Sha River. General Kaulbars commanded the right and General Linievitch the left. Oyama's four armies faced this huge battle line. The Russians were finally forced into demoralized retreat, falling back to Tie Pass, an important position forty miles north of Mukden and 300 miles south of Harbin. The Japanese occupied Mukden on March 10, and Tie Pass fell into Oyama's hands on March 16, the Russians rallying 108 miles beyond that point. General Linievitch then superseded Kuropatkin in supreme command of a realigned army. The Russians had lost 100,000 of their 400,000 men in the Mukden operations, and the Japanese casualties were out of 500,000 men engaged.

#### RUSSIA'S NAVAL FORCE LOST.

Two months later came the crushing blow to Russia's navy, in the Sea of Japan, winning everlasting fame for Admiral Togo. The Russian Baltic fleet, under Admiral Rojestvensky, joined by a squadron under Admiral Nebogatoff, was attacked by Togo off Tsu Island, in the eastern channel of Korea Strait, on May 27, Togo not even having informed his Government of his plans. Rojestvensky made the disastrous error of putting his cruisers between his battle-ships and his enemy. Togo signalled to his ships: "The destiny of our Empire depend upon this action. You are all expected to do your utmost." The battle raged through the afternoon of May 27 and all day on May 28, and resulted in the annihilation of the Russian fleet. Only three vessels of the line escaped—the *Oleg*,

Aurora and Zhemchug. These, under Admiral Enquist, sailed to Manila, where they were interned, after a refusal by President Roosevelt to permit them to make repairs. Admiral Rojestvensky was seriously wounded and captured, and Admiral Nebogatoff surrendered with the battle-ships Orel and Emperor Nicholas I., the coast defence ships Admiral Seniavin and General Apraxine, and the destroyer Bedore. The Russian ships sunk included six battle-ships, three armored cruisers, three protected cruisers, a coast defence ship, the repair ship Kamtchatka, and several destroyers. The Japanese lost only three torpedo-boats and had less than 1,000 casualties.

#### HOW THE WAR ENDED.

After Togo's victory the United States, through President Roosevelt, intervened to end the war. The President, on June 8, addressed the Russian and Japanese governments, urging immediate and direct peace negotiations between the belligerents and proffering his friendly assistance. Both the warring nations accepted the offer, and agreed, on June 12, to appoint plenipotentiaries to discuss the terms of peace. Russia named Sergius Witte and Baron Rosen, while Japan chose Baron Komura and Mr. Takahira as her envoys. Baron Rosen and Mr. Takahira were then Ambassadors of their respective countries at Washington. Escorted with much ceremony to Oyster Bay, the President's summer home, on separate vessels, the envoys were introduced to each other by President Roosevelt, on the President's yacht Mayflower, on August 5, 1905. At luncheon the President gave this memorable toast:

"I drink to the welfare and prosperity of the sovereigns and the peoples of the two great nations, whose representatives have met one another on this ship. It is my most earnest hope and prayer, in the interest not only of these two great Powers, but of all civilized mankind, that a just and lasting peace may speedily be concluded between them."

The envoys and their suites were then conveyed to Portsmouth, N. H., and the first peace conference was held at the United States Navy-Yard there on August 9, through interpreters, the Russians used the French and Russian language, and the Japanese used Japanese and English. The Japanese terms, including heavy indemnity, were presented, and were rejected by the Russians. Accord was finally reached, proposal by proposal, as follows:

No war indemnity to be paid by Russia—a victory for Witte, who had declared "not one kopeck for indemnity"; recognition of Japan's preponderant influence in Korea; evacuation of Manchuria by Russians and Japanese; Japan to take over Russia's leasehold of Port Arthur and the Liaotung Peninsula; return of the civic administration of Manchuria to China; Japan to hold all military works at Port Arthur and Dalny; Japan to control the Chinese Eastern Railroad south from Kunshien, which is ten miles south of Harbin, Russia retaining all the rest, including its lines to Vladivostok and the spur to Karin. There was a deadlock on three Japanese proposals: Reimbursement of Japan for the cost of war; the delivery to Japan of interned warships in Chinese and American ports, and the restriction of Russian naval power in Asiatic waters. President Roosevelt again intervened, consulting with Baron Rosen and with Baron Kaneko, the latter a trusted, though unofficial, friend of the Emperor of Japan. The President then communicated with both Emperors, and Imperial Councils were held at Tokio and St. Petersburg. As a final result, the Mikado ordered the Japanese envoys to waive indemnity claims, allow Russia to retain her interned ships, and agree to a division of the Island of Sakhalin, Japan holding the southern half below the fiftieth parallel. The treaty stipulated that Sakhalin should not be fortified, and that each country should enjoy the "most favored nation" terms. The treaty was signed on September 5, 1905, at Portsmouth Navy-Yard (which is really situated in the town of Kittery, Me.), and is known as the Treaty of Portsmouth. In Japan its terms were unsatisfactory to the people, who felt that Japan should have received more for her sacrifices. In Russia, 1905 was a year of revolution and anarchy, and since then disorders of all sorts, entailing the loss of thousands of lives, have followed in quick succession.

Semi-official estimates credit Japan with having had in the field during the war

1,200,000 troops, of which number 55,000 were killed; 15,000 died from sickness, and 300,000 were wounded. General Kuropatkin admitted that on October 2, 1905, the Russian strength available in the East was 1,037,000 men, of which 870,000 were in the field. The Russian losses during the war are estimated at 352,412, the actual field casualties being: Killed, 23,008; wounded, 121,486; missing, 39,729.

## 1905

Although, through the efforts of President Roosevelt, Russia and Japan agreed to a peace parley in June, 1905, the first five months of the year were marked by bloody battles, following the capitulation of Port Arthur to the Japs on January 2. Among all, but the two warring nations, calm prevailed, and the year in the United States was an exceptionally quiet one. On January 28 Santo Domingo agreed that the United States should preserve order and assume charge of finances in the Dominican Republic, while guaranteeing territorial integrity. In pursuance with this agreement United States Minister Dawson arranged with Santo Domingo for the temporary collection of revenues by a United States Commissioner March 25; Theodore Roosevelt and Charles W. Fairbanks were inaugurated on March 4 as President and Vice-President of the United States for the term 1905-1909; the United States Supreme Court declared the Beef Trust illegal January 30; the investigation into the affairs of life insurance companies in New York began, the Equitable being the first company investigated, April 3; President Roosevelt left Washington for a two months' vacation visit to Texas and Colorado April 3, appointing a new Panama Canal Commission before starting; American Ambassador Joseph H. Choate was elected a Bencher of the Middle Temple, London, April 10; the body of John Paul Jones was discovered in Paris by Gen. Horace Porter April 14; it was brought with honors to the United States and was interred in a temporary tomb at Annapolis, Md., July 24; Andrew Carnegie gave \$10,000,000 for a college professors' fund in the United States April 27; the International Railway Congress opened at Washington May 3; dynamite caused the death of 20 people and injured 100 others in a railroad wreck near Harrisburgh, Pa., May 11; a tornado at Snyder, Okla., killed 100 people and injured 141 others May 11; the Lewis and Clarke Centennial Exposition was opened at Portland, Ore., May 28; Mayor Weaver began a municipal reform movement in Philadelphia June 15; Herbert W. Bowen, Minister to Venezuela, was dismissed by the President for circulating alleged unfounded charges against Francis B. Loomis, Assistant Secretary of State, June 20; John D. Rockefeller gave \$1,000,000 to the permanent endowment fund of Yale University June 28, and \$10,000,000 to the General Education Board for the endowment of small colleges June 30; Charles J. Bonaparte succeeded Paul Morton as Secretary of the Navy July 1; Senator John H. Mitchell, of Oregon, was found guilty and recommended to leniency in the land fraud cases July 4; Elihu Root was appointed to succeed the late John Hay as Secretary of State July 6; Peary sailed from New York for the North Pole July 16; a Chinese boycott against American goods was declared July 19; the yellow fever broke out at New Orleans and subsequently extended to neighboring cities July 20; the explosion of a boiler on the U. S. S. Bennington in San Diego harbor killed 28 men and injured 100 others July 21; President Roosevelt addressed a large meeting of miners at Wilkes-Barre, Pa., August 10; the President conferred with leaders in college athletics with a view of improving standards October 9; on October 18 he departed from Washington on a tour of the Southern States, and on October 26 was enthusiastically received at New Orleans; Prince Louis of Battenburg arrived at Annapolis with the British cruiser squadron on a visit to American waters November 1; the same squadron visited New York November 9-15, where the Prince was warmly welcomed.

Some of the most noticeable events abroad in 1905 were: The Combes ministry in France resigned January 17; a saluting battery scattered grape shot in the direction of the Czar at the ceremony of the Blessing of the Neva January 19; M. Rouvier, in France, formed a new Cabinet, retaining MM. Delcasse and Barteaux, January 22. Black Sunday in St. Petersburg, Russia, came January 22, when Russian strikers attempted to present a

petition to the Czar, and were fired on by troops, from 300 to 4,000 being reported killed; the Czar appointed General Trepoff to be Governor-General of St. Petersburg January 25; the largest diamond in the world was discovered in the Premier mine, South Africa, January 27; Warsaw, Poland, was under mob rule January 30; Soisalon Soimneu, Procurator-General of Finland, was assassinated at Helsingfors February 6; Grand Duke Sergius, uncle of the Czar, was assassinated at Moscow February 17; the Simplon Tunnel, the longest in the world, was opened from the Swiss and Italian sides April 2; the Cretan Assembly proclaimed a union of Crete with Greece April 21, and the Powers objected; King Alfonso arrived in London on a visit to King Edward June 5; M. Delcasse resigned as Foreign Minister in the French Cabinet June 6; the dissolution of the union between Sweden and Norway was proclaimed by the Norwegian Parliament June 8; Theodor P. Delyanius, the Prime Minister of Greece, was assassinated June 13; Warsaw was besieged, 200 persons were arrested, and street cars overturned to barricade shops and stores, June 26; a mutiny broke out on board the Russian battleship Kniaz Potemkine in the harbor of Odessa June 28; the mutineers surrendered the vessel to Roumania July 8; a Franco-German agreement over Morocco was announced July 10; Major-General Count Shuvaloff, Prefect of the Moscow Police, was fatally shot July 11; the Czar of Russia and Emperor William of Germany held a conference off Borgo, Finland, July 23; Secretary Taft and party, en route for the Philippines, were enthusiastically received in Japan July 25; the vote in Norway on dissolution from Sweden was practically made unanimous on August 13; Lord Curzon resigned the Viceroyship of India, Earl Minto succeeding him, August 20; there was a massacre of Jews at Kichneff, Russia, September 6; Admiral Togo's flagship was destroyed by an explosion and 599 lives were lost September 13; the Czar proposed a second Peace Conference at The Hague September 18; France and Germany reached an agreement on their relations with Morocco September 26; England and Japan signed a treaty of alliance, including an agreement to maintain peace in Eastern Asia and India, and preserve the integrity of China, September 27; a railroad strike spread throughout the Russian Empire October 24; the Czar of Russia issued a manifesto assuring civil liberty, freedom of the press, extension of the suffrage and consent of the Duma in the enforcement of the laws October 30; Count Witte was appointed on the same day Chief Minister of Russia; in October and November there was an agitation in Hungary for concessions from Emperor Francis Joseph; 5,000 Jews were reported killed in Odessa during the riots November 2; the Korean Government transferred control to Japan November 18; the Norwegian Parliament unanimously elected Prince Charles of Denmark King of Norway; he assumed the title of Haakon VII., and took the oath of office November 27; the British ministry in Great Britain resigned December 1; the Sultan of Turkey submitted to the demands of the Powers concerning Macedonia December 14.

## 1906

Russia was the only great nation perturbed during the year 1906, and its troubles were internal. Especially during June, July and August there was a frequency of strikes, bomb throwing, assassinations of officials and other insurrectionary disturbances in Russia and Poland. Among the more notable incidents of the twelve months in the Russian Empire were: Ex-Lieutenant Schmidt, the Russian naval mutineer, was executed at Sevastopol March 19; M. Witte resigned the Russian Premiership May 2; the Czar dissolved the Russian Duma July 21, and members of the Duma issued a manifesto from Viborg, Finland, July 23. This was followed July 31 by mutinies of Russian troops in Finland, which were suppressed with great loss of life. On August 25 a bomb explosion in the residence of the Russian Premier, Stolypin, killed and wounded fifty-four persons. The Russian General Mih was assassinated by a girl at Peterhof August 26. At Siedlce, Poland, there was a massacre of Jews on September 8. Gen. Dmitri Trepoff, head of the Russian police system, died at Peterhof September 15. Other events abroad in 1906 were: Armand Fallieres was elected President of the French Republic, the ballot in the National Assembly

being: Fallières, 440; Doumer, 371; scattering, 28; the steamer Valencia was wrecked off Vancouver Island, 129 lives being lost and 29 saved, January 22; the Simplon Tunnel was opened to the public January 25; King Frederick VII. acceded to the throne of Denmark January 30; the Rouvier ministry in France resigned March 7; a mine disaster near Pas-de-Calais, France, killed 1,000 miners March 10; an earthquake in Formosa killed thousands and destroyed \$45,000,000 in property March 17; the Moroccan conference at Algeiras reached an agreement on policing Morocco March 27, and adjourned April 7; the volcano of Vesuvius was in violent eruption, causing destruction of lives and property, April 5-12; the International Exhibition at Milan, Italy, was opened April 29; revolutionary disturbances took place in Macedonia May 20-30; the International Postage Congress at Rome adjourned May 26; King Alfonso of Spain and the Princess Victoria of England were married at Madrid May 31; King Haakon VII. and Queen Maud of Norway were crowned June 22; a railway wreck at Salisbury, England, killed twenty-three American passengers July 1; hostilities broke out between Salvador and Guatemala July 8, but were quickly ended by a treaty of peace, signed at San Jose, between Salvador, Honduras and Guatemala; Capt. Alfred Dreyfus was vindicated by the French court of last resort and restored to the army July 12; the fourteenth conference of the Inter-Parliamentary Union began in London July 23; the Pan-American Conference of American Republics was opened at Rio de Janeiro July 23, and Secretary Root addressed the Conference July 27; King Edward VII. arrived in Berlin on a visit to the Kaiser August 15; an earthquake and fire at Valparaiso, Chile, caused great loss of life and property August 16-17; the Pope issued an encyclical concerning the law in France separating the Church and State September 1, the Shah opened the first Parliament of Persia September 12; a statue of George Washington was unveiled at Budapest September 15; the Legislative Assembly of Western Australia voted for secession of the State from the Commonwealth of Australia October 13; the Clemenceau ministry went into office in France, and General Picquart was appointed Minister of War October 20; anti-clerical riots took place in Valencia, Spain, October 20; by the wrecking of 256 fishing boats off Boto Island, Japan, 800 persons were drowned October 28; the law separating Church and State in France took effect December 11, Emperor William dissolved the German Reichstag for refusing to vote supplies for the war in Southwest Africa December 13.

In the United States in 1906 the White House was the scene of a wedding which attracted wide attention on February 17, when Miss Alice Roosevelt, the President's oldest daughter, became the bride of Representative Nicholas Longworth, of Ohio; Meridian, Miss., was visited by a destructive cyclone on March 4; 600 Moros were killed in battle with American troops and constabulary near Jolo March 8; the United States Supreme Court decided that witnesses in anti-trust proceedings cannot be excused from testifying against their corporation March 12; the anthracite coal miners in Pennsylvania began a strike March 31 which lasted until May 8, when the strikers accepted the operators' terms; Greene and Gaynor, Government embezzlers, were found guilty at Savannah, Ga., April 12; President Roosevelt made an address at Washington on the "man with the muck-rake," and advocated an inheritance tax April 14; earthquakes and fire destroyed a large part of San Francisco, Cal., causing a loss of \$400,000,000, April 18-19; the remains of John Paul Jones were reinterred at Annapolis April 24; the Benjamin Franklin Bi-Centenary was celebrated at Philadelphia April 27; the reunion of the Presbyterian Church (North) and the Cumberland Presbyterian Church was effected at Des Moines, Ia., May 24; public schools, with half a million pupils, were opened in the Philippines June 11; the President signed the Oklahoma and Arizona Statehood bills June 16; the United States Senate approved of the lock canal for Panama June 21; Japanese seal poachers were killed in Alaskan waters July 16; the Standard Oil Company was indicted at Chicago for receiving rebates August 8; in a riot at Brownsville, Tex., several soldiers in the negro battalion of the Twenty-fifth United States Infantry killed and wounded a number of persons; after investigation President Roosevelt issued an order November 21 disbanding the regiment "without honor" for complicity in the rioting; an insurrectionary movement in Cuba was begun August 20, and President Palma appealed to the United States for intervention in the island September 8; on September 13 American marines were landed at Havana, but were withdrawn; on September 28 President Palma, of Cuba, resigned; on the following day Secretary Taft pro-

claimed United States intervention in Cuba and himself as Provisional Governor; on October 12 Mr. Taft was succeeded in this office by Charles E. Magoon; the Standard Oil Trust was indicted by a Federal Grand Jury at Jamestown, N. Y., for accepting unlawful concessions in railroad rates August 24; President Roosevelt ordered a simplified form of spelling in the Government Printing Office—as official complications and much adverse criticism ensued, he withdrew the order December 14; William J. Bryan arrived in New York City from a long trip abroad and was given a popular reception August 30; a great naval demonstration off Oyster Bay was reviewed by the President September 8; Gen. James F. Smith was installed as Governor of the Philippine Islands September 20; anti-negro riots at Atlanta, Ga., resulted in lynchings, and the city was placed under martial law September 22; the Sugar Trust was indicted at New York for accepting railroad rebates October 2; contractors were invited to submit proposals for the completion of the Panama Canal September 10; a rehearing in the case of Senator Burton, of Kansas, was denied by the United States Supreme Court, and his imprisonment began October 15; the Japanese were excluded from the regular public schools of San Francisco October 15; the New York Central and Hudson River Railroad was convicted at New York of rebating rates in violation of law October 17, and two days later the Standard Oil Company of Ohio was convicted at Findlay of violating the Ohio Anti-Trust law; a drawbridge railway accident near Atlantic City, N. J., caused the loss of seventy lives October 28; President Roosevelt departed on a visit to the Isthmus of Panama November 8, reaching the city of Panama November 15, this being the first time a President of the United States passed beyond the jurisdiction of its flag. The President landed in Porto Rico November 21, and returned thence to Washington, where he arrived November 26.

---

The events of 1907, chronologically arranged, will be found on other pages of this issue of *THE WORLD ALMANAC* under the title, "Record of Events in 1907."

---

As is obvious, no attempt has been made to do more in the foregoing quarter-century review than to note in chronological order the dates of the most important happenings. Because of lack of space, the necrology of the years referred to has also been ignored, although death struck at many a shining mark. From year to year, however, *THE WORLD ALMANAC* has printed a record of the deaths of eminent people, and has also referred, by a special index, to valuable papers, reports and articles published in *THE WORLD ALMANAC* for preceding years. The student, therefore, who will use the "Quarter-Century Record" of *THE WORLD ALMANAC* as a guide to exhaustive study will find it exceedingly helpful, and will be led into many paths of learning—just as a reading of *THE WORLD* from day to day insures a liberal education. None of the events chronicled has escaped the attention of *THE WORLD*, and from *THE WORLD'S* columns the review has been made. Elsewhere in *THE WORLD ALMANAC* for 1908 will be found the remarkable story of the important part *THE WORLD* has played in national and international affairs, even to the shaping of destinies of universal interest since 1883. No other paper has been as prominent in history or received such widespread recognition by the rulers of the earth for the last two and a half decades, and it is inseparably connected with great occurrences, with progress and with publicity. Hence, the "Quarter-Century Record of Events," and *THE WORLD'S* own story, "Performance Is Better Than Promise," printed elsewhere in this issue of *THE WORLD ALMANAC*, should be read in conjunction.

It has likewise been impossible to include in the preceding quarter-century epitome many dates of interesting doings in the field of sports, the drama, music, the sciences, art, medicine, literature, and other avenues of thought and action. It would require the entire space of *THE WORLD ALMANAC* to even mention these. Annually, however, *THE ALMANAC* gives them proper place in its review of noteworthy incidents that have contributed to make the great total of mundane happenings worth recording. Thus, the purchaser of *THE WORLD ALMANAC* of 1908 who preserves this volume, and who, in future, supplements it by adding the yearly issues, will always have, in the most compact form ever published, an accurate, comprehensive and valuable history collaborated by the highest authorities.

# THE WORLD ALMANAC FOR 1908. 105

THE astronomical calculations in this work were expressly made for it by Dr. J. Morrison, and are expressed in local *Mean Time*.

## Chronological Eras.

The year 1908, which is a leap year, corresponds to the year 7416-17 of the Byzantine era; to 5668-69 of the Jewish era, the year 5669 commencing at sunset on September 25; to 2661 since the foundation of Rome according to Varro; to 2684 of the Olympiads (the fourth year of the 671st Olympiad commencing July 1, 1908); to 2568 of the Japanese era, and to the 41st of the Meiji; to 1325-26 of the Mohammedan era, the year 1326 commencing on February 4, 1908. The 133d year of the Independence of the United States of America begins on July 4, 1908.

The Ecclesiastical Calendar.

(Prepared for THE WORLD ALMANAC by Dr. J. MORRISON.)

THIS form of Calendar is not employed for computing time in general, but for determining the date of certain movable Festivals in the Christian Church. It was first promulgated by the Council of Nice A. D. 325 and subsequently reformed in 1582. The mathematical discussion of it presents great difficulties by reason of its being Luni-Solar. It requires us to reconcile three periods of time, viz., the week, the lunar month and the solar year, which are prime to each other or have no common measure and, therefore, can be done only approximately by corrections which vary from time to time.

The following formulæ whose discussion is far too abstruse for insertion here, will enable us to determine the date of Easter on which all the other movable Festivals depend, as well as all the other quantities that enter into the computation of ecclesiastical dates.

- Let  $E$  = the true epact of any given year.
- $J$  = the Julian epact, supposing that the Julian year to still exist.
- $N$  = the Golden Number or Lunar Cycle.
- $S$  = a correction due to the Solar year.
- $M$  = a correction due to the Lunar month.
- $Y$  = any given year.

Now  $J$  is determined by the fact that in 1582, the first year of the reformed Calendar,  $N$  was 6 and  $J$  26.

Therefore for the following years  $N$  and  $J$  were:

1583, $N=7, J=26+11-30=7$	1586, $N=10, J=29+11-30=10$
1584, $N=8, J=7+11\dots=18$	1587, $N=11, J=10+11\dots=21$
1585, $N=9, J=18+11\dots=29$	&c. &c.

Therefore in general we have

$$J = \left( \frac{26 + 11(N - 6)}{30} \right)_r$$

$$= \left( \frac{11N - 40}{30} \right)_r$$

wanted, the above becomes

$$J = \left( \frac{N + 10(N - 1)}{30} \right)_r \dots\dots\dots(1)$$

where the subscript  $r$  signifies the remainder after dividing by 30.

Since 1600 was a leap year, and 1700, 1800 and 1900 common years.  $J$  must be diminished by unity every centesimal year, the first correction was in 1700, the second in 1800, etc., hence if we denote by  $c$  the number of the century, the corrections for the Solar year will be

$$S = - (c - 16) + \left( \frac{c - 16}{4} \right)_w \dots\dots\dots(2)$$

the subscript  $w$  signifying that the whole number only is wanted.

For the lunar correction we find

$$M = \left( \frac{c - 15}{3} \right)_w \dots\dots\dots(3)$$

We also have

$$N = \left( \frac{Y + 1}{19} \right)_r \dots\dots\dots(4)$$

Then for the epact we shall have  $E = J + S + M$ .

or 
$$E = \left( \frac{N + 10(N - 1)}{30} \right)_r - (c - 16) + \left( \frac{c - 16}{4} \right)_w + \left( \frac{c - 15}{3} \right)_w \dots\dots\dots(5)$$

- Let  $L$  = number of the Dominical letter of the year.
- $l$  = number of the letter belonging to the day on which the 15th of the Moon falls,
- $P$  = the number of days from 21st March to the 15th of the Paschal Moon which is the first day on which Easter can fall.
- $p$  = number of days from 21st of March to Easter.

Then 
$$L = 7m + 6 - Y - \left( \frac{Y}{4} \right)_w + c - 16 \dots\dots\dots(6)$$

Where  $m$  must be taken such as will make  $L$  a positive whole number. This determines the Dominical letter.

Since Easter is the Sunday following the 14th of the Moon we shall find

$$p = P + (L - l) \dots\dots\dots(7)$$

Now  $P$  can never be less than 1, nor  $l$  less than 4, and in both cases  $E=23$ , but when  $E$  is greater than 23 we must add 30 in order that  $P$  and  $l$  may have positive values in the formulæ.

$$P = 24 - E \text{ and } l = 27 - E$$

There can then be two cases, viz.,

When  $E$  less than 24,  $P = 24 - E$  and  $l = \left( \frac{27 - E}{7} \right)_r$

and when  $E$  greater than 23,  $P = 54 - E$  and  $l = \left( \frac{57 - E}{7} \right)_r$

then  $p$  becomes known from (7) and 
$$\text{Easter} = \text{March } 21 + p.$$

If however  $(L - l)$  become zero or negative, 7 or a multiple of it must be added in order to make  $(L - l)$  a positive whole number.

Ex. - Find the Golden Number, Epact, date of Easter, etc., for 1909.

Here we have  $c = 19$  and  $Y = 1909$ .

$$\text{Then } c - 16 = 3 \dots\dots\dots \left( \frac{c - 16}{4} \right)_w = 0 \text{ and } \left( \frac{c - 15}{3} \right)_w = 1$$

## THE ECCLESIASTICAL CALENDAR—Continued.

By (4) we have  $N = \left( \frac{1909 + 1}{19} \right)_r = 10$ , the Golden Number.

By (5) we have

$$E = \left( \frac{10 + 90}{30} \right)_r = 3 + 0 + 1 = 8, \text{ the Epact.}$$

By (6)  $L = 7m + 6 - 1909 - 477 + 3$ .

$$= 7m - 2377$$

$$= 2380 - 2377 = 3, \text{ therefore Dominical Letter} = C.$$

Here  $m$  must be taken = 340 to make  $L$  positive.

$$P = 24 - E = 16 \text{ and } l = \left( \frac{27 - E}{7} \right)_r = 5$$

hence,  $L - l = 3 - 5 + 7 = 5$  ( $7$  must be added to make  $(L - l)$  positive).

$$p = P + (L - l) = 16 + 5 = 21.$$

Easter = March 21 + 21 = March 42 = April 11.

**Divisions of Time.**

THE interval between two consecutive transits of a fixed star over any meridian or the interval during which the earth makes one absolute revolution on its axis is called a *Sidereal Day*, and is invariable, while the interval between two consecutive transits of the Sun over any meridian is called an *Apparent Solar Day*, and its length varies from day to day by reason of the variable motion of the earth in its orbit, and the inclination of this orbit to the equator on which time is measured.

A *Mean Solar Day* is the average or mean of all the apparent solar days in a year. *Mean Solar Time* is that shown by a well-regulated clock or watch, while *Apparent Solar Time* is that shown by a well-constructed sun-dial; the difference between the two at any time is the *Equation of Time*, and may amount to 16 minutes and 21 seconds. The Astronomical Day begins at noon and the Civil Day at the preceding midnight. The Sidereal and Mean Solar Days are both invariable, but one day of the latter is equal to 1 day, 3 minutes, and 56.555 seconds of the former.

The interval during which the earth makes one absolute revolution round the Sun is called a *Sidereal Year*, and consists of 365 days, 6 hours, 9 minutes, and 9.6 seconds, which is invariable.

The Tropical Year is the interval between two consecutive returns of the Sun to the Vernal Equinox. If this were a fixed point, the Sidereal and Tropical Years would be identical; but in consequence of the disturbing influence of the Moon and planets on the spheroidal figure of the earth, the Equinox has a slow, retrograde mean motion of  $50''$ .26 annually, so that the Sun returns to the Equinox sooner every year than he otherwise would by 20 minutes 23.6 seconds; the Tropical Year, therefore, consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The Tropical Year is not of uniform length; it is now slowly decreasing at the rate of .595 second per century, but this variation will not always continue.

Julius Caesar, in B. C. 45, was the first to reform the calendar by ordering that every year whose date number is exactly divisible by 4 contain 366 days, and all other years 365 days. The intercalary day was introduced by counting the *sixth* day before the Kalends of March *twice*; hence the name bissextile, from bis, twice, and sex, six. He also changed the beginning of the year from 1st of March to the 1st of January, and also changed the name of the fifth month (Quintilis) to July, after himself. The average length of the Julian year is therefore  $365\frac{1}{4}$  days, which, however, is too long by 11 minutes and 14 seconds, and this would accumulate in 400 years to about three days. The Julian Calendar continued in use until A. D. 1582, when the date of the beginning of the seasons occurred 10 days later than in B. C. 45, when this mode of reckoning time was introduced.

The Gregorian Calendar was introduced by Pope Gregory XIII. with the view of keeping the Equinox to the same day of the month. It consists of 365 days, but every year exactly divisible by 4 and the centennial years which are exactly divisible by 400 contain 366 days; and if in addition to this arbitrary arrangement the centennial years exactly divisible by 4,000 contain 366 days, the error in the Gregorian system will amount to only one day in about 20 centuries. If, however, 31 leap years were intercalated in 128 years, instead of 32 as at present, the calendar would be practically exact and the error would not amount to more than a day in 100,000 years. The length of the mean Gregorian Year may therefore be set down at 365 days, 5 hours, 49 minutes, 12 seconds. The Gregorian Calendar was introduced into England and her colonies in 1752, at which time the Equinox had retrograded 11 days since the Council of Nice in A. D. 325, when the festival of Easter was established and the Equinox occurred on March 21; hence September 3, 1752, was called September 14, and at the same time the commencement of the legal year was changed from March 25 to January 1, so that the year 1751 lost the months of January and February and the first 24 days of March. The difference between the Julian and Gregorian Calendars is now 13 days. Russia and the Greek Church still employ the Julian Calendar for civil and ecclesiastical purposes.

**Standard Time.**

PRIMARILY, for the convenience of the railroads, a standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour, commencing with the 75th meridian. The first (eastern) section includes all territory between the Atlantic Coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah, and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific Coast. Standard time is uniform inside each of these sections, and the time of each section differs from that next to it by exactly one hour. Thus at 12 noon in New York City (eastern time), the time at Chicago (central time) is 11 o'clock A. M.; at Denver (mountain time), 10 o'clock A. M., and at San Francisco (Pacific time), 9 o'clock A. M. Standard time is 16 minutes slower at Boston than true local time, 4 minutes slower at New York, 8 minutes faster at Washington, 19 minutes faster at Charleston, 28 minutes slower at Detroit, 18 minutes faster at Kansas City, 10 minutes slower at Chicago, 1 minute faster at St. Louis, 28 minutes faster at Salt Lake City, and 10 minutes faster at San Francisco.

The above table applies to ordinary years only. For leap year, one day must be added to each number of days after February 28.

EXAMPLE.—To find the number of days between June 3, 1900, and February 16, 1901: The figures opposite the third day in the first June column are 154; those opposite the sixteenth day in the second February column are 412. Subtract the first from the second product—4, *e.*, 154 from 412, and the result is 258, the number of days between the two dates.

**Easter Sunday.**

The weight of a cubic foot of distilled water at a temperature of 60° F. is 1,000 ounces Avoirdupois, very nearly, therefore the weight (in ounces, Avoirdupois) of a cubic foot of any of the substances in the above table is found by multiplying the specific gravities by 10, thus:—one cubic foot of oak weighs 1,170 ounces; one cubic foot of marble 2,700 ounces, and so on.  
 \* Compared with water.

29 The Crucifixion.	1745 Second Jacobite Rebellion in Great Britain.	1852 Louis Napoleon became Emperor.
70 Jerusalem was destroyed by Titus.	1756 Black Hole Suffocation in Calcutta.	1853 Crimean War began.
313 Constantine converted to Christianity.	1757 Clive won Battle of Plassey in India.	1854 Japan opened by Commodore Perry.
410 The Romans abandoned Britain.	1765 Canada was taken from the French.	1857 The Great Mutiny in India.
827 Egbert, first king of all England, Oct. 14.	1765 Stamp Act enacted.	1857 The Dred Scott decision.
1066 Battle of Hastings, Norman Conquest.	1773 Steam engine perfected by Watt.	1857 First Atlantic cable message, Aug. 4.
1095 The Crusades began.	1773 Tea destroyed in Boston Harbor, Dec. 16.	1859 John Brown's raid into Virginia.
1172 Ireland was conquered by Henry II.	1775 Battle of Lexington, April 19.	1860 South Carolina seceded, Dec. 20.
1215 King John granted Magna Charta, June 15.	1776 Declaration of Independence, July 4.	1861 Emancipation of the Russian serfs.
1265 First Representative Parliament in England.	1777 Burgoyne's surrender, Oct. 17.	1863 Lincoln's Emancipation Proclamation, Jan. 1.
1415 Battle of Agincourt, Oct. 25.	1779 Capt. Cook was killed, Feb. 14.	1863 Battle of Gettysburg, July 1-3.
1431 Joan of Arc was burnt, May 30.	1781 Cornwallis' surrender at Yorktown, Oct. 19.	1865 Lee surrendered at Appomattox, April 9.
1453 Constantinople taken by the Turks.	1788 First settlement in Australia, Jan. 26.	1865 President Lincoln assassinated, April 14.
1455 The Wars of the Roses began.	1789 The French Revolution began July 14	1866 Battle of Sadowa. Prussia beat Austria.
1462 The Bible was first printed at Mentz.	1789 Washington first inaugurated President	1867 Emperor Maximilian of Mexico executed.
1471 Caxton set up his printing press.	1789 Cotton-gin invented by Whitney.	1867 The Dominion of Canada established
1486 The feuds of York and Lancaster ended.	1793 Louis XVI. of France executed, Jan. 21	1870 Franco-German War began, July 19.
1492 Columbus discovered America, Oct. 12	1796 Vaccination discovered by Jenner.	1870 Capitulation of France at Sedan, Sept. 1.
1517 The Reformation began in Germany.	1798 The Irish Rebellion.	1870 Rome became the capital of Italy.
1519 Cortez began the conquest of Mexico.	1799 Battle of Seringapatam; death of Tipoo.	1871 The German Empire re-established.
1535 The first English Bible printed.	1799 Bonaparte declared First Consul, Nov. 10.	1871 The Irish Church was disestablished.
1539 Monasteries were closed in England.	1801 Union of Great Britain and Ireland, Jan. 1.	1871 The great fire in Chicago, Oct. 8-11.
1558 Accession of Queen Elizabeth, Nov. 17	1803 Louisiana purchased from the French	1872 The great fire in Boston, Nov. 9.
1565 Revolt of the Netherlands began.	1804 Bonaparte became Emperor of France	1876 Prof. Bell perfected the telephone.
1565 St. Augustine, Florida, settled.	1805 Battle of Trafalgar; death of Nelson.	1876 Centennial Exposition at Philadelphia
1572 The St. Bartholomew Massacre, Aug. 24	1807 Pulton's first steamboat voyage.	1881 President Garfield shot, July 2.
1588 The Spanish Armada defeated, July.	1812 Second war with Great Britain.	1889 Brazil became a Republic.
1600 East India Company first chartered.	1812 The French expedition to Moscow.	1889 Johnston, Pa., flood, May 31.
1603 Union of England and Scotland.	1813 Perry's victory on Lake Erie, Sept. 10.	1893 World's Columbian Exposition at Chicago.
1605 The Gunpowder Plot in England.	1814 The printing machine invented.	1894 Chinese-Japanese War began.
1607 Jamestown, Va., was settled.	1814 Scott's "Waverley" published.	1895 Cuban Revolution began, Feb. 20.
1609 Hudson River first explored.	1815 Battle of New Orleans, Jan. 8.	1897 The Turkish-Greek War.
1616 Shakespeare died, April 23.	1815 Battle of Waterloo, June 18.	1898 The Spanish-American War.
1618 Thirty Years' War in Germany began.	1819 First steamship crossed the Atlantic.	1899 Universal Peace Conference.
1620 Pilgrims by the Mayflower landed.	1820 Missouri Compromise adopted.	1899 The South African War began.
1623 Manhattan Island settled.	1823 Monroe Doctrine declared, Dec. 2.	1900 Boxer Insurrection in China.
1634 Maryland settled by Roman Catholics.	1828 First passenger railroad in U. S.	1900 The Galveston tornado, Sept. 8.
1636 Rhode Island settled by Roger Williams.	1830 Revolution in France, Orleanist succession.	1901 Death of Queen Victoria.
1640 Cromwell's Long Parliament assembled.	1832 South Carolina Nullification Ordinance.	1901 Assassination of President McKinley
1640 Charles I. was beheaded, Jan. 30.		1902 Martinique destroyed by volcanic eruption.
1653 Oliver Cromwell became Lord Protector.		1903 Republic of Panama established.
1660 Restoration of the Stuarts.		1904 The Russo-Japanese War began.
1664 New York conquered from the Dutch.		1906 San Francisco earthquake and conflagration.
1664 The great plague of London.		
1666 The great fire of London began Sept. 2.		

## The French Revolutionary Era.

In September, 1793, the convention decreed that the common era should be abolished in all civil affairs, and that the new French era should begin on September 22, 1792, the day of the true autumnal equinox, and that each succeeding year should begin at the midnight of the day on which the true autumnal equinox falls. The year was divided into twelve months of thirty days each. In ordinary years there were five extra days, from the 17th to the 21st of our September, and at the end of every fourth year was a sixth complimentary day. This reckoning was first used on November 22, 1793, and was continued until December 31, 1805, when it was discontinued, and the Gregorian calendar, used throughout the rest of Europe, was resumed. The following were the dates for the year 1804, the last complete year of this style of reckoning:

Vendemiaire (Vintage),	September 23 to October 22.	Germinal (Budding),	March 22 to April 21.
Brumaire (Foggy),	October 23 to November 22.	Floreal (Flowers),	April 21 to May 20.
Frimaire (Sleepy),	November 22 to December 21.	Prairial (Pasture),	May 21 to June 20.
Nivose (Snowy),	December 22 to January 21.	Messidor (Harvest),	June 20 to July 19.
Puriose (Ramy),	January 21 to February 20.	Thermidor (Hot),	July 20 to August 19.
Ventose (Windy),	February 20 to March 19.	Fructidor (Fruit),	August 19 to September 18.

The months were divided into three decades of ten days each, but to make up the 365 five were added at the end of September: Primiidi, dedicated to Virtue; Duodi, to Genus; Tridi, to Labor; Quartidi, to Opium, and Quintidi, to Rewards. To Leap Year, called Olympic, a sixth day, September 22 or 23, Sextidi, "the day of the Revolution," was added.

To each tenth day, thirty-six in all, were assigned thirty-six "Fetes Decadaires," decreed by the National Convention on the eighteenth Prairial, in honor of the Supreme Being and Nature, the Human Race, the French People, Benefactors of Humanity, Martyrs for Liberty, Liberty and Equality, the Republic, Liberty of the World, Love of Country, Hatred of Tyrants and Traitors, Truth, Justice, Modesty, Glory and Immortality, Friendship, Frugality, Courage, Good Faith, Heroism, Disinterestedness, Stolicism, Love, Conjugal Fidelity, Paternal Love, Maternal Tenderness, filial Piety, Infancy, Childhood, Manhood, Old Age, Sickness, Agriculture, Industry, Our Ancestors, Our Posterity, Goodness.

**Ready-Reference Calendar.—2.**

For ascertaining any Day of the Week for any given Time within Two Hundred Years from the introduction of the New Style, 1753, to 1952 inclusive.

NOTE.—The letters in the list of "Years from 1753 to 1952," refer to the table headed with the Months, the figures in which refer to the same figures at the head of the table of Days. For example: To know on what day July 4, 1908, will fall look for 1908 in the table of Years. The letter "l" is attached. Look for the same letter in the table of Months and in a parallel line under July is the figure 3, which directs to column 3 in the table of Days below, in which it will be seen that July 4 falls on Saturday.

**Ritualistic Calendar.**

COLORS FOR THE ALTAR IN USE IN RITUALISTIC EPISCOPAL CHURCHES IN THE UNITED STATES.

*White.*—From the First Service (First Vespers) of Christmas Day to the Octave of Epiphany, inclusive (except on the Feasts of Martyrs); on Maundy Thursday (for the celebration); from the First Service of Easter Day to the Vigil of Pentecost (except on Feasts of Martyrs and Rogation Days); on Trinity Sunday, Conversion of St. Paul, Purification, St. John Baptist, St. Michael, St. Luke, All Saints, Saints who are not Martyrs, and Patron Saints (Transfiguration and Dedication of Church).  
*Red.*—From First Vespers of Pentecost to the First Vespers of Trinity Sunday (which includes Ember Days), Holy Innocents (if on a Sunday), and Feasts of all Martyrs.  
*Violet.*—From Septuagesima to Maundy Thursday (Easter Eve); Advent Sunday to Christmas Eve; Vigils, Ember Days (except in Whitsun Week), and Rogation Days; Holy Innocents (unless on Sunday).  
*Black.*—Good Friday and at funerals. *Green.*—All other days.  
 These regulations as to colors are general. A more minute code changing with each year is published in the church almanacs.

The number of asteroids discovered up to present date is about 465. A number of these small planets have not been observed since their discovery, and are practically lost. Consequently it is now sometimes a matter of doubt, until the elements have been computed, whether the supposed new planet is really new, or only an old one rediscovered.

## Our Moon.

Of all the secondary planets the earth's satellite is by far the most interesting and important. The moon completes her circuit around the earth in a period whose mean or average length is 27 days 7 hours 43.2 minutes; but in consequence of her motion in common with the earth around the sun, the mean duration of the lunar month, that is, the time from new moon to new moon, is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period. If the earth were motionless in space the moon's orbit would be nearly an ellipse, having the earth in one of the foci; hence her distance from the earth varies during the course of a lunar month. Her mean distance from the earth is 238,850 miles. Her maximum distance, however, may reach 252,830 miles, and the least distance to which she can approach the earth is 221,520 miles. Her diameter is 2,162 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon, viz., 3,962 and 1,081 miles respectively, we shall have for the nearest approach of the surfaces of the two bodies 216,477 miles. Her orbit is a very intricate one, because the earth in moving around the sun carries the moon along with it; hence the latter is sometimes within and sometimes without the earth's orbit. Its form is that of a serpentine curve, always *concave* toward the sun, and inclined to the plane of the earth's orbit at an angle of 5° 9', in consequence of which our satellite appears sometimes above and sometimes below the plane of the earth's orbit, through which she passes twice in a revolution. These points or positions are called nodes, and no two consecutive nodes occupy positions diametrically opposite on the lunar orbit. The nodes have a retrograde motion, which causes them to make an entire revolution in 18 years 218 days 21 hours 22 minutes and 46 seconds. This motion was well known to the ancients, who called it the Saros, and was made use of by them in roughly predicting eclipses.

The moon always presents the same face to us, as is evident from the permanency of the various markings on its surface. This circumstance proves that with respect to the earth she revolves on an axis, and the time of rotation is exactly equal to the time of revolution around the earth, viz., 27.32166 days. The moon's axis is not perpendicular to the plane of her orbit, but deviates therefrom by an angle of about 6° 41'. In consequence of this fact, and of the inclination of the lunar orbit to that of the ecliptic, the poles of the moon lean alternately to and from the earth. When the north pole leans toward the earth we see somewhat more of the region surrounding it, and somewhat less when it leans the contrary way. This displacement is known by the name of libration in latitude.

The moon's motion on her axis is uniform, but her angular velocity in her orbit is subject to slight variations by reason of the form of her orbit, hence it happens that we sometimes see a little more of the eastern or western edge at one time than at another. This phenomenon is known as libration in longitude.

The moon's surface contains about 14,685,000 square miles, or nearly four times the area of Europe. Her volume is 1-49 and her mass 1-81 that of the earth, and hence her density is about 3-5 that of the earth, or about 3-2-5 that of water. At the lunar surface gravity is only 3-20 of what it is at the earth, and therefore a body which weighs 20 pounds here would weigh only 3 pounds there.

The centre of gravity of the earth and moon, or the point about which they both actually revolve in their course around the sun, lies *within* the earth; it is 1,063 miles below the surface. The attractive force of the moon acting on the water of our oceans is mainly instrumental in raising them into protuberances or tides in such a manner as to give the total mass a spheroidal figure whose principal axis would continually coincide with the line joining the centres of the earth and moon, but in consequence of the resistance which this movement of the water encounters from continents and islands, as well as from the liquid molecules themselves, the tidal wave can never arrive at any place until about one hour after the moon has crossed the meridian of the place.

The moon has no atmosphere and no water. The suddenness with which stars are occulted by the moon is regarded as a conclusive proof that a lunar atmosphere does not exist, and the spectroscopic furnishes negative evidence of the same character.

In remote ages the lunar surface was the theatre of violent volcanic action, being elevated into cones and ridges exceeding 20,000 feet high, and at other places rent into furrows or depressions of corresponding depth. The lunar volcanoes are now extinct. A profound silence reigns over the desolate and rugged surface. It is a dead world, utterly unfit to support animal or vegetable life.

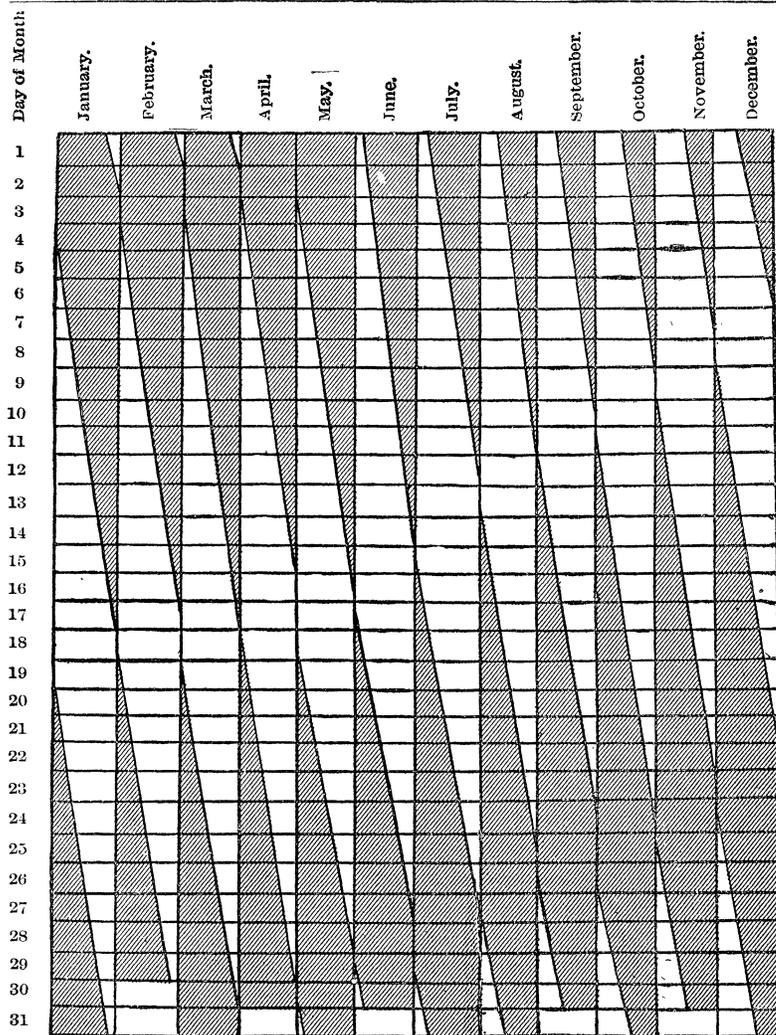

## THE EARTH'S ATMOSPHERE.

The earth's sensible atmosphere is generally supposed to extend some forty miles in height, probably farther, but becoming at only a few miles from the surface of too great a tenuity to support life. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying, by absorbing, the otherwise intense heat of the sun, and, when laden with clouds, hindering the earth from radiating its acquired heat into space. — *Whitaker*.

**Moonlight Chart, 1908.**

EXPLANATION. —The white spaces show the amount of moonlight each night. January 3, February 2, etc., the time of new moon, when there is no moonlight during the whole night. January 11, February 10, etc., the moon sets at or near midnight, when the former half of the night has moonlight; January 18, February 17, etc., the time of full moon, when moonlight lasts the whole night; January 26, February 25, etc., when the moon rises at or near midnight, and the latter half of the night has moonlight.

**Astronomical Phenomena for the Year 1908.**

ASTRONOMICAL SIGNS AND SYMBOLS.

☉	The Sun.	♂	Mars.	♊	Jupiter.	♋	Conjunction.
☾	The Moon.	♃	Saturn.	♌	Quadrature.	♍	Quadrature.
☿	Mercury.	♄	Uranus.	♎	Opposition.	♏	Opposition.
♀	Venus.	♅	Neptune.	♐	Ascending Node.	♑	Ascending Node.
♁	The Earth.			♒	Descending Node.	♓	Descending Node.

Two heavenly bodies are in "conjunction" (♋) when they have the same *Right Ascension*, or are on the *same meridian*, i. e., when one is due *north* or *south* of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time; they are in "opposition" (♌) when in opposite quarters of the heavens, or when one rises just as the other is setting. "Quadrature" (♍) is half way between conjunction and opposition. By "greatest elongation" is meant the greatest apparent *angular* distance from the sun, the planet is then generally most favorably situated for observation. Mercury can only be seen with the naked eye at this time. When a planet is in its "ascending" (♐) or "descending" (♑) node it is crossing the plane of the earth's orbit. The term "Perihelion" means nearest, and "Aphelion" farthest, from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

I.—ECLIPSES.

In the year 1908 there will be three eclipses, all of the sun, and a lunar appulse.

1. A total eclipse of the sun January 3, visible as a partial one in certain portions of the Southern States. The eclipse will not be visible north of a line drawn from a point near San Diego, Cal., to a point near Onawa City, Iowa, about sixty miles north of Omaha, Neb., thence by a curved line passing over or near Burlington, Iowa; Springfield, Ill. Bloomington, Ind., Louisville, Ky., Athens, Tenn., Milledgeville, Ga., and Jacksonville, Fla. Along the former line the limbs of the sun and moon will be simply in apparent contact, and along the latter the eclipse will begin at or very near sunset. All places south of these lines will experience a small partial eclipse. The path of the total eclipse lies wholly in the Pacific Ocean. At Dallas, Tex., the eclipse will begin at 4 hours 5.7 minutes P. M., and at New Orleans the eclipse will begin at 4 hours 30.2 minutes P. M., local *mean time*, the sun setting with the eclipse on it at both places.

2. An annular eclipse of the sun June 28, visible in the United States, Canada, Mexico, Central America, and the northern portion of South America. The path of the annular eclipse passes over or very near Mexico City, Tampa, Fla., and the Bermuda Islands; it then crosses the Atlantic Ocean and terminates in latitude 10° N. and longitude 108° W. in western Africa. The duration of the entire eclipse is 6 hours 1.3 minutes, and of the annular eclipse 3 hours 50 minutes, during which latter period it traverses 128° 48' 8" of longitude. The dates of beginning and ending of the eclipse for important places in the United States are given in local *mean time* in the following table:

PLACES.	Eclipse Begins.			Eclipse Ends.		Position Angle.	
	D.	H.	M.	H.	M.		
Boston.....	June 28,	10	8.7 A. M.	1	14.5 P. M.	241.2	
New York.....	"	9	38.0 A. M.	12	59.1 P. M.	242.8	
Washington.....	"	9	27.4 A. M.	12	41.2 P. M.	243.8	
Charleston.....	"	8	59.9 A. M.	12	25.4 P. M.	250.8	
Tampa.....	"	8	38.7 A. M.	12	14.6 P. M.	256.9	
	Annulus begins	10	13.2 A. M.	ends	10	14.4 A. M.	
Cincinnati.....	June 28,	8	50.1 A. M.	11	52.3 A. M.	238.9	
Shelbyville, Ind.....	"	8	44.3 A. M.	11	43.3 A. M.	237.6	
Chicago.....	"	8	41.5 A. M.	11	29.7 A. M.	233.5	
New Orleans.....	"	8	3.0 A. M.	11	18.3 A. M.	247.8	
Northfield, Minn.....	"	8	23.9 A. M.	10	52.8 A. M.	225.7	
Dallas, Tex.....	"	7	37.4 A. M.	10	28.2 A. M.	239.1	
Denver.....	"	7	21.9 A. M.	9	38.8 A. M.	224.2	
Ogden.....	"	6	58.7 A. M.	8	56.0 A. M.	216.8	
San Francisco.....	"	6	12.7 A. M.	7	55.5 A. M.	213.8	

The position angle at beginning, given in the above table, is estimated from the north point of the sun's limb *toward* the east.

3. A central eclipse of the sun December 23, invisible in North America. This eclipse will be annular at the beginning and end, and total in the middle. The path of the central eclipse crosses the southern part of South America, the South Atlantic, South Africa, and the southern portion of the Indian Ocean.

4. A lunar appulse December 7.

The nearest approach of the moon to the earth's shadow will occur December 7, 4 hours 59 minutes P. M. New York *mean time*, and the computed least distance of the moon's limb from the shadow is only 12". The moon in such cases is only immersed in the earth's penumbra.

From June 16 to August 1 both the upper and lower transits take place during daylight. The azimuth at the time of greatest eastern or western elongation can be easily computed from the formula.

$$\sin A = \frac{\sin p}{\cos l}$$

where  $A$  denotes the azimuth,  $p$  the polar distance, and  $l$  the latitude of the place.

DATE OF GREATEST ELONGATION.

To find the time of greatest eastern or western elongation, let  $H$  denote the hour angle, and  $l$  and  $p$  as before, then we shall have

$$\cos H = \tan p \tan l.$$

And the hour angle in mean time is

$$H_m = H^\circ \times 0.0664846.$$

This quantity,  $H_m$ , added to or subtracted from the time of transit given above, according to the elongation required, will give the mean time of the greatest elongation at any place whose north latitude is  $l$ .

Star Table.

FOR IDENTIFYING THE PRINCIPAL FIXED STARS.

NAME OF STAR.	Declination	On Meridian.		NAME OF STAR.	Declination	On Meridian.

$\beta$ Geminorum (Pollux).....	N 28 15	+ 6 16.6	+18 14.6	$\alpha$ Piscis Aus.....	S 30 10	+21 27.1	+ 9 25.1
$\alpha$ Canis Minor.....	N 5 29	+ 6 11.6	+18 9.6	$\alpha$ Pegasi (Markab).....	N 14 39	+21 34.7	+ 9 32.7

To find the time of the star's transit add or subtract, according to the sign, the numbers in the second column of figures to the date of the transit of the pole star given above. Thus, for  $\alpha$  Andromedæ February 1. Lower Transit of Polar Star is 4 h. 44 m. 51 s. A. M., to which add 10 h. 40 m. and we have 3 h. 24 m. 51 s. P. M.; for December 1, we find 7 h. 26.56 s. P. M., etc.

APPROXIMATE PARALLAX AND DISTANCE IN LIGHT-YEARS OF SOME OF THE PRINCIPAL FIXED STARS.

By light-years is to be understood the number of years light requires to travel from the star to us.

	Parallax.	Light-Years.		Parallax.	Light-Years.
Polaris (Pole Star).....	0.073	45	$\alpha$ Lyræ (Vega).....	0.140	23
$\alpha$ Aurigæ (Capella).....	0.046	71	$\beta$ Cygni.....	0.348-0.564	6-8
$\alpha$ Canis Majoris (Sirius).....	0.253	15	$\beta$ Cassiopeiæ.....	0.187	17
$\alpha$ Canis Minoris (Procyon).....	0.123	27	$\gamma$ Draconis.....	0.127	26
$\alpha$ Boëtis (Arcturus).....	0.127	28	$\delta$ Pegasi.....	0.054	60
$\alpha$ Centauri.....	0.316	3.6			

The determination of stellar parallax is one of the most difficult and refined problems in practical or observational astronomy. It is to find the angle which the semi-diameter of the earth's orbit subtends at the star—an angle always very small as seen from the above table and which cannot be measured directly but by various processes too complicated to be explained here.

**The Source and Maintenance of Solar Energy.**

(Prepared for THE WORLD ALMANAC by Dr. J. Morrison.)

THE solar energy is manifested in part by the radiation of heat and light on which the existence of all animated nature depends. From time immemorial the cause of the solar heat and light has been the subject of study by astronomers and scientists in all lands, and by patient and laborious observations continued for centuries, by profound research and by unremitting toil, man has at last forced nature to yield up to him these hitherto mysterious secrets. A rational explanation of the solar energy was not possible under the old theory of the cause of heat and light—not in fact until the promulgation of the mechanical theory of the former and the undulatory theory of the latter—two scientific achievements of the nineteenth century, a period which will go thundering down the ages as the golden age of scientific discovery and research.

In order to obtain a clear idea of the cause of heat and light it is necessary to digress a little to speak briefly of the constitution of matter. Like time and space matter cannot be defined; we know nothing of its intrinsic nature or essence. In a general way, we may say, matter is any substance which occupies space, and exists in three forms, viz., gaseous, liquid and solid, according to the temperature and pressure. In whatever form it may exist, matter is not a continuous substance, that is to say, it is composed of masses of infinitesimally small portions called *molecules*, each of which consists of two or more still smaller portions called *atoms*. The molecules of a body, whether in the gaseous liquid or solid state, are not in absolute contact, but separated from one another by an infinitesimally small space which permits of a certain amount of motion.

## THE ETHER.

This space is filled with that mysterious, invisible, colorless, odorless, and inconceivably rarified substance called *ether*, which fills all space and holds the universe in its grasp. The molecules of a body are never at rest, but always in motion, and this motion infinitesimal as it is, causes undulations or waves in the ether, and these undulations manifest themselves as heat or light, or both, according to their intensity.

Heat and light are thus manifestations of molecular motion propagated by the ether, just like sound, which is a manifestation of undulations or waves of the air. In fact, heat, light and sound are quite similar as regards their mode of production and propagation. Now, as regards the sun, this luminary has been radiating into space a stupendous amount of both heat and light for an inconceivably long period of time, and that, too, without any visible source of supply. Whence then is the origin or source of this prodigious expenditure of energy? Is this radiation of heat and light to continue forever? Does this dissipation of energy imply a waste of the solar substance? Does the solar globe contain within itself the elements of its own decay and death? Stupendous questions are they not? Let us see what answer modern science has to give to them. It is now universally accepted by astronomers and scientists that

## THE NEBULAR HYPOTHESIS

originally propounded by Swendenborg and subsequently accepted by Herschell, Kant, Laplace and other distinguished scholars, mathematicians and astronomers, is the true cosmogony of our solar system. The evidence upon which this hypothesis rests is so strong that it rises almost to the dignity of a demonstration. Without entering into all the numerous details which would render this paper far too long for the space afforded, it must suffice here to say that the gaseous nebulae revealed in the sidereal heavens by the telescope and spectroscope, all the structural and dynamical features of the sun and planets, and the physical structure of the earth and moon, confirm the hypothesis in a most remarkable manner. Indeed, it is hardly possible that so many concurrent circumstances could be the result of chance.

All the evidence tends to show that the Creator evolved the solar system by means of the physical laws of matter established by Himself, just as He developed the giant oaks of the forest from the tiny acorns. The nebular hypothesis assumes that the matter composing the sun and planets once existed as a vast gaseous nebula, spiral in form, having an inconceivably high temperature and slowly revolving on an axis passing through its centre of gravity. As the mass cooled by radiating heat into space, contraction of volume with accelerated axial rotation would ensue in accordance with well-known dynamical principles. The centrifugal force thus rapidly increased would cause the separation of large masses, which would, by the mutual attraction of their own particles, gradually assume a spherical figure and become planets. By a repetition of this process planet after planet would be thrown off until the central glowing sun would remain.

## RESULTS OF SOLAR CONTRACTION.

Assuming then, that the sun has attained his present dimensions by the slow contraction of the original gaseous mass, the question which now confronts us is, What amount of contraction or diminution of volume is necessary to supply the quantity of heat and light now radiated? In order to put this in as clear a light as practicable, we will first describe an experiment whose results are quite apparent. Let a large globe of iron, say ten feet or more in diameter, be thoroughly and uniformly heated in a furnace until it has attained a "white heat," or is on the point of melting, during which time it will expand until its diameter be half a foot or more. If it be then taken out and suspended in space it will radiate heat and light in all directions, and, as it cools, it will not only contract in volume, but also give out a light which will gradually change in color from white to dull red, after which the surface will become dark, when heat vibrations only would be manifest.

As the cooling proceeds, the surface will contract and compress the semi-molten interior to such a degree that it may crack and the soft material of the interior exude through it. The temperature of the entire mass, with diminution of volume, will continue to decline until it attains the temperature of surrounding objects, when it will cease; but if it were suspended in the inter-planetary, or inter-stellar spaces, where it could not receive any heat from external objects, the cooling and contraction of volume would go on incessantly until the temperature reached the absolute zero point, or, in other words, until all molecular motion ceased. In this condition it would probably fall into dust, the power which hitherto held the molecules together having become dissolved—a condition which may be inferred from the fact that when an iron bar is placed for some time in liquid air or oxygen it becomes as brittle as glass, and yet the temperature of liquid air is far above the absolute zero temperature. The condition of the heated iron globe and the phenomena resulting therefrom are almost precisely similar to those of the sun, which is a huge, gaseous globe, over 865,000 miles in diameter, intensely hot, cooling off very slowly by radiating heat and light in prodigious quantity in all directions, and also slowly contracting

under its own gravity, by which a portion of its potential energy is transformed into molecular energy manifested by heat and light.

THE THERMAL UNIT.

Heat is measured by an arbitrary unit, that is to say, the *thermal unit* is the amount of heat required to raise one pound of water one degree Fah. in temperature. Carefully conducted experiments show that one square yard of the earth's surface receives about twenty-five thermal units in one second when the sun's rays fall vertically, due allowance being made for atmospheric absorption which may amount to about one-thirtieth of the whole.

From the solar parallax, viz., 8''.81 and the well-known dimensions of the earth we can easily calculate the surface of a sphere having the sun's distance as a radius and hence also the amount of heat received by it in one second or the amount radiated by the sun in that time, and this must be, approximately, at least, equal to the amount generated in same interval by the contraction or shrinkage of the solar mass. The amount of heat generated can be approximately determined by the aid of "the mechanical equivalent of heat" which may be expressed thus: If a pound of matter (iron for instance) falls freely through 772 feet it will strike a blow which will raise the temperature of the body struck one *thermal unit*, or if 772 pounds fall one foot it will do the same thing. Instead, however, of a blow thus struck, a constant and equivalent pressure will produce the same result. By the radiation of heat and consequent contraction of volume, aided by the sun's gravity, the entire mass is gradually falling toward the centre.

By means of all the data now at hand it can be shown mathematically by a process far too abstruse and complicated for insertion here, that a contraction or shortening of about 315 feet annually in the sun's diameter, is sufficient to account for the amount of heat and light at present radiated. This result obtained from the most conservative estimate of all the factors that enter into the computation, must be regarded as an approximation, and it may be a very rough one at that, but however much it may differ from the actual condition of things, a contraction of the sun's volume due to gravity and the radiation of heat, is amply sufficient to account for the source and maintenance of solar energy.

THE FUTURE OF THE UNIVERSE.

This contraction of volume due to the above causes will of course continue, and a time must come in the far distant future—how many millions of years it is impossible to say—when the sun will cease to radiate sufficient heat and light to maintain animal and vegetable life on the earth.

It is certain that all animal and vegetable existences on the earth had a beginning, and it is equally certain that they will have an end. Geology speaks to us out of the rocky strata of the earth's crust, of the extinction of numerous races of animals and plants in the remote past. There have been six grand groups or periods of animated existences on the earth, and five of these have already passed away, and that, too, long before the advent of man.

Many of our sedimentary rocks are the solid sarcophagi of countless millions of once living creatures. Our statuary halls and portrait galleries are replete with the memorials of empires and kingdoms, of dynasties and generations of men that have long since passed away. Man himself, nature's greatest paradox, must pass off the stage of his earthly existence and leave to his successors the fruits of his labors and researches.

Each day dies and sinks into the silent tomb of night before the next can be born. Every Summer gradually fades away into the cold, dreary Winter before its successor can come forth. The grain of wheat which is cast into the ground, must perish before the new grain can exist. Death thus appears to follow life, *pari passu*, throughout the entire realm of material creation. To be born, to live and to die, appear to be the destiny of all organized bodies; the tomb of the past is the womb of the future. So, likewise, suns and their systems of planets must die in order that their successors may be born. There is strong evidence of the existence of dark or dead suns in the sidereal heavens.

At the rate of contraction just stated the sun will have shrunk to about three-fourths of its present dimensions, in four or five millions of years, and during that long interval its light will gradually change from white, through blue, green, yellow and orange to a dull red and, finally, cast a lurid glare over the dying embers of the solar system.

Ages before this animal and vegetable life will have become extinct, and on some rocky crag or frozen knoll the last man may stand shivering in the wintry blasts, and while taking his last, long, lingering look at the universal desolation produced by the appalling calamity which has overtaken the world and overwhelmed his race, he himself will expire "unkneled, uncoffined and unknown."

"Sic transit gloria mundi."

THE RESTORATION.

Such is the logical sequence of the Nebular Hypothesis and such is the fate which awaits the sun and the solar system in the far distant future. There are, however, agencies at work in the sidereal heavens, by which these dead suns and systems may be restored to their original gaseous nebulae, endowed with all their pristine vigor and destined for the formation of new suns and new systems of planets, but space will not permit their discussion now.

The solar energy will continue with little or no diminution for perhaps a million of years during which its benign influence will be felt throughout the solar system into which it infuses life, energy and activity.

By its genial warmth and marvellous light it clothes our hills and valleys in their glorious garb of green, so pleasing to the eyes, and by the action of its chemical rays of light it gradually changes this same green mantle into the golden tints of Autumn. It paints the maiden's cheeks in their rosy tints and the evening clouds in their gorgeous hues. It sets in motion the gentle zephyr that cools our heated brow on a hot Summer day, and it also arouses into activity the hurricane and cyclone which frequently carry death and destruction in their paths. It releases from their icy fetters the tiny streams that trickle down the sides of snow-clad mountains to form the source of the mighty rivers that irrigate our plains and facilitate commerce and international communication. It distills from our oceans and lakes enormous volumes of aqueous vapor which ascend into the atmosphere to form clouds to temper the solar heat, and by the condensation of these clouds to produce the copious showers of rain to purify our atmosphere, to fertilize our fields, to nourish the kindly fruits of the earth for our sustenance, to raise every fainting flower and to revive all animated nature.

In remote geologic ages, a portion of the solar energy was stored away in these gigantic forests which ultimately were transformed into beds of coal which we now exhume to warm and light our homes, to propel our ships and locomotives, to drive our mills and factories and to contribute to our comfort in a thousand ways. In short, there is not on the surface of our planet a form of energy which has not been derived directly or indirectly from the glorious orb of day,

Normal Temperature and Rainfall

TABLE SHOWING THE NORMAL TEMPERATURE FOR JANUARY AND JULY, AND THE NORMAL ANNUAL PRECIPITATION AT WEATHER BUREAU STATIONS IN EACH OF THE STATES AND TERRITORIES, ALSO THE HIGHEST AND LOWEST TEMPERATURES EVER REPORTED FROM EACH OF SAID STATIONS, TO DECEMBER 31, 1906.  
(Prepared in the office of the Weather Bureau, U. S. Department of Agriculture, for THE WORLD ALMANAC for 1908.)

The lowest point of dry land in the United States is in Death Valley, Cal., 278 feet below sea level.

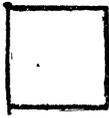

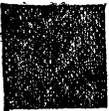

NOTE.—The above table was prepared for THE WORLD ALMANAC by the Geographic Branch of the United States Geological Survey. It should be stated in connection with this table that it presents only points whose heights are matters of record, and that in several cases in the high mountain region of the far West and the Pacific Slope it is well known that there are higher points within the State or Territory whose heights are not yet known with accuracy, and consequently cannot be given.

This table was revised by the United States Geological Survey to September 1, 1907.  
 \* Western end of Beaver County, Oklahoma, reaches 5,000 feet elevation.

**Weather Flags****OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.**

THE Weather Bureau furnishes, when practicable, for the benefit of all interests dependent upon weather conditions, the "Forecasts" which are prepared daily at the Central Office in Washington, D. C., and certain designated stations. These forecasts are telegraphed to stations of the Weather Bureau, railway officials, postmasters, and many others, to be communicated to the public by means of flags or steam whistles. The flags adopted for this purpose are five in number, and of the forms and colors indicated below:

**EXPLANATION OF WEATHER FLAGS.**

No. 1. White Flag.	No. 2. Blue Flag.	No. 3. White and Blue Flag.	No. 4. Black Triangular Flag.	No. 5. White Flag with black square in centre.
				
Clear or fair weather.	Rain or snow.	Local rain or snow.	Temperature.	Cold wave.

When number 4 is placed above number 1, 2, or 3, it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late Spring and early Fall the cold-wave flag is also used to indicate anticipated frosts.

**WHISTLE SIGNALS.**

A warning blast of from fifteen to twenty seconds duration is sounded to attract attention. After this warning the longer blasts (of from four to six seconds duration) refer to weather, and shorter blasts (of from one to three seconds duration) refer to temperature; those for weather are sounded first.

Blasts.	Indicate.	Blasts.	Indicate.
One long.....	Fair weather.	One short.....	Lower temperature.
Two long.....	Rain or snow.	Two short.....	Higher temperature.
Three long.....	Local rain or snow.	Three short.....	Cold wave.

By repeating each combination a few times, with intervals of ten seconds, liability to error in reading the signals may be avoided.

As far as practicable the forecast messages will be telegraphed at the expense of the Weather Bureau; but if this is impracticable, they will be furnished at the regular commercial rates and sent "collect." In no case will the forecasts be sent to a second address in any place, except at the expense of the applicant.

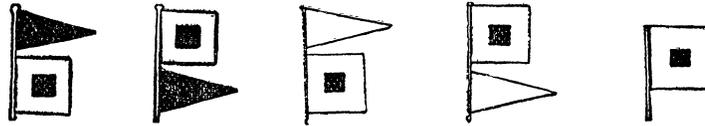

Persons desiring to display the flags or sound the whistle signals for the benefit of the public should communicate with the Weather Bureau officials in charge of the climatological service of their respective States, the central stations of which are as follows:

Alabama, Montgomery.	Massachusetts, Boston (for New England).	Oklahoma (for Indian Terri- tory, and Oklahoma).
Arizona, Phoenix.	Michigan, Grand Rapids.	Oregon, Portland.
Arkansas, Little Rock.	Minnesota, Minneapolis.	Pennsylvania, Philadelphia.
California, San Francisco.	Mississippi, Vicksburg.	South Carolina, Columbia.
Colorado, Denver.	Missouri, Columbia.	South Dakota, Huron.
Florida, Jacksonville.	Montana, Helena.	Tennessee, Nashville.
Georgia, Atlanta.	Nebraska, Lincoln.	Texas, Galveston.
Idaho, Boise.	Nevada, Reno.	Utah, Salt Lake.
Illinois, Springfield.	New Jersey, Atlantic City.	Virginia, Richmond.
Indiana, Indianapolis.	New Mexico, Santa Fé.	Washington, Seattle.
Iowa, Des Moines.	New York, Ithaca.	West Virginia, Parkersburg.
Kansas, Topeka.	North Carolina, Raleigh.	Wisconsin, Milwaukee.
Kentucky, Louisville.	North Dakota, Bismarck.	Wyoming, Cheyenne.
Louisiana, New Orleans.	Ohio, Columbus.	
Maryland, Baltimore (for Delaware and Maryland).		

**The Ancient and Modern Year.**

THE Athenians began the year in June, the Macedonians in September, the Romans first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins early in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

**Storm and Hurricane Warnings**  
OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE,  
STORM WARNINGS.

Northeasterly winds. Southeasterly winds. Northwesterly winds. Southwesterly winds. Red, black centre.

**Storm Warnings.**—A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants.

By night a red light indicates easterly winds, and a white light above a red light westerly winds.

**Hurricane Warnings.**—Two red flags with black centres, displayed one above the other, indicate the expected approach of a tropical hurricane, and also one of those extremely severe and dangerous storms which occasionally move across the Lakes and Northern Atlantic Coast.

**Velocity of Winds in the United States.**

AVERAGE hourly velocity of the wind at selected stations of the United States Weather Bureau, also the highest velocity ever reported for a period of five minutes. (Prepared by W. L. Moore, Chief of the Weather Bureau, and revised to December 31, 1906, for THE WORLD ALMANAC.)

From 1890 to 1898 the property loss by tornadoes in the United States was \$26,633,750 [See THE WORLD ALMANAC for 1902, page 61]. The number of persons killed by tornadoes 1889 to 1898 inclusive was 1,437.

**Loss by Lightning in the United States.**

THE Weather Bureau of the United States Department of Agriculture in October, 1900, issued a bulletin giving these facts: In 1899 the total number of strokes of lightning which caused damage was 5,527; number of buildings injured, 6,256; value of property lost, \$3,016,520; number of deaths by lightning during the year, 563; number of persons injured, 820; number of live stock killed in the fields, 4,251; value, \$129,955. These are the latest available statistics.

The Chronicle Fire Tables record 3,012 fires caused by lightning in the United States in 1902, the property loss occasioned thereby being \$3,396,810. These are the latest reported statistics on the subject.

**Rules for Foretelling the Weather.**

ADAPTED FOR USE WITH ANEROID BAROMETERS.

**A RISING BAROMETER.**  
A RAPID rise indicates unsettled weather.  
A gradual rise indicates settled weather.  
A rise with dry air and cold increasing in Summer indicates wind from the northward; and if rain has fallen, better weather may be expected.  
A rise with moist air and a low temperature indicates wind and rain from the northward.  
A rise with southerly winds indicates fine weather.

**A STEADY BAROMETER.**  
With dry air and seasonable temperature indicates a continuance of very fine weather.

**A FALLING BAROMETER.**  
A rapid fall indicates stormy weather.  
A rapid fall with westerly wind indicates stormy weather from the northward.  
A fall with a northerly wind indicates storm, with rain and hail in Summer, and snow in Winter.  
A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.  
A fall with dry air and cold increasing in Winter indicates snow.  
A fall after very calm and warm weather indicates rain with squally weather.  
The barometer rises for northerly winds, including from north-west by north to the eastward for dry, or less wet weather, for less wind, or for more than one of these changes, except on a few occasions, when rain, hail, or snow comes from the northward with strong wind.  
The barometer falls for southerly wind, including from south-east by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

The above printed rules are in use by the Seavanhaka-Corinthian Yacht Club of New York.

**DURATION OF DIFFERENT KINDS OF WEATHER IN THE SEVERAL STORMS—VICINITY OF NEW YORK.**

CRITICAL WINDS.	Clearing Hours.			
	Clear Hours.	Cloudy Hours.	Rain Hours.	Clearing Hours.
South to Southwest.....	9	8	8.3	14
South to Southeast.....	14	13.4	15.6	15.4
East to Northeast.....	20	17.6	31	20.6

**WEATHER WISDOM.**

**SUNSET COLORS.**—A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise, with clouds lowering later in the morning, also indicates rain.

**HALO (SUN DOGS).**—By halo we mean the large circles, or parts of circles, about the sun or moon. A halo occurring after fine weather indicates a storm.

**CORONA.**—By this term we mean the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

**RAINBOWS.**—A morning rainbow is regarded as a sign of rain; an evening rainbow of fair weather.

**SKY COLOR.**—A deep-blue color of the sky, even when seen through clouds, indicates fair weather; a growing whiteness, an approaching storm.

**FOGS.**—Fogs indicate settled weather. A morning fog usually breaks away before noon.

**VISIBILITY.**—Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars, indicate rain.

**FROST.**—The first frost and last frost are usually preceded by a temperature very much above the mean.

**OBJECTS VISIBLE AT SEA-LEVEL IN CLEAR WEATHER.**

The following table shows the distance at sea-level at which objects are visible at certain elevations:

ELEVATION—FEET.	Miles.	ELEVATION—FEET.	Miles.	ELEVATION—FEET.	Miles.

HIGH-TIDE TABLES—Continued.

TIME OF HIGH WATER AT POINTS ON THE ATLANTIC COAST.

The local time of high water at the following places may be found approximately for each day by adding to or subtracting from the time of high water at Governor's Island, N. Y., the hours and minutes annexed.

	H.	M.		H.	M.
Albany, N. Y.....add	9	31	New Haven, Ct.....add	3	1
Annapolis, Md.....add	8	57	New London, Ct.....add	1	22
Atlantic City, N. J.....sub.		20	Newport, R. I. ....sub.		22
Baltimore, Md.....add	10	52	Norfolk, Va.....add		58
Bar Harbor, Me.....add	2	46	Norwich, Ct.....add	2	0

EXAMPLE.—To find the approximate time of high tide at Atlantic City, N. J., on any day, find first the time of high water at New York under the desired date, and then subtract 20 minutes, as in the above table; the result is the time of high water required.

AVERAGE RISE AND FALL OF TIDE.

PLACES.	Feet.	Inches.	PLACES.	Feet.	Inches.	PLACES.	Feet.	Inches.
Baltimore, Md.....	1	3	New London, Ct.....	3	9	San Diego, Cal.....	3	7
Boston, Mass.....	9	8	New Orleans, La.....	None	None	Sandy Hook, N. J. ....	4	4
Charleston, S. C.....	5	1	Newport, R. I. ....	9	8	San Francisco, Cal. ...	4	6

Key West, Fla.....	1	2	Philadelphia, Pa.....	6	0	Tampa, Fla.....	2	6
Mobile, Ala.....	1	2	Portland, Me.....	9	1	Washington, D. C.....	2	6

Highest tide at Eastport, Me., 218 inches. Lowest tide at Galveston, Tex., 13 inches.

Earthquake Areas of the Earth.

MAJOB DE MONTESSUS DE BALORE, after years of labor, has drawn up a catalogue of 130,000 shocks, of which trustworthy details have been procured, and this indicates with some scientific accuracy how the symptoms of seismic activity are manifested over the earth's surface. The period of observation includes generally the last fifty years; but there is no reason to suppose that a longer time would materially affect the proportionate numbers. The appended figures, drawn from M. de Montessus's statistics, will give an idea of the general result:

AREA.	Earth- quakes.	AREA.	Earth- quakes.	AREA.	Earth- quakes.
Scandinavia.....	646	Greece.....	10,306	Atlantic Coast.....	937
British Isles.....	1,139	Russia.....	258	Mexico.....	5,586
France.....	2,793	Asia Minor.....	4,451	Central America.....	2,739
Spain and Portugal.....	2,656	India.....	813	West Indies.....	2,561
Switzerland.....	3,895	Japan.....	27,562	South America.....	8,081
Italy.....	27,672	Africa.....	179	Java.....	2,155
Holland and North Ger- many.....	2,326	Atlantic Islands.....	1,704	Australia and Tasmania.	83
Sicily.....	4,331	United States, Pacific Coast.....	4,467	New Zealand.....	1,925

The most shaken countries of the world are Italy, Japan, Greece, South America (the Pacific Coast), Java, Sicily, and Asia Minor. The lands most free from these convulsions are Africa, Australia, Russia, Siberia, Scandinavia, and Canada. As a rule, where earthquakes are most frequent they are most severe. But to this general statement there are exceptions—Indian shocks, though less numerous, being often very disastrous. Loss of life in many cases depends, however, on density of population rather than on the intensity of the earth movement. Numerically, also, France has registered more seismic tremors than Spain and Portugal, but France in historic times has experienced no earthquake disaster approaching the havoc wrought by the one calamity at Lisbon.

**Table of Magnetic Declinations,**

OR VARIATION OF COMPASS FOR JANUARY, 1908—WITH THE ANNUAL CHANGE IN 1906 FOR THE PRINCIPAL PLACES IN THE UNITED STATES.

A plus (+) sign to the annual change denotes that the declination is increasing, and a minus (−) sign the reverse.

(Specially prepared for THE WORLD ALMANAC in the Office of the United States Coast and Geodetic Survey.)

**Facts About the Earth.**

ACCORDING to Clark, the equatorial semi-diameter is 20,926,202 feet=3963,296 miles, and the polar semi-diameter is 20,854,895 feet=3950,738 miles. One degree of latitude at the pole=69.407 miles. One degree of latitude at the equator=68.704 miles.

POPULATION OF THE EARTH BY CONTINENTS.  
(From Proceedings of the Royal Geographical Society.)

CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.		CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.	
		Number.	Per Sq. Mile.			Number.	Per Sq. Mile.
Africa .....	11,514,000	127,000,000	11.00	Australasia	3,288,000	4,730,000	1.40
America N.....	6,446,000	89,250,000	13.80	Europe.....	3,555,000	380,200,000	106.90
America, S.....	6,837,000	36,420,000	5.30	Polar Reg...	4,888,800	300,000	0.07
Asia.....	14,710,000	850,000,000	57.70	Total.....	51,238,800	1,487,900,000	29.00

The above estimate was made by Ernest George Ravenstein, F. R. G. S., the geographer and statistician, and is for 1890. The population of North America, 1900, had increased to over 100,000,000.

An estimate of population of the earth, made by Drs. Wagner and Supan, editors of "Bevölkerung der Erde" (Perthes, Gotha, 1891), is as follows: Europe, 357,379,000; Asia, 825,954,000; Africa, 163,953,000; America, 121,713,000; Australia, 3,230,000; Oceanic Islands, 7,420,000; polar regions, 80,400. Total, 1,479,729,400. The estimate of area of the continents and islands by the same authorities is 52,821,684.

Ravenstein's estimate of the earth's fertile region, in square miles, is 28,269,200; steppe, 13,901,000; desert, 4,180,000; polar regions, 4,888,800.

The population of the earth at the death of the Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century.—*Mulhall.*

The area and cubic contents of the earth, according to the data of Clark, given above, are: Surface, 196,971,984 square miles; cubic contents, 259,944,035,515 cubic miles.

Murray (Challenger expedition) states the greatest depth of the Atlantic Ocean at 27,366 feet; Pacific Ocean, 30,000 feet; Indian Ocean, 18,582 feet; Southern Ocean, 25,200 feet; Arctic Ocean, 9,000 feet. The Atlantic Ocean has an area, in square miles, of 24,536,000; Pacific Ocean, 50,309,000; Indian Ocean, 17,084,000; Arctic Ocean, 4,781,000; Southern Ocean, 30,592,000. The highest mountain is believed to be Deodhunga or Everest, one of the Himalayas, 29,002 feet.

For population of the earth according to creed, see RELIGIOUS STATISTICS.

POPULATION OF THE EARTH ACCORDING TO RACE.

(Estimated by John Bartholomew, F. R. G. S., Edinburgh.)

RACE	Location.	Number.	RACE	Location.	Number.
Indo-Germanic or Aryan (white).....	Europe, Persia, etc.....	545,500,000	Hottentot and Bushman (black).....	South Africa	150,000
Mongolian or Turanian (yellow and brown).....	Greater part of Asia.....	630,000,000	Malay and Polynesian (brown).....	Australasia & Polynesia	35,000,000
Semitic or Hamitic (white).....	North Africa, Arabia.....	65,000,000	American Indian (red).....	North & So. America.....	15,000,000
Negro and Bantu (black).....	Central Africa.....	150,000,000	Total.....		1,440,650,000

The human family is subject to forty-nine principal governments. As to their form they may be classified as follows: *Absolute monarchies*, Abyssinia, Afghanistan, China, Korea, Morocco, Siam, Turkey; *Limited monarchies*, Austria-Hungary, Belgium, British Empire, Denmark, Germany, Greece, Italy, Japan, Montenegro, Netherlands, Norway, Persia, Portugal, Roumania, Russia, Servia, Sweden, Spain; *Republics*, Argentine Republic, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, France, Guatemala, Hayti, Honduras, Liberia, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Switzerland, United States of America, Uruguay, Venezuela. Besides these are the undefined despotisms of Central Africa, and a few insignificant independent States.

The average duration of human life is about 33 years. One-quarter of the people on the earth die before age 6, one-half before age 16, and only about 1 person of each 100 born lives to age 65.

EUROPEAN LANGUAGES SPOKEN.

LANGUAGES.	NUMBER OF PERSONS SPOKEN BY.		PROPORTION OF THE WHOLE.		LANGUAGES.	NUMBER OF PERSONS SPOKEN BY.		PROPORTION OF THE WHOLE.	
	1801.	1901.	1801.	1901.		1801.	1901.	1801.	1901.
English .....	20,520,000	130,300,000	12.7	29.2	Portuguese	7,480,000	15,000,000	4.7	3.3
French .....	31,450,000	52,100,000	19.4	11.7	Russian.....	30,770,000	85,000,000	19.0	19.0
German.....	30,320,000	84,200,000	18.7	18.8	Total .....	161,800,000	447,100,000	100.0	100.0

Spanish .....	26,190,000	46,500,000	16.2	10.4					

These estimates (that for 1801 being by Mulhall) exhibit the superior growth of the English language in the last century.

## The Geological Strata.

THE strata composing the earth's crust is divided by most geologists into two great classes: 1. Those generally attributed to the agency of water. 2. To the action of fire; which may be subdivided as follows: (a) Aqueous formations, stratified, rarely crystalline (sedimentary or fossiliferous rocks; metamorphic or unfossiliferous). (b) Igneous formations, unstratified, crystalline (volcanic, as basalt; plutonic, as granite).

The geological record is classified into five main divisions or periods: 1. The Archæan, lifeless and dawn of life. 2. The Palæozoic (ancient life). 3. The Mesozoic (middle life). 4. The Cenozoic (recent life). 5. Quaternary, the age in which man's first appearance is indicated.

PERIODS.		Eras.	Series.	Subdivisions.
Quaternary Period.	Age of Primeval Man.	Quaternary or Post Tertiary.	3. Recent. 2. Champlain. 1. Glacial.	Pleistocene.
	Age of Mammals.		Tertiary Era.	4. Pliocene. 3. Miocene. 2. Oligocene. 1. Eocene.
Mesozoic Period.	Age of Reptiles.	Cretaceous Era.	4. Laramie. 3. Colorado. 2. Dakota. 1. Lower.	Upper Chalk. Lower Chalk. Chalk Marl. Gault. Neocomian. Lower Greensand.
			Jurassic Trias.	3. Purbeck. 2. Oolite. 1. Lias.
		7. Triassic.		4. Rhaetic. 3. Upper. 2. Middle. 1. Lower.
		Palæozoic Period.	Age of Coal Plants.	Carboniferous Era.
Age of Fishes.	Devonian Era.		5. Catskill and Chemung. 4. Portage. 3. Hamilton. 2. Coniferous. 1. Oriskany.	Catskill Red Sandstone. Chemung. Portage. Genesee Slate. Hamilton beds. Marcellus Shale. Upper Helderberg, Schoharie, Grit. Oriskany Sandstone. } Old Red Sandstone.
Age of Invertebrates.	Upper Silurian.		3. Lower Helderberg. 2. Onondaga. 1. Niagara.	Lower Helderberg. Onondaga Salt Group. Salina beds. Water Lime. 3. Niagara Group. Wenlock Group. 2. Clinton Group. } Upper Llandovery. 1. Medina Sandstone. } 3. Hudson River beds. Cincinnati Group. Lower Llandovery.
Archæan Period.		Lower Silurian.	3. Trenton. 2. Chazy. 1. Calciferous.	1. Trenton Limestone. Caradoc and Bala Limestone. Black River Limestone. Chazy Limestone. { Calciferous Sandrock. Magnesian stone.
		Cambrian.		Lower, Middle, and Upper Cambrian.
			Eozoic (dawn of life). Azoic (lifeless).	1. Laurentian. Huronian.

**Races of Mankind.**

The following is compiled from the arrangement by Ethnologist Figuiet and others:

		WHITE RACE.	
European Branch.	{	Teutonic Family.....	Scandinavians, Germans, English.
		Latin Family.....	French, Spaniards, Italians, Moldo-Wallachians.
		Slavonian Family.....	Russians, Finns, Bulgarians, Servians, Magyars, Croats, Tchecks, Poles, Lithuanians.
Aramean Branch.	{	Greek Family.....	Greeks, Albanians.
		Libyan Family.....	Egyptians, Berbers.
		Semitic Family.....	Arabs, Jews, Syrians.
		Persian Family.....	Persians, Afghans, Kurds, Armenians, Ossetines.
Hyperborean Branch.	{	Georgian Family.....	Georgians.
		Circassian Family.....	Circassians, Mingrellians.
Mongolian Branch.	{	Lapp Family.....	Samotede, Kamtsehadaie, Esquimau, Tenissian, Jukaghirite, and Koriak Families.
		Mongol Family.....	Mongols, Kalmucks, Buriats.
		Tunguse Family.....	Tunguses, Manchus.
Sinaic Branch.	{	Turk Family.....	Turcomans, Kirghis, Nogays, Osmanlis.
		Yakut Family.....	Yakuts.
		Chinese Family.....	Chinese.
		YELLOW RACE.	
Hindoo Branch.	{	Japanese Family.....	Japanese.
		Indo-Chinese Family.....	Burmese, Siamese.
Ethiopian Branch.	{	Hindoo Family.....	Sikhs, Jats, Rajpoots, Mahrattas, Bengalese, Cingalese.
		Malabar Family.....	Malabars, Tamals, Telingas.
		Abyssinian Family.....	Abyssinians, Berabras, Gallas.
Malay Branch.	{	Fellan Family.....	Fellans.
		Malay Family.....	Malays, Javanese, Battas, Bougis, Maccassars, Dyaks, Togals.
		Polynesian Family.....	Maoris, Tongas, Tahitians, Pomotouans, Marquesans, Sandwichians.
		BROWN RACE.	
Southern Branch.	{	Micronesian Family.....	Ladrone, Caroline, and Mulgrave Islanders.
		Andian Family.....	Quichuas (or Incas), Antis, Andians, Araucanians.
		Pampean Family.....	Patagonians, Puelches, Charruas, Tobas, Moxas, Abipous, etc.
Northern Branch.	{	Guarami Family.....	Guaranis, Bocotudos.
		Southern Family.....	Aztecs, Mayas, Lencas, Othoms, Tarascas, etc.
		Northeastern Family.....	Cherokees, Hurons, Iroquois, Sioux, Apaches, Comanches, Creeks, etc.
		RED RACE.	
Western Branch.	{	Northwestern Family.....	Chinooks, Digger Indians, Nootkans, etc.
		Caffre Family.....	
Eastern Branch.	{	Hottentot Family.....	
		Negro Family.....	
		BLACK RACE.	
Eastern Branch.	{	Papuan Family.....	Pijians, New Caledonians, etc.
		Andaman Family.....	Andamans, Australians.

**Height and Weight of Men.**

TABLE OF AVERAGE HEIGHT AND WEIGHT OF MALES, BASED ON ANALYSIS OF 74,162 ACCEPTED APPLICANTS FOR LIFE INSURANCE AS REPORTED TO THE ASSOCIATION OF LIFE INSURANCE MEDICAL DIRECTORS.

HEIGHT.	Age.

5 feet 6 inches.....	143	121	165				

## Metric System of Weights and Measures.

THE METRIC SYSTEM has been adopted by Mexico, Brazil, Chile, Peru, etc., and except Russia and Great Britain, where it is permissive, by all European nations. Various names of the preceding systems are, however, frequently used. In Germany,  $\frac{1}{2}$  kilogram = 1 pound; in Switzerland, 3-10 of a metre = 1 foot, etc. If the first letters of the prefixes *deka*, *hecto*, *kilo*, *myria*, from the Greek, and *deci*, *centi*, *milli*, from the Latin, are used in preference to our plain English, 10, 100, etc., it is best to employ capital letters for the multiples and small letters for the subdivisions, to avoid ambiguities in abbreviations: 1 dekametre or 10 metres = 1 Dm.; 1 decimetre or 1-10 of a metre = 1 dm.

The METRE, unit of length, is nearly the ten-millionth part of a quadrant of a meridian, of the distance between Equator and Pole. The International Standard Metre is, practically, nothing else but a length defined by the distance between two lines on a platinum-iridium bar at 0° Centigrade, deposited at the International Bureau of Weights and Measures, Paris, France.

The LITRE, unit of capacity, is derived from the weight of one kilogram pure water at greatest density, a cube whose edge is one-tenth of a metre and, therefore, the one-thousandth part of a metric ton.

The GRAM, unit of weight, is a cube of pure water at greatest density, whose edge is one-hundredth of a metre, and, therefore, the one-thousandth part of a kilogram, and the one-millionth part of a metric ton.

The Metric System was legalized in the United States on July 28, 1866, when Congress enacted as follows:

“The tables in the schedule hereto annexed shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system, and the tables may lawfully be used for computing, determining, and expressing in customary weights and measures the weights and measures of the metric system.”

The following are the tables annexed to the above:

### MEASURES OF LENGTH.

Metric Denominations and Values,	Equivalents in Denominations in Use,
Myriametre..... 10,000 metres,	6,2137 miles.
Kilometre..... 1,000 metres,	0,62137 mile, or 3,280 feet 10 inches.
Hectometre..... 100 metres,	328 feet 1 inch,
Dekametre..... 10 metres,	393 7 inches,
Metre..... 1 metre,	39.37 inches,
Decimetre..... 1-10 of a metre,	3.937 inches,
Centimetre..... 1-100 of a metre,	0.3937 inch,
Millimetre..... 1-1000 of a metre,	0.0394 inch,

### \*MEASURES OF SURFACE.

Metric Denominations and Values,	Equivalents in Denominations in Use,
Hectare..... 10,000 square metres,	2,471 acres.
Are..... 100 square metres,	119.6 square yards,
Centare..... 1 square metre,	1,550 square inches.

### MEASURES OF CAPACITY.

METRIC DENOMINATIONS AND VALUES.			EQUIVALENTS IN DENOMINATIONS IN USE.	
Names.	Number of Litres.	Cubic Measure.	Dry Measure.	Liquid or Wine Measure.
Kilolitre or stere.....	1,000	1 cubic metre.....	1,308 cubic yards.....	264.17 gallons.
Hectolitre.....	100	1-10 of a cubic metre.....	2 bush, and 3,35 pecks...	26.417 gallons.
Dekalitre.....	10	10 cubic decimetres.....	9.08 quarts.....	2.6417 gallons.
Litre.....	1	1 cubic decimetre.....	0.908 quart.....	1.0567 quarts.
Decilitre.....	1-10	1-10 of a cubic decimetre.....	6.1022 cubic inches.....	0.845 gill.
Centilitre.....	1-100	10 cubic centimetres.....	0.6102 cubic inch.....	0.338 fluid ounce.
Millilitre.....	1-1000	1 cubic centimetre.....	0.061 cubic inch.....	0.27 fluid dram.

METRIC SYSTEM—Continued.

WEIGHTS.			EQUIVALENTS IN DENOMINATIONS IN USE.
METRIC DENOMINATIONS AND VALUES.			
Names.	Number of Grams.	Weight of What Quantity of Water at Maximum Density.	Avoirdupois Weight.
Miller or tonneau.....	1,000,000	1 cubic metre.....	2204.6 pounds.
Quintal.....	100,000	1 hectolitre.....	220.46 pounds.
Myriagram.....	10,000	10 litres.....	22.046 pounds.
Kilogram or kilo.....	1,000	1 litre.....	2.2046 pounds.
Hectogram.....	100	1 decilitre.....	3.5274 ounces.
Dekagram.....	10	1 cubic centimetre.....	0.3527 ounce.
Gram.....	1	1 cubic centimetre.....	15.432 grams.
Decigram.....	1-10	1-10 of a cubic centimetre.....	1.5432 grams.
Centigram.....	1-100	10 cubic millimetres.....	0.1543 gram.
Milligram.....	1-1000	1 cubic millimetre.....	0.0154 gram.

TABLES FOR THE CONVERSION OF METRIC WEIGHTS AND MEASURES INTO CUSTOMARY UNITED STATES EQUIVALENTS AND THE REVERSE.  
From the legal equivalents are deduced the following tables for converting United States weights and measures:

METRIC TO CUSTOMARY. CUSTOMARY TO METRIC.

LINEAR MEASURE.							
<i>Metres</i> = <i>Inches</i> .	<i>Metres</i> = <i>Feet</i> .	<i>Metres</i> = <i>Yards</i> .	<i>Kilometres</i> = <i>Miles</i> .	<i>Inches</i> = <i>Centimetres</i> .	<i>Feet</i> = <i>Metres</i> .	<i>Yards</i> = <i>Metres</i> .	<i>Miles</i> = <i>Kilometres</i> .

THE METRIC SYSTEM SIMPLIFIED.

The following tables of the metric system of weights and measures have been simplified as much as possible for THE WORLD ALMANAC by omitting such denominations as are not in practical, everyday use in the countries where the system is used exclusively.

TABLES OF THE SYSTEM.

**Length.**—The denominations in practical use are millimetres (mm.), centimetres (cm.), metres (m.), and kilometres (km.).

10 mm. = 1 cm., 100 cm. = 1 m.; 1,000 m. = 1 km. NOTE.—A decimetre is 10 cm.

**Weight.**—The denominations in use are grams (g.), kilos\* (kg.), and tons (metric tons).

1,000 g. = 1 kg., 1,000 kg. = 1 metric ton.

**Capacity.**—The denominations in use are cubic centimetres (c. c.) and litres (l.).

1,000 c. c. = 1 l. NOTE.—A hectolitre is 100 l. (seldom used).

Relation of capacity and weight to length: A cubic decimetre is a litre, and a litre of water weighs a kilo.

APPROXIMATE EQUIVALENTS.

A metre is about a yard; a kilo is about 2 pounds; a litre is about a quart; a centimetre is about 1/8 inch; a metric ton is about same as a ton; a kilometre is about 3/8 mile; a cubic centimetre is about a thimbleful; a nickel weighs about 5 grams.

PRECISE EQUIVALENTS.

1 acre.....	= .40	hectar.....	4047	1 mile.....	= 1.6	kilometres.....	1.609
1 bushel.....	= 35	litres.....	35.24	1 millimetre.....	= .039	inch.....	.0394

Minimum Weights of Produce.

The following are minimum weights of certain articles of produce according to the laws of the United States:

	Per Bushel.		Per Bushel.		Per Bushel.
Wheat.....	60 lbs.	White Potatoes.....	60 lbs.	Hungarian Grass Seed.....	50 lbs.
Corn, in the ear.....	70 "	Sweet Potatoes.....	55 "	Timothy Seed.....	45 "
Corn, shelled.....	56 "	".....	57 "	Blue Grass Seed.....	44 "
Rye.....	58 "	Turnips.....	55 "	Hemp Seed.....	44 "
Buckwheat.....	48 "	Dried Peaches.....	33 "	Salt (see note below).....	
Barley.....	48 "	Dried Apples.....	26 "	Corn Meal.....	48 "
Oats.....	32 "	Clover Seed.....	60 "	Ground Peas.....	24 "
Peas.....	60 "	Flax Seed.....	56 "	Malt.....	34 "
White Beans.....	60 "	Millet Seed.....	50 "	Bran.....	20 "
Castor Beans.....	46 "				

SALT.—Weight per bushel as adopted by different States ranges from 50 to 80 pounds. Coarse salt in Pennsylvania is reckoned at 80 pounds, and in Illinois at 50 pounds per bushel. Fine salt in Pennsylvania is reckoned at 62 pounds, in Kentucky and Illinois at 55 pounds per bushel.

### Measures and Weights of Great Britain.

THE measures of length and the weights are nearly, practically, the same as those in use in the United States. The English ton is 2,240 lbs. avoirdupois, the same as the long ton, or shipping ton of the United States. The English hundredweight is 112 lbs. avoirdupois, the same as the long hundredweight of the United States. The metre has been legalized at 39.37079 inches, but the length of 39.370432 inches, as adopted by France, Germany, Belgium, and Russia, is frequently used. The Imperial gallon, the basis of the system of capacity, involves an error of about 1 part in 1,836: 10 lbs. of water = 277.123 cubic inches. The English statute mile is 1,760 yards or 5,280 feet.

#### MEASURES OF CAPACITY.

NAMES.	Pounds of Water.	Cubic Inches.	Litres.	United States Equivalents.
4 gills = 1 pint	1.25	34.66	0.56793	1.20032 liquid pints.
2 pints = 1 quart	2.5	69.32	1.13586	1.20032 " quarts.
2 quarts = 1 peck	5	138.64	2.27173	2.40064 " "
2 pecks = 1 gallon	10	277.27	4.54346	1.20032 " gallons.
2 gallons = 1 bushel	20	554.55	9.08692	1.03152 " bushels.
4 pecks = 1 bushel	80	2218.19	36.34766	4.12606 " "
4 bushels = 1 coomb	320	8872.77	145.39062	8.2521 " "
2 coombs = 1 quarter	640	17745.54	290.7813	

A cubic foot of pure gold weighs 1,210 pounds; pure silver, 655 pounds; cast iron, 450 pounds; copper, 550 pounds; lead, 710 pounds; pure platinum, 1,220 pounds; tin, 466 pounds; aluminum, 168 pounds.

### Domestic Weights and Measures.

**Apothecaries' Weight:** 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.  
**Avoirdupois Weight (short ton):** 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt., 20 cwt. = 1 ton.  
**Avoirdupois Weight (long ton):** 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 7 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.  
**Troy Weight:** 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound.  
**Circular Measure:** 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.  
**Cubic Measure:** 1.728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.  
**Dry Measure:** 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.  
**Liquid Measure:** 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 3 1/2 gallons = 1 barrel; 2 barrels = 1 hogshead.  
**Long Measure:** 12 inches = 1 foot; 3 feet = 1 yard; 5 1/2 yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile (1,760 yards or 5,280 feet); 3 miles = 1 league.  
**Mariner's Measure:** 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7 1/2 cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,085 feet = 1 nautical mile.  
**Paper Measure:** 24 sheets = 1 quire; 20 quires = 1 ream (480 sheets); 2 reams = 1 bundle; 5 bundles = 1 bale.  
**Square Measure:** 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30 1/4 square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 640 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.  
**Time Measure:** 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

#### MEDICAL SIGNS AND ABBREVIATIONS.

**R** (Lat. Recipe), take; **aa.**, of each; **℥**, pound; **ʒ**, ounce; **ʒ**, drachm; **ʒ**, scruple; **℥**, minim, or drop; **O** or **o**, pint; **f ʒ**, fluid ounce; **f ʒ**, fluid drachm; **as**, ʒss, half an ounce; **ʒi**, one ounce; **ʒ iss**, one ounce and a half; **ʒ ij**, two ounces; **gr.**, grain; **Q. S.**, as much as sufficient; **℞**, Mist., let a mixture be made; **℞**, Haust., let a draught be made; **Ad.**, add to; **Ad lib.**, at pleasure; **Aq.**, water; **M.**, mix; **Mac.**, macerate; **Pulv.**, powder; **℞**, pill; **Solv.**, dissolve; **St.**, let it stand; **Sum.**, to be taken; **D.**, dose; **Dil.**, dilute; **℞**, filter; **℞**, wash; **Garg.**, a gargle; **Hor. Decub.**, at bed time; **Inj.**, injection; **Gtt.**, drops; **ss**, one-half; **Ess.**, essence.

#### TEXAS LAND MEASURE.

(Also used in Mexico, New Mexico, Arizona, and California.)

26,000,000	square varas (square of 5,099	varas) = 1 league and 1 labor = 4,605.5 acres.
1,000,000	square varas (square of 1,000	varas) = 1 labor = 177.136 acres.
25,000,000	square varas (square of 5,000	varas) = 1 league, 4 acres.
12,500,000	square varas (square of 3,535.5	varas) = 1/2 league = 2,214.2 acres.
8,333,333	square varas (square of 2,886.7	varas) = 1/3 league = 1,476.13 acres.
6,250,000	square varas (square of 2,500	varas) = 1/4 league = 1,107.1 acres.
7,225,600	square varas (square of 2,688	varas) = 1,280 acres.
3,612,800	square varas (square of 1,900.8	varas) = 1 section = 640 acres.
1,806,400	square varas (square of 1,344	varas) = 1/2 section = 320 acres.
903,200	square varas (square of 950.44	varas) = 1/4 section = 160 acres.
451,600	square varas (square of 672	varas) = 1/8 section = 80 acres.
225,800	square varas (square of 475	varas) = 1-16 section = 40 acres.
5,645,376	square varas (square of 75,137	varas) = 4,840 square yards = 1 acre.

To find the number of acres in any number of square varas, multiply the latter by 177 (or to be more exact, by 177 1/2), and cut off six decimals.

1 vara = 33 1/2 inches. 1,900.8 varas = 1 mile.

#### WEIGHTS AND MEASURES OF THE PHILIPPINES.

1 puigada (12 linea)	= .927 inch.	1 libra (16 onzo)	= 1.0144 lb. av.
1 pie	= 11.125 inches.	1 arroba	= 25.360 lb. av.
1 vara	= 33.375 inches.	1 catty (16 tael)	= 1.394 lb. av.
1 gantah	= .8796 gallon.	1 pecul (100 catty)	= 139.482 lb. av.
1 caban	= 21.991 gallons.		

**Knots and Miles.**

The **Statute Mile** is 5,280 feet.  
 The **British Admiralty Knot** or **Nautical Mile** is 6,080 feet.  
 The **Statute Knot** is 6,082.66 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus: The circumference of the earth is divided into 360 degrees, each degree containing 60 knots or (360x60), 21,600 knots to the circumference. 21,600 divided into 131,385,456—the number of feet in the earth's circumference—gives 6,082.66 feet—the length of a standard mile.

1 knot = 1.151 miles	4 knots = 4.606 miles	20 knots = 23.030 miles	600 feet = 1 cable
2 knots = 2.303 miles	5 knots = 5.757 miles	25 knots = 28.737 miles	10 cables = 1 knot
3 knots = 3.454 miles	10 knots = 11.515 miles	6 feet = 1 fathom	

**Ancient Greek and Roman Weights and Measures,**

WITH AMERICAN EQUIVALENTS.

**WEIGHTS.**  
 The Roman libra or pound = 10 oz. 18 pwt. 13 5-7 gr., Troy.  
 The Attica mina or pound = 11 oz. 7 pwt. 16 2-7 gr., Troy.  
 The Attica talent (60 minæ) = 56 lbs. 11 oz. 0 pwt. 17 1-7 gr., Troy.

**DRY MEASURE.**  
 The Roman modus = 1 pk. 2-9 pint.  
 The Attic chœnix = nearly 1 1/2 pints.  
 The Attic medimnus = 4 pk. 6 1-10 pints.

**LIQUID MEASURE.**  
 The cotyle = a little over 1/2 pint.  
 The cyathus = a little over 1 1/2 pints.  
 The chus = a little over 6 3/4 pints.

**LONG MEASURE.**  
 The Roman foot = 11 3-5 inches.  
 The Roman cubit = 1 ft. 5 1/4 inches.  
 The Roman pace = 4 ft. 10 inches.  
 The Roman furlong = 604 ft. 10 inches.  
 The Roman mile = 4,835 feet.  
 The Grecian cubit = 1 ft. 6 1/4 inches.

The Grecian furlong = 504 ft. 4 1-5 inches.  
 The Grecian mile = 4030 ft.

**MONEY.**  
 The quadrans = 1 1-10 mills.  
 The as = 1 3-10 mills.  
 The sestertius = 3.58 + cents.  
 The sestertium (1,000 sestertii) = \$35.80+.  
 The denarius = 14.35 + cents.  
 The Attic obolus = 2.39 + cents.  
 The drachma = 14.35 + cents.\*  
 The mina (100 drachmæ) = \$14.35+.  
 The talent (60 minæ) = \$861.00+.  
 The Greek stater = aureus (same as the Roman †) = \$3.58,79.  
 The stater = daricus = \$7.16,66.

\*The modern drachma equals 19.3 cents. † Did not remain, at all periods, at this value, but this is the value indicated by Tacitus.

**BIBLICAL WEIGHTS REDUCED TO TROY WEIGHT.**

	Lbs.	Oz.	Pwt.	Gr.
The Gerah, one-twentieth of a Shekel .....	0	0	0	12
The Bekah, half a Shekel.....	0	0	5	0
The Shekel.....	0	0	10	0
The Maneh, 60 Shekels.....	2	6	0	0
The Talent, 50 manehs, or 3000 Shekels.....	125	0	0	0

**Electrical Units.**

NAME.	Symbol.	Unit of	How Obtained.	CGS*	Equivalent.
<b>Ohm</b>	R	Resistance	The electrical resistance of a column of mercury 106 centimetres long and of 1 square millimetre section.	10 <sup>9</sup>	1 true ohm = 1.0112 British Association ohms.
<b>Ampère</b>	C	Current	Is that current of electricity that decomposes .0009324 gramme of water per second.	10 <sup>1</sup>	Deposits 1.118 milligrams of silver per second.
<b>Volt</b>	E	Electromotive force	One ampère of current passing through a substance having 1 ohm of resistance = 1 volt.	10 <sup>8</sup>	.926 of a standard Daniell Cell.
<b>Coulomb</b>	Q	Quantity	A current of 1 ampère during 1 second of time.	10 <sup>1</sup>	Deposits 1.118 milligrams of silver.
<b>Farad</b>	K	Capacity	The capacity that a current of 1 ampère for 1 second (=1 coulomb) charges it to potential of 1 volt.	10 <sup>9</sup>	2.5 knots of D. U. S. cable.
<b>Microfarad</b>	"	"	1-millionth of farad.	10 <sup>15</sup>	
<b>Watt</b>	Pw.	Power	Power of 1 ampère current passing through resistance of 1 ohm.	10 <sup>7</sup>	.0013405 (or 1/746) of a horse power.
<b>Jou</b>	W.j.	Work	Is the work done by 1 watt of electrical power in 1 second.	10 <sup>7</sup>	.238 unit of heat (Therm).

\*C G. S. = Electro-magnetic units. Consult technical works in electricity.

**Foreign Moneys.**

**English Money:** 4 farthings = 1 penny (d); 12 pence = 1 shilling (s); 20 shillings = 1 pound (£).  
 21 shillings = one guinea; 5 shillings = one crown.  
**French Money:** 10 centimes = 1 decime; 10 decimes = 1 franc.  
**German Money:** 100 pfennig = 1 mark.  
**Russian Money:** 100 copecks = 1 ruble.  
**Austro-Hungarian Money:** 100 kreutzer = 1 florin.  
 For United States equivalents, see table of "Value of Foreign Coins in U. S. Money."

**Table of Geometrical Progression.**

(WHEREBY any questions of Geometrical Progression and of Double Ratio may be solved by Inspection, the Number of Terms not exceeding 56.)

**Standard Newspaper Measure.**

THE Standard Newspaper Measure, as recognized and now in general use is 13 ems pica. The standard of measurement of all sizes of type is the "em quad," not the letter "m."

The basis of measurements adopted by the International Typographical Union is the lower-case alphabet, from "a" to "z" inclusive, and the ems used are the same body as the type measured.

\* The Dingley Tariff increases rates on women's and children's gloves uniformly 75c. per dozen pairs; on men's gloves the rates are the same as the Wilson rates. (a) Valued at more than 50c. per lb., 33c. per lb. and 40 per cent. ad val. (b) Specific duties ranging from \$1.50 to \$8 on each article and 35 per cent. ad val. (c) On goods above 40c. and not above 70c. per lb.; duty on goods above 70c. per lb., 44c. per lb. and 55 per cent. ad val. (d) Value \$1 per lb., 20c. per lb. and 15 per cent. ad val., with increasing duty of 10c. per lb. for each 50c. additional value up to \$2.50; all over \$2.50 per lb., 60c. per lb. and 15 per cent. ad val. (e) Wool valued at 12c. per lb. or less, 4c. per lb.; above 12c. duty is 7c. per lb. (f) Two prices only in Dingley bill, 30c. and less, and above 30c. (g) If not over 10c. per lb. (h) If valued at \$150; if more, 25 per cent. ad val. (i) Above 56c. 6c. per gal. (j) And 15 to 20 per cent. ad val. (k) On woollen an additional duty of 44c. per lb. (l) Chemical wood pulp, 1-6c. per lb. (m) When not above 75c., but for every additional degree by polariscopic test, 35-1,000c. per pound additional, and fractions of a degree in proportion.

Articles of merchandise entering the United States from Hawaii and Porto Rico and entering those possessions from the United States are exempt from duty.

The act of Congress approved March 2, 1902, provides that the customs duties on article entering the Philippines from the United States shall be the same as on those entering from foreign countries. On articles entering the United States from the Philippines the full tariff rates shall be collected, except that a 25 per cent reduction shall be granted on articles produced and grown in the Philippines.

REGULATIONS RESPECTING EXAMINATION OF BAGGAGE.

Residents of the United States returning from abroad are met by a customs officer to whom they will make a declaration, stating the number of trunks in their possession, their dutiable contents, etc. A failure to declare dutiable goods renders the same liable to seizure and confiscation, and the owner to fine and imprisonment. Customs officials are forbidden by law to accept "tips."

Prepare in advance a detailed list of all articles obtained abroad, with the prices paid therefor or the value thereof, specifying separately articles of wearing apparel and other personal effects. All personal effects taken abroad as baggage and brought back in the same condition will be admitted free, but if improved in condition they are dutiable. From the aggregate value of all articles purchased abroad (unless they are intended for other persons or for sale) goods to the value of \$10<sup>00</sup> will be deducted, as that amount of personal property is admitted free of duty.

There is no limitation as to the value of articles free of duty brought in by persons declaring as non-residents, provided such articles are in the nature of wearing apparel, and similar personal effects actually accompanying the passenger and necessary and appropriate for wear and use for the purposes of the journey, and not intended for other persons, nor for sale.

Government officers are forbidden by law to accept anything but currency in payment of duties. In case passengers are dissatisfied with the value placed on dutiable articles, application may be made to the Collector in writing within two days, and the appraisement will be reviewed by a General Appraiser.

## Passport Regulations.

### RULES governing the granting and issuing of passports in the United States:

**1. BY WHOM ISSUED AND REFUSAL TO ISSUE.**—No one but the Secretary of State may grant and issue passports in the United States (Revised Statutes, sections 4075, 4078), and he is empowered to refuse them in his discretion.

Passports are not issued by American diplomatic and consular officers abroad, except in cases of emergency; and a citizen who is abroad and desires to procure a passport must apply therefor through the nearest diplomatic or consular officer to the Secretary of State.

Applications for passports by persons in Porto Rico or the Philippines should be made to the Chief Executives of those islands. The evidence required of such applicants is the same as that required of applicants in the United States.

**2. FEE.**—By act of Congress approved March 23, 1888, a fee of one dollar is required to be collected for every citizen's passport. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Drafts or checks will not be accepted.

**3. APPLICATIONS.**—A person who is entitled to receive a passport, if within the United States, must make a written application, in the form of an affidavit, to the Secretary of State. The application must be made by the person to whom the passport is to be issued and signed by him, as it is not competent for one person to apply for another.

The affidavit must be attested by an officer authorized to administer oaths, and if he has an official seal it must be affixed. If he has no seal, his official character must be authenticated by certificate of the proper legal officer.

If the applicant signs by mark, two attesting witnesses to his signature are required. The applicant is required to state the date and place of his birth, his occupation, the place of his permanent residence, to what country or countries he intends to travel, and within what length of time he will return to the United States with the purpose of residing and performing the duties of citizenship.

The applicant must take the oath of allegiance to the Government of the United States. The application must be accompanied by a description of the person applying, and should state the following particulars, viz.: Age, — years; stature, — feet — inches (English measure); forehead, —; eyes, —; nose, —; mouth, —; chin, —; hair, —; complexion, —; face, —.

The application must be accompanied by a certificate from at least one credible witness that the applicant is the person he represents himself to be, and that the facts stated in the affidavit are true to the best of the witness's knowledge and belief.

**4. NATIVE CITIZENS.**—An application containing the information indicated by rule 3 will be sufficient evidence in the case of native citizens. A person of the Chinese race, alleging birth in the United States, must accompany his application with supporting affidavits from at least two credible witnesses, preferably not of the Chinese race, having personal knowledge of the applicant's birth in the United States. The application and supporting affidavits should be in duplicate, and should be accompanied by three photographs of the applicant, and should state at what port he intends to re-enter the United States.

**5. A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES.**—In addition to the statements required by rule 3, his application must show that his father was born in the United States, has resided therein, and was a citizen at the time of the applicant's birth. The Department may require that this affidavit be supported by that of one other citizen acquainted with the facts.

**6. NATURALIZED CITIZENS.**—In addition to the statements required by rule 3, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country, what ship he sailed in, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization, or an explanation of the difference should be submitted.

**7. WOMAN'S APPLICATION.**—If she is unmarried, in addition to the statements required by rule 3, she should state that she has never been married. If she is the wife or widow of a native citizen of the United States the fact should be made to appear in her application. If she is the wife or widow of a naturalized citizen, in addition to the statements required by rule 3, she must transmit for inspection her husband's certificate of naturalization, must state that she is the wife (or widow) of the person described therein, and must set forth the facts of his emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen. A married woman citizenship follows that of her husband so far as her international status is concerned. It is essential, therefore, that a woman's marital relations be indicated in her application for a passport, and that in the case of a married woman her husband's citizenship be established.

**8. THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT.**—In addition to the statements required by rule 3, the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen.

**9. A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES.**—In addition to the statements required by rule 3, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government; and must submit affidavits from at least two credible witnesses having good means of knowledge in substantiation of his statements of birth, residence, and loyalty.

**10. EXPIRATION OF PASSPORT.**—A passport expires two years from the date of its issuance. A new one will be issued upon a new application, and if the applicant be a naturalized citizen, the old passport will be accepted in lieu of a certificate of naturalization, if the application upon which it was issued is found to contain sufficient information as to the naturalization of the applicant.

**11. WIFE, MINOR CHILDREN, AND SERVANTS.**—When the applicant is accompanied by his wife, minor children, or servant who would be entitled to receive a passport, it will be sufficient to state the fact, giving the respective ages of the children and the allegiance of the servant, when one passport will suffice for all. For any other person in the party a separate passport will be required. A woman's passport may include her minor children and servant under the above-named conditions. The term servant does not include a governess, tutor, pupil, companion, or person holding like relations to the applicant for a passport.

**12. TITLES.**—Professional and other titles will not be inserted in passports.

**13. BLANK FORMS OF APPLICATION.**—They will be furnished by the Department to persons who desire to apply for passports, but are not furnished, except as samples, to those who make a business of procuring passports.

**14. ADDRESS.**—Communications should be addressed to the Department of State, Bureau of Citizenship, and each communication should give the post-office address of the person to whom the answer is to be directed.

Section 4075 of the Revised Statutes of the United States, as amended by the act of Congress, approved June 14, 1902, providing that "the Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by such diplomatic or consular officers of the United States, and by such chief or other executive officer of the insular possessions of the United States, and under such rules as the President shall designate and prescribe for and on behalf of the United States," the foregoing rules are hereby prescribed for the granting and issuing of passports in the United States.

The Secretary of State is authorized to make regulations on the subject of issuing and granting passports additional to these rules and not inconsistent with them.

THEODORE ROOSEVELT.

THE WHITE HOUSE, June 13, 1907.

**Constitution of the United States.**

**Preamble.** We, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

**ARTICLE I.**

**Legislative powers.** Section I. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

**House of Representatives.** Section II. 1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

**Qualifications of Representatives.** 2. No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

**Apportionment of Representatives.** 3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; Pennsylvania, 8; Delaware, 1; Maryland, 6; Virginia, 10; North Carolina, 5; South Carolina, 5, and Georgia, 3.\*

**Vacancies, how filled.** 4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.

**Officers, how appointed.** 5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

**Senate.** Section III. 1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

**Classification of Senators.** 2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.

**Qualifications of Senators.** 3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

**President of the Senate.** 4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

5. The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

**Senate a court for trial of impeachments.** 6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

**Judgment in case of conviction.** 7. Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

**Elections of Senators and Representatives.** Section IV. 1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to places of choosing Senators.

**Meeting of Congress.** 2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

**Organization of Congress.** Section V. 1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.

2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.

**Rule of proceedings.** 3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.

**Journals of each House.** 4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

**Adjournment of Congress.** Section VI. 1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.

**Pay and privileges of members.** 2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during his continuance in office.

**Other offices prohibited.** Section VII. 1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.

**Revenue bills.** 2. Every bill which shall have passed the House of Representatives and the Senate shall, before it become a law, be presented to the President of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

**How bills become laws.**

\* See Article XIV., Amendments.

- Approval and veto powers be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect shall be approved by him, or being disapproved by him, shall be repassed by two-thirds of the Senate and the House of Representatives, according to the rules and limitations prescribed in the case of a bill.
- Powers vested in Congress.** SECTION VIII. 1. The Congress shall have power:  
 To lay and collect taxes, duties, imposts, and excises, to pay the debts and provide for the common defence and general welfare of the United States; but all duties, imposts, and excises shall be uniform throughout the United States.  
 2. To borrow money on the credit of the United States.  
 3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.  
 4. To establish an uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.  
 5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.  
 6. To provide for the punishment of counterfeiting the securities and current coin of the United States.  
 7. To establish post-offices and post-roads.  
 8. To promote the progress of science and useful arts by securing for limited times to authors and inventors the exclusive rights to their respective writings and discoveries.  
 9. To constitute tribunals inferior to the Supreme Court.  
 10. To define and punish piracies and felonies committed on the high seas, and offences against the law of nations.  
 11. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.  
 12. To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years.  
 13. To provide and maintain a navy.  
 14. To make rules for the government and regulation of the land and naval forces.  
 15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.  
 16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.  
 17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other needful buildings.  
 18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.
- Immigrants, how admitted.** SECTION IX. 1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.
- Habeas corpus.** 2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.
- Attainder.** 3. No bill of attainder or ex post facto law shall be passed.
- Direct taxes.** 4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.
- Regulations regarding customs duties.** 5. No tax or duty shall be laid on articles exported from any State.
- Moneys, how drawn.** 6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.
7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.
- Titles of nobility prohibited.** 8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign state.
- Powers of States defined.** SECTION X. 1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.  
 2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.  
 3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

## ARTICLE II.

- Executive power, in whom vested.** SECTION I. 1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:
- Electors.** 2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.
- Proceedings of electors.** 3. [The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President, and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.]
- Proceedings of Representatives.** 4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

\* This clause is superseded by Article XII., Amendments.

**Qualifications of the President.** 5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President, neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.

**Provision in case of his disability.** 6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.

**Salary of the President.** 7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

**Oath of the President.** 8. Before he enter on the execution of his office he shall take the following oath or affirmation: "I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."

**Duties of the President.** SECTION II. 1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States when called into the actual service of the United States, he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.

**May make treaties, appoint ambassadors, judges, etc.** 2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.

**May fill vacancies.** 3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.

**May make recommendations.** SECTION III. He shall from time to time give to the Congress information of the state of the Union, and may, on extraordinary and necessary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

**How officers may be removed.** SECTION IV. The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors.

**ARTICLE III.**

**Judicial power, how invested.** SECTION I. The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation which shall not be diminished during their continuance in office.

**To what cases it extends.** SECTION II. 1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens, or subjects.

**Jurisdiction of the Supreme Court.** 2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before-mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.

**Rules respecting trials.** 3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.

**Treason defined.** SECTION III. 1. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

**How punished.** 2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attained.

**ARTICLE IV.**

**Rights of States and records.** SECTION I. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

**Privileges of citizens.** SECTION II. 1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

**Executive requisitions.** 2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

**Laws regulating service or labor.** 3. No person held to service or labor in one State, under the laws thereof, escaping into another shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

**New States, how formed and admitted.** SECTION III. 1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.

**Power of Congress over territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.** 2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

**Republican government guaranteed.** SECTION IV. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

**ARTICLE V.**

**Constitution, how amended.** The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

**ARTICLE VI.**

**Validity of debts recognized.** 1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

**Supreme law of the land defined.** 2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

**Oath: of whom required and for what.** 3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution, but no religious test shall ever be required as a qualification to any office or public trust under the United States.

**ARTICLE VII.**

**Ratification of the Constitution.** The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

**AMENDMENTS TO THE CONSTITUTION.****ARTICLE I.**

**Religion and free speech.** Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

**ARTICLE II.**

**Right to bear arms.** A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

**ARTICLE III.**

**Soldiers in time of peace.** No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

**ARTICLE IV.**

**Right of search.** The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

**ARTICLE V.**

**Capital crimes and arrest therefor.** No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

**ARTICLE VI.**

**Right to speedy trial.** In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

**ARTICLE VII.**

**Trial by jury.** In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

**ARTICLE VIII.**

**Excessive bail.** Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

**ARTICLE IX.**

**Enumeration of rights.** The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people.

**ARTICLE X.**

**Reserved rights of States.** The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

**ARTICLE XI.**

**Judicial power.** The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign State.

**ARTICLE XII.**

**Electors in Presidential elections.** The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

**ARTICLE XIII.**

**Slavery prohibited.** 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.  
2. Congress shall have power to enforce this article by appropriate legislation.

CONSTITUTION OF THE UNITED STATES—Continued.

ARTICLE XIV.

**Protection for all citizens.** 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

**Apportionment of Representatives.** 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being of twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

**Rebellion against the United States.** 3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or any executive or judicial officer of any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.

**The public debt.** 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.

5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

ARTICLE XV.

**Right of suffrage.** 1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.

2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

RATIFICATION OF THE CONSTITUTION.

The Constitution was ratified by the thirteen original States in the following order:

Delaware, December 7, 1787, unanimously.	South Carolina, May 23, 1788, vote 149 to 75.
Pennsylvania, December 12, 1787, vote 46 to 23.	New Hampshire, June 21, 1788, vote 57 to 46.
New Jersey, December 18, 1787, unanimously.	Virginia, June 25, 1788, vote 89 to 79.
Georgia, January 2, 1788, unanimously.	New York, July 26, 1788, vote 30 to 28.
Connecticut, January 9, 1788, vote 128 to 40.	North Carolina, November 21, 1789, vote 193 to 75.
Massachusetts, February 6, 1788, vote 187 to 168.	Rhode Island, May 29, 1790, vote 34 to 32.
Maryland, April 28, 1788, vote 63 to 12.	

RATIFICATION OF THE AMENDMENTS.

I. to X. inclusive were declared in force December 15, 1791.

XI. was declared in force January 8, 1795.

XII. regulating elections, was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire, which rejected it. It was declared in force September 28, 1804.

XIII. The emancipation amendment was ratified by 31 of the 36 States; rejected by Delaware and Kentucky, not acted on by Texas; conditionally ratified by Alabama and Mississippi. Proclaimed December 18, 1865.

XIV. Reconstruction amendment was ratified by 23 Northern States; rejected by Delaware, Kentucky, Maryland, and 10 Southern States, and not acted on by California. The 10 Southern States subsequently ratified under pressure. Proclaimed July 29, 1868.

XV. Negro citizenship amendment was not acted on by Tennessee, rejected by California, Delaware, Kentucky, Maryland, New Jersey, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 5, 1870. Proclaimed March 30, 1870.

The National Flag.

THE official flag of the United States bears forty-five white stars in a blue field, arranged in six rows—the first, third, and fifth rows having eight stars each, and the others seven stars each. (When Oklahoma is admitted to the Union the number of stars will be increased to 46.) The garrison flag of the Army is made of bunting, thirty-six feet fly and twenty feet hoist, thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of States, on blue field, over one-third length of the flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "American Jack" is the "union" or blue field of the flag. The Revenue Marine Service flag, authorized by act of Congress, March 2, 1799, was originally prescribed to "consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field." The sixteen stripes represented the number of States which had been admitted to the Union at that time, and no change has been made since. Prior to 1871 it bore an eagle in the union of the pennant, which was then substituted by thirteen blue stars in a white field, but the eagle and stars are still retained in the flag. June 14, the anniversary of the adoption of the flag, is celebrated as Flag Day in a large part of the Union.

IN ORDER TO SHOW PROPER RESPECT FOR THE FLAG THE FOLLOWING CEREMONY SHOULD BE OBSERVED:

It should not be hoisted before sunrise nor allowed to remain up after sunset.

At "retreat," sunset, civilian spectators should stand at "attention" and uncover during the playing of the "Star Spangled Banner." Military spectators are required by regulation to stand at "attention" and give the military salute.

When the National colors are passing on parade, or in review, the spectator should, if walking, halt, and if sitting, arise and stand at attention and uncover.

When the flag is flown at half staff as a sign of mourning it should be hoisted to full staff at the conclusion of the funeral.

In placing the flag at half staff, it should first be hoisted to the top of the staff and then lowered to position, and preliminary to lowering from half staff, it should be first raised to the top.

On Memorial Day, May 30, the flag should fly at half staff from sunrise to noon and full staff from noon to sunset.—*Sons of the Revolution in the State of New York.*

## Constitution of the State of New York.

**Preamble.** We, the people of the State of New York, grateful to Almighty God for our freedom, in order to secure its blessing, do establish this Constitution.

### ARTICLE I.

- The right to vote.** **SECTION I.** No member of this State shall be disfranchised, or deprived of any of the rights and privileges secured to any citizen thereof, unless by the law of the land, or the judgment of his peers.
- Jury trial.** **SECTION II.** The trial by jury in all cases in which it has been heretofore used shall remain inviolate forever; but a jury trial may be waived by the parties in all civil cases in the manner to be prescribed by law.
- Religious freedom.** **SECTION III.** The free exercise and enjoyment of religious profession and worship, without discrimination or preference, shall forever be allowed in this State to all mankind; and no person shall be rendered incompetent to be a witness on account of his opinions on matters of religious belief; but the liberty of conscience hereby secured shall not be so construed as to excuse acts of licentiousness, or justify practices inconsistent with the peace or safety of this State.
- Writ of habeas corpus.** **SECTION IV.** The privilege of the writ of habeas corpus shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require its suspension.
- Excessive bail.** **SECTION V.** Excessive bail shall not be required nor excessive fines imposed, nor shall cruel and unusual punishments be inflicted, nor shall witnesses be unreasonably detained.
- A citizen's rights.** **SECTION VI.** No person shall be held to answer for a capital or otherwise infamous crime (except in cases of impeachment, and in cases of militia when in actual service, and the land and naval forces in time of war or which this State may keep with the consent of Congress in time of peace, and in cases of petit larceny, under the regulation of the Legislature), unless on presentment or indictment of a grand jury, and in any trial in any court whatever the party accused shall be allowed to appear and defend in person and with counsel as in civil actions. No person shall be subject to be twice put in jeopardy for the same offence; nor shall he be compelled in any criminal case to be a witness against himself; nor be deprived of life, liberty or property without due process of law; nor shall private property be taken for public use, without just compensation.
- Protection.** **SECTION VII.** When private property shall be taken for any public use, the compensation to be made therefor, when such compensation is not made by the State, shall be ascertained by a jury, or by not less than three commissioners appointed by a court of record, as shall be prescribed by law. Private roads may be opened in the manner to be prescribed by law; but in every case the necessity of the road and the amount of all damage to be sustained by the opening thereof shall be first determined by a jury of freeholders, and such amount, together with the expenses of the proceeding, shall be paid by the person to be benefited. General laws may be passed permitting the owners or occupants of agricultural lands to construct and maintain for the drainage thereof, necessary drains, ditches and dykes upon the lands of others, under proper restrictions and with just compensation, but no special law shall be enacted for such purposes.
- Freedom of speech.** **SECTION VIII.** Every citizen may freely speak, write, and publish his sentiments on all subjects, being responsible for the abuse of that right; and no law shall be passed to restrain or abridge the liberty of speech or of the press. In all criminal prosecutions or indictments for libels, the truth may be given in evidence to the jury; and if it shall appear to the jury that the matter charged as libelous is true, and was published with good motives and for justifiable ends, the party shall be acquitted; and the jury shall have the right to determine the law and the fact.
- Right of Petition.** **SECTION IX.** No law shall be passed abridging the right of the people peaceably to assemble and to petition the Government, or any department thereof; nor shall any divorce be granted otherwise than by due judicial proceedings; nor shall any lottery or the sale of lottery tickets, pool-selling, book-making, or any other kind of gambling hereafter be authorized or allowed within this State; and the Legislature shall pass appropriate laws to prevent offenses against any of the provisions of this section.
- Escheats.** **SECTION X.** The people of this State, in their right of sovereignty, are deemed to possess the original and ultimate property in and to all lands within the justification of this State; and all lands the title to which shall fall from a defect of heirs, shall revert, or escheat to the people.
- Abolition of feudal tenures.** **SECTION XI.** All feudal tenures of every description, with all their incidents, are declared to be abolished, saving, however, all rents and services certain, which at any time heretofore have been lawfully created or reserved.
- Lands vested in owners.** **SECTION XII.** All lands within this State are declared to be allodial, so that, subject only to the liability to escheat, the entire and absolute property is vested in the owners, according to the nature of their respective estates.
- Agricultural land leases.** **SECTION XIII.** No lease or grant of agricultural land, for a longer period than 12 years, hereafter made, in which shall be reserved any rent or service of any kind, shall be valid.
- Abolition of fines.** **SECTION XIV.** All fines, quarter-sales or other like restraints upon alienation, reserved in any grant of land hereafter to be made, shall be void.
- Lands owned by Indians.** **SECTION XV.** No purchase or contract for the sale of lands in this State, made since October 14, 1775; or which may hereafter be made, of, or with the Indians, shall be valid, unless made under the authority, and with the consent of the Legislature.
- The common law.** **SECTION XVI.** Such parts of the common law, and of the acts of the Legislature of the colony of New York, as together did form the law of the said colony, on April 19, 1775, and the resolutions of the Congress of the said colony, and of the convention of the State of New York, in force April 20, 1777, which have not since expired, or been repealed or altered; and such acts of the Legislature of this State as are now in force, shall be and continue the law of this State, subject to such alterations as the Legislature shall make concerning the same. But all such parts of the common law, and such of the said acts, or parts thereof, as are repugnant to this Constitution, are hereby abrogated.
- Grant of land of Great Britain.** **SECTION XVII.** All grants of land within this State, made by the King of Great Britain, or persons acting under his authority, after October 14, 1775, shall be null and void; but nothing contained in this Constitution shall affect any grants of land within this State, made by the authority of the said King or his predecessors, or shall annul any charters to bodies politic or corporate, by him or them made, before that day; or shall impair any such grants or charters since made by this State, or by persons acting under its authority; or shall impair the obligation of any debts, contracted by the State or individuals, or bodies corporate, or any other rights of property, or any suits, actions, rights of action, or other proceedings in courts of justice.
- Damages for death injuries.** **SECTION XVIII.** The right of action now existing to recover damages for injuries resulting in death, shall never be abrogated; and the amount recoverable shall not be subject to any statutory limitation.

### ARTICLE II.

- Qualifications For Voting.** **SECTION I.** Every male citizen of the age of 21 years, who shall have been a citizen for 90 days, and an inhabitant of this State one year next preceding an election, and for the last four months a resident of the county, and for the last 30 days a resident of the election district in which he may offer his vote, shall be entitled to vote at such election in the election district of which he shall at the time be a resident, and not elsewhere, for all officers that now are or hereafter may be elective by the people, and upon all questions which may be submitted to a vote of the people, provided that in time of war no elector in the actual military service of the State, or of the United States, in the army or navy thereof shall be deprived of his vote by reason of his absence from such election district; and the Legislature shall have power to provide the manner in which and the time and place at which such absent electors may vote, and for the return and canvass of their votes in the election districts in which they respectively reside.
- Persons not permitted to vote.** **SECTION II.** No person who shall receive, accept or offer to receive, or pay, offer or promise to pay, contribute, offer or promise to contribute to another, to be paid or used, any money or other valuable thing as a compensation or reward for the giving or withholding a vote at an election, or who shall make any promise to influence the giving or withholding any such vote, or who shall make or become directly or indirectly interested

	in any bet or wager depending upon the result of any election, shall vote at such election; and upon challenge for such cause, the person so challenged, before the officers authorized for that purpose shall receive his vote, shall swear or affirm before such officers that he has not received or offered, does not expect to receive, has not paid, offered or promised to pay, contributed, offered or promised to contribute to another, to be paid or used, any money or other valuable thing as a compensation or reward for the giving or withholding a vote at such election, and has not made any promise to nor made or become directly or indirectly interested in any bet or wager depending upon the result of such election. The Legislature shall enact laws excluding from the right of suffrage all persons convicted of bribery or any infamous crime.
The question of residence.	SECTION III. For the purpose of voting, no person shall be deemed to have gained or lost a residence, by reason of his presence or absence, while employed in the service of the United States; nor while engaged in the navigation of the waters of this State, or of the United States, or of the high seas; nor while a student at any seminary of learning; nor while kept at any almshouse, or other asylum, or institution wholly or partly supported at public expense or by charity; nor while confined in any public prison.
Election and registration laws.	SECTION IV. Laws shall be made for ascertaining, by proper proofs, the citizens who shall be entitled to the right of suffrage hereby established, and for the registration of voters; which registration shall be completed at least ten days before each election. Such registration shall not be required for town and village elections except by express provision of law. In cities and villages having 5,000 inhabitants or more, according to the last preceding State enumeration of inhabitants, voters shall be registered upon personal application only; but voters not residing in such cities or villages shall not be required to apply in person for registration at the first meeting of the officers having charge of the registry of voters.
Method of voting.	SECTION V. All elections by the citizens, except for such town officers as may by law be directed to be otherwise chosen, shall be by ballot, or by such other method as may be prescribed by law, provided that secrecy in voting be preserved.
Bi-Partisan Elections Boards.	SECTION VI. All laws creating, regulating or affecting boards of officers charged with the duty of registering voters, or of distributing ballots at the poles to voters, or of receiving, recording or counting votes at elections, shall secure equal representation of the two political parties which, at the general election next preceding that for which such boards or officers are to serve, cast the highest and the next highest number of votes. All such boards and officers shall be appointed or elected in such manner, and upon the nomination of such representatives of said parties respectively, as the Legislature may direct. Existing laws on this subject shall continue until the Legislature shall otherwise provide. This section shall not apply to town meetings, or to village elections.
Power of Legislation.	<b>ARTICLE III.</b> SECTION I. The legislative power of this State shall be vested in the Senate and Assembly.
Number of Senators and Assemblymen.	SECTION II. The Senate shall consist of 50 members, except as hereinafter provided. The Senators elected in the year 1895 shall hold their offices for three years, and their successors shall be chosen for two years. The Assembly shall consist of 150 members, who shall be chosen for one year.
Salaries of members of the Legislature.	[NOTE. Sections III, IV and V of this article, which provided in 1895 for a division of the State into 50 Senate districts and 150 Assembly districts have been virtually superseded by the Legislative Apportionment Act of 1907, a summary of which is given elsewhere in this volume.] SECTION VI. Each member of the Legislature shall receive for his services an annual salary of \$1,500. The members of either House shall also receive the sum of one dollar for every ten miles they shall travel in going to and returning from their place of meeting, once in each session, on the most usual route, Senators, when the Senate alone is convened in extraordinary session, or when serving as members of the Court for the Trial of Impeachments, and such members of the Assembly, not exceeding nine members, as shall be appointed managers of an impeachment, shall receive an additional allowance of ten dollars a day.
Civil appointments prohibited.	SECTION VII. No member of the Legislature shall receive any civil appointment within this State, or the Senate of the United States, from the Governor, the Governor and Senate, or from the Legislature, or from any city government, during the time for which he shall have been elected; and all such appointments and all votes given for any such member for any such office or appointment shall be void.
Ineligible for Election.	SECTION VIII. No person shall be eligible to the Legislature, who at the time of his election, is, or within 100 days previous thereto has been, a member of Congress, a civil or military officer under the United States, or an officer under any city government. And if any person shall, after his election as a member of the Legislature, be elected to Congress, or appointed to any office, civil or military, under the Government of the United States, or under any city government, his acceptance thereof shall vacate his seat.
When elections shall be held.	SECTION IX. The elections of Senators and members of Assembly, pursuant to the provisions of this Constitution, shall be held on the Tuesday succeeding the first Monday of November, unless otherwise directed by the Legislature.
Authority of each House.	SECTION X. A majority of each House shall constitute a quorum to do business. Each House shall determine the rules of its own proceedings, and be the judge of the elections, returns and qualifications of its own members; shall choose its own officers; and the Senate shall choose a temporary president to preside in case of the absence or impeachment of the Lieutenant-Governor, or when he shall refuse to act as president, or shall act as Governor.
Journals of the Houses.	SECTION XI. Each House shall keep a journal of its proceedings, and publish the same, except such parts as may require secrecy. The doors of each House shall be kept open, except when the public welfare shall require secrecy. Neither House shall, without the consent of the other, adjourn for more than two days.
Members not to be questioned for debate.	SECTION XII. For any speech or debate in either House of the Legislature, the members shall not be questioned in any other place.
Bills to originate in either House.	SECTION XIII. Any bill may originate in either House of the Legislature, and all bills passed by one House may be amended by the other.
The enacting clause of bills.	SECTION XIV. The enacting clause of all bills shall be "The People of the State of New York, represented in Senate and Assembly, do enact as follows," and no law shall be enacted except by bill.
Method of passing bills.	SECTION XV. No bill shall be passed or become a law unless it shall have been printed and upon the desks of the members, in its final form, at least three calendar legislative days prior to its final passage, unless the Governor, or the acting Governor, shall have certified to the necessity of its immediate passage, under his hand and the seal of the State; nor shall any bill be passed or become a law, except by the assent of a majority of the members elected to each branch of the Legislature; and upon the last reading of a bill, no amendment thereof shall be allowed, and the question upon its final passage shall be taken immediately thereat, and the yeas and nays entered on the journal.
One subject in private and local bills.	SECTION XVI. No private or local bill, which may be passed by the Legislature, shall embrace more than one subject, and that shall be expressed in the title.
Existing law and new law.	SECTION XVII. No act shall be passed which shall provide that any existing law, or any part thereof, shall be made or deemed a part of said act, or which shall enact that any existing law, or part thereof, shall be applicable, except by inserting it in such act.
Legislature not to pass certain bills.	SECTION XVIII. The Legislature shall not pass a private or local bill in any of the following cases: Changing the name of persons. Locating or changing county seats. Providing for changes of venue in civil or criminal cases. Incorporating villages. Providing for election of members of boards of supervisors. Selecting, drawing, summoning or impanelling grand or petit jurors. Regulating the rate of interest on money. The opening and conducting of elections or designating places of voting. Creating, increasing or decreasing fees, percentages or allowances of public officers, during the term for which said officers are elected or appointed.

- Granting to any corporation, association or individual the right to lay down railroad tracks.  
Granting to any private corporation, association or individual any exclusive privilege, immunity or franchise whatever.  
Granting to any persons, association, firm or corporation, an exemption from taxation on real or personal property.  
Providing for building bridges, and chartering companies for such purposes, except on the Hudson River below Waterford, and on the East River, or over the waters forming a part of the boundaries of the State.  
The Legislature shall pass general laws providing for the cases enumerated in this section, and for all other cases which in its judgment, may be provided for by general laws. But no law shall authorize the construction or operation of a street railroad except upon the condition that the consent of the owners of one-half in value of the property bounded on, and the consent also of the local authorities having the control of, that portion of a street or highway upon which it is proposed to construct or operate such railroad be first obtained, or in case the consent of such property owners cannot be obtained, the Appellate Division of the Supreme Court in the department in which it is proposed to be constructed, may, upon application, appoint three commissioners who shall determine, after a hearing of all parties interested, whether such railroad ought to be constructed or operated, and their determination, confirmed by the court, may be taken in lieu of the consent of the property owners.
- Private claim bills.** SECTION XIX. The Legislature shall neither audit nor allow any private claim or account against the State, but may appropriate money to pay such claims as shall have been audited and allowed according to law.
- Two-thirds acts.** SECTION XX. The assent of two-thirds of the members elected to each branch of the Legislature shall be requisite to every bill appropriating the public moneys or property for local or private purposes.
- The appropriation acts.** SECTION XXI. No money shall ever be paid out of the treasury of this State, or any of its funds, or any of the funds under its management, except in pursuance of an appropriation by law; nor unless such payment be made within two years next after the passage of such appropriation act; and every such law making a new appropriation, or continuing or reviving an appropriation, shall distinctly specify the sum appropriated, and the object to which it is to be applied; and it shall not be sufficient for such law to refer to any other law to fix such sum.
- Specific appropriation.** SECTION XXII. No provision or enactment shall be embraced in the annual appropriation or supply bill, unless it relates specifically to some particular appropriation in the bill; and any such provision or enactment shall be limited in its operation to such appropriation.
- The revision of the statutes.** SECTION XXIII. Sections XVII and XVIII of this article shall not apply to any bill, or the amendments to any bill, which shall be reported to the Legislature by commissioners who have been appointed pursuant to law to revise the statutes.
- Taxes to be stated distinctly.** SECTION XXIV. Every law which imposes, continues or revives a tax shall distinctly state the tax and the object to which it is to be applied, and it shall not be sufficient to refer to any other law to fix such tax or object.
- Quorum in the Legislature.** SECTION XXV. On the final passage, in either House of the Legislature, of any act which imposes, continues or revives a tax, or creates a debt or charge, or makes, continues or revives any appropriation of public or trust money or property, or releases, discharges or commutes any claim or demand of the State, the question shall be taken by yeas and nays, which shall be duly entered upon the journals, and three-fifths of all the members elected to either House shall, in all such cases, be necessary to constitute a quorum thereon.
- The boards of supervisors.** SECTION XXVI. There shall be in each county, except in a county wholly included in a city, a board of supervisors, to be composed of such members and elected in such manner and for such period as is or may be provided by law. In a city which includes an entire county, or two or more entire counties, the powers and duties of a board of supervisors may be devolved upon the municipal assembly, common council, board of aldermen or other legislative body of the city.
- Local legislation.** SECTION XXVII. The Legislature shall, by general laws, confer upon the boards of supervisors of several counties of the State such further powers of local legislation and administration as the Legislature may, from time to time, deem expedient.
- Prohibition of extra compensation.** SECTION XXVIII. The Legislature shall not, nor shall the common council of any city, nor any board of supervisors, grant any extra compensation to any public officer, servant, agent or contractor.
- Occupation for convicts.** SECTION XXIX. The Legislature, shall by law, provide for the occupation and employment of prisoners sentenced to the several State prisons, penitentiaries, jails and reformatories in the State; and on and after January 1, in the year 1897, no person in any such prison, penitentiary, jail or reformatory, shall be required or allowed to work, while under sentence thereto, at any trade, industry or occupation, wherein or whereby his work, or the product or profit of his work, shall be farmed out, contracted, given or sold to any person, firm, association or corporation. This section shall not be construed to prevent the Legislature from providing that convicts may work for, and that the products of their labor may be disposed of to, the State or any political division thereof, or for or to any public institution owned or managed and controlled by the State, or any political division thereof.

## ARTICLE IV.

- The power of the Governor.** SECTION I. The executive power shall be vested in a Governor, who shall hold his office for two years; a Lieutenant-Governor shall be chosen at the same time, and for the same term. The Governor and Lieutenant-Governor elected next preceding the time when this section shall take effect, shall hold office until and including December 31, 1896, and their successors shall be chosen at the general election in that year.
- Persons eligible for Governor and Lieutenant-Governor.** SECTION II. No person shall be eligible to the office of Governor or Lieutenant-Governor, except a citizen of the United States, of the age of not less than 30 years, and who shall have been five years next preceding his election a resident of this State.
- When Governor and Lieutenant-Governor are to be elected.** SECTION III. The Governor and Lieutenant-Governor shall be elected at the times and places of choosing members of the Assembly. The persons respectively having the highest number of votes for Governor and Lieutenant-Governor shall be elected; but in case two or more shall have an equal and the highest number of votes for Governor, or for Lieutenant-Governor, the two Houses of the Legislature at its next annual session shall forthwith by joint ballot, choose one of the said persons so having an equal and the highest number of votes for Governor or Lieutenant-Governor.
- Powers of Governor.** SECTION IV. The Governor shall be Commander-in-Chief of the military and naval forces of the State. He shall have power to convene the Legislature, or the Senate only, on extraordinary occasions. At extraordinary sessions no subject shall be acted upon, except such as the Governor may recommend for consideration. He shall communicate by message to the Legislature at every session the condition of the State, and recommend such matters to it as he shall judge expedient. He shall transact all necessary business with the officers of government, civil and military. He shall expedite all such measures as may be resolved upon by the Legislature, and shall take care that the laws are faithfully executed. He shall receive for his services an annual salary of \$10,000, and there shall be provided for his use a suitable and furnished executive residence.
- Governor's right to pardon.** SECTION V. The Governor shall have the power to grant reprieves, commutations and pardons after conviction, for all offences except treason and cases of impeachment, upon such conditions and with such restrictions and limitations, as he may think proper, subject to such regulations as may be provided by law relative to the manner of applying for pardons. Upon conviction for treason, he shall have power to suspend the execution of the sentence, until the case shall be reported to the Legislature at its next meeting, when the Legislature shall either pardon, or commute the sentence, direct the execution of the sentence, or grant a further reprieve. He shall annually communicate to the Legislature each case of reprieve, commutation or pardon granted, stating the name of the convict, the crime of which he was convicted, the sentence and its date, and the date of commutation, pardon or reprieve.

**Lieutenant-Governor becomes Governor.** SECTION VI. In case of the impeachment of the Governor, or his removal from office, death, inability to discharge the powers and duties of the said office, resignation, or absence from the State, the powers and duties of the office shall devolve upon the Lieutenant-Governor for the residue of the term, or until the disability shall cease. But when the Governor shall, with the consent of the Legislature, be out of the State, in time of war, at the head of a military force thereof, he shall continue Commander-in-Chief of all the military force of the State.

**Powers of Lieutenant-Governor.** SECTION VII. The Lieutenant-Governor shall possess the same qualifications of eligibility for office as the Governor. He shall be President of the Senate, but shall have only a casting vote therein. If during a vacancy of the office of Governor, the Lieutenant-Governor shall be impeached, displaced, resign, die, or become incapable of performing the duties of his office, or be absent from the State, the President of the Senate shall act as Governor until the vacancy be filled or the disability shall cease; and if the President of the Senate for any of the above causes shall become incapable of performing the duties pertaining to the office of Governor, the Speaker of the Assembly shall act as Governor until the vacancy be filled, or the disability shall cease.

**Lieutenant-Governor's salary.** SECTION VIII. The Lieutenant-Governor shall receive for his services an annual salary of \$5,000, and shall not receive or be entitled to any other compensation, fee or perquisite for any duty or service he may be required to perform by the Constitution or by law.

**Governor presented with Legislative bills.** SECTION IX. Every bill which shall have passed the Senate and Assembly shall, before it becomes a law, be presented to the Governor; if he approve, he shall sign it; but if not, he shall return it with his objections to the House in which it shall have originated, which shall enter the objections at large on the journal, and proceed to reconsider it. If after such reconsideration, two-thirds of the members elected to that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of the members elected to that House, it shall become a law notwithstanding the objections of the Governor. In all such cases, the votes in both Houses shall be determined by yeas and nays, and the names of the members voting shall be entered on the journal of each House, respectively. If any bill shall not be returned by the Governor within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Legislature shall, by their adjournment, prevent its return, in which case it shall not become a law without the approval of the Governor. No bill shall become a law after the final adjournment of the Legislature, unless approved by the Governor within thirty days after such adjournment. If any bill presented to the Governor contain several items of appropriation of money, he may object to one or more of such items while approving of the other portion of the bill. In such case, he shall append to the bill, at the time of signing it, a statement of the items to which he objects; and the appropriation so objected to shall not take effect. If the Legislature be in session, he shall transmit to the House in which the bill originated a copy of such statement, and the items objected to shall be separately reconsidered. If on reconsideration one or more of such items be approved by two-thirds of the members elected to each House, the same shall be part of the law, notwithstanding the objections of the Governor. All the provisions of this section, in relation to bills not approved by the Governor, shall apply in cases in which he shall withhold his approval from any item or items contained in a bill appropriating money.

**ARTICLE V.**

**Other State officers.** [NOTE. Article V of the Constitution provides for the election by the people or appointment by the Governor, of other State officers, and prescribes their duties: to wit, the Secretary of State, Comptroller, Treasurer, Attorney-General, State Engineer and Surveyor, Superintendent of Public Works, Superintendent of State Prisons, Commissioners of the Land Office, Commissioners of Canal Fund and Canal Board.]

**ARTICLE VI.**

Article VI of the Constitution provides for the Judiciary of the State.

**The Judiciary.** The Supreme Court is continued with general jurisdiction in law and equity, subject to such appellate jurisdiction of the Court of Appeals as now is or may be prescribed by law not inconsistent with this article. The existing judicial districts of the State are continued until changed as hereinafter provided. The Supreme Court shall consist of the justices now in office, and of the judges transferred thereto by the fifth section of this article, all of whom shall continue to be Justices of the Supreme Court during their respective terms, and of 12 additional justices who shall reside in and be chosen by the electors of, the several existing judicial districts, three in the first district, three in the second, and one in each of the other districts; and of their successors. The successors of said justices shall be chosen by the electors of their respective judicial districts.

The Legislature is required to divide the State into four judicial districts, the boundaries which are determined by Section II of this Article. For each of these divisions an appellate division of the Supreme Court is provided, the justices to be designated by the Governor.

The official terms of the Justices of the Supreme Court are fixed at 14 years.

The Court of Appeals is provided for in Section VII of this article. The terms of the chief judge and associate judges are fixed at 14 years, and they shall be chosen by the people. The Governor may, with the consent of the Senate, designate Justices of the Supreme Court to fill vacancies until the people elect their successors.

SECTION IX of this Article provides for the jurisdiction of the Court of Appeals and Section XII for its compensation. In Section XIII the Assembly is given the power of impeachment and the Senate is required to try the judicial officers thus impeached.

In subsequent sections of this article, County Courts, Surrogate Courts, Justices of the Peace and minor judicial officers are provided.

**The publication of statutes.** SECTION XXI. The Legislature shall provide for the speedy publication of all statutes, and shall regulate the reporting of the decisions of the courts; but all laws and judicial decisions shall be free for publication by any person.

**Justices of the Peace.** SECTION XXII. Justices of the Peace and other local judicial officers provided for in Sections XVII and XVIII, in office when this article takes effect, shall hold their offices until the expiration of their respective terms.

**Courts of Special Sessions.** SECTION XXIII. Courts of Special Sessions shall have such jurisdiction of offences of the grade of misdemeanors as may be prescribed by law.

**ARTICLE VII.**

**The State credit.** SECTION I. The credit of the State shall not in any manner be given or loaned to or in aid of any individual, association or corporation.

**Power to incur debt.** SECTION II. The State may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts; but such debts, directly or contingent, singly or in the aggregate, shall not at any time exceed \$1,000,000; and the moneys, arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debts so contracted, and to no other purpose whatever.

**Debt to repel invasion.** SECTION III. In addition to the above limited power to contract debts, the State may contract debts to repel invasions, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

- Authority to create debt limited.** SECTION IV. Except the debts specified in Sections II and III of this article, no debts shall be hereafter contracted by or in behalf of this State, unless such debt shall be authorized by a law, for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within 50 years from the time of the contracting thereof. No such law shall take effect until it shall, at a general election have been submitted to the people, and have received a majority of all the votes cast for and against it at such election. On the final passage of such bill in either House of the Legislature the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time, by law, forbid the contracting of any further debt or liability under such law; but the tax imposed by such act, in proportion to the debt and liability which may have been contracted in pursuance of such law, shall remain in force and be irrevocable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such debt and liability. The money arising from any loan or stock creating such debt or liability shall be applied to the work or object specified in the act authorizing such debt or liability, or for the payment of such debt or liability, and for no other purpose whatever. No such law shall be submitted to be voted on, within three months after its passage or at any general election when any other law, or any bill shall be submitted to be voted for or against. The Legislature may provide for the issue of bonds of the State to run for a period not exceeding 50 years in lieu of bonds heretofore authorized but not issued, and shall impose and provide for the collection of a direct annual tax for the payment of the same as hereinbefore required. When any sinking fund created under this section shall equal in amount the debt for which it was created, no further direct tax shall be levied on account of said sinking fund and the Legislature shall reduce the tax to an amount equal to the accruing interest on such debt.
- Sinking funds.** SECTION V. The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for the specific purpose for which it shall have been provided.
- Claims barred by time.** SECTION VI. Neither the Legislature, canal board, nor any person or persons acting in behalf of the State, shall audit, allow or pay any claim which, as between citizens of the State, would be barred by lapse of time. This provision shall not be construed to repeal any statute fixing the time within which claims shall be presented or allowed, nor shall it extend to any claim duly presented within the time allowed by law, and prosecuted with due diligence from the time of such presentation. But if the claimant shall be under legal disability, the claim may be presented within two years after such disability is removed.
- The forest preserve.** SECTION VII. The lands of the State, now owned or hereafter acquired, constituting the forest preserve as now fixed by law, shall be forever kept as wild forest lands. They shall not be leased, sold or exchanged, or be taken by any corporation, public or private, nor shall the timber thereon be sold, removed or destroyed.
- Canals must not be sold.** SECTION VIII. The Legislature shall not sell, lease or otherwise dispose of the Erie Canal, the Oswego Canal, the Champlain Canal, the Cayuga and Seneca Canal, or the Black River Canal; but they shall remain the property of the State and under its management forever. The prohibition of lease, sale or other disposition herein contained, shall not apply to the canal known as the Main and Hamburg Street Canal, situated in the City of Buffalo, and which extends easterly from the westerly line of Main Street to the westerly line of Hamburg Street. All funds that may be derived from any lease, sale or other disposition of any canal shall be applied to the improvement, superintendence or repair of the remaining portions of the canals.
- No canal tolls.** SECTION IX. No tolls shall hereafter be imposed on persons or property transported on the canals, but all boats navigating the canals, and the owners and masters thereof, shall be subject to such laws and regulations as have been or may hereafter be enacted concerning the navigation of the canals. The Legislature shall annually, by equitable taxes, make provision for the expenses of the superintendence and repairs of the canals. All contracts for work or materials on the canals shall be made with the persons who shall offer to do or provide the same at the lowest price, with adequate security for their performance. No extra compensation shall be made to any contractor; but, if, from any unforeseen cause, the terms of any contract shall prove to be unjust and oppressive the Canal Board may, upon the application of the contractor, cancel such contract.
- The improvement of the canals.** SECTION X. The canals may be improved in such manner as the Legislature shall provide by law. A debt may be authorized for that purpose in the mode prescribed by Section IV of this article, or the cost of such improvement may be defrayed by the appropriation of funds from the State treasury, or by equitable annual tax.
- The improvement of highways.** SECTION XI. The Legislature may appropriate out of any funds in the treasury, moneys to pay the accruing interest and principal of any debt heretofore or hereafter created, or any part thereof, and may set apart in each fiscal year, moneys in the State treasury as a sinking fund to pay the interest as it falls due and to pay and discharge the principal of any debt heretofore or hereafter created under Section IV of Article VII of the Constitution until the same shall be wholly paid, and the principal and income of such sinking fund shall be applied to the purpose for which said sinking fund is created and to no other purpose whatever; and, in the event such moneys so set apart in any fiscal year be sufficient to provide such sinking fund, a direct annual tax for such year need not be imposed and collected, as required by the provisions of said Section IV of Article VII, or of any law enacted in pursuance thereof.
- SECTION XII. A debt or debts of the State may be authorized by law for the improvement of highways. Such highways shall be determined under general laws, which shall also provide for the equitable apportionment thereof among the counties. The aggregate of the debts authorized by this section shall not at any one time exceed the sum of \$50,000,000. The payment of the annual interest on such debt and the creation of a sinking fund of at least two per cent, per annum to discharge the principal at maturity shall be provided by general laws whose force and effect shall not be diminished during the existence of any debt created thereunder. The Legislature may by general laws require the county or town or both to pay to the sinking fund the proportionate part of the cost of any such highway within the boundaries of such county or town and the proportionate part of the interest thereon, but no county shall at any time for any highway be required to pay more than thirty-five hundredths of the cost of such highway and no town more than fifteen hundredths. None of the provisions of the fourth section of this article shall apply to debts for the improvement of highways hereby authorized.
- ARTICLE VIII.**
- Formation of corporations.** SECTION I. Corporations may be formed under general laws; but shall not be created by special act, except for municipal purposes, and in cases where, in the judgment of the Legislature, the objects of the corporation cannot be attained under general laws. All general laws and special acts passed pursuant to this section may be altered from time to time or repealed.
- Dues from corporations.** SECTION II. Dues from corporations shall be secured by such individual liability of the corporators and other means as may be prescribed by law.
- A definition of corporations.** SECTION III. The term corporation as used in this section shall be construed to include all associations and joint-stock companies having any of the powers or privileges of corporations not possessed by individuals or partnerships. And all corporations shall have the right to sue and shall be subject to be sued in all courts in like cases as natural persons.
- The charters of savings banks.** SECTION IV. The Legislatures shall, by general law, conform all charters of savings banks, or institutions for savings, to a uniformity of power, rights, and liabilities, and all charters heretofore granted for such corporations shall be made to conform to such general law, and to such amendments as may be made thereto. And no such corporation shall have any capital stock, nor shall the trustees thereof, or any of them, have any interest whatever, direct or indirect, in the profits of such corporation, and no director or trustee of any such bank or institution shall be interested in any loan or use of any money or property of such bank or institution for savings. The Legislature shall have no power to pass any act granting any special charter for banking purposes; but corporations or associations may be formed for such purposes under general laws.

- Specie payments.** SECTION V. The Legislature shall have no power to pass any law sanctioning in any manner, directly or indirectly, the suspension of specie payments, by any person, association or corporation, issuing bank notes of any description.
- The registry of bills.** SECTION VI. The Legislature shall provide by law for the registry of all bills or notes, issued or put in circulation as money, and shall require ample security for the redemption of the same in specie.
- Stock-holders' liability.** SECTION VII. The stockholders of every corporation and joint-stock association for banking purposes, shall be individually responsible to the amount of their respective share or shares of stock in any such corporation or association, for all its debts and liabilities of every kind.
- Preferred credits of banks.** SECTION VIII. In case of the insolvency of any bank or banking association, the billholders thereof shall be entitled to preference in payment, over all other creditors of such bank or association.
- The credit of the State.** SECTION IX. Neither the credit nor the money of the State shall be given or loaned to or in aid of any association, corporation or private undertaking. This section shall not, however, prevent the Legislature from making such provision for the education and support of the blind, the deaf and dumb, and juvenile delinquents, as to it may seem proper. Nor shall it apply to any fund or property now held, or which may hereafter be held, by the State for educational purposes.
- Credit of Counties, cities, towns not to be given.** SECTION X. No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation, nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law. No county, or city shall be allowed to become indebted for any purpose or in any manner to which including the purchase of bonds, shall exceed ten per centum of the assessed valuation of the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitations, except such as now may exist, shall be absolutely void, except as herein otherwise provided. No county or city whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit. This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes. Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the term of the bonds issued to provide the supply of water shall not exceed 30 years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity. All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted, except that debts incurred by the City of New York after January 1, 1904, and debts incurred by any city of the second class after January 1, 1908, to provide for the supply of water shall not be so included. Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county, heretofore existing, shall not, for the purposes of this section, be reckoned as a part of the city debt. The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over 100,000 inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year two per centum of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt. [Amendment voted on in 1907.]
- The State board of charities.** SECTION XI. The Legislature shall provide for a State board of charities, which shall visit and inspect all institutions, whether State, county, municipal, incorporated or not incorporated, which are charitable, eleemosynary, correctional or reformatory character, excepting only such institutions as are hereby made subject to the visitation of either of the commissions hereinafter mentioned, but including all reformatories except those in which adult males convicted of felony shall be confined; a State commission of lunacy shall visit and inspect all institutions, either public or private, used for the care and treatment of the insane (not including institutions for epileptics or idiots); a State commission of prisons which shall visit and inspect all institutions used for the detention of sane adults charged with or convicted of crime or detained as witnesses or debtors.
- Governor appoints boards.** SECTION XII. The members of the said board and of the said commissions shall be appointed by the Governor, by and with the advice and consent of the Senate; and any member may be removed from office by the Governor for cause, an opportunity having been given him to be heard in his defence.
- Existing laws continued.** SECTION XIII. Existing laws relating to institutions referred to in the foregoing sections and to their supervision and inspection, in so far as such laws are not inconsistent with the provisions of the Constitution, shall remain in force until amended or repealed by the Legislature. The visitation and inspection herein provided for shall not be exclusive of other visitation and inspection now authorized by law.
- Provision for the support of the helpless.** SECTION XIV. Nothing in this Constitution contained shall prevent the Legislature from making such provision and support of the blind, the deaf and dumb, and juvenile delinquents, as to it may seem proper; or prevent any county, city, town or village from providing for the care, support, maintenance and secular education of inmates of orphan asylums, homes for dependent children or correctional institutions, whether under public or private control. Payments by counties, cities, towns and villages to charitable, eleemosynary, correctional and reformatory institutions, wholly or partly under private control, for care, support and maintenance, may be authorized, but shall not be required by the Legislature. No such payments shall be made for any inmate of such institutions who is not received and retained therein pursuant to rules established by the State board of charities. Such rules shall be subject to the control of the Legislature by general laws.
- Commissioners remain in office.** SECTION XV. Commissioners of the State board of charities and commissioners of the State commission of lunacy, now holding office, shall be continued in office for the term for which they were appointed, respectively, unless the Legislature shall otherwise provide. The Legislature may confer upon the commissions and upon the board mentioned in the foregoing sections any additional powers that are not inconsistent with other provisions of the Constitution.

**ARTICLE IX.**

- The common schools.** SECTION I. The Legislature shall provide for the maintenance and support of a system of free common schools, wherein all the children of this State may be educated.
- The Regents of the University of the State.** SECTION II. The corporation created in the year 1784, under the name of The Regents of the University of the State of New York, is hereby continued under the name of the University of the State of New York. It shall be governed and its corporate powers, which may be increased, modified or diminished by the Legislature, shall be exercised by not less than nine regents.
- Capital of the common school fund.** SECTION III. The capital of the common school fund, the capital of the literature fund, and the capital of the United States deposit fund, shall be respectively preserved inviolate. The revenue of the said common school fund shall be applied to the support of the common schools; the revenue of the literature fund shall be applied to the support of academies; and the sum of \$25,000 of the revenues of the United States deposit fund shall each year be appropriated to and made part of the capital of the said common school fund.
- Denominational schools.** SECTION IV. Neither the State nor any subdivision thereof, shall use its property or credit or any public money, or authorize or permit either to be used, directly or indirectly, in aid or maintenance, other than for examination or inspection, of any school or institution of learning wholly or in part under the control or direction of any religious denomination, or in which any denominational tenet or doctrine is taught.

## ARTICLE X.

- Governor may remove certain officers.** SECTION I. Sheriffs, clerks of counties, district-attorneys and registers in counties having registers, shall be chosen by the electors of the respective counties, once in every three years and as often as vacancies shall happen, except in the counties of New York and Kings, and in counties whose boundaries are the same as those of a city, where such officers shall be chosen by the electors once in every two or four years, as the Legislature shall direct. Sheriffs shall hold no other office and be ineligible for the next term after the termination of their offices. They may be required by law to renew their security, from time to time; and in default of giving such new security, their offices shall be deemed vacant. But the county shall never be made responsible for the acts of the sheriff. The Governor may remove any officer, in this section mentioned, within the term for which he shall have been elected; giving to such officer a copy of the charges against him, and an opportunity of being heard in his defence.
- Appointment and election of county officers.** SECTION II. All county officers whose election or appointment is not provided for by this Constitution, shall be elected by the electors of the respective counties or appointed by the boards of supervisors, or other county authorities, as the Legislature shall direct. All city, town and village officers, whose election or appointment is not provided for by this Constitution, shall be elected by the electors of such cities, towns and villages, or of some division thereof, or appointed by such authorities thereof, as the Legislature shall designate for that purpose. All other officers, whose election or appointment is not provided for by this Constitution, and all officers, whose offices may hereafter be created by law, shall be elected by the people, or appointed as the Legislature may direct.
- The duration of a term.** SECTION III. When the duration of any office is not provided by this Constitution it may be declared by law, and if not so declared, such office shall be held during the pleasure of the authority making the appointment.
- The time of election.** SECTION IV. The time of electing all officers named in this article shall be prescribed by law.
- Vacancies in offices.** SECTION V. The Legislature shall provide for filling vacancies in office, and in case of elective officers, no person appointed to fill a vacancy shall hold his office by virtue of such appointment longer than the commencement of the political year next succeeding the first annual election after the happening of the vacancy.
- The political year.** SECTION VI. The political year and legislative term shall begin on the first day of January; and the Legislature shall, every year, assemble on the first Wednesday in January.
- Laws for removal of officers.** SECTION VII. Provision shall be made by law for the removal for misconduct or malversation in office of all officers, except judicial, whose powers and duties are not local or legislative and who shall be elected at general elections, and also for supplying vacancies created by such removal.
- Laws regarding vacancies.** SECTION VIII. The Legislature may declare the cases in which any office shall be deemed vacant when no provision is made for that purpose in this Constitution.
- The compensation of officers.** SECTION IX. No officer whose salary is fixed by the Constitution shall receive any additional compensation. Each of the other State officers named in the Constitution shall, during his continuance in office, receive a compensation, to be fixed by law, which shall not be increased or diminished during the term for which he shall have been elected or appointed; nor shall he receive, to his use any fees or perquisites of office as other compensation.

## ARTICLE XI.

- The State militia.** SECTION I. All able-bodied male citizens between the ages of 18 and 45 years, who are residents of the State, shall constitute the militia, subject, however, to such exemptions as are now, or may be hereafter created by the laws of the United States, or by the Legislature of this State.
- Enlistment of soldiers.** SECTION II. The Legislature may provide for the enlistment into the active force of such other persons as may make application to be so enlisted.
- Militia to be organized.** SECTION III. The militia shall be organized and divided into such land and naval, and active and reserve forces as the Legislature may deem proper, provided, however, that there shall be maintained at all times a force of not less than ten thousand enlisted men, fully uniformed, armed, equipped, disciplined, and ready for active service. And it shall be the duty of the Legislature at each session to make sufficient appropriation for the maintenance thereof.
- Governor to appoint officers.** SECTION IV. The Governor shall appoint the chiefs of the several staff departments, his aides-de-camp and military secretary, all of whom shall hold office during his pleasure, their commissions to expire with the term for which the Governor shall have been elected; he shall also nominate, and with the consent of the Senate appoint, all major-generals.
- Laws concerning officers.** SECTION V. All other commissioned and non-commissioned officers shall be chosen or appointed in such manner as the Legislature may deem most conducive to the improvement of the militia, provided, however, that no law shall be passed changing the existing mode of election and appointment unless two-thirds of the members present in each House shall concur therein.
- Governor to commission officers.** SECTION VI. No commissioned officer shall be removed from office during the term for which he shall have been appointed or elected, unless by the Senate on the recommendation of the Governor, stating the grounds on which such removal is recommended, or by the sentence of a court-martial, or upon the findings of an examining board organized pursuant to law, or for absence without leave for a period of six months or more.

## ARTICLE XII.

- The organization of cities and villages.** SECTION I. It shall be the duty of the Legislature to provide for the organization of cities and incorporation of cities, towns, villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts, and loaning their credit, so as to prevent abuses in assessments and in contracting debt by such municipal corporations; and the Legislature may regulate and fix the wages or salaries, the hours of work or labor, and make provision for the protection, welfare and safety of persons employed by the State or by any county, city, town, village or other civil division of the State, or by any contractor or sub-contractor performing work, labor or services for the State, or for any county, city, town, village or other civil division thereof.
- Classification of cities.** SECTION II. All cities are classified according to the latest State enumeration, as from time to time made as follows: The first class includes all cities having a population of 175,000 or more; the second class, all cities having a population of 50,000 and less than 175,000; the third class, all other cities. Laws relating to the property, affairs of government of cities, and the several departments thereof, are divided into general and special city laws; general city laws are those which relate to all the cities of one or more classes; special city laws are those which relate to a single city, or to less than all the cities of a class. Special city laws shall not be passed except in conformity with the provisions of this section. After any bill for a special city law, relating to a city, has been passed by both branches of the Legislature, the House in which it originated shall immediately transmit a certified copy thereof to the Mayor of such city, and within 15 days thereafter the Mayor shall return such bill to the House from which it was sent, or if the session of the Legislature at which such bill was passed has terminated, to the Governor, with the Mayor's certificate thereon, stating whether the city has or has not accepted the same. In every city of the first class, the Mayor, and in every other city, the Mayor and the legislative body thereof concurrently, shall act for such city as to such bill; but the Legislature may provide for the concurrence of the legislative body in cities of the first class. The Legislature shall provide for a public notice and opportunity for a public hearing concerning any such bill in every city to which it relates, before action thereon. Such a bill, if it relates to more than one city, shall be transmitted to the Mayor of each city to which it relates, and shall not be deemed accepted as herein provided, by every such city. Whenever any such bill is accepted as herein provided, it shall be subject as are other bills, to the action of the Governor. Whenever, during the session at which it was passed, any such bill is returned without the acceptance of the city or cities to which it relates, or within such 15 days is not returned, it may nevertheless again be passed by both branches of the Legislature, and it shall then be subject as are other bills, to the action of the Governor. In every special city law which has been accepted by the city or cities to which

It relates, the title shall be followed by the words "accepted by the city," or "cities," as the case may be; in every such law which is passed without such acceptance, by the words "passed without the acceptance of the city," or "cities," as the case may be. [Amendment voted on in 1907.]

**Election of city officers.** SECTION III. All elections of city officers, including supervisors and judicial officers of inferior local courts, elected in any city or part of a city, and of county officers elected in the counties of New York and Kings, and in all counties whose boundaries are the same as those of a city, except to fill vacancies, shall be held on the Tuesday succeeding the first Monday in November in an odd-numbered year, and the term of every such officer shall expire at the end of an odd-numbered year. The terms of office of all such officers elected before the first day of January, 1895, whose successors have not then been elected, which under existing laws would expire with an even numbered year, or in an odd-numbered year and before the end thereof, are extended to and including the last day of December next following the time when such terms would otherwise expire; the terms of office of all such officers, which under existing laws would expire in an even-numbered year, and before the end thereof, are abridged so as to expire at the end of the preceding year. This section shall not apply to any city of the third class, or to elections, of any judicial officer, except judges and justices of inferior local courts.

**ARTICLE XIII.**

**The oath of office.** SECTION I. Members of the Legislature, and all officers, executive and judicial, except such inferior officers as shall be by law exempted, shall, before they enter on the duties of their respective offices, take and subscribe the following oath or affirmation: "I do solemnly swear (or affirm) that I will support the Constitution of the United States, and the Constitution of the State of New York, and that I will faithfully discharge the duties of the office of \_\_\_\_\_, according to the best of my ability;" and all such officers who shall have been chosen at any election shall, before they enter on the duties of their respective offices, take and subscribe the oath or affirmation above prescribed, together with the following addition thereto, as part thereof:

"And I do further solemnly swear (or affirm) that I have not directly or indirectly paid, offered or promised to pay, contribute, or offered or promised to contribute any money or other valuable thing as a consideration or reward for the giving or withholding a vote at the election at which I was elected to said office, and have not made any promise to influence the giving or withholding any such vote," and no other oath, declaration or test shall be required as a qualification for any office of public trust.

**Acceptance of a bribe.** SECTION II. Any person holding office under the laws of this State who, except in payment of his legal salary, fees or perquisites, shall receive or consent to receive, directly or indirectly, anything of value or of personal advantage, or the promise thereof, for performing or omitting to perform any official act, or with the express or implied understanding that his official action or omission to act is to be in any degree influenced thereby, shall be deemed guilty of a felony. This section shall not affect the validity of any existing statute in relation to the offence of bribery.

**Promise or offer of a bribe.** SECTION III. Any person who shall offer or promise a bribe to an officer, if it shall be received, shall be deemed guilty of a felony and liable to punishment, except as herein provided. No person offering a bribe shall, upon any prosecution of the officer for receiving such bribe, be privileged from testifying in relation thereto, and he shall not be liable to civil or criminal prosecution therefor, if he shall testify to the giving or offering of such bribe. Any person who shall offer or promise a bribe, if it be rejected by the officer to whom it was tendered, shall be deemed guilty of an attempt to bribe, which is hereby declared to be a felony.

**Persons accused of bribery.** SECTION IV. Any person charged with receiving a bribe, or with offering or promising a bribe, shall be permitted to testify in his own behalf in any civil or criminal prosecution therefor.

**Free passes for bribes.** SECTION V. No public officer, or person elected or appointed to a public office, under the laws of this State, shall directly or indirectly ask, demand, accept, receive or consent to receive for his own use or benefit, or for the use or benefit of another, any free pass, free transportation, franking privilege or discrimination in passenger, telegraph or telephone rates, from any person or corporation, or make use of the same himself or in conjunction with another. A person who violates any provision of this section, shall be deemed guilty of a misdemeanor, and shall forfeit his office at the suit of the Attorney-General. Any corporation or officer or agent thereof, who shall offer or promise to a public officer, or person elected or appointed to a public office, any such free pass, free transportation, franking privilege or discrimination shall also be deemed guilty of a misdemeanor and liable to punishment except as herein provided. No person or officer or agent of a corporation giving any such free pass, free transportation, franking privilege or discrimination, hereby prohibited, shall be privileged from testifying in relation thereto, and he shall not be liable to civil or criminal prosecution therefor if he shall testify to the giving of the same.

**District-Attorneys and bribery.** SECTION VI. Any district-attorney who shall fail faithfully to prosecute a person charged with violation in his county of any provision of this article which may come to his knowledge, shall be removed from office by the Governor, after due notice and an opportunity of being heard in his defence. The expenses which shall be incurred by any county, in investigating and prosecuting any charge of bribery or attempting to bribe any person holding office under the laws of this State within such county, or of receiving bribes by any such person in said county, shall be a charge against the State, and their payment by the State shall be provided for by law.

**ARTICLE XIV.**

**Constitutional amendments.** SECTION I. Any amendment or amendments to this Constitution may be proposed in the Senate and Assembly; and if the same shall be agreed to by a majority of the members elected to each of the two Houses, such proposed amendment or amendments shall be entered on their journals, and the yeas and nays taken thereon, and referred to the Legislature to be chosen at the next general election of Senators, and shall be published for three months previous to the time of making such choice; and if in the Legislature so next chosen, as aforesaid, such proposed amendment or amendments shall be agreed to by a majority of all the members elected to each House, then it shall be the duty of the Legislature to submit such proposed amendment or amendments to the people for approval in such manner and at such times as the Legislature shall prescribe; and if the people shall approve and ratify such amendment or amendments by a majority of the electors voting thereon, such amendment or amendments shall become a part of the Constitution, from and after the first day of January next after such approval.

[SECTION II provides for future Constitutional conventions every 20 years. At the general election to be held in 1916 and every 20 years thereafter, and also at such times as the Legislature may provide, the question: "Shall there be a Convention to revise the Constitution and amend the same?" shall be decided by the electors of the State. The section further provides, in case the electors decide in favor of a Convention, the manner in which the delegates thereto shall be chosen, their compensation, how vacancies shall be filled and how the new Constitution shall be submitted to the electors of the State for ratification or rejection.]

**Convention and legislative amendments.** SECTION III. Any amendment proposed by a constitutional convention relating to the same subject as an amendment proposed by the Legislature, coincidently submitted to the people for approval at the general election held in the year 1894, or at any subsequent election, shall, if approved, be deemed to supersede the amendment so proposed by the Legislature.

**ARTICLE XV.**

**When in force.** SECTION I. This Constitution shall be in force from and including January 1, 1895, except as herein otherwise provided.

This Constitution was signed by Joseph Hodges Choate, president, and Charles Elliott Fitch, secretary, September 29, 1894.

**Declaration of Independence.**

IN CONGRESS JULY 4, 1776.

**THE** unanimous declaration of the thirteen United States of America. When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good. He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise: the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislature. He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:  
For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States;

For cutting off our Trade with all parts of the world:  
For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefits of Trial by jury:  
For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to complete the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow-Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic Insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have ap-

DECLARATION OF INDEPENDENCE—*Continued.*

pealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES of AMERICA, in GENERAL CONGRESS ASSEMBLED, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly PUBLISH and DECLARE, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as FREE AND INDEPENDENT STATES, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, We mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.

(The foregoing declaration was, by order of Congress, engrossed, and signed by the following members:)

New Hampshire—Josiah Bartlett, Wm. Whipple, Matthew Thornton.  
 Massachusetts Bay—Saml. Adams, John Adams, Robt. Treat Paine, Elbridge Gerry.  
 Rhode Island, etc.—Step. Hopkins, William Ellery.  
 Connecticut—Roger Sherman, Sam'el Huntington, Wm. Williams, Oliver Wolcott.  
 New York—Wm. Floyd, Phil. Livingston, Frans. Lewis, Lewis Morris.  
 New Jersey—Richd. Stockton, Jno. Witherspoon, Fras. Hopkinson, John Hart, Abra. Clark.  
 Pennsylvania—Robt. Morris, Benjamin Rush, Benja. Franklin, John Morton, Geo. Clymer, Jas. Smith, Geo. Taylor, James Wilson, Geo. Ross.  
 Delaware—Caesar Rodney, Geo. Read, Theo. M'Kean.  
 Maryland—Samuel Chase, Wm. Paca, Thos. Stone, Charles Carroll of Carrollton.  
 Virginia—George Wythe, Richard Henry Lee, Th. Jefferson, Benja. Harrison, Thos. Nelson, jr., Francis Lightfoot Lee, Carter Braxton.  
 North Carolina—Wm. Hooper, Joseph Hewes, John Penn.  
 South Carolina—Edward Rutledge, Thos. Heyward, junr., Thomas Lynch, junr., Arthur Middleton.  
 Georgia—Button Gwinnett, Lyman Hall, Geo. Walton.

### The United States Census.

THE Constitution requires that a census of the United States shall be taken decennially. The First Census was taken in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were taken under the supervision of the Secretary of State. In 1849 the supervision of the census was transferred to the newly organized Department of the Interior, and continued under the control of that department until the passage of the act of 1903 creating the Department of Commerce and Labor; by this act the Census Office was transferred to the supervision of the new department. Congress, by act approved March 6, 1902, made the Census Office a permanent bureau of the Government.

The last census of the United States was taken in 1900, in accordance with the act of Congress approved March 3, 1899. This act divided the statistical inquiry into two classes: Reports of the Twelfth Census, comprising population, manufactures, agriculture, and vital statistics; and special reports, the insane and feeble-minded, deaf, dumb, and blind; crime, pauperism, and benevolence; deaths and births in registration areas, social statistics of cities, wealth, debt, and taxation; religious bodies, electric light and power, telephones and telegraphs, transportation by water, street railways, express companies, and mines and mining. To these were subsequently added annual statistics of cotton production. The series comprising the main reports of the Twelfth Census were by law ordered compiled and published by July 1, 1902, after which the special reports were to receive consideration. In accordance with this law, ten volumes of the main reports, comprising about 10,000 pages, were published within the period specified, and summaries of these reports will be found on other pages of THE WORLD ALMANAC.

Since July 1, 1902, the Bureau of the Census has been engaged in securing and tabulating statistics relating to the secondary reports, several of which have been completed or are now approaching completion. By act of Congress the President was empowered to instruct the Census Office to compile the census of the Philippine Islands. In compliance with the President's order the tabulation was made and the reports were published in four volumes. An edition in Spanish was also issued. Numerous minor assignments of statistical work have been made to the Bureau. It is likely, indeed, to become the main producer of, or clearing-house for, Federal statistics, as predicted during the discussion that preceded the establishment of the permanent office. Since the publication of the main reports of the Twelfth Census the Bureau has published the Abstract of the Twelfth Census, the Statistical Atlas of the United States, special reports on Employés and Wages, Occupations, Mines and Quarries, Street Railways, Benevolent Institutions, Electric Light and Power Stations, the Blind and the Deaf, Mortality, 1900 to 1904; Supplementary Analysis of the Twelfth Census; the Insane and Feeble-minded in Hospitals and Institutions; Paupers in Almshouses, Manufactures, 1905; Wealth, Debt, and Taxation; Prisoners, Women at Work; Mortality, 1905; and bulletins on Statistics of Cities, Valuation of Railway Operating Property, and Child Labor. It has also taken the census of Manufactures of 1905, and has issued bulletins giving the results for the United States and for the States and Territories, and for specified industries. During 1908 the Bureau will be occupied principally in completing the reports on Wages, Transportation by Water; Marriage and Divorce; Religious Bodies; Criminal Judicial Statistics; Express Companies, and the annual reports on Mortality and Cotton Production and Consumption.

The Director of the Census is appointed by the President of the United States, and receives a salary of \$6,000. The present Director is S. N. D. North, of Massachusetts. The office organization consists of chief clerk, William S. Rossiter; a disbursing and appointment clerk, Thomas S. Merrill; four chief statisticians; for population, William C. Hunt; for manufactures, William M. Steuart; for agriculture, Le Grand Powers, and for vital statistics, Cressy L. Wilbur; a geographer, Charles S. Sioane; and such administrative division chiefs as are required by the demands of the office. The entire number of employés in the Bureau on July 1, 1907, was 636. This number does not include special agents employed intermittently in the Southern States for the collection of cotton statistics,

## Washington's Farewell Address.

EXTRACTS FROM HIS ADDRESS COUNSELLING THE MAINTENANCE OF THE UNION,—CONFINEMENT OF THE GENERAL GOVERNMENT TO ITS CONSTITUTIONAL LIMITATIONS, AND AVOIDANCE OF RELATIONS WITH FOREIGN POLITICAL AFFAIRS.

(To the People of the United States on His Approaching Retirement from the Presidency.)

Here, perhaps, I ought to stop; but a solicitude for your welfare, which cannot end but with my life, and the apprehension of danger natural to that solicitude, urge me, on an occasion like the present, to offer to your solemn contemplation, and to recommend to your frequent review, some sentiments, which are the result of much reflection, of no inconsiderable observation, and which appear to me all important to the permanency of your felicity as a people. These will be afforded to you with the more freedom, as you can only see in them the disinterested warnings of a parting friend, who can possibly have no personal motive to bias his counsel; nor can I forget, as an encouragement to it, your indulgent reception of my sentiments on a former and not dissimilar occasion.

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment.

### PRESERVATION OF THE UNION.

The unity of government, which constitutes you one people, is also now dear to you. It is justly so; for it is a main pillar in the edifice of your real independence—the support of your tranquillity at home, your peace abroad, of your safety, of your prosperity, of that very liberty which you so highly prize. But as it is easy to foresee that, from different causes and from different quarters, much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth; as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed—it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can, in any event be abandoned; and indignantly frowning upon the first dawning of every attempt to alienate any portion of our country from the rest, or to enfeeble the sacred ties which now link together the various parts.

For this you have every inducement of sympathy and interest. Citizens by birth or choice, of a common country, that country has a right to concentrate your affections. The name of America, which belongs to you in your national capacity, must always exalt the just pride of patriotism, more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits, and political principles. You have, in a common cause, fought and triumphed together; the independence and liberty you possess are the work of joint counsels and joint efforts, of common dangers, sufferings, and successes.

### ENCROACHMENTS BY THE GOVERNMENT.

It is important, likewise, that the habits of thinking, in a free country, should inspire caution in those intrusted with its administration, to confine themselves within their respective constitutional spheres, avoiding, in the exercise of the powers of one department, to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power, and proneness to abuse it which predominates in the human heart, is sufficient to satisfy us of the truth of this position. The necessity of reciprocal checks in the exercise of political power, by dividing and distributing it into different depositories, and constituting each the guardian of the public weal, against invasions by the others, has been evinced by experiments, ancient and modern; some of them in our own country, and under our own eyes. To preserve them must be as necessary as to institute them. If, in the opinion of the people, the distribution or modification of the constitutional powers be, in any particular, wrong, let it be corrected by an amendment in the way which the Constitution designates. But let there be no change by usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance, in permanent evil, and partial or transient benefit which the use can, at any time, yield.

Observe good faith and justice toward all nations; cultivate peace and harmony with all; religion and morality enjoin this conduct; and can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and, at no distant period, a great nation, to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that, in the course of time and things, the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

### ENTANGLEMENTS WITH FOREIGN POWERS.

Against the insidious wiles of foreign influence (I conjure you to believe me, fellow-citizens) the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy to be useful, must be impartial; else it becomes the instrument of the very influence to be avoided, instead of a defense against it. Excessive partiality for one foreign nation, and excessive dislike for another, cause those whom they actuate to see danger only on one side, and serve to veil, and even second, the arts of influence on the other. Real patriots, who may resist the intrigues of the favorite, are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people, to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our com-

mercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop.

Europe has a set of primary interests, which to us have none, or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves, by artificial ties, in the ordinary vicissitudes of her politics, or the ordinary combinations and collisions of her friendships or enmities.

Our detached and distant situation invites and enables us to pursue a different course. If we remain one people under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon, to be scrupulously respected; when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war, as our interest, guided by justice, shall counsel.

#### PARTING COUNSELS.

In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope that they will make the strong and lasting impression I could wish; that they will control the usual current of the passions, or prevent our nation from running the course which has hitherto marked the destiny of nations; but if I may even flatter myself that they may be productive of some partial benefit, some occasional good; that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigues, to guard against the impostures of pretended patriotism; this hope will be full recompense for the solicitude for your welfare by which they have been dictated.

United States, September 17, 1796. GEORGE WASHINGTON.

### Lincoln's Gettysburg Speech.

(Address at the Dedication of Gettysburg Cemetery, November 19, 1863.)

FOURSCORE and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here have consecrated it far above our power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of devotion; that we here highly resolve that the dead shall not have died in vain; that the nation shall, under God, have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth.

### Impeachments in United States History.

THE Constitution of the United States, Article II., Section IV., provides that civil officers of the United States may be removed from office on impeachment and conviction of treason, bribery or other high crimes and misdemeanors: that the House of Representatives has the sole power of impeachment, and the Senate the sole power to try impeachments; that the Vice-President shall preside at impeachments except when the President is tried, when the Chief Justice of the Supreme Court shall preside; and that two-thirds of the members present must vote for conviction before a person impeached shall be deemed guilty. Only eight persons have been impeached and tried before the Senate, and only two of them have been convicted. The record is as follows:

William Blount, Senator from Tennessee; impeached July 7, 1797, for conspiring to wage war with Spain in favor of Great Britain, to excite the Cherokee Indians against Spain, and to create disaffection among the Indians toward the United States; trial December 17, 1798, to January 14, 1799; vote, 11 guilty, 14 not guilty; verdict, acquittal.

John Pickens, Judge of the District Court of the United States for the District of New Hampshire; impeached 1803 for drunkenness and disregard of the terms of the statutes; trial March 3 to March 12, 1803; vote, 19 guilty, 7 not guilty; verdict, guilty; punishment, removal from office.

Samuel Chase, Associate-Justice of the Supreme Court of the United States; impeached 1804 for misconduct at trials of persons charged with breach of the Sedition Law; trial Nov. 30, 1804, to March 1, 1805; vote, 9 guilty, 30 not guilty, and 15 guilty, 19 not guilty, on different counts; verdict, acquittal.

James Peck, Judge of the District Court of the United States for the District of Missouri; impeached for tyrannous treatment of counsel, 1830; trial May 11 to May 30, 1830, and from December 13, 1830, to January 31, 1831; vote, 22 guilty, 21 not guilty; verdict, acquittal.

West H. Humphreys, Judge of the District Court of the United States for the District of Tennessee, impeached 1862 for supporting the secession movement and unlawfully acting as Judge of the Confederate District Court, trial May 22 to June 26, 1862; vote, 32 guilty, 4 not guilty, and 38 guilty; verdict, guilty; punishment, removal from office.

Andrew Johnson, President of the United States, impeached for usurpation of the law, corrupt use of the veto power, interference at elections and high crimes and misdemeanors; trial, March 30 to May 26, 1868; vote, guilty, 35, not guilty, 19; verdict, acquittal.

William W. Belknap, Secretary of War of the United States, impeached for accepting bribes; trial April 8 to August 1, 1876; vote, guilty, 35, not guilty, 25; verdict, acquittal.

Charles Swayne, Judge of the District Court of the United States for the District of Florida; impeached 1905 for misconduct in office; tried February 6 to February 27, 1905; vote, 55 guilty, 37 not guilty; verdict, acquittal.

### Citizens' Industrial Association.

AN association of citizens embracing national, State and local associations throughout the United States. The declared purposes are: To assist, by all lawful and practical means, the properly constituted authorities of the State and Nation in maintaining and defending the supremacy of the law and the rights of the citizen. To assist all the people of America in resisting encroachments upon their constitutional rights. To promote and encourage harmonious relations between employers and their employes upon a basis of equal justice to both. To assist local, State, and national associations of manufacturers, employers, and employes in their efforts to establish and maintain industrial peace, and to create and direct a public sentiment in opposition to all forms of violence, coercion, and intimidation. C. W. Post, Battle Creek, Mich., President; James A. Emery, St. James Building, New York, Secretary.

### National Civic Federation.

AN organization of prominent representatives of capital, labor, and the general public formed as the direct outgrowth of conventions held in Chicago and New York in 1900-1901. Its purpose is to organize the best brains of the Nation in an educational movement toward the solution of some of the great problems related to social and industrial progress; to provide for study and discussion of questions of national import; to aid thus in the crystallization of the most enlightened public opinion; and, when desirable, to promote legislation in accordance therewith. At the present time the work of the Federation is carried on through the following agencies:

(1) The Public Ownership Commission composed of one hundred prominent men representing every shade of opinion on this subject. The investigation by this commission (1906) into the facts

(2) The Immigration Department composed of men selected to represent all localities in the Union affected by the admission of aliens.

(3) The Industrial Economic Department organized to promote discussion and to aid in the solution of practical economic and social problems such as "Wages, and the Cost of Living," the "Unemployment," "Opened and Closed Shop," "Restriction of Output," "Compulsory Arbitration," "Initiative and Referendum," "The Income Tax," the "Trusts," etc.

(4) The Conciliation Department dealing entirely with strikes, lockouts and trade agreements, and including in its membership representatives of the leading organizations of employers and wage-earners. The services of this department have been enlisted in more than five hundred cases involving every phase of industrial controversy.

(5) Welfare Department organized for the purpose of improving the conditions under which employes in all industries work and live. Some of the subjects included in the work of the Department are sanitary work places, emergency hospitals, lunch rooms, women's rest rooms, recreation, educational opportunities, and home for employes and industrial insurance.

(6) Primary Election and Ballot Reform organized to arouse and promote public interest in representative government in national, State and city politics. The officers of the Federation are:

August Belmont, President; Samuel Gompers, Nahum J. Bachelder, Ellison A. Smyth, Benjamin I. Wheeler, Vice-Presidents; Isaac N. Seligman, Treasurer; John Mitchell, Chairman Trade Agreement Committee; Melville E. Ingalls, Chairman Public Ownership Commission; Seth Low, Chairman Conciliation Committee; Nicholas Murray Butler, Chairman Industrial Economics Department; Franklin MacVeagh, Chairman Immigration Department; Charles A. Moore, Chairman Welfare Department; E. R. A. Seligman, Chairman Taxation Committee; Wm. H. Taft, Chairman Public Employes Welfare Committee; Ralph M. Eastey, Chairman Executive Council; Samuel B. Donnelly, Secretary. Office, 281 Fourth Avenue, New York City.

## Labor Legislation.

## BOYCOTTING, BLACKLISTING AND INTIMIDATION LAWS.

The States having laws prohibiting *boycotting* in terms are Alabama, Colorado, Illinois, Indiana, and Texas.

The States having laws prohibiting *blacklisting* in terms are Alabama, Arkansas, Colorado, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Montana, Nevada, North Dakota, Oklahoma, Oregon, Texas, Utah, Virginia, Washington, and Wisconsin.

A number of States have enacted laws concerning *intimidation*, conspiracy against workingmen, and interference with employment, viz.: Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, West Virginia, and Wisconsin.

In the following States it is unlawful for an employer to exact any agreement, either written or verbal, from an employé not to join or become a member of a labor organization, as a condition of employment: California, Colorado, Connecticut, Idaho, Indiana, Kansas, Massachusetts, Minnesota, Nevada, New Jersey, Ohio, Oregon, Pennsylvania, Porto Rico and Wisconsin.

## EIGHT-HOUR LAWS.

**Arizona.**—Eight hours constitute a day's labor in all underground mines and workings.

**Arkansas.**—Eight hours constitute a day's work on public highways and bridges.

**California.**—Unless otherwise expressly stipulated, eight hours constitute a day's work. The time of service of all laborers, workmen, and mechanics employed upon any public works of, or work done for, the State, or for any political sub-division thereof, whether the work is to be done by contract or otherwise, is limited and restricted to eight hours in any one calendar day.

**Colorado.**—A day's work for all workmen employed by the State, or any county, township, school district, municipality, or incorporated town, and for all employés in underground mines or workings, and in smelting and refining works, is restricted to eight hours.

**Connecticut.**—Eight hours of labor constitute a lawful day's work unless otherwise agreed.

**Delaware.**—Eight hours constitute a lawful day's work for all municipal employés of the city of Wilmington.

**District of Columbia.**—A day's work for all laborers and mechanics employed by the District of Columbia, or by any contractor or sub-contractor upon any public works of the District, is limited to eight hours.

**Hawaii.**—For all mechanics, clerks, laborers, and other employés on public works and in public offices eight hours of actual service constitute a day's work.

**Idaho.**—Eight hours' actual work constitute a lawful day's labor for manual laborers employed by the day on all State, county, and municipal works.

**Illinois.**—Eight hours are a legal day's work in all mechanical employments, except on farms, and when otherwise agreed; the law does not apply to service by the year, month, or week. Eight hours constitute a day's labor on the public highways.

**Indiana.**—Eight hours of labor constitute a legal day's work for all classes of mechanics, workmen, and laborers, excepting those engaged in agricultural and domestic labor. Overwork by agreement and for extra compensation is permitted.

**Iowa.**—Eight hours constitute a day's labor on the public roads.

**Kansas.**—Eight hours are a day's work for all laborers, mechanics, or other persons employed by or on behalf of the State or any county, city, township, or other municipality.

**Kentucky.**—Eight hours constitute a day's work on the public roads.

**Maryland.**—No mechanic or laborer employed by the Mayor or City Council of Baltimore, or by any agent or contractor under them, shall be required to work more than eight hours as a day's labor.

**Massachusetts.**—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics employed by or on behalf of the Commonwealth or any county therein, or of any city or town in the Commonwealth upon acceptance of the statute by a majority of voters present and voting upon the same at any general election.

**Minnesota.**—Eight hours constitute a day's labor for all laborers, workmen, or mechanics employed by or on behalf of the State, whether the work is done by contract or otherwise.

**Missouri.**—Eight hours constitute a legal day's work. The law does not prevent an agreement to work for a longer or a shorter time and does not apply to agricultural laborers. It is unlawful for employers to work their employés longer than eight hours per day in mines and smelters. Eight hours are a day's labor on highways.

**Montana.**—Eight hours constitute a legal day's work for persons engaged to operate or handle hoisting engines at mines. The law applies only to such plants as are in operation sixteen or more hours per day, or at or in mines where the engine develops fifteen or more horse-power, or where fifteen or more men are employed underground in the twenty-four hours. A day's labor on public works and in smelters and underground mines is limited to eight hours per day.

**Nebraska.**—Eight hours constitute a day's work on public roads and on all public works in cities of the first class.

**Nevada.**—For labor on public highways, in underground mines and in smelters, and on all works and undertakings carried on or aided by the State, county, or municipal governments, the hours of labor are fixed at eight per day.

**New Mexico.**—Eight hours constitute a day's labor on public roads and highways.

**New York.**—Eight hours constitute a day's work on highways, and on work done by or for the State, or a municipal corporation, whether directly by contractors or sub-contractors; also for all classes of employés, except in farm or domestic labor, though overwork for extra pay is permitted in private employments.

**Ohio.**—Eight hours shall constitute a day's work in all engagements to labor in any mechanical, manufacturing, or mining business, unless otherwise expressly stipulated in the contract.

**Oklahoma.**—Eight hours constitute a day's labor on public roads.

**Oregon.**—Eight hours constitute a day's labor on public roads.

## LABOR LEGISLATION—Continued.

**Pennsylvania.**—Eight hours of labor shall be deemed and held to be a legal day's work in all cases of labor and service by the day where there is no agreement or contract to the contrary. This does not apply to farm or agricultural labor or to service by the year, month, or week. Eight hours constitute a day's labor for all mechanics, workmen, and laborers in the employ of the State, or of any municipal corporation therein, or otherwise engaged on public works. This act shall be deemed to apply to employes of contractors.

**Porto Rico.**—No laborer may be compelled to work more than eight hours per day on public works.

**South Dakota.**—For labor on public highways a day's work is fixed at eight hours.

**Tennessee.**—Eight hours shall be a day's work on the highways.

**Texas.**—Eight hours constitute a day's work on the highways.

**Utah.**—Eight hours constitute a day's labor on all works carried on or aided by the State, county, or municipal governments, and in all underground mines or workings, and in smelters and all other establishments for the reduction of ores.

**Washington.**—Eight hours in any calendar day shall constitute a day's work on any work done for the State, or for any county or municipality.

**West Virginia.**—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics who may be employed by or on behalf of the State.

**Wisconsin.**—In all engagements to labor in any manufacturing or mechanical business, where there is no express contract to the contrary, a day's work shall consist of eight hours, but the law does not apply to contracts for labor by the week, month, or year. Eight hours constitute a day's labor on the public highways.

**Wyoming.**—Eight hours' actual work constitute a legal day's labor in all mines and on all State and municipal works.

**United States.**—A day's work for all laborers, workmen and mechanics who may be employed by the United States, or by any contractor or sub-contractor upon any of the public works of the United States, is limited to eight hours.

THE WORLD ALMANAC is indebted to Commissioner Charles P. Neill of the U. S. Bureau of Labor for this Summary of Labor Legislation revised to date.

## General Labor Organizations.

## AMERICAN FEDERATION OF LABOR.

PRESIDENT, Samuel Gompers, 423 G Street, N. W., Washington, D. C.; Secretary, Frank Morrison, same address; Treasurer, John B. Lennon, Bloomington, Ill.; First Vice-President, James Duncan, Hancock Building, Quincy, Mass.; Second Vice-President, John Mitchell, 1111 State Life Building, Indianapolis, Ind.; Third Vice-President, James O'Connell, 402 McGill Building, Washington, D. C.; Fourth Vice-President, Max Morris, P. O. Box 1581, Denver, Col.; Fifth Vice-President, D. A. Hayes, 930 Witherspoon Building, Philadelphia, Pa.; Sixth Vice-President, Daniel J. Keefe, 407 Elks Temple Building, Detroit, Mich.; Seventh Vice-President, William D. Huber, State Life Building, Indianapolis, Ind.; Eighth Vice-President, Joseph F. Valentine, Commercial Tribune Building, Cincinnati, Ohio.

The Federation is composed of 117 national and international unions, representing approximately 27,000 local unions, 37 State branches, 570 city central unions, and 669 local unions. The approximate membership is 2,000,000. The affiliated unions publish about 245 weekly or monthly papers, devoted to the cause of labor. The official organ is the *American Federationist*, edited by Samuel Gompers. There are 926 organizers of local unions acting under the orders of the American Federation of Labor. The objects and aims of the American Federation of Labor are officially stated to render employment and means of subsistence less precarious by securing to the workers an equitable share of the fruits of their labor.

## INTERNATIONAL UNIONS COMPRISING THE AMERICAN FEDERATION OF LABOR.

Actors' National Protective Union of America. Lew Morton, 8 Union Square, New York, N. Y.  
 Asbestos Workers of America, National Association of Heat, Frost, and General Insulators. P. G. Jensen, South Garrison Avenue, St. Louis, Mo.  
 Bakery and Confectionery Workers' International Union of America. F. H. Harzbecker, Metropolitan Block, Room 45, 161-163 Randolph Street, Chicago, Ill.  
 Barbers' International Union, Journeymen. Jacob Fischer, Box 517, Indianapolis, Ind.  
 Bill Posters and Billers of America, National Alliance. W. J. Murray, Box 74, Tappan, N. Y.  
 Blacksmiths, International Brotherhood of. George J. Werner, Suite 570-585 Monon Building, Chicago, Ill.  
 Boiler-Makers and Iron Shipbuilders of America, Brotherhood of. W. J. Gilthorpe, Room 314, Portsmouth Building, Kansas City, Kan.  
 Bookbinders, International Brotherhood of. James W. Dougherty, Room 210, 132 Nassau Street, New York, N. Y.

J.; John Fernau, Pittsburgh, Pa.; J. Frank O'Meara, Washington, D. C.; Joseph R. Morrison, Watervliet, N. Y.

## Registration of Trade-Marks

## IN THE UNITED STATES.

THE following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and to protect the same," passed by the Fifty-eighth Congress, and approved by the President, February 20, 1905, and amended by Act passed by the Fifty-ninth Congress, approved March 2, 1907.

"The owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a description of the trade-mark itself, and a statement of the mode in which the same is applied and affixed to goods, and the length of time during which the trade-mark has been used. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this Act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payment of the renewal fees required by this Act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this Act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this Act, and when so renewed shall have the same force and effect as certificates issued under this Act.

"The registration of a trade-mark under the provisions of this Act shall be prima facie evidence of ownership who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof, and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

"No trade-mark shall be granted which "consists of or comprises the flag or coat of arms or other insignia of the United States or any simulation thereof, or of any State or municipality, or of any foreign nation, nor which is identical with or nearly resembling a trade-mark already registered." "No portrait of a living individual may be registered as a trade-mark except by the consent of such individual, evidenced by an instrument in writing."

## TRADE-MARK TREATIES WITH FOREIGN NATIONS.

The following is a list of the Governments with which conventions for the reciprocal registration and protection of trade-marks have been entered into by the United States: Austria-Hungary, Belgium, Denmark, France, Germany, Great Britain (including colonies), Italy, Japan, Luxemburg, Russia, Servia, Spain. The laws of Switzerland and the Netherlands being so framed as to afford reciprocal privileges to the citizens or subjects of any Government which affords similar privileges to the people of those countries, the mere exchange of diplomatic notes, giving notice of the fact, accomplishes all the purposes of a formal convention.

## Acts of the Fifty-ninth Congress.

### SECOND SESSION.

THE principal bills of a public nature which became laws during the second session of the Fifty-ninth Congress, beginning December 3, 1906, and ending March 4, 1907 (the list of principal laws of the first session having been printed in THE WORLD ALMANAC for 1907, page 176), were:

Chapter 154. An act for the relief of the citizens of the Island of Jamaica. This act ordered the distribution of clothing, provisions, medicines and other naval stores among the sufferers by the earthquake. [January 18, 1907.]

Chapter 397. An act to reorganize and increase the efficiency of the artillery of the United States Army. The act reorganized and enlarged the artillery, the field batteries were combined in six regiments, and the coast batteries in a corps. [January 25, 1907.]

Chapter 420. An act to prohibit corporations from making money contributions in connection with political elections. [January 26, 1907.]

Chapter 432. An act to authorize the Secretary of Commerce and Labor to investigate and report upon the industrial, social, moral, educational and physical condition of women and child workers in the United States. [January 29, 1907.]

Chapter 436. An act to incorporate the International Sunday School Associations of America. [January 31, 1907.]

Chapter 468. An act granting pensions to certain enlisted men, soldiers and officers who served in the civil war and war with Mexico. A general service pension granted to all persons in the military or naval service of the United States in these wars who are sixty-two years old and over. [February 6, 1907.]

Chapter 1134. An act to regulate the immigration of aliens into the United States. A summary of this act will be found on page 184. [February 20, 1907.]

Chapter 1189. An act to provide for the appointment of an additional district judge in and for the Southern District of the State of Ohio. [February 25, 1907.]

Chapter 1198. An act providing for a United States Judge for the Northern judicial district of Alabama. [February 25, 1907.]

Chapter 2073. An act to divide the judicial district of Nebraska into divisions, and to provide for an additional judge in said district. [February 27, 1907.]

Chapter 2279. An act authorizing the construction of four steam vessels for the Revenue Cutter service of the United States. [March 1, 1907.]

Chapter 2284. An act to amend an act providing for the public printing and binding and distribution of public documents. In this act the new simplified spelling in public documents was stopped. [March 1, 1907.]

Chapter 2534. An act in reference to the expatriation of citizens and their protection abroad. This act will be found on following page. [March 2, 1907.]

Chapter 2558. An act to establish the Foundation for the Promotion of Industrial Peace. This act will be found on another page. [March 2, 1907.]

Chapter 2561. An act making certain changes in the Postal laws. Permitting ordinary stamps to be used for special delivery matter when the words "special delivery" or their equivalent are written or printed on the envelope. [March 2, 1907.]

Chapter 2564. An act for writs of error in certain instances in criminal cases, giving the Government the right of appeal in criminal cases. [March 2, 1907.]

Chapter 2571. An act to amend an act entitled; "An act for the withdrawal from bond, tax free, of domestic alcohol when rendered unfit for beverage or liquid medicinal uses by mixture with suitable denaturing materials." approved June 7, 1906. This act extends to farmers certain advantages in manufacturing denatured alcohol. [March 2, 1907.]

Chapter 2573. An act to amend an act entitled. "An act to authorize the registration of trademarks used in commerce with foreign nations or among the several States, etc." [March 2, 1907.]

Chapter 2575. An act to provide for an additional district judge for the Northern district of California. [March 2, 1907.]

Chapter 2909. An act to provide for the establishment of an agricultural bank in the Philippine Islands. [March 4, 1907.]

Chapter 2913. An act to amend the National Banking Act and for other purposes. The act authorized deposits of customs receipts in National Banks, adding elasticity to currency and increasing the supply of small bills. [March 4, 1907.]

Chapter 2932. An act to provide a suitable memorial to the memory of Christopher Columbus. An appropriation of \$100,000 was made to erect this memorial in the City of Washington. A commission was appointed to carry out the provisions of the act, consisting of the Chairmen of the Congress Library Committees, the Secretaries of State and War, and the Supreme Knight of the Order of the Knights of Columbus. [March 7, 1907.]

Chapter 2939. An act to promote the safety of employes and travellers upon railroads by limiting the hours of service to employes thereon. Making it unlawful for any common carrier to require employes to be continuously on duty over sixteen hours. [March 4, 1907.]

Joint resolution authorizing the President to extend an invitation to the Twelfth International Congress of Hygiene and Demography, to hold its thirteenth Congress in the City of Washington. [February 26, 1907.]

In Chapter 892 relating to the Steamboat Inspection service, useless and unnecessary whistling by steamboats is prohibited.

In Chapter 916, making appropriations for the diplomatic and consular service, the salaries of all ministers abroad, formerly \$7,500, are raised to \$10,000 per annum.

In Chapter 1635, making appropriations for legislature, executive and judicial expenses, the salaries of the Vice-President, Cabinet Officers and Speaker of the House of Representatives are increased from \$8,000 to \$12,000 per annum and those of Senators and Representatives in Congress from \$5,000 to \$7,500 per annum.

In Chapter 2511, making appropriations for the army, the rank of Lieutenant-General is abolished after the next vacancy in said rank shall occur, and the rank of Adjutant-General of the army is restored and substituted for that of Military Secretary.

In Chapter 2907 making appropriations for the Department of Agriculture, the meat inspection law of 1906, is reaffirmed.

Two new 20,000-ton battleships and additional destroyers and sub-marines were authorized, and the rank of Major-General was bestowed on the Commandant of the Marine Corps.

Treaties with San Domingo and Morocco were ratified.

#### BOTH SESSIONS.

During the two sessions of the Fifty-ninth Congress the President vetoed thirteen acts; four changing jurisdiction of courts, three Indian bills, two private-pension bills on account of death of beneficiaries, a third because beneficiary was merely a camp follower not entitled to the benefits; another which was to pay pension which was clearly excessive; one to give to a claimant an island in the Mississippi on which there is a lighthouse necessary for navigation, and a bill allowing dangerous explosives on passenger vessels.

Five hundred and twenty-two public laws were enacted altogether, of which one hundred and nine authorized bridges and dams across navigable rivers, and eighty-three were for the government of the District of Columbia.

There were 6,627 invalid pension acts, 1,062 private pension acts.

Bills introduced: House, 25,910; Senate, 8,655. Number of pages of Congressional Record, more than 17,000; a new record.

#### MATTERS LEFT OVER TO THE SIXTIETH CONGRESS.

Tariff readjustment, Isle of Pines treaty, ship subsidies, publicity of campaign affairs, citizenship for Porto Ricans, Reduction of tariff on products of Philippines, United States Ownership of its embassies and legations, government powder factory, waterways improvements costing \$400,000,000 recommended by army engineers, copyright revision, restriction of interstate commerce in convict-made goods, regulation of punishments on high seas, codification of revised statutes, navy personnel, removal of customs duties on works of art, incorporation of the Indian wards of the nation, swamp reclamation similar to irrigation statute, coal and mineral lands to be reserved and leased, cable to Guantanamo and Canal Zone, punishment for improper use of the Stars and Stripes, regulation of the interstate traffic in intoxicants, child labor products, prohibition from interstate commerce, anti-injunction statute, modification of Chinese Exclusion law, army and navy dental surgeons' corps, retirement of superannuated Federal clerks, postal savings banks, domestic parcels post, restoration of army canteen.

### The Citizens' Expatriation Act.

The following is chapter 2534, entitled an act in reference to the expatriation of citizens and their protection abroad enacted by the Fifty-ninth Congress, second session, and approved March 2, 1907:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of State shall be authorized, in his discretion, to issue passports to persons not citizens of the United States, as follows: Where any person has made a declaration of intention to become such a citizen as provided by law and has resided in the United States for three years a passport may be issued to him entitling him to the protection of the Government in any foreign country: Provided, That such passport shall not be valid for more than six months and shall not be renewed, and that such passport shall not entitle the holder to the protection of this Government in the country of which he was a citizen prior to making such declaration of intention.

SECTION 2. That any American citizen shall be deemed to have expatriated himself when he has been naturalized in any foreign State in conformity with its laws, or when he has taken an oath of allegiance to any foreign State.

When any naturalized citizen shall have resided for two years in the foreign State from which he came, or for five years in any other foreign State it shall be presumed that he has ceased to be an American citizen, and the place of his general abode shall be deemed his place of residence during said years: Provided, however, That such presumption may be overcome on the presentation of satisfactory evidence to a diplomatic or consular officer of the United States, under such rules and regulations as the Department of State may prescribe: And provided also, That no American citizen shall be allowed to expatriate himself when this country is at war.

SECTION 3. That any American woman that marries a foreigner shall take the nationality of her husband. At the termination of the marital relation she may resume her American citizenship, if abroad, by registering as an American citizen within one year with a consul of the United States, or by returning to reside in the United States, or, if residing in the United States at the termination of the marital relation, by continuing to reside therein.

SECTION 4. That any foreign woman who acquires American citizenship by marriage to an American shall be assumed to retain the same after the termination of the marital relation if she continue to reside in the United States, unless she makes formal renunciation thereof before a court having jurisdiction to naturalize aliens, or if she resides abroad she may retain her citizenship by registering as such before a United States Consul within one year after the termination of such marital relation.

SECTION 5. That a child born without the United States of alien parents shall be deemed a citizen of the United States by virtue of the naturalization of or resumption of American citizenship by the parent: Provided, That such naturalization or resumption takes place during the minority of such child: And provided further, That the citizenship of such minor child shall begin at the time such minor child begins to reside permanently in the United States.

SECTION 6. That all children born outside the limits of the United States who are citizens thereof in accordance with the provisions of section nineteen hundred and ninety-three of the Revised Statutes of the United States and who continue to reside outside the United States shall, in order to receive the protection of this Government, be required upon reaching the age of eighteen years to record at an American consulate their intention to become residents and remain citizens of the United States and shall be further required to take the oath of allegiance to the United States upon attaining their majority.

SECTION 7. That duplicates of any evidence, registration, or other acts required by this act shall be filed with the Department of State for record.

**The New Immigration Law.**

Chapter 1134 of the Act of the Fifty-ninth Congress, second session, "An Act to regulate the immigration of aliens into the United States," approved February 20, 1907, provides as follows:

There shall be levied, collected and paid a tax of four dollars for every alien entering the United States. This tax shall be paid to the Collector of Customs of the port or customs district to which said alien shall come, and be paid into and constitute a permanent fund, to be called the "immigration fund," to be used under the direction of the Secretary of Commerce and Labor to defray the expenses of the immigration law. The tax is a lien upon the vessel bringing the aliens. It shall not be levied upon aliens who shall enter the United States after an uninterrupted residence of at least one year immediately preceding such entrance in Canada, Newfoundland, Cuba or Mexico, nor upon other admissible residents of any possessions of the United States, nor upon aliens in transit through them. The provisions of this section shall not apply to Guam, Porto Rico or Hawaii.

**PERSONS EXCLUDED FROM ADMISSION.**

Section 2 of the Act provides "That the following classes of aliens shall be excluded from admission into the United States: All idiots, imbeciles, feeble-minded persons, epileptics, insane persons, and persons who have been insane within five years previous; persons who have had two or more attacks of insanity at any time previously; paupers; persons likely to become a public charge; professional beggars; persons afflicted with tuberculosis or with a loathsome or dangerous contagious disease; persons not comprehended within any of the foregoing excluded classes who are found to be and are certified by the examining surgeon as being mentally or physically defective, such mental or physical defect being of a nature which may affect the ability of such alien to earn a living; persons who have been convicted of or admit having committed a felony or other crime or misdemeanor involving moral turpitude; polygamists, or persons who admit their belief in the practice of polygamy, anarchists, or persons who believe in or advocate the overthrow by force or violence of the Government of the United States, or of all government, or of all forms of law, or the assassination of public officials; prostitutes, or women or girls coming into the United States for the purpose of prostitution or for any other immoral purpose; persons who procure or attempt to bring in prostitutes or women or girls for the purpose of prostitution, or for any other immoral purpose; persons hereinafter called contract laborers, who have been induced or solicited to migrate to this country by offers or promises of employment or in consequence of agreements, oral, written or printed, express or implied, to perform labor in this country of any kind, skilled or unskilled; those who have been, within one year from the date of application for admission to the United States, deported as having been induced or solicited to migrate as above described; any person whose ticket or passage is paid for with the money of another, or who is assisted by others to come unless it is affirmatively and satisfactorily shown that such person does not belong to one of the foregoing excluded classes, and that said ticket or passage was not paid for by any corporation, association, society, municipality, or foreign government, either directly or indirectly; all children under sixteen years of age, unaccompanied by one or both of their parents, at the discretion of the Secretary of Commerce and Labor or under such regulations as he may from time to time prescribe: Provided, That nothing in this Act shall exclude, if otherwise admissible, persons convicted of an offence purely political, not involving moral turpitude: Provided further, That the provisions of this section relating to the payments for tickets or passage by any corporation, association, society, municipality, or foreign government shall not apply to the tickets or passage of aliens in immediate and continuous transit through the United States to foreign contiguous territory: And provided further, That skilled labor may be imported if labor of like kind unemployed can not be found in this country: And provided further, That the provisions of this law applicable to contract labor shall not be held to exclude professional actors, artists, lecturers, singers, ministers of any religious denomination, professors for colleges or seminaries, persons belonging to any recognized learned profession, or persons employed strictly as personal or domestic servants."

The importation of any alien woman or girl for immoral purposes is forbidden, and any alien woman or girl who shall be found an inmate of a house of prostitution at any time within three years after she shall have entered the United States shall be deemed to be unlawfully therein, and shall be deported.

**CONTRACT LABORERS FORBIDDEN.**

Section 4 provides that it shall be a misdemeanor for any person or company to prepay the transportation or in any way to assist or encourage the importation or migration of any contract laborers unless such persons be exempted from this provision under Section 2 of this Act. The penalty for violation of this provision is \$1,000 for each offence.

Advertising abroad for labor immigration is a misdemeanor, but the offers of States and Territories for immigrants by advertising is permitted. Soliciting immigration by vessel-owners is forbidden.

Any person who shall bring an alien into the United States not duly admitted by an immigrant inspector shall, on conviction, be punished by a fine not exceeding \$1,000, or by imprisonment, not exceeding two years, or both.

**LISTS OF ALIEN PASSENGERS REQUIRED.**

Upon the arrival of any vessel bringing aliens. It is the duty of the commanding officer to deliver to the immigration officials lists of the alien passengers on board, in groups of thirty names each, which lists shall contain full information regarding said passengers, according to prescribed forms: Whether in possession of \$50, and if less, how much; whether ever in prison, insane or supported by charity; whether deformed or crippled; whether an anarchist, etc.

The surgeon of said vessel shall also sign said lists and state that he has made a personal examination of the aliens named therein. The penalty for neglect or violation of this

provision by the commanding officer of said vessel shall be \$10 for each alien concerning whom the information is not given.

#### OFFICIAL INSPECTION OF IMMIGRANTS.

On the receipt of the above mentioned lists by the immigration officers it shall be their duty to inspect all such aliens, and they may order their temporary removal for examination to a designated place, if deemed necessary.

Section 17 provides that "the physical and mental examination of all arriving aliens shall be made by medical officers of the United States Public Health and Marine Hospital Service, who shall have had at least two years' experience in the practice of their profession, since receiving the degree of doctor of medicine, and who shall certify for the, information of the immigration officers, and the boards of special inquiry hereinafter provided for, any and all physical and mental defects or diseases observed by said medical officers in any such alien, or, should medical officers of the United States Public Health or Marine Hospital Service be not available, civil surgeons of not less than four years' professional experience may be employed in such emergency for such service, upon such terms as may be prescribed by the Commissioner-General of Immigration under the direction or with the approval of the Secretary of Commerce and Labor. The United States Public Health and Marine Hospital Service shall be reimbursed by the immigration service for all expenditures incurred in carrying out the medical inspection of aliens under regulations of the Secretary of Commerce and Labor."

Section 18. That it shall be the duty of the owners, officers, or agents of any vessel or transportation line, other than those railway lines which may enter into a contract as provided in Section 32 of this Act, bringing an alien to the United States to prevent the landing of such alien in the United States at any time or place other than as designated by the immigration officers, and the negligent failure of any such owner, officer, or agent to comply with the foregoing requirements shall be deemed a misdemeanor and be punished by a fine in each case of not less than \$100 nor more than \$1,000, or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment; and every such alien so landed shall be deemed to be unlawfully in the United States, and shall be deported as provided in Sections 20 and 21 of this Act.

Section 19 provides "That all aliens brought to this country in violation of law shall, if practicable, be immediately sent back to the country whence they respectively came on the vessels bringing them. The cost of their maintenance while on land, as well as the expense of the return of such aliens, shall be borne by the owner or owners of the vessels on which they respectively came; and if any master, person in charge, agent, owner, or consignee of any such vessel shall refuse to receive back on board thereof, or on board of any other vessel owned or operated by the same interests, such aliens, or shall fail to detain them thereon, or shall refuse or fail to return them to the foreign port from which they came, or to pay the cost of their maintenance while on land, or shall make any charge for the return of any such alien, or shall take any security from him for the payment of such charge, such master, person in charge, agent, owner, or consignee shall be deemed guilty of a misdemeanor and shall, on conviction, be punished by a fine of not less than \$500 for each and every such offence; and no vessel shall have clearance from any port of the United States while any such fine is unpaid. Provided, That the Commissioner-General of Immigration, with the approval of the Secretary of Commerce and Labor, may suspend, upon conditions to be prescribed by the Commissioner-General of Immigration, the deportation of any alien found to have come in violation of any provision of this Act, if, in his judgment, the testimony of such alien is necessary on behalf of the United States Government in the prosecution of offenders against any provision of this Act: Provided, That the cost of maintenance of any person so detained resulting from such suspension of deportation shall be paid from the 'immigrant fund,' but no alien certified, as provided in Section 17 of this Act, to be suffering from tuberculosis or from a loathsome or dangerous contagious disease other than one of quarantinable nature, shall be permitted to land for medical treatment thereof in any hospital in the United States, unless with the express permission of the Secretary of Commerce and Labor: Provided, That upon the certificate of a medical officer of the United States Public Health and Marine Hospital Service to the effect that the health or safety of an insane alien would be unduly imperilled by immediate deportation, such alien may, at the expense of the 'immigrant fund,' be held for treatment until such time as such alien may, in the opinion of such medical officer, be safely deported."

#### DEPORTATION.

Any alien who shall enter the United States in violation of law and become a public charge from causes existing prior to landing, shall be deported to the country whence he came at any time within three years from the date of his entry.

The Commissioner-General of Immigration, in addition to his other duties, shall have, under the direction of the Secretary of Commerce and Labor, charge of all laws relating to the immigration of aliens into the United States.

Immigration officers shall have power to administer oaths and to take and consider evidence touching the right of any alien to enter the United States, and, where such action may be necessary, to make a written record of such evidence.

#### SPECIAL BOARDS OF INQUIRY.

Section 25 provides that such boards of special inquiry shall be appointed by the Commissioner of Immigration at the various ports of arrival as may be necessary for the prompt determination of all cases of immigrants detained at such ports under the provisions of law. Each board shall consist of three members, who shall be selected from such of the immigrant officials in the service as the Commissioner-General of Immigration, with the approval of the Secretary of Commerce and Labor, shall from time to time designate as qualified to serve on such boards: Provided, That at ports where there are fewer than three immigrant inspectors, the Secretary of Commerce and Labor, upon the recommendation of the Commissioner-General of Immigration, may designate other United States officials for service on such boards of special inquiry. Such boards shall have authority

to determine whether an alien who has been duly held shall be allowed to land or shall be deported. All hearings before boards shall be separate and apart from the public, but the said boards shall keep a complete permanent record of their proceedings and of all such testimony as may be produced before them; and the decision of any two members of a board shall prevail, but either the alien or any dissenting member of the said board may appeal through the Commissioner of Immigration at the port of arrival, and the Commissioner-General of Immigration to the Secretary of Commerce and Labor, and the taking of such appeal shall operate to stay any action in regard to the final disposal of any alien whose case is so appealed until the receipt by the Commissioner of Immigration at the port of arrival of such decision which shall be rendered solely upon the evidence adduced before the board of special inquiry: Provided, That in every case where an alien is excluded from admission into the United States, under any law or treaty now existing, or hereafter made, the decision of the appropriate immigration officers, if adverse to the admission of such alien, shall be final, unless reversed on appeal to the Secretary of Commerce and Labor; but nothing in this section shall be construed to admit of any appeal in the case of an alien rejected as provided for in Section 10 of this Act."

Any alien liable to be excluded because likely to become a public charge, or because of physical disability, may, nevertheless, be admitted in the discretion of the Secretary of Commerce and Labor on giving a suitable bond that he or she will not become a public charge.

The Commissioner-General of Immigration shall prescribe rules for the entry and inspection of aliens along the borders of Canada and Mexico.

#### JOINT COMMISSION ON IMMIGRATION CREATED.

Section 39 provides that "a commission is hereby created, consisting of three Senators, to be appointed by the President of the Senate, and three members of the House of Representatives, to be appointed by the Speaker of the House of Representatives, and three persons, to be appointed by the President of the United States. Said commission shall make full inquiry, examination and investigation by sub-committee or otherwise into the subject of immigration. For the purpose of said inquiry, examination and investigation, said commission is authorized to send for persons and papers, make all necessary travel, either in the United States or any foreign country, and, through the chairman of the commission or any member thereof to administer oaths and to examine witnesses and papers respecting all matters pertaining to the subject, and to employ necessary clerical and other assistance. Said commission shall report to the Congress the conclusions reached by it and make such recommendations as in its judgment may seem proper. Such sums of money as may be necessary for the said inquiry, examination and investigation are hereby appropriated and authorized to be paid out of the 'immigration fund' on the certificate of the chairman of said commission, including all expenses of the commissioners and a reasonable compensation, to be fixed by the President of the United States, for those members of the commission who are not members of Congress; and the President of the United States is also authorized, in the name of the Government of the United States, to call, in his discretion, an international conference, to assemble at such point as may be agreed upon, or to send special commissioners to any foreign country, for the purpose of regulating by international agreement, subject to the advice and consent of the Senate of the United States, the immigration of aliens to the United States; of providing for the mental, moral and physical examination of such aliens by American consuls or other officers of the United States Government at the ports of embarkation, or elsewhere; of securing the assistance of foreign governments in their own territories to prevent the evasion of the laws of the United States governing immigration to the United States; of entering into such international agreements as may be proper to prevent the immigration of aliens who, under the laws of the United States, are or may be excluded from entering the United States, and of regulating any matters pertaining to such immigration."

#### INFORMATION FOR IMMIGRANTS.

By Section 40 "authority is hereby given the Commissioner-General of Immigration to establish, under the direction and control of the Secretary of Commerce and Labor, a division of information in the Bureau of Immigration and Naturalization; and the Secretary of Commerce and Labor shall provide such clerical assistance as may be necessary. It shall be the duty of said division to promote a beneficial distribution of aliens admitted into the United States among the several States and Territories desiring immigration. Correspondence shall be had with the proper officials of the States and Territories, and said division shall gather from all available sources useful information regarding the resources, products, and physical characteristics of each State and Territory, and shall publish such information in different languages and distribute the publications among all admitted aliens who may ask for such information at the immigrant stations of the United States, and to such other persons as may desire the same. When any State or Territory appoints and maintains an agent or agents to represent it at any of the immigrant stations of the United States, such agents shall, under regulations prescribed by the Commissioner-General of Immigration, subject to the approval of the Secretary of Commerce and Labor, have access to aliens who have been admitted to the United States for the purpose of presenting, either orally or in writing, the special inducements offered by such State or Territory to aliens to settle therein. While on duty at any immigrant station such agents shall be subject to all the regulations prescribed by the Commissioner-General of Immigration, who, with the approval of the Secretary of Commerce and Labor, may, for violation of any such regulations, deny to the agent guilty of such violation any of the privileges herein granted."

Nothing in this Act shall be construed to apply to accredited officials of foreign governments, nor to their suites, families or guests.

Section 42 provides for the proper accommodation of immigrant passengers in vessels, carrying them to the United States. These regulations are quite minute and rigid.

The Act took effect July 1, 1907.

## The National Pure Food Law.

The Pure Food Act, approved June 30, 1906, is entitled "An Act for preventing the manufacture, sale, or transportation of adulterated or misbranded or poisonous or deleterious foods, drugs, medicines and liquors, and for regulating traffic therein, and for other purposes." It took effect by its terms on January 1, 1907.

Under Section 3 of the Act the secretaries of the Departments of the Treasury, Agriculture, and Commerce and Labor are required to make uniform rules for carrying out the provision of the Act. The administration of the law has therefore been placed under the charge of a Commission appointed by these three departments. The Treasury Department is represented by James L. Gerry, the Department of Agriculture by Dr. Harvey W. Wiley, and the Department of Commerce and Labor by S. N. D. North, Director of the Census. Dr. Wiley is chairman. The Commission met and organized in the City of New York September 17, 1906, and proceeded to prepare rules and regulations for carrying out the provisions of the Act.

The first section of the Act makes it unlawful for any person to manufacture within the District of Columbia or any Territory, any article of food or drug which is adulterated or misbranded, under a penalty not to exceed \$500, or one year's imprisonment, or both, at the discretion of the court for the first offence, and not to exceed \$1,000 and one year's imprisonment, or both, for each subsequent offence.

Section 2 of the Act makes it applicable to food or drugs introduced into any State from any other State, and from or to any foreign country.

The sections descriptive of the articles which come within the scope of the Act are as follows:

"Sec. 6. The term 'drug,' as used in this Act, shall include all medicines and preparations, recognized in the United States Pharmacopoeia or National Formulary for internal or external use, any substance or mixture of substances intended to be used for the cure, mitigation or prevention of disease of either man or other animals. The term 'food,' as used herein, shall include all articles used for food, drink, confectionery or condiment by man or other animals, whether simple, mixed or compound.

"Sec. 7. For the purposes of this Act an article shall be deemed to be adulterated:"

In case of drugs:

"First. If, when a drug is sold under or by a name recognized in the United States Pharmacopoeia or National Formulary, it differs from the standard of strength, quality or purity, as determined by the test laid down in the United States Pharmacopoeia or National Formulary official at the time of investigation: Provided, That no drug defined in the United States Pharmacopoeia or National Formulary shall be deemed to be adulterated under this provision of the standard of strength, quality or purity be plainly stated upon the bottle, box or other container thereof, although the standard may differ from that determined by the test laid down in the United States Pharmacopoeia or National Formulary.

"Second. If this strength or purity fall below the professed standard or quality under which it is sold."

In the case of confectionery:

"If it contain terra alba, barytes, talc, chrome yellow, or other mineral substance or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt or spirituous liquor or compound or narcotic drug."

In the case of food:

"First. If any substance has been mixed and packed with it so as to reduce, or lower, or injuriously affect its quality or strength.

"Second. If any substance has been substituted wholly or in part for the article.

"Third. If any valuable constituent of the article has been wholly or in part extracted.

"Fourth. If it be mixed, colored, powdered, coated, or stained in a manner whereby damage or inferiority is concealed.

"Fifth. If it contain any added poisonous or other added deleterious ingredient which may render such article injurious to health: Provided, That when in the preparation of food products for shipment they are preserved by any external application applied in such manner that the preservative is necessarily removed mechanically, or by maceration in water, or otherwise, and directions for the removal of said preservatives shall be printed on the covering of the package, the provisions of this Act shall be construed as applying only when said products are ready for consumption.

"Sixth. If it consists in whole or in part of a filthy, decomposed, or putrid animal or vegetable substance, or any portion of an animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter.

"Sec. 8. The term 'misbranded,' used herein, shall apply to all drugs, or articles, or food, or articles which enter into the composition of food, the package or label of which shall bear any statement, design, or device regarding such article, or the ingredients or substances contained therein which shall be false or misleading in any particular, and to any food or drug product which is falsely branded as to the State, Territory, or country in which it is manufactured or produced.

"That for the purposes of this Act, an article shall also be deemed to be misbranded."

In case of drugs:

"First. If it be an imitation of or offered for sale under the name of another article.

"Second. If the contents of the package as originally put up shall have been removed, in whole or in part, and other contents shall have been placed in such package, or if the package fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate or acetanilide, or any derivative or preparation of any such substances contained therein."

In case of food:

"First. If it be an imitation of or offered for sale under the distinctive name of another article.

"Second. If it be labelled or branded so as to deceive or mislead the purchaser, or purport to be a foreign product when not so, or if the contents of the package as originally put

## THE NATIONAL PURE FOOD LAW—Continued.

up shall have been removed in whole or in part and other contents shall have been placed in such package, or if it fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilide, or any derivative or preparation of any such substance contained therein.

"Third. If in package form, and the contents are stated in terms of weight or measure, they are not plainly or correctly stated on the outside of the package.

"Fourth. If the package containing it or its label shall bear any statement, design or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading, in any particular: Provided, That an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases:

"First. In the case of mixtures or compounds which may be now or from time to time hereafter known as articles of food, under their own distinctive names, and not an imitation of or offered for sale under their own distinctive names, and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where said article has been manufactured or produced.

"Second. In the case of articles labelled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends, and the word 'compound,' 'imitation' or 'blend,' as the case may be, is plainly stated on the package in which it is offered for sale: Provided, That the term blend as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only: And provided further, That nothing in this Act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this Act may require to secure freedom from adulteration or misbranding.

"Sec. 9. No dealer shall be prosecuted under the provisions of this Act, when he can establish a guaranty signed by the wholesaler, jobber, manufacturer or other party residing in the United States, from whom he purchases such articles, to the effect that the same is not adulterated or misbranded within the meaning of this Act, designating it."

The remaining provisions of the Act provide the methods of prosecuting offenders and destroying goods imported or offered for import which are adulterated or falsely labelled.

**The National Meat Inspection Law.**

In the Act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1907, approved June 30, 1906 (confirmed by Act of March 4, 1907), appear the following provisions regulating the inspection of meat foods either in the hoof or carcass or in canning and packing establishments:

"For the purpose of preventing the use in interstate or foreign commerce, as hereinafter provided, of meat and meat food products which are unsound, unhealthful, unwholesome or otherwise unfit for human food, the Secretary of Agriculture, at his discretion, may cause to be made, by inspectors appointed for that purpose, an examination and inspection of all cattle, sheep, swine, and goats, before they shall be allowed to enter into any slaughtering, packing, meat-canning, rendering, or similar establishments in which they are to be slaughtered, and the meat and meat food products thereof are to be used in interstate or foreign commerce; and all cattle, swine, sheep, and goats found on such inspection to show symptoms of disease shall be set apart and slaughtered separately from all other cattle, sheep, swine, or goats, and when so slaughtered the carcasses of said cattle, sheep, swine, or goats, shall be subject to a careful examination and inspection, all as provided by the rules and regulations to be prescribed by the Secretary of Agriculture as herein provided for.

"For the purpose hereinbefore set forth the Secretary of Agriculture shall cause to be made by inspectors appointed for that purpose, as hereinafter provided, a post-mortem examination and inspection of the carcasses and parts thereof of all cattle, sheep, swine, and goats to be prepared for human consumption at any slaughtering, meat-canning, salting, packing, rendering, or similar establishment in any State, Territory, or the District of Columbia for transportation or sale as articles of interstate or foreign commerce; and the carcasses and parts thereof of all such animals found to be sound, healthful, wholesome, and fit for human food, shall be marked, stamped, tagged, or labelled as 'inspected and passed;' and said inspectors shall label, mark, stamp, or tag as 'inspected and condemned' all carcasses and parts thereof of animals found to be unsound, unhealthful, unwholesome, or otherwise unfit for human food; and all carcasses or parts thereof thus inspected and condemned shall be destroyed for food purposes by the said establishment in the presence of an inspector, and the Secretary of Agriculture may remove inspectors from any such establishment which fails to so destroy any such condemned carcass or part thereof, and said inspectors, after said first inspection shall, when they deem it necessary, reinspect said carcasses or parts thereof to determine whether since the first inspection the same have become unsound, unhealthful, unwholesome, or in any way unfit for human food, and if any carcass or any part thereof shall, upon examination and inspection subsequent to the first examination and inspection, be found to be unsound, unhealthful, unwholesome, or otherwise unfit for human food, it shall be destroyed for food purposes by the said establishment in the presence of an inspector, and the Secretary of Agriculture may remove inspectors from any establishment which fails to so destroy any such condemned carcass or part thereof.

"The foregoing provisions shall apply to all carcasses or parts of carcasses of cattle, sheep, swine, and goats, or the meat or meat products thereof which may be brought into any slaughtering, meat-canning, salting, packing, rendering, or similar establishment, and such examination and inspection shall be had before the said carcasses or parts thereof shall be allowed to enter into any department wherein the same are to be treated and pre-

## THE NATIONAL MEAT INSPECTION LAW.—Continued.

pared for meat food products; and the foregoing provisions shall also apply to all such products which, after having been issued from any slaughtering, meat-canning, salting, packing, rendering, or similar establishment, shall be returned to the same or to any similar establishment where such inspection is maintained.

"For the purposes hereinbefore set forth the Secretary of Agriculture shall cause to be made by inspectors appointed for that purpose an examination and inspection of all meat food products prepared for interstate or foreign commerce in any slaughtering, meat-canning, salting, packing, rendering, or similar establishment, and for the purposes of any examination and inspection said inspectors shall have access at all times, by day or night, whether the establishment be operated or not, to every part of said establishment, and said inspectors shall mark, stamp, tag, or label as 'inspected and passed' all such products found to be sound, healthful, and wholesome, and which contain no dyes, chemicals, preservatives, or ingredients which render such meat or meat food products unsound, unhealthful, unwholesome, or unfit for human food; and said inspectors shall label, mark, stamp, or tag as 'inspected and condemned' all such products found unsound, unhealthful, and unwholesome, or which contain dyes, chemicals, preservatives, or ingredients which render such meat or meat food products unsound, unhealthful, unwholesome, or unfit for human food, and all such condemned meat food products shall be destroyed for food purposes, as hereinbefore provided, and the Secretary of Agriculture may remove inspectors from any establishment which fails to so destroy such condemned meat food product."

Other sections of the law provide for the sanitary examination of slaughtering, packing, and canning establishments, and the labelling of all such inspected articles of food. The provisions of this Act requiring inspection to be made by the Secretary of Agriculture shall not apply to animals slaughtered by any farmer on the farm and sold and transported as interstate or foreign commerce, nor to retail butchers and retail dealers in meat and meat food products, supplying their customers: Provided, That if any person shall sell or offer for sale or transportation for interstate or foreign commerce any meat or meat food products which are diseased, unsound, unhealthful, unwholesome, or otherwise unfit for human food, knowing that such meat food products are intended for human consumption, he shall be guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding \$1,000 or by imprisonment for a period of not exceeding one year, or by both such fine and imprisonment.

### The Sixteen-Hour Act.

Chapter 2939 of the Acts of the Fifty-ninth Congress, second session, "An Act to promote the safety of employees and travellers upon railroads by limiting the hours of service of employees therein," approved March 4, 1907, provides that:

It shall be unlawful for any common carrier, its officers or agents, subject to this Act, to require or permit any employee subject to this Act to be or remain on duty for a longer period than sixteen consecutive hours, and whenever any such employee of such common carrier shall have been continuously on duty for sixteen hours, he shall be relieved and not required or permitted again to go on duty until he has had at least ten consecutive hours off duty; and no such employee who has been on duty sixteen hours in the aggregate in any twenty-four-hour period shall be required, or permitted to continue, or again go on duty without having had at least eight consecutive hours off duty: Provided, That no operator, train dispatcher, or other employee who, by the use of the telegraph or telephone dispatches, reports, transmits, receives, or delivers orders pertaining to or affecting train movements, shall be required or permitted to be or remain on duty for a longer period than nine hours in any twenty-four-hour period in all towers, offices, places, and stations continuously operated night and day, nor for a longer period than thirteen hours in all towers, offices, places, and stations operated only during the daytime, except in case of emergency, when the employees named in this proviso may be permitted to be and remain on duty for four additional hours in a twenty-four-hour period on not exceeding three days in any week: Provided further, The Interstate Commerce Commission may, after full hearing in a particular case and for good cause shown, extend the period within which a common carrier shall comply with the provisions of this proviso as to such case.

Any such common carrier, or any officer or agent thereof, requiring or permitting any employee to go, be, or remain on duty in violation of the second section hereof, shall be liable to a penalty of not to exceed \$500 for each and every violation, to be recovered in a suit or suits to be brought by the United States District-Attorney in the District Court of the United States having jurisdiction in the locality where such violation shall have been committed; and it shall be the duty of such district-attorney to bring such suits upon satisfactory information being lodged with him; but no such suit shall be brought after the expiration of one year from the date of such violation; and it shall also be the duty of the Interstate Commerce Commission to lodge with the proper district-attorneys information of any such violations as may come to its knowledge. In all prosecutions under this Act the common carrier shall be deemed to have had knowledge of all acts of all its officers and agents: Provided, That the provisions of this Act shall not apply in any case of casualty or unavoidable accident or the act of God; nor where the delay was the result of a cause not known to the carrier or its officer or agent in charge of such employee at the time said employee left a terminal, and which could not have been foreseen: Provided further, That the provisions of this Act shall not apply to the crews of wrecking or relief trains.

It is made the duty of the Interstate Commerce Commission to execute and enforce the provisions of this Act.

## Interstate Commerce Law.

THE following is a synopsis of the provisions of the Interstate Commerce law and acts amendatory thereof, prepared for the Official Congressional Directory:

Under "An Act to Regulate Commerce," approved February 4, 1887; as amended March 2, 1889; February 10, 1891; February 8, 1895; the "Elkins Act" of February 19, 1903, and the amending act approved June 29, 1906, the Interstate Commerce Commission is composed of seven members, each receiving a salary of \$10,000 per annum. The regulating statutes apply to all common carriers engaged in the transportation of oil or other commodity, except water and except natural or artificial gas, by means of pipe lines, or partly by pipe line and partly by rail, or partly by pipe line and partly by water, and to common carriers engaged in the transportation of passengers or property wholly by railroad (or partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment). The statutes apply generally to interstate traffic, including import and domestic traffic, and also that which is carried wholly within any Territory of the United States. Only traffic transported wholly within a single State is excepted.

The Commission has jurisdiction on complaint, and, after full hearing, to determine and prescribe reasonable rates, regulations, and practices, and order reparation to injured shippers; to require any carriers to cease and desist from unjust discrimination, or undue or unreasonable preference, and to institute and carry on proceedings for enforcement of the law. The Commission may also inquire into the management of the business of all common carriers subject to the provisions of the regulating statutes, and it may prescribe the accounts, records, and memoranda, which shall be kept by the carriers, and from time to time inspect the same. The carriers must file annual reports with the Commission, and such other reports as may from time to time be required. Various other powers are conferred upon the Commission. Carriers failing to file and publish all rates and charges, as required by law, are prohibited from engaging in interstate transportation, and penalties are provided in the statute for failure on the part of carriers or of shippers to observe the rates specified in the published tariffs.

The Commission also appoints a Secretary and clerks, whose duties are not specifically defined by the act.

The act of February 11, 1903, provides that suits in equity brought under the act to regulate commerce, wherein the United States is complainant, may be expedited and given precedence over other suits, and that appeals from the Circuit Court lie only to the Supreme Court. The act of February 19, 1903, commonly called the Elkins Law, penalizes the offering, soliciting, or receiving of rebates, allows proceedings in the courts by injunction to restrain departures from published rates, and makes the Expediting Act of February 11, 1903, include cases prosecuted under the direction of the Attorney-General in the name of the Commission.

Under the act of August 7, 1888, all railroad and telegraph companies to which the United States have granted any subsidy in lands or bonds or loan of credit for the construction of either railroad or telegraph lines are required to file annual reports with the Commission and such other reports as the Commission may call for. The act also directs every such company to file with the Commission copies of all contracts and agreements of every description existing between it and every other person or corporation whatsoever in reference to the ownership, possession, or operation of any telegraph lines over or upon the right of way, and to decide questions relating to the interchange of business between such government-aided telegraph company and any connecting telegraph company. The act provides penalties for failure to perform and carry out within a reasonable time the order or orders of the Commission.

The act of March 2, 1893, known as the "Safety Appliance Act," provides that within specified periods railroad cars used in interstate commerce must be equipped with automatic couplers and standard height of drawbars for freight cars, and have grab irons or hand holds in the ends and sides of each car. A further provision is that locomotive engines used in moving interstate traffic shall be fitted with a power driving-wheel brake and appliances for operating the train-brake system, and a sufficient number of cars in the train shall be equipped with power or train brakes. The act directs the Commission to lodge with the proper District-Attorneys information of such violations as may come to its knowledge. The Commission is authorized to, from time to time, upon full hearing and for good cause, extend the period within which any common carrier shall comply with the provisions of the statute. The act of March 2, 1903, amended this act so as to make its provisions apply to Territories and the District of Columbia to all cases when couplers of whatever design are brought together, and to all locomotives, cars, and other equipment of any railroad engaged in interstate traffic, except logging cars and cars used upon street railways, and also to power or train brakes used in railway operation.

The act of June 1, 1898, concerning carriers engaged in interstate commerce and their employes, known as the "Arbitration Act," directs the Chairman of the Interstate Commerce Commission and the Commissioner of Labor to use their best efforts, by mediation and conciliation, to settle controversies between railway companies and their employes. Every agreement of arbitration made under the act must be forwarded to the Chairman of the Interstate Commerce Commission, who shall file the same in the office of that Commission. When the agreement of arbitration is signed by employes individually instead of a labor organization, the act provides, if various specified conditions have been complied with, that the Chairman of the Commission shall, by notice in writing, fix a time and place for the meeting of the Board of Arbitrators. If the two arbitrators chosen by the parties fail to select a third within five days after the first meeting, the third arbitrator shall be named by the Chairman of the Interstate Commerce Commission and the Commissioner of Labor.

The act of March 3, 1901, "requiring common carriers engaged in interstate commerce to make reports of all accidents to the Interstate Commerce Commission," makes it the duty of such carrier to monthly report, under oath, all collisions and derailments of its trains and accidents to its passengers, and to its employes while on duty in its service, and to state the nature and causes thereof. The act prescribes that a fine shall be imposed against any such carrier failing to make the report so required.

## The New York Public Service Act.

### PUBLIC SERVICE COMMISSIONERS.

#### FIRST DISTRICT.

William R. Willcox, Chairman, Manhattan, New York; holds office until February 1, 1913.  
 Edward M. Bassett, Brooklyn; holds office until February 1, 1911.  
 Philip Roy Maltbie, Manhattan, New York; holds office until February 1, 1910.  
 John E. Buslis, Manhattan, New York; holds office until February 1, 1909.

#### SECOND DISTRICT.

Frank W. Stevens, Chairman, Jamestown; holds office until February 1, 1913.

Charles Hallam Keep, Buffalo; holds office until February 1, 1912.  
 Thomas Mott Osborne, Auburn; holds office until February 1, 1911.  
 Martin S. Decker, New Paltz; holds office until February 1, 1910.  
 James E. Sagar, New Hamburg; holds office until February 1, 1909.

Chapter 429 of the Laws of 1907, "An Act to establish the Public Service Commissions and prescribing their powers and duties, and to provide for the regulation and control of certain public service corporations and making an appropriation therefor," became a law on June 6, 1907. Two Public Service Commissions of five members each were created by the Act, one with authority in the First District, which included the counties of New York, Kings, Queens and Richmond, and the other in the Second District, which included all the other counties of the State.

The Act abolished the existing State Board of Railroad Commissioners, the State Commission of Gas and Electricity, the State Inspector of Gas Meters, and the Board of Rapid Transit Commissioners of New York City. All the powers of the Railroad Commissioners, the Commission of Gas and Electricity, and of the Inspector of Gas Meters were conferred upon the Public Service Commissions. All the powers and duties of the Board of Rapid Transit Commissioners of the First District, the first Commissioners appointed are to hold office, respectively, until February 1, 1910; February 1, 1911; February 1, 1912, and February 1, 1913. Each of their successors are to hold office for a period of five years. The Governor is authorized to remove any Commissioner for inefficiency, neglect of duty or misconduct in office, giving to him a copy of the charges against him, and an opportunity of being heard in person or by counsel in his own defence.

The jurisdiction of the Public Service Commission of the First District extends to railroads and street railroads lying exclusively within that district, to any common carrier operating exclusively within that district, and to the manufacture, sale or distribution of gas and electricity for light, heat and power in that district. In addition the Commission of the First District is to exercise the powers heretofore conferred upon the Board of Rapid Transit Railroad Commissioners. All jurisdiction not specifically granted to the Public Service Commission of the First District is granted to the Public Service Commission of the Second District. The annual salary of each Public Service Commissioner is to be \$15,000; of their secretary, \$6,000, and of their counsel, \$10,000.

The Act provides that every railway corporation shall furnish with respect thereto such service or facilities as shall be safe and adequate, and in all respects just and reasonable; and, secondly, that all charges made or demanded by any such corporation, person or common carrier for the transportation of passengers, freight or property, for any service rendered, or to be rendered, in connection therewith, shall be just and reasonable, and not more than allowed by law or by order of the Public Service Commission made or demanded and made as authorized by the Act. Every unjust or reasonable charge made or demanded for any such service or transportation of passengers, freight or property, or in connection therewith, or in excess of that allowed by law or by order of the Commission, is prohibited. A railroad corporation, upon the application of any shipper tendering traffic for transportation, must construct upon reasonable terms a switch connection, and print and keep open to file with the Public Service Commission having jurisdiction, and print and keep open to public inspection, schedules showing the rates, fares and charges for the transportation of passengers and property within the State between each point upon its route and all other points thereon. The schedules are to plainly state the classification of passengers, freight and property in force, all terminal charges, storage charges, long charges, and all other charges which the Commission may require to be stated, all privileges or facilities granted or allowed, and any rules or regulations which may in any wise change, affect, or determine any part, or the aggregate of the rates, fares or charges, or the value of the service rendered to the passenger, shipper or consignee. Such schedules are to be plainly printed in large type; copies for the use of the public are to be kept posted in two public and conspicuous places in every depot, station and office of every common carrier where passengers or property are received by the public. No common carrier, the Act says, "shall directly or indirectly by any special rate, rebate, drawback, or other device or method, charge, demand, collect or receive from any person or corporation a greater or less compensation for any service rendered or to be rendered in the transportation of passengers, freight or property, except as authorized in this Act, than a like and contemporaneous service in the transportation of a like kind of traffic under the same or substantially similar circumstances and conditions." The giving of free tickets, free passes, or free transportation for passengers or property, except to its

THE NEW YORK PUBLIC SERVICE ACT—*Continued.*

employees and certain other specified classes, or in certain specified cases, is prohibited. No common carrier is to charge or receive any greater compensation in the aggregate for the transportation of passengers, or of a like kind or property, under substantially similar circumstances and conditions for a shorter than for a longer distance over the same line in the same direction, the shorter being included within the longer distance. Upon the application, however, of a common carrier the Public Service Commission may, by order, authorize it to charge less for a longer than for shorter distances for the transportation of passengers or property in special cases after investigation by the Commission. Every railroad corporation and street railway corporation is to have sufficient cars and motive power to meet all requirements for the transportation of passengers and property which may reasonably be anticipated. Every railroad corporation must furnish to all persons and corporations who apply therefor and offer freight for transportation sufficient and suitable cars for the transportation of such freight in car-load lots.

## POWERS OF THE COMMISSIONS.

Each one of the Public Service Commissions is to have general supervision of all common carriers, railroads and street railroads, and is directed to keep informed as to their general condition, their capitalization, their franchises, and the manner in which their lines owned, leased, controlled or operated, are managed, conducted and operated, not only with respect to the adequacy, security and accommodation afforded by their service, but also with respect to their compliance with all provisions of law, orders of the Commission and Charter requirements. Each Commission is given power to examine all books, contracts, documents and papers of any person or corporation subject to its supervision, and by subpoena to compel production thereof. Each Commission is to prescribe the form of the annual reports required under the Act to be made by common carriers, railroad and street railroad corporations. Each Commission is to investigate the cause of all accidents on any railroad or street railroad within its district which result in loss of life or injury to persons or property, and which, in their judgment, require investigation. Whenever either Commission shall be of the opinion that the rates, fares or charges demanded by any common carrier, railroad corporation or street railroad corporation subject to its jurisdiction are unjust, unreasonable, unjustly discriminatory, or unduly preferential, or in anywise in violation of any provision of law, it shall determine the just and reasonable rates, fares and charges to be thereafter observed and in force as the maximum to be charged for the service to be performed. And whenever a Public Service Commission is of the opinion, after a hearing, that the equipment, appliances or service of any common carrier, railroad corporation or street railroad corporation is unsafe, its members are required to determine the safe equipment thereafter to be in force, and prescribe the same by an order to be served upon the common carrier, railroad corporation or street railway corporation concerned. The Commissions are granted power to require two or more common carriers owning a continuous line of transportation to establish joint rates, fares and charges. The Commissions may order repairs and improvements to be made to tracks, switches, terminals, and motive powers in order to promote the security or convenience of the public. If, in the judgment of the Commission having jurisdiction, any railroad corporation or street railroad corporation does not run trains enough or cars enough, or possess or operate motive power enough reasonably to accommodate the traffic, passengers and freight transported by it, or it does not run its trains or cars with sufficient frequency, such a Commission may make an order directing any such corporation to increase the number of its trains, or of its cars, or its motive power. A uniform system of accounts for railroad and street railway corporations is authorized. Without first having obtained the permission and approval of the proper Public Service Commission, no railroad corporation may begin the construction of a railroad or street railroad. The Commission within whose district such construction is to be made is authorized to grant its approval when, in its judgment, the exercise of the franchise or privilege is necessary or convenient for the public service. No franchise to own or operate a railroad or street railroad may be assigned, transferred or leased unless the assignment, transfer or lease is first approved by the proper Commission. No railroad corporation or street railroad corporation is to acquire the capital stock of any railroad corporation or street railroad corporation unless authorized to do so by one of the Commissions created by the Act. Every contract for a transfer of stock by or through any person or corporation to any corporation in violation of the Act, it is declared, shall be void. Common carriers, railroads, and street railroad corporations are authorized to issue stocks, bonds, notes and other evidences of indebtedness when necessary for the acquisition of property, provided, that they shall have secured from the proper Commission an order authorizing such an issue. For the purpose of enabling it to determine whether it should issue such an order, the Commission concerned is to make an inquiry, and examine such books or contracts as it may deem of importance in enabling it to reach a determination. The Act says that "any common carrier, railroad corporation or street railroad corporation which shall violate any provision of this Act, or which fails, omits, or neglects to obey, observe, or comply with any order, or any direction, or requirement of the Commission, shall forfeit to the people of the State of New York not to exceed the sum of \$5,000 for each and every offence; every violation of any such order, or direction, or requirement, or of this Act, shall be a separate and distinct offence; and in case of a continuing violation, every day's continuance thereof shall be, and be deemed to be, a separate and distinct offence." It is also made a misdemeanor for the officer of a corporation to violate the Act, or to procure any violation by any such corporation. Summary proceedings in the courts are authorized in the case of offending corporations.

## INTERSTATE TRAFFIC.

Either of the Commissions may investigate freight rates on interstate traffic on railroads within the State, and when such rates are, in the opinion of either Commissions, excessive or discriminatory, or are levied or laid in violation of the Interstate Commerce law, or in conflict with the rulings, orders or regulations of the Interstate Commerce Com-

## THE NEW YORK PUBLIC SERVICE ACT—Continued.

mission, the Commission concerned may apply by petition to the Interstate Commerce Commission for relief.

## SUPERVISION OF GAS AND ELECTRICAL CORPORATIONS.

Each Commission within its jurisdiction is given general supervision of all persons and corporations having authority to maintain wires and pipes along or under the streets of a municipality for the purpose of furnishing or distributing gas, or of furnishing or transmitting electricity for light, heat or power. The Commissions may ascertain the quality of the gas supplied, examine the methods employed in manufacturing and supplying gas or electricity for light, heat or power, and order such improvements as will best promote the public interest, preserve the public health, and protect those using such gas or electricity. The Commissions also may fix the standard of illuminating power and purity of gas, not less than that prescribed by law, to be manufactured or sold by persons, corporations or municipalities for lighting, heating or power purposes; prescribe methods of regulation of the electric supply system as to the use for incandescent lighting; fix the initial efficiency of incandescent lamps furnished by the persons, corporations or municipalities generating and selling electric current for lighting, and by order require the gas so manufactured or sold to equal the standard so fixed by it, and, finally, establish the regulations as to pressure at which gas shall be delivered. The Commissions are authorized to determine by investigation whether or not the gas sold is of the purity and quality required. The Commissions may require the corporations manufacturing gas and electricity to keep uniform accounts. The Commission is to require every person and corporation under its supervision to submit to it an annual report showing in detail (1) the amount of its authorized capital stock and the amount thereof issued and outstanding; (2) The amount of its authorized bonded indebtedness, and the amount of its bonds, and other forms of evidence of indebtedness issued and outstanding; (3) Its receipts and expenditures during the preceding year; (4) the amount paid as dividends upon its stock and as interest upon its bonds; (5) the name of, and the amount paid as salary, to each officer, and the amount paid as wages to its employees; (6) the location of its plant, or plants, and system, with a full description of its property and franchises, stating in detail how each franchise stated to be owned was acquired; and (7) such other facts pertaining to the operation and maintenance of the plant and system, and the affairs of such person or corporation as may be required by the Commission. Any corporation which shall neglect to make such a report is made liable to a penalty of \$100, and an additional penalty of \$100 for each day after the prescribed time for which it shall neglect to file the same. Every municipality engaged in operating any works or systems for the manufacture and supplying of gas or electricity is to be required to make an annual report to the Commission showing in detail (1) the amount of its authorized bonded indebtedness, and the amount of its bonds and other forms of evidence of indebtedness issued and outstanding for lighting purposes; (2) its receipts and expenditures during the preceding year; (3) the amount paid as interest upon its bonds and upon other forms of evidence of indebtedness; (4) the name of and the amount paid to each person receiving a yearly or monthly salary, and the amount paid as wages to employees; (5) the location of its plant and system, with a full description of the property; and (6) such other facts pertaining to the operation and maintenance of the plant and system as may be required by the Commission.

## INSPECTION OF GAS AND ELECTRIC METERS.

Each Commission is to appoint inspectors of gas and electric meters, who are to inspect, examine, prove and ascertain the accuracy of any and all gas meters used or intended to be used for measuring, or ascertaining the quantity of illuminating or fuel gas or natural gas furnished by any gas corporation to or for the use of any person, and any and all electric meters used or intended to be used for measuring and ascertaining the quantity of electric current furnished for light, heat and power by any electrical corporation to or for the use of any person or persons. The law says that "No corporation or person shall furnish or put in use any gas meter which shall not have been inspected, proved and sealed, or any electric meter which shall not have been inspected, approved, stamped or marked by an inspector of the Commission." The law also says that "No gas corporation or electrical corporation incorporated under the laws of this or any other State shall begin construction, or exercise any right or privilege under any franchise hereafter granted, or under any franchise heretofore granted, but not heretofore actually exercised, without first having obtained the permission and approval of the proper Commission." The law further says: "No municipality shall build, maintain and operate for other than municipal purposes any works or system for the manufacture and supplying of gas or electricity for lighting purposes without a certificate of authority granted by the Commission."

## Act Prohibiting Money Contributions

## FROM CORPORATIONS FOR POLITICAL PURPOSES.

BE it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it shall be unlawful for any national bank, or any corporation organized by authority of any laws of Congress, to make a money contribution in connection with any election to any political office. It shall also be unlawful for any corporation whatever to make a money contribution in connection with any election at which Presidential and Vice-Presidential electors, or a Representative in Congress, is to be voted for, or any election by any State Legislature of a United States Senator. Every corporation which shall make any contribution in violation of the foregoing provisions shall be subject to a fine not exceeding \$5,000, and every officer or director of any corporation who shall consent to any contribution by the corporation in violation of the foregoing provisions shall, upon conviction, be punished by a fine of not exceeding \$1,000 and not less than \$250, or by imprisonment for a term of not more than one year, or both, such fine and imprisonment in the discretion of the court.—Passed by Congress January, 28, 1907.

### State Legislation in 1907.

The following statement of the more important legislation effected by State Legislatures in 1907 is a summary compiled, by permission, from the appendix to the address of the Hon. Alton B. Parker, of New York, president of the American Bar Association, at the annual meeting, held at Portland, Me., August 26, 1907. Forty-four State and Territorial Legislatures were in session during the year.

Not only an unusually large number of States held sessions during the past year, but the bulk of legislation in each State is also decidedly greater. Contrasted with the thin pamphlets, which several years ago contained all the laws enacted in many of the States, the volumes of the laws of 1907 appear massive, containing in North Carolina 1,019 chapters, and in Maine 874 chapters covering 1,518 octavo pages. Of course in States where such bulky legislation is found, the system of special laws for the incorporation of companies and municipalities still prevails.

**State Government and Elections.**—The general unrest and desire for change in political conditions is probably responsible for an agitation for alteration in State constitutions. During the past year the Legislature of Connecticut adopted by resolution an entirely new constitution which is to be submitted to the people of that State. Following the mandate of the people of the State as expressed last year, the present Legislature of Michigan provided for a convention to revise the constitution. No other States have new constitutions, but the desire for change was seen in a large number of individual amendments which were adopted by Legislatures this year and which are to be presented to the people for ratification at the next elections.

In most of the States the seat of government is permanently fixed. It was, therefore, somewhat surprising to find in as old a State as California an act of the last Legislature changing the capital from Sacramento to Berkeley, subject to the approval of the voters of the State.

An example of the general distrust of persons connected with public service corporations, particularly railroad companies, was found in the action of the Wisconsin Legislature in prohibiting district and city attorneys and judicial officers in that State from being employed by any common carrier.

The agitation for the improvement of civil service and the removal of offices from the control of partisan influence is gradually spreading. Colorado provided for a civil service commission, which is to classify offices, conduct examinations, and certify appointments to fill vacancies. The law applies quite generally to appointive State officers.

**Legislative Bribery.**—The laws governing bribery were this year made applicable to State officers and members of the Legislature by an act of Minnesota, which includes in such bribery the receiving or agreeing to receive any promise or agreement whereby his vote or action is to be influenced, and specifically prohibits the giving of a vote in any manner in consideration that another member of the Legislature votes in a particular manner either upon the same or another question.

The vocation of those persons who appear before Legislatures to advocate the promotion or defeat of legislation was restricted in many ways. The registration of all lobbyists, except those who appear only before committees, and the filing of expense accounts by those registered, was required by Missouri. In Florida any member of a committee may require that any person appearing before it state under oath the interest which he represents and whether or not he has been paid or promised any fee for his services. Idaho, Nebraska and South Dakota prohibited any person employed for the purpose of influencing legislation to do so except before the regular committees of the Legislature, or a meeting of the Legislature itself, or by written or printed arguments presented to such committees or to the Legislature.

A growing distrust of Legislatures evidenced itself in various directions. No member of the Legislature under a new law of Idaho can be appointed during the term for which he is elected to an office created by the Legislature of which he is a member. This distrust is probably responsible for the movement in favor of the initiative and the referendum. The Legislatures of Missouri and North Dakota adopted constitutional amendments, subject to the ratification of the voters at the next general election, covering these subjects.

An act in Montana carried out the recent constitutional amendment providing for the initiative and referendum. Under this act a bill proposed by an initiative petition is submitted directly to popular vote. The same would seem to be true under the proposed amendment to the Missouri constitution.

**Taxation and Finance.**—In California an elaborate constitutional amendment recognized the principle of the separation of State and local taxes, imposed taxes upon public service companies, insurance companies, banks and trust companies, and provided that franchises shall be exclusively for the use of the State.

The modern recognition of the difficulty of this subject and the need for expert assistance in the framing and administration of tax laws appeared in the creation of tax commissions. Their duties in general are to supervise the assessment and collection of taxes; to confer with the different local tax officers; to assess property of certain corporations which the law requires to be assessed as a unit by the State; to act as a State board of equalization; to collect information relating to the subject of taxation, and to recommend improvements in the tax laws of the State. The year saw the creation of such commissions in Alabama, Kansas and Minnesota. In North Carolina the Board of Corporation Commissioners was also made a Board of Tax Commissioners with general powers over taxation. In New Hampshire a tax commission of three persons for one year was provided with the object of studying the question of taxation and reporting thereon to the Legislature. North Carolina and Tennessee made a general revision of their tax laws.

Railroad, express, sleeping car, telephone, telegraph, and other similar companies were as usual the subject of considerable tax legislation. A method which has been in use for a number of years is that of a percentage tax upon the gross earnings of such companies. This plan was extended this year to freight line and sleeping car companies in Minnesota and in Washington, to the taxation of private car companies and express companies. In Kansas a new law taxed express companies a percentage on gross receipts in addition

## STATE LEGISLATION IN 1907—Continued.

to the regular tax on tangible property. Also the new general tax law of North Carolina provided for what is called a privilege tax on railroads, express, telegraph and telephone companies, which, in the case of railroads is a graduated tax per mile, depending on the earnings, and in the case of the other companies, a percentage tax on the gross receipts. The proposed amendment to the constitution of California subjects all public service corporations to a tax upon the gross receipts at percentages fixed in the constitution. It also provides that the provision shall be self-executing, so that no laws are needed to carry it into effect.

Another and more recent method of taxing these companies is by assessment by some State board and by a tax on such assessment at the rate paid by the general property in the State. The year saw it applied to express companies by Massachusetts, Iowa and New Hampshire, and to sleeping car, dining and parlor car companies by New Hampshire. In North Carolina railroads, express, freight line, telephone, telegraph and other similar companies are to be assessed by a State board, but the value of the property is apportioned among the local units taxed at the local rates. The same method was adopted by Washington in the case of railroad and telegraph companies, and by South Dakota in the case of railroad companies. Under the Alabama act of 1907 the tax commission assesses the value of the intangible property of public service corporations, which are then taxed locally by the various units. Nebraska went still further in the direction of local taxation by an act subjecting the property of railroad companies, union depot companies, car companies and freight line companies, to assessment by the cities and villages through which they run. A somewhat peculiar method of taxation is found in Vermont and Florida; express companies in the former State being taxed eight dollars per mile of route, and railroad companies, in the latter State, ten dollars per mile. In the latter State the railroad companies are subject also to local taxation.

As illustrating the efforts made to secure taxation of the franchises of corporations, we find during the year Alabama and Arkansas requiring a franchise tax from foreign corporations, based upon the amount of capital, and North Carolina providing for a franchise tax on the capital of all corporations, together with an ad valorem assessment of corporations by the State board with local taxation.

**Income Tax.**—The difficulties which surround the proper assessment of an income tax have prevented its general adoption. The revision of the tax law of North Carolina provided for such a tax, which is levied on all incomes in excess of one thousand dollars, where the income is derived from property not taxed. The rate upon the excess over the exemption is one per cent. In South Dakota the people will, at the next election, vote on a constitutional amendment to cover this question.

**Inheritance Tax.**—The taxation of inheritances is becoming very general, and this year laws provided for direct and collateral inheritance taxes in Massachusetts, Idaho, and North Carolina, and for a collateral inheritance tax in Texas. The last Legislature of South Dakota adopted a resolution for a constitutional amendment in this field.

**Crimes and Misdemeanors.**—Morality received considerable attention from the Legislators of the year. The passage of laws like that of Montana regulating advertising, the prohibition of bucket shops in Connecticut, Indiana, Iowa, Maine, Massachusetts, Nebraska, Michigan, Pennsylvania and Texas, with the power to cities to prohibit this species of gambling in Minnesota, the dealing in "futures" as prohibited in Alabama, Georgia, South Carolina and Florida, the prohibition of pool-selling upon horse racing in Tennessee and Arkansas, the prohibition of gambling in New Mexico and South Dakota, and the prohibition of houses for opium smoking in Connecticut, all indicate the careful supervision of the modern State over the morals of its citizens.

Pennsylvania and Illinois prohibited the use of the United States flag for advertising purposes, and California punishes the unauthorized wearing of State or United States uniforms.

**Charities and Corrections.**—The care of the insane has long been a recognized function of the American State. That the obligation of the State is not postponed until a person is insane in the strict sense of the term, but begins much earlier, was this year seen in legislation like that of Minnesota, which provides a hospital farm for imbeciles, and in the law of Kansas, which provides that not only may guardians be appointed for those who are insane, but also for the feeble-minded, those addicted to the use of drugs, and habitual drunkards. Maine, Oregon, and Rhode Island this year followed the example of many States by the creation of schools for the feeble-minded.

Many laws relate to the child as a criminal and recognize that as such he is not to be treated as an adult. As the latest expression of this principle of the treatment of the youthful criminal, juvenile courts, either in the form of separate courts or in special sessions of the regular criminal courts, were provided during the year in Alabama, Missouri, Montana, Michigan, Oregon and Texas. As part of this movement for the supervision of children a law of New York provided for a State probation commission, which is to have general charge of the work of all probation officers.

That reformation of a convicted criminal is always possible is the theory upon which rests laws of the past year like those of Arizona, Iowa and Washington, for indeterminate sentences, and for the suspension of sentence or parole of prisoners as provided in Indiana, Kansas, Montana, North Dakota, South Dakota, Illinois and Wisconsin.

A somewhat novel method of securing reformation of criminals is found in an act of the Legislature of Michigan, where persons convicted of intoxication take a pledge for a period not exceeding one year, and during that time the judge may suspend the sentence. If it appears at any time that the prisoner is not keeping the pledge the sentence may then be executed.

In Indiana, however, the Legislature evidently believed that the time within which reform in a prisoner may be expected is limited. An act provided that upon the third conviction for a felony the criminal shall be deemed an habitual criminal and may be imprisoned for life.

Another application of this theory and of the importance of heredity appeared in a law of the same State providing that upon the advice of two skilled physicians criminals or imbeciles whose physical and mental condition is such as to render inadvisable the

continuance of the type, an operation for the sterilization of such person may be performed.

**Initiative and Referendum.**—The initiative and referendum are receiving considerable attention both as applied to State and local affairs. It has long been customary to refer certain laws for the government of municipalities to referendum vote of their inhabitants, and a number of acts of the year, like those adopting the commission system of government and the new charter for Chicago, are not to take effect until thus voted on. The regular initiative and referendum as applied to local affairs, including the right of the voters to frame and adopt ordinances independently of the action of the council, and to require that an act of the council be submitted to popular vote before it becomes effective, are found in the new law of Montana and in the Iowa and South Dakota acts for the commission system. Nearly all of the city charters adopted by the California cities under the home rule provisions in that State provide for the initiative and referendum. Many of the same considerations which affect this method of legislation as applied to State affairs affect also its operation in municipalities, but of course the smaller the unit the better will a system of purely democratic government operate.

In 1903 a feature of local government known as the "recall" was adopted for the first time in this country for the City of Los Angeles. At the next session of the California Legislature the system was adopted for other cities. During 1907 it was applied to persons elected from wards under a new charter for cities of the second class in Washington. In this charter, however, instead of the 25 per cent. of voters which is sometimes required for the vacation of an office, three-fifths of the voters of a ward must petition for the recall of a member of the council. The Iowa commission plan embodies this same idea upon a 25 per cent. petition of the voters. In each case a new election is held to which the person who has been recalled is eligible for re-election. Six of the city charters adopted in California by the cities themselves under the plan in vogue in that State provide for the recall of city officers, the percentage necessary to initiate a movement being 25 per cent. in four of the cities and 40 per cent. in the others.

**Municipal Ownership.**—Acts allowing cities to own and operate various forms of public services are part of the movement for municipal ownership. While the legislation does not indicate any general consensus of opinion as to the general success of this principle, it shows legislative willingness to allow cities to undertake such projects if they see fit, placing upon the municipality the burden of determining whether it is profitable or not. There were a large number of acts of the past year which relate to this subject, most of them covering the ordinary objects of municipal ownership, such as water works, lighting plants, &c. The most important part of these was the Chicago charter which allowed municipal ownership of all public utilities. Some noteworthy extensions of the idea are found in acts of the Wisconsin Legislature which allow cities of the first class (of which Milwaukee is the only example) to acquire and own railway terminals and to lease them to railways desiring to enter the city. South Dakota provided for the municipal ownership of telephones. Limitations upon the tax rate of cities have sometimes stood in the way of municipal ownership, but the Legislature of Wisconsin attempted to get around this difficulty by providing for the purchase of public utilities from the proceeds of certificates which are a lien only upon the property purchased.

**Education.**—Compulsory education of children is becoming quite universal throughout the country. During the past year Washington enacted a law which requires such education between the ages of eight and fifteen, while the ages are fixed at nine and fourteen in Oregon and at seven to sixteen in Michigan. Compulsory education of Indian children was also provided in a new law of South Dakota. Laws enacted during the year in both Michigan and South Dakota require all deaf and blind children to receive a certain minimum education.

The low standard of salaries in the profession of teaching, and particularly among the common schools is well known. As long as teachers can be obtained for the small remuneration for which they are willing to serve in the lower schools it is perhaps too much to expect that school boards will voluntarily increase the wages paid. Indiana this year attempted to meet this in a measure by establishing a minimum salary for teachers in lower schools. By the Legislature in the same State and in Illinois provision was made for pensions for teachers in cities having over 100,000 population. In the former State the maximum pension is \$600 a year, based upon a service of forty years as a teacher, while for a lesser service the pension is proportionately reduced. Rhode Island this year passed a general act for pensioning teachers, based upon thirty-five years' service, at one-half of the annual salary received during the last five years, with a maximum of \$500.

**Anti-Trust Laws.**—California, Indiana and North Dakota enacted general anti-trust laws during the year. Each violation of the California law is considered a separate offense, and a penalty of a fine of not less than \$50 nor more than \$5,000, or imprisonment for not less than six months nor more than one year, or both such fine and imprisonment, are provided. It is sufficient to prove that the defendant belonged to the trust or acted with it, without proving that all the parties belonged to it or proving any agreement among them. Perhaps the most interesting provision is the one that "the character of the trust or combination alleged may be established by proof of its general reputation as such." Persons injured in business by a trust may sue for double damages.

The new Indiana statute is not as elaborate as the California law, but includes in its division of trusts any agreement or design to deny or refuse to any person or persons full participation on equal terms with others in any telegraphic service transmitting matter prepared or intended for public use.

The North Dakota law of this year was very similar to that of California. It provided that no purchaser of any article from any individual or corporation violating the act shall be liable for the price of such article, and may plead the act as a defense to any suit for such price.

Some States are not content with general anti-trust laws, but have selected particular combinations for destruction and prohibition. Among these enacted during the

## STATE LEGISLATION IN 1907—Continued.

past year was one in Iowa prohibiting combinations for the sale of grain, and one in Nebraska forbidding combinations between bridge contractors. Adjoining States find dangers in combinations in very diverse subjects.

North Carolina enacted a law prohibiting various acts of combination or discrimination. The North Carolina act prohibits the injury of the business of a rival for the purpose of fixing the price of a commodity, and makes it unlawful for any person or corporation which controls 50 per cent. of an article within the State to raise or lower the price of an article for the purpose of driving opponents out of business, selling any article at a place where there is competition at a lower price than is charged for the same thing at any place without sufficient reason and with the intention of injuring another's business.

Arkansas, Missouri, South Dakota, Minnesota and North Dakota passed laws aimed at discrimination between different parts of the State by selling any commodity at a lower rate in one place than is charged in another place, after due allowance is made for difference in quality and in cost of transportation. Tennessee passed an act which prohibits the selling at less than cost for the purpose of destroying competition.

An act of Tennessee, which apparently is intended to legalize contracts which might otherwise be objectionable because of their monopolistic character is of considerable interest. It provided that persons engaged in farming may make contracts with warehousemen and merchants whereby they agree to plant, cultivate and harvest for a period not exceeding three years any particular crop. Such persons may appoint the persons with whom they contract as their agents and may invest such agents with authority to determine when and at what price the farm products shall be sold, and provide that such farm products shall not be sold by the owner independently.

**Corporations.**—The Legislature of Texas, which was prolific in new ideas for the regulation of various subjects, evidently did not believe in the existence of treasury stock, as it required that in all corporations 50 per cent. must be paid in before the corporation can do business, and the remainder within two years under penalty of forfeiture of the charter. Provision was, however, made for reduction of the capital stock if the remainder cannot be obtained within the time limited.

The very common use of preferred stock was recognized by a law of 1907 of California, but the ordinary use of this stock as merely another form of security will be largely prevented by a provision of the act which prohibits any distinction between the classes of stock as to voting power.

One of the troublesome features of the ordinary corporation has been the position of the minority stockholder, who has his money invested, but is unable to exercise any effective control over the affairs of the corporation. Indiana tried to remedy the situation somewhat by providing that minority stockholders who vote against a change in the articles of incorporation may compel the corporation to purchase their stock at a figure named by appraisers. Under a new law of Tennessee the minority stockholders, in case of a sale of the corporate property, may require that their stock be valued and purchased.

**Insurance.**—New Jersey, in 1907, took an important step relating to directors of insurance companies by providing that in every stock life insurance company there shall be three additional directors, who shall be policy-holders of the companies, but not stockholders. These directors are to be appointed by the chancellor for terms of three years.

The most radical position of the year in regard to insurance investments was taken in Texas. All life companies doing business in that State are required to invest in certain Texas securities at least 75 per cent. of the legal reserve on the policies written on insurance companies have withdrawn from the State.

Salaries of officers of life insurance companies were very largely regulated. Ordinarily no maximum was placed upon such salaries, but it was provided that all those over \$5,000 must be authorized by the board of directors; that officers receiving a salary over \$100 a month shall not receive any other compensation, and that agreements for compensation be limited to a certain fixed period. Such provisions were made in North Dakota, South Dakota, New Jersey, Illinois, Michigan and Tennessee, while the requirement that salaries over \$5,000 must be authorized by the board were made in Missouri, Massachusetts and Colorado. Pensions to life insurance officers were prohibited in North Dakota, Massachusetts, Colorado and New Jersey. The most radical restrictions are found in Missouri, which provided that no life insurance company which pays a salary or compensation for services amounting to \$50,000 a year shall be allowed to do business in the State. Wisconsin provided that no salary of over \$25,000 shall be allowed in any domestic life insurance company, unless approved by a majority vote of the policy-holders.

In Minnesota, North Dakota, West Virginia, Wisconsin, New Jersey and Massachusetts, the issuance of both participating and non-participating policies by the same company was forbidden. An annual accounting to the policy-holders, showing the amount of the surplus to which each is entitled was required by Minnesota, Montana, North Dakota, West Virginia, South Dakota, Colorado, New Jersey and Tennessee. Under the new law in Wisconsin each company must ascertain the share of the present surplus which is owing each class of policy-holders, and upon written request ascertain for any policy-holder his share of such surplus. In the same State it is also required that the surplus due the policy-holders must be shown as well as the method of declaring dividends. In Minnesota a law was passed restricting, in accordance with the net value of the outstanding policies, the surplus which any company can accumulate. Very similar laws were also enacted by Montana and North Dakota.

Standard life insurance policy forms were provided by the Legislatures of Minnesota and North Dakota. Certain matters were prohibited, such as special limitations for actions upon the policies, for forfeitures and for settlements. Such requirements are found in the laws of Illinois, Colorado, Massachusetts, New Jersey and Tennessee. Special acts which provided that the policy must contain the whole contract were passed this year in Tennessee, Michigan, Minnesota, Montana, New Hampshire and North Dakota.

The misrepresentation of the provisions of life insurance policies or the affairs of the company was made punishable by laws enacted during the year in Iowa, Minnesota,

## STATE LEGISLATION IN 1907—Continued.

Missouri, Montana, North Dakota, Wisconsin, New Jersey, Massachusetts, Tennessee, Illinois, Michigan and Colorado. On the other hand, misrepresentation in securing the policy was made a misdemeanor by Maine. Arizona and Kansas provided that the misrepresentation in securing a policy shall not render it void unless the subject of such representations contributed to the contingency which made the policy payable.

A provision which is found in a great number of the laws in almost precisely the same form is that which makes the agent who secures a policy the agent of the company and not that of the insured. Laws to this effect were enacted this year in Indiana, Minnesota, Missouri, Montana, New Hampshire, North Carolina, North Dakota, West Virginia, New Jersey, Tennessee and Michigan. Under new laws of Wisconsin and Tennessee corporations are not allowed to act as agents for insurance companies.

An unusual step was taken by the Legislature of Massachusetts in allowing savings banks to establish life insurance departments. These departments are to be conducted separately from the savings departments and the assets of the latter are not applicable to the payment of death claims.

**Railroads.**—Railroad commissions have been growing in favor during recent years, and may be considered as the accepted method of dealing with these corporations. During 1907 commissions for the regulation of railways were created in Alabama, Colorado, Montana, Nebraska, Pennsylvania, Vermont, New Jersey, Oregon and Michigan, while very substantial revisions were made in the laws for commissions in Indiana, New York and Georgia.

The typical Railway Commission law, as is found in the legislation of the past year, followed to a very considerable extent the Interstate Commerce law with its various amendments. Public schedules or rates are required, deviation from schedules is prohibited, rebates and discriminations between shippers are punished, and general supervisory power over the railroads is given to the commissions. With these general resemblances, certain points have been noted of particular importance, wherein the laws differ. Elective commissions are provided in Alabama, Colorado, Montana, Oregon, Georgia and Nebraska, while in the other States the commissioners are appointed by the Governor. Power to regulate rates either upon complaint or hearing or after an investigation upon the commissions' own motion, is found in all laws just referred to except New Jersey and Pennsylvania. In Montana and Nebraska, not only may the commissions act upon complaint, but they are required as soon as possible, to make and put into effect a general schedule of rates for the railways of the State.

Power over the classification of freight was given the commission in Alabama, Oregon, Michigan and Indiana, while the mandatory provision of the laws of Montana and Nebraska, relating to the making of rates, also apply to the question of classification. Service furnished by the railroad companies may be regulated under the new laws of Alabama, Colorado, New Jersey, Oregon, Michigan, Indiana and New York. A peculiar provision in the law of Michigan allows fifty freeholders of any municipality, to petition the commission for better railroad facilities and allows the commission, after a hearing, to order the company to furnish the facilities required.

Nearly all of the laws creating railway commissions provide for a review of their decisions by the courts. In Colorado, Vermont and New Jersey, this review is by an appeal from the decision of the commission. The usual figure at which passenger rates were fixed by State laws during this year is two cents a mile. Laws so fixing passenger rates on all railways within the States were passed by the Legislatures of Indiana, Minnesota, Nebraska, Pennsylvania, West Virginia and Illinois, and similar laws applicable to all of the larger roads in the States were passed in Iowa, Missouri, Wisconsin and Tennessee. A rate of two and a quarter cents a mile was enacted in North Carolina, and of two and a half cents a mile in North Dakota and South Dakota. In Kansas the rate was fixed at three cents a mile. One of the most noteworthy of these laws was that of Wisconsin, where the commission had previously carried on an investigation of passenger rates and had ordered a reduction in such rates upon the principal roads from three cents to two and a half cents a mile. This reduction had been acquiesced in by the railroad companies, which were also selling five hundred mile family mileage books at two cents a mile. Bills for a two cent rate on all the principal roads were twice defeated by decisive votes in the Senate, but in the closing days of the session the matter was reconsidered and the two cent bill became a law. In this connection the veto of the two cent fare bill in New York State may also be noted.

Passes or reduced rate transportation, except to various persons connected with the railroad companies, are being very generally prohibited throughout the country. Laws of this nature were enacted this year in Alabama, Iowa, Kansas, Minnesota, Nebraska, Vermont, Texas, South Dakota, New York, Oregon, Michigan and Indiana.

Freight rates were the subject of as much legislation in 1907 as passenger rates. Alabama made a general classification both of railroads and of commodities and fixed a maximum rate on a mileage basis for the various classes. Rates on grain were fixed by the Legislature of Kansas, and upon coal by the Legislature of North Dakota, and Nebraska and Minnesota have enacted laws fixing the maximum freight rate upon various commodities.

The vast increase in the business of railroads during the last two years, together with the failure and inability of the railroad companies to procure enough cars for the handling of freight, has caused considerable dissatisfaction among shippers. There have undoubtedly been great delays, both in the furnishing of cars to shippers and in the movement of the freight after shipment. Such delay is probably sometimes the fault of the railway and sometimes due to a mere physical inability to procure necessary cars as wanted. The Alabama law of 1907 allows the act of God, accident or strike as excuses for delay. The Indiana act provides that the penalty cannot be enforced if the carrier shows that it did not have the cars under control at the time they were required for delivery, and that for a reasonable time prior to the failure and at the time of the failure, it had made a reasonable effort to supply its line with the necessary car equipment to care for the traffic then on its line and such future traffic as it could reasonably anticipate would be offered for shipment. The Kansas proviso is that accident

## STATE LEGISLATION IN 1907—Continued.

or unavoidable cause, which could not, by the use of the usual foresight and diligence, be avoided, will operate as a sufficient excuse. The Minnesota act excepts from the delay time during strikes, public calamities, accidents, or any cause not in the power of the railroad company to prevent. In Vermont the railroad company is excused from furnishing cars if the failure is caused solely by shortage of rolling stock when it has complied with the orders of the commission relating to equipment. The act of Washington enumerates as excuses accidents, sudden congestion of traffic, unavoidable detention or other cause not within the power of the railroad company to prevent. In South Dakota accident or any cause not within the power of the railroad company to prevent are sufficient excuses. Under the law of Oregon upon this subject failure to furnish the cars caused by public calamity, strikes, washouts, acts of God, the public enemy, mobs, riots, wrecks, fires or accidents is excused. Lack of sufficient equipment or facilities is not an excuse except during such times as the railroad commission may suspend that portion of the act. Under the reciprocal demurrage laws of Missouri, North Carolina and North Dakota the penalty is imposed whenever the cars are not furnished on request.

Another feature of nearly all of these reciprocal demurrage laws is the requirement that freight once loaded be moved at a certain minimum rate, usually fifty miles a day. The causes which will excuse failure to furnish cars when requested by the shipper also ordinarily excuse the failure to move freight at the specified rate. These same causes usually also excuse the shipper for failure to unload promptly.

The block system, at present under the investigation of the Interstate Commerce Commission, is a subject upon which no action has been attempted by Congress. Laws of the past year in Minnesota and North Carolina allow the railroad commissions of those States to require the putting in of this system on all lines of railway. The same is the result of a new law of Indiana which begins by requiring the block system on roads earning over \$7,500 per mile, and ends by allowing the commission to relieve the roads from the operation of the act, where compliance is deemed unnecessary.

Some of the States legislated regarding movements of trains. In Iowa a law of this year allows the commission to prescribe the speed of trains carrying live stock, while in Kansas a new law provides that such trains must run at least fifteen miles an hour. In Idaho and North Dakota new laws require that trains which are behind time be bulletined.

**Public Service Companies.**—The movement toward legislation of railroads, which is still in full force in this country, is now being accompanied by a somewhat similar movement for the regulation of other public service corporations. The problem of the corporations which furnish transportation, heat, light, water or telephone service not only to inhabitants of a single municipality but to many suburban and rural districts, is one of increasing importance. Such regulation as has heretofore been attempted has been largely through the medium of the municipal officers at the time of the granting of the franchise. This year has seen an attempt to meet the problem from the point of view of State regulation. Two notable efforts in this direction were the laws known as the Public Service Commissions law of New York and the Public Utility law of Wisconsin.

A tendency opposite to that shown by New York and Wisconsin appeared in a new law of Missouri allowing municipalities to fix rates for public service corporations, such rates to be subject to review by the courts. A law of the year in Pennsylvania also tended in the same direction by allowing municipalities to contract with public service corporations.

A number of the railway commission laws enacted during the year bring express companies within the control of the commissions. In Nebraska the Legislature made a general cut of 25 per cent. in freight rates, while the last Legislature of Florida prescribed the rates which could be charged for five-pound packages.

Telephone companies were regulated by the Public Utility law of Wisconsin. In South Dakota a separate board of telephone commissioners was created. This has general supervision over telephones in the State and may fix maximum rates. It may also upon application of any telephone company order a connection between lines of that company and another company, if public service demands such connection, and the lines of the applicant are in proper condition. In North Carolina the jurisdiction of the Board of Corporation Commissioners was extended over telephone companies.

Gas companies were regulated both under the New York and Wisconsin Public Utility laws. In Indiana a law regulated contracts made with gas companies in cities having a population of 100,000 or over by providing a standard for the gas and fixing a maximum rate of sixty cents per thousand cubic feet. This law has already resulted in legal contests and probably will be the source of considerable litigation.

Laws of the year in Wisconsin applicable to all public service corporations, except telephone companies, and in Iowa applicable to all corporations require a corporation to receive actual value in money for its stock and bonds, or if property is taken in exchange, that a board or commission pass upon the value of such property. The same idea is found in the new Railroad Commission act of Vermont, which allows that commission to pass upon the value of property acquired in railroad consolidations. Under the New York Public Service Commissions law all corporations governed by it cannot issue stock, bonds or evidence of indebtedness without securing from the proper commission an order authorizing the issue and stating that in the opinion of the commission the use of the capital to be secured by such issue is reasonably required for the purposes of the corporation. In Pennsylvania a new law allows the railroad commission to investigate all stocks and bonds issued by any common carrier.

**Public Health and Safety.**—General acts concerning adulteration and misbranding of foods and drugs which follow in their main aspects the Federal law on this subject were enacted in California, Colorado, Indiana, Kansas, Maine, Missouri, Nebraska, New Hampshire, North Dakota, Pennsylvania, South Carolina, Washington, Illinois, New Jersey, Tennessee, Connecticut, South Dakota, Arkansas, Georgia and Oregon. Iowa enacted a series of laws for the same object, while in Minnesota three separate acts covered the labeling of food, the sale of unwholesome articles and ice cream. In Illinois a State food department was created and in South Dakota a dairy and food department was organized. These departments have under their supervision all

STATE LEGISLATION IN 1907—*Continued.*

the administration of Pure Food laws and are similar to those which have existed for a number of years in some of the States.

Drugs are very generally regulated by the same laws which regulate pure food. In Indiana a law of the year prohibits the distribution of samples of drugs or the giving of them to persons under sixteen years of age, while a new law of Iowa prohibited the distribution of such samples on porches, lawns, etc.

Milk received some special consideration from the Legislatures in regard to its purity, use of chemicals for preservation, and the cleansing of utensils in which it is contained.

Water supplies, particularly in the cities, are in great danger of contamination. It is frequently necessary for a city to go to a considerable distance in order to obtain a sufficient water supply, so that State regulation becomes essential to ensure its purity. This matter was placed under the control of the State Board of Health by the Legislature of Kansas. All cities or corporations supplying water to the public are required to file with the board copies of their plans and receive a written permit before the source of supply can be used. The discharge of sewage is also placed under control of the Board of Health. Under a new law of South Carolina every water company or municipality controlling its water supply shall have an analysis of its water at least every three months. In New Jersey a law allows the water boards in cities deriving their water from sources beyond the city limits to construct and maintain drains and sewers in such territory under the supervision of the State sewage commission. The same Legislature provided for a State water supply commission to consist of five persons to be appointed by the Governor. This commission has general supervision of the source of water supply and is required to examine and approve plans of municipalities and water companies for the supply of water.

Poisons have always been under considerable State supervision, but an increasing use of certain drugs seems to demand a further restriction upon their sale. North Carolina carefully regulated the sale of narcotics, while in South Carolina and New York the Legislatures this year regulated the sale of cocaine. Cigarettes were once characterized by the Supreme Court of Tennessee as "inherently bad and bad only." The Supreme Court of the United States refused to take judicial notice of any special injury resulting from their use or to indorse the opinion of the Supreme Court of Tennessee just quoted. The Legislatures of 1907 seem to agree with the Supreme Court of Tennessee rather than with the Supreme Court of the United States, as the sale of cigarettes was forbidden in Minnesota, Washington, Florida, South Dakota and Illinois, although the act in the last State was held unconstitutional by one of the lower courts. The use of cigarettes by minors in public places was prohibited in South Dakota; the use of tobacco by any person under eighteen or by any minor pupil of a school or college was forbidden in Minnesota, and smoking by persons under sixteen years in public places was made a misdemeanor in Wisconsin.

Tuberculosis is now being generally recognized as a disease which can be cured if proper steps are taken in time. The necessity for special treatment of this disease and the inability of the persons most susceptible to it to secure such treatment has resulted in the establishment of special hospitals. During the past year Indiana, Missouri, and North Carolina provided for hospitals for its treatment. Pennsylvania also provided for the establishment of colonies and in Massachusetts three sanitariums are to be built. Another side of the question appeared in a new law of New Jersey which prohibited the establishment of hospitals for the treatment of tuberculosis without securing the consent of the municipality. The prevention of the spread of this disease is apparently sought by laws passed in California and Tennessee forbidding expectoration.

**Local Option.**—This temperance movement has taken various forms. North Dakota this year enacted a law prohibiting the soliciting of orders for liquors, and for a temperance commissioner, whose duty it shall be to see to the enforcement of the liquor laws. In Texas a tax of \$5,000 upon each office of a carrier accepting C. O. D. shipments of liquor was imposed. This tax is evidently for the purpose of destroying interstate shipments. In West Virginia the Legislature provided that no liquor can be drunk on cars, except on regular diners and buffet cars.

Local option in various forms appeared in the laws of this year in a number of States. In Alabama county option is allowed; in Colorado and Illinois the voters of any political subdivision may prohibit the sale of liquor within its limits; in Wisconsin special anti-saloon districts, composed of residence territory, may be organized by petition, and the sale of liquor therein prohibited.

During the past year both Alabama and South Carolina provided for county option upon the question of the sale of liquor at dispensaries within the county. Georgia passed a strict prohibitory law.

**Roads.**—One of the noticeable features of road legislation of the year was the tendency toward entrusting the road work to the larger units. In many cases the State is taking hold of the road problem, either by the creation of State roads or by State supervision of the subject. In California the Legislature created a State department of engineering, among whose duties are the supervision of road work, while at the same time Missouri provided for a State highway engineer. In Idaho and Vermont a State highway commission was created. West Virginia provided for a State highway inspector and Tennessee for a State highway commissioner. Direct aid in the building of roads was provided for by Maine, Missouri, and Washington, and the Wisconsin Legislature submitted to the voters the question of amending the constitution so as to allow State aid in building roads.

**Labor.**—Direct restriction of the hours of labor of women was attempted in a number of States, although the recent decision of the New York Court of Appeals declaring unconstitutional the laws of that State forbidding the employment of women in factories after nine o'clock at night, caused some doubt as to the constitutionality of general restrictions. During the year New Hampshire, Connecticut, and Oregon enacted laws limiting the number of hours per day or week which women may work, and South Carolina restricted their hours of work in woollen mills.

Child labor has received great attention during recent years, and there now exists a national association for the purpose of securing State legislation upon this subject. The state of public feeling was also indicated by the general discussion over the power

## STATE LEGISLATION IN 1907—Continued.

of Congress to legislate upon the matter. The laws upon this subject passed during the year were very numerous, and a detailed consideration of their provisions would serve no particular purpose. A very usual provision is the requirement of a permit from certain officers before children under sixteen are allowed to be employed. This permit is usually based upon certain proofs of age and requirements as to education and school attendance. Labor of such children in various dangerous occupations is forbidden. The minimum age at which employment by permit is allowed is twelve in some States and fourteen in others. New laws on this subject or laws making substantial changes in the previous laws were passed this year in Alabama, California, Idaho, Maine, Minnesota, Montana, Nebraska, Washington, Wisconsin, Florida, Georgia, and New York.

**Divorce.**—Divorce has received the attention of those interested in uniform legislation. The scandal which has resulted from the great diversity of marriage laws, and the confusion which followed the decisions of the Supreme Court of the United States, resulted in the calling of a conference by Governor Pennypacker, of Pennsylvania. This met at Washington in February, 1906, at which forty States, the District of Columbia, and the Territory of New Mexico were represented. A draft of a proposed uniform divorce law was considered, and at an adjourned meeting of this conference held at Philadelphia in November, 1906, the final draft was submitted for adoption by the Legislatures. The act proposed has been adopted this year in Delaware and New Jersey.

It covers the causes of an annulment of divorce and the establishment of limited and absolute divorce, the adoption of a uniform rule governing the acquiring of jurisdiction, and a like rule covering the subject of the faith and credit to be given decrees of divorce obtained in other States. Causes for annulment recommended are impotency, consanguinity and affinity, existing marriage, fraud, force, or coercion, insanity unknown to the other party, marriage where the wife was under sixteen or the husband under eighteen, unless confirmed after arriving at such age. The causes of divorce *a vinculo* are adultery, bigamy, conviction of certain crimes, extreme cruelty, wilful desertion for two years, and habitual drunkenness. Causes for divorce *a mensa* are adultery, extreme cruelty, wilful desertion for two years, hopeless insanity of husband, and habitual drunkenness. The congress, however, recommended that no additional cause be recognized in any State. The question of jurisdiction is made to depend upon a two years' residence in the State where the divorce is sought, except that in case of adultery or bigamy residence at the time the cause of action arose is sufficient. Where the cause of action arose in another State in which the party resided at the time, such cause must have been recognized as a ground for divorce in such other State. If the defendant is a non-resident, jurisdiction may be acquired by publication, followed, where practicable, by notice to the defendant. Full faith and credit is to be given to decrees in courts of competent jurisdiction in other States where the jurisdiction was obtained in substantial conformity to the act, except that if any person goes into another State to obtain a divorce for a cause which occurred while the parties resided in the first State, or for a cause not ground for divorce under the laws of that State, the divorce is to have no effect. An absolute decree is not to be entered until one year after the decree *mensa*.

Some of the States made slight modifications of their divorce laws during the year. In Iowa the marriage of divorced persons within a year was prohibited, except that the persons divorced may re-marry. An additional ground for divorce, and one not recommended by the congress on divorce legislation, was provided in Maine, namely, commitment to the State Asylum for the Insane for fifteen consecutive years prior to the suit, where the insanity is found to be incurable. The Legislature of South Dakota attempted to extend the period of residence required for divorce to one year, but this was made subject to referendum petition and must be approved by the voters at the election of 1908 before it can go into effect.

**Miscellaneous.**—In Illinois and Michigan all tickets to theatres or other places of public entertainment must have the price printed thereon, and the sale of the same either by the proprietors or other persons at an excess price is made a misdemeanor. It is understood that the enforcement of the law is being contested by the theatres in Chicago.

Memorial Day received attention from the Legislatures in acts restricting sports on that day. These are entirely prohibited in Kansas, before 3 P. M. in Iowa and between 10 A. M. and 3 P. M. and within half a mile of the exercises in Minnesota, while South Dakota provided that city councils and school boards may appropriate money for Memorial Day exercises.

The Legislatures of California, Kansas, and Oregon attempted to stimulate patriotism by providing that the United States flag must fly over all schools during school hours. Idaho and Pennsylvania adopted State flags.

In Wisconsin members of the National Guard were protected by a law which punishes any person who deprives a member of the Guard of employment or prevents his being employed, or who dissuades any person from enlisting in the Guard by threat of injury.

Sunday as a day of rest was assured by a new law of Oregon, while an act in Massachusetts provided that no person shall be required to work on Sunday unless he is allowed twenty-four hours' consecutive rest during the next six days. The Legislature of Indiana required barber shops to be closed on Sunday.

The great vogue of the magazine article which exposes corruption, and the injustice which may be done persons perfectly innocent because of hasty and inaccurate statements in those publications, is probably responsible for an act in New York, which required that, after July 1, 1907, every newspaper and magazine published in the State should publish in every copy upon the cover or at the head of the editorial page the full name and address of the owner or proprietor of such publication, or if it is owned and published by a corporation, the name of the corporation, the address of its principal place of business, together with full names and addresses of the president, secretary, and treasurer, or if published by a partnership or a joint stock association, then the full name and addresses of the partners or officers and managers of the association.

Under a new law of Kansas news agencies must furnish to all daily papers news service, when demanded by such papers, and no telegraph or telephone company is to allow the use of its wires to any agency which so refuses.

**Progress of the United States  
IN AREA, POPULATION, AND MATERIAL INDUSTRIES.**

After that period gold was available for circulation. *h* Total specie in circulation: gold and silver not separately stated prior to 1880. *i* Includes notes of Bank of United States, State bank notes, demand notes of 1862 and 1863, fractional currency, 1863 to 1878, treasury notes of 1890, 1891 to date; and currency certificates, act of June, 8, 1872, 1892 to 1900. *j* 1905. *k* Exclusive of neighborhood industries and hand trades, included in previous years. *l* "Net ordinary receipts" include receipts from customs, internal revenue, direct tax, public lands, and "miscellaneous." *m* "Net ordinary expenses" include expenditures for war, navy, Indians, pensions, and "miscellaneous." *n* Imports for consumption after 1850. *o* Domestic exports only after 1850. *p* Estimate of the director of the mint. *q* Last six months of 1891. *r* Western Union to 1880; includes Postal Telegraph after 1880. *s* Not including messages sent by Western Union over leased wires or under railroad contracts. *t* After 1850, from Rowell's Newspaper Directory. *†* 1850, includes aliens not immigrants; fifteen months ending December 31; after 1850, fiscal years.

The Capitol at Washington.

The Capitol is situated in latitude 38° 53' 20".4 north and longitude 77° 00' 35".7 west from Greenwich. It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac.

The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is 153,112 square feet.

The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds.

The dome is crowned by a bronze statue of Freedom, which is nineteen feet, six inches high and weighs 14,985 pounds. It was modelled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches.

The rotunda is ninety-seven feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches.

The Senate Chamber is one hundred and thirteen feet three inches in length, by eighty feet three inches in width, and thirty-six feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is one hundred and thirty-nine feet in length, by ninety-three feet in width, and thirty-six feet in height.

The southeast corner-stone of the original building was laid September 18, 1793, by President Washington with Masonic ceremonies. The corner-stone of the extensions was laid July 4, 1851, by President Fillmore.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

**Statistics of Strikes and Lockouts.**

THE twenty-first annual report of the Commissioner of Labor dealing with the subject of strikes and lockouts in the United States during the years 1881 to 1905, inclusive, a period of twenty-five years, was issued June 5, 1907.

The following tables extracted from the report show the number, duration, causes and result of strikes during the period under observation.

NUMBER OF STRIKES AND LOCKOUTS.

YEAR.	STRIKES.				LOCKOUTS.					
	Number.	Establishments.		Strikers.	Employees thrown out of work.	Number.	Lockouts.		Employees thrown out of work.	
		Number.	Average per Strike.				Number.	Number.

A greater number of strikes occurred in the building trades than in any other industry. In that industry during the years from 1881 to 1905 there were 9,564 strikes, 69,899 establishments involved, 917,905 strikers, and 1,083,699 employees thrown out of work in the establishments involved in strikes.

The coal and coke industry was second in importance so far as number of strikes and establishments involved were concerned, but first in number of strikers and employees thrown out of work. In the coal and coke industry there were 3,336 strikes, 17,025 establishments involved, 2,006,353 strikers, and 2,460,743 employees thrown out of work.

DURATION OF STRIKES AND LOCKOUTS.

The presentation of strikes by years shows that the average duration per establishment for the twenty-five years from 1881 to 1905 was 25.4 days. During these years the average duration of strikes varied from 12.7 days in 1881 to 35.5 days in 1904. Of all establishments involved in strikes during these years 61.38 per cent. were closed, and the average number of days closed per establishment was 20.1. The per cent. of establishments in which strikes occurred which were closed by strikes varied from 45.54 per cent. in 1905 to 85.82 per cent. in 1895. The average days closed per establishment varied from 12.1 in 1881 to 36.9 in 1894.

The average duration of strikes per establishment varied from 4.6 days in agriculture to 83.2 days in ore mining. Industries showing high averages are pottery, 66.5 days; gloves and mittens, 54.6 days; coal and coke, 50.9 days.

An interesting statement in the report is the one showing the per cent. of establishments involved which were closed by strikes. The percentages varied from 9.72 per cent. in slaughtering and meat packing to 96.71 per cent. in coal and coke. Industries showing a low percentage of establishments closed were lithographing 10 per cent. and car building 13.68 per cent. Industries showing a high percentage of establishments closed were water transportation 92.46 per cent., women's clothing 85.20 per cent., ore mining 84.55 per cent., laundry work 83.82 per cent., and men's clothing 82.86 per cent. The average days closed varied from 3.1 in blacksmithing and horseshoeing to 103.4 in the manufacture of pottery.

The average duration of all lockouts per establishment during the twenty-five-year period, 1881 to 1905, was 84.6 days, the percentage of establishments involved which were closed was 68.25 per cent., and the average days closed per establishment were 40.4.

The average duration per establishment varied from twenty-seven days in 1901 to 265.1 days in 1900, the percentage of establishments closed from 30.65 per cent. in 1899 to 91.89 per cent. in 1900, and the average days closed from 10.4 days in 1901 to 95.8 days in 1900.

In the building trades—the industry in which lockouts were of most frequent occurrence—the average days of duration per establishment was 105.3, the percentage of establishments closed was 72.49 per cent., and the average days closed per establishment 49.3. In men's clothing the average duration was 33.3 days, the per cent. closed 86.30, and the average days closed 32.6.

STRIKES AND LOCKOUTS SETTLED BY JOINT AGREEMENT AND ARBITRATION, 1901 TO 1905.

## Patent Office Procedure.

THE following statement has been revised by the Patent Office for THE WORLD ALMANAC for 1908: Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specification for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

### APPLICATIONS.

Applications for a patent must be made in writing to the Commissioner of Patents. The applicant must also file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor and attested by two witnesses.

When the nature of the case admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact, and attested by two witnesses. In all cases which admit of representation by model, the applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more than twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, charge d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge or magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the same is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

### REISSUES.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more than he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

### CAVEATS.

A caveat, under the patent law, is a notice given to the office of the caveator's claim as inventor, in order to prevent the grant of a patent to another for the same alleged invention upon an application filed during the life of a caveat without notice to the caveator.

Any person who has made a new invention or discovery, and desires further time to mature the same, may, on payment of a fee of ten dollars, file in the Patent Office a caveat setting forth the

PATENT OFFICE PROCEDURE—Continued.

object and the distinguishing characteristics of the invention, and praying protection of his right until he shall have matured his invention. Such caveat shall be filed in the confidential archives of the office and preserved in secrecy, and shall be operative for the term of one year from the filing thereof. The caveat may be renewed, on request in writing, by the payment of a second fee of ten dollars, and it will continue in force for one year from the payment of such second fee. The caveat must comprise a specification, oath, and, when the nature of the case admits of it, a drawing, and, like the application, must be limited to a single invention or improvement.

**FEES.**

Fees must be paid in advance, and are as follows: On filing each original application for a patent, \$15. On issuing each original patent, \$20. In design cases: For three years and six months, \$10; for seven years, \$15; for fourteen years, \$30. On filing each caveat, \$10. On every application for the reissue of a patent, \$30. On filing each disclaimer, \$10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed copies of specifications and drawings of patents, for single copies, or any number of unclassified copies, five cents each; for copies by subclasses, three cents each; by classes, two cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, \$1; of over three hundred and under one thousand words, \$2; of over one thousand words, \$3. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of any drawing, foreign or domestic, in the possession of the office, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12½ inches, fifteen cents. Fee for examining and registering trade-mark, \$10, which includes certificate. Stamps cannot be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

**PATENT OFFICE STATISTICS.**

The receipts of the Patent Office during the year ending December 31, 1906, were \$1,790,921.38, and expenditures, \$1,554,890.20. Receipts over expenditures, \$236,031.18.

The following is a statement of the business of the office for the year ending December 31, 1906:

Number of applications for patents.....	55,471	Number of patents granted, including designs.....	31,806
Number of applications for design patents	806	Patents reissued.....	159
Number of applications for reissue patents	205	Total.....	31,965
Total.....	56,482	Number of trade-marks registered.....	10,568
Number of caveats filed.....	1,885	Number of labels registered.....	709
Number of applications for registration of trade-marks.....	8,493	Number of prints registered.....	656

Number of appeals on the merits.....	1,390	Number of applications allowed awaiting final fees.....	10,800
Total.....	13,040	Number of trade-mark applications passed for publication.....	11,756
Number of applications, etc., requiring investigation and action.....	10,602		

The total number of applications filed at the Patent Office in seventy years, 1837-1906, was 1,465,986; number of caveats filed, 123,176; number of original patents, including designs and reissues issued, 890,650; net surplus in the U. S. Treasury on account of the patent fund, \$6,427,021.86.

The following is a statement of patents and designs issued in 1906 according to residence of patentees:

Alabama, 131; Alaska, 11; Arizona, 37; Arkansas, 120; California, 1,115; Colorado, 383; Connecticut, 845; Delaware, 49; District of Columbia, 236; Florida, 78; Georgia, 224; Hawaii, 17; Idaho, 64; Illinois, 3,107; Indiana, 782; Indian Territory, 61; Iowa, 691; Kansas, 335; Kentucky, 267; Louisiana, 164; Maine, 151; Maryland, 303; Massachusetts, 1,675; Michigan, 952; Minnesota, 503; Mississippi, 100; Missouri, 957; Montana, 96; Nebraska, 275; Nevada, 12; New Hampshire, 81; New Jersey, 1,298; New Mexico, 28; New York, 4,642; North Carolina, 144; North Dakota, 85; Ohio, 2,167; Oklahoma, 130; Oregon, 161; Panama, 3; Pennsylvania, 3,014; Philippine Islands, 3; Porto Rico, 3; Rhode Island, 303; South Carolina, 74; South Dakota, 98; Tennessee, 356; Texas, 437; Utah, 79; Vermont, 87; Virginia, 267; Washington, 327; West Virginia, 203; Wisconsin, 653; Wyoming, 30; U. S. Army, 7; U. S. Navy, 8; U. S. Revenue Service, 1. Total, 28,335.

Foreign countries. Austria-Hungary, 133; Belgium, 61; Canada, 461; Cuba, 8; Denmark, 28; England, 852; France, 314; Germany, 991; Italy, 34; Jamaica, 2; Mexico, 25; Russia, 28; Scotland, 66; Sweden, 61; Switzerland, 78; other countries, 329. Total foreign, 3,471.

**GENERAL PATENT STATISTICS.**

The following table is compiled from the report of the Commissioner of Patents for 1907. It exhibits the number of patents issued by foreign countries and the United States from the earliest records to December 31, 1906:

COUNTRIES.	To 1870 Inclusive.	1871 to 1906.	Total.	COUNTRIES.	To 1870 Inclusive.	1871 to 1906.	Total.

## United States Executive Civil Service.

(Revised for this issue of THE WORLD ALMANAC by the Secretary of the Civil Service Commission.)

The purpose of the Civil Service act, as declared in its title, is "to regulate and improve the Civil Service of the United States." It provides for the appointment of three Commissioners, a chief Examiner, a Secretary, and other employees, and makes it the duty of the Commissioners to aid the President as he may request in preparing suitable rules for carrying the act into effect; to make regulations to govern all examinations held under the provisions of the act, and to make investigations and report upon all matters touching the enforcement and effect of the rules and regulations. The address of the Commission is Washington, D. C.

### PROVISIONS OF THE RULES.

The act requires the rules to provide, as nearly as the conditions of good administration will warrant, for open competitive practical examinations for testing the fitness of applicants for the classified service; for the filling of all vacancies by selections from among those graded highest; for the apportionment of appointments at Washington among the States upon the basis of population; for a period of probation before absolute appointment; that no person in the public service shall be obliged to contribute service or money for political purposes; and that no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

### EXTENT OF THE SERVICE.

There are about 327,000 positions in the Executive Civil Service, over half of which, or 184,178, are subject to competitive examination. The expenditure for salaries in the Executive Civil Service is over \$200,000,000 a year. The Civil Service act does not require the classification of persons appointed by the President and confirmed by the Senate or of persons employed merely as laborers or workmen. Many positions are excepted in part from the provisions of the rules for various reasons, the largest single class being those of fourth-class postmasters, of which there were 60,592 on January 1, 1906.

### APPLICATIONS.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service, and the Government Printing Service should be requested directly of the Civil Service Commission at Washington. The blank for the Customs, Postal, or Internal Revenue Service should be requested of the Civil Service Board of Examiners at the office where service is sought.

Applicants for examination must be citizens of the United States, and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds or sickness incurred in the line of duty.

### EXAMINATIONS.

The examinations are open to all persons qualified in respect to age, citizenship, legal residence, character, and health. During the fiscal year ended June 30, 1907, 115,706 persons were examined, 90,301 passed, and 38,541 were appointed. Of those appointed, 9,159 were rural letter-carriers. In addition to these, mechanics and workmen at navy yards are appointed on registration tests of fitness given by a board of labor employment at each yard. During the year, 20,658 applications were made; 20,435 were registered, and 10,495 were appointed. Nearly seven hundred different kinds of examinations were held, each one of which involved different tests. Two hundred and forty-eight of these examinations contained educational tests, the others being for mechanical trades or skilled occupations and consisting of certificates of employers or fellow-workmen. Examinations are held twice a year in each State and Territory, the places and dates being publicly announced.

### APPOINTMENTS.

In case of a vacancy not filled by promotion, reduction, transfer, or reinstatement, the highest three of the sex called for on the appropriate register are certified for appointment, the apportionment being considered in appointments at Washington. In the absence of eligibles, or when the work is of short duration, temporary appointments, without examination, are permitted. The number of women applying for ordinary clerical places is greatly in excess of the calls of appointing officers. The chances of appointment are good for teachers, matrons, seamstresses, and physicians in the Indian Service, for male stenographers and typewriters, draughtsmen, patent examiners, civil, mechanical, and electrical engineers, and for technical and scientific experts.

### PREFERENCE CLAIMANTS.

Persons who served in the military or naval service of the United States, and were discharged by reason of disabilities resulting from wounds or sickness incurred in the line of duty, are, under the Civil Service rules, given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

### INSULAR POSSESSIONS.

Examinations are also held for positions in the Philippines, Porto Rico, and Hawaii, and also for the Isthmian Canal service.

### THE UNCLASSIFIED SERVICE.

Under an executive order unclassified laborers are appointed after open, competitive examination upon their physical condition. This action is outside the Civil Service act.

### PUBLICATIONS OF THE COMMISSION.

Among the publications of the Commission for free distribution are the following: Manual of Examinations, giving places and dates of examinations, rules by which papers are rated, descriptions of examinations, specimen questions, and general information.

The Civil Service Act and Rules.  
The Annual Reports of the Commission, showing its work. These annual reports, of which twenty-three have been issued, may be consulted at public libraries.

## Civil Service Rules in the City of New York.

SYNOPSIS of regulations governing the admission of persons into the civil service of the City of New York. Information may also be had by applying to the Secretary of the Municipal Civil Service Commission, 299 Broadway, New York City.

Under the White Civil Service law, Chapter 370, Laws of 1899, April 19, the rules apply to all positions in the service of the City of New York except officers elected by the people, all legislative officers and employes, heads of any department, or superintendents, principals, or teachers in a public school, academy, or college. This requires "examinations, wherever practicable, to ascertain the fitness of applicants for appointment to the civil service of said city." The Constitution requires that these examinations shall be competitive, "so far as practicable."

### APPLICATIONS.

Applications of competitors for positions must be addressed to the "Secretary of the Municipal Civil Service Commission, New York City," and must set forth:

Applications are only received when an examination is ordered for a position.

First—The affidavit of the applicant showing his age, whether a citizen of the United States, giving his place of residence, with the street and number thereof, if any; the place, nature, and extent of his education, and of his business training and experience, and stating whether he has ever been in the civil service of the City of New York, or in the military or naval service of the United States, and if so, when and where.

Second—A statement whether such application is limited to any particular office in the service.

Third—The certificate of four reputable persons of the City of New York, that they have been personally acquainted with the applicant for at least one year, and believe him to be of good moral character, of temperate and industrious habits, and in all respects fit for the service he wishes to enter, and that each of them is willing that such certificate should be published for public information, and will upon request give such further information concerning the applicant as he may possess.

Applicants for the following positions must, before being admitted to examination, present satisfactory evidence as to the following facts:

First—If the position to be filled be that of physician, surgeon, medical officer, inspector of vaccination, or sanitary inspector, that the applicant is duly authorized by the laws of the State of New York to practise medicine and surgery. Second—If the position to be filled be that of chemist or analyzer, that the applicant has received the degree of Bachelor of Sciences, or its equivalent, from some institution duly authorized by law to confer such degree.

In positions where the duties are professional, technical, or expert, the candidates will be required to show what preliminary training or technical education they have undergone to qualify them for such situations before they can be admitted to examination.

In all examinations for professional positions, or positions requiring technical knowledge, no person shall be placed on the eligible list who obtains a rating in technical knowledge of less than 75.

### CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose. Each applicant shall receive a number which shall be indorsed upon his notification when produced, and the notifications so indorsed shall be sealed in an envelope. Each applicant shall sign his examination papers with his number, omitting his name, and the envelope shall not be opened until all the examination papers have been received and the markings and gradings made.

All paper upon which examinations are to be written shall be furnished to the applicants by the examining board and shall bear some suitable official indorsement, stamp, or mark, for the purpose of identifying the same.

All examinations shall be in writing, except such as refer to expertness or physical qualities, and except as herein otherwise provided.

The sheets of questions shall be numbered and shall be given out in the order of their numbers, each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission; and no questions given out at any session, to any candidate, shall be allowed to be answered at another session.

Each examiner shall exercise all due diligence to secure fairness and prevent all collusion and fraud in the examinations.

The time allowed for completing the examination shall be announced before the first paper is given out.

The following municipal departments and offices come under jurisdiction of Civil Service rules:

Accounts, Com. of.	City Record, Supervisor of the.	Elections, Board of.	Parks, Dept. of.
Armory, Board of.	Civil Service Commission.	Estimate and Apportionment,	Police Dept.
Assessors, Board of.	College of the City of New York.	Board of.	Presidents of Boroughs.
Aqueduct Commission.	Correction, Dept. of.	Examiners, Board of.	Public Works Bureau.
Bath and Allied Hospitals.	Coroners.	Finance Dept.	Sinking Fund Commission.
Board of Water Supply.	Court, City.	Fire Dept.	Street Cleaning, Dept. of.
Bridges, Dept. of.	Court, City Magistrate.	Health Dept.	Taxes and Assessm'ts, Dept. of.
Brooklyn Disciplinary Training	Court, Munic. p.l.	Law Dept.	Tenement House Dept.
School for Boys.	Court of Special Sessions.	Mavor's Office.	Water Supply, Gas, and Elec-
Buildings, Dept. of.	Docks and Ferries, Dept. of.	Normal College.	tricity, Dept. of.
Charities, Dept. of Public.	Education, Dept. of.		

The inspectors of elections and poll clerks are exempt from examination. Special patrolmen, appointed pursuant to section 269 of the New York City Consolidation act, are also exempt.

## General Service Pension Law.

CHAPTER 463 of the acts of the Fifty-ninth Congress, second session, entitled "An act granting pensions to certain enlisted men, soldiers and officers who served in the civil war and the war with Mexico," approved February 6, 1907, provides a pension for all veteran soldiers of the Mexican and civil war who have reached the age of sixty-two years, irrespective of physical disability. The following is the text of the act:

Be it enacted, etc. That any person who served ninety days or more in the military or naval service of the United States during the late civil war or sixty days in the war with Mexico, and who has been honorably discharged therefrom, and who has reached the age of sixty-two years or over, shall, upon making proof of such facts according to such rules and regulations as the Secretary of the Interior may provide be placed upon the pension roll, and be entitled to receive a pension as follows: In case such person has reached the age of sixty-two years, twelve dollars per month; seventy years, fifteen dollars per month; seventy-five years or over, twenty dollars per month; and such pension shall commence from the date of the filing of the application in the Bureau of Pensions after the passage and approval of this act: *Provided*, That pensioners who are sixty-two years of age or over, and who are now receiving pensions under existing laws, or whose claims are pending in the Bureau of Pensions, may, by application to the Commissioner of Pensions in such form as he may prescribe, receive the benefits of this act; and nothing herein contained shall prevent any pensioner or person entitled to a pension from prosecuting his claim and receiving a pension under any other general or special act. *Provided*, That no person shall receive a pension under any other law at the same time or for the same period that he is receiving a pension under the provisions of this act. *Provided further*, That no person who is now receiving or shall hereafter receive a greater pension under any other general or special law than he would be entitled to receive under the provisions herein shall be pensionable under this act.

Section 2. That rank in the service shall not be considered in applications filed hereunder.

Section 3. That no pension attorney, claim agent, or other person shall be entitled to receive any compensation for services rendered in presenting any claim to the Bureau of Pensions, or securing any pension under this act.

## The Public Health.

PROVISION for the Public Health is made by the United States under the following regulations:

The Surgeon-General of the Public Health and Marine-Hospital Service is charged with the supervision of the marine hospitals and other relief stations of the service and the care of sick and disabled seamen taken from merchant vessels of the United States (ocean, lake and river) and vessels of the Light-House Service and officers and men of the Revenue-Cutter Service, Coast and Geodetic Survey, and surfmen of the Life-Saving Service. This supervision includes the purveying of medical and other supplies, the assignment of orders to medical officers, the examination of requisitions, vouchers, and property returns, and all matters pertaining to the service.

Under his direction all applicants for pilots' licenses are examined for the detection of color-blindness. Ordinary seamen on request of the master or agent are examined physically to determine their fitness before shipment, and a like examination is made of the candidates for admission to the Revenue-Cutter Service and candidates for appointment as surfmen in the United States Life-Saving Service. He examines also and passes upon the medical certificates of claimants for pensions under the laws governing the Life-Saving Service.

Under the act of February 15, 1893, he is charged with the framing of regulations for the prevention of the introduction and spread of contagious disease and is also charged with the conduct of the quarantine service of the United States.

Under the act of July 1, 1902, the name of the Marine-Hospital Service was changed to that of the Public Health and Marine-Hospital Service, and the Surgeon-General, in the interest of the public health, is authorized to call conferences at least once a year of the State and Territorial boards of health, quarantine authorities, and State health officers (the District of Columbia included) for the purpose of considering matters relating to the public health.

Under the law he is charged with the direction of the hygienic laboratory for the investigation of contagious and infectious disease and other matters relating to the public health; with the publication of the weekly Public Health Reports of the United States, including the collection and publication of vital statistics, and is responsible for the proper enforcement of the "Act to regulate the sale of viruses, serums, toxins, and analogous products in the District of Columbia, to regulate interstate traffic in said articles, and for other purposes," approved July 1, 1902.

Under the law of March 28, 1890, known as the Interstate-Quarantine Law, he is charged with preparing the rules and regulations, under direction of the Secretary of the Treasury, necessary to prevent the introduction of certain contagious diseases from one State to another.

## International Bureau of the American Republics.

THE International Bureau of the American Republics was established under the recommendation of the First International American Conference, held in the City of Washington in 1890 for the purpose of maintaining closer relations between the several Republics of the Western Hemisphere. It was reorganized by the Second International American Conference, held in the City of Mexico in 1901, and its scope widened by imposing many new and important duties. A prominent feature of the new arrangement was the foundation of the Columbus Memorial Library. The International Bureau corresponds, through the diplomatic representatives of the several governments in Washington, with the executive departments of these governments, and is required to furnish such information as it possesses or can obtain to any of the Republics making requests. It is the custodian of the archives of the International American Conferences, and is especially charged with the performance of duties imposed upon it by these conferences. The International Bureau is sustained by contributions from the American Republics in proportion to their population, and is governed by a board composed of the diplomatic representatives at Washington from the several countries composing the Union, and the Secretary of State, who is ex-officio its chairman. It publishes a monthly bulletin containing the latest official information respecting the resources, commerce, and general features of the American Republics, as well as maps and geographical sketches of these countries, which publications are considered public documents, and as such are carried free in the mails of all the Republics of the Union.

## Statistics of Manufactures in the United States.

(CENSUS OF 1905.)

THE census of manufactures of 1905, which covered the calendar year 1904 and included continental United States and Alaska, was the first in which the canvass was confined to establishments conducted under what is known as the factory system, thus excluding the neighborhood industries and hand trades. The statistics for these mechanical trades have been a confusing element in the census of manufactures, and their omission confines the data to a presentation of the true manufacturing industries of the country. To secure comparable figures for 1900, which included neighboring industries, hand trades, and educational, eleemosynary, and penal institutions, it was therefore necessary to revise the published reports of the Twelfth Census. In comparing the results of the present census with those of former censuses, the different methods should be considered.

The revision of the published statistics for 1900, necessary for purposes of comparison, involved considerable difficulty. Certain industries, such as custom millinery, custom tailoring, dressmaking, taxidermy, cobbling, carpentering, and custom grist and saw mills were wholly omitted. But the only available information on which to base the elimination of nonfactory establishments for industries, which included factories as well as local establishments, was that contained in the original reports from these establishments, and those reports were not collected with such segregation in view. It was found that some establishments, which in 1900 did little real manufacturing, had in the five years developed into true factories. On the other hand, in certain establishments the strictly manufacturing operations conducted in 1900 had later been discontinued, although the establishments were still in business doing custom or repair work only. The latter class, however, was composed mainly of small establishments, and, except as to the number reported, their inclusion or omission has little effect on the statistics.

Reports were not secured from small establishments in which manufacturing was incidental to mercantile or other business; or from establishments in which the value of the products for the year amounted to less than \$500; or from educational, eleemosynary and penal institutions; or from governmental establishments. The census of 1905, however, was not confined to an enumeration of large factories.

The statistics for the manufacturing industries of the country under the revised conditions, for the censuses of 1900 and 1905 are summarized in the following table:

	1905.	1900.	Per ct. of increase.		1905.	1900.	Per ct. of increase.

For 1907 the value of paraffin and paraffin wax exported was \$8,808,245. Manufactures constituted 35.11 per cent. of total exports from the United States in 1906.

PRODUCTION IN THE GREAT MANUFACTURING COUNTRIES.

(Compiled by the Chief of the Bureau of Statistics, Department of Commerce and Labor.)

COUNTRIES.	1888.	1900.	INCREASE.	
			Amount.	Per Cent.
United Kingdom.....	\$3,990,000,000	\$5,000,000,000	\$1,010,000,000	25
Germany.....	2,837,000,000	4,600,000,000	1,763,000,000	62
France.....	2,360,000,000	3,450,000,000	1,090,000,000	46
Total.....	\$9,187,000,000	\$13,030,000,000	\$3,863,000,000	42
United States.....	\$7,022,000,000	\$13,004,000,000	\$5,982,000,000	85

These figures are in all cases estimates, except those of the United States Census of 1900, which are for gross production. The figures for 1888 are Mulhall's.

STATISTICS OF MANUFACTURES IN THE UNITED STATES—Continued.

**Slaughtering and Meat Packing.**

(From Census Bulletin No. 83.)

The number of wholesale establishments engaged in slaughtering and meat packing during the calendar year 1904 was 929, and their combined capital was \$237,714,690. They furnished employment to 74,134 wage-earners, paid \$40,326,972 in wages, consumed materials costing \$805,856,969, and manufactured products to the value of \$913,914,624.

**ILLINOIS THE LEADING STATE.**

Although forty-one States and Territories contributed to these figures, the industry was practically monopolized by the following fourteen States, named in the order of value of products: Illinois, Kansas, New York, Nebraska, Missouri, Massachusetts, Pennsylvania, Iowa, Indiana, Ohio, California, Minnesota, New Jersey, and Wisconsin. Illinois, by far the most important State, reported 7.3 per cent. of the establishments, 33.9 per cent. of the capital, 36.4 per cent. of the wage-earners, 36.1 per cent. of the wages paid, and 34.7 per cent. of the products.

**THE NUMBER OF ANIMALS SLAUGHTERED ANNUALLY.**

During the calendar year about 7,000,000 beeves, 11,000,000 sheep, and 31,000,000 hogs were slaughtered for use in this industry. The beeves cost about \$289,000,000, the sheep about \$44,000,000, and the hogs about \$330,000,000. In addition, the establishments slaughtered other animals to the value of about \$13,000,000; they purchased about \$53,000,000 worth of meat already dressed, and paid about \$72,000,000 for other materials, including mill supplies and freight.

**FRESH BEEF PRINCIPAL PRODUCT.**

The leading product of the industry was beef sold fresh, of which 3,748,055,377 pounds were produced, valued at \$247,096,724. Salt pork was the second product in respect to quantity, slightly exceeding hams, smoked bacon, sides, and shoulders; but the smoked products were of greater aggregate value. Each of these products, and also pork sold fresh and refined; lard exceeded in quantity 1,000,000,000 pounds. The value varied from nearly \$75,000,000 for the refined lard to over \$132,000,000 for the smoked products.

The quantity of most of the more important products increased between the censuses of 1900 and 1905. For fresh beef the increase was over 800,000,000 pounds, or 28.5 per cent.; for salt pork, over 185,000,000 pounds, or 13.7 per cent., for refined lard, over 150,000,000 pounds, or 17.7 per cent., and for fresh pork, nearly 3,000,000 pounds, or 2 per cent. The quantity of hams, smoked bacon, sides, and shoulders, on the other hand, decreased over 490,000,000 pounds, or 22.8 per cent. Canned beef, salted and cured beef, and neutral lard also decreased in quantity.

**Manufactured Ice.**

The manufacture of ice is a comparatively new industry, and its growth has been remarkable. In 1870 the industry had hardly made a beginning. But in the thirty-five years from 1870 to 1905 the number of establishments engaged primarily in the manufacture of ice for sale increased from 4 to 1,320; their combined capital, from \$434,000 to \$66,592,001; the average number of wage-earners, from 97 to 10,101; the wages paid, from \$40,600 to \$5,549,162; the cost of materials, from \$82,165 to \$6,011,325, and the value of products, from \$258,250 to \$23,790,045. These figures show that the industry has now passed far beyond the experimental stage.

It has gained a foothold, in fact, in every State and Territory except Maine. New Hampshire, Vermont, Michigan, Minnesota, North Dakota, South Dakota, Montana, and Wyoming, all of which States are well located for the production of natural ice. Even in these States, however, although no establishments are engaged primarily in the manufacture of ice for sale, the refrigeration process is used in cold-storage warehouses.

**STATES AND CITIES.**

The leading States, according to the number of establishments, were Texas, Pennsylvania, Ohio, Indiana, Louisiana, New York, California, and Missouri. According to the quantity of ice produced, however, the leading States were Pennsylvania, New York, Ohio, Texas, Missouri, California, Louisiana, Indiana, Illinois, and New Jersey.

Among the cities having a population of 20,000 and over in 1900, New York ranked first in the number of tons of manufactured ice reported at the census of 1905. Philadelphia, Pa., ranked second; St. Louis, Mo., third; Baltimore, Md., fourth, and New Orleans, La., fifth. The figures for cities, when compared with those for the States in which the cities lie, show that the manufacture of ice is largely an urban industry.

**GREAT INCREASE IN PRODUCTION.**

At the census of 1905 the establishments reported a production of 7,199,448 tons of manufactured ice, with a total value of \$22,450,503. This represents an increase over the census of 1900 of 67.6 per cent. in quantity and 68.8 per cent. in value. The close identity of these percentages would seem to indicate that the wholesale price of ice has not advanced much in the interval. All but 503,659 tons of this product was can ice, because the fundamental principles governing the elimination of foreign substances in the manufacture of plate ice have only recently been discovered. It is now said, however, that all the objectionable features of plate ice have been eliminated by the perfected process, and that a pure crystal plate ice is now being produced at the minimum cost of 50 cents a ton.

**Manufacture of Salt.**

(From Census Bulletin No. 83.)

The establishments classified under the heading "Salt" are those only in which salt is the final product. At the census of 1905 they numbered 146, and had a combined capital of \$25,586,282. They employed, on the average, 4,666 wage-earners, paid \$2,066,399 in wages, consumed materials costing \$4,166,137, and manufactured products valued at \$9,437,662.

At the censuses of 1890, 1900 and 1905 New York, Michigan, and Kansas have stood at the head of the list of salt-producing States. Of the total production of the United States for 1905, these three States supplied 69.9 per cent. Saginaw, Mich., probably produces salt at a lower cost than any other place in the country, because there the great lumber interests supply as fuel sawdust and lumber offal, which, though utilized as far as possible for other purposes, remain in enormous quantities, and if not burned must be removed at considerable expense.

**FUEL MOST COSTLY MATERIAL.**

Of the materials used in the production of salt, the most expensive is fuel. At the census of 1905 this item was reported as costing \$1,355,880. Coopers stock, which was second in importance, cost \$1,176,182, while barrels, bags, and sacks cost \$1,150,327.

The total production of salt, including that manufactured by establishments engaged primarily in some other industry, was 17,153,615 barrels, valued at \$9,334,998. The value per barrel in 1905 was thus \$0.544, as compared with \$0.520 in 1900 and \$0.523 in 1890. In addition to the salt, the establishments produced 261,665 pounds of bromine, valued at \$72,584, and other products valued at \$38,495.

**Manufactures of Textiles, 1905.**

(From Census Bulletin No. 74.)

The cotton industry is concentrated for the most part in Southern New England, and in the States of Pennsylvania, North Carolina, South Carolina, and Georgia; the wool industry and knit goods in Southern New England, New York, and Pennsylvania; and the silk manufacture in Pennsylvania, New Jersey, New York, and Connecticut.

The United States ranks second in cotton manufactures, as measured by the number of cotton spindles, either third or fourth in wool manufactures, and in silk manufactures second to none of the countries for which the statistics of raw silk consumption are available as a standard for determining the magnitude of their silk manufacture.

**COTTON MANUFACTURES.**

Establishments engaged in cotton manufactures, not including cotton small wares, numbered 1,077 in 1905. The most important fact regarding the industry during the five years is its continued growth in the Southern States. Five hundred and fifty of the 1,077 establishments, or, to use a more accurate index of the industry's prosperity, 7,508,749 of the 23,155,163 producing spindles in the country were in this section. Nevertheless New England has a long lead over the South, and the spindle capacity of Massachusetts alone is greater than that of all the Southern States combined.

The capital employed in cotton goods increased from \$460,842,772 in 1900 to \$605,100,164 in 1905, or 31.3 per cent.; the greatest increase was in the capital invested in machinery, etc.

The average number of wage-earners in cotton goods establishments was 310,458, a net increase of 12,529. The prolonged labor struggle in Fall River caused a falling off of nearly 4 per cent. in the New England States, and in the country at large the rate of increase was low, probably on account of the employment of more efficient help and improved machinery. In all divisions except the South there was a diminution in the number of children employed, and in that section the increase was only 3,133 out of a total gain in those States of 22,616. There is a slow but steady displacement of women by men, resulting from the increasing speed of machinery and the requirement that one hand shall tend a greater number of machines. Slightly more than one-half of all the wage-earners in the cotton mills of the country are spinners and weavers. There were 4,866 mule spinners—almost exclusively men, and about three-fourths of them in the New England factories—and 55,488 frame spinners, of whom 10,709 were men, 25,701 women, and 19,078 children. The total number of weavers was 98,807, about 55 per cent. of whom were in New England mills, and more than 33 per cent. in Southern mills.

The consumption of cotton in cotton mills was 3,743,089 bales, or 1,873,074,716 pounds, and comprised 54,384 bales, or 21,862,032 pounds, of sea-island; 3,629,085 bales, or 1,807,512,278 pounds, of other domestic, and 59,620 bales, or 43,700,406 pounds of Egyptian and other foreign. The aggregate cost was \$221,821,944. Yarn amounting to 91,594,658 pounds, at a cost of \$21,601,483, was purchased as material in 1905.

The aggregate value of products was \$442,451,213. The principal product of the cotton goods industry was 5,070,028,520 square yards of woven goods, valued at \$320,382,367. More than one-third of the quantity was plain cloths for printing and converting, and more than one-fifth was brown or bleached sheetings and shirtings. Other products include yarns for sale, sewing cotton, twine, tape and webbing, batting and wadding, etc. Owing to the high price of cotton, much higher than in 1900, the cost of goods was also higher. Moreover, there has been a decided movement toward finer goods.

**SILK MANUFACTURES.**

There were 624 silk mills in 1905, 29.2 per cent. more than in 1900, and their capital was \$109,556,621, an increase of 35.1 per cent. The average number of wage-earners

## STATISTICS OF MANUFACTURES IN THE UNITED STATES—Continued.

employed and the total wages were, respectively, 79,601, 21.7 per cent. more than in 1900, and \$26,767,943, 27.6 per cent. more than in 1900. The cost of materials used was \$75,861,188, and the value of products, \$133,288,072. Exclusive of duplications, the cost of materials was \$59,460,957 in 1905 and \$50,566,398 in 1900, and the net value of products, \$118,533,560 in 1905 and \$92,451,212 in 1900.

The quantity of raw silk consumed by silk mills was 11,572,783 pounds, 18.6 per cent. more than in 1900. Materials other than raw silk used included 3,256,744 pounds of organzine and tram, costing \$14,552,425; 1,951,201 pounds of spun silk, costing \$4,310,061; textile yarns other than silk, to the weight of 9,730,769 pounds, costing \$9,713,794, and other materials costing \$7,966,492.

The total number of throwing spindles in 1905 was 1,197,408, comprising 628,914 in commission throwing plants, and 568,494 in silk mills. Belt-driven spindles greatly predominate in plants of commission throwsters. The present high efficiency of throwing machinery in the United States has contributed greatly to the remarkable growth of the silk industry in this country.

The total gross value of products, \$133,288,072, is distributed thus: Organzine and tram made for sale, \$9,190,650; spun silk yarn made for sale, \$1,660,647; machine twist and sewing, embroidery, fringe, floss and wash silk, \$10,146,071; dress goods, figured and plain, and other silk broad goods, except velvets and plushes, \$66,917,762; velvets and plushes, \$4,502,021; tapestries, curtains and other upholstery broad goods, \$1,559,982; ribbons and laces, \$22,636,095; braids and binding, \$3,493,977; dress, cloak, millinery and military trimmings, including fringes and gimps, \$4,124,651; all other products, including embroideries, \$5,340,162; amount received for contract work, \$3,716,056. There have been general increases since 1900 in all the products of the silk industry with the one exception of silk lace, nets, velis, etc. The gain in the production of piece-dyed goods has been notable. The silk label manufacture, inaugurated in the year 1903, has become one of the most important and promising branches of the silk industry.

Pennsylvania and New Jersey are the principal silk manufacturing States. Silk weaving is carried on more largely in New Jersey than in Pennsylvania, but the latter does more silk spinning. The leading silk manufacturing counties of New Jersey are Passaic, Hudson, Warren, and Morris.

**HOSIERY AND KNIT GOODS.**

The hosiery and knit goods industry in this country is one of the most rapidly growing branches of the textile industry, and has now become one of its most important branches. The number of mills was 1,079 in 1905, as compared with 921 in 1900; the capital invested, \$106,663,531; the average number of wage-earners, 103,715; wages, \$31,536,024; the cost of materials used, \$76,593,782, and the value of products, \$136,558,139. There have been increases since 1900 as follows: Capital, 30.3 per cent.; wage-earners, 24.4 per cent.; wages, 29.5 per cent.; cost of materials used, 50 per cent., and value of products, 43 per cent. More than three-fifths of the total number of establishments are still located in the five Middle States, 132 in the New England States, 119 in the Southern States, and 161 in the Western States. So far as the industry has developed in the South and West, the manufacture is almost exclusively of hosiery.

The machinery equipment comprised 927 woollen cards, 224 combing machines, 596,362 producing spindles, 88,374 knitting machines, and 30,410 sewing machines. The industry is following more and more the English system of separating spinning from what is technically known in Great Britain as manufacturing. The use of wool in the manufacture of hosiery and knit goods is relatively declining.

**FLAX, HEMP, AND JUTE PRODUCTS.**

Of the total capital, \$37,110,521 was invested in the manufacture of cordage and twine, \$11,019,132 in that of jute and jute goods, and \$6,293,878 in that of linen goods. Materials used in cordage and twine manufacture cost \$36,095,747; jute and jute goods, \$5,054,130, and linen goods, \$3,740,669. The cordage and twine products had a value of \$48,017,139; jute and jute products, \$9,065,802, and linen goods, \$5,856,388. The chief products of the cordage and twine industry were 191,796,047 pounds of binder twine, valued at \$19,514,992, and 200,824,974 pounds of rope, valued at \$19,668,169.

**Manufacture of Buttons.**

(From Census Bulletin No. 85.)

At the census of 1905, 275 establishments, with a capital of \$7,783,900, were reported as engaged in the manufacture of buttons. These factories furnished employment for 768 salaried officials and clerks and 10,567 wage-earners, who received as payment for their services \$711,473 in salaries and \$3,680,196 in wages. Of the wage-earners, 5,188, or 49.1 per cent., were men, and 5,024, or 47.5 per cent., were women.

The value of the products of these establishments for 1905 was \$11,133,769, an increase of \$3,437,859, or 44.7 per cent., over the value for 1900. The total value of products for 1905 was made up of \$9,040,029, the value of 29,859,292 gross of buttons; \$916,003, the value of 6,991,738 gross of button blanks made for sale, and \$1,177,737, the value of all other products.

In addition to the buttons manufactured in these factories, 5,694,439 gross, valued at \$1,034,843, were produced as partial or secondary products of other establishments. The total quantity of buttons manufactured during the year therefore amounted to 35,553,731 gross, valued at \$10,074,872. This is an increase in number of 14,194,213 gross, or 66.5 per cent., and in value of \$3,564,709, or 54.8 per cent., over the corresponding totals for 1900.

The report shows twenty-one States engaged in the manufacture of buttons, although only four had products valued at more than \$1,000,000. New York was the leading State, with \$3,849,317; New Jersey had \$1,592,261; Iowa, \$1,500,945, and Connecticut, \$1,446,219.

### Manufacture of Needles and Pins.

(From Census Bulletin No. 85.)

According to the census of 1905, forty-six establishments made a specialty of manufacturing one or more varieties of needles, pins, or hooks and eyes. These establishments reported a capital of \$5,331,939, 3,965 wage-earners, wages amounting to \$1,595,923, and products valued at \$4,750,589. Almost equal numbers of men and women were engaged in this industry, the numbers being 1,862 and 1,860, respectively.

The capital, the number of wage-earners, the amount paid in wages, and the value of products have more than doubled since 1890.

The actual increase in the value of products was greater for the five-year period between the censuses of 1900 and 1905 than for the decade between the censuses of 1890 and 1900, being \$1,512,607 for the former period and \$1,128,513 for the latter.

#### GREAT QUANTITIES OF NEEDLES AND PINS MADE.

The reports for 1905 show the production in the United States of 1,420,176 gross of needles, valued at \$1,140,924, and 136,887,782 gross of pins, valued at \$2,067,637.

These figures, however, do not represent the total output of these articles, as a considerable quantity was manufactured in establishments engaged in industries in which the making of needles and pins was merely incidental. The reports for the census of 1905 show that this class of establishments produced 345,897 gross of needles, valued at \$377,487, and pins valued at \$565,019. The production of pins reported from other industries represents largely horn hair pins. The figures for these secondary products combined with the totals for the principal products of this kind make the output 1,766,073 gross of needles, valued at \$1,518,411, and pins valued at \$2,632,656, a total value of \$4,151,067 for both classes of products. For 1900 the corresponding value was \$2,462,745.

The leading variety of needles manufactured in the establishments discussed in this bulletin was sewing machine needles, with a production of 776,542 gross, valued at \$600,046. Latch knitting machine needles were next in rank in importance, the 310,846 gross of such needles being valued at \$422,655. More spring knitting machine needles (332,788 gross) were manufactured, but their value was considerably less (\$118,223).

Large quantities of each variety of pins were produced—132,632,232 gross of common or toilet pins, 2,550,650 gross of safety pins, and 1,704,900 gross of hair pins. The values of these varieties were \$1,129,006, \$829,386, and \$109,245, respectively. All other products "including hooks and eyes" were valued at \$1,542,028.

### Manufacture of Carriages and Wagons.

(From Census Bulletin No. 84.)

A capital of \$126,320,604 was invested and 5,058 salaried officials and clerks and 60,722 wage-earners were employed in the manufacture of carriages and wagons, including all the various kinds of vehicles propelled by animal power for land transportation in the census year 1905. The expenses of the industry included \$5,259,043 for salaries, \$30,878,229 for wages, and \$61,215,223 for materials. The value of the products was \$125,332,976.

Between the censuses of 1900 and 1905 this industry increased substantially in every item except number of establishments. It is interesting to note that the rates of increase for wages and salaries were greater than the corresponding rates for the number of wage-earners and salaried employees.

#### STATES PROMINENT IN THE CARRIAGE INDUSTRY.

Ohio was the leading State in the manufacture of carriages and wagons, having products valued at \$16,096,125, or over one-eighth of the total value. Indiana ranked next, with a value of \$15,228,537; New York was third, with \$12,573,148, and Michigan fourth, with \$12,101,170. Illinois, Pennsylvania, Wisconsin, and Missouri were the only other States reporting a production of over \$5,000,000.

The greatest increase in the value of products between the censuses of 1900 and 1905 is shown for Indiana, the gain being \$2,567,120. Four other States—Illinois, North Carolina, Kentucky, and Missouri—had an increase of over \$1,000,000 each.

#### VARIETIES AND VALUES OF CARRIAGES AND WAGONS MANUFACTURED.

The most important of the products were carriages, of which 937,409, valued at \$55,750,276, were manufactured during the year. Only 29,544 of the carriages were two-wheeled. Of the 907,865 four-wheeled carriages, 769,635 were for one or two persons and 138,230 for three or more persons. The output of four-wheeled vehicles included 575,880 buggies, 87,464 surreys, 64,855 road wagons, 53,813 runabouts, 47,118 driving wagons, 14,073 phaetons, 9,585 Stanhopes, and 8,800 buckboards.

In the manufacture of family and pleasure carriages, Ohio ranks first, with a production of 199,428 during the year; Indiana produced 178,962, and Michigan 174,889 such carriages.

The number of wagons reported was 643,755. Among these there were 505,025 farm wagons, 60,376 delivery wagons, 7,853 express wagons, 3,253 coal wagons and carts, 1,123 ice wagons, 642 hearses, 109 street sprinklers, and 48 street sweepers.

One-seventh, or 92,893, of the wagons were made in Indiana. The other leading States in the production of this commodity were Wisconsin, with 83,916; Illinois, with 72,033; Michigan, with 52,273; Kentucky, with 49,266, and Ohio, with 40,905.

The sleighs and sleds manufactured numbered 127,455. Michigan ranked first in the production of these, with an output of 53,180, or two-fifths of the total. New York, with 19,433, and Wisconsin, with 15,366, were next in importance.

**Manufacture of Railroad Cars.**

(From Census Bulletin No. 84.)

**STEAM RAILROAD CARS.**

In the census year 1905 there were 1,141 shops operated by railroad companies and carrying on both construction and repair work, and 73 that were not operated by railroad companies and did not do repair work. The railroad repair shops reported an investment of \$146,943,729, or 62.5 per cent. of the total investment of the two branches of the industry; employed 236,906 wage-earners, or 87.4 per cent. of the total number, and manufactured products valued at \$309,863,499, or 73.6 per cent. of the total value. The independent car shops reported a capital of \$88,179,047, 34,058 wage-earners, and products valued at \$111,175,310.

Pennsylvania was the leading State in the steam car industry. Its product was valued at \$80,449,604, or 19.1 per cent. of the total value. Illinois was second in rank, with a production valued at \$56,417,673. Other leading States were Ohio, with \$26,967,635; Indiana, with \$24,551,301; New York, with \$22,136,696, and Missouri, with \$20,789,659.

**NUMBER AND VALUE OF STEAM CARS BUILT.**

The aggregate value of the steam railroad cars built during the census year was \$100,346,912. This amount includes \$59,663, the value of steam cars built in street car manufacturing establishments.

The value of the cars built in the railroad repair shops was only \$12,998,001, or less than 5 per cent. of the total value of the products of such shops, while the value of the cars constructed in the shops that were not operated by the railroads amounted to \$87,289,248, or 73.5 per cent. of the value of all the products of such shops.

The total number of cars manufactured during the year was 119,940. Of these 2,446 were passenger cars and 115,494 were freight cars. The passenger cars were valued at \$20,486,260 and the freight cars at \$79,215,260. The value of the freight cars was therefore almost four times as great as the value of the passenger cars. The reports for the census of 1900 show 1,369 passenger cars, valued at \$8,810,032, and 143,133 freight cars, valued at \$77,240,632. The increase in the number of passenger cars was 78.7 per cent. and the gain in value was 132.6 per cent., the number of freight cars decreased 19.3 per cent., while their value increased 2.6 per cent.

Since 1900 the production of steel railroad cars for both passenger and freight service has increased rapidly, and the substitution of steel freight cars of large tonnage and of distinct types for smaller wooden cars of rather nondescript type is progressing on the majority of railroads as fast as conditions permit.

Illinois was considerably ahead of every other State in the number of both passenger and freight cars manufactured during the year. The passenger cars numbered 775 and the freight 27,137. Ohio was second in the number of passenger cars, with 382, and Missouri was third, with 218.

Pennsylvania was second in the number of freight cars, with 21,347, and Michigan was third, with 18,591. The other States producing over 5,000 freight cars were Indiana, with 11,493; Missouri, with 10,498, and Ohio, with 6,451.

**LEADING VARIETIES OF STEAM CARS.**

The report shows in detail the varieties of the cars produced in the independent construction shops. Of the 2,030 cars built for passenger service reported for the census of 1905, there were 769 chair and coach cars, 428 ordinary passenger cars, 304 sleeping cars, 199 baggage and express cars, 114 parlor cars, 95 mail cars, 58 dining and buffet cars, and 13 private cars.

At the census of 1900 the number of ordinary passenger cars built formed 33.8 per cent. of all the cars constructed for passenger service, and the chair and coach cars formed 18.5 per cent. For 1905 the ordinary passenger cars formed only 21.1 per cent. and the chair and coach cars formed 37.9 per cent. of the total number manufactured.

The average value of each variety of passenger cars increased between 1900 and 1905.

The number of the principal varieties of cars built for freight service were as follows: Box, 38,184; coal and coke, 27,998; gondola, 9,518; flat, 5,412; stock, 4,235; refrigerator, 3,353, and fruit, 2,840.

There has been a decided growth in the construction of freight cars for special purposes. At the census of 1900, 1,620 fruit cars, valued at \$665,354, were built; at the census of 1905, the number of such cars was 2,840 and their value \$1,727,771. The output of refrigerator cars increased from 2,354, valued at \$1,956,097, for 1900, to 3,353, valued at \$3,042,835, for 1905, while the production of stock cars increased from 2,760, valued at \$1,426,800, to 4,235, valued at \$2,453,123.

**STREET RAILROAD CARS.**

The great development of street railroads since 1890 has caused an extraordinary growth in the industries engaged in the construction and repair of street railroad cars. The value of products for these industries nearly quadruple during the fifteen-year period from 1890 to 1905, increasing from \$6,268,462 in the earlier year to \$24,281,517 at the last census. The increase for the decade from 1890 to 1900 was \$10,407,717, or 166 per cent., and that for the five years from 1900 to 1905 was \$7,605,138, or 45.6 per cent.

Street cars also are manufactured by two classes of shops, one being independent of the railroads and the other being operated by the street railroad companies and doing repair work.

Of the 100 establishments engaged in the street car industries at the census of 1905, 86 were street railway repair shops. Notwithstanding the fact that there were six times as

## STATISTICS OF MANUFACTURES IN THE UNITED STATES—Continued.

many repair shops as establishments engaged primarily in the manufacture of street railroad cars, the latter represented an investment of \$12,975,703, or 50.1 per cent. of the capital employed in the combined industry and manufactured a product valued at \$10,844,196, or 44.7 per cent. of the value of products for the two branches of the industry.

The repair shops, however, employed 11,052 wage-earners and paid in wages \$7,012,798, which constituted 70 and 71.2 per cent., respectively, of the totals for the combined industries.

As in the case of steam cars, less than 5 per cent. of the value of the products of the street railroad repair shops resulted from the manufacture of cars. With the car construction establishments, on the other hand, 76.6 per cent. of the value represented the building of cars.

## NUMBER AND VALUE OF STREET CARS.

The number of street railroad cars built during the year was 4,604. These cars were valued at \$9,902,310. Practically all of the cars were electric. No cable cars were reported, and only forty-two were cars for horse power.

Of the electric cars built in the shops that were independent of the railroads 2,621 were closed, 554 were open, and 502 were combination, and the remaining 251 were of other varieties.

## STATES PROMINENT IN THE MANUFACTURE AND REPAIR OF STREET RAILROAD CARS.

Ohio was the leading State in the value of products of the independent shops, furnishing \$1,828,326, or 16.9 per cent. of the total value of products for such shops.

New York ranked first in the value of products of the repair shops, with \$3,879,933. The other States with products valued at more than \$1,000,000 were Pennsylvania, \$1,253,542; California, \$1,228,443; Missouri, \$1,210,961, and Illinois, \$1,142,562.

## The Leather Industry.

(From Census Bulletin No. 72.)

## LEATHER.

In the period from 1900 to 1905 the number of establishments which turned out leather, tan, curried, and finished, decreased from 1,306 to 1,049. The amount of capital invested, on the other hand, increased from \$173,977,421 to \$242,584,254, or 39.4 per cent.; the average number of wage-earners, from 52,109 to 57,239, and the value of products, from \$204,033,127 to \$252,620,986. The capital invested in machinery, tools and implements more than doubled.

## MATERIALS.

Hides to the number of 17,581,613, costing \$89,126,593, reported by 669 establishments, represented 46.6 per cent. of the total cost of materials. Hides were converted chiefly into sole, grain, harness, belting, carriage, and furniture leather, but some were sold in the rough. The amount paid for tanning materials was \$25,029,994, or 13.1 per cent. of the total cost of materials. The use of hemlock and oak bark extract for tanning has increased greatly since 1900. Oak bark, although used by the largest number of establishments, formed less than one-sixth of the total cost.

## PRODUCTS.

The principal kinds of products, named in the order of their total value in the census year, were sole leather, upper leather, goatskins, harness leather, sheepskins, and leather sold in the rough. Sole leather formed more than one-half of the value of all leather manufactured. Of this, 77.5 per cent. was produced in the group of States consisting of Pennsylvania, New York, Ohio, Maryland, Virginia, West Virginia, Kentucky, Tennessee, and Georgia. In this section there are hemlock and oak forests from which is obtained the bark used so largely for tanning. One hundred and forty-four establishments engaged exclusively in the manufacture of sole leather turned out 93.7 per cent. of the value of all such leather tanned in the United States in 1905.

Pennsylvania led in the production of sole leather, goatskins, and leather sold in the rough, and Massachusetts in the manufacture of upper leather and sheepskins. In harness leather Wisconsin was far in excess of its closest competitor, Pennsylvania. This kind of leather was reported by 298 establishments, the largest number manufacturing any one kind of leather.

## BOOTS AND SHOES.

In 1905 there were 1,316 establishments engaged in the industry, having \$122,526,093 capital, 149,924 wage-earners, wages amounting to \$69,059,680, cost of materials amounting to \$197,363,495, and products valued at \$320,107,458. All of these items, except the number of establishments, show increases for the five-year period since the Twelfth Census. Capital and value of products increased at practically the same rate, the per cent. of gain in the latter being 23.6, as compared with 22.7 in the former. The advance of 80.8 per cent. in the miscellaneous expenses, which is nearly four times that in any other item, is doubtless due in part to the heavy amount paid for advertising. The fact that the gain in wage-earners (5.7 per cent.) was so slight in comparison with the gain in value of products is due principally to the increased use of machinery, and in a measure to the large increase in the use of cut stock made by factories devoted exclusively to that kind of work.

The number of establishments in 1905 was less by 233, or 17.7 per cent., than in 1900.

STATISTICS OF MANUFACTURES IN THE UNITED STATES—*Continued.*

Many concerns went out of existence in these five years, while others increased largely their equipment and their output.

## PRODUCTS.

There has been an increase in the value of every kind of boots and shoes, and at the same time a reduction in the number of establishments manufacturing each kind. In most cases the quantity has not increased at the same rate as the value. More than half the total number of establishments specialized in one product. Men's boots and shoes exclusively were manufactured by 198 establishments; boys' and youths', by 29; women's, by 171, and 120 made only misses' and children's boots and shoes.

## LOCALIZATION.

Boot and shoe manufacture is practically confined to the New England, North Central, and Middle Atlantic States. The three groups combined represent over 95 per cent. of the total capital and value of products. From the inception of the industry in this country the New England States have led all others. In 1905 over half the capital, wage-earners, and products in the industry was reported by these States, and over 40 per cent. by Massachusetts alone. This State has held first rank since the statistics of boot and shoe manufacture were first taken, and now contributes a greater proportion of all items than in 1900, except in value of products, which forms a slightly smaller proportion of the total. There was an absolute increase, however, of \$27,176,183, or 23.2 per cent., in value of products, and in capital of \$11,952,098, or 31.8 per cent. Next to Massachusetts, the most prominent State was New York, but the capital reported there, \$14,106,058, was less than one-third, and the value of products, \$34,137,049, less than one-fourth the amounts of these items reported from Massachusetts. The ten States next in rank according to value of products are Ohio, Missouri, New Hampshire, Pennsylvania, Maine, Illinois, New Jersey, Wisconsin, Minnesota, and Michigan, in the order named. In capital the States rank the same as in value of products, except that Wisconsin leads New Jersey. There have been no violent changes in the positions of the leading States. The most marked is the rise of Missouri from seventh place to fourth, which is the result of an increase in capital of 97 per cent. and of 108.8 per cent. in value of products. Ohio also reported more capital and greater value of products than in 1900.

That the industry is urban in character may be observed: Sixty cities, each having products valued at over \$1,000,000, produced about four-fifths of the total value of products; thirteen cities, all but one of which had a population of 25,000 and over in 1900, and all but three over 50,000 population each, had products valued at over \$5,000,000, and together turned out 48.9 per cent. of the value of all boots and shoes manufactured in 1905. All of the thirteen cities except Chicago are in the six leading States. Brockton, Mass., has obtained first place at the expense of Lynn, Mass., which dropped to second. Other cities in Massachusetts which had products valued at over \$5,000,000 were Haverhill, Marlboro, and Boston. The progress of Missouri in the industry is due to St. Louis's gain of 130.5 per cent. in value of products, which brought that city from ninth in rank to third. The net increase for the thirteen cities was 40.1 per cent., whereas that for thirty cities and towns having over \$1,000,000, but less than \$5,000,000 product, was 23.2 per cent. It is evident that the growth in the large centres is proportionately more rapid.

## LEATHER GLOVES AND MITTENS.

In 1905 leather gloves and mittens were made in 339 establishments. Their total capital was \$10,705,599; they employed 10,645 wage-earners; paid in wages \$3,840,253; used materials costing \$10,000,889, and manufactured products valued at \$17,740,385. The chief materials used were hides and skins, which cost \$8,109,523. The kinds used in 1905, in the order of their total cost, were horse and cow hides, sheepskins (domestic), kid and suede (imported), kid and suede (domestic), deerskins, sheepskins (imported), and hogskins (domestic and imported).

The total number of gloves, mittens, and gauntlets manufactured in the United States increased from 2,395,061 dozen pairs to 3,370,146 dozen pairs, or 16.4 per cent., although their value increased only from \$16,039,168 to \$17,122,772, or 6.8 per cent. The disproportionate increase in quantity and value is probably accounted for by the larger use of horse and cow hides, materials which are cheaper and more durable than deerskin and sheepskin for rough gloves. Men's dress and working gloves and mittens were the leading products, comprising 86.5 per cent. of the total output of gloves and mittens. Women's and children's gloves and mittens were not extensively made, owing to scarcity of suitable skins and cost of labor.

## LOCALIZATION.

The leading States were, in the order of the value of their products, New York, Wisconsin, Illinois, and California. The output of Wisconsin increased in the five-year period 300 per cent., while that of Illinois, New York, and California decreased, respectively, 31.1 per cent., 8.4 per cent., and 1.1 per cent. The manufacture of leather gloves and mittens in this country was first undertaken in Fulton County, N. Y., and the locality has maintained its pre-eminence, producing in 1905, in 145 establishments, 48.3 per cent. of the total value of products. Gloversville alone, with 86 establishments, produced 29.9 per cent. of the total value of products for the United States. The capital invested in this county is 52.8 per cent. of the total.

## IMPORTS.

The total value of gloves of kid and leather imported in 1905 was \$4,727,489. Three-fourths of the value was from France and Germany. There was a decrease of \$1,380,276, or 22.6 per cent., between 1900 and 1905, due in a measure to the increased use of knit gloves and cloth gloves, and also to the increased importation of skins "in salt pickle," which are admitted free of duty. The dressing of these skins for home factories is growing rapidly, especially in New York. Imports of gloves were almost exclusively of the finer grades, and most of them probably ladies' gloves.

## Postal Information.

(Revised December, 1907, at the New York Post-Office, for THE WORLD ALMANAC.)

## DOMESTIC RATES OF POSTAGE.

ALL mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations. (Domestic rates apply to Canada, Mexico, Cuba, Tutuila, Porto Rico, Guam, Hawaii, the Philippines, the "Canal Zone," the Republic of Panama, and Shanghai, China.)

**First-Class Matter.**—This class includes letters, postal cards, "post cards," and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, its possessions, or the above-named countries, *two cents per ounce or fraction thereof.*

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, and the addressee cannot be served by rural free delivery carriers, one cent per ounce or fraction thereof.

Rates on **postal cards**, one cent (double or "reply" cards, two cents). Postal cards issued by the Post-Office Department may bear written, printed, or other editions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized will subject the card, when sent in the mails, to postage according to the character of the message—at the letter rate if wholly or partly in writing or the third-class rate if entirely in print. In either case the postage value of the stamp impressed upon the card will not be impaired.

3. Postal cards must be treated in all respects as sealed letters, except that when undeliverable to the addressee they may not be returned to the sender.

4. Postal cards bearing particles of glass, metal, mica, sand, tinsel or other similar substances, are unmailable, except when inclosed in envelopes with proper postage attached, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Cards that have been spoiled in printing or otherwise will be redeemed from the original purchasers at 75 per cent. of their face value if unutilized.

**Post Cards**—(Private Mailing Cards)—bearing written or printed messages are transmissible in the mails:

Private mailing cards ("post cards") in the domestic mails must conform to the following conditions:

(a) A "post card" must be an unfolded piece of cardboard not exceeding approximately 3 9/16 by 5 9/16 inches, nor less than approximately 2 3/4 by 4 inches.

(b) It must in form and in the quality and weight of paper be substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "post card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. Cards, without cover, conforming to the foregoing conditions are transmissible in the domestic mails (including the possessions of the United States) and to Cuba, Canada, Mexico, the Republic of Panama, and the United States postal agency at Shanghai, China, at the postage rate of 1 cent each.

3. When post cards are prepared by printers and stationers for sale, it is desirable that they bear in the upper right hand corner of the face an oblong diagram containing the words "Place postage stamp here," and at the bottom of the space to the right of the vertical dividing line, the words "This space for the address."

4. Cards which do not conform to the conditions prescribed by these regulations are, when sent in the mails, chargeable with postage according to the character of the message—at the letter rate, if wholly or partly in writing, or at the third-class rate, if entirely in print.

5. Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are unmailable, except when inclosed in envelopes, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage.

This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at post-offices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will entitle it to special delivery if the letter is marked "Special Delivery." The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post-office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more, they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a post-office, the addressee will be notified to remit postage; and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at post-office windows in the minimum number of twenty identical copies separately addressed.

Letters and other matter prepaid at the letter rate—two cents an ounce or fraction thereof—(but

## POSTAL INFORMATION—Continued.

no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope or wrapper. The limit of weight is four pounds except for a single book.

Prepaid letters will be forwarded from one post-office to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

**Second-Class Matter.**—This class includes all newspapers and periodicals exclusively in print that have been "Entered as second-class matter," and are regularly issued at stated intervals as frequently as four times a year, from a known office of publication and mailed by the publishers or news-agents to actual subscribers or to news agents for sale, and newspapers and publications of this class mailed by persons other than publishers. Publications having the characteristics of books and such as are not subscribed for on account of their merits, but because of other inducements, are not eligible to second class privileges. Also periodical publications of benevolent and fraternal societies, organized under the lodge system and having a membership of a thousand persons, and the publications of strictly professional, literary, historical, and scientific societies, and incorporated institutions of learning, trade unions, etc., provided only that these be published at stated intervals not less than four times a year, and that they be printed on and be bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations, societies, and institutions represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, *one cent a pound or fractional part thereof*, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay the third-class rate.

Second-class publications must possess legitimate subscription lists equalling 50 per cent. of the number of copies regularly issued and circulated by mail or otherwise. Unless they do pound-rate privileges are revoked or withheld.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of advertisers or other persons, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons—the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such "Christmas," "New Year's," and other special issues, including "Almanacs," as are excluded from second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published are free, unless mailed for delivery at a letter-carrier office.

Rates of postage on second-class newspapers, magazines, or periodicals, mailed by others than the publishers or news agents, *one cent for each four ounces or fraction thereof*. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. This rate applies only when a complete copy is mailed. Parts of second-class publications or partial or incomplete copies are *third-class matter*. Second-class matter will be entitled to special delivery when special delivery stamps (or ten cents in ordinary stamps and the words "Special Delivery" placed on the wrapper) are affixed in addition to the regular postage.

Second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them or on the wrapper, also the words "sample copy," or "marked copy." Typographical errors in the text may be corrected, but any other writing subjects the matter to letter postage.

**Third-Class Matter.**—Mail matter of the third class includes printed books, pamphlets, engravings, circulars in print (or by the hectograph, electric-pen, or similar process when at least twenty identical copies, separately addressed, are mailed at post-office windows at one time), and other matter wholly in print, proof sheets, corrected proof sheets, and manuscript copy accompanying the same.

The rate on matter of this class is *one cent for each two ounces or fraction thereof* payable by stamps affixed, unless 2,000 or more identical pieces are mailed under special permit when the postage at that rate may be paid in money.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be despatched. New postage must be prepaid for forwarding to a new address or returning to senders.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery when special delivery stamps are affixed in addition to the regular postage, or when ten cents in ordinary stamps are affixed in addition to the regular postage and the words "Special Delivery" are placed on the wrapper.

Upon matter of the third class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address, preceded by the word "from," and may make marks other than by written words to call attention to any word or passage in the text, and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

**Fourth-Class Matter.**—Fourth-class matter is all mailable matter not included in the three preceding classes which is prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, *one cent for each ounce or fraction thereof* (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is *one cent for each two ounces or fraction thereof*). This matter must be fully prepaid, or it will not be despatched. Postage must be paid by stamps affixed, unless 2,000 or more identical pieces are mailed at one time when the postage at that rate may be paid in money. New postage must be prepaid for forwarding or returning. The affixing of special delivery

## POSTAL INFORMATION—Continued.

ten-cent stamps in addition to the regular postage entitles fourth-class matter to special delivery (See remarks under first-class matter.)

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live or dead animals, insects, fruits or vegetable matter liable to decomposition, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent when it is apparent that they are harmless.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous, or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine), may be admitted to the mails for transportation within the United States. Samples of altar or communion wine are mailable. When in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be inclosed in a metal, wooden, or papier-mache block or tube, not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be impervious to liquids, including oils, and closed by a tightly fitting lid or cover, so adjusted as to make the block or tube water tight and to prevent the leakage of the contents in case of breaking of the glass. When inclosed in a tin cylinder, metal case, or tube, such cylinder, case, or tube should have a lid or cover so secured as to make the case or tube water tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. Manufacturers or dealers intending to transmit articles or samples in considerable quantities should submit a sample package, showing their mode of packing, to the postmaster at the mailing office who will see that the conditions of this section are carefully observed. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids and single books), four pounds.

The name and address of the sender, preceded by the word "from," also any marks, numbers, names, or letters for the purpose of description, such as prices, quantity, etc., may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to notify the sender in case the package is not delivered.

**Third or Fourth Class Matter Mailable Without Stamps.**—Under special permits postage may be paid in money for third or fourth class matter mailed in quantities of 2,000 or more identical pieces. For information concerning the regulations governing such mailings inquiry should be made of the postmaster.

**Registration.**—All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all post-offices in the United States.

An indemnity—not to exceed \$25 for any one registered piece, or the actual value of the piece, if it is less than \$25—shall be paid for the loss of first-class registered matter.

**Domestic Money Orders.**—Domestic money orders are issued by money-order post-offices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50 to \$5, 5 cents; over \$5 to \$10, 8 cents; over \$10 to \$20, 10 cents; over \$20 to \$30, 12 cents; over \$30 to \$40, 15 cents; over \$40 to \$50, 18 cents; over \$50 to \$60, 20 cents; over \$60 to \$75, 25 cents; over \$75 to \$100, 30 cents.

**Stamped Envelopes.**—Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at post-offices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in a substantially whole condition.

All matter concerning lotteries, gift concerts, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails.

Applications for the establishment of post-offices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by Members of Congress, or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any Member of Congress, procured from that Department.

3. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

4. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter to any Government official or to any person correspondence, not over four ounces in weight, upon official or departmental business.

All communications to Government officers and to Members of Congress are required to be prepaid by stamps.

**Suggestions to the Public** (from the United States Official Postal Guide).—Mail all letters, etc., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

All mail matter at large post-offices is necessarily handled in great haste and should therefore in all cases be so PLAINLY addressed as to leave NO ROOM FOR DOUBT AND NO EXCUSE FOR ERROR on the part of postal employes. Names of States should be written in full (or their abbreviations very

## POSTAL INFORMATION—Continued.

distinctly written) in order to prevent errors which arise from the similarity of such abbreviations as Cal., Col.; Pa., Va., Vt.; Me., Mo., Md.; Ia., Ind., N. H., N. M., N. Y., N. J., N. C., D. C.; Miss., Minn., Mass.; Nev., Neb., Penn., Tenn., e. c., when hastily or carelessly written. This is especially necessary in addressing mail matter to places of which the names are borne by several post-offices in different States.

Avoid as much as possible using envelopes made of flimsy paper, especially where more than one sheet of paper, or any other article than paper, is inclosed. Being often handled and even in the mail-bags subject to pressure, such envelopes not infrequently split open, giving cause of complaint.

Never send money or any other article of value through the mail except either by means of a money order or in a registered letter. Any person who sends money or jewelry in an unregistered letter not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to ruin.

See that every letter or package bears the full name and post-office address of the writer, in order to secure the return of the letter, if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were always fully and plainly written or printed inside or on the envelopes. Persons who have large correspondence find it most convenient to use "special request envelopes;" but those who only mail an occasional letter can avoid much trouble by writing a request to "return if not delivered," etc., on the envelope.

When dropping a letter, newspaper, etc., into a street mailing-box, or into the receptacle at a post-office, always see that the packet falls into the box and does not stick in its passage; observe, also, particularly, whether the postage stamps remain securely in their places.

Postage stamps should be placed on the upper right-hand corner of the address side of all mail matter.

The street and number (or box number) should form a part of the address of all mail matter directed to cities. In most cities there are many persons, and even firms, bearing the same name. Before depositing any package or other article for mailing, the sender should assure himself that it is wrapped and packed in the manner prescribed by postal regulations; that it does not contain *undeliverable* matter nor exceed the limit of weight as fixed by law; and that it is fully prepaid and properly addressed. The postage stamps on all mail matter are necessarily cancelled at once, and the value of those affixed to packages that are afterward discovered to be short-paid or otherwise undeliverable is therefore liable to be lost to the senders.

It is unlawful to send an ordinary letter by express or otherwise outside of the mails unless it be inclosed in a Government-stamped envelope. It is also unlawful to inclose a letter in an express package unless it pertains wholly to the contents of the package.

It is forbidden by the regulations of the Post-Office Department for postmasters to give to any person information concerning the mail matter of another, or to disclose the name of a box-holder at a post-office.

Letters addressed to persons temporarily sojourning in a city where the Free Delivery System is in operation should be marked "Transient" or "General Delivery," if not addressed to a street and number or some other designated place of delivery.

*Foreign* books, etc., infringing United States copyright are *undeliverable* if received in foreign mails, or mailed here.

The foregoing rates, rules, and suggestions apply to postal matters in the United States.

## Foreign Mails.

### POSTAGE RATES AND CONDITIONS.

THE rates of postage to all foreign countries and colonies, including Newfoundland (except Canada, Cuba, Mexico, Panama, and Shanghai, China), are as follows:

Letters.....	first ounce or less, 5 cents; each additional ounce	3 cents.
Postal cards, each.....		2 cents.
Newspapers and other printed matter, per 2 ounces.....		1 cent.
Commercial papers (such as legal and insurance papers, deeds, bills of lading, invoices, manuscript for publication, etc.).....	{ Packets not in excess of 10 ounces.....	5 cents.
	{ Packets in excess of 10 ounces, for each 2 ounces or fraction thereof.....	1 cent.
Samples of merchandise.....	{ Packets not in excess of 4 ounces.....	2 cents.
	{ Packets in excess of 4 ounces, for each 2 ounces or fraction thereof	1 cent.
Registration fee on letters or other articles.....		8 cents.

On printed matter and commercial papers the limit of weight is 4 pounds 6 ounces, except that single volumes of books to Salvador, Canada, Mexico, Cuba, and Panama, are unrestricted as to weight. Size—The limit of size is 18 inches in any one direction, except that printed matter or commercial papers in rolls may be 30 inches long by 4 inches in diameter.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) will be forwarded, whether any postage is prepaid on them or not. All other mailable matter must be prepaid at least partially. Domestic rates apply to Porto Rico, Guam, Philippine Islands, Cuba, "Canal Zone," Republic of Panama, Tutuila, and Hawaii and Shanghai City.

### CANADA.

Letters, per ounce, prepayme. compulsory.....		2 cents.
Postal cards, each.....		1 cent.
Newspapers, per 4 ounces.....		1 cent.
Merchandise (not exceeding 4 pounds 6 ounces), per ounce.....		1 cent.
Commercial papers, same as to other Postal Union countries.....		1 cent.
Registration fee.....		8 cents.

Any article of correspondence may be registered. Packages of merchandise are subject to the regulations of either country to prevent violations of the revenue laws; must not be closed against inspection, and must be so wrapped and inclosed as to be easily examined. Samples must not exceed 12 ounces in weight. No sealed packages other than letters in their usual and ordinary form may be sent by mail to Canada.

### U. S. NAVAL VESSELS.

Mail matter for officers or members of the crew of United States vessels of war stationed abroad is subject to domestic postage rates and conditions. Articles should be addressed "U. S. S. (name of

## FOREIGN MAILS—Continued.

vessel, care of Postmaster, New York, N. Y.' and *be fully prepaid*. Mail so addressed will be forwarded to the vessels. ~~Express packages will not be received at the post-office unless they conform to the Postal Regulations and are placed in the mail with the postage properly prepaid.~~

## SHANGHAI, CHINA.

Domestic postage rates and conditions apply to articles addressed for delivery in the City of Shanghai, but for other places in China the Universal Postal Union (foreign) rates apply.

## MEXICO.

Letters, newspapers, and printed matter are now carried between the United States and Mexico at same rates as in the United States. Samples, 2 cents for first 4 ounces, and 1 cent for each additional 2 ounces; limit of weight, 12 ounces. Merchandise other than samples should be sent by Parcels Post. No sealed packages other than letters in their usual and ordinary form may be sent by mail to Mexico, nor any package over 4 pounds 6 ounces in weight, except Parcels Post packages to certain cities. (See Parcels Post.)

## SAMPLES.

Packets of samples of merchandise are admissible up to 12 ounces in weight, and the following dimensions apply to all Postal Union countries: 12 inches in length, 8 inches in width, and 4 inches in depth, or if they are in the form of a roll, 12 inches in length and 6 inches in diameter. Merchandise of salable value and goods not in execution of orders, or as gifts, must be paid at full letter rate, unless sent by Parcels Post to the countries with which Parcels Post exchange is maintained.

## PARCELS POST.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Bermuda, Jamaica, Turk's Island, Barbados, the Bahamas, British Honduras, Mexico, the Leeward Islands (Antigua, St. Kitts, Nevis, Anguilla, Dominica, Montserrat and Virgin Islands), Colombia, Costa Rica, Salvador, British Guiana, Danish West Indies (St. Thomas, St. Croix, and St. John) and the Windward Islands (St. Lucia, St. Vincent, Grenada, and the Grenadines), Trinidad, including Tobago, Venezuela (Bolivia, Ecuador, Peru and Chile, 20 cents per pound), Newfoundland, Honduras (Republic of), Germany, New Zealand, Nicaragua, Guatemala, Norway, Japan, including Korea and Formosa Island, Hong Kong, Belgium, Great Britain and Ireland, and Australia, Denmark, Sweden and China (the following places only: Amoy, Canton, Cheefoo, Foochow, Haikow, Hankow, Hong Kong, Liu Kung Tau, Ningpo, Shanghai, Swatow, Changsha, Chinkiang, Hangchow, Nanking, Newchwang, Peking, Shanghaiwan, Shashi, Soochow, Sungchun, Taira, Tien-Tsin and Wuchang), and Manchuria, the following places only: Antoken (Antung), Choshun (Changchun), Dairen (Alien or Dalney), Dasekkio (Fushichiao), Datoko (Latungko), Furanten (Pulantien), Gaboten (Wafantien), Gaihai (Kaiping), Ginkaton (Newchatun), Hishiko (Pitguwo), Honkeiko (Penhsih), Hoten (Mukden), Howojio (Fenghueangcheng), Kaigen (Kauvuen), Kanjoshi (Koantchen), Kaijio (Haichang), Kinshu (Chinchow), Koshurei (Kungchuling), Ranzankan (Lienshankuan), Riojun (Port Arthur), Riyo (Liaoyang), Riujuton (Liushutun), Senkinsai (Chienchinsai), Shiheigai (Ssuningchiel), Shimminfu (Shingmingfu), Shoto (Changtu), Sobyoshi (Shuangmaotzu), Sokaho (Tsaohokaw), Sokaton (Suchatun), Tetsurei (Tehling), Taikozan (Takushan), Yendai (Yentai), Yugakujio (Hsingyocheng), at the following postage rate: For a parcel not exceeding one pound in weight, 12 cents; for each additional pound or fraction thereof, 12 cents. The maximum weight allowed is eleven pounds—except that to certain places in Mexico and to all parts of Germany, Norway, Hong Kong, Japan, Belgium, Great Britain and Ireland, and Australia, Denmark, Sweden, China (the places mentioned above), the limit is 4 pounds 6 ounces, and the value of parcels for these countries and Ecuador, Peru, must not exceed \$50—the extreme dimensions allowed for Mexico, Costa Rica, and Colombia being two feet length by four feet girth, and for the other countries not more than three feet six inches in length, nor more than six feet in length and girth combined. Parcels must be wrapped so as to permit their contents to be easily examined by postmasters. Liquids, poisonous, explosive, and inflammable substances are excluded. Parcels may be registered for 8 cents each to any of the above places, except Barbados and Great Britain and Ireland.

A Customs declaration (furnished on application at any post-office) must be attached to any Parcels Post package. Parcels for Salvador must have two declarations, and parcels for Venezuela three declarations attached.

*Rules and conditions to countries not in the Universal Postal Union are now the same as those to Universal Postal Union countries.*

## GENERAL REGULATIONS RESPECTING FOREIGN MAILS.

Postage can be prepaid upon articles only by means of the postage stamps of the country in which the articles are mailed. Hence articles mailed in one country addressed to another country which bear postage stamps of the country to which they are addressed are treated as if they had no postage stamps attached to them.

Unpaid letters received from the Postal Union and insufficiently prepaid correspondence of all kinds is chargeable with double the amount of the deficient postage.

Matter to be sent in the mails at less than letter rates must be so wrapped that it can be readily examined at the office of delivery, as well as the mailing office, without destroying the wrapper.

Newspapers and periodicals sent in the mails to foreign countries other than those of the Postal Union should be wrapped singly. Those sent by publishers to regular subscribers in Canada, Cuba, Mexico, and Panama are transmissible as in domestic mails, except that packages addressed to Mexico, Cuba, and Panama must not exceed 4 pounds 6 ounces in weight.

The United States two-cent postal card should be used for card correspondence with foreign countries (except Canada, Cuba, Mexico, and Panama, to which countries the one-cent card is transmissible), but where these cards cannot be obtained, it is allowable to use for this purpose the United States one-cent postal card with a one-cent United States adhesive postage stamp attached thereto. Private cards can now be used if conforming in size, etc., to Government cards, such cards should bear the words "post card."

Mail matter of all kinds received from any country of the Postal Union is required to be reforwarded at the request of the addressee, from one post-office to another, and in the case of articles other than Parcels Post packages, to any foreign country embraced in the Postal Union, without additional charge for postage.

All articles prohibited from domestic mails are also excluded from circulation in the mails to and

FOREIGN MAILS—Continued.

from foreign countries. Postal cards or letters addressed to go around the world will not be forwarded, being prohibited.

The act of March 3, 1883, imposes a duty of 25 per cent. ad valorem on all printed matter not therein otherwise provided for, without regard to mode of importation. Under said act all printed matter, *except newspapers and periodicals*, and except printed matter other than books imported in the mails for personal use, is subject to the regular duty of 25 per cent. ad valorem.

FOREIGN (INTERNATIONAL) MONEY ORDERS.

When payable in Switzerland, New Zealand, Belgium, Sweden, Norway, Japan, Denmark, Orange River Colony, Netherlands, the Bahamas, Trinidad, Austria, Hungary, Rumania, Luxembourg, Chile, Egypt, Bolivia, Mexico, Liberia, Costa Rica, Peru, Transvaal, Germany, Hong Kong, Portugal, and Apfa, the charge is as follows:

For order not exceeding \$10, 8 cents; over \$10 and not exceeding \$20, 10 cents; over \$20 and not exceeding \$30, 15 cents; over \$30 and not exceeding \$40, 20 cents; over \$40 and not exceeding \$50, 25 cents; over \$50 and not exceeding \$60, 30 cents; over \$60 and not exceeding \$70, 35 cents; over \$70 and not exceeding \$80, 40 cents; over \$80 and not exceeding \$90, 45 cents; over \$90 and not exceeding \$100, 50 cents.

When payable in any other foreign country, the charge is as follows: For order not exceeding \$10, 10 cents; over \$10 and not exceeding \$20, 20 cents; over \$20 and not exceeding \$30, 30 cents; over \$30 and not exceeding \$40, 40 cents; over \$40 and not exceeding \$50, 50 cents; over \$50 and not exceeding \$60, 60 cents; over \$60 and not exceeding \$70, 70 cents; over \$70 and not exceeding \$80, 80 cents; over \$80 and not exceeding \$90, 90 cents; over \$90 and not exceeding \$100, \$1.

The maximum amount for which a money order may be drawn payable in Cape Colony is \$100. There is no limitation to the number of international orders that may be issued, in one day, to a remitter, in favor of the same payee.

*Domestic rules and regulations apply to money orders for Canada, Cuba, Hawaii, Newfoundland, Porto Rico, and the Philippine Islands, also Windward Islands, Jamaica, and Leeward Islands, British Honduras, British Guiana, Canal Zone (Isthmus of Panama), Tutuila (Samoa), United States Postal Agency at Shanghai (China), Virgin Islands, and Guam.*

## The Ship Subsidy Bill

AS PASSED BY THE HOUSE OF REPRESENTATIVES.

The following is the text of the Ship Subsidy bill as passed by the House of Representatives March 1, 1907, by a vote of 153 to 144, after there had been eliminated the Senate provisions for payments to Pacific steamship lines controlled by Harriman or Hill railway interests. In the struggle over the bill fifty-two Republicans voted with the Democrats in opposition on the first roll call. On the motion of Mr. Williams to lay the motion to reconsider on the table fifty Republicans voted with the Democrats. On the vote to adopt a substitute there were forty-three Republican opponents and on its final passage there were forty-one. The bill as amended went back to the Senate, where it failed to pass in the closing hours of the session on account of the determined filibustering of its opponents. The original bill of this session, which contained the subsidies stricken out by the House of Representatives, passed the Senate February 14, 1906:

An Act to promote the national defense, to create a naval reserve, to establish American ocean mail lines to foreign markets and to promote commerce.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that the Act entitled, "An Act to provide for ocean mail service between the United States and foreign ports, and to promote commerce," approved March 3, 1891, be, and hereby is, amended by adding thereto the following section:

Section 10. That the Postmaster-General is hereby authorized and directed to enter into contracts for a term of ten years, with citizens of the United States, for the carrying of mails on steamships hereafter built in the United States and registered in the United States, or now duly registered by a citizen or citizens of the United States (including as such citizens any corporation created under the laws of the United States or any of the States thereof, a majority of the stock of which shall be and shall continue to be owned by citizens of the United States, between ports of the United States, and ports on the routes and for the amounts hereinafter prescribed.

First.—From a port or ports of the Atlantic Coast of the United States to Brazil, on steamships of the United States of not less than sixteen knots' speed, for a monthly service at a maximum compensation not exceeding \$300,000 a year, or for a fortnightly service at a maximum compensation not exceeding \$600,000 a year.

Second.—From a port or ports of the Atlantic Coast of the United States to Argentina, on steamships of the United States, of not less than sixteen knots' speed, for a monthly service at a monthly compensation not exceeding \$400,000 a year, or for a fortnightly service at a maximum compensation not exceeding \$800,000 a year; provided, that a vessel receiving compensation for mail service pursuant to contract on a voyage on this route shall not also receive compensation for mail service pursuant to contract on said voyage on the first route as described above.

Fourth.—From a port or ports of the Pacific Coast of the United States to the Isthmus of Panama, Peru and Chile, on steamships of the United States of not less than sixteen knots' speed, for a monthly service at a maximum compensation not exceeding \$300,000 a year, or for a fortnightly service at a maximum compensation not exceeding \$600,000 a year.

Sec. 2. That Congress reserves the right to alter, amend or repeal this Act in whole or in part whenever in its judgment the public interests shall so require, without, however, impairing in otherwise the obligation of special contract then in force which shall have been entered into under the provisions of this Act.

Sec. 3. That there shall be enrolled, in such manner and under such requirements as the Secretary of the Navy may prescribe, from the officers and men now and hereafter employed in the merchant marine and fisheries of the United States, including the coastwise trade of the Atlantic and Pacific, and the Great Lakes, such officers, petty officers, and men as may be capable of rendering service as members of a naval reserve, for duty in time of war, and who are willing to undertake such service, to be classified in grades and ratings according to their capacity as shown at time of enrollment. No man shall be thus enrolled who is not a citizen of the United States by either birth or naturalization. These members of the naval reserve shall be enrolled for a period of four years, during which period they shall be subject to render service on call of the President in time of war. They shall also pursue such qualifications, receive such instruction, and be subject to such regulations as the Secretary of the Navy may prescribe. The Secretary of the Treasury is hereby authorized and directed, upon proper audit by the Auditor of the Navy Department, to pay out of any money to be annually appropriated thereupon, estimates to be annually submitted to Congress in the book of estimates to such officer, petty officer, or man thus enrolled, and employed in the merchant marine or fisheries, including the coastwise trade of the Atlantic and Pacific and the Great Lakes as herein provided, an annual retainer as follows:

For each officer of the line or engineer corps having the rank of lieutenant in the naval reserve, \$110; for each officer of the line or engineer corps having the rank of lieutenant (junior grade) in the naval reserve, \$90; for each officer of the line or engineer corps having the rank of ensign in the naval reserve, \$80; for each man with a rating of chief petty officer, \$70; for each man with a rating of petty officer, first class, \$60; for each man with a rating of petty officer, second class, \$48; for each man with a rating of petty officer, third class, \$40; for each seaman, first class, \$36; for each seaman, second class, \$30; for each seaman, third class, \$24. Such retainer shall be paid at the end of each year of service on certificate by the Secretary of the Navy that the member of the naval reserve has complied with the regulations and has served for at least six months of the prevailing twelve months on vessels of the United States in the merchant marine or fisheries. The total number of officers, petty officers, and men enrolled in the naval reserve shall not at any time exceed 10,000.

Sec. 4. That this Act shall take effect on July 1, 1907.

\* Under seal, 10 years. † If made in State; if outside, 2 years. ‡ Unless a different rate is expressly stipulated. § Under seal, 20 years. ¶ Store accounts; other accounts 3 years; accounts between merchants 5 years. †† New York has by recent law legalized any rate of interest on call loans of \$5,000 or upward, on collateral security. ‡‡ Becomes dormant, but may be revived. §§ Six years from last item. (a) Accounts between merchants 2 years. (b) In courts not of record 5 years. (c) Witnessed 20 years. (d) Twenty years in Courts of Record; in Justice's Court 10 years. (e) Negotiable notes 6 years, non-negotiable 17 years. (f) Ceases to be a lien after that period. (h) On foreign judgments 1 year. (i) Is a lien on real estate for only 10 years. (k) And indefinitely by having execution issue every 5 years. (l) Ten years foreign, 20 years domestic. (n) Not of record 6 years. (o) No limit. (p) Foreign Domestic 6 years.

Penalties for usury differ in the various States. Arizona, California, Colorado, Indian Territory, Maine, Massachusetts (except on loans of less than \$1,000), Montana, Nevada, Rhode Island and Wyoming have no provisions on the subject. Loss of principal and interest is the penalty in Arkansas and New York. Loss of principal in Delaware and Oregon. Loss of interest in Alabama, Alaska, District of Columbia, Florida, Idaho, Illinois, Iowa, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, New Jersey, North Carolina (double amount if paid), North Dakota (double amount if paid), Oklahoma, South Carolina, South Dakota, Texas, Virginia, Washington (double amount if paid), Wisconsin, and Hawaii. Loss of excess of interest in Connecticut, Georgia, Indiana, Kansas, Kentucky, Maryland, Missouri, New Hampshire (three times), New Mexico, Ohio, Pennsylvania, Tennessee, Vermont, and West Virginia.

State Flowers.

The following are "State Flowers" adopted in most instances by the vote of the public school scholars of the respective States:

Alabama.....	Golden Rod	Mississippi.....	Magnolia
Arkansas.....	Apple Blossom	Montana.....	Bitter Root
California.....	California Poppy (Eschscholtzia)	Nebraska.....	Golden Rod
Colorado.....	Columbine	New York.....	Rose
Connecticut.....	Mountain Laurel	North Dakota..	Wild Rose
Delaware.....	Peach Blossom	Ohio.....	Scarlet Carnation
Idaho.....	Syringa	Oklahoma.....	Mistletoe
Indiana.....	Corn	Oregon.....	Oregon Grape
Iowa.....	Wild Rose	Rhode Island..	Violet
Kansas.....	Sunflower	South Dakota..	*Pasque
Kentucky.....	Golden Rod	Tennessee.....	Daisy
Louisiana.....	Magnolia	Texas.....	Blue Bonnet
Maine.....	* Pine Cone and Tassel	Utah.....	Sego Lily
Maryland.....	Golden Rod	Vermont.....	Red Clover
Michigan.....	Apple Blossom	Washington...	Rhododendron
Minnesota.....	Mohegan	West Virginia.	Rhododendron

In other States the scholars or State Legislatures have not yet taken action. \* Adopted by State Legislature, not by public school scholars.

In England the primrose is worn on the birthday of Lord Beaconsfield. On the anniversary of Parnell's death his followers wear a sprig of ivy. The Jacobites wear white roses on June 10. In France the Orleansists wear white daisies and the Bonapartists the violet.

## Regents' Examinations in New York State in 1908.

**REGENTS' EXAMINATIONS** under the control of the Education Department of the State of New York (office, Albany, N. Y.) will be held in 1908 at the following times and places: Jan. 27-31 inclusive, at New York, and about 800 academies and high schools; 86 subjects. June 15-19 inclusive, at New York, and about 800 academies and high schools; 87 subjects. Examinations for teachers' certificates are held on the same dates as the Regents, and May 21-23, August 12-14 and 24-26. Sept. 14-16, inclusive, at New York, Albany, Syracuse, Buffalo; 33 subjects. September examinations are for professional and technical students only. Morning session begins 9.15 o'clock. Afternoon session begins 1.15 o'clock.

**UNIVERSITY CREDENTIALS**—Preliminary (preacademic) certificate—Reading, writing, spelling, elementary English, arithmetic, geography, and on certificates earned in June, 1907, and thereafter, elementary United States history and civics. **MEDICAL STUDENT CERTIFICATE**—For matriculates prior to Jan. 1, 1896, for any \*12 academic counts; for matriculates prior to Jan. 1, 1897, for any \*24 academic counts. But all matriculates after Jan. 1, 1897, must secure \*48 academic counts or their full equivalent.

**LAW STUDENT CERTIFICATE**—Second year English, first year Latin, arithmetic, algebra, geometry, English history, United States history, civics, economics, or any \*36 academic counts.

**DENTAL STUDENT CERTIFICATE**—Any \*48 academic counts or their equivalents (for matriculates before Jan. 1, 1905, any \*36 academic counts).

**VETERINARY STUDENT CERTIFICATE**—Any \*48 academic counts or their equivalents (for matriculates before Jan. 1, 1905, any \*24 academic counts).

**PHARMACY STUDENT CERTIFICATE**—Any \*12 academic counts.

**NURSES PRELIMINARY CERTIFICATE**—After January 1, 1906, 15 counts.

**ACADEMIC DIPLOMA**—For 72 counts. This diploma is based on a four-year curriculum, requiring a student to pursue four subjects of study of at least 18 lesson periods a week. This increase from 15 to 18 lessons a week necessitates a corresponding change in the system of "counts," and 12 counts under the former scheme of values is equal to 15 under the present. For diplomas earned in June, 1909, and thereafter, the requirements are: English 13 counts, mathematics 10, history 8, science 10, elective 31. For the classical academic diploma: English 13, mathematics 10, history 5, science 5, Latin 20, a second foreign language 15, elective 4. There is no time limit, but credentials issued by the Department are good till cancelled for cause. To protect the rights of the weak or of the slowly developing student and at the same time to test the knowledge of the most capable, the following system of differentiated credentials has been adopted: 1. A diploma based on a general average of 65; 2. A diploma, with credit, based on a general average of 75; 3. A diploma, with great credit, based on a general average of 85; 4. A diploma, with highest credit, based on a general average of 90. Answer papers are reviewed in the Department and all papers below standard returned to the candidates. Candidates attending schools in which these examinations are not held should send notice at least ten days in advance at what time and in what studies they wish to be examined, that required desk room may be provided. Candidates who fail to send this advance notice can be admitted only so far as there are unoccupied seats. [See Handbook 3].

**PROFESSIONAL CERTIFICATES WITHOUT EXAMINATION**—Candidates having credentials which can be accepted in place of examinations should send them to the Education Department—Registration. [See Handbook 23].

**MEDICAL EXAMINATIONS**—The regents shall admit to any examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State; 4. Has studied medicine not less than four school years, including four satisfactory courses of at least seven months each in four different calendar years in a medical school registered as maintaining at the time a satisfactory standard. This requirement took effect Jan. 1, 1898, and does not apply to students matriculated before that date who receive their degree before Jan. 1, 1909; 5. Evidence that applicant has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full rights to practise medicine in some foreign country (original credentials). Examinations for license to practise medicine in this State will be held as follows: Feb. 4-7, May 19-22, June 23-26, Sept. 22-25, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

**DENTAL EXAMINATIONS**—The regents shall admit to examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of doctor of dental surgery in this State. Matriculates in a registered dental school before Jan. 1, 1896, are exempt from the preliminary education requirement for degrees and for admission to the licensing examinations; 4. Subsequently to receiving such preliminary education either has been graduated in course with a dental degree from a registered dental school, or else, having been graduated in course from a registered medical school with a degree of doctor of medicine, has pursued thereafter a course of special study of dentistry for at least two years in a registered dental school, and received therefrom its degree of doctor of dental surgery, or else holds a diploma or license conferring full right to practise dentistry in some foreign country and granted by some registered authority. Dates of dental examinations: Feb. 4-7, May 19-22, June 23-26, and Sept. 22-25, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

**PHARMACY EXAMINATIONS**—Applications for examination, accompanied by the proper fee, must be forwarded to the secretary of the branch of the State Board of Pharmacy in which the applicant resides at least ten days previous to the date of examination. A candidate for the grade of licensed pharmacist must pay a fee of \$10 and submit evidence of: 1. A minimum age of 21 years; 2. At least four years' practical experience in a pharmacy; 3. A diploma from a registered pharmacy school. For the grade of licensed druggist a candidate must pay a fee of \$5, submit proof of three years' practical experience in a pharmacy, and pass examination. Examinations will be held in 1907—New York: Feb. 20, June 19, Nov. 20; Brooklyn: May 15, Sept. 18, Dec. 18; Albany and Rochester: Feb. 20, April 17, Sept. 18, Nov. 20; Buffalo: Feb. 20, April 17, June 19, Sept. 18, Nov. 20.

**VETERINARY EXAMINATION**—The regents shall admit to examination any candidate who pays a fee of \$10 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required in all cases after July 1, 1897, preliminary to receiving a degree in veterinary medicine. Matriculates in a registered veterinary medical school prior to Jan. 1, 1896, are exempt from the preliminary education requirement; 4. Has studied veterinary medicine not less than three full years, including three satisfactory courses, in three different academic years, in a veterinary medical school registered as maintaining at the time a satisfactory standard; 5. Has received a degree as veterinarian from some registered veterinary medical school. Dates of examinations: Feb. 4-7, May 19-22, June 23-26, Sept. 22-25, at New York, Albany, Syracuse, and Buffalo.

**CERTIFIED PUBLIC ACCOUNTANTS**—1. The full C. P. A. certificate is to be granted only to those at least twenty-five years of age who have had three years' satisfactory experience in the study or practice of accounting, one of which shall have been in the office of an expert public accountant; 2. Candidates having the required preliminary education and passing the required examinations, but lacking the age or the three years' experience required for the full C. P. A. certificate, may be certified as junior accountants under the same conditions as to residence and character; 3. Two examinations, in January and in June, are held annually. There are to be four sessions as follows: 1. Theory of accounts; 2. Practical accounting; 3. Auditing; 4. Commercial law; candidates must complete all subjects at a single examination as required in medicine; candidates for either the C. P. A. or the junior accountant certificate must be more than twenty-one years of age, and of good moral character. They must pay a fee of \$25, and must have the regents' academic diploma or its equivalent as prescribed for other professional examinations. Dates of examinations: Feb. 4-5 and June 23-24, at New York, Albany, Syracuse, and Buffalo.

**REGISTRATION OF NURSES**—Who May Practise as Registered Nurses—Any resident of the State of New York, being over the age of twenty-one years and of good moral character, holding a diploma from a training school for nurses connected with a hospital or sanitarium giving a course of at least two years, and registered by the regents of the University of the State of New York as maintaining in this and other respects proper standards, all of which shall be determined by the said regents, and who shall have received from the said regents a certificate of his or her qualifications to practise as a registered nurse, shall be styled and known as a registered nurse, and no other person shall assume such title, or use the abbreviation R. N., or any other words, letters, or figures to indicate that the person using the name is such a registered nurse. Two examinations will be held annually in January and June respectively. Applications should be made at least ten days in advance to Education Department, Examination Division, Albany, N. Y. Dates: 1908, Feb. 4-7, June 23-26, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

\* Based on 1900 syllabus; on the syllabus of 1905, 5, 10, 15, 30, 45, and 60 respectively.

DAUGHTERS OF REVOLUTIONARY SOLDIERS ON PENSION ROLLS JUNE 30, 1907.

NAME.	Age.	Name of Soldier.	Service of Soldier.	Residence.
Hurlbutt, Sarah C.....	89	Weeks, Elijah.....	Massachusetts	Little Marsh, Pa.
Thompson, Rhoda Augusta.....	86	Thompson, Thaddeus.....	New York.....	Woodbury, Ct.
Wooley, Phoebe M., now Palmer.....	86	Wooley, Jonathan.....	N. Hampshire.	Brookfield, N. Y.

Daniel F. Bakeman, the last survivor of the War of the Revolution, died in Freedom, Cattaraugus County, N. Y., April 5, 1869, aged 109 years. Esther S. Damon, the last surviving widow of a Revolutionary soldier, who died at Plymouth Union, Vt., November 11, 1906, aged 92 years, was the wife of Noah Damon, who served at various periods as a private in Massachusetts troops from April 19, 1775, to May 11, 1780.

The last survivor of the war of 1812 who was on the pension rolls was Hiram Cronk of Ava, N. Y., who died May 15, 1905, aged 105 years. He served in the defense of Sacket Harbor in 1814.

The number of enrolled pension attorneys in 1907 was 24,433.

The following are the ratings per month for disabilities incurred in the service:

**Army.**—Lieutenant-colonel and all officers of higher rank, \$30; major, surgeon, and paymaster, \$25; captain and chaplain, \$20; first lieutenant and assistant surgeon, \$17; second lieutenant and enrolling officer, \$15; enlisted men, \$8.

**Navy.**—Captain and all officers of higher rank, commander, surgeon, paymaster, and chief engineer, \$30; lieutenant, passed assistant surgeon, surgeon, paymaster, and chief engineer, \$25; master, professor of mathematics, and assistant surgeon, \$20; first assistant engineer, ensign, and pilot, \$15; cadet midshipman, passed midshipman, midshipman, warrant officers, \$10; enlisted men, \$8.

### Reciprocity Treaties and Agreements.

(List of reciprocity treaties between the United States and foreign countries since 1850)

COUNTRIES WITH WHICH RECIPROcity TREATIES AND AGREEMENTS HAVE BEEN MADE.	Signed.	Took Effect.	Terminated.
British North American Possessions (treaty).....	June 5, 1854.....	March 16, 1855.....	March 17, 1866.
Hawaiian Islands (treaty).....	January 30, 1875.....	September 9, 1876.....	April 30, 1900.
Brazil (agreement).....	January 31, 1891.....	April 1, 1891.....	
Santo Domingo (agreement).....	June 4, 1891.....	September 1, 1891.....	
Great Britain:			
Barbados (agreement).....	February 1, 1892.....	February 1, 1892.....	
Jamaica (agreement).....	February 1, 1892.....	February 1, 1892.....	
Leeward Islands (agreement).....	February 1, 1892.....	February 1, 1892.....	
Trinidad (including Tobago) (agreement).....	February 1, 1892.....	February 1, 1892.....	
Windward Islands (excepting Grenada) (agreement).....	February 1, 1892.....	February 1, 1892.....	
British Guiana (agreement).....	February 1, 1892.....	April 1, 1892.....	August 27, 1894.
Salvador (agreement).....	December 30, 1891.....	February 1, 1892 (provisional)	
Nicaragua (agreement).....	March 11, 1892.....	March 12, 1892.....	
Honduras (agreement).....	April 29, 1892.....	May 25, 1892 (provisional).....	
Guatemala (agreement).....	December 30, 1891.....	May 30, 1892.....	
Spain, for Cuba and Porto Rico (agreement).....	June 16, 1891.....	September 1, 1891 (provisional).....	
Austria-Hungary (agreement).....	May 26, 1892.....	May 26, 1892.....	
France (agreement).....	May 28, 1898.....	June 1, 1898.....	Still in force.
Germany (agreement).....	January 30, 1892.....	February 1, 1892.....	August 24, 1894.
Portugal and Azores and Madeira Islands (agreement).....	May 22, 1900.....	June 12, 1900.....	Still in force.
Italy (agreement).....	February 8, 1900.....	July 18, 1900.....	Still in force.
Switzerland (treaty of 1850).....	.....	June 1, 1898.....	March 23, 1900.
Switzerland.....	.....	January 1, 1906.....	Still in force.
Cuba (agreement).....	December 17, 1903.....	December 27, 1903.....	Still in force.
Spain (agreement).....	August 27, 1906.....	September 1, 1906.....	Still in force.
Bulgaria (agreement).....	September 15, 1906.....	September 15, 1906.....	Still in force.
Germany (agreement).....	April 22, 1907.....	July 1, 1907.....	Still in force.

Reciprocity treaties or agreements were also negotiated and signed under authority of section 4 of the act of 1897, with the following governments: United Kingdom, for Jamaica, Turks and Caicos Islands, Barbados, Bermuda, and British Guiana; Dominican Republic; Nicaragua; Ecuador; Argentina; France—but the United States Senate has not acted upon them.

The treaty with Cuba, which went into operation December 27, 1903, gives a reduction of 20 per cent. duty on all dutiable articles from Cuba entering the United States, and a reduction ranging from 20 to 40 per cent. on articles from the United States entering Cuba.

### Arbitration Treaties.

TREATIES of arbitration were negotiated in 1904 and 1905 by the President with Great Britain, France, Germany, Austria-Hungary, Norway and Sweden, Switzerland, Portugal, and Mexico. They were in exactly the same language and provided that differences of a legal nature or relating to the interpretation of treaties which cannot be settled by diplomacy shall be referred to the permanent court of arbitration established at The Hague \* provided, nevertheless, that they do not affect the vital interests, the independence or the honor of the two contracting states and do not concern the interests of third parties. The United States Senate ratified these treaties February 11, 1905, but notwithstanding the remonstrance of the President—with an amendment requiring that each specific proposal to arbitrate shall be put in the form of a treaty to be referred to the Senate for approval. The President, holding that the amendment vitiated the force of the treaties, decided not to submit them to the countries with which the original conventions were signed.

The Senate on January 28, 1905, ratified a treaty with Guatemala, San Salvador, Peru and Honduras providing for the submission to arbitration at the Permanent Court of the Hague of "all claims for pecuniary loss or damage which may be presented by their respective citizens and which cannot be amicably adjusted through diplomatic channels, and when said claims are of sufficient importance to warrant the expenses of arbitration," the treaty to remain in force five years from the date of its ratification by the last signatory government (the United States).

### The Monroe Doctrine.

"THE Monroe doctrine" was enunciated in the following words in President Monroe's message to Congress December 2, 1823:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. . . . We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

Secretary of State Olney in his despatch of July 20, 1895, on the Venezuelan Boundary Dispute, said: "It (the Monroe doctrine) does not establish any general protectorate by the United States over other American States. It does not relieve any American State from its obligations as fixed by international law, nor prevent any European power directly interested from enforcing such obligations or from inflicting merited punishment for the breach of them."

President Roosevelt in a speech in 1902 upon the results of the Spanish-American war, said: "The Monroe doctrine is simply a statement of our very firm belief that the nations now existing on this continent must be left to work out their own destinies among themselves, and that this continent is no longer to be regarded as the colonizing ground of any European power. The one power on the continent that can make the power effective is, of course, ourselves; for in the world as it is, a nation which advances a given doctrine likely to interfere in any way with other nations, must possess the power to back it up, if it wishes the doctrine to be respected."

**Commercial Agreement With Germany.**

A Commercial Agreement between the United States and Germany was signed at Washington April 22, 1907, and at Leviso May 2, 1907. The following are its terms:

The President of the United States of America, on the one hand, and His Majesty the German Emperor, King of Prussia, in the name of the German Empire, on the other, animated by a desire to adjust the commercial relations between the two countries until a comprehensive commercial treaty can be agreed upon, have decided to conclude a temporary commercial agreement, and have appointed as their plenipotentiaries for that purpose, to wit:

The President of the United States of America, the Honorable Elihu Root, Secretary of State of the United States; and

His Majesty the German Emperor, King of Prussia, His Excellency Baron Speck von Sternburg, His Ambassador Extraordinary and Plenipotentiary to the United States of America.

Who, after an exchange of their respective full powers, found to be in due and proper form, have agreed upon the following articles:

**ARTICLE I.**

In conformity with the authority conferred on the President of the United States in Section 3 of the Tariff act of the United States approved July 24, 1897, it is agreed on the part of the United States that the following products of the soil and industry of Germany imported into the United States shall, from and after the date when this agreement shall be put in force, be subject to the reduced tariff rates provided by said Section 3, as follows:

Argols, or crude tartar, or wine lees, crude, 5 per centum ad valorem.

Brandies, or other spirits manufactured or distilled from grain or other materials, \$1.75 per proof gallon.

Champagne and all other sparkling wines, in bottles containing not more than one quart and more than one pint, \$6 per dozen; containing not more than one pint each and more than one-half pint, \$5 per dozen; containing one-half pint each or less, \$1.50 per dozen; in bottles or other vessels containing more than one quart each, in addition to \$6 per dozen bottles on the quantities in excess of one quart, at the rate of \$1.90 per gallon.

Still wines, and vermouth, in casks, 35 cents per gallon; in bottles or jugs, per case of one dozen bottles or jugs containing each not more than one quart and more than one pint, or twenty-four bottles or jugs containing each not more than one pint, \$1.25 per case, and any excess beyond these quantities found in such bottles or jugs shall be subject to a duty of 4 cents per pint or fractional part thereof, but no separate or additional duty shall be assessed upon the bottles or jugs.

Paintings in oil or water colors, pastels, pen and ink drawings, and statuary, 15 per centum ad valorem.

**ARTICLE II.**

It is further agreed on the part of the United States that the modifications of the Customs and Consular Regulations set forth in the annexed diplomatic note, and made a part of the consideration of this agreement, shall go into effect as soon as possible and not later than from the date when this agreement shall be put in force.

**ARTICLE III.**

Reciprocally, the Imperial German Government concedes to the products of the soil and industry of the United States enumerated in the attached list upon their importation into Germany the rates of duty indicated therein.

**ARTICLE IV.**

The Provisions of Articles I. and III. shall apply not only to products imported directly from the country of one of the contracting parties into that of the other, but also to products which are imported into the respective countries through a third country, so long as such products have not been subject to any further processes of manufacture in that country.

**ARTICLE V.**

The present agreement shall apply also to countries or territories which are now or may in the future constitute a part of the customs territory of either contracting party.

**ARTICLE VI.**

The present agreement shall be ratified by His Majesty the German Emperor, King of Prussia, as soon as possible, and upon official notice thereof the President of the United States shall issue his proclamation giving full effect to the respective provisions of this agreement.

This agreement shall take effect on July 1, 1907, and remain in force until June 30, 1908. In case neither of the contracting parties shall have given notice six months before the expiration of the above term of its intention to terminate the said agreement, it shall remain in force until six months from the date when either of the contracting parties shall notify the other of its intention to terminate the same.

Done in duplicate in English and German texts.

In testimony whereof the plenipotentiaries above mentioned have subscribed their names hereto at the places and on the dates expressed under their several signatures.

The agreement is signed by Elihu Root on behalf of the United States, and Speck von Sternburg on the part of Germany.

About one hundred and fifty products—agricultural, mechanical and artistic—are enumerated in the list alluded to in Article III. of the above agreement.

It is provided that special agents, confidential agents, and others sent by the Treasury Department to investigate questions bearing upon customs administration shall be accredited to the German Government through the Department of State at Washington and the Foreign Office at Berlin, and such agents shall co-operate with the several chambers of commerce located in the territory apportioned to such agents.

## Forests and Forestry.

The total wooded area in the United States is estimated at 1,094,514 square miles, or about 699,500,000 acres, which is 36½ per cent. of the total land area, exclusive of Alaska.

The lumber industry is fourth among the great industries of the United States. The amount of lumber produced in 1905 was between 30 and 35 billion board feet, valued at from \$475,000,000 to \$500,000,000.

At the present rate of cutting the forest lands of the United States cannot long meet the enormous demands made upon them. The great pineries of the Lake States have been almost entirely eliminated, and great inroads have been made in the supply of valuable timber throughout all parts of the country.

The heavy demands for timber have been rapidly pushing to the South and West the great centres of lumber supply, in consequence the State of Washington now leads in lumber production, followed in turn by Wisconsin, Michigan, Louisiana, Minnesota, and the others. The annual increase in the cut of white pine and of yellow pine, which now reaches the enormous figure of 10 billion feet, has practically come to a standstill; and the lumbering of red fir in the northwest has brought that wood to third place.

A long step forward in the preservation of forests for purposes of permanent timber supply and the protection of watersheds and grazing lands was made, when, on February 1, 1905, the transfer of the administration of the National Forest reserves from the Department of the Interior to the Department of Agriculture was made. Under the present system the management of the National forests, the area of which on November 17, 1906, was, approximately, 127,078,658 acres, is undertaken by the Forest Service of the United States Department of Agriculture.

A phenomenal saving has been effected to the naval stores industry by the introduction of the cup and gutter system of turpentineing, instead of the old destructive system of boxing, by insuring a larger product, a better quality, and, best of all, indefinitely prolonging the life of the industry by lessening the damage to the longleaf pine forests.

In 1905, 3,192,000 cords of wood were used in the manufacture of paper, of which an increased amount, 645,423 was imported from Canada. This demand is making a large drain on the spruce forests which furnish the principal supply, and investigations are now being made to determine what woods, such as poplar, fir, and the like, can be successfully used to insure a continued supply of material. A much larger drain upon our forest resources is caused in the production of railroad ties, of which 84,000,000, equivalent to three billion board feet, were used in 1905. White oak, hitherto the chief source of supply, is not plentiful enough to indefinitely meet this demand, and in many parts of the country the supply of chestnut, cedar, and cypress is becoming inadequate; however, seasoning and treating methods are being found by which cheaper and more plentiful woods, as lodgepole pine in the North west and loblolly pine in the South, are being prepared for these uses. Timber to the amount of two and one-half billion feet was used for mine timbers.

### THE FOREST SERVICE.

"Forest Service" has been the name since July 1, 1905, of that branch of the Department of Agriculture which was previously called the "Bureau of Forestry," and, earlier still, the "Division of Forestry."

Since February 1, 1905, the Forest Service has been charged, under the direction of the Secretary of Agriculture, with the administration of the National Forests. About the management of the National Forests, therefore, the work of the Service now centres. The Forests, whose area on April 1, 1907, was 147,948,685 acres, are of vital importance for their timber and grass and for the conservation of stream flow. They are so managed as to develop their permanent value as a resource by use.

Aside from the care and perpetuation of the National Forests, the Forest Service has to do with the practical uses of forests and forest trees in the United States, especially with the commercial management of forest tracts, wood lots, and forest plantations. It undertakes such forest studies as lie beyond the power or the means of individuals to carry on unaided. It stands ready to co-operate, to the limit of its resources, with all who seek assistance in the solution of practical forest problems, particularly where such co-operation will result in setting up object lessons to serve as encouraging examples for the general benefit.

Co-operative State studies are carried on with States which request the advice of the Service. Examples of this work are the studies of forest conditions in New Hampshire, which appropriated \$7,000 toward the total cost, and California, which appropriated \$25,000. Maine, Massachusetts, Maryland, Rhode Island, Delaware, North Carolina, Kentucky, Tennessee, Missouri, and Mississippi have also called upon the Service for expert assistance.

The fruits of its more important studies are published and distributed without charge upon request, or sold at a low price by the Superintendent of Documents.

The work of the Forest Service is organized under four branches and fourteen offices. The office of the Forester stands at the head, and the branches, which are grazing, operation, silviculture, and products, report to the Forester.

The following is the organization of the Forest Service:

*Forester*—Gifford Pinchot; *Associate Forester*—Overton W. Price; *Law Officer*—P. P. Wells; *Editor*—Herbert A. Smith; *Dendrologist*—George B. Sudworth.

*Grazing*—*Assistant Forester in Charge*—Albert F. Potter.

*Operation*—*Assistant Forester in Charge*—James B. Adams; *Chief Maintenance*—Hermon C. Metcalf; *Chief Accounts*—George E. King; *Chief Organization*—C. S. Chapman; *Assistant Chief*—Clyde Leavitt; *Chief Engineering*—W. E. Heering; *Chief of Lands*—George F. Pollock.

*Silviculture*—*Assistant Forester in Charge*—William T. Cox; *Chief Extension*—Samuel N. Spring; *Chief Silvics*—Raphael Zon; *Chief Management*—E. E. Carter; *Assistant Chief*—W. G. Weigle.

*Products*—*Assistant Forester in Charge*—William L. Hall; *Chief Wood Utilization*—R. S. Kellogg; *Chief Wood Preservation*—Carl G. Crawford; *Chief Publication*—Findley Burns.

The work of the dendrologist includes dendrological studies proper, direction of the Services, forest photograph collection, and charge of the forest exhibits prepared by the Service.

A leading branch of the dendrological studies is the making of an accurate forest map of the distribution of tree species in the United States, to show the extent, composition, and economic possi-

## FORESTS AND FORESTRY—Continued.

billities of our forest resources. Others of these studies concern the cedar forests of Texas, and important but little known trees indigenous to the United States, the growth of which may profitably extend to new localities for economic purposes. Prominent among the latter are the desert pines of California. An investigation is being made of the present and probable future supply of western tan bark oak, as well as of other trees the barks of which are used to adulterate tan bark, and the tannin contents of the barks are being determined by the Bureau of Chemistry. Included also is a study of basket willows. Experimental holts are established on the Arlington Experimental Farm, near Washington, D. C. Attention is given especially to the conditions under which high-grade basket rods may be produced. Approved basket willow cuttings are distributed free each Spring to applicants interested in willow culture.

A series of important publications in course of preparation will describe and illustrate the tree species of the different regions of the United States. The first of these bulletins embraces the trees of the Pacific Coast, and the second those of the Rocky Mountain States. One special use of these tree books will be the aid which they will give forest officers on National Forests in identifying species and in acquainting themselves with their habits, growth, distribution, and other important facts.

The dendrologist also gives technical information about trees, in response to inquiries, including the identification of the wood, seeds, foliage, etc., of native and exotic trees. A large and growing correspondence evidences the public demand for such information.

The Government forest exhibits prepared for State, National, and international expositions explain what forestry is and show its application to the problems with which the Service is dealing. Through these displays much public interest is aroused and information given concerning our forests, their economic importance, and right and wrong methods of using them.

## FOREST PLANTING.

The section of planting in the department of Sylviculture, deals with all phases of forest planting within the National Forests. In the past two important problems have received special attention: (1) The reforesting of denuded watersheds where planting is needed in order to control and regulate the flow of streams directly supplying cities and towns; (2) planting within the treeless National Forests in the Middle West to provide for timber in the future and to serve as an object lesson to the people.

The trees used in planting are grown at eight Government nurseries in the following National Forests: San Gabriel, Santa Barbara, Gila, Dismal River, Pikes Peak, Salt Lake, Pecos, and Lincoln. The combined area of seed beds at the eight stations is 11 acres. They now contain over 5,000,000 trees, from one to three years old. The seed sown in 1907 should produce not less than 4,000,000 trees, giving a total of over 9,000,000 in 1908.

The planting stations are so situated that in addition to providing plant material for local use they also serve as distributing points for other National Forests.

The preliminary stage of forest planting within the National Forests is now past, and several of the planting stations have this year produced trees of sufficient size to plant directly on the permanent site. About 700,000 trees were planted during the Winter and Spring of 1907, the greater part in the Dismal River, Niobrara, North Platte, San Gabriel, Santa Barbara, and Pikes Peak National Forests. At the nursery in the Dismal River National Forest more stock has reached an age suitable for planting than at the other stations. This nursery contains approximately 2,500,000 trees. In the Spring of 1908 there will be about 1,000,000 trees ready for planting in the sandhills. The species largely in use up to this time in planting within this Forest are western yellow pine and jack pine. Other species, chiefly Scotch pine, Norway pine, and Douglas fir, are being tested in the nursery and in experimental plantations.

The Pasadena and San Marcos stations are being used as distributing points for some of the southern California National Forests. These two stations have a combined capacity of about 6,000,000 trees annually.

Private owners of timberlands, large or small, may secure the aid of the Forest Service in the care of their lands under a plan of co-operation fully outlined in circular No. 21. Any owner who wishes to learn whether forestry might be profitable to him may apply to the Forest Service for a working plan. An agent of the Service is then sent to examine the forest. If the piece of woodland is small, as in farm wood lots, and management is practicable, a plan is outlined on the spot and carefully explained to the owner. In the case of large tracts the preparation of a working plan requires a more prolonged study on the ground. The agent sent to examine the tract therefore first finds out whether a sufficiently good opening for paying management exists to justify the outlay. His report is submitted to the owner, with an estimate of the cost of preparing the plan if a plan is found desirable.

If the owner desires the working plan, a force of men is sent to collect the necessary data. A thorough examination of the tract is made both from the Forester's and from the lumberman's points of view. The merchantable and immature trees upon sample strips are counted and their diameter measured, and from these data the stand on the whole tract is calculated. Volume and rate of growth are ascertained for the important species through tree analyses—that is, through measurements of felled trees and counts of their annual rings. Studies are made of reproduction, of the danger from fire, grazing, and insect attack, and of the best means of preventing such injuries. Market and transportation facilities are carefully investigated, and the yield of timber and the character and distribution of the forest are mapped.

When these facts have been collected they are worked up into the plan, which takes into account the special needs or purpose of the owner, as, for instance, to secure permanent supplies of mining timber, to maintain a game preserve, or to protect a watershed. The recommendations in the plan enable the owner to derive from the forest the fullest and most permanent revenue which is consistent with his special requirements.

## FOREST PRESERVATION BY THE VARIOUS STATES.

New York has purchased and set aside 1,500,000 acres for a forest reserve. These lands are mainly in the Adirondacks, but partly in the Catskills. Patrol, to guard against theft of timber and especially against fire, is maintained under the Superintendent of Forests, who is the executive officer of the forest, fish and game commission. The planting of young trees on open places is now going forward at the rate of 500,000 seedlings annually.

Pennsylvania has recently been most active in taking measures for the preservation of its forests. In 1897, this State, to conserve the water supply, provided for the purchase of three forest reserves,

of not less than 40,000 acres each, at the heads of the three principal river systems of the State. In accordance with this and other acts, land has been rapidly acquired, until, at the present time, the holdings of Pennsylvania amount to more than 700,000 acres. In 1901 Pennsylvania made its Bureau of Forestry a separate department. A school for forest wardens has been established at Mont Alto, and in connection with the protection and improvement of the forest reserves, the State is engaged in removing the mature timber.

Minnesota long took the lead in the excellence of a forest fire law, it being the first State to appoint a fire warden charged with responsibility for suppressing fires. New York, in 1900, also made provision for a chief fire warden. Maine and New Hampshire are other States possessing excellent fire laws. In 1899 Michigan appointed a commission to study the forest question, and to select land for a State forest reserve.

Under the supervision of a trained Forester, Wisconsin is selling mature timber from its forest reserve of 264,697 acres, which has been surveyed, mapped and placed under management. In co-operation with the office of Indian Affairs and the Forest Service the State Forester supervises the sale and cutting of timber on the Indian reservations in Wisconsin. On June 26, 1906, Congress passed a bill granting to Wisconsin, 20,000 acres of vacant Government lands.

Indiana took an important step forward when the State held forth encouragement to private owners to plant trees. Since 1904, Massachusetts has had a technically trained State Forester, who besides furnishing advice to landowners for the management of forest lands, delivers a course of lectures at the State agricultural college. In 1905, Maryland passed a law providing for a State Forester under much the same conditions.

California has manifested great interest in forest preservation. Under an appropriation of the Legislature of that State a study of its forest resources has been undertaken, and is now in progress in co-operation with the Forest Service. A State Forester has recently been appointed.

The States now having officers charged with the care of forest interests are: California, Connecticut, Indiana, Kansas, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Washington, West Virginia, and Wisconsin.

The Biltmore Forest School, at Biltmore, North Carolina, was established in 1898. Its director is Dr. C. A. Schenck, forester to the Biltmore estate. The Yale Forest School, established in 1900, is a post-graduate school, whose head is Prof. Henry S. Graves. Harvard has had a forest school since 1903. The University of Michigan has a four-year undergraduate course in forestry. The lecturer is Prof. Filibert Roth.

#### THE AMERICAN FORESTRY ASSOCIATION.

The American Forestry Association whose headquarters are at 1311 G Street, N. W., Washington, D. C. was organized in 1882, and incorporated in January, 1897, with the following objects:

1. The promotion of a businesslike and conservative use and treatment of the forest resources of this country.

2. The advancement of legislation tending to this end both by the States and the Congress of the United States, the inauguration of forest administration by the Federal Government and by the States, and the extension of sound forestry by all proper methods.

3. The diffusion of knowledge regarding the conservation, management, and renewal of forests, the proper utilization of their products, methods of reforestation of waste lands, and the planting of trees.

The Association desires and needs as members all who are interested in promoting the objects for which it is organized—all who realize the importance of using the natural resources of the country in such a manner as not to exhaust them, or to work run to other interests. In particular it appeals to owners of woodlands, to lumbermen and Foresters, as well as to engineers, professional and business men who have to do with wood and its manifold uses, and to persons concerned in the conservation of water supplies for irrigation and other purposes.

The Association has over 5,000 members at the present time, residents of every State in the Union, Canada and foreign countries. The annual dues are two dollars; a magazine is published. The officers of the Association are:

*President*—Secretary of Agriculture, James Wilson; *Vice-Presidents-at-Large*—Dr. Edward Everett Hale, F. E. Weyerhaeuser, James W. Pinchot, Dr. B. E. Fernow; John L. Kaul; *Secretary*—Thomas E. Will, Washington, D. C.; *Treasurer*—Otto Luebker, Washington, D. C.

Local or State Forestry Associations have been formed in California, Colorado, Connecticut, Iowa, Kentucky, Massachusetts, Michigan, Minnesota, Nebraska, New Hampshire, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, Tennessee, Utah, Washington and Wyoming.

#### ARBOR DAY.

Individual States and Territories have striven to encourage the preservation of trees by setting aside a certain day each year for the purpose of tree planting. Every State and Territory, with the exception of Delaware and the Indian Territory, have set apart such an Arbor Day. [See "Legal Holidays."]

#### NATIONAL PARKS.

The national parks were created during the period from 1872 to 1904. They have a total area of about 3,654,196 acres. The more important are the Yellowstone National Park in Wyoming and Montana; Sequoia National Park, General Grant National Park, and Yosemite National Park in California; Mt. Rainier National Park in Washington, and Crater Lake National Park in Oregon.

The reservation known as the Yellowstone National Park, set apart for public uses by an act of Congress passed in 1872, covers a tract of about sixty-five miles in length, from north to south, and about fifty-five miles in width, from east to west, lying chiefly in Northwestern Wyoming, and overlapping, to a small extent, the boundaries of Montana, on the north, and Idaho, on the west. This gives an area of 3,312 square miles, a tract that is nearly the area of the States of Rhode Island and Delaware combined, and nearly half as large as the State of Massachusetts. The Rocky Mountain chain crosses the southwestern portion in an irregular line, leaving by far the greater expanse on the eastern side. The least elevation of any of the narrow valleys is 6,000 feet, and some of them are from 1,000 to 2,000 feet higher. The mountain ranges which hem in these valleys are from 10,000 to upward of 11,000 feet in height, Electric Peak (in the northwest corner of the park, not far back of Mammoth Hot Springs) having an elevation of 11,155 feet, and Mount Langford and Turret Mountain (both in the Yellowstone Range) reaching the height of 11,155 and 11,142 feet respectively.

**Lumber and Timber Products of the United States.**

(From Census Bulletin No. 77.)

Lumber and timber products, as defined by the Bureau of the Census, are manufactured in three classes of establishments—logging or timber camps, sawmills, and planing mills. The raw material of the logging industry is standing timber, and its leading product is saw logs. Among the other principal products are shingle, stave, and heading bolts, cooperage and excelsior stock, fence posts, hop and hoop poles, handle stock, tan bark, piles, paving stock, railway ties, rived or split shingles, masts and spars, ship knees, telegraph and telephone poles, wheel stock and charcoal. Logs and bolts, products of the logging camps, constitute the raw materials of the sawmills, and rough lumber is their leading product. The term "rough lumber" comprises all sawed products reported in thousand feet, board measure, such as planks, boards, scantlings, furniture stock, carriage and wagon stock, agricultural implement stock, bobbin and spool stock, and dimension stock. Among the other principal products of the industry are shingles, cooperage materials, veneers, cut, sawed and sliced, and laths. In the planing mill industry rough lumber forms the principal material, with hardware, glass, glue, etc., as other materials; while chief among its products are finished lumber, such as ceiling, flooring, etc., and sash, doors, blinds, and interior finish.

These three industries are so closely connected that often a single establishment includes a logging camp, a sawmill, and a planing mill. The Bureau of the Census recognizes this close connection, and, although it treats each branch as a separate industry, it gives the figures for the lumber and timber industry as a whole. Since, however, some of the products of the lumber camp are the raw materials of the sawmill, and some of the products of the sawmill the raw materials for the planing mill, a correct total for the lumber and timber industry can not be obtained by adding the figures for the three branches. Special figures are therefore given for lumber and timber products. In determining these figures, moreover, planing mills not connected with sawmills have been omitted, because the products of such mills are not, accurately speaking, lumber and timber. Planing mills connected with sawmills would also have been omitted had it been possible to distribute accurately the costs of operation between the products of the saw and the products of the planer.

**LUMBER AND TIMBER.**

The figures given for the lumber and timber industry as a whole show that 19,127 establishments, with a combined capital of \$517,224,128, were manufacturing lumber and timber products at the census of 1905. These establishments employed on the average 404,626 wage-earners, and they paid \$183,021,519 in wages, consumed materials costing \$183,786,210, and manufactured products valued at \$580,022,690.

These establishments were widely distributed, for in 1905 lumber and timber products were manufactured on a commercial scale in every State and Territory except North Dakota. In nine States the production of lumber was the principal industry and in twelve it was second in importance. The six leading States in the industry, with the value of products manufactured in each, were, in 1905: Washington, \$49,572,512; Wisconsin, \$44,395,766; Michigan, \$40,569,335; Louisiana, \$35,192,374; Minnesota, \$33,183,309, and Pennsylvania, \$31,642,390.

**LOGGING CAMPS.**

In 1905 returns were received from 12,404 logging camps with a combined capital of \$90,454,404. These camps employed on the average 146,596 wage-earners, paid \$66,989,795 in wages, consumed materials costing \$80,412,828, and manufactured products valued at \$236,131,048.

Of the total number of logging camps, 11,644, or 93.2 per cent., were conducted by milling establishments, and 850, or 6.8 per cent., were operated independently. The dependent logging camps reported 78 per cent. of the capital, 80 per cent. of the wage-earners, 78 per cent. of the wages, 90 per cent. of the cost of materials, and 86 per cent. of the value of the products. While it is thus apparent that the bulk of the logging industry is carried on in conjunction with sawmills, the independent camps on an average are much larger. These independent camps follow closely the centres of heaviest lumber production.

In the amount of production, which can most accurately be measured by the number of thousand feet of saw logs produced, Washington ranked first, Louisiana second, Wisconsin third, Pennsylvania fourth, and Arkansas fifth. In the value of products, however, the five leading States were Wisconsin, Washington, Michigan, Minnesota, and Pennsylvania.

A comparison of the figures for 1905 with those for 1900 shows that growth in the industry since 1900 has been most rapid in the Southwestern States and in certain of the Pacific Coast States, while a substantial and, with respect to most of the items, uniform decline characterizes the Lake States as a group. That logging is relatively declining in the Central States is also clearly indicated, and this is due, of course, to the practical exhaustion in those States of merchantable timber in continuous bodies.

**INCREASED COST OF TIMBER.**

Throughout the country the value of log stumpage is increasing. The average value per thousand feet, board measure, for the United States increased from \$2.18 in 1900 to \$2.59 in 1905, a rise of 41 cents, or 18.8 per cent. This advance in the cost of stumpage added \$11,472,115 to the total cost of sawmill material and increased the value of lumber proportionately. The increase is due not so much to a present shortage in the supply of lumber material in the country as a whole as to the fact that the available supply of log stumpage is rapidly being bought up and withdrawn from the market.

The conditions in certain of the States are noteworthy. In Maine, New Hampshire, and New York the great demand for spruce to be used as a raw material in the wood pulp industry has caused an increase in stumpage values far above the average increase

## LUMBER AND TIMBER PRODUCTS OF THE UNITED STATES—Continued.

reported for the country as a whole. In Illinois, Indiana, and Ohio, where little merchantable timber remains, the rise in stumpage values is due directly to the growing scarcity of sawmill material for immediate use. In Kentucky and Tennessee, where the supply is still relatively large, the sharp advances are due in large part to extensive buying for future use. On the Pacific slope is still to be found the cheapest high-grade stumpage in the country, though the values in this region show substantial increases over 1900.

Practically all species of merchantable timber have increased in stumpage value. Yellow pine, which was the species most used at both censuses, increased in value per thousand board feet from \$1.12 to \$1.68. White pine increased from \$3.66 to \$4.62; Douglas fir, the chief species converted into lumber in the States of Washington and Oregon, from 77 cents to \$1.05; hemlock, from \$2.56 to \$3.51; oak, from \$3.15 to \$3.83; spruce, from \$2.26 to \$3.70, and cypress, from \$1.58 to \$3.42. Redwood, found only in California, advanced in value from \$1.06 to \$1.55, or 46.2 per cent.

## INCREASED VALUE OF SAW LOGS.

The increased value of log stumpage is reflected in the increased value of the products of the lumber camps. Saw logs, the principal product of the industry, increased in quantity from 25,279,702 thousand feet in 1900 to 27,980,768 in 1905, a gain of 10.7 per cent., but they increased in value from \$138,880,352 to \$210,074,486, a gain of 32.2 per cent. The number of railway ties reported increased from 22,524,640 to 36,443,308, or 61.8 per cent; while their value increased from \$6,277,439 to \$12,413,793, or 97.8 per cent. The average value of a tie rose from 28 cents in 1900 to 34 cents in 1905. In this connection it should be noted that the census figures do not include ties cut by farmers during the Winter months and sold directly to the railroads. It should also be noted that the figures are for hevn ties. Sawed ties are forming an increasing percentage of the total production of railway ties in the country, and they are reported by the mills in thousand feet under the heading of rough lumber. The other products of the lumber camp generally show an increase both in quantity and value. Hemlock bark, however, decreased in quantity from 471,892 cords to 391,691 cords, but it increased in value from \$1,940,057 to \$2,347,463. Charcoal decreased both in quantity and value.

## SAWMILLS.

At the census of 1905 the number of sawmills reported was 18,277, and their combined capital was \$381,621,184. They furnished employment on the average to 223,674 wage-earners, paid \$100,310,891 in wages, consumed materials costing \$263,865,101, and manufactured products to the value of \$491,524,662.

In this industry Wisconsin ranked first according to the value of products, Washington second, Michigan third, Louisiana fourth, and Pennsylvania fifth. In 1900 Wisconsin was second, Washington sixth, Michigan first, Louisiana eleventh, and Pennsylvania third.

A classification of the mills according to the quantity of lumber cut indicates that between 1900 and 1905 the capacity of the average mill materially increased. Mills cutting 1,000,000 feet or more annually formed 33.3 per cent. of the total number in 1905, as contrasted with 30.6 per cent. in 1900.

The principal products of the sawmills, with their values, were as follows: Rough lumber, \$435,708,084; shingles, \$24,009,610; hoops, \$3,159,973; staves, \$19,082,641; headings, \$7,436,259, and laths, \$5,435,968.

## ALL KINDS OF LUMBER INCREASE IN COST.

The increase in the average value of all lumber was from \$11.14 per thousand feet in 1900 to \$12.76 at the census of 1905, or 14.5 per cent. The advance extended to all species of both conifers and hard woods, and in the case of several of them was large. Among the conifers, yellow pine advanced from \$8.59 per thousand feet to \$10.10; white pine, from \$12.72 to \$14.92; hemlock, from \$9.97 to \$11.91; Douglas fir, from \$8.67 to \$9.51; spruce, from \$11.29 to \$14.03, and cypress, from \$13.34 to \$17.50. Oak increased from \$14.02 per thousand feet to \$17.51; poplar, from \$14.22 to \$18.90; maple, from \$11.83 to \$14.94; cottonwood, from \$10.35 to \$14.92; elm, from \$11.57 to \$14.45, and gum, from \$9.75 to \$10.87.

## PLANING MILLS.

The number of planing mills reported in 1905 was 9,486, and their combined capital was \$222,204,184. They employed 132,030 wage-earners, paid \$66,434,440 in wages, consumed materials costing \$273,276,381, and manufactured products valued at \$404,650,282.

In the value of products of this industry New York ranked first, Wisconsin second, Pennsylvania third, Minnesota fourth, and Illinois fifth. The high rank of New York in the planing mill industry is due almost entirely to the magnitude of the operations of its independent planing mills. Illinois is also important because of its large number of independent mills, as are also Ohio and Massachusetts.

## IMPORTS FROM CANADA.

Practically all the rough lumber imported into the United States comes from Canada, that country contributing 98.2 per cent. of the total in 1905. The following is a statement of the boards, planks, deals, etc., imported from Canada in the three years ending 1905:

1903. Quantity, 718,909,000 feet; value, \$10,565,629.

1904. Quantity, 585,194,000 feet; value, \$8,729,135.

1905. Quantity, 704,956,000 feet; value, \$10,714,417.

**Naturalization Laws of the United States.**

THE conditions under and the manner in which an alien may be admitted to become a citizen of the United States are prescribed by Sections 2, 165-74 of the Revised Statutes of the United States, as amended by Chapter 3592 of the Acts of the First Session of the 59th Congress. (See also Citizen's Expatriation Act, page 183.)

**DECLARATION OF INTENTIONS.**

The alien must declare upon oath before a circuit or district court of the United States or a district or supreme court of the Territories, or a court of record of any of the States having common law jurisdiction and a seal and clerk, of which he is a resident, two years at least prior to his admission, that it is, *bona fide*, his intention to become a citizen of the United States, and to renounce forever all allegiance and fidelity to any foreign prince or State, and particularly to the one of which he may be at the time a citizen or subject.

**PETITION ON APPLICATION FOR ADMISSION.**

At the time of his application for admission, which must be not less than two years nor more than seven years after such declaration of intention, he shall make and file a petition in writing, signed by himself (and duly verified by the affidavits of two credible witnesses who are citizens of the United States, and who shall state that they have personally known him to be a resident of the United States at least five years continuously, and of the State or district at least one year previously), in one of the courts above specified, that it is his intention to become a citizen and reside permanently in the United States, that he is not a disbeliever in organized government or a believer in polygamy, and that he absolutely and forever renounces all allegiance and fidelity to any foreign country of which he may at the time of filing his petition be a citizen or subject.

**CONDITIONS FOR CITIZENSHIP.**

He shall, before his final admission to citizenship, declare on oath in open court that he will support the Constitution of the United States, and that he absolutely and entirely renounces all foreign allegiance. If it shall appear to the satisfaction of the court that immediately preceding the date of his application he has resided continuously within the United States five years at least, and within the State or Territory where such court is held one year at least, and that during that time he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same, he may be admitted to citizenship. If the applicant has borne any hereditary title or order of nobility he must make an express renunciation of the same. No person who believes in or is affiliated with any organization teaching opposition to organized government or who advocates or teaches the duty of unlawfully assaulting or killing any officer of any organized government because of his official character, shall be naturalized. No alien shall be naturalized who cannot speak the English language. An alien soldier of the United States Army of good character may be admitted to citizenship on one year's previous residence.

**MINORS.**

An alien minor may take out his first papers on attaining the age of eighteen years, but he can only become a citizen after having his first papers at least two years, and having resided within the United States five years, and after having attained the age of twenty-one years.

The children of persons who have been duly naturalized, being under the age of twenty-one years at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens thereof.

**CITIZENS' CHILDREN WHO ARE BORN ABROAD.**

The children of persons who now are or have been citizens of the United States are, though born out of the limits and jurisdiction of the United States, considered as citizens thereof. (See page 183, Section 6 of Act of 1907.)

**CHINESE.**

The naturalization of Chinamen is expressly prohibited by Sec. 14, Chap. 126, Laws of 1882.

**PROTECTION ABROAD TO NATURALIZED CITIZENS.**

Section 2,000 of the Revised Statutes of the United States declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this Government the same protection of persons and property which is accorded to native-born citizens. But when a naturalized citizen shall have resided for two years in the foreign State from which he came, it shall be presumed that he has ceased to be an American citizen, and his place of general abode shall be deemed his place of residence during the said years. It is provided that such a presumption may be overcome on the presentation of satisfactory evidence before a diplomatic or consular officer of the United States."

**THE RIGHT OF SUFFRAGE.**

The right to vote comes from the State, and is a State gift. Naturalization is a Federal right and is a gift of the Union, not of any one State. In nearly one-half of the Union aliens (who have declared intentions) vote and have the right to vote equally with naturalized or native-born citizens. In the other half only actual citizens may vote. (See Table of Qualifications for Voting in each State, on another page.) The Federal naturalization laws apply to the whole Union alike, and provide that no alien may be naturalized until after five years' residence. Even after five years' residence and due naturalization he is not entitled to vote unless the laws of the State confer the privilege upon him, and he may vote in several States six months after landing, if he has declared his intention, under United States law, to become a citizen.

**INHABITANTS OF THE NEW INSULAR POSSESSIONS.**

The inhabitants of Hawaii were declared to be citizens of the United States under the act of 1900 creating Hawaii a Territory. Under the United States Supreme Court decision in the insular cases, in May, 1901, the inhabitants of the Philippines and Porto Rico are entitled to full protection under the Constitution, but not to the privileges of United States citizenship until Congress so decrees, by admitting the countries as States or organizing them as Territories.

**Qualifications for Voting in Each State of the Union.**

(Communicated to THE WORLD ALMANAC and corrected to date by the Attorneys-General of the respective States.)  
 In all the States except Colorado, Idaho, Utah, and Wyoming the right to vote at general elections is restricted to males of 21 years of age and upward. (See also "New York," next page.) Women are entitled to vote at school elections in several States. They are entitled by law to full suffrage in the States of Colorado, Idaho, Utah, and Wyoming. (See article entitled "Woman Suffrage.")

STATES.	Requirements as to Citizenship.	PREVIOUS RESIDENCE REQUIRED.				Persons Excluded from Suffrage.
		In State.	In County.	In Town.	In Precinct.	
Alabama*	Citizen of United States or alien who has declared intention (f)	2 yrs.	1 yr.	3 mo.	3 mo.	Convicted of treason or other felonies, idiots, or insane.
Arizona†*	Citizen of U. S. by nativity or naturalization (a) (b).	1 yr.	30 dys		30 dys	Idiot, insane, felon under guardianship.
Arkansas*	Citizen of United States or alien who has declared intention.	1 yr.	6 mo.	30 dys	30 dys	Idiots, insane, convicted of felony, failure to pay poll-tax, U. S. soldiers, or marines.
California*	Citizen by nativity, naturalization (90 days prior to election), or treaty of Queretaro.	1 yr.	90 dys		30 dys	Chinese, idiots, insane, embezzlers of public moneys, convicted of infamous crime, †
Colorado*.	Citizen, native or naturalized, male or female, who is duly registered.	1 yr.	90 dys		10 dys	While confined in public prison, under guardianship, <i>non compos mentis</i> , insane.
Conn.*.....	Citizen of United States who can read English language.	1 yr.		6 mo.		Convicted of heinous crime, unless pardoned.
Delaware*	Citizen of the United States....	1 yr.	3 mo.		30 dys	Insane, paupers or persons convicted of felony unpardoned.
Dis. of Col.	See foot note on following page.					
Florida*..	Citizen of the United States....	1 yr.	6 mo.			Idiots, duellists, convicted of felony or any infamous crime.
Georgia (f)	Citizen of the U. S. who has paid all his taxes since 1877.	1 yr.	6 mo.			Convicted of felony, bribery, or larceny, unless pardoned, idiots, and insane.
Idaho *.....	Citizen of the United States, male or female.	6 mo.	30 dys			Idiots, insane, convicted of felony, bigamists, polygamists, under guardianship (n).
Illinois*..	Citizen of the United States (b).	1 yr.	90 dys	30 dys	30 dys	Convicted of felony or bribery in elections, unless restored to citizenship (h).
Indiana*..	Citizen or alien who has declared intention and resided 1 year in United States.	6 mo.		60 dys	30 dys	United States soldiers, sailors, and marines, and persons convicted of infamous crime (f).
Iowa *.....	Citizen of the United States....	6 mo.	60 dys			Idiots, insane, convicted of infamous crime, U. S. soldiers (h).
Kansas *..	Citizen of United States or alien who has declared intention (b)	6 mo.	30 dys	30 dys	10 dys	Convicted of treason or felony, insane, under guardianship (d).
Kent'ky*.	Citizen of the United States (b)	1 yr.	6 mo.	60 dys	60 dys	Convicted of treason, felony, or bribery in an election, idiots, and insane (h) (m).
Louisiana*.	Citizen of United States.....	2 yrs.	1 yr.		6 mo.	Idiots, insane, felons, under indictment, inmates of prison or charitable institution except soldiers' home.
Maine*.....	Citizen of the United States....	3 mo.	3 mo.	3 mo.	3 mo.	Paupers and Indians not taxed, under guardianship. †
Maryland*.	Citizen of the United States....	1 yr.	6 mo.	6 mo.	1 day.	Felons not pardoned, lunatics, <i>non compos mentis</i> , bribery.
Mass.*.....	Citizen who can read and write (b).	1 yr.	6 mo.	6 mo.	6 mo.	Paupers and persons under guardianship.
Michigan*	Citizen of the United States or alien who declared intention 2 years and 6 months prior to November 8, 1894 (b).	6 mo.	20 dys	20 dys	20 dys	Indians with tribal relations, duellists and accessories.
Minn.*.....	Citizen of United States who has been such for 3 months preceding election (b).	6 mo.	30 dys	30 dys	30 dys	Convicted of treason or felony, unpardoned, under guardianship, insane, Indians lacking customs of civilization.
Miss.*.....	Citizen of the United States who can read or understand Constitution.	2 yrs.	1 yr.	1 yr.	1 yr (e)	Insane, idiots, Indians not taxed, felons, persons who have not paid taxes, bigamists.
Missouri*..	Citizen of United States or alien who has declared intention not less than 1 year or more than 5 before election.	1 yr.	60 dys	60 dys	20 dys	Persons in poorhouses or asylums at public expense, those in prison, or convicted of infamous crimes (k).
Montana*.	Citizen of the United States (b)	1 yr.	30 dys	30 dys	30 dys	Felons not pardoned, idiots, insane, Indians (g).
Nebraska*.	Citizen of United States or alien who has declared intention 30 days before election (b).	6 mo.	40 dys	30 dys	10 dys	Convicted of treason or felony, unless restored to civil rights, persons <i>non compos mentis</i> (h)

\* Australian Ballot law or a modification of it in force. † Or a person unable to read the Constitution in English and to write his name. (a) Or citizens of Mexico who desire to become citizens under treaties of 1848 and 1854. (b) Women can vote in school elections. (c) Clergymen are qualified after six months' residence in precinct. (d) Also public embezzlers, persons guilty of bribery, or dishonorably discharged soldiers from U. S. service, unless reinstated. (e) Also soldiers, sailors, and marines in U. S. service. (f) No soldier, seaman, or marine deemed a resident because stationed in the State. (g) The Australian system sometimes prevails in municipal primaries in Georgia, but same is made applicable by rule of party ordering primary and not by the law. (h) Poll-taxes must be paid to date, by Feb. 1, preceding election. (i) Also soldiers (except those living in soldiers' homes), sailors and marines in U. S. Service. (j) During term fixed by court. (m) Widows and spinsters owning property or having ward of school age may vote in school elections. (n) Also inmates of houses of ill fame.

QUALIFICATIONS FOR VOTING—Continued.

Wyom.*...*	Citizen of the United States, male or female.	1 yr...	60dys	10 dys	10 dys	Idiots, insane, felons, unable to read State Constitution in the English language.

\* Australian Ballot law or a modification of it in force. † Indian must have severed tribal relations. § One year's residence in the United States prior to election required. (a) Women can vote in school elections. (c) Ministers in charge of an organized church and teachers of public schools are entitled to vote after six months' residence in the State. (d) Actual residence in the precinct or district required. (e) Who has paid six months before election any poll-tax then due, and can read and write any section of the State Constitution, or can show that he owns and has paid all taxes due the previous year on property in the State assessed at \$300 or more. (f) Or convicted of bribery, embezzlement of public funds, treason, forgery, perjury, felony, and petty larceny, duellists and abettors, unless pardoned by Legislature. (g) Or persons non compos mentis, sentence to State Prison for one year or more takes away right to vote until restored by General Assembly, under guardianship. (h) Also persons excused from paying taxes at their own request, and those unable to read the State Constitution in English, or write. (j) No soldier, seaman, or marine deemed a resident because stationed in the State. (k) Inhabitant not residence. (l) Thirty days in election district. (m) And any person subject to poll-tax who failed to pay same prior to Feb. 1 of year in which he offers to vote. (n) Must be resident of County to vote for County officers. (o) All persons unable to read and write, and whose ancestor was not entitled to vote prior to Jan. 1, 1857.

In Virginia.—Voting qualifications. All persons who six months before the election have paid their State poll-taxes for the three preceding years. Also any person who served in time of war in the army or navy of the United States, of the Confederate States, or of any State of the United States or of the Confederate States.

Residents of the District of Columbia never had the right to vote therein for national officers, or on other matters of national concern, after the Territory embraced in it was ceded to the United States and became the seat of the general government.

**Requirements Regarding Registration of Voters.**

(Continuation of "Qualifications for Voting," on preceding pages.)

The registration of voters is required in the States of Alabama, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi (four months before election), Montana, Nevada, New Jersey, New York, North Carolina, Oregon, South Carolina, Tennessee, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, and the Territories of Arizona and New Mexico.

In Pennsylvania voters are registered by the assessors. If any voter is missed by assessors and not registered he can swear in his vote.

In Ohio it is required in cities of 11,800 to 100,000 population in presidential years; annually in cities of 100,000 or over.

In Illinois registration of voters is required by law, and in Cook County, where Chicago is located, persons not registered are not entitled to vote; but outside of Cook County generally they can vote if not registered by swearing in their votes, and producing one witness, a householder and registered voter of the voting district, as to their qualifications as electors severally.

In Iowa in cities having 3,500 inhabitants. In Nebraska in cities of over 7,000 inhabitants.

In Kentucky in all incorporated towns and cities, in Kansas in cities of the first and second class, in North Dakota in cities and villages of 800 inhabitants and over, in Ohio in cities of the first and second class.

In Missouri it is required in cities of 25,000 inhabitants and over.

In Oklahoma it is required in all cities having a population in excess of 2,500.

In Rhode Island non-taxpayers are required to register yearly before June 30. In South Dakota registration is required prior to general biennial elections.

The registration of voters is not required in Arkansas, Indiana, New Hampshire or Texas.

**Woman Suffrage.**

In the United States women possess suffrage upon equal terms with men at all elections in four States: In Wyoming, established in 1869; in Colorado, 1893; in Utah, in 1896, and in Idaho, in 1896.

In 1907 the Rhode Island Legislature rejected a bill giving women full suffrage. In June, 1906, Oregon refused to adopt a woman suffrage amendment to its constitution by a vote of 47,075 to 36,902.

In Kansas women possess school suffrage, established in 1861, and municipal suffrage, established in 1887.

In eighteen additional States women possess school suffrage: In Michigan and Minnesota, established in 1875, in New Hampshire and Oregon in 1878; in Massachusetts in 1879; in New York and Vermont in 1880; in Nebraska in 1883; in Wisconsin in 1900; in Washington in 1886; in Arizona, Montana, New Jersey, North Dakota, and South Dakota in 1887; in Connecticut in 1893; in Ohio in 1894.

Two States permit women to vote upon the issuance of municipal bonds: Montana, established in 1887; Iowa, in 1894.

Louisiana gave all women taxpayers the suffrage upon all questions submitted to the taxpayers in 1898.

In 1901 the New York Legislature passed a law providing that "a woman who possesses the qualifications to vote for village or for town officers, except the qualification of sex, who is the owner of property in the village assessed upon the last preceding assessment roll thereof, is entitled to vote upon a proposition to raise money by tax or assessment."

In Great Britain women can vote for all officers except members of Parliament.

In Australia and New Zealand women have full suffrage; also in the Isle of Man, Iceland and Finland.

In Cape Colony, in Canada, in Sweden, and in parts of India women vote on various terms for municipal or school officers.

The National American Woman's Suffrage Association—Rev. Anna H. Shaw, Swarthmore, Pa., President; Vice-President-at-Large, Mrs. Florence Kelley, New York City; Corresponding Secretary, Kate M. Gordon, New Orleans, La.; Recording Secretary, Alice Stone Blackwell, Boston, Mass.; Treasurer, Harriet Taylor Upton, Warren, O.; Laura Clay, Lexington, Ky., and Dr. Annice Jeffreys Myers, Portland, Ore., Auditors. National Headquarters, Warren, O.

The New York State Association Opposed to the Extension of the Suffrage to Women has its Central Committee in New York City. Its officers are as follows: Mrs. Lyman Abbott, President; Mrs. Arthur M. Dodge, First Vice-President, Mrs. Eihu Root, Mrs. Richard Watson Childer, Mrs. William A. Putnam, Mrs. Philip S. Van Patten, Mrs. George D. Miller, and Mrs. William P. Northrup, Vice-Presidents; Mrs. George Waddington, Treasurer; Mrs. George Phillips, Secretary, 377 West End Avenue, New York. There are also organizations in Massachusetts, Illinois, Oregon, Iowa, and Washington. These are founded with the object of testifying to legislative committees and through the medium of the public press that the opposition to woman suffrage is based upon what is claimed to be "the intelligent conviction of the majority of representative women in all lines of social, industrial, and domestic progress." Pamphlets with information as to the objects of the Association may be had from the Secretary.

**National Republican League of the United States.**

The National Republican League of the United States was organized in Chickering Hall, New York City, December 15-17, 1887, by delegates from about 350 Republican clubs of the United States, assembled in national convention pursuant to a call issued by the Republican Club of New York City. It is composed of the Republican clubs of the United States, organized by States and united in a national organization. Its purpose is "Organization and Education." It aims to enlist recruits for the Republican party, particularly the younger men and the "first voters." National conventions have since been held at Baltimore, 1889; Nashville, 1890; Cincinnati, 1891; Buffalo, 1892; Louisville, 1893; Denver, 1894; Cleveland, 1895; Milwaukee, 1896; Detroit, 1897; Omaha, 1898 (biennial sessions afterward); St. Paul, 1900; Chicago, 1902; Indianapolis, 1904; Philadelphia, 1906. *Officers*—President, Gen. E. A. McAlpin, New York City; Secretary, Channock Dewey, 503 Chamber of Commerce Building, Chicago, Ill.

**People's Party National Committee.**

*Chairman* ..... JAMES H. FERRISS, Joliet, Ill.  
*Vice-Chairman* ..... W. S. MORGAN, Hardy, Ark.  
*Secretary* ..... CHARLES Q. DE FRANCE, Lincoln, Neb.  
*Treasurer* ..... GEORGE F. WASHBURN, Boston, Mass.

**Socialist Labor Party National Committee.**

FRANK BOHN, National Secretary, 28 City Hall Place, New York City. The National Executive Committee is composed of Olive M. Johnson, Fruitvale, Cal.; Joseph Marek, New Haven, Conn.; C. A. Jenning, E. St. Louis, Ill.; Joseph Matz, Indianapolis, Ind.; J. H. Arnold, Louisville, Ky.; Arthur E. Remer, So. Boston, Mass.; Herman Richter, Hamtramck, Mich.; William Foy, Minneapolis, Minn.; O. M. Howard, Kansas City, Mo.; Julius Eck, Hoboken, N. J.; Peter Jacobson, Yonkers, N. Y.; John Kircher, Cleveland, O.; D. E. Gilchrist, Pittsburgh, Pa.; A. S. Dowler, El Paso, Tex.; Steve Brearcliff, Seattle, Wash.; Frank R. Wilke, Milwaukee, Wis.; J. E. Schmidt, Roanoke, Va. The recording secretary of the committee is Edmund Seidel.

The party is organized in local organizations known as "sections," such sections existing in thirty States. Any seven persons in any city or town of the United States may form a section, providing they acknowledge the platform and constitution of the Socialist Labor party and do not belong to any other political party. In places where no section exists, or where none can be formed, any person complying with the aforesaid provisions may become a member-at-large upon application to the National Executive Committee. Sections are not permitted to charge initiation fees. All questions of importance arising within the party are decided by general vote. At each meeting of the section a chairman is elected, and the same rule holds good with all standing committees.

**Socialist Party National Committee.**

J. MAHLON BARNES, National Secretary, 269 Dearborn Street, Chicago. This organization, known nationally as the Socialist Party, is officially known as the Social Democratic Party in Wisconsin, and the Public Ownership Party in Minnesota, to conform to the election laws in those States. The National Executive Committee is composed of seven men, elected by a national referendum of party members. The national secretary is elected in like manner. The term of office is one year. The following are the members of the National Executive Committee: Robert Bandlow, Cleveland, Ohio; A. H. Floaten, Fort Collins, Colo.; Chas. H. Kerr, Chicago, Ill.; William Mailly, New York, N. Y.; A. M. Simons, Chicago, Ill.; Chas. G. Towner, Newport, Ky.; John M. Work, Des Moines, Ia. The national committee is composed of representatives from each organized State or Territory, of which there are thirty-nine. Representation is as follows: "Each State or Territory shall be represented on the national committee by one member and by an additional member for every one thousand members or major fraction thereof in good standing in the party." The apportionment is made by the national secretary at the beginning of each year, based upon the dues received from the respective States. The representative to the International Socialist Bureau is Morris Hillquit, 320 Broadway, New York City.

**Principles of the Independence League.**

THE certificate of incorporation of the Independence League, dated New York, December 9, 1905, states that the objects sought by the organization are:

"Voluntarily to obtain and promote by educational means and political action such legislation as will secure independence among electors.

"An administration of government independent of corporate and corrupt influences.

"The application of public property to public uses.

"Effective control by the people of political parties.

"And to these ends to especially support electoral reforms securing an intelligent and fair ballot, the direct nomination of candidates for public office by the people, the abolition of corrupt practices, the public ownership and operation of those public utilities, which, in their nature are natural monopolies; the relief of labor and capital from unjust burdens, thus securing the increased production of wealth, just wages and fair hours for those who labor, and the abolition of private monopoly—to the end that equal rights may be secured to all and especial privileges be granted to none and, further, to unite in a common movement all societies and associations organized for like purposes, and to establish branches of the League throughout the State of New York and the United States of America."

**Election Reform Legislation in 1907.**

The following statement of legislation in the several States in 1907 revising general and primary election methods was made by the Hon. Alton B. Parker, president of the American Bar Association, in his address at the annual meeting of the association at Portland, Me., August, 1907:

Election reform is still a subject for legislative consideration, but the emphasis has been largely shifted from the election to the control over nominations. Nearly all of the States now regulate the choice of delegates to conventions. A new idea which has found favor with a number of Legislatures is that of direct nominations. Under these

**PRIMARY ELECTION LAWS**

the conventions are more or less superseded, and the voter directly indicates his choice. Such laws recently enacted vary principally as to the vote necessary to nominate, the methods by which platforms are adopted and the degree of control left to the governing bodies of the parties. There seems to be, however, a considerable tendency to abandon the theory that a political party is a voluntary organization subject to its own rules and regulations, and to substitute a rather complete statutory regulation.

In Indiana the law passed in 1907 is mandatory in counties having within their limits cities of 36,000 population or over, and optional in other counties. It does not apply to candidates for National, Congressional, State, or District offices. Primaries for all parties are held together, but each voter must announce the party whose ticket he desires to vote. If challenged on the ground that he is not an adherent of that party, he may make an affidavit that at the last election he voted for a majority of the candidates of his party and that he will support a majority of the candidates of that party at the next election.

The Iowa law, as amended in 1907, is mandatory, and includes all offices except Judges, United States Senators, and Presidential electors. At the first primary to be held under the act each elector declares his party affiliation, which is recorded in the poll book, and thereafter no voter is to receive a ballot of another party unless ten days before any primary he files a declaration of a change of party affiliation. Persons receiving the highest vote, provided such vote is not less than 35 per cent. of the total party vote for that office, are to receive the nominations.

The Missouri primary law of 1907 is mandatory, and covers nearly all offices, except certain local ones. Ballots for each party are provided, together with a non-partisan ballot, and each voter receives the ballot which he requests. No provision is made for challenging on the ground that a person is not a member of a certain party. Nominations are by plurality votes. Conventions may be held for nomination of Presidential electors, delegates to national conventions, and members of national committees, and for the adoption of platforms.

Nebraska, in 1907, enacted a general primary law applicable to all offices, except in cities of less than 25,000 inhabitants, and in village, township, and school district offices. Declaration of party affiliation is required, but no challenge upon that ground is provided. The person receiving the highest vote is declared the nominee. Nominees for county offices select the county committees, and these committees in turn select delegates to a convention which adopts the party platform and elects the State Central Committee. The North Dakota primary law enacted by the last Legislature is quite similar to that of Nebraska.

A novel provision in the new primary law of the State of Washington is the indication of first and second choice by the use of a double column opposite the names of the candidates on the primary ballot. If no candidate receives more than 40 per cent. of the first choice of votes, then the second choice votes are to be added, and the candidate receiving the highest number of first and second choices receives the nomination. Political parties casting less than 10 per cent. of the vote at the last previous election are allowed to nominate at conventions, held on the same day as the primaries.

California has had considerable difficulty in securing a primary election law, as no less than two such acts have been declared unconstitutional by the Supreme Court. The last Legislature adopted a resolution for a constitutional amendment which imposes upon the Legislature the duty of enacting primary laws, and places beyond question the right of the Legislature to act in the matter.

**NOMINATIONS FOR UNITED STATES SENATORS.**

United States Senators are of course governed by Federal law, and nominations under State laws have only persuasive force upon members of the Legislature. In Missouri a law passed in 1907 provides for nominations for United States Senators at the general election. All persons desiring to be elected to this office are required to file with the Secretary of State their names and application. These names are placed upon the ballots under the party heading, and the person having the highest number of votes upon the party ticket which has a majority on general ballot in the Legislature is declared the nominee of such party, and "all members of such party in the Legislature shall vote for such person."

In Washington any candidate for the Legislature may file a declaration that during his term of office he will always vote for the candidate for United States Senator who has received the highest number of votes upon his party ticket at the previous primary election, and in such case there is printed on the primary ballot opposite or below the candidate's name "Pledged to vote for party choice for United States Senator."

Delegates to the national convention, in the States having primary election laws, are ordinarily chosen by the old convention system. An innovation in this respect is found in Wisconsin, where a law of the last session provides that these delegates shall be chosen at the Spring election.

**FILING OF ELECTION ACCOUNTS.**

The filing of expense accounts for and by candidates has been adopted in Iowa, and the enumeration of purposes for which campaign expenses may be incurred was made in 1907 in acts of Connecticut, California, South Dakota, and Washington. A still later development of this idea is the limitation in the amount of campaign expenses in the Corrupt Practices laws of California and New York, enacted in 1907. In the former State the limitation is by per-

centage upon the annual salary, varying with the length of the term, and amounting in general to 5 per cent. of the salary for each year. In the latter State the limitation is by fixed sums, which are much more liberal than those in California, being \$10,000 in case of the Governor, \$6,000 in case of other elective State officers, etc. Connecticut enforces her Corrupt Practices act by disqualifying the incumbent and by making him ineligible for election or appointment for any public office for four years.

### **The Single Tax.**

The following statement of the single tax principle was written by Henry George, Sr.: We assert as our fundamental principle the self-evident truth enunciated in the Declaration of American Independence, that all men are created equal and are endowed by their Creator with certain inalienable rights. We hold that all men are equally entitled to the use and enjoyment of what God has created and of what is gained by the general growth and improvement of the community of which they are a part. Therefore, no one should be permitted to hold natural opportunities without a fair return to all for any special privilege thus accorded to him, and that that value which the growth and improvement of the community attaches to land should be taken for the use of the community; that each is entitled to all that his labor produces; therefore, no tax should be levied on the products of labor.

To carry out these principles, we are in favor of raising all public revenues for national, State, county, and municipal purposes by a single tax upon land values, irrespective of improvements, and all the obligations of all forms of direct and indirect taxation.

Since in all our States we now levy some tax on the value of land, the single tax can be instituted by the simple and easy way of abolishing, one after another, all other taxes now levied and commensurately increasing the tax on land values until we draw upon that one source for all expenses of government, the revenue being divided between local governments, State government, and the general government, as the revenue from direct tax is now divided between the local and State governments, or by a direct assessment being made by the general government upon the States and paid by them from revenues collected in this manner. The single tax we propose is not a tax on land, and therefore would not fall on the use of land and become a tax on labor.

It is a tax not on land, but on the value of land. Then it would not fall on all land, but only on valuable land, and on that not in proportion to the use made of it, but in proportion to its value—the premium which the user of land must pay to the owner, either in purchase money or rent, for permission to use valuable land. It would thus be a tax not on the use and improvement of land, but on the ownership of land, taking what would otherwise go to the owner as owner, and not as user.

In assessments under the single tax all values created by individual use or improvement would be excluded, and the only value taken into consideration would be the value attaching to the bare land by reason of neighborhood, etc., to be determined by impartial periodical assessments. Thus the farmer would have no more taxes to pay than the speculator who held a similar piece of land idle, and the man who, on a city lot, erected a valuable building would be taxed no more than the man who held a similar lot vacant. The single tax, in short, would call upon men to contribute to the public revenues not in proportion to what they produce or accumulate, but in proportion to the value of the natural opportunities they hold. It would compel them to pay just as much for holding land idle as for putting it to its fullest use. The single tax, therefore, would—

1st. Take the weight of taxation off the agricultural districts, where land has little or no value irrespective of improvements, and put it on towns and cities, where bare land rises to a value of millions of dollars per acre.

2d. Dispense with a multiplicity of taxes and a horde of tax-gatherers, simplify government, and greatly reduce its cost.

3d. Do away with the fraud, corruption, and gross inequality inseparable from our present methods of taxation, which allow the rich to escape while they grind the poor. Land cannot be hid or carried off, and its value can be ascertained with greater ease and certainty than any other.

4th. Give us with all the world as perfect freedom of trade as now exists between the States of the Union, thus enabling our people to share through free exchanges in all the advantages which nature has given to other countries, or which the peculiar skill of other peoples has enabled them to attain. It would destroy the trusts, monopolies, and corruptions which are the outgrowths of the tariff. It would do away with the fines and penalties now levied on any one who improves a farm, erects a house, builds a machine, or in any way adds to the general stock of wealth. It would leave every one free to apply labor or expend capital in production or exchange without fine or restriction, and would leave to each the full product of his exertion.

5th. It would, on the other hand, by taking for public use that value which attaches to land by reason of the growth and improvement of the community, make the holding of land unprofitable to the mere owner and profitable only to the user. It would thus make it impossible for speculators and monopolists to hold natural opportunities unused or only half used, and would throw open to labor the illimitable field of employment which the earth offers to man. It would thus solve the labor problem, do away with involuntary poverty, raise wages in all occupations to the full earnings of labor, make overproduction impossible until all human wants are satisfied, render labor-saving inventions a blessing to all, and cause such an enormous production and such an equitable distribution of wealth as would give to all comfort, leisure, and participation in the advantages of an advancing civilization, in securing to each individual equal right to the use of the earth. It is also a proper function of society to maintain and control all public ways for the transportation of persons and property, and the transmission of intelligence; and also to maintain and control all public ways in cities for furnishing water, gas, and all other things that necessarily require the use of such common ways.

## National Platforms of Political Parties.

PLATFORM OF THE DEMOCRATIC PARTY, ADOPTED AT ST. LOUIS, MO.,  
JULY 8, 1904.

The Democratic party of the United States, in national convention assembled, declares its devotion to the essential principles of the Democratic faith which bring us together in party communion.

Under them local self-government and national unity and prosperity were alike established. They underlaid our independence, the structure of our free republic, and every Democratic extension, from Louisiana to California, and Texas to Oregon, which preserves faithfully in all the States the tie between taxation and representation. They yet inspire masses of our people, guarding jealously their rights and liberties, and cherishing their fraternity, peace and orderly development. They remind us of our duties and responsibilities as citizens, and impress upon us, particularly at this time, the necessity of reform and the rescue of the administration of government from the headstrong, arbitrary and spasmodic methods which distract business by uncertainty, and pervade the public mind with dread, distrust, and perturbation.

**Fundamental Principles.**—The application of these fundamental principles to the living issues of the day is the first step toward the assured peace, safety, and progress of our nation. Freedom of the press, of conscience, and of speech; equality before the law of all citizens; the right of trial by jury; freedom of the person defended by the writ of habeas corpus; liberty of personal contract untrammelled by sumptuary laws; the supremacy of the civil over the military authority; a well-disciplined militia; the separation of church and State; economy in expenditures; low taxes; that labor may be lightly burdened; the prompt and sacred fulfilment of public and private obligations; fidelity to treaties; peace and friendship with all nations; entangling alliances with none; absolute acquiescence in the will of the majority, the vital principle of republics—these are doctrines which Democracy has established as proverbs of the nation, and they should be constantly invoked, preached, resorted to and enforced.

**Capital and Labor.**—We favor the enactment and administration of laws giving labor and capital impartially their just rights. Capital and labor ought not to be enemies. Each is necessary to the other. Each has its rights, but the rights of labor are certainly no less "vested," no less "sacred," and no less "inalienable" than the rights of capital.

**Constitutional Guarantees.**—Constitutional guarantees are violated whenever any citizen is denied the right to labor, acquire, and enjoy property or reside where interests or inclination may determine. Any denial thereof by individuals, organizations, or governments should be summarily rebuked and punished.

We deny the right of any executive to disregard or suspend any constitutional privilege or limitation. Obedience to the laws and respect for their requirements are alike the supreme duty of the citizen and the official.

The military should be used only to support and maintain the law. We unqualifiedly condemn its employment for the summary banishment of citizens without trial or for the control of elections.

We approve the measure which passed the United States Senate in 1896, but which a Republican Congress has ever since refused to enact, relating to contempts in Federal Courts and providing for trial by jury in cases of indirect contempt.

**Waterways.**—We favor liberal appropriations for the improvement of waterways of the country. When any waterway like the Mississippi River is of sufficient importance to demand special aid of the Government, such aid should be extended with a definite plan of continuous work until permanent improvement is secured.

We oppose the Republican policy of starving home development in order to feed the greed for conquest and the appetite for national "prestige" and display of strength.

**Economy of Administration.**—Large reductions can easily be made in the annual expenditures of the Government without impairing the efficiency of any branch of the public service, and we shall insist upon the strictest economy and frugality compatible with vigorous and efficient civil, military and naval administration as a right of the people too clear to be denied or withheld.

We favor honesty in the public service, the enforcement of honesty in the public service, and to that end a thorough legislative investigation of those executive departments of the Government already known to teem with corruption, as well as other departments suspected of harboring corruption, and the punishment of ascertained corruptionists, without fear or favor or regard to persons. The persistent and deliberate refusal of both the Senate and House of Representatives to permit such investigation to be made demonstrates that only by a change in the executive and in the legislative departments can complete exposures, punishment, and correction be obtained.

**Federal Government Contracts With Trusts.**—We condemn the action of the Republican party in Congress in refusing to prohibit an executive department from entering into contracts with convicted trusts or unlawful combinations in restraint of interstate trade. We believe that one of the best methods of procuring economy and honesty in the public service is to have public officials, from the occupant of the White House down to the lowest of them, return as nearly as may be to Jeffersonian simplicity of living.

**Executive Usurpation.**—We favor the nomination and election of a President imbued with the principles of the Constitution, who will set his face sternly against executive usurpation of legislative and judicial functions, whether that usurpation be velled under the guise of executive construction of existing laws, or whether it take refuge in the tyrant's pleas of necessity or superior wisdom.

**Imperialism.**—We favor the preservation, so far as we can, of an open door for the world's commerce in the Orient without any unnecessary entanglement in Oriental and European affairs, and without arbitrary, unlimited, irresponsible, and absolute government anywhere within our jurisdiction. We oppose, as fervently as did George Washington

NATIONAL PLATFORMS OF POLITICAL PARTIES—*Continued.*

himself, an indefinite, irresponsible, discretionary, and vague absolutism and a policy of colonial exploitation, no matter where or by whom invoked or exercised; we believe with Thomas Jefferson and John Adams that no government has a right to make one set of laws for those "at home" and another and a different set of laws, absolute in their character, for those "in the colonies." All men under the American flag are entitled to the protection of the institutions whose emblem the flag is; if they are inherently unfit for those institutions then they are inherently unfit to be members of the American body politic. Wherever there may exist a people incapable of being governed under American laws, in consonance with the American Constitution, the territory of that people ought not to be part of the American domain.

We insist that we ought to do for the Filipinos what we have already done for the Cubans, and it is our duty to make that promise now, and upon suitable guarantees of protection to citizens of our own and other countries resident there at the time of our withdrawal, set the Filipino people upon their feet, free and independent, to work out their own destiny. The endeavor of the Secretary of War, by pledging the Government's indorsement for "promoters" in the Philippine Islands, to make the United States a partner in speculative legislation of the archipelago, which was only temporarily held up by the opposition of the Democratic Senators in the last session, will, if successful, lead to entanglements from which it will be difficult to escape.

**The Tariff.**—The Democratic party has been, and will continue to be, the consistent opponent of that class of tariff legislation by which certain interests have been permitted, through Congressional favor, to draw a heavy tribute from the American people. This monstrous perversion of those equal opportunities which our political institutions were established to secure has caused what may once have been infant industries to become the greatest combinations of capital that the world has ever known. These especial favorites of the Government have, through trust methods, been converted into monopolies, thus bringing to an end domestic competition, which was the only alleged check upon the extravagant profits made possible by the protective system. These industrial combinations, by the financial assistance they can give, now control the policy of the Republican party.

We denounce protection as a robbery of the many to enrich the few, and we favor a tariff limited to the needs of the Government, economically administered, and so levied as not to discriminate against any industry, class, or section, to the end that the burden of taxation shall be distributed as equally as possible.

We favor a revision and a gradual reduction of the tariff by the friends of the masses for the commonwealth, and not by the friends of its abuses, its extortions and its discriminations, keeping in view the ultimate end of "equality of burdens and equality of opportunities," and the constitutional purpose of raising a revenue by taxation, to wit, the support of the Federal Government in all its integrity and virility, but in simplicity.

**Trusts and Unlawful Combinations.**—We recognize that the gigantic trusts and combinations designed to enable capital to secure more than its just share of the joint products of capital and labor, and which have been fostered and promoted under Republican rule, are a menace to beneficial competition and an obstacle to permanent business prosperity. A private monopoly is indefensible and intolerable.

Individual equality of opportunity and free competition are essential to a healthy and permanent commercial prosperity, and any trust or monopoly tending to destroy these by controlling production, restricting competition, or fixing prices, should be prohibited and punished by law. We especially denounce rebates and discrimination by transportation companies as the most potent agency in promoting and strengthening these unlawful conspiracies against trade.

We demand an enlargement of the powers of the Interstate Commerce Commission, to the end that the travelling public and shippers of this Government may have prompt and adequate relief from the abuses to which they are subjected in the matter of transportation. We demand a strict enforcement of existing civil and criminal statutes against all such trusts, combinations, and monopolies; and we demand the enactment of such further legislation as may be necessary to effectually suppress them.

Any trust or unlawful combination engaged in interstate commerce which is monopolizing any branch of business or production should not be permitted to transact business outside of the State of its origin. Whenever it shall be established in any court of competent jurisdiction that such monopolization exists, such prohibition should be enforced through comprehensive laws to be enacted on the subject.

**Reclamation of Arid Lands and Domestic Development.**—We congratulate our Western citizens upon the passage of the law known as the Newlands Irrigation Act for the irrigation and reclamation of the arid lands of the West—a measure framed by a Democrat, passed in the Senate by a non-partisan vote, and passed in the House against the opposition of almost all Republican leaders by a vote the majority of which was Democratic. We call attention to this great Democratic measure, broad and comprehensive as it is, working automatically throughout all time without further action of Congress, until the reclamation of all the lands in the arid West capable of reclamation is accomplished, reserving the lands reclaimed for home seekers in small tracts, and rigidly guarding against land monopoly, as an evidence of the policy of domestic development contemplated by the Democratic party, should it be placed in power.

**Isthmian Canal.**—The Democracy, when intrusted with power, will construct the Panama Canal speedily, honestly and economically, thereby giving to our people what Democrats have always contended for—a great interoceanic canal, furnishing shorter and cheaper lines of transportation and broader and less trammelled trade relations with the other peoples of the world.

**American Citizenship.**—We pledge ourselves to insist upon the just and lawful protection of our citizens at home and abroad, and to use all proper measures to secure for them, whether native-born or naturalized, and without distinction of race or creed, the equal protection of laws and the enjoyment of all rights and privileges open to them

## NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

under the covenants of our treaties of friendship and commerce; and if under existing treaties the right of travel and sojourn is denied to American citizens, or recognition is withheld from American passports by any countries on the ground of race or creed, we favor the beginning of negotiations with the governments of such countries to secure by new treaties the removal of these unjust discriminations. We demand that all over the world a duly authenticated passport issued by the Government of the United States to an American citizen shall be proof of the fact that he is an American citizen, and shall entitle him to the treatment due him as such.

**Election of Senators by the People.**—We favor the election of United States Senators by the direct vote of the people.

**Statehood for Territories.**—We favor the admission of the Territory of Oklahoma and the Indian Territory. We also favor the immediate admission of Arizona and New Mexico as separate States, and a territorial government for Alaska and Porto Rico.

We hold that the officials appointed to administer the government of any Territory, as well as with the district of Alaska, should be bona fide residents at the time of their appointment of the Territory or district in which their duties are to be performed.

**Condemnation of Polygamy.**—We demand the extermination of polygamy within the jurisdiction of the United States and the complete separation of church and State in political affairs.

**Merchant Marine.**—We denounce the ship subsidy bill recently passed by the United States Senate as an iniquitous appropriation of public funds for private purposes and a wasteful, illogical, and useless attempt to overcome by subsidy the obstructions raised by Republican legislation to the growth and development of American commerce on the sea.

We favor the upbuilding of a merchant marine without new or additional burdens upon the people and without bounties from the public treasury.

**Reciprocity.**—We favor liberal trade arrangements with Canada, and with peoples of other countries, where these can be entered into with benefit to American agriculture, manufactures, mining, or commerce.

**Monroe Doctrine.**—We favor the maintenance of the Monroe Doctrine in its full integrity.

**Army.**—We favor the reduction of the army and of army expenditure to the point historically demonstrated to be safe and sufficient.

**Pensions and Our Soldiers and Sailors.**—The Democracy would secure to the surviving soldiers and sailors and their dependents generous pensions, not by an arbitrary executive order, but by legislation which the grateful people stand ready to enact. Our soldiers and sailors who defend with their lives the Constitution and the laws have a sacred interest in their just administration. They must therefore share with us the humiliation with which we have witnessed the exaltation of court favorites, without distinguished service, over the scarred heroes of many battles; or aggrandized by legislative appropriation out of the treasuries of a prostrate people, in violation of act of Congress, which fixes the compensation and allowances of the military officers.

**Civil Service.**—The Democratic party stands committed to the principles of civil-service reform, and we demand their honest, just and impartial enforcement. We denounce the Republican party for its continuous and sinister encroachments upon the spirit and operation of civil-service rules, whereby it has arbitrarily dispensed with examinations for office in the interests of favorites and employed all manner of devices to overreach and set aside the principles upon which the civil service was established.

**School and Race Questions.**—The race question has brought countless woes to this country. The calm wisdom of the American people should see to it that it brings no more. To revive the dead and hateful race and sectional animosities in any part of our common country means confusion, distraction of business, and the reopening of wounds now happily healed. North, South, East, and West have but recently stood together in line of battle from the walls of Peking to the hills of Santiago, and as sharers of a common glory and a common destiny we should share fraternally the common burdens. We, therefore, deprecate and condemn the bourbonlike, selfish, and narrow spirit of the recent Republican convention at Chicago, which sought to kindle anew the embers of racial and sectional strife, and we appeal from it to the sober common sense and patriotic spirit of the American people.

**The Republican Administration.**—The existing Republican administration has been spasmodic, erratic, sensational, spectacular, and arbitrary. It has made itself a satire upon the Congress, the courts, and upon the settled practices and usages of national and international law.

It summoned the Congress into hasty and futile extra session, and virtually adjourned it, leaving behind in its flight from Washington uncalled calendars and unaccomplished tasks.

It has made war, which is the sole power of Congress, without its authority, thereby usurping one of its fundamental prerogatives. It violated a plain statute of the United States as well as plain treaty obligations, international usages, and constitutional law; and has done so under pretence of executing a great public policy, which could have been more easily effected lawfully, constitutionally, and with honor.

It forced strained and unnatural constructions upon statutes, usurping judicial interpretation and substituting Congressional enactment decree.

It withdrew from Congress their customary duties of investigation, which have heretofore made the representatives of the people and the States the terror of evildoers.

It conducted a secretive investigation of its own and boasted of a few sample convicts, while it threw a broad coverlet over the bureaus which had been their chosen field of operative abuses, and kept in power the superior officers under whose administration the crimes had been committed.

It ordered assault upon some monopolies, but, paralyzed by its first victory, it flung out the flag of truce and cried out that it would not "run amuck"—leaving its future purposes beclouded by its vacillations.

**Appeal to the Country.**—Conducting the campaign upon this declaration of our principles and purposes, we invoke for our candidates the support, not only of our great and time-honored organization, but also the active assistance of all our fellow-citizens

## NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

who, disregarding past differences upon questions no longer in issue, desire the perpetuation of our Constitutional Government as framed and established by the fathers of the republic.

**PLATFORM OF THE REPUBLICAN PARTY, ADOPTED AT CHICAGO, ILL.,  
JUNE 22, 1904.**

Fifty years ago the Republican party came into existence, dedicated, among other purposes, to the great task of arresting the extension of human slavery. In 1800 it elected its first President. During twenty-four of the forty-four years which have elapsed since the election of Lincoln, the Republican party has held complete control of the Government. For eighteen more of the forty-four years it has held partial control through the possession of one or two branches of the Government, while the Democratic party during the same period has had complete control for only two years.

This long tenure of power by the Republican party is not due to chance. It is a demonstration that the Republican party has commanded the confidence of the American people for nearly two generations to a degree never equalled in our history, and has displayed a high capacity for rule and government which has been made even more conspicuous by the incapacity and infirmity of purpose shown by its opponents.

The Republican party entered upon its present period of complete supremacy in 1897. We have every right to congratulate ourselves upon the work since then accomplished, for it has added lustre even to the traditions of the party which carried the Government through the storms of civil war. We then found the country, after four years of Democratic rule, in evil plight, oppressed with misfortune, and doubtful of the future. Public credit had been lowered, the revenues were declining, the debt was growing, the Administration's attitude toward Spain was feeble and mortifying, the standard of values was threatened and uncertain, labor was unemployed, business was sunk in the depression which had succeeded the panic of 1893, hope was faint, and confidence was gone.

We met these unhappy conditions vigorously, effectively, and at once. We replaced a Democratic tariff law based on free-trade principles and garnished with sectional protection by a consistent protective tariff, and industry, freed from suppression and stimulated by the encouragement of wise laws, has expanded to a degree never before known, has conquered new markets and has created a volume of exports which has surpassed imagination. Under the Dingley Tariff labor has been fully employed, wages have risen and all industries have revived and prospered.

**The Gold Standard Established.**—We firmly established the gold standard, which was then menaced with destruction. Confidence returned to business, and with confidence and unexampled prosperity.

For deficient revenues supplemented by improvident issues of bonds we gave the country an income which produced a large surplus, and which enabled us only four years after the Spanish war had closed to remove over one hundred millions of annual war taxes, reduce the public debt and lower the interest charges of the Government.

The public credit, which had been so lowered that in time of peace a Democratic administration made large loans at extravagant rates of interest in order to pay current expenditures, rose under Republican administration to its highest point, and enabled us to borrow at 2 per cent., even in time of war.

We refused to palter longer with the miseries of Cuba. We fought a quick and victorious war with Spain. We set Cuba free, governed the island for three years, and then gave it to the Cuban people with order restored, with ample revenues, with education and public health established, free from debt, and connected with the United States by wise provisions for our mutual interests.

We have organized the government of Porto Rico, and its people now enjoy peace, freedom, order, and prosperity.

**Accomplishments in Philippines.**—In the Philippines we have suppressed insurrection, established order, and given to life and property a security never known there before. We have organized civil government, made it effective and strong in administration, and have conferred upon the people of those islands the largest civil liberty they have ever enjoyed. By our possession of the Philippines we were enabled to take prompt and effective action in the relief of the legations at Peking, and a decisive part in preventing the partition and preserving the integrity of China.

**The Panama Canal Begun.**—The possession of a route for an Isthmian canal, so long the dream of American statesmanship, is now an accomplished fact. The great work of connecting the Pacific and Atlantic by a canal is at last begun, and is due to the Republican party.

**Other Accomplishments.**—We have passed laws which will bring the arid lands of the United States within the area of cultivation.

We have reorganized the army and put it in the highest state of efficiency.

We have passed laws for the improvement and support of the militia.

We have pushed forward the building of the navy, the defence and protection of our honor and our interests.

Our administration of the great departments of the Government has been honest and efficient, and wherever wrongdoing has been discovered the Republican administration has not hesitated to probe the evil and bring offenders to justice without regard to party or political ties.

**Anti-Trust Laws Enforced.**—Laws enacted by the Republican party which the Democratic party failed to enforce, and which were intended for the protection of the public against the unjust discrimination or the illegal encroachments of vast aggregations of capital, have been fearlessly enforced by a Republican President, and new laws insuring reasonable publicity as to the operations of great corporations and providing additional remedies for the prevention of discrimination in freight rates have been passed by a Republican Congress.

In this record of achievement during the past eight years may be read the pledges which the Republican party has fulfilled. We promise to continue these policies and we declare our constant adherence to the following principles:

**The Tariff.**—Protection which guards and develops our industries is a cardinal policy

## NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

of the Republican party. The measure of protection should always at least equal the difference in the cost of production at home and abroad. We insist upon the maintenance of the principles of protection, and therefore rates of duty should be readjusted only when conditions have so changed that the public interest demands their alteration, but this work cannot safely be committed to any other hands than those of the Republican party. To intrust it to the Democratic party is to invite disaster.

Whether, as in 1892, the Democratic party declared the protective tariff unconstitutional, or whether it demands tariff reform or tariff revision, its real object is always the destruction of the protective system. However specious the name, the purpose is ever the same. A Democratic tariff has always been followed by business adversity; a Republican tariff by business prosperity. To a Republican Congress and a Republican President this great question can be safely intrusted. When the only free-trade country among the great nations agitates a return to protection, the chief protective country should not falter in maintaining it.

**Commercial Reciprocity Secured.**—We have extended widely our foreign markets, and we believe in the adoption of all practicable methods for their further extension, including commercial reciprocity wherever reciprocal arrangements can be effected consistent with the principles of protection, and without injury to American agriculture, American labor or any American industry.

**Integrity of the National Currency.**—We believe it to be the duty of the Republican party to uphold the gold standard and the integrity and value of our national currency. The maintenance of the gold standard, established by the Republican party, cannot safely be committed to the Democratic party, which resisted its adoption, and has never given any proof since that time of belief in it or fidelity to it.

**Upbuilding the Merchant Marine.**—While every other industry has prospered under the fostering aid of Republican legislation, American shipping engaged in foreign trade, in competition with the low cost of construction, low wages, and heavy subsidies of foreign governments, has not for many years received from the Government of the United States adequate encouragement of any kind. We therefore favor legislation which will encourage and build up the American merchant marine, and we cordially approve the legislation of the last Congress, which created the Merchant Marine Commission to investigate and report upon this subject.

**A Navy for Defence.**—A navy powerful enough to defend the United States against any attack, to uphold the Monroe Doctrine, and to watch over our commerce, is essential to the safety and the welfare of the American people. To maintain such a navy is the fixed policy of the Republican party.

**Chinese Exclusion.**—We cordially approve the attitude of President Roosevelt and Congress in regard to the exclusion of Chinese labor and promise a continuance of the Republican policy in that direction.

**Civil Service Law Enforced.**—The Civil Service Law was placed on the statute books by the Republican party, which has always sustained it, and we renew our former declarations that it shall be thoroughly and honestly enforced.

We are always mindful of the country's debt to the soldiers and sailors of the United States, and we believe in making ample provision for them, and in the liberal administration of the pension laws.

**International Arbitration.**—We favor the peaceful settlement of international differences by arbitration.

We commend the vigorous efforts made by the Administration to protect American citizens in foreign lands and pledge ourselves to insist upon the just and equal protection of all our citizens abroad. It is the unquestioned duty of the Government to procure for all our citizens, without distinction, the rights of travel and sojourn in friendly countries, and we declare ourselves in favor of all proper efforts tending to that end.

Our great interests and our growing commerce in the Orient render the condition of China of high importance to the United States. We cordially commend the policy pursued in that direction by the Administrations of President McKinley and President Roosevelt.

**Negro Disfranchisement.**—We favor such Congressional action as shall determine whether by special discriminations the elective franchise in any State has been unconstitutionally limited, and if such is the case, we demand that representation in Congress and in the Electoral College shall be proportionately reduced as directed by the Constitution of the United States.

**Capital and Labor.**—Combinations of capital and labor are the results of the economic movement of the age, but neither must be permitted to infringe upon the rights and interests of the people. Such combinations, when lawfully formed for lawful purposes, are alike entitled to the protection of the laws, but both are subject to the laws, and neither can be permitted to break them.

**Tribute to McKinley.**—The great statesman and patriotic American, William McKinley, who was re-elected by the Republican party to the Presidency four years ago, was assassinated just at the threshold of his second term. The entire nation mourned his untimely death, and did that justice to his great qualities of mind and character which history will confirm and repeat.

**President Roosevelt Enulogized.**—The American people were fortunate in his successor, to whom they turned with a trust and confidence which have been fully justified. President Roosevelt brought to the great responsibilities thus sadly forced upon him a clear head, a brave heart, an earnest patriotism, and high ideals of public duty and public service. True to the principles of the Republican party and to the policies which that party had declared, he has also shown himself ready for every emergency and has met new and vital questions with ability and with success.

The confidence of the people in his justice, inspired by his public career, enabled him to render personally an inestimable service to the country by bringing about a settlement of the coal strike, which threatened such disastrous results at the opening of Winter in 1902.

Our foreign policy under his administration has not only been able, vigorous, and dignified, but in the highest degree successful. The complicated questions which arose in Venezuela were settled in such a way by President Roosevelt that the Monroe Doctrine was signally vindicated, and the cause of peace and arbitration greatly advanced.

His prompt and vigorous action in Panama, which we commend in the highest terms,

NATIONAL PLATFORMS OF POLITICAL PARTIES—*Continued.*

not only secured to us the canal route, but avoided foreign complications which might have been of a very serious character.

He has continued the policy of President McKinley in the Orient and our position in China, signalized by our recent commercial treaty with that empire, has never been so high. He secured the tribunal by which the vexed and perilous question of the Alaskan boundary was finally settled.

Whenever crimes against humanity have been perpetrated which have shocked our people, his protest has been made and our good offices have been tendered, but always with due regard to international obligations.

Under his guidance we find ourselves at peace with all the world, and never were we more respected or our wishes more regarded by foreign nations.

Pre-eminently successful in regard to our foreign relations, he has been equally fortunate in dealing with domestic questions. The country has known that the public credit and the national currency were absolutely safe in the hands of his Administration. In the enforcement of the laws he has shown not only courage, but the wisdom which understands that to permit laws to be violated or disregarded opens the door to anarchy, while the just enforcement of the law is the soundest conservatism. He has held firmly to the fundamental American doctrine that all men must obey the law; that there must be no distinction between rich and poor, between strong and weak; but that justice and equal protection under the law must be secured to every citizen without regard to race, creed or condition.

His administration throughout has been vigorous and honorable, high-minded and patriotic. We commend it without reservation to the considerate judgment of the American people.

**PLATFORM OF THE PEOPLE'S PARTY, ADOPTED AT SPRINGFIELD, ILL.,  
JULY 4, 1904.**

The People's party reaffirms its adherence to the basic truths of the Omaha platform of 1892, and of the subsequent platforms of 1896 and 1900. In session in its fourth national convention on July 4, 1904, in the city of Springfield, Ill., it draws inspiration from the day that saw the birth of the nation as well as its own birth as a party, and also from the soul of him who lived at its present place of meeting. We renew our allegiance to the old-fashioned American spirit that gave this nation existence, and made it distinctive among the peoples of the earth. We again sound the key-note of the Declaration of Independence, that all men are created equal in a political sense, which was the sense in which that instrument, being a political document, intended that the utterance should be understood. We assert that the departure from this fundamental truth is responsible for the ills from which we suffer as a nation, that the giving of special privileges to the few has enabled them to dominate the many, thereby tending to destroy the political equality which is the cornerstone of democratic government.

Holding fast to the truths of the fathers, we vigorously protest against the spirit of mammonism and of thinly veiled monarchy that is invading certain sections of our national life, and of the very administration itself. This is a nation of peace, and we deplore the appeal to the spirit of force and militarism which is shown in ill-advised and vainglorious boasting and in more harmful ways in the denial of the rights of man under martial law.

A political democracy and an industrial despotism cannot exist side by side, and nowhere is this truth more plainly shown than in the gigantic transportation monopolies which have bred all sorts of kindred trusts, subverted the governments of many of the States, or established their official agents in the National Government. We submit that it is better for the Government to own the railroads than for the railroads to own the Government, and that one or the other alternative seems inevitable.

We call the attention of our fellow-citizens to the fact that the surrender of both of the old parties to corporative influences leaves the People's party the only party of reform in the nation.

Therefore we submit the following platform of principles to the American people:

**Money and Banks.**—The issuing of money is a function of government, and should never be delegated to corporations or individuals. The Constitution gives to Congress alone power to issue money and regulate its value.

We therefore demand that all money shall be issued by the Government in such quantity as shall maintain a stability in prices, every dollar to be full legal tender, none of which shall be a debt redeemable in other money.

**Savings Banks.**—We demand that postal savings banks be established by the government for the safe deposit of the savings of the people.

**Labor.**—We believe in the right of labor to organize for the benefit and protection of those who toil, and pledge the efforts of the People's party to preserve this right inviolate. Capital is organized and has no right to deny to labor the privilege which it claims for itself. We feel that intelligent organization of labor is essential; that it raises the standard of workmanship; promotes the efficiency, intelligence, independence, and character of the wage earner. We believe with Abraham Lincoln that labor is prior to capital, and is not its slave, but its companion, and we plead for that broad spirit of toleration and justice which will promote industrial peace through the observance of the principles of voluntary arbitration.

We favor the enactment of legislation looking to the improvement of conditions for wage earners, the abolition of child labor, the suppression of sweat shops, and of convict labor in competition with free labor, and the exclusion from American shores of foreign pauper labor.

We favor the shorter work day, and declare that if eight hours constitute a day's labor in Government service, that eight hours should constitute a day's labor in factories, workshops and mines.

**Initiative and Referendum.**—As a means of placing all public questions directly under the control of the people, we demand that legal provision be made under which the

## NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

people may exercise the initiative, referendum, and proportional representation, and direct vote for all public officers with the right of recall.

**The Land.**—Land, including all the natural sources of wealth, is a heritage of all the people, and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited.

**Human Rights.**—We demand a return to the original interpretation of the Constitution and a fair and impartial enforcement of laws under it, and denounce government by injunction and imprisonment without the right of trial by jury.

**Trusts and Monopoly.**—To prevent unjust discrimination and monopoly the government should own and control the railroads, and those public utilities which in their nature are monopolies. To perfect the postal service, the Government should own and operate the general telegraph and telephone systems and provide a parcels post.

As to these trusts and monopolies which are not public utilities or natural monopolies, we demand that those special privileges which they now enjoy, and which alone enable them to exist, should be immediately withdrawn. Corporations being the creatures of government should be subjected to such governmental regulations and control as will adequately protect the public. We demand the taxation of monopoly privileges, while they remain in private hands, to the extent of the value of the privilege granted.

We demand that Congress shall enact a general law uniformly regulating the power and duties of all incorporated companies doing interstate business.

**PLATFORM OF THE SOCIALIST PARTY, ADOPTED AT CHICAGO, ILL.,  
MAY 5, 1904.**

**I.**—The Socialist party, in convention assembled, makes its appeal to the American people as the defender and preserver of the ideal of liberty and self-government, in which the nation was born, as the only political movement standing for the programme and principles by which the liberty of the individual may become a fact; as the only political organization that is democratic, and that has for its purpose the democratizing of the whole of society.

To this idea of liberty the Republican and Democratic parties are equally false. They alike struggle for power to maintain and profit by an industrial system which can be preserved only by the complete overthrow of such liberties as we already have, and by the still further enslavement and degradation of labor.

Our American institutions came into the world in the name of freedom. They have been seized upon by the capitalist class as the means of rooting out the idea of freedom from among the people. Our State and National Legislatures have become the mere agencies of great protected interests. These interests control the appointments and decisions of the judges of our courts. They have come into what is practically a private ownership of all the functions and forces of government. They are using these to betray and conquer foreign and weaker peoples in order to establish new markets for the surplus goods which the people make, but are too poor to buy. They are gradually so invading and restricting the right of suffrage as to take away unawares the right of the worker to a vote or voice in public affairs. By enacting new, and misinterpreting old, laws, they are preparing to attack the liberty of the individual even to speak or think for himself, or for the common good.

By controlling all the sources of social revenue, the possessing class is able to silence what might be the voice of protest against the passing of liberty and the coming of tyranny. It completely controls the university and public school, the pulpit and the press, and the arts and literature. By making these economically dependent upon itself, it has brought all the forms of public teaching into servile submission to its own interests.

Our political institutions are also being used as the destroyers of that individual property upon which all liberty and opportunity depend. The promise of economic independence to each man was one of the faiths upon which our institutions were founded. But under the guise of defending private property, capitalism is using our political institutions to make it impossible for the vast majority of human beings ever to become possessors of private property in the means of life.

Capitalism is the enemy and destroyer of essential private property. Its development is through the legalized confiscation of all that the labor of the working class produces, above its subsistence-wage. The private ownership of the means of employment grounds society in an economic slavery which renders intellectual and political tyranny inevitable.

Socialism comes so to organize industry and society that every individual shall be secure in that private property in the means of life upon which his liberty of being, thought and action depend. It comes to rescue the people from the fast increasing and successful assault of capitalism upon the liberty of the individual.

**II.**—As an American socialist party, we pledge our fidelity to the principles of international socialism, as embodied in the united thought and action of the socialists of all nations. In the industrial development already accomplished, the interests of the world's workers are separated by no national boundaries. The condition of the most exploited and oppressed workers, in the most remote places of the earth, inevitably tends to drag down all the workers of the world to the same level. The tendency of the competitive wage system is to make labor's lowest condition the measure or rule of its universal condition. Industry and finance are no longer national, but international, in both organization and results. The chief significance of national boundaries, and of the so-called patriotisms which the ruling class of each nation is seeking to revive, is the power which these give to capitalism to keep the workers of the world from uniting, and to throw them against each other in the struggles of contending capitalist interests for the control of the yet unexploited markets of the world or the remaining sources of profit.

The socialist movement, therefore, is a world-movement. It knows of no conflicts of interests between the workers of one nation and the workers of another. It stands for the

NATIONAL PLATFORMS OF POLITICAL PARTIES—*Continued.*

freedom of the workers of all nations; and, in so standing, it makes for the full freedom of all humanity.

**III.**—The socialist movement owes its birth and growth to that economic development or world-process which is rapidly separating a working or producing class from a possessing or capitalistic class. The class that produces nothing possesses labor's fruits, and the opportunities and enjoyments these fruits afford, while the class that does the world's real work has increasing economic uncertainty, and physical and intellectual misery, for its portion.

The fact that these two classes have not yet become fully conscious of their distinction from each other; the fact that the lines of division and interests may not yet be clearly drawn, does not change the fact of the class conflict.

This class struggle is due to the private ownership of the means of employment, or the tools of production. Whenever and wherever man owned his own land and tools, and by them produced only the things which he used, economic independence was possible. But even thousands, enters into almost every article produced. Production is now social or collective. Practically everything is made or done by many men—sometimes separated by seas or continents—working together for the same end. But this co-operation in production is not for the direct use of the things made by the workers who make them, but for the profit of the owner of the tools and means of production; and to this is due the present division of society into two classes; and from it have sprung all the miseries, inharmonies and contradictions of our civilization.

Between these two classes there can be no possible compromise or identity of interests, any more than there can be peace in the midst of war, or light in the midst of darkness. A society based upon this class division carries in itself the seeds of its own destruction. Such a society is founded in fundamental injustice. There can be no possible basis for social peace, for individual freedom, for mental and moral harmony, except in the conscious and complete triumph of the working class as the only class that has the right or power to be.

**IV.**—The socialist programme is not a theory imposed upon society for its acceptance or rejection. It is but the interpretation of what is, sooner or later, inevitable. Capitalism is already struggling to its destruction. It is no longer competent to organize or administer the work of the world, or even to preserve itself. The captains of industry are appalled at their own inability to control or direct the rapidly socializing forces of industry. The so-called trust is but a sign and form of the developing socialization of the world's work. The universal increase of the uncertainty of employment, the universal capitalist determination to break down the unity of labor in the trades unions, the widespread apprehensions of impending change, reveal that the institutions of capitalist society are passing under the power of inhering forces that will soon destroy them.

Into the midst of the strain and crisis of civilization the socialist movement comes as the only conservative force. If the world is to be saved from chaos, from universal disorder and misery, it must be by the union of the workers of all nations in the socialist movement. The Socialist party comes with the only proposition or programme for intelligently and deliberately organizing the nation for the common good of all its citizens. It is the first time that the mind of man has ever been directed toward the conscious organization of society.

Socialism means that all those things upon which the people in common depend shall be the people in common be owned and administered. It means that the tools of employment shall belong to their creators and users; that all production shall be for the direct use of the producers; that the making of goods for profit shall come to an end; that we shall all be workers together; and that all opportunities shall be open and equal to all men.

**V.**—To the end that the workers may seize every possible advantage that may strengthen them to gain complete control of the powers of government, and thereby the sooner establish the co-operative commonwealth, the Socialist party pledges itself to watch and work, in both the economic and the political struggle, for each successive immediate interest of the working class; for shortened days of labor and increases of wages; for the insurance of the workers against accident, sickness and lack of employment; for pensions for aged and exhausted workers; for the public ownership of the means of transportation, communication and exchange; for the graduated taxation of incomes, inheritances, franchises and land values, the proceeds to be applied to the public employment and improvement of the condition of the workers; for the complete education of children and their freedom from the workshops; for the prevention of the use of the military against labor in the settlement of strikes; for the free administration of justice; for popular government, including initiative, referendum, proportional representation, equal suffrage of men and women, municipal home rule, and the recall of officers by their constituents; and for every gain or advantage for the workers that may be wrested from the capitalist system, and that may relieve the suffering and strengthen the hands of labor. We lay upon every man elected to any executive or legislative office the first duty of striving to procure whatever is for the workers' most immediate interest, and for whatever will lessen the economic and political powers of the capitalist and increase the like powers of the worker.

But, in so doing, we are using these remedial measures as means to the one great end of the co-operative commonwealth. Such measures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole powers of government, in order that they may thereby lay hold of the whole system of industry, and thus come into their rightful inheritance.

To this end we pledge ourselves, as the party of the working class, to use all political power, as fast as it shall be intrusted to us by our fellow-workers, both for their immediate interests and for their ultimate and complete emancipation. To this end we appeal to all the workers of America, and to all who will lend their lives to the service of the workers in their struggle to gain their own, and to all who will nobly and disinterestedly give their days and energies unto the workers' cause, to cast in their lot and faith with the Socialist party. Our appeal for the trust and suffrage of our fellow-workers is at once an appeal for their common good and freedom, and for the freedom and blossoming of our

## NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

common humanity. In pledging ourselves, and those we represent, to be faithful to the appeal which we make, we believe that we are but preparing the soil of that economic freedom from which will spring the freedom of the whole man.

**PLATFORM OF THE SOCIALIST LABOR PARTY, ADOPTED AT NEW YORK  
JULY, 1904.**

The Socialist Labor party of America, in convention assembled, reasserts the inalienable right of man to life, liberty, and the pursuit of happiness.

We hold that the purpose of government is to secure to every citizen the enjoyment of this right; but, taught by experience, we hold furthermore that such right is illusory to the majority of the people, to wit, the working class, under the present system of economic inequality that is essentially destructive of their life, their liberty, and their happiness.

We hold that the true theory of politics is that the machinery of government must be controlled by the whole people; but again, taught by experience, we hold, furthermore, that the true theory of economics is that the means of production must likewise be owned, operated and controlled by the people in common. Man cannot exercise his right of life, liberty and the pursuit of happiness without the ownership of the land on and the tool with which to work. Deprived of these, his life, his liberty, and his fate fall into the hands of the class that owns those essentials for work and production.

We hold that the existing contradiction between the theory of democratic government and the fact of a despotic economic system—the private ownership of the natural and social opportunities—divides the people into two classes—the capitalist class and the working class; throws society into the convulsions of the class struggle, and perverts government to the exclusive benefit of the capitalist class.

Thus labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessities of life.

Against such a system the Socialist Labor party raises the banner of revolt, and demands the unconditional surrender of the capitalist class.

The time is fast coming when, in the natural course of social evolution, this system, through the destructive action of its failures and crisis on the one hand, and the constructive tendencies of its trusts and other capitalist combinations on the other hand, will have worked out its own downfall.

We, therefore, call upon the wage-workers of America to organize under the banner of the Socialist Labor party into a class-conscious body, aware of its rights, and determined to conquer them.

And we also call upon all other intelligent citizens to place themselves squarely upon the ground of working-class interests, and join us in this mighty and noble work of human emancipation, so that we may put summary end to the existing barbarous class conflict by placing the land and all the means of production, transportation and distribution into the hands of the people as a collective body, and substituting the co-operative commonwealth for the present state of planless production, industrial war and social disorder—a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

**PLATFORM OF THE PROHIBITION PARTY ADOPTED AT INDIANAPOLIS,  
JUNE 30, 1904.**

The Prohibition party, in national convention, assembled, at Indianapolis, June 30, 1904, recognizing that the chief end of all government is the establishment of those principles of righteousness and justice which have been revealed to men as the will of the ever-living God, desiring His blessing upon our national life, and believing in the perpetuation of the high ideals of government of the people, by the people, and for the people, established by our fathers, makes the following declaration of principles and purposes:

**The Most Important Question in American Politics.**—The widely prevailing system of the licensed and legalized sale of alcoholic beverages is so ruinous to individual interests, so inimical to public welfare, so destructive of national wealth, and so subversive of the rights of great masses of our citizenship, that the destruction of the traffic is, and for years has been, the most important question in American politics.

**Ignored by Democratic and Republican Leaders.**—We denounce the lack of statesmanship exhibited by the leaders of the Democratic and Republican parties in their refusal to recognize the paramount importance of this question, and the cowardice with which the leaders of these parties have courted the favor of those whose selfish interests are advanced by the continuation and augmentation of the traffic, until to-day the influence of the liquor traffic practically dominates national, State and local government throughout the nation.

**Regulation a Failure—License Money a Bribe.**—We declare the truth, demonstrated by the experience of half a century, that all methods of dealing with the liquor traffic which recognize its right to exist, in any form, under any system of license or tax or regulation, have proved powerless to remove its evils, and useless as checks upon its growth, while the insignificant public revenues which have accrued therefrom have seared the public conscience against a recognition of its iniquity.

**Prohibitory Law, Administered by Its Friends, the Only Hope.**—We call public attention to the fact, proved by the experience of more than fifty years, that to

NATIONAL PLATFORMS OF POLITICAL PARTIES—*Continued.*

secure the enactment and enforcement of prohibitory legislation, in which alone lies the hope of the protection of the people from the liquor traffic, it is necessary that the legislative, executive and judicial branches of government should be in the hands of a political party in harmony with the prohibition principle, and pledged to its embodiment in law, and to the execution of those laws.

**Party Will Enact and Enforce Prohibitory Laws.**—We pledge the Prohibition party, wherever given power by the suffragists of the people, to the enactment and enforcement of laws prohibiting and abolishing the manufacture, importation, transportation and sale of alcoholic beverages.

**No Other Issue of Equal Importance.**—We declare that there is not only no other issue of equal importance before the American people to-day, but that the so-called issues upon which the Democratic and Republican parties seek to divide the electorate of the country are, in large part, subterfuges under the cover of which they wrangle for the spoils of office.

**Attitude on Other Public Questions.**—Recognizing that the intelligent voters of the country may properly ask our attitude upon other questions of public concern, we declare ourselves in favor of:

The impartial enforcement of all law.

The safeguarding of the people's rights by a rigid application of the principles of justice to all combinations and organizations of capital and labor.

The recognition of the fact that the right of suffrage should depend upon the mental and moral qualifications of the citizen.

A more intimate relation between the people and government, by a wise application of the principle of the initiative and referendum.

Such changes in our laws as will place tariff schedules in the hands of an omnipartisan commission.

The application of uniform laws to all our country and dependencies.

The election of United States Senators by vote of the people.

The extension and honest administration of the Civil Service laws.

The safeguarding of every citizen in every place under the government of the people of the United States, in all the rights guaranteed by the laws and the Constitution.

International arbitration, and we declare that our nation should contribute, in every manner consistent with national dignity, to the permanent establishment of peace between all nations.

The reform of our divorce laws, the final extirpation of polygamy, and the total overthrow of the present shameful system of the illegal sanction of the social evil, with its unspeakable traffic in girls, by the municipal authorities of almost all our cities.

**PLATFORM OF THE UNITED CHRISTIAN PARTY, ADOPTED AT ST. LOUIS, MO., MAY 2, 1904.**

We, the United Christian party, in national mass convention assembled in His name, in the City of St. Louis, Mo., May 2, 1904, acknowledging Almighty God as our Father and Jesus Christ as our leader, commander, governor and king; believing that the time has now come when all Christians and patriots should unite on the day of election and vote direct on all questions of vital importance, and apply Christian golden rule to all government by and for the people, do hereby declare that the platform and purpose of the United Christian party is and shall be to work and stand for union in His name, according to the Lord's Prayer, for the fulfilment of God's law through direct legislation of the people governed by the golden rule, regardless of sex, creed, color, nationality.

As an expression of consent or allegiance on the part of the governed, in harmony with the above statements—

We also declare in favor of direct legislation providing for an equal standard of morals for both sexes, and most vigorously oppose the traffic in girls and all forms of the social evil.

We are opposed to war and condemn mob violence.

We favor government ownership of coal mines, oil wells and public utilities.

We are opposed to government revenue from the manufacture and sale of intoxicating liquor as a beverage.

We are opposed to all trusts and combines contrary to the welfare of the common people, and declare that Christian government through direct legislation will regulate the trusts and labor problem according to the golden rule.

**PREAMBLE TO THE PLATFORM OF THE CONTINENTAL PARTY, ADOPTED AT CHICAGO, ILL., AUGUST 31, 1904.**

The Continental party of the United States, in first national convention assembled, in the City of Chicago, August 31, 1904, announces the following platform and principles:

The objects and ends of the Continental party, as set forth in its charter, are: "To enlist the co-operation of legal voters throughout the United States in earnest and honorable efforts to repeal unjust laws in every branch of government, and, in their stead, to secure the enactment and enforcement of other laws better adapted to establish justice, insure domestic tranquillity, promote the general welfare, and secure the election or appointment to office of honest and capable men."

**Paramount Issues.**—The questions pertaining to money, the tariff, transportation, trusts and corporations, the race problem, the labor problem, are pre-eminently live issues, which can never be permanently settled until they are settled right.

## State Party Platforms of 1907 on National Issues.

There were but few State conventions of political parties in 1907. Although there was a State election in New York, the candidates were nominated by the Democratic and Republican State Committees, which issued no declarations of principles. The Kentucky Democrats held no convention, the ticket having been nominated at a State primary the previous year. A large part of the platforms adopted by the conventions of 1907 was devoted to local issues. The following were the references to national affairs:

### PRESIDENT ROOSEVELT'S ADMINISTRATION.

**Kentucky.**—We approve the policies and commend the ability, courage and integrity of President Theodore Roosevelt and his administration, and, without expressing preference for any candidate, favor the selection of the national convention for President of one in full accord with those policies and who will energetically carry them out in the interests of all the people.

**Maryland.**—The Maryland Republican platform heartily indorsed the national administration.

**Massachusetts.**—We heartily commend the administration of President Roosevelt. It has been progressive, courageous and effective; it has promoted the welfare of the whole people, and has enforced the laws and compelled their observance by all persons, rich and poor, high and low alike.

**Nebraska.**—As the representatives of the Republicans of Nebraska, in State convention assembled, we again commend the inspiring character and undaunted leadership of Theodore Roosevelt. We especially indorse what he has accomplished, with the support of a Republican Congress, toward subjecting the overweening railroads engaged in interstate commerce to the regulating arm of the Government, and in curbing the rapacity of the lawless trusts by forcing them to desist from their criminal practices. These policies have our unqualified approval, and in order that no backward step be taken, we will insist that his successor be a man whose record pledges a continuance of the distinctive policies of the Roosevelt administration.

**New Jersey.**—We indorse the administration of President Roosevelt as courageous and patriotic, distinguished by intelligent, earnest and successful efforts to promote the welfare of all the people. Continued prosperity has been maintained in every branch of industry, and the position of the nation at home and abroad is stronger and better than at any time in its history.

**Pennsylvania.**—This convention heartily renews the expression of confidence that has come so frequently, emphatically and directly from the Republicans of Pennsylvania in the integrity, wisdom and devotion to the public good of Theodore Roosevelt; with equal heartiness we record our approval of the work of his administration, and we pledge the Republican party of Pennsylvania to a loyal adherence to the policies inspired by the principle of equality, of right, and opportunity to all.

**Rhode Island.**—We affirm our allegiance to the national Republican party and to the declaration of principles on which it was continued in control of the national Government in 1904, which principles are being faithfully carried into effect by the official acts of the present administration.

### TARIFF REVISION AND PROTECTION.

#### DEMOCRATIC CONVENTIONS.

**Maryland.**—We feel that it is incumbent on us now to declare that no taxation can be justified or excused which takes from the pockets of the people more than is reasonably required to defray the cost of an economical and frugal administration of the Government in all its departments, and we therefore favor such a revision of our existing tariff as will relieve the great masses of the people from its oppressive inequalities, discriminations and burdens, and put an end to the intolerable wrong that extorts from them an annual excess of revenue of \$90,000,000 withdrawn from circulation and piled up in the Treasury as a constant temptation to demoralizing extravagance.

**Massachusetts (Whitney Democrats).**—We regard the reform of the tariff as the paramount issue now before the people. We denounce the present Dingley tariff—levying its tribute upon all, but bearing with the heaviest weight on those of the smallest means—as the greatest system of graft in the country and as the most potent agency of political and legislative corruption. The crying necessity of reducing excessive rates of duty is now recognized alike by consumers and producers. We protest against the Republican programme of delaying action, for political reasons, until after the next Presidential election, which means intrusting the revision, if one be undertaken even then, chiefly to the beneficiaries of present oppressive duties, in exchange for campaign assistance to the party in power. The great advance in the cost of all necessities of life, due largely to the tariff, has brought home to every household the evil of maintaining excessive duties for the benefit of favored interests. The increase in the prices of all the materials and supplies required by our great producing industries and transportation interests, also due in great measure to the tariff, has imposed such heavy burdens upon them as to largely offset the benefits of an increased volume of business. The prosperity of the country, already receding, rests upon a doubtful basis as long as the artificial stimulus of excessive duties is so large a factor. We demand: 1. That the food supplies of the people and such raw materials of industry as coal, iron ore, lumber, wood pulp, hides, sole leather and wool, be placed upon the free list. 2. That all duties be reduced as rapidly as possible without undue disturbance of established industries to rates which will cover only the difference between the cost of manufacturing here and abroad, to be ascertained by expert investigation. 3. That manufacturers who take advantage of the tariff regularly to make lower prices on their products to foreigners than to American citizens, or to establish oppressive monopolies, be deprived of the protection which they thus abuse. \* \* \* We demand in particular free and unrestricted trade with Canada, that the people of New England may enjoy the natural advantages of their geographical position, and we believe that our northern neighbors,

if properly approached, will still be found willing to meet us half-way in negotiating mutually beneficial commercial agreements.

**Nebraska.**—We favor an immediate revision of the tariff by the reduction of import duty. Articles entering into competition with articles controlled by trusts should be placed upon the free list; material reductions should be made in the tariff upon the necessities of life, and reductions should be made in such other schedules as may be necessary to restore the tariff to a revenue basis.

#### REPUBLICAN CONVENTIONS.

**Massachusetts.**—The Republican party of Massachusetts reaffirms its belief in the principles of protection to American industries and American labor, under which the United States has prospered and developed both in foreign and domestic trade during the last ten years to a greater extent than in any similar period in the nation's life. Massachusetts has never in its history enjoyed employment for its mechanics, laborers and artisans more continuously than since the inauguration of the late President McKinley. The product of its industries exceeds that of any previous similar period. Industrial depressions have been unknown, and to-day the wage earners are enjoying the highest rate of wages ever in existence; the hours of employment are less and the demand for the products of Massachusetts was never greater. The Democratic party not only did not propose any treaties of reciprocity during the two terms that they had possession of the Presidential office, but in 1893 they repealed all reciprocity treaties which had been enacted by the Republicans. The only propositions for reciprocity have originated with the Republican party, and it is to our party that the country will look with confidence for such treaties in the future. The National Republican Convention in 1908 will be called upon to present a platform defining the issues of the Presidential election. A majority of the Republican members of the Massachusetts delegation in Congress in January, 1905, declared in favor of the consideration of the question of the revision of the existing tariff in accordance with the principles of protection at the earliest practicable time. We commend for adoption by the next National Republican Convention a resolution calling the Congress to meet in special session to determine upon amendments to the present tariff law, or the enactment of a new measure to meet changed conditions, to remove duties needless either for revenue or protection, and make such modifications as experience may have shown to be necessary.

**Pennsylvania.**—The Republicans of Pennsylvania believe that the payroll of American labor should continue to be higher than that of any other nation, and the average American home a model for the world. President Roosevelt has publicly declared that "the general tariff policy to which, without regard to changes in detail, I believe this country should be irrevocably committed, is fundamentally based upon ample recognition of the difference in labor cost here and abroad." We endorse those declarations and declare our unflinching adherence to the great principle of protection to American labor, American industries and American products.

#### TRUSTS.

#### DEMOCRATIC CONVENTIONS.

**Massachusetts** (Bartlett Democrats).—Our party is founded upon the principle of equal rights to all men in the pursuit of happiness, and seeks to destroy all privilege which usurps these rights. The present political problem is industrial monopoly, which rests upon privileges conferred by law or enjoyed contrary to law. Vast aggregations of capital have absorbed our industrial system, have monopolized our money and credit systems in the banks, the lands from which our wealth is drawn, the railroads and ships which carry our goods and persons, while the tax laws perfect the system of plunder by excluding interference from without. From the food we eat, the shelter we provide, the clothing we wear, the comforts we enjoy, monopoly has taken its tribute until vast wealth has increased in the hands of its beneficiaries, while the purchasing power of labor has constantly decreased. As the wealth of monopoly has increased it has strengthened its hold upon the politics of the country and dominated the governments of nation and State. Believing that industrial despotism and political liberty cannot exist together, we are opposed to private monopoly in all its forms and to the laws which give it life.

**Nebraska.**—A private monopoly is indefensible and intolerable. We, therefore, favor the vigorous enforcement of the criminal law against trusts and trust magnates, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States. Among the additional remedies we specify three—first, a law compelling corporations engaged in interstate commerce to sell to all purchasers in all parts of the country on the same terms, after making due allowance for cost of carriage; second, a law preventing the duplication of directors among competing corporations, and, third, a license system which will, without abridging the right of each State to create corporations, or its right to regulate as it will foreign corporations doing business within its limits, make it necessary for a manufacturing or trading corporation engaged in interstate commerce to take out a Federal license before it shall be permitted to control as much as twenty-five per cent. of the product in which it deals, the license to protect the public from watered stock and to prohibit the control by such corporation of more than 50 per cent. of the total amount of any product consumed in the United States. We insist upon the recognition of the distinction between the natural man and the artificial person, called a corporation, and we favor the enactment of such law as may be necessary to compel foreign corporations to submit their legal disputes to the courts of the States in which they do business, and thus place themselves upon the same footing as domestic corporations.

**New Jersey.**—We favor the enactment of stringent anti-monopoly laws.  
**Pennsylvania.**—While we recognize the right of capital, within this Commonwealth, in all legitimate lines of enterprise, to combine for the increase of business, for enhancement of profit by enlarging productive capacity and decreasing the cost of production, thus lessening the price to the consumer, yet when such combination in its purpose, or effect, creates, or tends to create, a monopoly in its production, to restrain trade, or to stifle competition, to increase the cost to the consumer, or to control the

market for the labor it employs, it violates the spirit of our laws, becomes inimical to public welfare and peace, and should be so regulated, controlled or prohibited by law as to amply protect the public interests.

REPUBLICAN CONVENTIONS.

**Pennsylvania.**—We commend the course of the Fifty-ninth Congress, which, without attempted confiscation or reprisal of vested rights or any spirit of unfairness and injustice to those who have interests in carrying and other corporations, nevertheless passed more important legislation than any preceding Congress for the proper regulation and control of corporations and trusts and the punishment of improper practices.

REGULATION OF RAILROADS.

DEMOCRATIC CONVENTIONS.

**Massachusetts** (Bartlett Democrats).—The most dangerous form of privilege is a monopoly of transportation, and our highways of commerce and travel, now delivered to private corporations, should be restored to the control of the people and conducted for the public good rather than for private profit and speculation. By unlawful rebates and discriminations the railroads of the nation have connived to ruin legitimate business and give control of our staple products to their powerful favorites. By capital inflations they have burdened our industry; by wreckings and consolidations they are rapidly bringing our railroad systems into a national monopoly.

**Nebraska.**—We assert the right of Congress to exercise complete control over interstate commerce, and we assert the right of each State to exercise just as complete control over commerce within its borders. We demand such an enlargement of the powers of national and State railway commissions as may be necessary to give full protection to persons and places from discrimination and extortion. We believe that both the nation and the various States should, first, ascertain the present value of the railroads, measured by the cost of production; second, prohibit the issue of any more watered stock or fictitious capitalization; third, prohibit the railroads from engaging in any business which brings them into competition with their shippers; and, fourth, reduce transportation rates until they reach a point where they will yield only a reasonable return on the present value of the roads—such reasonable return being defined as a return sufficient to keep the stock of the roads at par when such roads are honestly capitalized. To supplement the reductions made by the various States in passenger rates, we favor an act of Congress, requiring the railroads to sell interstate tickets at a rate not exceeding the sum of the local rates.

RESERVED RIGHTS OF THE STATES.

DEMOCRATIC CONVENTIONS.

**Maryland.**—We feel that the present political situation upon national issues demands from us an emphatic reaffirmance of that time-honored article of Democratic faith again and again declared in our platform, that our Federal Government is a government of limited and carefully enumerated powers derived solely from the Constitution, and that the powers not therein granted or necessarily implied are reserved to the States, respectively, or to the people.

**Massachusetts** (Whitney Democrats).—We reaffirm the Democratic doctrine, never more important to the welfare of the country than to-day, of preserving in their full integrity the powers reserved to the several States under the Federal Constitution, and we declare ourselves unalterably opposed to the invasion or the surrender of the rights of the Commonwealth of Massachusetts. If at any time changed conditions demand the transfer of additional powers from the States to the Federal Government that end should be attained only by amending the Constitution in the manner provided in that instrument, not by executive usurpation or by strained judicial construction. We maintain that the Constitution and law of this Commonwealth are so framed, and our people are possessed of such capacity for self-government, that our local affairs can be properly managed and controlled without the aid or interference of the Federal Government; and we condemn the declaration of Governor Guild in favor of bringing our corporations under national control as an unwarranted reflection upon the intelligence of the people and the fidelity of their representatives.

**Nebraska.**—Believing, with Jefferson, in "the support of the State governments in all their rights as the most competent administrations for our domestic concerns and the surest bulwark against anti-republican tendencies;" and in "the preservation of the general Government in its whole constitutional vigor, as the sheet anchor of our peace at home and safety abroad;" we are opposed to the centralization implied in the suggestions, now frequently made, that the powers of the general Government should be extended by judicial construction. While we favor the exercise by the general Government of all its constitutional authority for the prevention of monopoly and for the regulation of interstate commerce, we insist that Federal remedies shall be added to, and not substituted for, State remedies.

LABOR LEGISLATION.

DEMOCRATIC CONVENTIONS.

**Massachusetts** (Bartlett Democrats).—As monopoly has extended its control over our industries the rights of the toilers who produce the wealth have been neglected or denied. The gains from improved machinery and increasing prosperity should accrue to labor in the form of increased wages and shorter hours of labor. We approve legislation to secure these results, and so far as they cannot be secured by laws, we tender our support to the trade unions which seek to obtain them. We especially demand in labor disputes the right of trial by jury on contempt proceedings, and the exclusion of courts of equity from jurisdiction of offences against the criminal laws.

**Nebraska.**—We favor the establishment of State and national boards of arbitration, which shall have authority to investigate either upon their own initiative or at the request of either party, any industrial dispute between corporate employers and their employees, the findings of such boards not to be binding upon either party, but to serve

as a guide to public opinion and as a means of conciliation between labor and capital. We favor the eight-hour day. We are opposed to "government by injunction," the system under which the writ of injunction is used to deny to laboring men the protection of trial by jury.

#### MISCELLANEOUS.

##### DEMOCRATIC CONVENTIONS.

**Maryland.**—Fully realizing the necessity of putting a stop to the intolerable evils of bribery and corruption in our elections, we favor the passage of a corrupt practices act that will go to the very root of this frightful menace to our free institutions, and by adequate provisions and penalties which elsewhere have proved to be effective will make the buying of votes too odious and dangerous to be hereafter attempted.

Maryland offers many and great attractions to worthy and industrious foreigners who desire to become American citizens, and we favor energetic measures to encourage and promote the introduction into our State of bodies of immigrants of good character, who will actively contribute by their diligence and industry to the improvement and development of our agricultural resources.

**Massachusetts** (Bartlett Democrats).—Our people should have the power by a majority vote to reverse and direct the acts of its Legislature.

**Nebraska.**—We favor the election of United States Senators by direct vote of the people, and regard this reform as the gateway to all other national reforms. We favor an income tax as a part of our revenue system, and we urge the submission of a constitutional amendment specifically authorizing Congress to levy and collect a tax upon individual and corporate incomes, to the end that wealth may bear its proportionate share of the burdens of the Federal Government. We favor a national inheritance tax to reach the "swollen fortunes" already in existence, but we believe that it is better to permanently prevent "swollen fortunes" by abolishing the privileges and favoritism upon which they are based.

We favor full protection, by both national and State governments within their respective spheres, of all foreigners residing in the United States under treaty, but we are opposed to the admission of Asiatic emigrants who cannot be amalgamated with our population, or whose presence among us would raise a race issue and involve us in diplomatic controversies with Oriental powers.

We condemn the experiment in imperialism as an inexcusable blunder which has involved us in an enormous expense, brought us weakness instead of strength, and laid our nation open to the charge of abandoning the fundamental doctrine of self-government.

We favor an immediate declaration of the nation's purpose to recognize the independence of the Philippine Islands as soon as a staple government can be established, such independence to be guaranteed by us, as we guarantee the independence of Cuba, until the neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippines our Government should retain such land as may be necessary for coaling stations and naval bases.

##### REPUBLICAN CONVENTIONS.

**Massachusetts.**—We urge the Congress to give further consideration to the subject of the re-establishment of the merchant marine. Massachusetts was among the foremost in the maintenance of foreign commerce in the earlier periods of the nation's history. This country, with a protected coastwise commerce and a coast line unparalleled in extent and importance, ought to be a strong competitor for the commerce of the world. For the carrying of our mails we are now dependent upon the service afforded by steamers of other nations, and our country thereby helps them to maintain efficient agencies for the extension of their foreign trade, to the exclusion of our own.

**Nebraska.**—While not presuming to forestall the action of any future convention, we express the belief that the Republicans of Nebraska recognize in the Hon. William H. Taft, of Ohio, one whose personal character and whose long public service mark him as pre-eminently the man under whose leadership these policies would be perpetuated.

We believe the Federal Judiciary act should be amended to define the citizenship of interstate corporations for the purpose of jurisdiction of Federal courts by providing that for the purposes of original jurisdiction and jurisdiction on removal from State courts, or Federal courts, a corporation shall be deemed a citizen of every State where it has filed or is required by the law of that State to file in the manner required of domestic corporations, its articles of incorporation. And, in addition thereto, that every foreign corporation, or its successors, assigns or lessees, exercising or claiming the right to exercise the right of eminent domain, under a State law, shall be deemed a citizen of that State for the purposes of jurisdiction of Federal courts.

We favor the enactment of a Federal law, and, if necessary, an amendment to the Federal Constitution, which will forbid the Federal courts from issuing writs of injunction against State officers charged by law with the enforcement of State statutes.

**Pennsylvania.**—Pennsylvania has just pride in presenting to her sister States as a worthy successor to Theodore Roosevelt the distinguished son, who from the beginning was foremost in counsel and most effective in practical support of the policies for the regulation of corporate power which have so endeared the President to the people of this country. It was Philander Chase Knox who in 1902 pointed out that an amendment to the Constitution of the United States was unnecessary to enable Congress to redress the wrongful exercise of power by corporations in their relation to interstate commerce, and who made that opinion good by the legal proceedings which he successfully prosecuted for the violation of the interstate commerce and anti-trust laws of the nation, and also by the amendments to those laws which he recommended and prepared, and which subsequently met the approval of Congress. \* \* \* Believing in him and supporting him earnestly as we do, we hereby indorse him on behalf of the Republican party of this Commonwealth for the great office of President of the United States, and we have the honor of presenting him now to the Republicans of our sister States as Pennsylvania's candidate for the Presidency before the Republican nominating convention in June, 1908.

**Political Record of 1907.**

- Jan. 15. Idaho Legislature elected William E. Borah (Rep.) United States Senator, the vote being: Borah, 50; Fred T. Dubois (Dem.), 18.
- Jan. 16. Colorado Legislature elected Simon Guggenheim (Rep.) United States Senator, the vote being: Guggenheim, 68; Charles S. Thomas (Dem.), 27; Frank C. Goudy (Rep.), 1.
- Jan. 16. Maine Legislature re-elected William P. Frye United States Senator, the vote being: Frye, 99; W. H. Pennell (Dem.), 66.
- Jan. 16. Montana Legislature elected Joseph M. Dixon (Rep.) United States Senator.
- Jan. 16. Tennessee Legislature elected Robert L. Taylor (Dem.) United States Senator, the opposition vote being for Nathan W. Hale (Rep.).
- Jan. 22. Oregon Legislature elected Frank W. Mulkey (Rep.) United States Senator for the short term and Jonathan Bourne, Jr. (Rep.), for the long term.
- Jan. 22. West Virginia Legislature re-elected Stephen B. Elkins (Rep.) United States Senator, the vote being: Elkins, 81; John J. Cornwell (Dem.), 30.
- Jan. 22. Illinois Legislature re-elected Shelby M. Cullom (Rep.) United States Senator, the vote being: Cullom, 132; Carroll C. Boggs (Dem.), 67; Daniel R. Sheen (Pro.) 3.
- Jan. 22. North Carolina Legislature re-elected P. M. Simmons United States Senator, the vote being: Simmons, 116; Spencer B. Adams (Rep.), 24; J. J. Britt (Rep.), 2.
- Jan. 22. Wyoming Legislature re-elected Francis E. Warren (Rep.) United States Senator, the vote being: Warren, 64; scattering, 6.
- Jan. 22. Kansas Legislature elected Charles Curtis (Rep.) United States Senator, the vote being: Curtis, 44; W. A. Harris (Dem.), 32; J. L. Bristow, 12.
- Jan. 22. Minnesota Legislature re-elected Knute Nelson (Rep.) United States Senator, there being one vote for Governor John A. Johnson in opposition.
- Jan. 22. South Carolina Legislature re-elected Benjamin R. Tillman (Dem.) United States Senator without opposition.
- Jan. 22. Texas Legislature re-elected Joseph W. Bailey (Dem.) United States Senator by a vote of 108 to 56 scattering.
- Jan. 22. South Dakota Legislature elected Robert J. Gamble (Rep.) United States Senator, the vote being: Gamble, 100; Thomas Sterling, 16; Andrew E. Lee, 17.
- Jan. 30. Arkansas Legislature elected Jeff Davis (Dem.) United States Senator.
- Feb. 5. New Jersey Legislature elected Frank O. Briggs (Rep.) United States Senator, the vote being: Briggs, 41; James E. Martine (Dem.), 35; scattering, 2.
- April 17. Wisconsin Legislature balloted for United States Senator to succeed John C. Spooner (Rep.), resigned. The first ballot, resulting in no choice, was: George W. Bird (Dem.), 24; John L. Esch (Rep.), 19; Irving L. Lenroot (Rep.), 19; H. A. Cooper (Rep.), 19; Isaac Stephenson (Rep.), 17; W. H. Hatten (Rep.), 16; scattering, 17.
- April 23. Rhode Island Legislature adjourned without electing a United States Senator, the eighty-first and final ballot being: R. H. I. Goddard (Dem.), 40; Samuel P. Colt (Rep.), 39; George Peabody Wetmore (Rep.), 30.
- April 24. Michigan State elections for Justice of the Supreme Court and Regents of the University carried by the Republicans.
- May 17. Wisconsin Legislature elected Isaac Stephenson (Rep.) United States Senator to succeed John C. Spooner (Rep.), resigned, the vote being 87 for Stephenson to 24 for George W. Bird (Dem.). There were 25 absentees.
- June 6. Pennsylvania Republican State Convention at Harrisburg nominated a candidate for State Treasurer and indorsed Senator Philander C. Knox for the Presidency.
- June 19. Kentucky Republican State Convention at Louisville nominated Augustus E. Willson for Governor by acclamation.
- June 27. Pennsylvania Democratic State Convention at Harrisburg nominated a candidate for State Treasurer on a platform confined to State issues.
- July 16. Alabama Legislature elected John H. Bankhead (Dem.) United States Senator to succeed John T. Morgan (Dem., deceased).
- July 10. Georgia Legislature re-elected A. O. Bacon (Dem.) United States Senator.
- July 30. Ohio Republican State Central Committee by a vote of 15 to 6 formally indorsed William H. Taft for the Presidency.
- Aug. 2. Alabama Legislature elected Joseph F. Johnston (Dem.) United States Senator to succeed Edmund W. Pettus (Dem., deceased).
- Aug. 8. Mississippi Democratic State Executive Committee announced the result of the primary election for United States Senator as 59,496 for John Sharp Williams and 58,848 for James K. Vardaman. E. F. Noel received the largest vote for candidate for Governor.
- Aug. 8. Maryland Democratic State Convention at Baltimore nominated Judge Austin L. Crothers for Governor, the ballot being: Crothers 113½, Joseph D. Baker, 14.
- Aug. 14. Maryland Republican State Convention at Baltimore nominated George R. Gaither for Governor, with a State ticket, by acclamation.
- Sept. 10. New Jersey Republican State Convention at Trenton nominated J. Franklin Fort for Governor, the ballot being: Fort, 753; Vivian M. Lewis, 179; Frank Sommer, 120; Pitney, 96.
- Sept. 17. New Jersey Democratic State Convention at Trenton nominated Frank S. Katzenbach, Jr., for Governor. He received 1,093½ votes. James E. Martine received 35, Hinchliffe 75.
- Sept. 17. Oklahoma State and Congressional election. The Democrats carried their State ticket by large majorities and elected four of the five Representatives in Congress.
- Sept. 24. Nebraska Democratic State Convention nominated a fusion State ticket.
- Sept. 28. New York Independence League State Convention at New York nominated Reuben R. Lyon and John T. McDonough for Judges of the Court of Appeals.
- Oct. 4. New York Democratic and Republican State Committees nominated Edward T. Bartlett (Rep.) and Willard Bartlett (Dem.) for Associate Justices of the Court of Appeals.
- Oct. 5. Massachusetts Republican State Convention at Boston nominated Curtis Guild, Jr., for Governor with a State ticket by acclamation.
- Oct. 5. Massachusetts Democratic State Convention at Springfield split into two factions, both nominating State tickets, one headed by Henry M. Whitney, the other by Charles W. Bartlett for Governor.
- Nov. 5. Elections in Kentucky, Maryland, Massachusetts, Mississippi, Nebraska, New Jersey, Pennsylvania and Rhode Island for State officers and in New York for Judges of the Court of Appeals.

### The Presidential Election of 1908.

THE next Presidential election will take place on Tuesday, November 3, 1908.

The President and Vice-President of the United States are chosen by officials termed "Electors" in each State, who are, under existing State laws, chosen by the qualified voters thereof by ballot, on the first Tuesday after the first Monday of November in every fourth year preceding the year in which the Presidential term expires.

The Constitution of the United States prescribes that each State shall "appoint," in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the State may be entitled in Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be an elector. The Constitution requires that the day when electors are chosen shall be the same throughout the United States. At the beginning of our Government most of the electors were chosen by the Legislatures of their respective States, the people having no direct participation in their choice; and one State, South Carolina, continued that practice down to the breaking out of the civil war. But in all the States now the electors are, under the direction of State laws, chosen by the people on a general State ticket.

The manner in which the chosen electors meet and ballot for a President and Vice-President of the United States is provided for in Article XII. of the Constitution, and is as follows:

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of government of the United States, directed to the President of the Senate.

The same article then prescribes the mode in which the Congress shall count the ballots of the electors, and announce the result thereof, which is as follows:

The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed; and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice.

The procedure of the two houses, in case the returns of the election of electors from any State are disputed, is provided in the "Electoral Count" act, passed by the Forty-ninth Congress. The act directs that the Presidential electors shall meet and give their votes on the second Monday in January next following their election. It fixes the time when Congress shall be in session to count the ballots as the second Wednesday in February succeeding the meeting of the electors.

The Constitution also defines who is eligible for President of the United States, as follows:

No person except a natural-born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years.

The qualifications for Vice-President are the same.

### The Electoral Vote.

THE following will be the electoral vote of the States in 1908 as based upon the Apportionment act of 1900:

STATES.	Electoral Votes.	STATES.	Electoral Votes.	STATES.	Electoral Votes.
Alabama.....	11	Maryland.....	8	Oregon.....	4
Arkansas.....	9	Massachusetts.....	16	Pennsylvania.....	34
California.....	10	Michigan.....	14	Rhode Island.....	4
Colorado.....	5	Minnesota.....	11	South Carolina.....	9
Connecticut.....	7	Mississippi.....	10	South Dakota.....	4
Delaware.....	3	Missouri.....	18	Tennessee.....	12
Florida.....	5	Montana.....	3	Texas.....	18
Georgia.....	13	Nebraska.....	8	Utah.....	3
Idaho.....	3	Nevada.....	3	Vermont.....	4
Illinois.....	27	New Hampshire.....	4	Virginia.....	12
Indiana.....	15	New Jersey.....	12	Washington.....	5
Iowa.....	13	New York.....	39	West Virginia.....	7
Kansas.....	10	North Carolina.....	12	Wisconsin.....	13
Kentucky.....	13	North Dakota.....	4	Wyoming.....	3
Louisiana.....	9	Ohio.....	23	Total.....	483
Maine.....	6	Oklahoma.....	7		

Electoral votes necessary to a choice..... 242

Oklahoma has been admitted to the Union since the last Presidential election with seven electoral votes, which are included in the above enumeration. Arizona having at the election of 1906 rejected joint statehood with New Mexico under the permissive act of Congress, neither will attain statehood before the presidential election of 1908, unless the Sixtieth Congress admits them separately during the year, in which case each will have three electoral votes, making 489 electoral votes in all, or 245 electoral votes necessary to a choice.

**Ballots for Candidates for President**

IN THE NATIONAL DEMOCRATIC AND REPUBLICAN CONVENTIONS.

**1832.** Democratic National Convention at Baltimore. Jackson nominated by acclamation.  
**1844.** Democratic National Convention at Baltimore. First ballot, Van Buren, N. Y., 143; Cass, Mich., 83; Johnson, Ky., 24; Buchanan, Pa., 4. Ninth and last ballot, Polk, Tenn., 232; Cass 17; Van Buren, 10.  
**1848.** Democratic National Convention at Baltimore. First ballot, Cass, Mich., 125; Buchanan, Pa., 55; Woodbury, N. H., 53; Calhoun, S. C., 9; Worth, N. Y., 6; Dallas, Pa., 3. Fourth and last ballot, Cass, 242; Woodbury 8; Buchanan, 4.  
**1852.** Democratic National Convention at Baltimore. First ballot, Cass, Mich., 116; Buchanan, Pa., 93; Marcy, N. Y., 27; Douglas, Ill., 20; Lane, Ore., 13. Forty-ninth and last ballot, Pierce, N. H., 282; scattering, 4.  
**1856.** Democratic National Convention at Cincinnati. First ballot, Buchanan, Pa., 135; Pierce, N. H., 122; Douglas, Ill., 33; Cass, Mich., 5. Seventeenth and last ballot, Buchanan, 296.  
**1856.** Republican National Convention at Philadelphia. First and only ballot, Fremont, Cal., 359; McLean, Ohio, 196.  
**1860.** Democratic National Convention at Charleston, S. C. First ballot, Douglas, Ill., 145; Hunter, Va., 42; Guthrie, Ky., 35; Johnson, Ga., 12; Dickinson, N. Y., 7; Lane, Ore., 6; Jefferson Davis, Miss., 1; Foucey, Ct., 1; Pierce, N. H., 1. Fifty-seventh ballot, Douglas, 151; Guthrie, 65; Hunter, 16; Lane, 14; Dickinson, 4; Davis, 1. No choice. The Convention adjourned to meet at Baltimore, where Douglas was nominated on the second ballot, the vote being, Douglas, 181; Breckinridge, Ky., 7; Guthrie, Ky., 5; Seymour, N. Y., 1; Bocock, Va., 1.  
 The Convention of the anti-Douglas Democrats at Baltimore nominated Breckinridge, who had 105 votes, without opposition.  
**1860.** Republican National Convention at Chicago. First ballot, Seward, N. Y., 137½; Lincoln, Ill., 102; Chase, Ohio, 49; Bates, Mo., 48; Dayton, N. J., 14; McLean, Ohio, 12. Third and last ballot, Lincoln, 281½; Seward, 180; Chase, 24½; Bates, 22; McLean, 8.  
**1864.** Democratic National Convention at Chicago. First and only ballot, McClellan, N. J., 20½; Seymour, N. Y., 23½.  
**1864.** Republican National Convention at Baltimore. Lincoln was renominated without opposition, except that Grant received the vote of Missouri.  
**1868.** Democratic National Convention at New York. First ballot, Pendleton, Ohio, 105; Johnson, Tenn., 65; Hancock, Pa., 33; Doolittle, Wis., 13; Hendricks, Ind., 2. (Scattering votes were also cast in subsequent ballots for Parker, N. J.; English, Ct.; Packer, Pa.; Ewing, Ohio; Adams, Mass.; McClellan, Ill.; Pierce, N. H.; Hoffman, N. Y.; Field, Cal., and Seymour, Ct.) Twenty-second and last ballot, Seymour, N. Y., was nominated by acclamation.

BALLOTS FOR CANDIDATES FOR PRESIDENT—Continued.

Bryan nominated after the fifth ballot, enough changes being made to give him more than 512 votes.  
\* Tillman, S. C., 17; Pennoyer, Ore., 8; Teller, Col., 8; Russell, Mass., 2; Hill, N. Y., 1; Campbell, O., 1.

McKinley nominated on the first ballot.

The People's Party National Convention, at St. Louis, July 25, nominated William J. Bryan for President on the first ballot, which was: Bryan, 1,042; Norton, 321; Debs, 8; Donnelly, 1; Coxe, 1.

The National Democracy, at their National Convention at Indianapolis, September 3, nominated Senator John M. Palmer for President on the first ballot. There were but two candidates, and the result of the ballot was as follows: John M. Palmer, Illinois, 763½; Edward S. Bragg, Wisconsin, 124½.

## BALLOTS FOR CANDIDATES FOR PRESIDENT—Continued.

**1900.**

## DEMOCRATIC NATIONAL CONVENTION.

The Democratic National Convention at Kansas City, Mo., July 5, nominated William J. Bryan for President by acclamation.

## REPUBLICAN NATIONAL CONVENTION.

The Republican National Convention at Philadelphia, Pa., June 25, nominated William McKinley, of Ohio, for President, and Theodore Roosevelt, of New York, for Vice-President, both by acclamation. Every vote in the convention was cast for McKinley, and 929 of 930 votes for Roosevelt, the candidate, who was a delegate, not voting.

## PEOPLE'S PARTY (FUSION) NATIONAL CONVENTION.

At the National Convention of the People's party (Fusionists), held at Sioux Falls, S. D., May 10, William J. Bryan was nominated for President by acclamation.

## OTHER NATIONAL CONVENTIONS.

At the National Convention of the People's party (Middle-of-the-Road Anti-Fusionists), held at Cincinnati, O., May 10, Wharton Barker, of Pennsylvania, was nominated for President on the second ballot. The first ballot was: Milford W. Howard, Alabama, 326 6-10; Wharton Barker, Pennsylvania, 323 4-10; Ignatius Donnelly, Minnesota, 70; Norton, 3. The second ballot was: Barker, 370; Howard 336; Donnelly, 7; Norton, 2.

The Prohibition National Convention at Chicago, June 28, nominated John G. Woolley, of Illinois, for President on the first ballot, which was: Woolley, Illinois, 380; Silas C. Swallow, Pennsylvania, 329; Hale Johnson, Illinois, withdrew.

The Socialist Labor Party National Convention in the City of New York, June 6, nominated Joseph F. Malloney, of Massachusetts, for President on the first ballot, which was as follows: Malloney, 60; Valentine Remyel, Pennsylvania, 17; W. B. Hammond, Minnesota, 1.

The Social Democratic National Convention at Indianapolis, Ind., March 6, nominated Eugene V. Debs, of Indiana, for President, by acclamation.

The United Christian Party National Convention at Rock Island, Ill., May 2, nominated Silas C. Swallow, of Pennsylvania, for President, by acclamation.

The Silver Republican National Convention at Kansas City, Mo., July 6, endorsed the nomination of William J. Bryan for President.

The National Party Convention in the City of New York, September 5, nominated Donelson Caffery, of Louisiana, for President, and Archibald M. Howe, of Massachusetts, for Vice-President, by acclamation. These candidates declined, and no other nominations were made.

**1904.**

## DEMOCRATIC NATIONAL CONVENTION.

The Democratic National Convention met at St. Louis, Mo., July 7. Balloting for a candidate for President began July 9. Only one ballot was had and was as follows:

CANDIDATES.	First Ballot.	CANDIDATES.	First Ballot.
Total vote.....	1,000	George Gray, Del.....	8
Necessary to choice.....	667	John Sharp Williams, Miss.....	8
Alton B. Parker, N. Y.....	658	George B. McClellan, N. Y.....	3
William R. Hearst, N. Y.....	204	Arthur Pue Gorman, Md.....	3
Francis M. Cockrell, Mo.....	41	Nelson A. Miles, D. C.....	3
Richard Olney, Mass.....	39	Charles A. Towne, N. Y.....	2
Edward C. Wall, Wis.....	30	Bird S. Coler, N. Y.....	1

At the conclusion of the roll call, Idaho, Nevada and two votes from West Virginia changed from Hearst to Parker, and Delaware changed from Gray to Parker, giving the latter 678 votes, or 11 more than necessary to a choice, and his nomination was then made unanimous.

## REPUBLICAN NATIONAL CONVENTION.

The Republican National Convention at Chicago, June 23, nominated Theodore Roosevelt, of New York, for President, by acclamation.

## PROHIBITION PARTY NATIONAL CONVENTION.

The Prohibition Party National Convention at Indianapolis, Ind., June 30, nominated Dr. Silas C. Swallow, of Pennsylvania, for President, by acclamation.

## PEOPLE'S PARTY NATIONAL CONVENTION.

The People's Party National Convention at Springfield, Ill., July 5, nominated Thomas E. Watson, of Georgia, for President, by acclamation.

## OTHER NATIONAL CONVENTIONS.

The Socialist Party National Convention at Chicago, May 5, nominated Eugene V. Debs, of Indiana, for President, by acclamation.

The Socialist Labor Party National Convention at New York, July 4, nominated Charles H. Corrigan, of New York, for President, by acclamation.

The United Christian Party National Convention at St. Louis, May 2; the Continental Party National Convention at Chicago, September 1, and the National Liberty Party (Negro) National Convention at St. Louis, July 7, nominated candidates for President, but they received only a few scattering votes of which there is no exact record.

SALARY OF THE PRESIDENT.

The salary of the President of the United States was the cause of discussion in the First Congress, in view of the fact that the Constitution declared that the President should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in Congress ranged from \$15,000 to \$70,000. The salary was finally placed at \$25,000 and this remained the compensation until President Grant's second term (March 3, 1873), when it was increased to \$50,000, the present sum. Chapter 2918 of the Laws of the Second Session of the Fifty-ninth Congress, Approved March 4, 1907, appropriated \$40,000 for travelling expenses of the President of the United States, to be expended at his discretion and accounted for by his certificate solely, \$25,000.\* This will probably be continued in the future. The appropriation for the care of the White House and its stable and greenhouses was in 1907, \$50,000.

REFERENCE NOTES TO THE TWO FOLLOWING PAGES.

\* The candidates started were elected. (n) The first Republican Party is claimed by the present Democratic Party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (c) Candidate of the Anti-Masonic Party. (d) There being no choice, the Senate elected Johnson. (e) Eleven Southern States, being within the belligerent territory, did not vote. (f) Three Southern States disfranchised. (g) Horace Greeley died after election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon, and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which, by a strict party vote, awarded 155 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition Party. (k) In Massachusetts. There was also a Native American ticket in that State, which received 184 votes. (m) Middle of the Road or Anti-Fusion People's Party. (n) United Christian Party. (o) Union Reform Party.

**Presidential Elections**

FROM 1789 TO 1904.

**AGGREGATE POPULAR VOTE AND ELECTORAL VOTE FOR CANDIDATES FOR PRESIDENT AND VICE-PRESIDENT AT EACH ELECTION.**

Note.—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1824 is so meagre and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures "appointed" the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice-President in the first nine quadrennial elections appear.

**ELECTORAL VOTES.**

**1789.** Previous to 1804, each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; R. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntington, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

**1792.** George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a), 50; Thomas Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

**1796.** John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 15; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia; John Henry, of Maryland, and S. Johnson, of North Carolina, all Federalists, 2 votes each; Charles Cotesworth Pinckney, of South Carolina, Federalist, 1 vote. John Adams was chosen President and Thomas Jefferson Vice-President.

**1800.** Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pinckney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which, being the next largest vote, elected him Vice-President. There were 2 blank votes.

**1804.** The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 162; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162; Rufus King, of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

**1808.** For President, James Madison, of Virginia, Republican, 129; Charles C. Pinckney, of South Carolina, Federalist, 47; George Clinton, of New York, Republican, 6. For Vice-President, George Clinton, Republican, 113; Rufus King, of New York, Federalist, 47; John Langdon, of New Hampshire, 9; James Madison, 3; James Monroe, 3. Vacancy, 1. Madison was chosen President and Clinton Vice-President.

**1812.** For President, James Madison, Republican, 128; De Witt Clinton, of New York, Federalist, 89. For Vice-President, Elbridge Gerry, of Massachusetts, 131; Jared Ingersoll, of Pennsylvania, Federalist, 86. Vacancy, 1. Madison was chosen President and Gerry Vice-President.

**1816.** For President, James Monroe, of Virginia, Republican, 183; Rufus King, of New York, Federalist, 34. For Vice-President, Daniel D. Tompkins, of New York, Republican, 183; John Eager Howard, of Maryland, Federalist, 39; James Ross, of Pennsylvania, 5; John Marshall, of Virginia, 4; Robert G. Harper, of Maryland, 3. Vacancies, 4. Monroe was chosen President and Tompkins Vice-President.

**1820.** For President, James Monroe, of Virginia, Republican, 231; John Q. Adams, of Massachusetts, Republican, 1. For Vice-President, Daniel D. Tompkins, Republican, 218; Richard Stockton, of New Jersey, 8; Daniel Rodney, of Delaware, 4; Robert G. Harper, of Maryland, and Richard Rush, of Pennsylvania, 1 vote each. Vacancies, 3. James Monroe was chosen President and Daniel D. Tompkins Vice-President.

## NOTES TO THE TABLES OF THE PRESIDENTS, ON THE TWO PRECEDING PAGES.

\* Monroe abandoned the profession of law when a young man, and was afterward, and until his election, always holding public office. † Jackson called himself a South Carolinian, and his biographer, Kendall, recorded his birthplace in Lancaster Co., S. C.; but Parton has published documentary evidence to show that Jackson was born in Union Co., N. C., less than a quarter mile from the South Carolina line. ‡ Or of departure from college.

§ Widows. Their maiden names are in parentheses. ¶ She was the divorced wife of Captain Robards. (a) The Democratic party of to-day claims lineal descent from the first Republican party, and President Jefferson as its founder. (b) Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his Administration took the name of Democrats, and elected Jackson President. (c) Randall, the biographer of Jefferson, declares that he was a believer in Christianity, although not a sectarian. (d) While President Johnson was not a church-member, he was a Christian believer. His wife was a Methodist.

Washington's first inauguration was in New York, and his second in Philadelphia. Adams was inaugurated in Philadelphia, and Jefferson and the Presidents following elected by the people, in the City of Washington. Arthur took the Presidential oath of office first in New York City. John Adams and Jefferson died on the same day, the Fourth of July, 1826, and Monroe died on the Fourth of July five years later. John Quincy Adams was a Representative and Andrew Johnson a Senator in Congress after the expiration of their Presidential terms, and both died while holding those offices. Tyler was a Representative in the Confederate Congress from Virginia, and died in office.

Lincoln, Garfield and McKinley were assassinated while in office. Lincoln at Ford's Theatre, Washington, D. C., April 14, 1865, from a pistol shot fired by John Wilkes Booth, who was killed near Fredericksburg, Va., April 26, 1865, by Sergeant Boston Corbett. Garfield was shot in the Pennsylvania Railroad Depot, Washington, D. C., July 2, 1881, and died at Elberon, Long Branch, N. J., September 19, 1881. The assassin was Charles Jules Guiteau, who was hanged at Washington, D. C., June 30, 1882. McKinley was shot twice September 6, 1901, while in the Temple of Music of the Pan-American Exposition, Buffalo, N. Y., and died from his wounds at the home of John G. Milburn, Buffalo, September 14, 1901. The assassin was Louis Czolgosz, who was electrocuted at Auburn State Prison, New York, October 29, 1901.

Jackson was shot at in the Capitol at Washington, D. C., January 29, 1835, by a house painter named Richard Lawrence, escaping because the pistol of the assassin missed fire.

Cleveland after taking the oath as President, kissed the open bible, his lips touching Psalm CXII, verses 5-10, inclusive. Garfield's first act after taking the oath was to kiss his mother.

The sixth President was the son of the second President, and the twenty-third President was the grandson of the ninth President. William Henry Harrison was the eighth and Benjamin Harrison the tenth in descent from Pocahontas and John Rolfe. Lincoln was the first President wearing a full beard. Grant the first wearing a mustache. Buchanan and Cleveland were bachelors when they entered the White House as Presidents, but Cleveland surrendered during his first term. Washington, Madison, Monroe, Pierce and Hayes were born on Friday. J. Q. Adams, Pierce, Garfield and McKinley (second term), were inaugurated on Friday. Tyler, Polk, Pierce and Arthur died on Friday. Lincoln was assassinated on Friday.

There were remarkable coincidences in the lives of Abraham Lincoln and Jefferson Davis. Both were born in Kentucky; Lincoln in 1809, Davis in 1808. Both removed from their native State in childhood, Lincoln to the Northwest, Davis to the Southwest. Lincoln was a Captain of Volunteers and Davis a Second Lieutenant of Regulars in the Black Hawk War of 1832. They began their political careers the same year, 1844, Lincoln being a Presidential Elector for Clay, and Davis for Polk. They were elected to Congress about the same time, 1845 and 1846. They were called to preside over their respective governments the same year and within a few days; Davis, February 8, 1861, Lincoln, March 4, 1861.

Washington, Monroe, and Jackson were soldiers in the Revolutionary War; Jackson, W. H. Harrison, Tyler, Taylor, and Buchanan in the War of 1812-15; Lincoln in the Black Hawk War; Taylor, Pierce, and Grant in the Mexican War; Grant, Hayes, Garfield, Arthur, B. Harrison, and McKinley in the Civil War, and Roosevelt was in the War with Spain. Adams and Jefferson were signers of the Declaration of Independence, and Washington and Madison of the Constitution.

Grant was christened Hiram Ulysses and Cleveland Stephen Grover. W. H. Harrison was the oldest man elected to the Presidency, and Grant the youngest, but Roosevelt was the youngest to become President. Cleveland was the only President married in the White House, and his second daughter the only President's child born therein. Grant's daughter (Mrs. Sartoris), and Roosevelt's daughter (Mrs. Longworth), were the only children of Presidents married therein. Wives of Tyler and Benjamin Harrison died in the White House. W. H. Harrison was father of the largest family, six sons and four daughters.

## THE PRESIDENTIAL SUCCESSION.

The Presidential succession is fixed by chapter 4 of the acts of the Forty-ninth Congress, first session. In case of the removal, death, resignation, or inability of both the President and Vice-President, then the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is as follows: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, and Secretary of the Interior. The Secretary of Agriculture and Secretary of Commerce and Labor were added by subsequent enactment. The acting President must, upon taking office, convene Congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This act applies only to such Cabinet officers as shall have been confirmed by the Senate and are eligible under the Constitution to the Presidency.

Vice-Presidents of the United States.

Mayors of the City of New York.

BEFORE the Revolution the Mayor was appointed by the Governor of the Province; and from 1784 to 1820 by the Appointing Board of the State of New York, of which the Governor was the chief member. From 1820 to the amendment of the Charter, in 1830, the Mayor was appointed by the Common Council. In 1898 the term of the first Mayor of Greater New York (Van Wyck) began.

## Insular Possessions of the United States.

### THE PHILIPPINES.

The Philippine group, lying off the southern coast of Asia, between longitude 120 and 130 and latitude 5 and 20 approximately, number about 2,000 islands, great and small, in a land and sea area of 1,200 miles of latitude and 2,400 miles of longitude. The actual land area is about 140,000 miles. The six New England States, New York, and New Jersey have about an equivalent area. The island of Luzon, on which the capital city (Manila) is situated, is the largest member of the group, being about the size of the State of New York. Mindanao is nearly as large, but its population is very much smaller. The latest estimates of areas of the largest islands are: Luzon, 44,400; Mindanao, 34,000; Samar, 4,800; Panay, 4,700; Mindoro, 4,000; Leyte, 3,800; Negros, 3,300; Cebu, 2,400.

A census of the Philippines was taken by the United States Government in 1903 under the auspices of the Census Office. The population returned was 7,635,426. Of this number almost seven million are more or less civilized. The wild tribes form about 9 per cent. of the entire population. Racially the inhabitants are principally Malays. The civilized tribes are practically all adherents of the Catholic Church, the religion being that introduced into the country by the Spaniards when they took possession of the islands in 1565. The Church has since then been a strong ruling power and the priesthood numerous. The Moros are Mohammedans and the other wild peoples have no recognized religious beliefs. The total number of non-Christian peoples is 647,740.

The density of population in the Philippines is 67 per square mile. In Continental United States it is 26 per square mile. Foreigners number about 50,000, of whom nearly three-fourths are Chinese. Exclusive of the Army there are 8,135 Americans in the islands, nearly one-half being located in the municipalities. There are thirty different races in the islands, all speaking distinct dialects, the largest tribe being the Visayans, who form nearly one-fourth of the entire civilized population. The Tagalogs, occupying the provinces in the vicinity of Manila, rank second in numbers, and the Ilocanos the third. Education has been practically reorganized by the Americans. The number of persons attending school is 811,715. Six thousand teachers are employed, four-fifths of whom are Filipinos. English is very generally taught, and the next generation of Filipinos will probably speak that tongue. Pauperism is almost unknown in the islands. In 1902 there were only 1,668 paupers maintained at public charge. The average normal death rate in the Philippines is 32 per thousand. The birth rate is 45 per thousand. There were in 1902 41 newspapers published, 12 being in English, 24 in Spanish, 4 in native dialects, and 1 in Chinese. The estimated real estate property value is 469,527,058 pesos, and the personal property 152,718,661 pesos. The reported value of church buildings, mostly Catholic, is 41,698,710 pesos. While there are four towns with more than 10,000 population Manila is the only incorporated city. Its inhabitants numbered 219,928 in 1902.

The climate is one of the best in the tropics. The islands extend from 5° to 21° north latitude, and Manila is in 14° 35'. The thermometer during July and August rarely goes below 79° or above 85°. The extreme ranges in a year are said to be 61° and 97°, and the annual mean 81°.

### AGRICULTURE.

Although agriculture is the chief occupation of the Filipinos, yet only one-ninth of the surface is under cultivation. The soil is very fertile, and even after deducting the mountainous areas it is probable that the area of cultivation can be very largely extended and that the islands can support population equal to that of Japan (42,000,000).

The chief products are hemp, rice, corn, sugar, tobacco, cocoanuts, and cacao, hemp being the most important commercial product and constituting two-thirds of the value of all exports. Coffee and cotton were formerly produced in large quantities—the former for export and the latter for home consumption; but the coffee plant has been almost exterminated by insects and the home-made cotton cloths have been driven out by the competition of those imported from England. The rice and corn are principally produced in Luzon and Mindoro and are consumed in the islands. The cacao is raised in the southern islands, the best quality of it at Mindanao. The sugar cane is raised in the Visayas. The hemp is produced in Southern Luzon, Mindoro, the Visayas, and Mindanao. It is nearly all exported in bales. Tobacco is raised in all the islands.

### IMPORTS AND EXPORTS.

In the year ending December 31, 1907, the exports of merchandise from the United States to the Philippines were \$8,657,956, and the total imports from the Philippines for the same period were \$11,510,438.

The imports of merchandise from foreign countries, year ending December 31, 1906, were \$25,114,852, and the exports were \$16,681,097. The principal foreign countries trading with the Philippines are Great Britain, French East Indies, China, and Spain.

### CIVIL GOVERNMENT FOR THE PHILIPPINES.

On July 1, 1902, Congress passed (chapter 1369) "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the Archipelago and the office of Military Governor with military rule was terminated. William H. Taft was appointed Governor by the President. Governor Taft was succeeded by Luke E. Wright in December, 1903, by Henry Clay Ide in 1905, and James F. Smith, the present Governor, in 1906. The government was composed of a civil governor and seven commissioners, of whom four were Americans and three Filipinos. There were four executive departments—Interior, Finance, and Justice, Commerce and Police, and Public Instruction. There are thirty-nine provinces, each with a governor, a supreme court with seven judges, and fourteen judicial districts. In March, 1907, the President, in accordance with the act of Congress, directed the Commission to call a general election of delegates to a Philippine Assembly. The new Assembly was chosen July 20, and was opened October 16 by Secretary of War Taft. It is politically divided as follows: Nacionalists, 31; Progresistas, 16; Independistas, 19; Inmediatistas, 7; Independistas, 4; Nacional Independiente, 1, Catolico, 1. The total vote recorded at the election for delegates was 97,803, which is only 1.4 per cent of the population.

### PORTO RICO.

The island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 13, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the Danish island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,200 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles.

The island is a parallelogram in general outline, 108 miles from the east to the west, and from 37 to 43 miles across, the area being about 3,600 square miles, or somewhat less than half that of the State of New Jersey (Delaware has 2,050 square miles and Connecticut 4,990 square miles). The

## INSULAR POSSESSIONS OF THE UNITED STATES—Continued.

population according to an enumeration made by the United States Government in 1900 showed a population of 553,243, of whom 589,426 are white and 363,817 are colored. The density was 26.4 to the square mile; 83.2 per cent. of the population cannot read.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees. The principal crops are sugar, coffee, tobacco, and maize, but oranges, bananas, rice, pineapples, and many other fruits are important products. The largest article of export from Porto Rico is sugar. The next largest is tobacco. The other exports in order of amount are coffee, fruits, molasses, cattle, timber, and hides.

The principal minerals found in Porto Rico are gold, carbonates, and sulphides of copper and magnetic oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island, but these resources are very undeveloped. There are salt works at Guanica and Salina on the south coast, and at Cape Rojo on the west, and these constitute the principal mineral industry in Porto Rico.

The principal cities are Mayaguez, with 15,187, Ponce, 27,932 inhabitants; and San Juan, the capital, with 32,048. The shipments of domestic merchandise from the United States to Porto Rico, year ending December 31, 1907, were \$25,320,465. The exports of domestic merchandise to the United States were \$20,552,612. The foreign trade, year ending December 31, 1907, was: Imports, \$3,580,887; exports, \$4,899,372.

An act providing for a civil government for Porto Rico was passed by the Fifty-sixth Congress and received the assent of the President April 12, 1900. A statement of its provisions was printed in *THE WORLD ALPHABETIC* for 1901, pages 92 and 93. President Roosevelt in his message to Congress in December, 1905, recommended the granting of United States citizenship to the Porto Ricans.

Under this act a civil government was established, which went into effect May 1, 1900. There are two legislative chambers, the Executive Council, or "Upper House," composed of the Government Secretary, Attorney-General, Treasurer, Auditor, Commissioner of the Interior, and Commissioner of Education, and five citizens appointed by the President, and the House of Delegates, or "Lower House," consisting of 35 members, elected by the people. The island is represented near the Congress of the United States by a Resident Commissioner.

**GUAM.**

The island of Guam, the largest of the Mariana or Ladrone Archipelago, was ceded by Spain to the United States by Article 2 of the Treaty of Peace, concluded at Paris December 10, 1898. It lies in a direct line from San Francisco to the southern part of the Philippines, and is 5,200 miles from San Francisco and 900 miles from Manila. It is about 32 miles long and 100 miles in circumference, and has a population of about 8,661, of whom 5,249 are in Agana, the capital. The inhabitants are mostly immigrants or descendants of immigrants from the Philippines, the original race of the Ladrone Islands being extinct. The prevailing language is Spanish. Nine-tenths of the islanders can read and write. The island is thickly wooded, well watered, and fertile, and possesses an excellent harbor. The productions are tropical fruits, cacao, rice, corn, tobacco, and sugar cane.

Commander Taussig, of the United States gunboat *Bennington*, took possession of the island and raised the United States flag over Fort Santa Cruz on February 1, 1899.

**TUTUILA.**

Tutuila, the Samoan island which, with its attendant islets of Tan, Olesinga, and Ofu, became a possession of the United States by virtue of the tri-partite treaty with Great Britain and Germany in 1899, covers, according to the Bureau of Statistics of the Treasury Department, fifty-four square miles, and has 5,800 inhabitants. It possesses the most valuable island harbor, Pago-Pago, in the South Pacific, and perhaps in the entire Pacific Ocean. Commercially the island is unimportant at present, but is extremely valuable in its relations to the commerce of any nation desiring to cultivate transpacific commerce.

Ex-Chief Justice Chambers, of Samoa, says of Pago-Pago that "The harbor could hold the entire naval force of the United States, and is so perfectly arranged that only two vessels can enter at the same time. The coaling station, being surrounded by high bluffs, cannot be reached by shells from outside." The Government is increasing the capacity to 10,000 tons.

The Samoan Islands, in the South Pacific, are fourteen in number, and lie in a direct line drawn from San Francisco to Auckland, New Zealand. They are 4,000 miles from San Francisco, 2,200 miles from Hawaii, 1,900 miles from Auckland, 2,000 miles from Sydney, and 4,200 miles from Manila. Germany governs all the group except the part owned by the United States. The inhabitants are native Polynesians and Christians of different denominations.

**WAKE AND OTHER ISLANDS.**

The United States flag was hoisted over Wake Island in January, 1899, by Commander Taussig, of the *Bennington*, while proceeding to Guam. It is a small island in the direct route from Hawaii to Hong Kong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific Ocean, some hardly more than rocks or coral reefs, over which the flag has been hoisted from time to time. They are of little present value and mostly uninhabited. The largest are Christmas, Gallego, Starbuck, Pearlyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morel, and Marcus islands. The Midway Islands are occupied by a colony of telegraphers in charge of the relay in the cable line connecting the Philippines with the United States and a camp of United States marines, in all about forty persons.

The Santa Barbara group is a part of California and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Bering Sea from the North Pacific, a part of Alaska.

**HAWAII.**

Hawaii was annexed to the United States by joint resolution of Congress July 7, 1898. A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900.

The area of the several islands of the Hawaiian group is as follows: Hawaii, 4,210 square miles; Maui, 760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai, 150; Niihau, 97; Kahoolawe, 63. Total, 6,740 square miles.

At the time of the discovery of the islands by Captain Cook in 1778 the native population was about 200,000. This has steadily decreased, so that at the last census the natives numbered but 31,019,

## INSULAR POSSESSIONS OF THE UNITED STATES—Continued.

which was less than that of the Japanese and Chinese immigrants settled in the islands. A census taken early in 1897 revealed a total population of 109,020, distributed according to race as follows:

	Males.	Females.	Total.		Males.	Females.	Total.
Hawaiians.....	16,399	14,620	31,019	Portuguese.....	8,202	6,898	15,100
Part Hawaiians.....	4,249	4,256	8,485	Americans.....	1,975	1,111	3,086
Japanese.....	19,212	5,195	24,407	British.....	1,406	844	2,250
Chinese.....	19,167	2,449	21,616				

The remainder were Germans, French, Norwegians, South Sea Islanders, and representatives of other nationalities. The American population was 2.73 per cent. of the whole. The American population has increased since annexation.

The first United States census of the islands was taken in 1900 with the following result: Hawaii Island, 46,843; Kauai Island, 20,562; Niihau Island, 172; Maui Island, 25,416; Molokai Island and Lanai Island, 2,504; Oahu Island, 58,504. Total of the Territory, 154,001. The population of the City of Honolulu is 39,306.

The exports from Hawaii to the United States in the twelve months ending December 31, 1907, were valued at \$29,054,581. The imports into Hawaii from the United States for the same period were valued at \$14,124,376. The imports from foreign countries for the same period were \$4,151,709, exports \$183,981.

The new Territorial Government was inaugurated at Honolulu June 14, 1900, and the first Territorial Legislature began its sessions at Honolulu February 20, 1901. The Legislature is composed of two houses—the Senate of fifteen members, holding office four years, and the House of Representatives of thirty members, holding office two years. The Legislature meets biennially, and sessions are limited to sixty days.

The Executive power is lodged in a Governor, a Secretary, both appointed by the President, and hold office four years, and the following officials appointed by the Governor, by and with the consent of the Senate of Hawaii, an Attorney-General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public Instruction, Auditor and Deputy, Surveyor, High Sheriff, and members of the Boards of Health, Public Instruction, Prison Inspectors, etc. They hold office for four years, and must be citizens of Hawaii.

The Judiciary of the Territory is composed of the Supreme Court, with three Judges, the Circuit Court, and such inferior courts as the Legislature may establish. The Judges are appointed by the President. The Territory is a Federal Judicial District, with a District Judge, District Attorney, and Marshal, all appointed by the President. The District Judge has all the powers of a Circuit Judge.

The Territory is represented in Congress by a delegate, who is elected biennially by the people. Provision is made in the act creating the Territory for the residence of Chinese in the Territory, and prohibition as laborers to enter the United States.

## Territorial Expansion of the United States.

THERE have been thirteen additions to the original territory of the Union, including Alaska, the Hawaiian, Philippine, and Samoan Islands and Guam, in the Pacific, and Porto Rico and Pine Islands, in the West Indies, and the Panama Canal zone; and the total area of the United States, including the noncontiguous territory, is now fully five times that of the original thirteen colonies.

The additions to the territory of the United States subsequent to the peace treaty with Great Britain of 1783 are shown by the following table, prepared by the United States General Land Office:

## ADDITIONS TO THE TERRITORY OF THE UNITED STATES FROM 1800 TO 1900.

TERRITORIAL DIVISION.	Year.	Area Added.	Purchase Price.	TERRITORIAL DIVISION.	Year.	Area Added.	Purchase Price.
		S. Miles.	Dollars.			S. Miles.	Dollars.
Louisiana purchase.....	1803	875,025	15,000,000	Porto Rico.....	1898	3,600	.....
Florida.....	1819	70,107	5,499,768	Pine Islands (W. Indies)	1898	882	.....
Texas.....	1845	369,795	.....	Guam.....	1898	175	.....
Oregon Territory.....	1846	288,689	.....	Philippine Islands.....	1899	143,000	20,000,000
Mexican cession.....	1848	523,802	*18,250,000	Samoa Islands.....	1899	73	.....
Purchase from Texas.....	1850	†	10,000,000	Additional Philippines...	1901	68	100,000
Gadsden purchase.....	1853	36,211	10,000,000	Total.....	..	2,937,613	87,039,768
Alaska.....	1867	589,446	7,200,000				
Hawaiian Islands.....	1897	6,740	.....				

\* Of which \$3,250,000 was in payment of claims of American citizens against Mexico. † Area purchased from Texas amounting to 123,784 square miles is not included in the column of area added, because it became a part of the area of the United States with the admission of Texas.

## ACQUISITION OF THE PANAMA CANAL ZONE IN 1904.

Article 2 of the treaty between the United States and the Republic of Panama, ratified by the United States Senate February 23, 1904, treaty in effect February 26, 1904, provided for the cession, in perpetuity, by Panama, of a strip of territory adjacent to the canal, as follows:

"The Republic of Panama grants to the United States in perpetuity the use, occupation, and control of the zone of land and land under water for the construction, maintenance, operation, sanitation, and protection of said canal of the width of ten miles, extending to the distance of five miles on each side of the centre line of the route of the canal to be constructed; the said zone beginning in the Caribbean Sea, three marine miles from mean low-water mark, and extending to and across the Isthmus of Panama into the Pacific Ocean to a distance of three marine miles from mean low-water mark, with the proviso that the cities of Panama and Colon and the harbors adjacent to said cities, which are included within the boundaries of the zone above described, shall not be included within this grant. The Republic of Panama further grants to the United States in perpetuity the use, occupation, and control of any other lands and waters outside of the zone above described which may be necessary and convenient for the construction, maintenance, operation, sanitation, and protection of the said canal or of any auxiliary canals or other work necessary and convenient for the construction, maintenance, operation, sanitation, and protection of the said enterprise. The Republic of Panama further grants to the United States in perpetuity the use, occupation, and control of all islands within the limits of the zone above described, and in addition thereto the group of small islands in the Bay of Panama named Perico, Nacs, Culebra, and Flamingo."

## The Panama Canal.

### A NARRATIVE OF THE STUPENDOUS ENTERPRISE.

While a majority of the readers of THE WORLD ALMANAC for 1908 will doubtless be living when the great ditch now being dug across the Isthmus of Panama will unite the waters of the Atlantic and Pacific oceans, the wisest sage cannot accurately predict all the results which will follow the completion of the stupendous enterprise. The commerce of the world will pay financial tribute as the fleets of all nations pass through the waterway to avoid the long voyage around Cape Horn, while to the United States, in times of peace or war, incalculable benefits will accrue from undisputed control of the marvellous ocean roadway which American genius and American money are pushing to completion. Great obstacles may yet be met, but that final success is assured there can no longer be any doubt. After vicissitudes and failures by others, Americans will reach an ultimate triumph in which all sections of the Union will share, and the Southern States especially will reach a greater greatness.

Since the promulgation of the Monroe Doctrine American sentiment has been generally insistent upon American control of an isthman canal, whether such a canal crossed Nicaragua or Panama, and for many years the relative merits of the two routes have been sagely discussed. International questions have been raised, and several generations have waited to see what is now being witnessed.

Under the Clayton-Bulwer treaty the United States and Great Britain might have combined to build and maintain a ship canal or railway across the isthmus through Nicaragua, guaranteeing neutrality and sharing expenses and profits. Nicaragua had made to the United States the so-called "Hise" grant, but Great Britain would not consent to withdraw her pretensions to the Mosquito Coast and permit this country and Nicaragua to build the canal. The project therefore failed, and later the civil war thrust canal propositions into the background. After that war, however, France asked the United States to guarantee the neutrality of the Panama Canal, which Ferdinand de Lesseps was then designing. This drew from President Hayes a special message to Congress on March 8, 1880, in which he said: "The United States cannot consent to the surrender of control (over an inter-oceanic canal) to any European power or to any combination of European powers. An inter-oceanic canal across the American isthmus will be a great ocean thoroughfare between our Atlantic and our Pacific shores and virtually a part of the coast line of the United States. No other great power would under similar circumstances fail to assert a rightful control over a work so closely and vitally affecting its interest and welfare." Seemingly, President Hayes construed the Clayton-Bulwer treaty as being non-effective except as to canal schemes considered when the treaty was signed, and a treaty was negotiated with Colombia permitting American control, but this agreement was not ratified by France.

Secretary of State Blaine, unawed by the protests of the British press, maintained, under President Garfield, the stand taken by President Hayes, and went further by proposing to modify the Clayton-Bulwer treaty so as to prevent England's sharing the control of the canal in event of war. He declared: "As England insists, by the right of her power, that her enemies in war shall strike her Indian possessions only by doubling the Cape of Good Hope, so the United States will equally insist that the canal shall be reserved for ourselves, while our enemies, if we shall ever be so unfortunate as to have any, shall be remanded to the voyage around Cape Horn." Lord Granville, in behalf of Great Britain, declined to modify the Clayton-Bulwer treaty because of the interests of England and of the civilized world in the canal, and threatened that, if the United States persisted in demanding supreme authority, Great Britain and other nations would construct fortifications to command the canal and its approaches.

President Arthur's Secretary of State, Mr. Frelinghuysen, held that the Clayton-Bulwer treaty was voidable, and also that it applied only to the Nicaragua route. Mr. Frelinghuysen argued that a canal across the isthmus, under an international guarantee of neutrality, "would affect the republic in its trade and commerce, expose our Western coast to attack, destroy our isolation, oblige us to increase our navy and improve our defences, and possibly compel us, contrary to our traditions, to take an active interest in the affairs of European nations."

In the meantime, and until 1888, M. de Lesseps pushed the digging of the Panama Canal, the French people willingly supplying money for the enterprise until the historic crash came. Then the stockholders, the majority of whom were of the middle class, learned how their investments had been squandered, through mismanagement and corruption, and how long they had been deceived by the directors. France, especially Paris, was crazed by the revelations. M. de Lesseps and many of his associates suffered imprisonment and fine, and among those arrested for alleged complicity were more than 100 members of the French Legislature and five former Ministers of the Government.

### THE RECOGNITION OF PANAMA.

On January 22, 1903, the treaty between the United States and Colombia for the construction of the Panama Canal by the United States was signed at Washington, and on March 23 this treaty was ratified by the United States Senate by a vote of 73 to 12, five Senators not voting. The Colombian Senate rejected this treaty on September 14, and approved, on first reading, a bill authorizing the Government to negotiate a new treaty. Panama declared its independence on November 3. On November 5 the Colombian troops evacuated Colon and sailed for Cartagena. The following day the United States recognized the independence of Panama, against which action Colombia lodged a protest with the State Department at Washington on November 8. M. Bunau-Varilla, Envoy Extraordinary and Minister Plenipotentiary of the Republic of Panama, was formally received by President Roosevelt November 13. Two days later the Panama Commissioners arrived at New York, and on November 18 a canal treaty between the United States and Panama was

signed at Washington by Secretary of State Hay and Minister Bunau-Varilla. Under this treaty the canal is now being constructed.

The preamble of this treaty cites a desire on the part of the United States to further the observance of the act of Congress, approved June 28, 1902, whereby the United States was authorized to purchase from the new Panama Canal Company for \$40,000,000 all the rights and property of said company; to buy the right or way from Colombia; to construct a canal across the Isthmus of Panama through Colombia; to choose the Nicaragua route if deemed more advisable; to expend \$180,000,000 for construction, if the Panama route be chosen, or \$180,000,000 should the Nicaragua route be adopted; to create an Isthmian Canal Commission, to be appointed by the President, and consisting of seven members, to have executive control of the canal construction affairs; and to issue United States Government bonds, payable in thirty years and bearing 2 per cent. interest, to defray construction expenses.

The treaty of November 18, 1903, with Panama provides, in twenty-five articles, for details as to canal ownership and management, the principal agreements being: That the United States guarantees and will maintain the independence of the Republic of Panama; that the said Republic grants to the United States in perpetuity a strip of land ten miles in width across the isthmus, being five miles on either side of the centre of the line of the canal, and of all lands and waters outside of said canal zone which may be necessary to the construction and maintenance of the canal. The small islands named Perico, Nacs, Culebra and Flamingo, in the Bay of Panama, are also ceded to the United States; the Republic of Panama grants to the United States in perpetuity a monopoly for the construction, maintenance and operation of any system of communication by means of canal or railroad across the Republic's territory between the Caribbean and the Pacific Ocean; Panama grants to the United States for a period of fifty years all rights to the construction of sewage and water-works systems, with accruing rentals, submits to sanitary control of the cities of Panama and Colon by the United States, and, in case of necessity, extends the right of such sanitary control to the entire Republic of Panama; the Republic of Panama authorizes the New Panama Canal Company to sell all its rights and property to the United States; the ports at either entrance of the canal are to be declared free for all time by the Republic of Panama; the United States may import at any time, free of customs duty or other charges, into said zone all things necessary for the canal construction; the two governments are to hereafter make adequate provision for the pursuit, arrest, detention and, when necessary, extradition of alleged criminals in the canal zone; the Republic grants to the United States the free use of all the Republic ports open to commerce for all vessels in distress having the right to pass through the canal, and the Republic is to enjoy free transportation over the canal of its vessels, troops and munitions of war at all times, also free transportation of the Government employees and police of the Republic; the canal, when constructed, and the entrance thereto, shall be neutral in perpetuity; the Republic of Panama agrees to modify all preceding treaties with any third Power so that no conflict may exist with the present convention; the United States is given the right to employ its armed forces or to build fortifications for the safety or protection of the canal or of the ships that make use of the same; the United States agrees to pay to the Republic of Panama the sum of \$10,000,000 in gold and an annual payment of \$250,000 during the life of the convention, beginning nine years from the date thereof. No change in the government or laws of the Republic, affecting the rights of the United States, shall be made by the Republic without the consent of the United States, and in the event of the sovereignty of the Republic of Panama being changed or merged with that of another government, the rights of the United States in the canal zone are to be respected and in no way waived; all differences between the Republic and the United States concerning canal matters are to be settled by arbitration by a commission of four members, two from each government, with reference to an umpire selected by said governments in case of the disagreement of the commission, said umpire's decision to be final.

On November 19, 1903, the Colombian envoys arrived at Colon to negotiate the return of Panama to Colombia, and were refused. On November 27 the United States Minister at Bogota formally notified the Colombian Foreign Minister of the recognition by the United States of the Republic of Panama and the reception of Panama's Minister. On December 2 the canal treaty with the United States was ratified by the Government of Panama, without amendment. Gen. Rafael Reyes, special envoy from Colombia, was received by President Roosevelt on December 5. Marines from the cruiser *Dixie* were landed at Colon and occupied a position at Empire, on the Panama Railroad, on December 8. Senator Morgan, on December 9, attacked the canal treaty in the Senate, and Senator Hoar introduced resolutions seeking information of the action of the Government. Elections were ordered, December 13, to take place on January 15, 1904, for delegates to a convention to form a constitution for the Republic of Panama, and thus was closed the momentous year in which American control of the great ditch was at last assured.

Despite the opposition of some Senators, only fourteen of them voted against the ratification of the treaty on February 23, 1904, and on February 26 it went into effect, with the exchange of ratifications between the representatives of the two countries and the proclamation of President Roosevelt. On April 28, 1904, Congress passed an act to provide for the temporary government of the canal zone. President Roosevelt then appointed the following members of the Isthmian Canal Commission, to take charge of the construction of the canal and the government of the canal zone: Rear-Admiral John G. Walker, U. S. N. (retired), Chairman; Maj.-Gen. George W. Davis, U. S. A. (retired); William Barclay Parsons, New York; William H. Burr, New York; Benjamin M. Harrod, Louisiana; Carl Ewald Crunsky, California; Frank J. Hecker, Michigan. John F. Wallace, general manager of the Illinois Railroad system, was appointed Chief Engineer.

In the meantime Manuel Amador had been inaugurated, February 20, as President of the Republic of Panama and formed his Cabinet, and Senor Pablo Arosemana was appointed Minister to the United States, succeeding Senor Bunau-Varilla, resigned. William I. Buchanan, of Iowa, was the first United States Minister to Panama. He was succeeded by

William W. Russell, who was transferred to Colombia in March, 1904, and John Barrett took Mr. Russell's place.

At Paris, France, on April 22, 1904, the Panama Canal Company transferred its rights to the United States. President Bo and Director Richmond acted for the company, Assistant-United States Attorneys-General Charles W. Russell and W. A. Day for the United States, and Consuls-General John K. Gowdy and Robert Lewis for the United States and Panama, respectively, the two consular representatives joining in affixing the seals and attesting the signatures to the instrument of transference. On May 9, by warrant of the Secretary of the Treasury, on behalf of the United States, the Panama Canal Company was paid the stipulated \$40,000,000, and \$10,000,000 was paid by the United States to the Republic of Panama.

#### CANAL ZONE GOVERNMENT.

President Roosevelt having decided that until Congress enacted laws for a permanent government of the Canal Zone, the Panama Commission should report through the War Department; Gen. George W. Davis, of the Commission, was appointed Governor of the Zone. On May 19, 1904, General Davis issued a proclamation to the inhabitants of the Canal Zone announcing his authority and the purposes of his administration. He subsequently rapidly perfected the machinery of government along American lines and in full conformity with established American ideas.

After continuing in office for nearly a year, the first Panama Commission resigned, on April 3, 1905. The President, on the same day, appointed a new commission, composed of seven persons, as follows: Theodore P. Shonts, Chairman; Charles E. Magoon; John F. Wallace, Chief Engineer; Rear-Admiral M. T. Endicott, U. S. N., Brig.-Gen. Peter C. Hains, U. S. A. (retired); Col. Oswald H. Ernst, Corps of Engineers, U. S. A., Benjamin M. Harrod. The salary of the four last named was fixed at \$7,500 per annum, that of Mr. Wallace at \$25,000, of Mr. Magoon at \$17,500, and of Chairman Shonts at \$30,000. Joseph Bucklin Bishop was later made a Commissioner and Secretary to the Commission at \$10,000 per annum. Commissioners Shonts, Magoon and Wallace were ordered to reside in Panama, as an Executive Committee, each assuming charge of specified departments. General Magoon was given the title and duties of Governor in July, Commissioner Shonts was assigned to charge of fiscal affairs, and to Mr. Wallace was allotted responsibility for engineering matters. There was also appointed a Board of Consulting Engineers, consisting of the following persons: Gen. George W. Davis, Chairman; William Barclay Parsons, W. H. Burr, Gen. Henry D. Abbott, Eugene Tinceazer, German; Edward M. Quellenec, of the Suez Canal Staff; Isham Randolph, F. P. Stearns, Joseph Ripley, W. H. Hunter, Manchester Canal, England; Adolph Geurard, French; J. W. Welker, Dutch. The representatives of Germany, England, France and the Netherlands on this advisory board were nominated by their respective governments on the invitation of President Roosevelt. The duties of the new Commission, and instructions as to administrative work on the canal, were defined in detail by President Roosevelt, simultaneously with the appointing of the Commission.

The Board of Consulting Engineers, after protracted sittings in Washington, divided in vote, November 17, on the plan of canal to be recommended to the President. Eight members, including all the foreign representatives, favored a sea-level canal, and five members—Abbott, Ripley, Noble, Randolph and Stevens—voted for a lock canal. President Roosevelt, after receiving and considering this report, declared himself in favor of the lock plan, and said he would veto the Sundry Civil Appropriation bill if it carried a rider providing for a sea-level canal. The United States Senate, therefore, on June 28, 1906, amended the bill providing for a sea-level canal by a vote of 35 to 31 in favor of a lock canal. The House of Representatives had already, by a vote of 110 to 36, on June 15, declared in favor of a lock canal. The engineers in charge of the work estimate that it will cost \$140,000,000 to construct a lock canal, and that eight years' labor will complete the work. A sea-level canal, the same engineers say, would cost \$272,000,000, and would require twelve to twenty years' time to complete.

#### THE DIMENSIONS OF THE WORK.

The total length of the canal will approximate forty-six miles. The depth will vary from thirty to forty-five feet, and the surface width will be from 200 feet in Culebra cut to 1,000 feet from the Gatun Locks to San Pablo, a distance of fifteen miles and a half. The summit level will be about eighty-five feet above the sea, and will be reached by a flight of locks at Gatun, on the Atlantic side, one lock at Pedro Miguel and two at La Boca, on the Pacific side, all locks being alike. A huge dam near the Gatun hills will catch the overflow of the Chagres River floods. This reservoir will have an area of 110 square miles and will be located 135 feet above sea level. It will be 7,700 feet long and 2,625 wide at the bottom. The heaviest portion of the canal work is from La Cascades to near Paraiso, known as the Culebra cut section, a distance of 4.7 miles.

After many difficulties in securing a sufficient force of unskilled laborers, a trial of West Indian negroes proved unsatisfactory. President Roosevelt, at the solicitation of Chairman Shonts, agreed to the employment of Chinese coolie labor, and the Commission, in response to a call for bids, dated August 20, 1906, received proposals offering to furnish such labor from 9 to 13 cents per hour, for a ten hours' day. The contracts are for 15,000 Chinese for two years, with privilege of renewal. All Chinese must come from districts in Southern China and be between twenty-one and forty-two years of age. Congress has passed an act waiving the Eight-Hour law on all work on the Canal Zone, except as to American labor. After many consultations with the President, the Commission decided to build the canal by contract, as the quickest and most economical method, contractors being allowed to bid on as many sections or sub-divisions as such contractors might desire. Secretary of the Treasury Shaw, on July 2, 1906, announced that \$30,000,000 of the

2 per cent. canal bonds would be sold. The issue was over-subscribed nearly fifteen times, and the Government received a premium of \$1,200,000 because of the high prices offered. The exceeding of authorized expenditures by the Canal Commission during the fiscal year ending June 30, 1906, led to criticism and to an attempt at investigation by the Senate Committee on Inter-oceanic Canals. President Roosevelt, in a special message to Congress, transmitting the Commission's report, vigorously defended the Commission, declaring: "I repeat that the work on the isthmus has been done, and is being done, admirably. The organization is good. The mistakes are extraordinarily few, and these few have been practically of no consequence. The zeal, intelligence and efficient service of the Isthmian Commission and its subordinates have been noteworthy. I court the fullest, most exhaustive and most searching investigation of any act of theirs, and if any one of them is ever shown to have done wrong his punishment shall be exemplary. But I ask that they be decently paid, and that their hands be upheld as long as they act decently. On any other conditions we shall not be able to get men of the right type to do the work, and this means that on any other conditions we shall insure, if not failure, at least delay, scandal and inefficiency in the task of digging the giant canal."

The President spent four days on the isthmus in November, 1906, going over the entire route of the canal. On his return he expressed himself as satisfied with conditions, and on December 17 he sent to Congress a specially illustrated message detailing his views on the canal situation.

#### PROGRESS OF WORK IN 1907.

President Roosevelt, on April 1, 1907, placed the work of constructing the Panama Canal in charge of the engineer officers of the army, appointing Lieut.-Col. George W. Goethals Chairman of the Isthmian Canal Commission and Chief Engineer. There was no specific authority for this action, but it was done under the law providing for the construction of the canal, which authorized him to have the work performed. He will recommend to Congress that the Chief of Engineers of the United States Army be placed in control of this work.

Theodore P. Shonts, the Chairman of the Canal Commission, resigned January 23 to become President of the Interborough-Metropolitan Company of New York. John P. Stevens, Chief Engineer of the Commission, was then appointed Chairman of the Commission and Chief Engineer. He went to Panama to complete the canal, and die with his boots on if necessary.

But Mr. Stevens soon became tired of his position, and after a serious disagreement with President Roosevelt regarding affairs on the isthmus, resigned March 4.

Lieut.-Col. George W. Goethals, one of the most experienced officers of the Army Engineer Corps, was appointed a member of the Commission, and on April 1 became Chairman and Chief Engineer. Major D. D. Gaillard and Major William L. Sibert, of the Engineer Corps of the Army, were also made members of the Commission. These appointments were made because the President could not secure a civilian who would stick to the job. All of them retired after completing their organization of the Commission, the working force and their plans. These constant changes retarded the work, and finally the President appointed Lieutenant-Colonel Goethals as Chairman of the Commission and assigned two other army engineers as members of the Commission. This was done to prevent further changes in the policy of conducting the work and to have army engineers on hand familiar with the work, so that one of them could step into the position of Chairman in the event of his retirement.

Shortly after the appointment of Lieutenant-Colonel Goethals all the members of the Commission were transferred to the isthmus, including Joseph Bucklin Bishop, the Secretary, and all the principal work is now conducted at Panama. Lieut.-Col. H. F. Hodges, Corps of Engineers, U. S. Army, was placed in charge of the administrative features of the Canal Commission offices with the titles of General Purchasing Officer and Chief of Office. He purchases all supplies and machinery for the canal, advertising for bids.

The Canal Commission consists of the following persons:  
Lieut.-Col. George W. Goethals, salary \$15,000, Chairman and Chief Engineer; Major D. D. Gaillard, U. S. A., salary \$14,000; Major William L. Sibert, U. S. A., salary \$14,000; H. H. Rosseau, Civil Engineer, U. S. A., salary \$14,000; Hon. Joseph C. S. Blackburn, of Kentucky, salary \$14,000; Col. W. C. Gorgas, U. S. A., salary \$14,000; Jackson Smith, salary \$14,000; Joseph Bucklin Bishop, Secretary, salary \$10,000. Each member of the Commission is provided with a furnished house and is allowed all expenses while in the United States on official business.

Lieutenant-Colonel Goethals is in charge of Construction and Engineering; Major D. D. Gaillard has charge of the Department of Excavation and Dredging; Major William L. Sibert, Department of Locks and Dam Construction; H. H. Rosseau, in charge of Department of Municipal Engineering, Motive Power and Machinery, and Building Construction; Hon. Joseph C. S. Blackburn, in charge of Civil Administration; Col. W. C. Gorgas, Chief of the Department of Sanitation, and Jackson Smith, in charge of Department of Labor, Quarters and Subsistence.

February 7.—William J. Oliver, of Knoxville, Tenn., and Anson G. Bangs, of New York, under the name of Oliver & Bangs, submitted a bid to construct the canal by contract. Their bid was 6.75 per cent. of the actual cost of construction, and the McArthur-Gillespie Company, of New York, submitted a bid at 12½ per cent. These were the only two bids that were considered. An investigation was made by President Roosevelt, the Secretary of War and the Canal Commission into the reliability of the contractors. It was found that Mr. Bangs had transacted business with Gaynor & Greene, who were indicted in connection with Capt. Oberlin M. Carter for the frauds at Savannah, Ga., where the Government was constructing a breakwater. Mr. Oliver was informed that he must get another partner, and Frederick C. Stevens, Superintendent of Public Works of New York, then associated himself with Mr. Oliver. Their bid was considered, and finally Mr. Oliver was notified that he must organize a corporation with a capital of \$5,000,000. He did so, and associated with him were John B. McDonald, of New York, who constructed the Subway; John Pierce, of New York, who constructed a large number of buildings for the Government; P. T. Brennan, of the Brennan Construction Company, of Washington, D. C.; John H. Gerrish, of the Eastern Dredge Company, of Boston, and the P. J. Walsh Construction Company, of Davenport, Iowa.

After considering these bids, they were rejected, as the Government decided to continue

the work of construction. It was also decided that Chinese coolie labor would not be employed on the canal.

In March Secretary Taft visited the isthmus, reaching Colon March 30, to make an annual inspection of the work. He also investigated the question of the basis for the locks of the Gatun Dam. There was doubt as to whether the foundation was strong enough, but it was decided that the locks could be constructed with safety. Another question which he decided was the threatened strike of the steam shovel operators. Later in the Spring the members of the Appropriations Committee of the House of Representatives went to the isthmus to investigate conditions and to decide how much money would be needed to carry on the work.

October 30 this same party went to the isthmus to make a similar inspection. The question of widening the locks, from 100 to 110 feet, was taken up. It is feared by the engineers of the canal that owing to the increase in the breadth of the beam of battleships and of large steamers of the Lusitania class the locks would not be of sufficient width. Civil Engineer Rosseau took up the question with the Secretary of the Navy, Acting Secretary of War Oliver, and the original reports of the engineers who planned the canal was examined. All these documents were transmitted to the isthmus to be considered by the Canal Commissioners and the members of the Congressional party which visited Panama in October. This question has not yet been decided.

The following is the number of cubic yards of material excavated for the ten months for which the reports are available to time of going to press:

YEAR AND MONTH.	Culebra Division by steam shovels from Canal prism.	At other points by steam shovels from prism.	By steam shovels outside prism.	Dredging in Canal prism.	Dredging outside prism.	Total.
1907.						
January .....	566,750	47,539	....	....	205,810	820,099
February .....	639,112	70,177	....	....	203,482	912,771

December .....	....	....	....	....	....	....
Grand totals.....	11,213,942	1,070,803	83,963	1,981,944	4,348,428	18,600,080

Thirty-two 95-ton, twenty-eight 70-ton and three 45-ton steam shovels, or a total of sixty-three steam shovels, are now in commission; seven 70-ton shovels have recently been delivered and will soon be in use; and, in addition, twelve 95-ton, seven 70-ton and eight 45-ton shovels will be delivered in the near future.

FORCE EMPLOYED.

In the month of September, 1907, there were slightly over 41,000 employees on the isthmus on the rolls of the Commission and the Panama Railroad, approximately 4,200 of whom were Americans. There were actually at work on September 30, 29,845 men—23,607 men for the Commission and 6,238 for the Panama Railroad.

EXPENDITURES.

The following is a statement of the audited expenditures up to June 30, 1907:  
 Audited expenditures to June 30, 1907..... \$100,489,816.11  
 Divided as follows:

For canal property, rights of way and franchises.....	\$50,000,000.00
For Panama Railroad stock owned.....	157,118.24
For material and supplies, including cost of purchase, handling and transportation thereof, and exclusive of material issued and charged against the account representing the work in which employed.....	3,649,655.13
Expenditures for salaries, wages, travelling and contingent expenses, and materials used—	
For general administration.....	1,403,557.68
For government and sanitation.....	5,791,457.03
For construction and engineering.....	15,594,834.17
For plant—including rolling stock, excavating machinery, shop machinery and tools, second main track on isthmus, buildings, Zone waterworks and sewers, etc	18,484,300.74
Loans to Panama Railroad Company .....	1,631,257.34
Advances to Panama Railroad Company.....	1,826,683.50
Individuals and companies—Representing expenditures for supplies and service furnished the Panama Railroad Company and other interests engaged in allied work, and for which collections have or will be made, and the proceeds thereof deposited in the Treasury of the United States as Miscellaneous Receipts .....	1,950,952.28

\$100,489,816.11

Pay rolls on isthmus for June, 1907..... 1,290,811.52  
 Pay rolls for Washington Office for June, 1907..... 12,578.96

Approximately \$40,000,000 will be expended during the year 1908 in the work of construction.

**The Hague Conference of 1907.**

The second International Peace Congress convened at The Hague on June 15, 1907. It consisted of 230 delegates, representing forty-six Powers. The speech of welcome was delivered by Dr. Van Tets Van Goudriaan, Foreign Minister of the Netherlands. M. Nelidoff, head of the Russian delegation, was chosen President of the Congress. Many of the most distinguished statesmen of the civilized world occupied seats as delegates. Among the American delegation were Joseph H. Choate, Gen. Horace Porter, former Ambassador to France; David James Hill, of the State Department; Rear Admiral Charles S. Sperry, Brig.-Gen. George B. Davis, William I. Buchanan, James Brown Scott, U. M. Rose, Congressman Richard M. Bartholdt. The Congress had been proposed by President Roosevelt, and was convened by Queen Wilhelmina upon the formal invitation of the Czar of Russia.

The work of the Congress was divided into four divisions, as follows:

1. Arbitration—President, M. Bourgeois, France; Honorary Presidents, Merey Von Kapos-Mere, Austria; Sir Edward Fry, England; Ruy Barbosa, Brazil; Vice-Presidents, Dr. Kriege, Germany; Signor Pompili, Italy; Senor Esteva, Mexico.

2. Land War—Presidents, M. Beernaert, Belgium, and M. Asser, Netherlands; Honorary Presidents, Baron Marschall von Bieberstein, Germany, Gen. Horace Porter, United States; the Marquis de Soveral, Portugal; Vice-Presidents, Constantin Brun, Denmark; Dr. Beldiman, Roumania; Dr. Carlin, Switzerland.

3. Maritime War—President, Count Tornielli, Italy; Honorary Presidents, Joseph H. Choate, United States; Tseng-Liang, China; Turkhan Bey, Turkey; Vice-Presidents, Herr Hammarskjöld, Sweden; Dr. Drago, Argentina; Baron d'Estournelles de Constant, France.

4. Geneva Convention—President, Prof. de Martens, Russia, Honorary Presidents, Senor Don de Villay, Urrutia, Spain; M. Kurachi, Japan; Vice-Presidents, Sir Ernest Satow, England; Prof. Lammach, Austria; Dr. Hagerup, Norway.

The sessions of the Congress, which were held in the Hall of Knights, finally concluded on October 18, after a long series of sessions, full of complicated discussions, at which much diplomacy was required to harmonize the interests of the nations represented.

**PROPOSED PERMANENT COURT OF ARBITRATION.**

The one great principle for whose permanent establishment the American delegates fought from first to last was obligatory arbitration and a Permanent Court of Arbitral Justice. The idea was to have an international court, easily accessible and free of charge, with judges representing the various systems of laws of the world, and capable of insuring a continuation of arbitration by jurisprudence. The judges were to be selected, so far as possible, from the members of the Permanent Court of Arbitration. They were to serve twelve years and were to enjoy diplomatic privileges and immunities while exercising their functions. There were to be seventeen of the judges, nine to form a quorum. The president of the court was to be elected every three years. The tribunal was to sit at The Hague and was to meet once or twice yearly, in July and January. Each party to a dispute was to have its own judge to participate in the trial of cases submitted to the court.

It became evident, soon after the discussion began, that, while a large majority of the delegates to the Congress favored some fixed system of permanent arbitration, the opinion of the conference was not ripe for a settlement of the problem. As early as August, M. Nelidoff suggested that the whole subject be postponed until the next Peace Congress, recommending that the Powers in the meantime study the question from the standpoint of universal interest. Germany led the opposition to obligatory arbitration in its final form of advocacy by America and Great Britain on the basis of the Portuguese list of disputes regarding which it was proposed to submit in all cases, and unreservedly, to arbitration. Austria supported Germany, and Italy, though disposed to favor the American idea, was forced to join her allies against it.

It was Count Tornielli, of Italy, who suggested the final formula of a declaration which caused the postponement till the next Congress of definite action on the question. The South American States, headed by Brazil, prevented the acceptance of the plan for a new and permanently effective Court of Arbitral Justice. M. Ruy de Barbosa led the opposition. He took the position that in such a court all States, big or little, were entitled to an equal quota of judges. He and his South American colleagues therefore opposed, with final success, the proposed method for the selection and distribution of judges, which would have relegated these States and others to a second or third-rate position by only permitting them to elect judges in a certain rotation of years.

**AN INTERNATIONAL PRIZE COURT.**

But if the United States was unsuccessful in bringing about obligatory arbitration and a permanent Court of Arbitral Justice, it was at least partly recompensed by inducing the Congress to adopt another American idea—an International Prize Court. This achievement is generally regarded abroad as the most important piece of potentially constructive international legislation produced by the Congress. As now constituted, this is a far more solid and tangible body than the Permanent Court of Arbitration, which was the work of the Conference of 1899. That court was, as M. de Martens, the distinguished Holland delegate put it, "a mere list of available judges."

The Prize Court plan, as finally adopted by the Conference and embodied in a "convention," provides for a working bench of fifteen judges, determines the method of their election by the forty-six Powers represented at the Conference, and lays down the conditions under which an appeal may be made to the Court in case of war. It is said in regard to the "convention" that it has not yet been signed by any of the Great Powers, and as to Great Britain, some doubt is expressed if she will sign until the Powers shall have reached an agreement on a code of laws of maritime warfare for the Prize Court to apply. The

THE HAGUE CONFERENCE OF 1907—*Continued.*

"convention" comes before the present session of the United States Congress, and will be submitted to the German, Austro-Hungarian and French Parliaments.

## THIRTEEN "CONVENTIONS" APPROVED.

The completed results of the sittings of the Peace Congress were embodied in thirteen "conventions," as follows:

1. The peaceful regulation of international conflicts.
2. Providing for an International Prize Court.
3. Regulating the rights and duties of neutrals on land.
4. Regulating the rights and duties of neutrals at sea.
5. Covering the laying of submarine mines.
6. The bombardment of towns from the sea.
7. The matter of the collection of contractual debts.
8. The transformation of merchantmen into warships.
9. The treatment of captured crews.
10. The inviolability of fishing boats.
11. The inviolability of the postal service.
12. The application of the Geneva Convention and the Red Cross to sea warfare, and
13. The laws and customs regulating land warfare.

The right to sign these "conventions" will be open until June 30, 1908.

Great Britain has, for the present, refused to accept the decisions of the Third Committee on the rights and duties of neutrals in maritime warfare.

The decisions of the Fourth Committee have left open the question of the conversion of merchantmen into warships on the high seas by belligerents. Germany has reserved her rights in regard to the convention on "days of grace" and the circumstances in which merchantmen may be seized on the outbreak of war. The special convention on "Certain Restrictions upon the Exercise of the Right of Capture in Maritime War" is limited to the inviolability of postal correspondence, the exemption of fishing boats, under certain conditions, from capture, and the treatment of captured crews of merchantmen, neutral or hostile.

The following joint propositions of America, Russia, Italy, Spain and Holland were embodied in conventions:

1. The commander of a fleet must spare historical monuments, churches, and buildings used for artistic, scientific, or benevolent purposes, and hospitals, on the condition that they are not used for military purposes, and are designated by special signs, which must be displayed by the inhabitants.
2. Before beginning the bombardment of a town the commander of a fleet must do all in his power to inform the authorities of the town of his intention.
3. Pillage is forbidden, even in a town or locality taken by assault.
4. The bombardment of undefended ports, towns, villages, or buildings is forbidden, but any military work existing in otherwise undefended places can be bombarded if the local authorities refuse to destroy it.
5. Undefended places can be bombarded if they refuse to furnish a fleet with necessary provisions.
6. The bombardment of a town or village for refusal to pay a ransom is prohibited.

## THE DRAGO DOCTRINE.

The Drago doctrine, formulated by Dr. Drago, of the Argentine Republic, as to the collection of public debts by force was presented to the Congress by its author in the shape of a provision that "In the collection of public debts the debts must be claimed in the ordinary courts of the debtor country." As finally framed in a Convention, through the initiative and efforts of Gen. Horace Porter, of the American delegation, the great principle has at last been definitely established that public debts must not be collected by force, except as a last resort. Speaking of the accomplishment, General Porter said:

"We were confronted by two great difficulties. One was the desire of creditor nations to employ force; the other was the reluctance of debtor nations to recognize the right of using force for this purpose under any circumstances. My proposition was a compromise. It absolutely forbade the employment of force for this purpose until after arbitration should have been refused or after an arbitral award had been set at naught.

"After patient discussion I had the supreme satisfaction of seeing my proposition accepted unanimously. This is a result of which America may well be proud."

## GENERAL RESULTS.

The general results of the Congress, with the notable part taken by America in bringing them about, are thus summarized for THE WORLD by Gen. Porter:

"Its great achievement has been to push forward in every department of international life American principles. It has affirmed in many directions the rights of neutrals against those of belligerents. It has placed restrictions upon the use of floating mines, which have been a menace to the commerce of the whole world, without impairing the right of nations at war to use anchored mines for self-defence. It has peremptorily forbidden the bombardment of undefended seacoast towns and villages. It has prohibited the levying of contributions by threat of bombardment. It has done much to strengthen security against the atrocities which often occur in war. It has shielded the non-combatant. It has strengthened the provisions for the relief of the wounded. It has taken strict precautions against a revival of privateering in naval war by insisting that when merchant vessels are converted into cruisers they shall be formally enrolled on the naval list and placed in command of a duly commissioned naval officer, with a crew subject to naval discipline. Such questions as contraband of war and blockade, though no agreement was reached, and on every important question which came before us we have made a great and truly marvellous advance toward an agreement on more civilized lines. So great, indeed, has been the growth of international sentiment that it is probable that at the conference of the leading naval Powers which England intends to summon in 1908 we shall find ourselves able to settle some questions which have been a source of difference for a hundred years. It was America that proposed the Permanent Court of Arbitral Justice—not a mere court of arbitration, but a judicial court composed of the ablest jurists of all nations, representing all systems of law and all languages. This project, although it was described as a joint Anglo-American-German proposal, was substantially American.

### Cuban Occupation in 1907.

The military occupation of Cuba by the United States, which began in 1906, has continued without interruption during 1907. A military government with a civil head was maintained. Gov. Charles E. Magoon, appointed October 13, 1906, is the administrative head, and the list of assistants named upon his accession to this position is unchanged.

The restoration of conditions to such a state as will permit the withdrawal of American troops and the resumption of control by an independent Cuban Government is slowly progressing. It is already self-evident that American occupation will continue for at least another year. This is said to meet the warm approval of business and financial interests.

The most important work of the year was the taking of a census in Cuba, on which will be based future municipal, State and national elections looking to the final re-organization of a home government. The enumeration began October 1 and was concluded November 14. The tabulation of the returns and compilation of results will consume several months and no election under this census will be held till a time this year yet to be designated.

Another important step was the appointment by Governor Magoon of an Advisory Commission to arrange plans for reforming the judicial systems of the Island and suggesting changes in municipal and provisional governments. This Commission has formulated a satisfactory plan of national sanitation by which all the work of health preservation and cleanliness will be taken from the local bodies and centred under Federal jurisdiction. This is considered an advanced step in the direction of guaranteeing future immunity from yellow fever and other epidemics.

#### AMERICAN TROOPS IN CUBA.

About 6,000 American troops remain in Cuba. This force is composed of the same detachments sent there at the outbreak of disturbances in 1906. It was not found necessary during 1907 to call out any portion of this force to quell disturbances or outbreaks. The Rural Guards were able to control all disorders, which have chiefly arisen through cattle-stealing and similar breaches of the peace.

Two strikes of considerable magnitude occurred in Cuba during the year. The cigar-makers struck for payment in American money, and their demands were granted. Railroad employees struck for wages in American money and an eight-hour day. The employers were willing to grant payment in American money, but said an eight-hour day would cause complications with connecting lines. This matter is pending adjustment.

All legislation in Cuba during the year was effected by decree of the Governor. No legislative body was sitting, although the Senate retains its vitality, but agreed not to resume its sessions during American occupation.

It is expected that all the expenses of American occupation will be paid from the Cuban revenues, but this is a matter resting largely in the discretion of President Roosevelt. Congress in 1907 placed a clause in the Army Appropriation bill authorizing the President to reimburse this Government for all the expenses of Cuban occupation, provided the Island revenues are adequate for the purpose after paying Governmental outlays at home. Up to this time no reimbursement has been made. All surplus revenues have been utilized in building roads, public hospitals and other improvements. If this continues until the troops are withdrawn and an independent home government is re-established there will be no reimbursement. The expense of American occupation exceeded \$1,000,000 for 1907, although the expenditures are much less than in the previous year. There were no transportations of troops, building of new quarters or repairs. The pay departments of the Army, Navy and Marine Corps expended about \$30,000 a month extra on account of the men being on foreign service.

#### THE PURPOSE OF AMERICAN OCCUPATION.

The purpose of the American occupation and the progress being made were thus summed up by Secretary of War Taft and Assistant Secretary of State Bacon in reporting on their mission as Special Commissioners to Cuba:

"We went to Cuba for the purpose of securing peace. When we went we knew the Island was divided between two hostile and armed forces, and we desired to avoid a conflict between them for the reason that it would cause loss of life to the Cubans and a great destruction of property, a large part of which belonged to American citizens, and it would necessarily require the intervention of American troops and the expenditure of American lives and treasure. If the insurrectionary habit persists, if again the Cubans divide into armed forces, the strong hand of our Government will have to be imposed at whatever cost to life and property, and permanent peace should then ensue, because it would be of our own keeping.

"We hope, however, that no such drastic remedy will be needed and that the lesson taught in this recent experience of the evil of unjust methods in elections will not be without its warning to future governments in Cuba. With the passage of proper laws for municipal governments, for elections, and for the independence of the judiciary, and with the holding of a fair election under the auspices of the United States for the vacancies effected in accordance with the compromise recommended, we are very hopeful that the Cuban Republic may be restored on even a more permanent basis than that which she enjoyed during four years of prosperity under President Palma."

In the Autumn of 1907 rumors emanated from Havana that a serious uprising against American authority was contemplated. Nothing developed. It was then declared that many prominent American financiers and business men were fomenting this proposed revolution in order that American occupation might be made permanent. At the time of the uprising against President Palma and his government it was declared that leading Americans had furnished funds to the revolutionists so as to precipitate intervention, thus securing a stable government under which business enterprises might be better advanced and protected. The first cablegram sent by President Roosevelt to Secretary Taft after his arrival in Havana, dated September 20, 1906, was "Is it possible to institute investigations to see what Americans, if any, have been furnishing funds to the revolutionists?" After making inquiries, Mr. Taft replied: "It is quite evident that no American interests in New York or elsewhere have initiated movement or contributed to its success."

Similar denials were given out when the charge was renewed in the Autumn of 1907 that American interests were supplying money for future uprisings.

**The Santo Domingo Treaty.**

RATIFIED BY THE UNITED STATES SENATE FEBRUARY 25, 1907.

Whereas, During disturbed political conditions in the Dominican Republic debts and claims have been created, some by regular and some by revolutionary governments, many of doubtful validity in whole or in part, and amounting in all to over \$30,000,000 nominal or face value;

And, whereas, The same conditions have prevented the peaceable and continuous collection and application of national revenues for payment of interest or principal of such debts or for liquidation and settlement of such claims; and the said debts and claims continually increase by accretion of interest and are a grievous burden upon the people of the Dominican Republic and a barrier to their improvement and prosperity;

And, whereas, the Dominican Government has now effected a conditional adjustment and settlement of said debts and claims under which all its foreign creditors have agreed to accept about \$12,407,000 for debts and claims amounting to about \$21,184,000 of nominal or face value, and the holders of internal debts or claims of about \$2,028,258 nominal or face value have agreed to accept about \$645,827 therefor, and the remaining holders of internal debts or claims on the same basis as the assents already given will receive about \$2,400,000 therefor, which sum the Dominican Government has fixed and determined as the amount which it will pay to such remaining internal debt-holders; making the total payments under such adjustment and settlement, including interest as adjusted and claims not yet liquidated, amount to not more than about \$17,000,000.

And, whereas, A part of such plan of settlement is the issue and sale of bonds of the Dominican Republic to the amount of \$20,000,000, bearing 5 per cent. interest, payable in fifty years, and redeemable after ten years at 102½, and requiring payment of at least one per cent. per annum for amortization, the proceeds of said bonds, together with such funds as are now deposited for the benefit of creditors from customs revenues of the Dominican Republic heretofore received, after payment of the expenses of such adjustment, to be applied, first, to the payment of said debts and claims as adjusted and, second, out of the balance remaining to the retirement and extinction of certain concessions and harbor monopolies which are a burden and hindrance to the commerce of the country, and, third, the entire balance still remaining to the construction of certain railroads and bridges and other public improvements necessary to the industrial development of the country;

And, whereas, The whole of said plan is conditioned and dependent upon the assistance of the United States in the collection of customs revenues of the Dominican Republic and the application thereof so far as necessary to the interest upon and the amortization and redemption of said bonds, and the Dominican Republic has requested the United States to give and the United States is willing to give such assistance:

The Dominican Government, represented by its Minister of State for Foreign Relations, Emiliano Tejera, and its Minister of State for Finance and Commerce, Federico Velasquez H., and the United States Government, represented by Thomas C. Dawson, Minister Resident and Consul-General of the United States to the Dominican Republic, have agreed:

I. That the President of the United States shall appoint a General Receiver of Dominican Customs, who, with such Assistant Receivers and other employees of the Receivership as shall be appointed by the President of the United States in his discretion, shall collect all the customs duties accruing at the several customs houses of the Dominican Republic until the payment or retirement of any and all bonds issued by the Dominican Government in accordance with the plan and under the limitations as to terms and amounts hereinbefore recited; and said General Receiver shall apply the sums so collected, as follows:

First, to paying the expenses of the receivership; second, to the payment of interest upon said bonds; third, to the payment of the annual sums provided for amortization of said bonds, including interest upon all bonds held in Sinking Fund; fourth, to the purchase and cancellation or the retirement and cancellation pursuant to the terms thereof of any of said bonds as may be directed by the Dominican Government; fifth, the remainder to be paid to the Dominican Government.

The method of distributing the current collections of revenue in order to accomplish the application thereof as hereinbefore provided shall be as follows:

The expenses of the receivership shall be paid by the Receiver as they arise. The allowances to the General Receiver and his assistants for the expenses of collecting the revenues shall not exceed 5 per cent. unless by agreement between the two Governments. On the first day of each calendar month the sum of \$100,000 shall be paid over by the Receiver to the Fiscal Agent of the loan, and the remaining collection of the last preceding month shall be paid over to the Dominican Government, or applied to the Sinking Fund for the purchase or redemption of bonds, as the Dominican Government shall direct.

Provided, That in case the customs revenues collected by the General Receiver shall in any year exceed the sum of \$3,000,000, one-half of the surplus above such sum of \$3,000,000 shall be applied to the Sinking Fund for the redemption of bonds.

II. The Dominican Government will provide by law for the payment of all customs duties to the General Receiver and his assistants, and will give to them all needful aid and assistance and full protection to the extent of its powers. The Government of the United States will give to the General Receiver and his assistants such protection as it may find to be requisite for the performance of their duties.

III. Until the Dominican Republic has paid the whole amount of the bonds of the debt its public debt shall not be increased except by previous agreement between the Dominican Government and the United States. A like agreement shall be necessary to modify the import duties, it being an indispensable condition for the modification of such duties that the Dominican Executive demonstrate and that the President of the United States recognize that, on the basis of exportations and importations to the like amount and the like character during the two years preceding that in which it is desired to make such modification, the total net customs receipts would at such altered rates of duties have been for each of such two years in excess of the sum of \$2,000,000 United States gold.

Section IV. provides for the verification of the accounts by the appropriate officers of the two countries.

<sup>a</sup>Except as to some of the principal and a few of the minor States, it is doubtful whether the numbers given of the reserves or auxiliary forces could be mobilized and made effective within a considerable period of time. †These estimates of unorganized force are based on the presumption that about 12 per cent. of the male population is of the military age. From these estimates, the organized forces are deducted. aIncluding the Indian army (76,883) and Colonial troops (59,478). b Militia and Volunteers. c Exclusive of troops in the Colonies and in Africa. d Exclusive of the Colonial army, 39,599 officers and men. e National militia, available for immediate service. f Including forces of States or Territories only nominally subject to the Sultan. g Army now being reorganized. h Six divisions, about 10,000 men each, of a National army already organized; 36 such divisions contemplated. i Provincial organizations; number estimated upon best information available. j Estimated in absence of reliable information. k Estimated. No reserve organized, but every able-bodied citizen is subject to military service.

The system of small peace effectives and large reserves, conjoined with that of universal military service, as distinct from the "conscription" which formerly obtained, has been adopted by almost every country in Europe, and by Japan. No payment of substitutes is now permitted, and exemptions are confined to students of the learned professions, young men who are the sole support of their families, or who have a brother already serving, and the like. Conscription of the old type now exists only in a few of the minor European countries.

ARMED STRENGTH OF THE WORLD—Continued.

**COST OF MAINTAINING ARMIES AND NAVIES.**

The net cost of the British Army and its operations, according to estimates for 1907-08, will amount to \$138,800,000, while the cost of maintaining the Navy will approximate \$160,000,000. The United States Army budget for the past fiscal year amounted to over \$103,000,000, and for the Navy over \$104,000,000. The military expenditure of the German Empire entered in the budget for 1906-07 amounted in all to \$206,000,000, while the estimate for the Navy was \$88,000,000. The estimated cost of maintaining the French Army in 1907 is \$189,000,000, and the Navy \$65,000,000. Italy, during the present fiscal year, expects to spend \$30,000,000 on her Navy, and a still larger sum on the Army. Russia spent \$40,000,000 for upbuilding her Navy in 1907, and Austro-Hungary \$9,000,000. Previous to the war with Russia the military expenditure of Japan was less than \$25,000,000. The expenditure during the war from October, 1903, to May, 1905, amounted to \$500,000,000 for the Army and \$90,000,000 for the Navy. Since then the annual military expenditure amounts to between \$35,000,000 and \$40,000,000, but this is increasing.

**RELATIVE EFFICIENCY OF NAVIES.**

Secretary of the Navy Metcalf, in his annual report, December 1, 1907, made the following statement of the relative efficiency of the principal nations of the world:

AT PRESENT.				WHEN VESSELS NOW BUILDING ARE COMPLETED			
Nation.	Tonnage.	Nation.	Tonnage.	Nation.	Tonnage.	Nation.	Tonnage.
Great Britain.	1,635,116	Japan	374,701	Great Britain.	1,821,610	Japan	451,320
United States.	611,616	Russia	232,943	France	836,112	Russia	320,040
France	609,074	Italy	207,623	United States.	771,758	Italy	288,433
Germany	529,032	Austria	113,235	Germany	680,602	Austria	116,235

The Secretary made the following comments: It is true that our Navy at the present time is the second in efficiency. Our position, however, is largely due to the fact that during the last fiscal year our sea strength and fighting efficiency have been increased by the completion and delivery of a number of new battleships and cruisers of the largest and most approved type, but we will not maintain this position very long unless Congress shall authorize the building of additional ships. It is of the highest importance that old and practically obsolete ships be replaced by ships of the newest type. It is pretty generally conceded that the battleship is the fighting machine, and it is also pretty generally conceded that the most effective battleship is the all-big-gun ship of the Delaware type. As compared with other naval powers, we are deficient in destroyers and submarines, and are also woefully deficient in colliers.

I have given the most careful consideration to the reports of both boards, and earnestly recommend that Congress authorize, at its coming session, the construction of the following vessels:

Number and Class.	Approximate Unit Cost.	Total Cost.
Four battleships (Delaware class)	\$9,500,000	\$38,000,000
Four scout cruisers (Chester class)	2,500,000	10,000,000
Ten destroyers	850,000	8,500,000
Four submarines	380,000	1,520,000
One ammunition ship	1,750,000	1,750,000
One repair ship	2,000,000	2,000,000
Two mine-laying ships	250,000	500,000
Four fleet colliers	1,750,000	7,000,000
<b>Total</b>		<b>\$69,270,000</b>

**THE MARINE CORPS.**

The Commandant of the Marine Corps is responsible to the Secretary of the Navy for the general efficiency and discipline of the corps; make such distribution of officers and men for duty at the several shore stations as shall appear to him to be most advantageous for the interest of the service, furnishes guards for vessels of the Navy, according to the standard scale of allowance, under the direction of the Secretary of the Navy, issues orders for the movement of officers and troops, and such other orders and instructions for their guidance as may be necessary, and has charge and exercises general supervision and control of the recruiting service of the corps and of the necessary expenses thereof, including the establishment of recruiting officers.

**BUREAU OF NAVIGATION.**

The duties of the Bureau of Navigation of the Navy Department comprise all that relates to the promulgation, record, and enforcement of the Secretary's orders to the fleets and to the officers of the Navy, except such orders as pertain to the office of the Secretary; the education of officers and men, including the Naval Academy and technical schools for officers (except the War College and Torpedo School), the apprentice establishment, and schools for the technical education of enlisted men, and to the supervision and control of the Naval Home, Philadelphia; the enlistment and discharge of all enlisted persons, including appointed petty officers for general and special service. It controls all rendezvous and receiving ships, and provides transportation for all enlisted persons and appointed petty officers; establishes the complement of the crews of all vessels in commission; keeps the records of service of all squadrons, ships, officers, and men, and prepares the annual Naval Register for publication; has under its direction the preparation, revision and enforcement of all tactics, drill books, signal codes, cipher codes, and the uniform regulations.

**The Initiative and Referendum.**

The political institutions known as Initiative and Referendum are those by which the body of the electorate may initiate measures to be enacted by their own vote into laws, and by which laws enacted by the Legislatures are referred to and approved and rejected by the people. The first appearance of these propositions was in Switzerland about the sixteenth century, but made great strides there in recent years, being in effect in every canton except Freiburg. The Referendum may be divided into Referendums of (a) entire constitutions, (b) amendments to constitutions, (c) of laws affecting the whole State, and (d) of laws affecting parts of States or localities only.

**REFERENDUMS OF WHOLE CONSTITUTIONS.**

Massachusetts in 1778 was the first State to refer its whole constitution to popular approval, followed closely by New Hampshire (1783), Connecticut (1818), and Maine (1819), Rhode Island (1824, rejected), New York (the first State out of New England, in 1821), Virginia (1829), Georgia (1833), Tennessee (1834), North Carolina and Michigan, in 1835. Since 1835 all new Constitutions except those of Delaware (1895), Mississippi (1890), and South Carolina (1895) have been submitted to popular vote after leaving the hands of the Convention or Legislature.

**AMENDMENTS TO CONSTITUTIONS.**

Amendments to Constitutions are made by Conventions called on a Referendum in thirty States—Alabama, California, Colorado, Delaware, Florida, Idaho, Illinois, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New York, North Carolina, Ohio, South Carolina, South Dakota, Tennessee, Utah, Virginia, Washington, West Virginia, Wisconsin, and Wyoming—and in fifteen—Arkansas, Connecticut, Georgia, Indiana, Louisiana, Maine, Massachusetts, Mississippi, New Jersey, North Dakota, Oregon, Pennsylvania, Rhode Island, Texas, and Vermont—by the Legislature, and are referable to the people in forty-three States, the exceptions being Delaware and South Carolina.

**LAWS AFFECTING THE WHOLE STATE.**

1. When the vote of the people is authorized by the Constitution. This is the Referendum in its narrower sense, and in this aspect is now a matter of political interest. The Constitution of South Dakota (1898) provides: "The legislative power of the State shall be vested in a Legislature, which shall consist of a Senate and House of Representatives, except that the people expressly reserve to themselves the right to propose measures (initiative), which measures the Legislature shall enact and submit to a vote of the electors of the State, and also the right to require that any laws which the Legislature may have enacted shall be submitted to a vote of the electors of the State before going into effect." The Constitution of Oregon (1902) contains a similar provision. So far, however, no other State has incorporated this initiative and referendum clause in general terms in its Constitution. Special provisions, nevertheless, are the subject of referendum, as the location of the capital of the State and of State institutions, the limitation of expenditure or of the debt, and in Colorado, Montana, Idaho, and Utah the maximum tax rate, the franchise and many like questions.

2. When no authorization for such vote is contained in the Constitution. The reference of general laws to the people in the absence of express constitutional authority was early attempted, but has generally been held unconstitutional. *Barto vs. Himrod*, 4 Seld (N. Y.) 483, is the leading case. But the reference of a time when a law shall take effect has been held constitutional—upon this many of the State prohibitory Liquor Laws are based, as in Michigan (1852), Vermont (1852), Maine (1858), North Carolina (1881). Other matters of a general nature have been so referred—e. g., the seat of Government (California, 1850), free schools (New York, 1849), minority representation on corporations (New Hampshire, 1880), contract labor in prisons (New York, 1883), Chinese immigration (Nevada, 1880), woman suffrage (Massachusetts, 1895).

**LAWS AFFECTING PARTS OF STATES OR LOCALITIES ONLY.**

The reference of such laws to the vote of the people of the locality affected is held to be not unconstitutional in legislation determining the area, boundaries, etc., of local political districts; the selection of county seats and sites, the selection of a corporate name, and the choice of a city charter or local government, in which the referendum is made obligatory in some States. So, also, propositions to remove the fire and police departments of Jersey City were referred to the inhabitants in 1885; to reform the Civil Service in any city of Illinois (1895); to increase the number of supervisors in Iowa (1897), Nebraska (1897), North Dakota (1895), and Ohio (1896). Every phase of legislation in which there is danger to the legislator is apt at some time to be so referred, including loan bills and financial proposals of all kinds.

**THE INITIATIVE.**

The initiative is either a right reserved by the people of a State in their Constitution to originate propositions to be enacted into law by the Legislature and ratified by the vote of the people, or that giving a number of voters in a community the right to cause an election to be held upon a permitted question (as whether liquor shall be sold in the town), and if the vote be in favor of a change then the new condition to obtain under a previously passed statute of the State Legislature. The initiative in its larger aspect has authority only in South Dakota and Oregon, and there its operation excludes only matters of emergency, as the preservation of the public peace, health, or safety. In its local aspect it has been called in to inaugurate a vast variety of matters of local interest,—prohibition, county seats, live stock and fencing laws, high-school laws—finding its greatest development in Oregon, South Dakota, Nebraska, California, and Iowa.

The Initiative and Referendum constitute a political force or medium opposed in action to the Legislature as the delegated authority of the people, and the various labor and people's parties have turned to them as a means of holding in their own hands a larger measure of the sovereign power which, under the older theories of government, was entirely delegated to their representatives.

### The Inland Waterways Convention.

The President of the United States on November 17, 1907, issued an invitation to the Governors of the States and Territories to meet him at the White House, Washington, on May 13, 14, and 15, 1908, to discuss the question of means to conserve the natural resources of the country. Invitations are to be extended to the members of the two Houses of Congress and to the Inland Waterways Commission.

The following is the text of the invitation to each of the Governors:

"The natural resources of the territory of the United States were, at the time of the settlement, richer, more varied, and more available than those of any other equal area on the surface of the earth. The development of these resources has given up, for more than a century, a rate of increase in population and wealth undreamed of by the men who founded our Government and without parallel in history. It is obvious that the prosperity which we now enjoy rests directly upon these resources. It is equally obvious that the vigor and success which we desire and foresee for this Nation in the future must have this as the ultimate material basis.

"In view of these evident facts, it seems to me time for the country to take account of its natural resources and to inquire how long they are likely to last. We are prosperous now; we should not forget that it will be just as important to our descendants to be prosperous in their time as it is to us to be prosperous in our time.

"Recently I expressed the opinion that there is no other question now before the Nation of equal gravity with the question of the conservation of our natural resources, and I added that it is the plain duty of those of us who, for the moment, are responsible to make inventory of the natural resources which have been handed down to us, to forecast as well as we may the needs of the future, and so to handle the great sources of our prosperity as not to destroy in advance all hope of the prosperity of our descendants.

"It is evident that the abundant natural resources on which the welfare of this Nation rests are becoming depleted, and in not a few cases are already exhausted. This is true of all portions of the United States; it is especially true of the longer settled communities of the East. The gravity of the situation must, I believe, appeal with special force to the Governors of the States, because of their close relations to the people and their responsibility for the welfare of their communities.

"I have therefore decided, in accordance with the suggestion of the Inland Waterways Commission, to ask the Governors of the States and Territories to meet at the White House on May 13, 14, and 15, to confer with the President and with each other upon the conservation of natural resources. It gives me great pleasure to invite you to take part in this conference. I should be glad to have you select three citizens to accompany you and to attend the conference as your assistants or advisers. I shall also invite the Senators and Representatives of the Sixtieth Congress to be present at the sessions, so far as their duties will permit.

"The matters to be considered at this conference are not confined to any region or group of States, but are of vital concern to the Nation as a whole, and to all the people. Those subjects include the use and conservation of the mineral resources, the resources of the land, and the resources of the waters in every part of our territory.

"In order to open discussion I shall invite a few recognized authorities to present brief descriptions of actual facts and conditions without argument, leaving the conference to deal with each topic as it may elect. The members of the Inland Waterways Commission will be present, in order to share with me the benefit of information and suggestion, and, if desired, to set forth their provisional plans and conclusions.

"Facts which I cannot gainsay force me to believe that the conservation of our natural resources is the most weighty question now before the people of the United States. If this is so, the proposed conference, which is the first of its kind, will be among the most important gatherings in our history in its effect upon the welfare of all our people.

"I earnestly hope, my dear Governor, that you will find it possible to be present. Sincerely yours,

"THEODORE ROOSEVELT."

### National Grange, Patrons of Husbandry.

*Master*—N. J. Bachelder, Concord, N. H. *Overseer*—T. C. Atkeson, Morgantown, W. Va. *Lecturer*—George W. F. Gaunt, Mullica Hill, N. J. *Steward*—J. A. Newcomb, Golden, Col. *Assistant Steward*—C. D. Richardson, West Brookfield, Mass. *Chaplain*—O. S. Wood, Ellington, Ct. *Treasurer*—Mrs. Eva S. McDowell, Rome, N. Y. *Secretary*—C. M. Freeman, Tippecanoe City, Ohio. *Gate Keeper*—A. C. Powers, Beloit, Wis. *Cover*—Mrs. Elizabeth Patterson, College Park, Md. *Flora*—Mrs. Ida Judson, Balfour, Iowa. *Pomona*—Mrs. Sarah G. Baird, Edina Mills, Minn. *L. A. The following proposed legislation is favored by the National Grange, representing the farmers of the United States:

1. Free delivery of mails in the rural districts be placed upon the same permanent footing as the delivery of mails in the cities and the appropriations to be commensurate with the demands and the benefits of the service.
2. Postal saving banks.
3. Election of United States Senators by direct vote of the people.
4. An amendment to the Constitution granting the power to Congress to regulate and control all corporations and combinations.
5. Enlargement of the powers and duties of the Interstate Commerce Commission, giving it authority to determine what changes shall be made or what practices are discriminative or unreasonable, and their findings to be immediately operative and so to continue until overruled by the courts.
6. Regulation of the use of shoddy.
7. Pure food laws.
8. Extension of the markets for farm products equally with manufactured articles.
9. An anti-trust law, clearly defining what acts on the part of any corporation would be detrimental to public welfare.
10. The speedy construction of a ship canal connecting the Mississippi River with the Great Lakes and the Great Lakes with the Atlantic Ocean.
11. Revision of the fees and salaries of all Federal officers, and placing them on a basis of similar service in private business.
12. Parcels post, telephone and telegraph in the mail service.
13. National and State aid to improve the public highways.

The National Grange has established over 30,000 subordinate granges in forty-four States and Territories.

### The Statehood of Oklahoma.

By Chapter 3,335 of the Statutes of the United States, passed at the First Session of the Fifty-ninth Congress, and approved June 16, 1906, it was provided that the inhabitants of the Territory of Oklahoma and of the Indian Territory may adopt a constitution and become the State of Oklahoma on complying with the following requirements: They shall vote for and choose delegates to a Constitutional Convention, at an election ordered by the Governor of the Territory of Oklahoma and the senior Judge in service in the United States Courts in the Indian Territory jointly, sixty days prior to said election and within six months after the approval of this act. The delegates so elected shall meet at Guthrie, Oklahoma, on the second Tuesday after their election, and proceed to form a constitution and State Government for said State. Said constitution shall be submitted to the people for ratification or rejection at a time designated by said convention. It shall be the duty of the President of the United States within twenty days after the receipt of the certificate of the result of such election, if said constitution shall have been ratified, to issue a proclamation announcing the result, and thereupon the proposed State of Oklahoma shall be deemed admitted by Congress into the Union, under and by virtue of this act, on an equal footing with the original States.

The election of delegates to the Constitutional Convention under this act was held on November 6, 1906. The Constitutional Convention met at Guthrie on November 20, 1906, and after a session of four months formed a State Constitution which was submitted to the people September 17, 1907, and was adopted by an overwhelming majority.

At the same election five representatives in Congress and State Officers were elected. (See election returns for results.)

#### THE STATE CONSTITUTION.

The most notable feature of the State Constitution was its provisions for the regulation of corporations. In line with its other corporation provisions were the adoption of 2-cent passenger fares, electric lines not included, and the abolition of the fellow-servant.

The initiative and referendum was given a prominent place in the constitution, but the right of recall usually regarded as practically a parallel proposition, was rejected.

Separate schools for white and negro children were provided; all other races than negroes being classed as "white."

The State was given the right to engage in any business or occupation, but the grant was limited by the qualification that it shall be "for public purposes."

Trial by jury was granted in contempt cases for violations of injunctions or orders of restraint, and an opportunity to be heard must be given on all contempts before punishment is imposed. Three-fourths jury verdicts were provided for in civil cases and criminal cases less than felony. The grand jury system was not made mandatory. Persons were granted immunity from prosecution if their testimony incriminated themselves.

Records, books and films of all corporations shall be subject to full visitation and inquisition, notwithstanding the immunities and privileges conferred by the bill of rights.

For every sale, the applicant must make a sworn statement as to the purpose for which the liquor is to be used, and each sale must be registered.

The control of all public-service corporations was vested in a corporation commission of three members, elected by the people for six-year terms. Commissioners are required to take an oath that they are not interested directly or indirectly in any company which may come under their supervision. All railroads, oil, pipe, car, express, telephone or telegraph lines are required to receive and transport each other's business without delay or discrimination. All railroads were declared public highways. Public service corporations and their officials were prohibited from consolidating with or owning stock in any competing corporation.

"Transportation companies" were defined as including railroads, street railways, canals, steamboat lines, freight car companies or car associations, express companies and sleeping-car companies. "Transportation companies" include telegraph and telephone lines, and both of these classes were rated as common carriers.

The common law doctrine of fellow-servant was abrogated as to all railroad, street or interurban electric lines and mining companies, and recovery may be had as fully in cases where death occurs as where it does not.

Campaign contributions by corporations were forbidden and it was sought to prevent the issuance of watered stock by providing that no stock shall be issued except for money, labor done or property actually received to the amount of the par value of the stock.

#### ADMITTED TO THE UNION.

The President of the United States on November 16, 1907, signed the Constitution of Oklahoma and issued a proclamation announcing its admission as a State into the Union.

The Census Bureau on September 19, 1907, reported the result of a Special Census taken of the population of the new State. It showed a total population of 1,414,042, the population of the former Territory of Oklahoma being 721,142, and of the former Indian Territory, 692,901.

### Arizona and New Mexico.

The same act which provided for the Statehood of Oklahoma, also provided that the inhabitants of the Territories of Arizona and New Mexico should, on November 6, 1906, vote on the question whether the two Territories should be united to form one State, to be known as the State of Arizona. At the same election they should vote for delegates to a Constitutional Convention. Should the vote on statehood be favorable in both Territories, and not otherwise, a convention to form a constitution for the new State should meet at Santa Fe on Thursday, December 6, 1906. The constitution so formed should be submitted to the people of the two Territories within ninety days from the adjournment of said convention. Should said constitution be ratified, the President of the United States should, within twenty days after the receipt of the certificate of the result, issue a proclamation announcing the same, and thereupon the State of Arizona should be deemed to be admitted to the Union on an equal footing with the original States.

The act provided for the representation of the new State in the House of Representatives in Congress by two members.

At the election of November 6, 1906, a majority of the inhabitants of New Mexico voted in favor of joint statehood and a majority of the inhabitants of Arizona voted against it. The provisions of this act, so far as they related to Arizona and New Mexico, therefore became void, and they continue as Territories.

**The Prosecution of the Standard Oil Company.**

Prosecution of the Standard Oil Company of New Jersey and many of its more than one hundred subsidiary companies under the anti-trust laws of the United States and of several States, instituted by the United States Attorney-General and the Attorneys-General of Ohio, Missouri, Kansas and Texas, was a noteworthy feature of the year 1907. Under the Elkins law, the Standard Oil corporations were indicted in several different cases, on an aggregate of 8,300 counts for accepting rebates from railroads. The penalty on conviction of each count is a fine of from \$1,000 to \$20,000. Most of these cases were pending at the close of the year, but the indictment of the Standard Oil Company of Indiana, which was tried before Judge Kenesaw M. Landis in the United States District Court at Chicago, resulted in a conviction on 1,462 counts and the imposition of the maximum fine of \$20,240,000. The fine is the largest ever assessed against any individual or any corporation in the history of American criminal jurisprudence. The charge against the Standard corporation was accepting a secret rate of 6 cents a barrel on shipments from Whiting, Ind., to St. Louis, the legal and published tariff rate being 18 cents. In imposing the fine Judge Landis delivered a long opinion on August 3, in which the methods and practices of the Standard Oil Company were mercilessly discussed. Judge Landis said in his opinion: "To the extent that the Standard Oil Company has not paid what the law requires that it should pay, the shippers of other kinds of property have had to bear the burden. To the rate which it would be fair for the railroad to charge for the transportation of products of the farm and factory has been added what the Standard Oil Company did not pay for the transportation of its property. And herein lies not the least vicious element of such a system. In addition to this is the question of common honesty among men who ought not to be altogether ignored in business even in this day. The conception and execution of such a commercial policy necessarily involves the contamination of subordinate officers or employees, even looking to the time when testimony will be required for the protection of the revenues of the offender from the exactions of the law for its violation. We might as well look at this situation squarely. The men who thus deliberately violate the law wound society more deeply than does he who counterfeits the coin or steals letters from the mail."

Testimony was being taken at the close of the year in an action for an injunction against the continuance of the Standard Oil Company of New Jersey and to annul its charter. This was brought by the United States Government through the Attorney-General. The bill of complaint was filed in the United States District Court for the Eastern District of Missouri, and the defendants named included the Standard of New Jersey and its many subsidiary companies, and these directors individually: John D. Rockefeller, William Rockefeller, Henry M. Flagler, Henry H. Rogers, Oliver H. Payne and John D. Archbold. These men were directors of the Standard Oil Trust formed in Ohio in 1882. Hearings in New York in September and October before Special Examiner Ferriss disclosed for the first time the list of Standard Oil stockholders and their shares. In August, 1907, the total capitalization of the Standard Oil Company of New Jersey was \$98,338,300. John D. Rockefeller owned \$24,769,200, Oliver H. Payne \$4,000,000, Henry M. Flagler \$3,050,000, Henry H. Rogers \$1,602,000, William Rockefeller \$1,170,000, and John D. Archbold \$600,000.

The average rate of dividends paid by the Oil Trust under one name or another, but continuously under the same control, from 1882 to 1906, was 24.15 per cent. The total amount paid in dividends during that period was \$551,992,904.50. The net earnings or profits of the corporation were shown to have aggregated over \$800,000,000 from 1882 to 1906. In the year 1906 the net earnings were \$83,122,251, more than 84½ per cent. on the capitalization. The gross assets at the end of 1906 were \$371,664,531.

In 1900 the dividends paid out aggregated \$46,691,474, and in 1901 the amount was \$46,775,390. In 1906 the dividends were \$39,335,320. A computation based on John D. Rockefeller's holdings, which varied slightly from year to year, showed that in the period 1882-1906 he received in dividends on his oil stock \$143,469,954. More than one-half of the entire \$98,338,300 stock of the Standard Oil Company was owned by thirty-one shareholders.

Suits were pending at the close of the year to oust the Standard and its subsidiary companies from the States of Ohio, Kansas and Missouri under the anti-trust laws. Texas had previously ordered all known branches of the oil monopoly not to do business in the State, and early in the year secured a conviction with a heavy fine against the Waters-Pierce Oil Company. On November 6 Attorney-General Davidson, of Texas, brought action against eleven subsidiary companies of the Standard, demanding \$75,900,000 in penalties for alleged violations of the State's anti-trust laws. Receivers for the eleven companies were asked for also. An injunction was granted restraining the defendant companies from removing any of their property from the State.

In May the Federal Bureau of Corporations published a report on the "Position of the Standard Oil Company in the Petroleum Industry," which showed that the Standard controls over 85 per cent. of the refining and sale of oil in the United States. A striking feature of the report was the defiance of the Interstate Commerce Act by the Standard's Pipe Lines, which were shown to be one of the main supports of the monopoly's power.

In August the same Bureau published a report on "Prices and Profits in the Oil Business." This showed a great increase in recent years in the margin between the price of crude oil and the prices of illuminating oil and other products. It showed enormous variance in prices charged in competitive and non-competitive localities, and that the oil shipped to foreign countries by the Standard was sold there at much lower prices than to the American consumer.

### **Regulation of Railroad Rates.**

The following are the clauses of the act approved June 29, 1906, to amend the act of 1887 and other acts amendatory thereof entitled "An Act to Regulate Commerce," which specifically relate to the construction of switches, filing of schedules of rates and fares, prohibition of discriminations and rebates and hearing of complaints and remedial action thereon by the Interstate Commerce Commission.

#### **FURNISHING SWITCHES AND TRANSPORTATION.**

Any common carrier subject to the provisions of this act, upon application of any lateral, branch line of railroad, or of any shipper tendering interstate traffic for transportation, shall construct, maintain, and operate upon reasonable terms a switch connection with any such lateral, branch line of railroad, or private side track which may be constructed to connect with its railroad, where such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify the construction and maintenance of the same; and shall furnish cars for the movement of such traffic to the best of its ability, without discrimination in favor of or against any such shipper.

#### **FILING OF SCHEDULES OF RATES.**

Every common carrier subject to the provisions of this act shall file with the commission created by this act and print and keep open to public inspection schedules showing all the rates, fares and charges for transportation between different points on its own route and between points on its own route and points on the route of any carrier by railroad, by pipe line, or by water when a through route and joint rate have been established. If no joint rate over the through route has been established, the several carriers in such through route shall file, print and keep open to public inspection as aforesaid, the separately established rates, fares and charges applied to the through transportation. The schedules printed as aforesaid by any such common carrier shall plainly state the places between which property and passengers will be carried, and shall contain the classification of freight in force, and shall also state separately all terminal charges, storage charges, icing charges, and all other charges which the commission may require, all privileges or facilities granted or allowed, and any rules or regulations which in anywise change, affect, or determine any part of the aggregate of such aforesaid rates, fares and charges, or the value of the service rendered to the passenger, shipper, or consignee.

#### **DISCRIMINATION FORBIDDEN.**

No carrier, unless otherwise provided by this act, shall engage or participate in the transportation of passengers or property, as defined in this act, unless the rates, fares, and charges upon which the same are transported by said carrier have been filed and published in accordance with the provisions of this act, nor shall any carrier charge or demand or collect or receive a greater or less or different compensation for such transportation of passengers or property, or for any service in connection therewith, between the points named in such tariffs than the rates, fares, and charges which are specified in the tariff filed and in effect at the time; nor shall any carrier refund or remit in any manner or by any device any portion of the rates, fares, and charges so specified, nor extend to any shipper or person any privileges or facilities in the transportation of passengers or property, except such as are specified in such tariffs.

#### **REBATES.**

Any person, corporation, or company who shall deliver property for interstate transportation to any common carrier, subject to the provisions of this act, or for whom as consignee or consignee, any such carrier shall transport property from one State, Territory, or the District of Columbia to any other State, Territory or the District of Columbia or foreign country, who shall knowingly by employe, agent, officer, or otherwise, directly or indirectly, by or through any means or device whatsoever, receive or accept from such common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charges for transportation of such property, as fixed by the schedules of rate provided for in this act, shall in addition to any penalty provided by this act forfeit to the United States a sum of money three times the amount of money so received or accepted, and three times the value of any other consideration so received or accepted, to be ascertained by the trial court; and the Attorney-General of the United States is authorized and directed, whenever he has reasonable grounds to believe that any such person, corporation, or company has knowingly received or accepted from any such common carrier any sum of money or other valuable consideration as a rebate or offset as aforesaid, to institute in any court of the United States of competent jurisdiction, a civil action to collect the said sum or sums so forfeited as aforesaid; and in the trial of said action all such rebates or other considerations so received or accepted for a period of six years prior to the commencement of the action, may be included therein, and the amount recovered shall be three times the total amount of money, or three times the total value of such consideration, so received or accepted, or both, as the case may be.

#### **HEARING OF COMPLAINTS.**

The commission is authorized and empowered, and it shall be its duty, whenever, after full hearing upon a complaint made as provided in section thirteen of this act, or upon complaint of any common carrier, it shall be of the opinion that any of the rates, or charges whatsoever, demanded, charged, or collected by any common carrier or carriers, subject to the provisions of this act, for the transportation of persons or property as defined in the first section of this act, or that any regulations or practices whatsoever of such carrier or carriers affecting such rates, are unjust and unreasonable, or unjustly discriminatory, or unduly preferential or prejudicial, or otherwise in violation of any of the provisions of this act, to determine and prescribe what will be the just and reasonable rate or rates, charge or charges, to be thereafter observed in such case as the maximum to be charged, and what regulation or practice in respect to such transportation is just, fair, and reasonable to be thereafter followed; and to make an order that the carrier shall cease and desist from such violation, to the extent to which the commission find the same to exist, and shall not thereafter publish, demand, or collect any rate or charge for such transportation in excess of the maximum rate or charge so prescribed. All shall conform to the regulation or practice so prescribed.

#### **ESTABLISHMENT OF ROUTES AND RATES**

The commission may also, after hearing on a complaint, establish through routes and joint rates as the maximum to be charged, and prescribe the division of such rates as hereinbefore provided, and the terms and conditions under which such through routes shall be operated, when that may be necessary to give effect to any provision of this act, and the carriers complained of have refused or neglected to voluntarily establish such through routes and joint rates, provided no reasonable or satisfactory through route exists, and this provision shall apply when one of the connecting carriers is a water line.

**State Legislation Regulating Railroad Rates.**

The year 1907 was prolific in enactments by State Legislatures requiring railroads to make effective lower interstate passenger rates. In each instance this legislation was contested, and a number of suits are now pending in lower courts. These will be expedited for the purpose of securing an early opinion from the United States Supreme Court, but this is not expected until some time in the present year. Notable disputes arose in North Carolina and Alabama, where the new laws are now being operated under an agreement. An arrangement was reached in Virginia without litigation. Legislation looking to lower passenger rates was enacted in Minnesota, Missouri, Arkansas, Illinois, Iowa, Michigan, Pennsylvania, South Carolina, Tennessee, Missouri, Kentucky, Florida and New York. Governor Hughes vetoed the 2-cent fare bill passed by the New York Legislature. Two courts in Pennsylvania pronounced the 2-cent law of that State unconstitutional. The passenger rates effective in the various States on December 1 follow, all being applicable to interstate traffic:

Alabama, 2½ cents; Arkansas, 2 cents; Georgia, 2 cents on the Atlanta and West Point Railway, 2½ cents on the Atlantic Coast Line and on the Georgia Railway; 2½ cents on the Central of Georgia, Southern Railway, Seaboard Air Line, Georgia Southern and Florida and on the Alabama Great Southern, and 3 cents on all other railroads. Illinois, 2 cents; Indiana, 2 cents; Iowa, 2 cents. Maryland roads charging more than 2 cents shall issue mileage books at 2 cents per mile. Michigan, 2 cents on the Lower Peninsula, 3 cents on the Upper Peninsula; Minnesota, 2 cents; Mississippi, 2 cents; Missouri, 2 cents; Nebraska, 2 cents; New York, 3 cents (except on the New York Central, which charges 2 cents), 2-cent mileage books; North Carolina, 2¼ cents; North Dakota, 2½ cents, and 2-cent mileage books; Ohio, 2 cents; Pennsylvania, 2 cents; South Dakota, 2½ cents; Virginia, 2 cents on trunk lines, all other roads 2½ to 3½ cents; West Virginia, 2 cents; Wisconsin, 2 cents.

The New York, New Haven and Hartford voluntarily reduced its rates to 2 cents per mile.

On July 1, 1907, all the Hill lines began issuing 3,000-mile mileage books at 2½ cents per mile.

These were all the States in which laws were enacted regulating interstate passenger rates. In a number of States the rates were accepted by the railroads, but in Alabama, North Carolina, Nebraska, Virginia and Mississippi litigation is pending.

Judge Vandeventer, of the United States Circuit Court, on August 1, 1907, issued an injunction restraining the State of Arkansas from declaring forfeited the property of the Rock Island Railroad in that State and collecting a fine of \$1,000 per day for violations of the State statutes. This decision was based on the ground that, as the Rock Island is an Iowa corporation, it had a right to be heard in a United States Court.

The Pennsylvania 2-cent fare law was pronounced unconstitutional by two courts on the ground that it is virtually confiscatory.

**CONFLICT OF JURISDICTION IN NORTH CAROLINA.**

The 2¼-cent rate act in North Carolina aroused considerable friction between the Federal and State authorities, and a serious clash was threatened. The situation was so acute at one time that President Roosevelt and Attorney-General Bonaparte sent Edward T. Sanford, an assistant in the Department of Justice, to North Carolina, where he conferred with both factions, counselled a compromise, and succeeded in bringing about an arrangement of differences.

Before the North Carolina law went into effect the Southern Railroad obtained an injunction from Judge Pritchard, of the United States Circuit Court, restraining the State Railroad Commission and others from enforcing the act. It was provided in the order, at the suggestion of the railroad company, that each person who purchased a ticket should be given a coupon entitling the holder to recover the difference between 2¼ cents a mile and the rate charged.

Governor Glenn and other parties declared this to be a defiance of the State, and proceeded to arrest ticket agents of the Southern at Asheville and Raleigh. The agents at Asheville were released on a writ of habeas corpus by Judge Pritchard. Those at Raleigh were assessed a nominal fine, and the railroad company was fined \$30,000. The agents paid their fine. An appeal was taken from the \$30,000 fine to the State Supreme Court. The case has been argued and submitted, but a decision not yet rendered.

After the proceedings at Asheville, when it became apparent that the railroad would be involved in an ugly controversy with the State, the company yielded temporarily the protection of the United States Court and asked Judge Pritchard to modify his order so as to make the 2¼-cent rate effective pending proceedings in his court. This was done under an agreement with Governor Glenn and the State Railroad Commission. The agreement was put into effect August 8. It is provided that the State shall appeal from Judge Pritchard's decree releasing the Asheville agents on a writ of habeas corpus. Also that an appeal be taken in the Raleigh case. Both cases will be advanced in the United States Supreme Court. No more indictments will be found or prosecutions brought until the cases are determined.

Judge Pritchard appointed ex-Judge Walter P. Montgomery master to take testimony in the cases. The railroad has presented its side, but the case for the State is still open, delay having been requested.

**LEGISLATION IN NORTH CAROLINA.**

The passenger traffic situation also became acute in Alabama, through the misunderstanding of a country lawyer, and threats were made that the licenses of certain trunk lines would be revoked by Governor Comer. The Alabama Legislature passed a law reducing passenger rates to 2½ cents per mile and providing a maximum freight rate on 110 specific commodities. Also an act that any railroad undertaking to transfer a suit from a State to a Federal Court should forfeit its charter. Judge Jones issued an injunction against the passenger and freight laws.

An old statute of the State provides that any foreign corporation, not specifying railroads, seeking to transfer a suit shall have its license revoked. The enforcement of this act was not enjoined by Judge Jones. A local attorney presented a motion to have a case not arising under any of the new legislation transferred to a United States Court. The

Secretary of State immediately revoked the license of the Southern Railroad to do business in the State. The company yielded, and promised to put the 2½-cent rate into effect pending a decision of the Courts. The Atlantic Coast Line and other roads at first refused to join in this agreement and continued the old rates. They did not seek to transfer suits, and their licenses could not be revoked. On December 3 the Atlantic Coast Line officials, after a long conference with Governor Comer, agreed to stop further litigation and accept the new State laws on the same conditions which the Southern and other roads came under. The Mobile and Ohio, and Alabama and Great Southern made an agreement which became effective December 1, 1907, to charge a passenger rate of 2¼ cents per mile.

In Virginia, after an investigation by the Corporations Commission, an order was issued that certain main line railroads in the State should not charge more than 2 cents per mile. Less important lines and branch roads were permitted to charge graded rates up to 3½ cents per mile.

The Southern Railroad obtained an injunction against the Corporations Commission on the ground that its action was unconstitutional, confiscatory, and that it had no jurisdiction. After the North Carolina troubles were settled, the Southern made an agreement to observe the order issued by the Virginia Corporations Commission, pending proceedings in the Courts. No testimony has yet been taken in this case.

### **Prosecution of Trusts by the United States.**

Under the provisions of the Sherman Anti-Trust Law, the United States Government brought six important actions against corporations alleged to be combinations in restraint of trade during the year 1907. Only two of these have been decided, and in each a conviction was secured. The remainder of the cases are pending. The principal actions and their status on December 1 were as follows:

March 12—Indictment returned against the American Seating Company et al, in the District Court of the Northern District of Illinois, charged with being a combination in restraint of trade in the manufacture and sale of school furniture. On April 1 all defendant corporations except one, the E. H. Stafford Manufacturing Company, entered pleas of guilty and fines aggregating \$43,000 were imposed on May 20.

April 4—Indictment returned against the Santa Rita Mining Company and the Santa Rita Store Company in the District of New Mexico, charging them with being a combination in restraint of trade. Fine of \$1,000 imposed.

June 12—Bill in equity filed in the Circuit Court for the Eastern District of Pennsylvania against the Reading Company et al, to dissolve a combination among the anthracite coal carrying roads and others.

July 1—Indictment returned in the District Court of Eastern Pennsylvania against the National Umbrella Frame Company et al, charging a conspiracy to restrain interstate trade and commerce in the manufacture and sale of umbrella material.

July 10—Bill in equity filed in the Circuit Court of the Southern District of New York against the American Tobacco Company and others, charging them with maintaining a combination in restraint of trade in the manufacture and sale of tobacco.

July 30—Bill in equity filed in the Circuit Court for the District of Delaware against E. I. Du Pont, de Nemours & Co. and others, in which it is alleged they are maintaining a combination in restraint of trade in the manufacture of gunpowder and other high explosives.

### **Prosecutions Under the Anti-Rebate Law.**

Thirty-four actions were brought during the year 1907 under the provisions of the Elkins act, forbidding the giving or acceptance of rebates. Only three of these were decided, and in all the Government secured convictions. Heavy fines were imposed. The actions and their status on December 1, 1907, were as follows:

United States vs. Chicago, Rock Island and Pacific Railway Company (Southern District of New York). May 7, 1907, indictment returned charging a violation of the Elkins act in giving and granting rebates on coffee. May 13, 1907, plea of not guilty with leave to withdraw within one week. May 20, 1907, plea of not guilty withdrawn and plea of guilty to first and second counts of indictment. Fined \$20,000.

United States vs. Chicago, Milwaukee and St. Paul Railway Company (Southern District of New York). May 7, 1907, indictment returned charging a violation of the Elkins act in giving and granting rebates on coffee. May 16, 1907, plea of guilty on first and third counts of indictment. Fined \$20,000.

United States vs. New York, Ontario and Western Railway Company (Southern District of New York). May 7, 1907, indictment returned charging a violation of the Elkins act in giving and granting rebates on coffee. May 13, 1907, plea of not guilty with leave to withdraw. Pending.

United States vs. Western Transit Company (Southern District of New York). May 1, 1907, indictment returned charging a violation of the Elkins act in giving and granting rebates on sugar. June 6, 1907, plea of guilty. Fined \$10,000.

United States vs. W. H. Bennett (District Court of Northern Ohio). June 7, 1907, indictment returned under the Elkins act for offering, granting, and giving rebates. Pending.

United States vs. Central Vermont Railway Company (Southern District of New York). June 13, 1907, indictment returned under the Elkins act for offering, granting, and giving rebates. June 24, 1907, plea of not guilty with leave to withdraw. Pending.

United States vs. Chicago, Indianapolis and Louisville Railway Company (Circuit Court of Northern Illinois). June 19, 1907, petition filed to enjoin said company from deviating from its published tariffs. Pending.

United States vs. United States Express Company et al (Circuit Court of Northern Illinois). July 2, 1907, petitions filed under Section 2 of the Elkins act to test law with

reference to the issuance of franks by said companies. July 2, 1907, stipulations and answers filed. Pending.

United States vs. Pacific Mail Steamship Company (District Court of Northern California). September 28, 1907, indictment returned under the Interstate Commerce Law (eight counts) charging the shipping of matting at less than filed tariff from Kobe through San Francisco to points in the East. Case pending.

United States vs. Pacific Mail Steamship Company (District Court of Northern California). September 28, 1907, indictment returned under the Interstate Commerce Law (eight counts) charging the shipping of matting at less than legal tariff from Kobe through San Francisco to points in the East. Case pending.

United States vs. Southern Pacific Company (District Court of Northern California). September 28, 1907, indictment returned under the Interstate Commerce Law (eight counts) charging the forwarding of matting from Kobe to San Francisco at less than its filed tariff. Case pending.

United States vs. Southern Pacific Company (District Court of Northern California). September 28, 1907, indictment returned under the Interstate Commerce Law (fifty counts) charging the forwarding of fifty parcels of matting from Kobe through San Francisco to points in the East at less than filed rate. Case pending.

United States vs. Southern Pacific Company (District Court of Northern California). September 28, 1907, indictment returned under the Interstate Commerce Law (fifty counts) charging the forwarding of fifty parcels of matting from San Francisco to final destinations at less than filed tariff. Case pending.

United States vs. Mutual Transit Company. Information filed February 27, 1907, in the United States District Court for the Western District of New York against the Mutual Transit Company for giving rebates in violation of the Elkins act. April 1, 1907, demurrer filed. May 24, 1907, demurrer overruled. Case pending.

United States vs. Mutual Transit Company. Information filed February 27, 1907, in the United States District Court for the Western District of New York against the Mutual Transit Company for giving rebates in violation of the Elkins act. April 1, 1907, demurrer filed. May 24, 1907, demurrer overruled. Case pending.

United States vs. New York Central and Hudson River Railroad Company (District Court of Western New York). August 9, 1907, indictment returned charging a violation of the Elkins act (188 counts) in giving and granting rebates. Case pending.

United States vs. New York Central and Hudson River Railroad Company (District Court of Western New York). August 9, 1907, indictment returned (forty counts) charging a violation of the Elkins act in giving and granting rebates. Case pending.

United States vs. New York Central and Hudson River Railroad Company and Pennsylvania Railroad Company (District Court of Western New York). August 9, 1907, indictment returned (188 counts) charging a violation of the Elkins act in giving and granting rebates. Case pending.

United States vs. New York Central and Hudson River Railroad Company and Pennsylvania Railroad Company (District Court of Western New York). August 9, 1907, indictment returned (40 counts) charging a violation of the Elkins act in giving and granting rebates. Case pending.

United States vs. Pennsylvania Railroad Company (District Court of Western New York). August 9, 1907, indictment returned (188 counts) charging a violation of the Elkins act in giving and granting rebates. Case pending.

United States vs. Pennsylvania Railroad Company (District Court of Western New York). August 9, 1907, indictment returned (forty counts) charging a violation of the Elkins act in giving and granting rebates. Case pending.

\* Trust, as popularly understood, means a consolidation, combine, pool, or agreement of two or more naturally competing concerns, which establishes a limited monopoly with power to fix prices or rates in any industry or group of industries.

† These 251 industrial combinations or trusts, with a total capital of \$6,905,700,000 are selected (with very few exceptions) from over 1,500 of the corporations described in "Moody's Manual of Corporation Statistics." Mr. Moody says in his "Truth About the Trusts" that there are in the United States over 440 large industrial, franchise, and transportation trusts of an important and active character, with a total floating capital of \$20,379,162,511.

‡ The amount of stock issued is taken when known; when not known the amount authorized as given.

§ The rates of dividend given on preferred stocks are usually the rates to which these stocks are entitled. The rates actually paid are often less, especially when no dividend is paid on the common stock.

¶ The United States Steel Corporation acquired the following amounts (practically all) of the stocks of the following companies: Federal Steel Co. pfd. \$53,260,900, com. \$46,484,300; National Tube Co. pfd. \$40,000,000, com. \$40,000,000; Am. S. & W. Co. (N. J.) pfd. \$40,000,000, com. \$50,000,000; National Steel Co. pf. \$27,000,000, com. \$32,000,000; Am. Tin Plate Co. pfd. \$18,325,000, com. \$28,000,000; Am. Steel Hoop Co. pfd. \$14,000,000, com. \$19,000,000; Am. Sheet Steel Co. pfd. \$24,500,000, com. \$24,500,000; Am. Bridge Co. pfd. \$30,527,800, com. \$30,527,800; Lake Superior Consol. Iron Mines Co., \$29,425,940; Shelby Steel Tube Co. pfd. \$5,000,000, com. \$8,175,000; Carnegie Co., \$160,000,000 (also \$159,957,000 bonds); Union Steel Co., \$20,000,000, and, through Union Steel Co., acquired entire stocks of Donora Mining Co., Republic Coke Co., River Coal Co., Sharon Coke Co., Sharon Ore Co., Sharon Sheet Steel Co., and control of Sharon Coal & Limestone Co. and Sharon Tin Plate Co. April 1, 1903, the Am. Coke Co., Continental Coke Co., H. C. Frick Coke Co., McClure Coke Co., South West Connellsville Coke Co. and United Coal & Coke Co. were merged under the name of the H. C. Frick Coke Co. December, 1903, Am. Sheet Steel Co. purchased the property of Am. Tin Plate Co. and name changed to Am. Sheet Tin Plate Co. In May, 1904, acquired the Clariton Steel Co., and, through it, St. Clair Furnace Co., Champion Iron Co., Clariton Land Co., St. Clair Terminal R.R. Co. and 51 per cent. of the St. Clair Limestone Co. In April, 1905, acquired Hecla Coke Co. November, 1907, Tennessee Coal, Iron and Railroad Co. April 15, 1907, leased on a royalty basis ore properties then owned in fee or leased to Great Northern Ry. Co., Northern Pacific Ry. Co. and others. This lease is to be taken over and held by the Great Western Mining Co. as a subsidiary of the U. S. Steel Corporation. The lease is to continue until ore is exhausted, unless terminated by U. S. Steel Corporation on January 1, 1915. The royalty is \$1.65 per gross ton for 59 per cent. ore, increasing 3-4-10 cents per ton each year after 1907. Seven hundred and fifty thousand tons as a minimum are to be mined and shipped in 1907, with yearly increases of 750,000 tons thereafter until output reaches 8,250,000 tons, after which minimum continues on that basis.

The various securities of the United States Steel Corporation and its subsidiary companies outstanding on November 7, 1907, were as follows:

3,602,811 shares preferred stock U. S. Steel Corp. par value (dividends 7 p. c.)..	\$360,281,100.00
5,083,025 shares common stock U. S. Steel Corp. par value (dividends 2 p. c.)...	508,302,500.00

Total stock .....	\$868,583,600.00
Stock of subsidiary companies, not held by U. S. Steel Corp.....	20,400.00

Bonds and debentures of U. S. Steel Corp. and subsidiary companies.....	\$868,604,000.00
Treasury bonds used to acquire Tenn. Coal, Iron & R.R. Co., November, 1907.	533,993,873.31
	30,000,000.00

Aggregate par value of outstanding securities.....	\$1,432,597,873.31
The company's balance sheet of June 30, 1907, gives the following as chief items of assets:	
Property.....	\$1,388,108,288.23
Advanced payments chargeable to future operations.....	3,573,961.33
Investments .....	40,895,368.16
Material, accounts, securities, etc. ....	200,113,825.58
Cash on hand .....	70,476,725.10

Total .....	\$1,703,168,118.40
-------------	--------------------

Besides the incorporated industrial trusts there are innumerable price and rate-fixing agreements, profit-sharing pools, selling or buying agencies, product-restricting agreements, etc. They exist in nearly every industry and in nearly every State and city. They are often very effective for longer or shorter periods. Thus, much of the profits of the steel-rail makers during the last twenty years is due to the Steel-Rail Manufacturers' Association. Pools or agreements control the prices of most important steel and hardware products. The price for iron ores in the Great Lakes districts is fixed yearly by the Bessemer and non-Bessemer Associations. The Anthracite Coal Trust was never more than an agreement by the principal carrying railroads as to production, freight rates and prices.

Wholesale and retail grocers and druggists are more or less effective in controlling prices in most States and cities. Lumber dealers and chemical manufacturers have many price and selling agreements or pools.

Natural monopolies, such as railroads, street railways, gas, electric light and water companies are not classed as trusts because they are not composed of naturally competing concerns. Consolidations and price and rate-fixing agreements in these industries exist in nearly every State and city in the country.

Many of the combinations in these lines are very important. Our greatest railroads have rate-fixing agreements or "community of interest" understandings for controlling rates and the distribution of freights. Besides, they are rapidly coming together, through absorption into larger companies, so that competition no longer exists in most sections of the country.

## Record of Events in 1907.

- Jan. 1. The Pure Food law went into effect.
- Jan. 3. French Church and State Separation law was promulgated.
- Jan. 9. Mohammed Ali Mirza became Shah of Persia.

 60. Thomas A. Edison, Alexander Graham Bell, Senator Tillman, Lotta Crabtree, Oscar Hammerstein, Rear Admiral Goodrich, Bishop Conaty of Los Angeles, Bishop Hall, of Vermont.

At what age does one become "old"? Five centuries ago a man was old at fifty. But the hale and hearty gentleman of to-day who has just turned sixty would probably protest against being classed among old people, even if famous. That his susceptibilities may not be wounded, therefore, a separating dash has been discreetly introduced after age sixty-five.

**American Women Who Have Married Foreign Titles.**

Below is a list of the most prominent American women who have married titled foreigners. The list is not exhaustive. It will be noticed that some of the most prominent international marriages have been omitted, because the husbands are not titled. Instances of these omissions are: Miss Pauline Astor, daughter of William Waldorf Astor, who married Captain H. H. Spencer-Clay; Miss Susan Endicott, who as the widow of Marshall O. Roberts, of New York, married Colonel Ralph Vivian; Miss Pauline Whitney, daughter of W. C. Whitney, who married Almeric Paget, of the house of Angelsey, and Miss Lizzie Zerega, who married Charles Pelham-Clinton, of the ducal family of Newcastle.

- Allen, Anne Russell, of St. Louis, to Duke of Montefeltro, Rome (Italy).

 Yznaga, Natica, of New York, to Sir John Lister-Kaye, London (England).  
 Zimmerman, Helen, of Cincinnati, Ohio, to the Duke of Manchester, Kylemore, Galway.

### Help in Case of Accidents.

**Drowning.** 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give warm drinks, or spirits in teaspoonfuls, fresh air, and quiet.

**Burns and Scalds.** Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water.

**Lightning.** Dash cold water over a person struck.

**Stroke.** Loosen clothing. Get patient into shade and apply ice-cold water to head. Keep head in elevated position.

**Mad Dog or Snake Bite.** Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whiskey, brandy, etc.

**Stings of Venomous Insects, etc.** Apply weak ammonia, oil, salt water, or iodine.

**Fainting.** Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

**Tests of Death.** Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead the hole will remain, if alive it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark. If a person is dead decomposition is almost sure to set in after 72 hours have elapsed. If it does not, then there is room for investigation by the physician. Do not permit burial of dead until some certain indication of death is apparent.

**Cinders in the Eye.** Roll soft paper up like a lamplighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

**Fire in One's Clothing.** *Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woollen rug or blanket. Keep the head down, so as not to inhale flame.

**Fire from Kerosene.** *Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woollen rug, table-cloth, or carpet.

**Suffocation from Inhaling Illuminating Gas.** Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

### Antidotes for Poisons.

**First.** Send for a physician.

**Second.** INDUCE VOMITING, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

*Acids are antidotes for alkalis, and vice versa.*

### When the Boat OvertURNS.

DON'T go out in a pleasure boat without being assured that there are life-saving buoys or cushions aboard sufficient to float all on board in case of an upset or collision. All persons should be seated before leaving shore, and no one should attempt to exchange seats in midstream or to put a foot on the edge or gunwale of the boat to exchange seats. Where the waters become rough from a sudden squall or passing steamers, never rise in the boat, but settle down as close to the bottom as possible, and keep cool until the rocking danger is passed. If overturned, a woman's skirts, if held out by her extended arms, while she uses her feet as if climbing stairs, will often hold her up while a boat may pull out from the shore and save her. A non-swimmer, by drawing his arms up to his side and pushing down with widely extended hands, while stair-climbing or treading water with his feet, may hold himself several minutes, often when a single minute means a life; or throwing out the arms, dog fashion, forward, overhead and pulling in, as if reaching for something—that may bring him in reach of help.

### Rules in Case of Fire.

**CRAWL** on the floor. The clearest air is the lowest in the room. Cover head with woollen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Ex-Chief Hugh Bonner, of the New York Fire Department, gives the following rules applying to houses, flats, hotels, etc.:

Familiarize yourself with the location of hall windows and natural escapes. Learn the location of exits to roofs of adjoining buildings. Learn the position of all stairways, particularly the top landing and scuttle to the roof. Should you hear cry of "fire," and columns of smoke fill the rooms, above all **KEEP COOL.** Keep the doors of rooms shut. Open windows from the top. Wet a towel, stuff it in the mouth, breathe through it instead of nose, so as not to inhale smoke. Stand at window and get benefit of outside air. If room fills with smoke keep close to floor and crawl along by the wall to the window.

Do not jump unless the blaze behind is scorching you. Do not even then if the firemen with scaling ladders are coming up the building or are near. Never go to the roof, unless as a last resort and you know there is escape from it to adjoining buildings. In big buildings fire always goes to the top. Do not jump through flame within a building without first covering the head with a blanket or heavy clothing and gauging the distance. Don't get excited; try to recall the means of exit, and if any firemen are in sight **DON'T JUMP.**

If the doors of each apartment, especially in the lower part of the house, were closed every night before the occupants retired there would not be such a rapid spread of flames.

## The American Multi-Millionaires.

### THE VANDERBILTS.

DESCENDANTS OF COMMODORE CORNELIUS VANDERBILT.

Born on Staten Island, N. Y., 1794; married, 1st, Sophia Johnson, 1813; 2d, Frances Crawford, 1869; died 1877.

CHILDREN.	Grandchildren.	Great-Grandchildren.	Great-Great-Grandchildren.
1. Phebe Jane Vanderbilt, b. 1817; m. James M. Cross, 1841; d. 1853.	1. Cornelius Vanderbilt Cross, b. 1834; m. Emma Eldert; d. 1902. 2. Ethelinda Cross; m. Burrett Wilson Horton. 3. Norman Cross.		
2. Ethelinda Vanderbilt, b. 1818; m. Daniel B. Allen, 1839; d. 1888.	1. Vanderbilt Allen, b. 1840; m. 1st, Helena Mount, 1861; 2d, Edith De S. Iver, 1873; 3d, Edith Mott, 1890; d. 1898. 2. William Barton Allen, b. 1844; m. Mary Sutton; d. 1890. 3. Franklin Allen. 4. Harry Allen, d. 1899. 5. Annie Allen, b. 1869; m. 1888, John Wallace; d. (killed) 1896.	1. Marie Fatimah Allen, b. 1870; m. John C. Wilmerding, Jr., 1892. 2. Ethel Gladys De Silvier Allen, b. 1875. 1. W. S. Vanderbilt Allen, b. 1881. 2. Ethelinda Allen, b. 1863; m. James H. Ward, 1891; d. 1899.	1. Vanderbilt B. Ward, b. 1893. 2. Mildred S. Ward, b. 1896.
3. William Henry Vanderbilt, b. 1827; m. Mary Louise Kassam, 1840; d. 1885.	1. Cornelius Vanderbilt, b. 1843; m. Alice Gwynne, 1867; d. 1899. 2. Margaret Louisa Vanderbilt; m. Elliot F. Shepard, 1870. 3. William K. Vanderbilt, b. 1849; m. Alva Murray Smith, 1874 (now Mrs. O. H. P. Belmont); 2d, 1903, Mrs. Ann Harriman Sands. 4. Emily T. Vanderbilt; m. William D. Sloane, 1874. 5. Frederick W. Vanderbilt, b. 1858; m. Mrs. Alfred Torrance (nee Anthony), 1880.	1. William H. Vanderbilt, b. 1871; d. 1892. 2. Cornelius Vanderbilt, b. 1873; m. Grace Wilson, 1896. 3. Gertrude Vanderbilt, b. 1876; m. Harry Payne Whitney, 1896. 4. Alfred Gwynne Vanderbilt, b. 1877; m. Elsie French, Jan. 11, 1901. 5. Reginald C. Vanderbilt, b. 1880; m. Cathleen G. Neilson, 1903. 6. Gladys M. Vanderbilt, b. 1885. 1. Maria Louisa Shepard, b. 1870; m. William Jay Schieffelin, 1891. 2. Edith Shepard, b. 1872; m. Ernesto G. Fabbri, 1896. 3. Margaret Shepard, b. 1875; d. 1892. 4. Alice Shepard, b. 1874; m. Dave Hennon Morris, 1895. 5. Elliot F. Shepard, b. 1877; m. Mrs. Esther Potter, 1897. 1. Consuelo Vanderbilt, b. 1877; m. Duke of Marlborough, 1895. 2. William K. Vanderbilt, b. 1878; m. Virginia Fair, 1899. 3. Harold S. Vanderbilt, b. 1884. 1. Florence A. Sloane, b. 1875; m. James A. Burden, Jr., 1895. 2. Emily Vanderbilt Sloane, b. 1877; m. William B. Osgood Field, 1902. 3. Lila Vanderbilt Sloane, b. 1878. 4. Malcolm D. Sloane, b. 1881.	1. Cornelius Vanderbilt, b. 1898. 2. Grace Vanderbilt, b. 1899. 1. Flora Payne Vanderbilt Whitney, b. 1897. 2. Vanderbilt Whitney, b. 1899. 1. William Henry Vanderbilt, b. Nov. 24, 1901. 1. Kathleen, b. 1904. 1. William Jay Schieffelin, Jr., b. 1891. 2. Margaret Louisa Schieffelin, b. 1893. 3. Mary Jay Schieffelin II, b. 1896. 4. John Jay Schieffelin, b. 1897. 5. Louise Vanderbilt Schieffelin, b. 1901. 1. Teresa Fabbri, b. 1897. 2. Ernesto G. Fabbri, Jr., b. 1900. 1. Dave H. Morris, Jr., b. 1900. 2. Louise Morris, b. 1901. 1. John, Marquis of Blandford, b. 1897. 2. Lord Ivor Charles Spencer-Churchill, b. 1898. 1. Muriel Vanderbilt, b. 1900. 2. Consuelo Vanderbilt, b. 1903. 3. A son, b. 1907. 1. James A. Burden, b. 1897.

NOTE.—In the pedigrees of the Vanderbilts and Astors the dates in some instances, particularly of the older branches and of branches residing abroad, are subject to correction. The above table and that of the Astors were submitted to members of the respective families and were revised by them to the best of their knowledge.

4. Marguerite Hyde Leiter; m. Dec. 26, 1904, Henry Molyneux Paget Howard, Earl of Suffolk.	1. Charles Henry George Howard, b. 1906.		

**THE GOELETS.**

DESCENDANTS OF ROBERT GOELET.

Born in New York, 1809; married Sarah Ogden; died 1879.

CHILDREN.	Grandchildren.	Great-Grandchildren.	Great-Great-Grandchildren.
1. Robert Goelet, b. New York, Sept. 29, 1841; m. Henrietta Louise Warren, 1879; d. April 27, 1889.	1. Robert Walton Goelet, b. March 19, 1880. 2. Beatrice Goelet; d. 1897.		
2. Ogden Goelet, b. June 11, 1846; m. May R. Wilson, 1877; d. Aug. 27, 1897.	1. Robert Goelet; m. Elsie Whelen, 1904. 2. May Goelet; m. the Duke of Roxburghe, 1903.	Ogden Goelet, b. Jan. 17, 1907.	

## THE AMERICAN MULTI-MILLIONAIRES—Continued.

## THE LORILLARDS.

DESCENDANTS OF PETER LORILLARD.  
Born March 17, 1796; married Catherine Griswold; died 1887.

CHILDREN.	Grandchildren.	Great-Grandchildren.	Great-Great-Grandchildren.
1. Pierre Lorillard, b. 1833; m. Emily Taylor, 1853; d. 1901.	1. Emily Lorillard, b. 1858; m. William Kent, 1881.	1. William Kent, Jr., b. April 14, 1829. 2. Emily L. Kent, b. Oct. 23, 1884. 3. Peter L. Kent, b. March 3, 1887. 4. Richard Kent, b. Feb. 5, 1904.	
	2. Pierre Lorillard, Jr., b. 1860; m. Caroline J. Hamilton, 1881.	1. Pierre Lorillard, 3rd, b. March 10, 1852. 2. Griswold Lorillard, b. June, 1885.	
	3. Griswold N. Lorillard, b. 1863; d. 1888, unmarried.		
	4. Maude Louise Lorillard, b. 1873; m. Thomas Suffern Taiter, 1893; 2d. Cecil Baring, London, England, Nov. 8, 1902.	1. Lorillard Taiter, b. Dec. 25, 1897. 2. Daphne Baring, b. Feb., 1904. 3. Daughter b. Oct., 1905.	
2. George L. Lorillard, married.	No issue.		
3. Louis L. Lorillard; m. Katherine Beckman.	1. Louis L. Lorillard, Jr. 2. George L. Lorillard. 3. Beckman Lorillard; m. 1903, Kathleen Doyle.		
4. Jacob Lorillard; m. Frances A. Uihorn.	1. Augusta Lorillard; m. William H. Sands. 2. Ernest E. Lorillard; m. Elizabeth K. Screven. 3. Jacob Lorillard, Jr.	1. Harold A. Sands. 2. Anita L. Sands. 1. Mary V. R. Lorillard.	
5. Eva Lorillard; m. Col. Lawrence Kip, 1891.	1. Lorillard Kip; d. 1896. 2. Eva Maria Kip; d. 1870. 3. Edith Kip; m. Richard McCreery.	1. Lawrence McCreery.	
6. Mary Lorillard; m. Henry I. Barbey.	1. Henry G. Barbey. 2. Mary L. Barbey; m. Alfred Seton, Jr. 3. Ethel Lynde Barbey; m. 1895, A. Lanfear Norrie. 4. Helene Barbey; m. Count Hermann de Pourtales. 5. Eva Barbey; m. Baron Andie de Neuflyze. 6. Rita Barbey 7. Pierre L. Barbey.	1. Marie Seton. 2. Helen Seton. 3. Henry Seton. 1. Lanfear Norrie. 2. Emily Rita Norrie. 3. Valerie Norrie. 1. Irene Pourtales. 2. Alex. Pourtales. 3. Jacquelin Pourtales. 1. Marie Madeline de Neuflyze.	
7. Catherine Lorillard; m. James P. Kernochan.	1. James Lorillard Kernochan; m. Eloise Stevenson; d. 1903. 2. Catherine Lorillard Kernochan; m. Herbert C. Pell.	1. Herbert C. Pell, Jr. 2. Clarence C. Pell.	

## THE CARNEGIES.

DESCENDANT OF ANDREW CARNEGIE  
Born at Dumfermline, Scotland, Nov. 25, 1835; married, 1887, Louise Whitfield.

CHILDREN.	Grandchildren.	Great-Grandchildren.	Great-Great-Grandchildren.
Margaret Carnegie, b. 1897.			

There are relatives of Mr. Carnegie residing in the United States, including his brother, Thomas Carnegie, and family at Pittsburgh, Pa., but Andrew Carnegie is alone the founder of the American multi-millionaire family.

## THE ARMOURS.

DESCENDANTS OF PHILIP DANFORTH ARMOUR.  
Born in Stockbridge, N. Y., May 16, 1832; married, 1862, Malvina Belle Ogden; died Jan. 6, 1901.

CHILDREN.	Grandchildren.	Great-Grandchildren.	Great-Great-Grandchildren.
1. Jonathan Ogden Armour, b. 1867; m. Lolita Sheldon.	1. Lolita, b. 1896.		
2. Philip Danforth Armour, Jr., b. 1869; m. 1890; d. 1900.	1. Philip Danforth Armour, 3d, b. 1894. 2. Lester Armour, b. 1896.		

## AS OBSERVED IN AMERICAN SOCIETY.

## CALLS.

The hours for women's formal calls are between 3 and 6 in the afternoon. Men may call in the evening or on Sunday afternoons if their engagements are such as to make it impossible for them to call upon the "At Home" day. A formal call should not last more than fifteen or twenty minutes. On an "At Home" day it may be even more brief. Calls should always be paid on a woman's "day," if possible. On other days it is permissible for her to give orders to her servants that she is "not at home."

The first call is made by an old resident on a new comer. A bride receives calls before she pays them. A visiting stranger should be called upon by residents before she is expected to pay any calls herself.

The reception of an invitation to any social function, whether the invitation be accepted or declined, constitutes a social debt to be discharged by a call. Failure to do this is a slight to the hostess. The guests invited to a wedding must call on the mother of the bride soon after the wedding, and call promptly on the bride as soon as she is settled after her marriage. Calls are in order after a bereavement in a family. Calls of inquiry, when there is illness in a household, are also desirable. Such calls as these are made whether social calls are due or not.

First calls should be returned within a week or ten days after they are received. The call should be on the "At Home" day, when feasible. Calls of purely formal acquaintances should be exchanged at least once a season if the social relations between them is to be maintained.

A man, in calling, leaves his overcoat, overshoes, and umbrella in the hall. At a first call he may carry his hat and cane into the drawing-room with him, although this is not obligatory. At later calls he should leave them in the hall.

A woman wearing overshoes and a storm-coat when calling may leave them in the hall with her umbrella.

When a man and a woman are calling together it is the man's place to wait for the woman to give the signal to leave. When two women are calling together it is the place of the senior of the two to make the first move. It is bad form to linger over the leave-takings after a start has been made.

## CARDS.

Men's calling cards should be small, thin, and perfectly plain except for the inscription in script, old English, or block lettering. The man's full name or the initials of his Christian names and his surname should be given, always preceded by "Mr.," unless it is followed by "Jr." or in cases where a title or a degree is appended. A physician may have his name preceded by "Dr.," or followed by "M. D.," a clergyman's card may either read "Reverend John H. Smith," or, if he has a degree, "John H. Smith, D. D."

The address should be in the lower right-hand corner. If both a house and a club address are given, the latter is in the lower left-hand corner, the former in the lower right-hand corner.

Abbreviations or nicknames of any sort are out of place on a card. So are fac-simile signatures.

The married woman's calling card is a little larger than that used by the unmarried woman. The cards for women are larger and heavier than those for men, are very plain, and are lettered in the same fashion. The matron's card bears her married name, as "Mrs. David James Pitkin." The address is in the lower right-hand corner, the "At Home" day in the lower left-hand corner. The hours at which she is "At Home" are also mentioned if she wishes to limit these.

The unmarried woman's card bears simply the title and the surname, if she is the oldest or only daughter, as "Miss Brown." A younger daughter's given name should appear, as "Miss Eleanor Brown." Young girls in their early social seasons have their names engraved on the same cards with their mothers. A widow's card may bear either her married name, as she wrote it in her husband's lifetime, or her own given names preceding her surname.

When visiting a friend who is stopping in the house of some one who is a stranger to the caller, the latter leaves a card for the hostess as well as for the friend. In calling on other than an "At Home" day, the cards are handed to the maid at the door, after the inquiry as to whether or not the hostess is at home. They are left in either case.

Cards may be made to take the place of a call on occasions of condolence, congratulation, or inquiry. They may be left in person or sent by post. The former method is better form.

## INVITATIONS AND ANNOUNCEMENTS.

An invitation to a large and formal dinner should be sent out not less than a week or ten days in advance. A reply should be sent within twenty-four hours. If the invitation is written in the third person the reply should be couched in the same form. If it is framed in a less formal way the answer should be in similar fashion. A written regret should, of course, be sent if a person, after accepting an invitation to dinner, is prevented from being present.

Invitations to large weddings are sent out from two to four weeks before the ceremony. No reply is necessary to an invitation unless especially requested. When a guest is unable to attend a home wedding cards should be sent to the parents of the bride the day of the marriage. No acknowledgment is demanded for cards to a church wedding, although cards should be left for the bride's mother after the marriage. A good general rule for all invitations, except those to church weddings, is to reply to them as promptly as possible. Announcement cards should be met by a call on the bride's mother, or by cards left for her, and by personal cards sent to the bride upon her return from her wedding trip, or by a call in person on her "At Home" days. Out of town friends should send cards, and the failure to acknowledge the receipt of a wedding announcement, by a note or cards, is a serious breach of good manners, and warrants the inference that the recipient is either ignorant or indifferent to the courtesy.

Cards should be left in acknowledgment of announcement of an engagement or a birth. The notes of condolence which should always be sent to a bereaved family should be acknowledged by a note, or by a card bearing a word of thanks or appreciation.

### Legal Holidays in the Various States.

**JANUARY 1. NEW YEAR'S DAY:** In all the States (including the District of Columbia, Arizona, and New Mexico), except Massachusetts, Mississippi, and New Hampshire.

**JANUARY 8. ANNIVERSARY OF THE BATTLE OF NEW ORLEANS:** In Louisiana.

**JANUARY 19. LEE'S BIRTHDAY:** In Florida, Georgia, North Carolina, South Carolina, Virginia, Alabama, and Arkansas.

**FEBRUARY. MARDI-GRAS:** In Alabama and the parish of Orleans, Louisiana.

**FEBRUARY 12. LINCOLN'S BIRTHDAY:** In Colorado, Connecticut, Delaware, Illinois, Kansas, Massachusetts, Minnesota, Nevada, New Jersey, New York, North Dakota, Pennsylvania, Washington, and Wyoming.

**FEBRUARY 22. WASHINGTON'S BIRTHDAY:** In all the States, District of Columbia, and Arizona, except Mississippi, where it is observed by exercises in the public schools.

**MARCH 2. ANNIVERSARY OF TEXAN INDEPENDENCE:** In Texas.

**APRIL.** In Oregon, the forty-fifth day preceding general State Election, primary nominating election held. Every day on which an election is held throughout the State is a legal holiday.

**APRIL 17, 1908. GOOD FRIDAY:** In Alabama, Delaware, Florida, Louisiana, Maryland, Minnesota, New Jersey, Pennsylvania, Tennessee.

**APRIL 19. PATRIOTS' DAY:** In Maine and Massachusetts.

**APRIL 21. ANNIVERSARY OF THE BATTLE OF SAN JACINTO:** In Texas.

**APRIL 26. CONFEDERATE MEMORIAL DAY:** In Alabama, Florida, Georgia, and Mississippi.

**MAY 10. CONFEDERATE MEMORIAL DAY:** In North Carolina and South Carolina.

**MAY (Second Friday) CONFEDERATE DAY:** In Tennessee.

**MAY 20. ANNIVERSARY OF THE SIGNING OF THE MECKLENBURG DECLARATION OF INDEPENDENCE:** In North Carolina.

**MAY (last Friday) PIONEER DAY:** In Montana, observed in public schools.

**MAY 30. DECORATION DAY:** In all the States and Territories (and District of Columbia), except Florida, Georgia, Idaho, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas. In Virginia, known as "Confederate Memorial Day."

**JUNE 3. JEFFERSON DAVIS'S BIRTHDAY:** In Florida, Georgia, Alabama, Mississippi, Tennessee, Texas, and South Carolina. In Louisiana, known as "Confederate Memorial Day." In Virginia, in public schools.

**JUNE (first Monday), even years, general State election in Oregon.**

**JULY 4. INDEPENDENCE DAY:** In all the States, District of Columbia, and Territories.

**JULY 24. PIONEERS' DAY:** In Utah.

**AUGUST. PRIMARY ELECTION DAYS:** In Missouri.

**AUGUST 16. BENNINGTON BATTLE DAY:** In Vermont.

**SEPTEMBER 7, 1908. LABOR DAY:** In all the States and Territories (and District of Columbia), except North Dakota. In Louisiana, observed in Orleans Parish. In Wyoming by proclamation of the Governor.

**SEPTEMBER (First Tuesday) PRIMARY ELECTION DAY:** In Wisconsin.

**SEPTEMBER 9. ADMISSION DAY:** In California.

**SEPTEMBER 12. "OLD DEFENDERS' DAY":** In Baltimore, Md.

**OCTOBER 31. ADMISSION DAY:** In Nevada.

**NOVEMBER 1. ALL SAINTS' DAY:** In Louisiana.

**NOVEMBER 3. GENERAL ELECTION DAY:** In Arizona, California, Colorado, Delaware, Florida, Idaho (Illinois in Chicago, Springfield and East St. Louis only), Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio (from 5.30 A.M. to 9 A.M. only), Oklahoma, Oregon (vote for Presidential elections only), Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, West Virginia, Washington, Wisconsin, and Wyoming, in the years when elections are held therein. In 1908 in States holding such elections the date is November 3.

**NOVEMBER 3, 1908. THANKSGIVING DAY** (usually the fourth Thursday in November): Is observed in all the States, and in the District of Columbia, Arizona, and New Mexico, though in some States it is not a statutory holiday.

**DECEMBER 25. CHRISTMAS DAY:** In all the States, District of Columbia, and Territories.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

There are no statutory holidays in Mississippi, but by common consent the Fourth of July, Thanksgiving and Christmas are observed. In New Mexico, Washington's Birthday, Decoration Day, Labor Day, Flag Day (June 14), and Arbor Day are holidays when so designated by the Governor.

In South Carolina, Thursday of Fair Week is a legal holiday.

**ARBOR DAY** is a legal holiday in Arizona, Maine, Maryland, New Mexico, Wisconsin, and Wyoming, the day being set by the Governor; in Texas, February 22; Nebraska, April 22; Utah, April 15; Rhode Island, second Friday in May; Montana, second Tuesday in May; Georgia, first Friday in December; Colorado (school holiday only), third Friday in April; in Oklahoma, the Friday following the second Monday in March; in Arkansas, first Saturday in March.

Every Saturday after 12 o'clock noon is a legal holiday in California in public offices, Illinois (in cities of 200,000 or more inhabitants), Maryland, Michigan, New York, New Jersey, Ohio, Pennsylvania, Rhode Island, Virginia, the District of Columbia (for banking purposes), and in New Orleans, La., and Charleston, S. C.; in Louisiana and Missouri in cities of 100,000 or more inhabitants; in Tennessee, for State and county officers, and in Colorado during June, July, and August; in Indiana, first Saturday in June to last Saturday in October, inclusive, for all public offices in counties having a county-seat of 100,000 population or more.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes but, with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the District of Columbia and the Territories.

### Ember and Rogation Days.

EMBER and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember Days (twelve annually) are the Wednesday, Friday, and Saturday after the first Sunday in Lent, after the feast of Pentecost (Whit Sunday), after the festival of the Holy Cross, and after the festival of St. Lucia. Ember Weeks are the weeks in which the Ember Days appear.

Rogation Days are the three days immediately preceding Holy Thursday or Ascension Day.

Old English Holidays.

THESE holidays, with their names, had their origin in mediæval England when the State religion was that of the Church of Rome, and they are still observed generally or in some parts of Britain.

JANUARY 6. TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

FEBRUARY 2. CANDELMAS: Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year.

FEBRUARY 14. OLD CANDELMAS: St. Valentine's Day.

MARCH 25. LADY DAY: Annunciation of the Virgin. April 6 is old Lady Day.

JUNE 24. MIDSUMMER DAY: Feast of the Nativity of John the Baptist. July 7 is old Midsummer Day.

JULY 15. ST. SMITH'S DAY: There was an old superstition that if rain fell on this day it would continue forty days.

AUGUST 1. LAMMAS DAY: Originally in England the festival of the wheat harvest. In the Church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

SEPTEMBER 29. MICHAELMAS: Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

NOVEMBER 1. ALL-HALLOWMAS: All-hallows, or All Saints' Day. The previous evening is All-hallow-e'en, observed by home gatherings and old-time festive rites.

NOVEMBER 2. ALL SOULS' DAY: Day of prayer for the souls of the dead.

NOVEMBER 11. MARTINMAS: Feast of St. Martin. Old Martinmas is November 23.

DECEMBER 28. CHILDERMAS: Holy Innocents' Day. Lady Day, Midsummer Day, Michaelmas, and Christmas are quarter (rent) days in England, and Whitsunday, Martinmas, Candelmas, and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and Maundy Thursday, the day before Good Friday, are observed by the Church. Mothering Sunday is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

The Commonest Names.

THE following table shows the fifty commonest names in England and Wales, Scotland and Ireland arranged in the order of their frequency according to a compilation made by the London *Poll Mall Gazette*; also the fifty commonest names in the cities of New York, Chicago, Philadelphia and Boston, specially compiled for THE WORLD ALMANAC from the City Directories of the respective cities.

	England & Wales.	Scotland.	Ireland.	New York City	Chicago.	Philadelphia.	Boston.

## The Theodore Roosevelt Pedigree.

Isaac Roosevelt,  
Nicholas Roosevelt.

CLAES MARTENSZEN  
VAN ROSENVELT,  
of Zeeland, Holland,  
emigrated to New  
Netherland, 1649-50  
with his wife Jaantje  
Samuel's-Thomas,  
had issue:—  
Isaac Roosevelt,  
Nicholas Roosevelt.

NICHOLAS ROOSE-  
VELT (1658-1742),  
born September 1658;  
Alderman of New  
York, 1698-1701; died  
1743; married 1682,  
Heyltje Jans Kunst,  
by whom he had  
issue:—

Jacobus Roosevelt,  
Johannes Roosevelt.

JOHANNES ROOSEVELT (1689- ), bap-  
tised March 3, 1689 at Esopus, New York;  
Alderman, etc.; married Heyltje Sjoerts, and  
by her had issue:—

JACOBUS ROOSEVELT (1724- ), baptised  
August 9, 1724; married Annatje Bogard, and  
had issue:—

JACOBUS ROOSEVELT (1759-1840), baptised  
October 25, 1759, a soldier, Commissary in the  
Revolutionary War; married Mary Helen  
Van Shaack, and dying 1840, left by her (who  
died 1845), issue:—

CORNELIUS VAN SHACK ROOSEVELT  
(1794-1871), born January 30, 1794; died 1871;  
married Margaret Barnhill (descendant of  
Thomas Potts, member of the New Jersey Pro-  
vincial Congress), and by her (who died 1861),  
had issue:—

Silas Roosevelt, married Mary West.  
James Alfred Roosevelt, married Eliza-  
beth N. Emlen, by whom he had—  
William Emlen, born April 30, 1857.  
William Roosevelt, died in infancy.  
Cornelius V. S. Roosevelt, married Laura  
Porter.  
Robert Barnhill Roosevelt, born August 7,  
1829; Member of Congress, Minister to  
the Netherlands; died June 14, 1906;  
married first, 1850, Elizabeth, daughter  
of John Ellis, by whom he had issue:—  
John Ellis Roosevelt, married Nannie  
M. Vance.

Robert Barnhill Roosevelt, married first,  
Grace Woodhouse; married second,  
Lillie Hamersley  
He married, second, Marion, daughter  
of John O'Shea, of Nenagh, Ireland, and  
widow of R. Francis Fortescue.  
Theodore Roosevelt of whom below.

THEODORE ROOSEVELT (1831-1878), born  
September 22, 1831; died February 9, 1878;  
Collector of the Port of New York; married  
December 22, 1853, Martha, daughter of Major  
James Stephens Bullock, of Georgia, and by her  
(who died February 12, 1884), had issue:—  
Theodore Roosevelt, President of the  
United States of America.  
Elliott Roosevelt, born February 28, 1860;  
married 1883, Anna Hall, and by her  
has issue:—

Elliott Roosevelt,  
Anna Eleanor Roosevelt.

Grace Roosevelt.

Anna Roosevelt, born January 7, 1855;  
married 1895, William S. Cowles, Rear-  
Admiral, United States Navy, by whom  
she has issue:—

William S. Cowles.

Corinne Roosevelt, born September 27,  
1861; married 1882, Douglas Robinson,  
by whom she has:—

Theodore Roosevelt,  
Monroe D. Roosevelt,  
Stewart D. Roosevelt,  
Corinne D. Roosevelt.

THEODORE ROOSEVELT, President of the  
United States of America; born at New York,  
October 27, 1858; married first, October 27,  
1880, Alice Hathaway, daughter of George  
Cabot and Caroline (Haskell) Lee, of Boston,  
Mass., and by her (who died February 14,  
1884), had issue:—

Alice Lee Roosevelt, born February 12,  
1884; married February 17, 1906, Nich-  
olas, son of Nicholas Longworth of Cin-  
cinnati, Ohio, by Susan, his wife, daughter  
of Judge Timothy Walker.

He married second, December 2, 1886, Edith  
Kermit, daughter of Charles and Gertrude  
Elizabeth (Tyler) Carrow, of New York City,  
and by her has had issue:—

Theodore Roosevelt, born September 13,  
1887.

Kermit Roosevelt, born October 10, 1889.  
Ethel Carrow Roosevelt, born August 10,  
1891.

Archibald Bullock Roosevelt, born April  
9, 1894.

Quentin Roosevelt, born November 19,  
1897.

## Rough Riders' Association.

BEFORE the disbanding of the First Regiment United States Volunteer Cavalry, serving in  
Cuba, the members organized the Rough Riders' Association. All members of the regiment are  
eligible to membership in the Association, and membership descends to the eldest sons of original  
members, as in the Order of the Cincinnati, founded by the officers of the Revolutionary War.  
The following are the officers: *President*—C. E. Hunter, Oklahoma City, Okl. *Vice-President*—  
Dave Goodrich, New York. *Secretary-Treasurer*—B. H. Colbert, Tishomingo, Okl.

## Mount Vernon Ladies' Association.

THE Washington Estate at Mount Vernon, Va., is under the care and direction of the Mount Ver-  
non Ladies' Association of the Union. The founder of the Association in 1854 was Miss Ann Pamela  
Cunningham, of South Carolina. She was the first Regent, and her successors have been Mrs. Lily  
M. Berghman, 1874, and Mrs. Justine Van Rensselaer Townsend, 1893, the present Regent. There  
are Vice-Regents for twenty-nine States.

The present officers are: *Regent*—Mrs. Justine Van Rensselaer Townsend. *Secretary*—Mrs. Jennie  
Meeker Ward, Ottawa, Kan. *Treasurer*—E. Francis Riggs, D. C. *Resident Superintendent*—Harrison  
H. Dodge. *Assistant Superintendent*—James Young. *Advisory Committee*—Lewis Cass Ledyard, N. Y.

## Foundation for the Promotion of Industrial Peace.

ACT OF CONGRESS PROVIDING FOR THE DISPOSITION OF PRESIDENT ROOSEVELT'S NOBEL PRIZE.

The following is the text of Chapter 2,558 of the Acts of the Fifty-ninth Congress, second session, entitled, "An Act to Establish the Foundation for the Promotion of Industrial Peace," approved March 2, 1907:

Whereas, Alfred Bernard Nobel, of the City of Stockholm, in the kingdom of Sweden, having by his last will and testament provided that the residue of his estate shall constitute a fund, the income from which shall be annually awarded in prizes to those persons who have, during the year, contributed most materially to benefit mankind, and having further provided that one share of said income shall be awarded to the person who shall have most or best promoted the fraternity of nations and the abolishment or diminution of standing armies and the formation and increase of peace congresses; and

Whereas the Norwegian Parliament having, under the terms of said foundation, elected a committee for the distribution of the peace prize, and this committee having in the year 1906 awarded the aforesaid prize to Theodore Roosevelt, President of the United States, for his services in behalf of the peace of the world; and

Whereas the President desiring that this award shall form the nucleus of a fund the income of which shall be expended for bringing together in conference at the City of Washington, especially during the sessions of Congress, representatives of labor and capital for the purpose of discussing industrial problems, with the view of arriving at a better understanding between employers and employees, and thus promoting industrial peace; therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Chief Justice of the United States, the Secretary of Agriculture, and the Secretary of Commerce and Labor, and their successors in office, together with a representative of labor and a representative of capital and two persons to represent the general public, to be appointed by the President of the United States are hereby created trustees of an establishment by the name of the Foundation for the Promotion of Industrial Peace, with authority to receive the Nobel Peace Prize awarded to the President and by him devoted to this foundation, and to administer it in accordance with the purposes herein defined. Any vacancies occurring in the number of trustees shall be filled in like manner by appointment by the President of the United States.

Section 2. That it shall be the duty of the trustees herein mentioned to invest and reinvest the principal of this foundation, to receive any additions which may come to it by gift, bequest, or devise, and to invest and reinvest the same; and to pay over the income from the foundation and its additions, or such part thereof as they may from time to time apportion, to a committee of nine persons, to be known as "The Industrial Peace Committee," to be selected by the trustees, three members of which committee shall serve for the period of one year, three members for the period of two years, and three members for the period of three years; three members of this committee to be representatives of labor, three to be representatives of capital, each chosen for distinguished services in the industrial world in promoting righteous industrial peace, and three members to represent the general public. Any vacancies which may occur in this committee shall be filled by selection and appointment in the manner prescribed for the original appointment of the committee, and when the committee has first been fully selected and appointed each member thereafter appointed shall serve for a period of three years or the unexpired portion of such term.

Sec. 3. That the Industrial Peace Committee herein constituted shall arrange for an annual conference in the City of Washington, District of Columbia, of representatives of labor and capital for the purpose of discussing industrial problems, with the view of arriving at a better understanding between employers and employees; it shall call special conferences in case of great industrial crises, and at such other times as may be deemed advisable, and take such other steps as in its discretion will promote the general purposes of the foundation; subject, however, to such rules and regulations as may be prescribed by the trustees. The committee shall receive suggestions for the subjects to be discussed at the annual or other conferences and be charged with the conduct of the proceedings at such conferences. The committee shall also arrange for the publication of the results of the annual and special conferences.

Sec. 4. That all expenditures authorized by the trustees shall be paid exclusively from the accrued income and not from the principal of the foundation.

Sec. 5. That the trustees herein named are authorized to hold real and personal estate in the District of Columbia to an amount not exceeding three million dollars, and to use and dispose of the same for the purposes of this foundation.

Sec. 6. That the principal office of the foundation shall be located in the District of Columbia, but offices may be maintained and meetings of the trustees and committees may be held in other places, to be provided for in by-laws to be adopted from time to time by the trustees, for the proper execution of the purposes of the foundation.

Sec. 7. That the Foundation for the Promotion of Industrial Peace is hereby authorized and empowered, at its discretion, to co-operate with any institutions or societies having similar or like purposes.

The act takes effect immediately on its passage.

## White House Rules.

The Cabinet will meet Tuesdays and Fridays from 11 A. M. until 1 P. M.

Senators and Representatives will be received from 10 A. M. to 12 M., excepting on Cabinet days.

Visitors having business with the President will be admitted from 12 to 1 o'clock daily, excepting Cabinet days, so far as public business will permit.

The East Room will be open daily, Sundays excepted, for the inspection of visitors, between the hours of 10 A. M. and 2 P. M. By direction of the President. William Loeb, Jr., Secretary.

Edward Margeson.  
John Ridgedale.

## The Confederate States of America.

South Carolina began the movement which led to the organization of the Southern Confederacy by the adoption at Charleston on December 20, 1860, by a convention of the people of the following ordinance of secession:

"We, the people of the State of South Carolina, in convention assembled, do declare and ordain, and it is hereby declared and ordained, that the ordinance adopted by us in convention on the 23d day of May, in the year of our Lord 1788, whereby the Constitution of the United States was ratified and also all acts and parts of acts of the General Assembly of this State ratifying amendments of the said Constitution are hereby repealed; and that the Union now subsisting between South Carolina and other States under the name of the United States of America, is hereby dissolved:

December 24 the Convention adopted a declaration setting forth the cause of the secession of the State, and the Governor issued a proclamation announcing the action of the State.

Acts of secession were adopted by the Legislatures of the other seceding States, as follows:

Jan. 9, 1861, Mississippi, by a vote of 84 to 15	Feb. 1, 1861, Texas, by a vote of 166 to 7
Jan. 10, " Florida, " " 62 to 7	April 17, " Virginia, " " 88 to 55
Jan. 11, " Alabama, " " 61 to 39	May 6, " Arkansas, " " 69 to 1
Jan. 19, " Georgia, " " 208 to 89	May 21, " North Carolina, " unanimous
Jan. 26, " Louisiana, " " 113 to 17	June 8, " Tennessee, " "

The States of Delaware, Maryland, Kentucky and Missouri, which were afterward represented in the Confederate Congress, did not pass ordinances of secession. In two States a popular vote was taken. The vote of Virginia for secession was 128,884; opposed, 32,134. Of Tennessee, for secession, 104,019; opposed, 47,238.

The congress of delegates from the seceding States met at Montgomery, Ala., February 4, 1861, and prepared a provisional Constitution of the Confederate States of America. This Constitution was discussed in detail and adopted February 8. On the next day an election was held for chief executive officers, and Jefferson Davis, of Mississippi, was elected provisional President and Alexander H. Stephens, of Georgia, provisional Vice-President.

On February 10, 1861, the joint convention of the provisional Senate and House of Representatives counted the electoral vote for President and Vice-President. The number of States voting was 11, total electoral votes, 109; all of which were for Jefferson Davis and Alexander H. Stephens.

President Davis was inaugurated at Montgomery, Ala., February 18, 1861, and again at Richmond, Va., February 22, 1862.

### CONFEDERATE CABINET OFFICERS.

**Secretaries of State**—1861, Robert Toombs, Georgia; 1861, Robert M. T. Hunter, Virginia; 1862, Judah P. Benjamin, Louisiana.

**Secretaries of the Treasury**—1861, C. G. Memminger, South Carolina; 1864, George A. Trenholm, South Carolina; 1865, John H. Reagan, Texas.

**Secretaries of War**—1861, Leroy P. Walker, Alabama; 1862, Judah P. Benjamin, Louisiana; 1862, George W. Randolph, Virginia; 1862, Gustavus W. Smith, Kentucky; 1862, James A. Seddon, Virginia; 1863, John C. Breckinridge, Kentucky.

**Secretary of the Navy**—1861, Stephen R. Mallory, Florida.

**Postmasters-General**—1861, Henry T. Ellet, Mississippi; 1861, John H. Reagan, Texas.

**Attorneys-General**—1861, Judah P. Benjamin, Louisiana; 1861, Thomas Bragg, North Carolina; 1862, Thomas H. Watts, Alabama; 1864, George Davis, North Carolina.

### THE BEGINNING AND END.

April 12, 1861, fire was opened by the South Carolina troops on Fort Sumter, Charleston Harbor. The following was the notification served on Major Robert Anderson, U. S. A., in command of the fort, by order of Brig.-Gen. Beauregard, C. S. A.:

"Sir—By authority of Brig.-Gen. Beauregard, commanding the provisional forces of the Confederate States, we have the honor to notify you that he will open the fire of his batteries on Fort Sumter in one hour from this time. We have the honor to be, very respectfully, your obedient servants,

"JAMES CHESTNUT, JR., Aide-de-camp.  
"STEPHEN D. LEE, Aide-de-camp."

The refusal of Major Anderson to surrender prior to the receipt of the above note was as follows:

"Fort Sumter, April 11, 1861.  
"General—I have the honor to acknowledge the receipt of your communication demanding the evacuation of this fort, and to say in reply thereto that it is a demand which I regret my sense of honor and my obligation to my government prevents my compliance. Thanking you for the fair and manly terms proposed and for the high compliment paid me, I am, General, very respectfully your obedient servant,  
"ROBERT ANDERSON, Major First Artillery, Commanding."

"Brig.-Gen. Beauregard, Commanding Provisional Army."

The last fight in the Civil War was at Palmetto Rancho, Texas, May 11, 1865. Gen. Lee surrendered at Appomattox Court House, Va., April 9, 1865.

All the States were represented in both Houses of Congress of the United States May 23, 1872.

Prices Paid for Rare American Coins

BY DEALERS IN NEW YORK.

Value of Rare Coins varies according to their condition. A worn coin is not worth as much as one showing features sharply and distinctly. The date of a coin may not give it as much value as it would from the date of that year, if the owners of rare coins living at a distance from New York, take pains to send them to dealers with care. Dealers on white paper, which can be sent by mail to dealers with minute and careful descriptions.

**Comparative Cost of Living in the United States.**

DUN'S INDEX NUMBER OF COMMODITY PRICES PROPORTIONED TO CONSUMPTION.

In the following table Dun's Index Number is given for July 1 each year, beginning with 1861. Figures are separated into the seven principal classes for convenience of comparison. Many hundred commodities are embraced in the table, which covers practically all the necessities of life. In explanation of the Index Number it should be stated that quantities of each commodity are taken in accordance with the annual per capita consumption, so that no article receives more or less than its relative position of importance. As the same quantities are taken of the same articles at each date, the record gives a faithful representation of the course of prices. Owing to the impossibility of obtaining accurate retail prices, wholesale quotations are taken. Consequently, to obtain the actual cost of living per capita, it is necessary to add a certain percentage of profit to the retailer. Otherwise the Index Number shows the actual wholesale cost of a year's supplies of all the necessities of life for a single individual at each date. There is no question of percentages, the exact figures being given. Thus, products costing \$101.92 on July 1, 1861, rose to \$278.98 in 1864, declined to \$72.45 in 1897, and were \$108.95½ at the latest date.

NOTE.—The quantity of mixed flour withdrawn cannot be stated, owing to the variable number of pounds taxed.

**United States Internal Revenue Taxes.****SCHEDULE OF ARTICLES AND OCCUPATIONS SUBJECT TO TAX.****SPECIAL TAXES AND RATES.**

Rectifiers of less than 500 barrels a year, \$100; rectifiers of 500 barrels or more a year, \$200.  
 Wholesale liquor dealers, \$100; retail liquor dealers, \$25.  
 Wholesale dealers in malt liquors, \$50; retail dealers in malt liquors, \$20.  
 Manufacturers of stills, \$50; and for stills or worms, manufactured, each, \$20.  
 Brewers: Annual manufacture less than 500 barrels, \$50; annual manufacture 500 barrels or more, \$100.  
 Manufacturers of filled cheese, \$400; wholesale dealers in filled cheese, \$250; retail dealers in filled cheese, \$12.  
 Manufacturers of oleomargarine, \$600; wholesale dealers in oleomargarine artificially colored in imitation of butter, \$480; wholesale dealers in oleomargarine free from artificial coloration, \$200; retail dealers in oleomargarine artificially colored in imitation of butter, \$48; retail dealers in oleomargarine free from artificial coloration, \$6.  
 Manufacturers of adulterated butter, \$600; wholesale dealers in adulterated butter, \$480; retail dealers in adulterated butter, \$48; manufacturers of process or renovated butter, \$50; manufacturers, packers or repackers of mixed flour, \$12.

**DISTILLED SPIRITS, ETC.**

Distilled spirits, per gallon, \$1.10; stamps for distilled spirits intended for export, each, 10 cents; except when affixed to packages containing two or more 5-gallon cans for export, 5 cents.  
 Case stamps for spirits bottled in bond, 10 cents.

Wines, liquors, or compounds known or denominated as wine, and made in imitation of sparkling wine or champagne, but not made from grapes grown in the United States, and liquors not made from grapes, currants, rhubarb or berries grown in the United States, but produced by being rectified or mixed with distilled spirits or by the infusion of any matter in spirits, to be sold as wine, or as a substitute for wine, in bottles containing not more than 1 pint per bottle or package, 10 cents; same, in bottles, containing more than 1 pint, and not more than 1 quart, per bottle or package, 20 cents (and at the same rate for any larger quantity of such merchandise, however put up or whatever may be the package).

Grape brandy used in the fortification of pure, sweet wine under an act approved June 7, 1906 (to be assessed), per gallon, 3 cents.

**FERMENTED LIQUORS.**

Fermented liquors per barrel, containing not more than 31 gallons, \$1 (and at a proportionate rate for halves, thirds, quarters, sixths and eighths of barrels); more than one barrel of 31 gallons, and not more than 63 gallons, in one package, \$2.

**TOBACCO AND SNUFF.**

Tobacco, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 6 cents; snuff, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 6 cents.

**CIGARS AND CIGARETTES.**

Cigars of all descriptions made of tobacco, or any substitute therefor, and weighing more than 3 lbs. per thousand, \$3; cigars of all descriptions made of tobacco, or any substitute therefor, and weighing not more than 3 lbs. per thousand, 18 cents per lb., 54 cents; cigarettes weighing not more than 3 lbs. per thousand and of a wholesale value or price of more than \$2 per thousand, 36 cents per lb., \$1.08; cigarettes weighing not more than 3 lbs. per thousand and of a wholesale value or price of not more than \$2 per thousand, 18 cents per lb., 54 cents; cigarettes weighing more than 3 lbs. per thousand, \$3.

**OLEOMARGARINE.**

Oleomargarine, domestic, artificially colored to look like butter, of any shade of yellow, per lb., 10 cents; oleomargarine, free from coloration that causes it to look like butter, of any shade of yellow, per lb.,  $\frac{3}{4}$  of one cent; oleomargarine, imported from foreign countries, per lb., 15 cents.

**ADULTERATED BUTTER AND PROCESS OR RENOVATED BUTTER.**

Adulterated butter, per lb., 10 cents; process or renovated butter, per lb.,  $\frac{3}{4}$  of one cent.

Filled cheese, per lb., 1 cent; same, imported, per lb., 8 cents.

**OPIMUM.**

Prepared smoking opium, per lb., \$10.

**MIXED FLOUR.**

Mixed flour, per barrel of 196 lbs., or more than 98 lbs., 4 cents; half barrel of 98 lbs., or more than 49 lbs., 2 cents; quarter barrel of 49 lbs., or more than 24 $\frac{1}{2}$  lbs., 1 cent; eighth barrel of 24 $\frac{1}{2}$  lbs. or less,  $\frac{1}{2}$  of one cent. (Mixed flour imported from foreign countries, in addition to import duties, must pay internal revenue tax as above.)

**CIRCULATION OF AND NOTES PAID OUT BY BANKS AND BANKERS.**

Circulation issued by any bank, etc., or person (except a national bank taxed under Section 5214 Revised Statutes, and Section 13, Act March 14, 1900), per month, 1-12 of 1 per cent.

Circulation (except national banks) exceeding 90 per cent, of capital, in addition, per month, 1-6 of 1 per cent.

Banks, etc., on amount of notes of any person, State bank, or State banking association, used for circulation and paid out, 10 per cent.

Banks, etc., bankers, or associations, on amount of notes of any town, city, or municipal corporation paid out by them, 10 per cent.

Every person, firm, association, other than national bank associations, and every corporation, State bank, or State banking association, on the amount of *their own notes* used for circulation and paid out by them, 10 per cent.

Every such person, firm, association, corporation, State bank, or State banking association, and also every national banking association, on the amount of notes of any person, firm, association, other than a national banking association, or of any corporation, State bank or State banking association, or of any town, city, or municipal corporation, used for circulation, and paid out by them, 10 per cent.

**PLAYING CARDS.**

Playing cards, per pack, containing not more than 54 cards, 2 cents.

**TAXES NOT PAYABLE BY STAMPS.**

Tax on deficient notes in production of spirits—On excess of materials used in production of spirits; on circulation of banks and bankers; on notes paid out by banks and others; on brandy used in the fortification of wine. Penalties of 50 per cent. and 100 per cent.

The entire number of documented vessels was 24,911, of which 10,050 were steamers and 14,861 were vessels other than steamers, all aggregating 6,938,794 tons.

The estimated value of the whole amount of floating property under the flag, according to the census of 1890, was \$215,069,290. The value according to the census of 1900 has not yet been reported. The statistics of the above table are for the fiscal year ending June 30, 1907.

SHIPBUILDING IN THE UNITED STATES.

The following table shows the class, number, and tonnage of the documented vessels built in this country during the last four years reported:

Tonnage of the United States in 1907, 6,938,794.  
 The above tables, except the data of merchant navies of the world for 1850, have been compiled from the report of the Commissioner of Navigation of the United States. Russia in 1906-7 had a tonnage of 1,327,627, and Spain of 747,237.

## Shipbuilding in the United States.

(From Census Bulletin No. 81.)

On January 1, 1905, 1,097 establishments, exclusive of those conducted by the Government, were engaged in iron and steel or wooden shipbuilding. The combined capital of these establishments was \$121,623,700. They employed, on an average, 50,754 wage-earners, paid \$29,241,087 in wages, used materials costing \$37,463,179, and manufactured products which, including repair work, were valued at \$82,769,239.

A comparison of these figures with those for the census of 1850 shows that the industry has made remarkable progress. Although the number of establishments has not increased materially, the capital invested has increased twenty-one fold and the value of the product nearly fourfold. As the construction of iron and steel ships has grown in importance since 1850, capital has become more essential to the development of the industry. During this time the altered conditions, the rapid transition from wood to iron and steel construction, have produced a progressive concentration of shipbuilding in large establishments. In 1850 the 2,138 establishments involved an investment of \$20,979,874, and, including repair work, gave an output of \$36,800,327. Twenty-five years later nearly six times the amount of capital, \$121,623,700, invested in about one-half the number of establishments, 1,097, gave an output valued at \$82,769,239.

### BRANCHES OF THE INDUSTRY.

In 1905 no less than 83.5 per cent. of the entire shipbuilding capital of the country was invested in iron and steel construction, as against 77.4 per cent. for 1900. Of the total number of private establishments reported in 1905, on the other hand, 95.1 per cent. were engaged in wooden construction work, for of the entire number of shipbuilding establishments not under governmental control only 54 were devoted to iron and steel construction, while 1,043 were credited to wooden construction. For 1900 the relative position of the two branches was nearly the same, as the number of establishments was 44 for iron and steel and 1,063 for wood. The majority of the establishments engaged in iron and steel construction are of great size and require costly and expensive equipment, while most of those engaged in wooden construction are small yards which perform minor repairs on small vessels, and turn out wooden vessels of comparatively light tonnage.

### MATERIALS USED.

Within the last fifteen years the increasing importance of iron and steel in shipbuilding has been especially marked. As an item of expense in 1890 the cost of iron and steel was less important than the cost of lumber, but in 1905 the cost of the former constituted 41.2 per cent. and the cost of the latter only 17.9 per cent. of the amount paid for materials.

### PRODUCTS.

In 1880 the value of the work done on wooden vessels of five tons and over was nearly three times as great as the value of work done on iron and steel vessels of the same class. For 1905 conditions were practically reversed, for the value of iron and steel work was nearly four times that of wood.

The value of "iron and steel construction" was \$43,395,704, and of "wooden construction" \$9,724,231, the total, \$53,119,935, being completed by an output of \$3,001,292 from "small boats under five tons," \$22,529,040 from repair work, and \$3,818,972 from "all other products."

Both in the capital invested and value of products New York and Pennsylvania have always been among the leading States. Virginia has made the most striking progress. Since 1850 this State has risen from twenty-second to third rank in value of products and from seventeen to first rank in capital invested. California and Washington led on the Pacific Coast, and Ohio and Michigan in the Great Lakes region.

Nearly three-fourths of the aggregate value of products of the shipbuilding industry was produced in the Atlantic and Gulf district. Although there was a greater number of establishments in the Great Lakes district than on the Pacific Coast, the value of the output of the latter was greater from the fact that on the Great Lakes many small establishments exist because of the market there for small boats.

### GOVERNMENT ESTABLISHMENTS.

An increasing navy has compelled the Government to equip the navy-yards adequately for the repair work which necessarily results from the larger number of vessels now continually in commission. Government yards have also undertaken the construction of the largest types of warships. As a result, the value of products of the Government establishments increased from \$11,022,312 for 1900 to \$17,265,469 for 1905, or 56.6 per cent.

### VESSELS LAUNCHED.

Of the total net tonnage of merchant vessels launched during 1904, 64.8 per cent. were built in the shipyards of the New England States and New York, New Jersey, and Pennsylvania, and of the production of these States 59.6 per cent. was intended for the lake and river trade.

The shipyards in the Atlantic and Gulf district launched vessels which aggregated a greater tonnage and value than the combined output of the shipyards in the other districts. With reference to the value of ships of five tons and over launched by private shipyards in 1900, Pennsylvania, Maine, Virginia, and New York led, in the order named, Michigan, for the Great Lakes, followed, with California sixth. Five years later Pennsylvania and Virginia still held first and third places, respectively, but California had risen to second place; Massachusetts supplanted New York in fourth place; Maine dropped to fifth, while the State of Washington rose from eleventh to sixth place. As a rule, the rank for steel vessels closely approximates the rank for all classes and governs the relative position of the State in shipbuilding.

### EQUIPMENT OF SHIPYARDS.

The repair work of a shipyard is closely connected with the drydock and marine railway equipment. Of the 1,097 private shipyards reported in 1905, 388, or 35.4 per cent., were credited with 77.3 per cent. of the total value of ship repairs reported by all establishments.

Two-thirds of the drydocks are situated in the North Atlantic States, New York alone had over one-third of the entire number. New Jersey, second in importance in this respect, had as many drydocks as the entire North Central division. The South Atlantic States had eighteen drydocks, the North Central States twenty-three, and the Western States only seven.

Foreign Trade of the United States.

(Compiled from the Report of the Bureau of Statistics of the Department of Commerce and Labor.)

Public Debt of the States, Cities, Counties, AND MINOR CIVIL DIVISIONS IN THE UNITED STATES.

(Statement by the Bureau of the Census, 1906.)

Table with columns for State or Territory, Debts of Cities, Debts of Minor Civil Divisions, Total, and Per Capita. Rows list various states and territories including North Atlantic Div., South Atlantic Div., West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, and Continental United States.

Minor civil divisions included in the third column above embrace villages, towns, townships, precincts, fire districts, irrigation districts, poor districts, school districts, etc.

\* Combined funded and floating debt in 1902. -The following States in 1902 maintained sinking funds to the amounts attached: Massachusetts, \$18,304,730; Rhode Island, \$444,455; New York, \$2,549,110; New Jersey, \$172,550; Pennsylvania, \$4,452,024; Delaware, \$7,655; Maryland, \$1,974,557; Virginia, \$217,040; North Carolina, \$307,648; South Carolina, \$224,569; Indiana, \$571,476; Michigan, \$86,237; Illinois, \$363,966; Missouri, \$20,204; North Dakota, \$1,116; South Dakota, \$46,737; Kentucky, \$324,548; Arkansas, \$66,580; Montana, \$114,483; Idaho, \$141,306; Colorado, \$164,953; New Mexico, \$122,277; Arizona, \$1,002; Nevada, \$18,494; California, \$419,630. Total, \$34,670,266.

**Indebtedness and Finances of Nations.**

The Fourth International Fisheries Congress will meet by the special invitation of the United States at Washington in 1908. Congress in February, 1907, appropriated three thousand dollars toward the expenses.

### UNITED STATES BUREAU OF FISHERIES.

DEPARTMENT OF COMMERCE AND LABOR.

THE work of the Bureau of Fisheries comprises (1) the propagation of useful food fishes, including lobsters, oysters and other shellfish, and their distribution to suitable waters; (2) the inquiry into the causes of decrease of food fishes in the lakes, rivers and coast waters of the United States, the study of the waters of the coast and interior in the interest of fish-culture, and the investigation of the fishing grounds of the Atlantic, Gulf and Pacific coasts, with the view of determining their food resources and the development of the commercial fisheries; (3) the collection and compilation of the statistics of the fisheries and the study of their methods and relations. Office, Sixth and B Streets, Washington, D. C. The official force of the Bureau is as follows: *Commissioner*, George M. Bowers; *Deputy Commissioner*, Hugh M. Smith; *Chief Clerk*, L. H. Dunlap. *Assistants in Charge of Division: Inquiry Respecting Food Fishes*, B. W. Eversman; *Fish Culture*, John W. Titcomb; *Statistics and Methods*, A. B. Alexander; *Architect and Engineer*, Hector von Bayer.

## The American Indian.

THE annual reports of the agents of the United States Bureau of Indian Affairs in 1905 showed that the Indian population was 284,079, distributed in the several States as follows:

Arizona .....	38,725	Kansas .....	1,182	New York .....	5,290	Washington .....	9,798
California .....	15,519	Michigan .....	6,333	North Carolina ..	1,455	Wisconsin .....	10,957
Colorado .....	887	Minnesota .....	9,164	North Dakota .....	7,741	Wyoming .....	1,694
Florida .....	358	Montana .....	10,324	Oklahoma .....	13,562	Miscellaneous .....	1,183
Idaho .....	3,560	Nebraska .....	3,639	Oregon .....	3,913		
Indian Ter. ....	93,333	Nevada .....	5,437	South Dakota .....	19,601	<b>Total</b> .....	<b>284,079</b>
Iowa .....	342	New Mexico .....	18,129	Utah .....	1,913		

Of the 274,706 Indian population in 1904, 116,333 wore citizen's dress and 43,602 wore a mixture of Indian and civilized clothing. Those who could read numbered 63,147 and 69,209 could carry on an ordinary conversation in English.

### INDIAN POPULATION IN DETAIL IN 1905.

The total Indian population of the United States, exclusive of Alaska, numbered 284,079 in 1905. The expenditures of the United States on account of the Indians in the fiscal year ended June 30, 1907, were \$15,140,292; The expenditures from 1789 to 1907, inclusive, have been \$454,737,332.

The appropriation made by Congress for Indian schools for the fiscal year ending June 30, 1907, was \$9,405,199.98. The Government supports 115 boarding schools, and 146 day schools. Indians incidentally under the Indian office, and self-supporting:

The five civilized tribes, Indians and colored—Cherokees, 36,782; Chickasaws, 10,767; Choctaws, 25,116; Creeks, 15,923; Seminoles, 3,049. Total Indians, 71,018; total colored, 20,619; grand total .....	91,637
Pueblos of New Mexico .....	8,874
Six Nations, Saint Regis, and other Indians of New York .....	5,295
Eastern Cherokees of North Carolina .....	1,455
Indians under control of the War Department, prisoners of war (Apaches at Ft. Sill, Okla.) .....	298

SOURCES OF GOLD AND SILVER PRODUCT OF THE UNITED STATES.

The following table, compiled from reports made by the United States Geological Survey as to the sources of production for the calendar year 1904, shows the distribution among the various gold and silver producing States and Territories of the amount of gold and silver extracted from quartz, the amount of gold obtained from placer, and the amount of silver obtained from lead ores and copper ores as by-product.

MONETARY STATISTICS—Continued.

PRESENT MONETARY SYSTEM OF THE UNITED STATES ILLUSTRATED.

	Gold Com.	Standard Silver Dollars.	Subsidiary Silver Com.	Minor Com.
Weight.....	25.8 grains to the dollar.	412.5 grains.	385.8 grains to the dollar.	5c. piece: 77.16 grains, 75 p. c. copper, 25 p. c. nickel. 1c. piece: 48 grains, 85 p. c. copper, 5 p. c. tin and zinc.
Fineness.....	900-1000.	900-1000.	900-1000.	Needs of the people.
Ratio to gold.....	15.983 to 1.	15.983 to 1.	14.923 to 1.	Needs of the people.
Limit of issue.....	Unlimited.	Coinage ceased in 1905.	Needs of the people.	Needs of the people.
Denominations.....	\$20, \$10, \$5, \$2½.	\$1.	50 cents, 25 cents, 10 cents.	5 cents, 1 cent.
Legal tender.....	Unlimited.	Unlimited, unless otherwise contracted.	Not to exceed \$10.	Not to exceed 25 cents.
Exchangeable.....	For all public dues.	For all public dues.	For all dues up to \$10.	For all dues up to 25 cents.
Redeemable.....	For gold certificates, as below, and subsidiary and minor com.	For silver certificates and smaller com.	For minor com.	.....
			In "lawful money" at the Treasury in sums or multiples of \$20.	In "lawful money" at the Treasury in sums or multiples of \$20.

	Gold Certificates.	Silver Certificates.	United States Notes.	Treasury Notes of 1890.	National Bank Notes.
Limit of issue.....	Unlimited for gold com unless gold reserve falls below \$100,000,000.	Quantity of silver dollars coined, \$502,173,530.	\$346,681,016.	No further issues; volume steadily diminishing by redemption with silver dollars.	Unlimited by law, except by volume of U.S. bonds necessary to deposit as security.
Denominations.....	\$10,000, \$5,000, \$1,000, \$500, \$100, \$50, \$20, \$10.	\$100, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$500, \$100, \$50, \$20, \$10, \$5.	\$1,000, \$100, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$500, \$100, \$50, \$20, \$10, \$5.
Legal tender.....	Not a tender.	Not a tender.	For all debts, public and private, except customs and interest on public debt.	Unlimited, unless otherwise contracted.	Not a tender.
Exchangeable.....	For all public dues.	For all public dues.	For all public dues.	For all public dues.	For all public dues except customs.
Redeemable.....	For subsidiary and minor com.	For silver and minor com.	For subsidiary and minor com.	For silver and minor com.	For subsidiary silver and minor com.
	In gold coin at the Treasury.	In silver dollars at the Treasury.	In gold at the Treasury.	In gold at the Treasury.	In "lawful money" at the Treasury, or at bank of issue.

"Lawful money" includes gold coin, silver dollars, United States notes, and Treasury notes. United States notes are by regulation receivable for customs so long as they continue redeemable in coin. There are still in use small amounts of \$1 and \$2 United States and national bank notes; also \$500 and \$1,000 silver certificates. Treasury notes were issued for purchases of silver bullion, which was coined into dollars wherewith the notes are being redeemed as rapidly as practicable. The issue of national bank notes is practically dependent upon the market price of United States bonds; when the premium is high it is not profitable to issue notes.

The above table was prepared for THE WORLD ALMANAC by Maurice L. Muhleman, former Deputy Assistant United States Treasurer, New York.

COINAGE OF THE MINTS OF THE UNITED STATES FROM THEIR ORGANIZATION, 1792, TO DECEMBER 31, 1906.

DENOMINATIONS.	Pieces.	Values.	DENOMINATIONS.	Pieces.	Values.			
GOLD.								
Double eagles.....	96,599,669	\$1,886,993,380.00	Dimes.....	474,974,190	\$49,497,419.00			
Eagles.....	38,679,807	386,798,070.00	Half dimes (coinage discontinued, act of February 12, 1873).....	97,604,388	4,880,219.40

Half dollars (Columb'n souvenir).....	5,002,105	2,501,052.50	Total coinage.....	4,412,018,501	\$3,642,410,154.28			
Quarter dollars.....	325,999,446	81,499,861.50						
Quarter dollars (Colb'n souvenir).....	40,023	10,005.75						
Twenty-cent pieces (coinage discontinued, act of May 2, 1878).....	1,355,000	271,000.00						

Silver-dollar coinage under acts of April 2, 1792, \$8,031,238; February 28, 1878, \$378,166,793; July 14, 1890, \$36,087,285; June 12, 1898, \$41,139,872; June 13, 1898, \$108,800,188; March 3, 1891, \$5,078,472; total, \$579,085,260.

### The Potentiality of the United States.

President James W. Van Cleave, of the National Association of Manufacturers, makes the following estimate of the productive power of the United States, compared with that of the entire world:

	United States.	The World.	U.S. P.C.
Population, 1900 .....	76,000,000	1,500,000,000	.05
Wheat, bushels, 1905 .....	693,000,000	3,337,000,000	.20
Coal, tons, 1905 .....	350,000,000	1,000,000,000	.35
Gold, 1906, value .....	\$96,000,000	\$400,000,000	.24
Manufacturings, value of products, 1905.....	\$15,000,000,000	\$43,000,000,000	.35
Silver, 1905, value.....	\$38,000,000	\$100,000,000	.38
Pig iron, tons, 1905.....	23,000,000	57,000,000	.40
Steel, tons, 1905.....	20,000,000	48,000,000	.42
Petroleum, gallons, 1905.....	6,000,000,000	11,000,000,000	.55
Copper, tons, 1905.....	403,000,000	735,000,000	.55
Cotton, bales, 1906.....	12,000,000	17,000,000	.70
Corn, bushels, 1906.....	2,927,000,000	3,700,000,000	.79

#### WEALTH OF THE UNITED STATES.

An estimate of the wealth of the United States in 1907 is given on another page as \$116,000,000,000. A Census Office report issued in 1907 presented the following classification of the forms in which the national wealth is divided, with their valuations. The calculations were for the year 1904:

Real property and improvements taxed.....	\$55,510,228,057
Real property and improvements exempt.....	6,831,244,570
Live stock .....	4,073,791,736
Farm implements and machinery.....	844,989,865
Manufacturing machinery, tools, and implements.....	3,297,754,180
Gold and silver coin and bullion.....	1,998,603,303
Railroads and their equipment.....	11,244,752,000
Street railways .....	2,219,966,000
Telegraph systems .....	227,400,000
Telephone systems .....	585,840,000
Pullman and private cars .....	123,000,000
Shipping and canals .....	846,489,804
Privately owned waterworks .....	275,000,000
Privately owned central electric light and power stations.....	562,851,105
Agricultural products .....	1,899,379,632
Manufactured products .....	7,409,291,068
Imported merchandise .....	495,543,685
Mining products .....	408,066,787
Clothing and personal adornments.....	2,500,000,000
Furniture, carriages and kindred property .....	5,750,000,000

### The Lake Mohonk Conference.

#### ON THE INDIANS AND OTHER DEPENDENT PEOPLES.

The twenty-fifth annual session of the Lake Mohonk Conference, at Lake Mohonk, N. Y., held in 1907, adopted the following platform in reference to the Porto Ricans, Hawaiians, and Filipinos:

1. We urge that our Government shall steadfastly adhere to the principle that a moral responsibility, which we cannot neglect, and which is higher than all commercial considerations, requires us to legislate and to administer so as to promote the highest welfare of the people of these islands.

2. We urge that Congress shall without delay legislate so as to effect a radical reduction of the duties now collected on products of the Philippine Islands.

3. We advise that the greatest educational emphasis be put upon the primary schools and the preparation of teachers therefor, and that such instruction shall have special reference to industrial training. The utmost effort should be made to secure the enrolment and attendance of all children. We maintain that it is the duty of Congress to provide adequately for such education, even if the necessary money were to come from direct appropriation.

4. Education in the duties of citizenship is an essential element in social and political progress. So fast as the Filipinos demonstrate their political capacity, powers of self-government should be granted and enlarged.

5. We recommend Congressional enactment to enable a large number of persons in the Philippine Islands to be naturalized as citizens of said islands. We believe that provision should be made by Congress whereby educated and duly qualified Porto Ricans may become citizens of the United States.

6. We urge upon Congress immediate legislation to protect the inhabitants of our insular possessions against the great evils of the opium traffic and the opium habit, which already threaten them.

7. We recommend that the application of the coastwise shipping act be permanently suspended with reference to the Philippines, and that Congress give serious attention to legislation necessary to relieve Hawaii from the disadvantages which this law imposes, and encourage the industrial development of Porto Rico.

8. With clear recognition of the ability shown in the administration of affairs in the Philippines, and the conviction that we have a body of competent men trained in colonial administration, it still seems to us that the Bureau of Insular Affairs, whose functions are essentially civil, should be ultimately committed to some other department than the Department of War.

**Banking Statistics.**

THE NATIONAL BANKS OF THE UNITED STATES.  
(From the annual report of the Comptroller of the Currency.)

Year Ending Sept. 1.	No. of Banks.	Capital.	Surplus.	Total Dividends.	Total Net Earnings.	Ratio of Dividends to Capital.	Ratio of Dividends to Surplus.	Ratio of Earnings to Capital and Surplus.

The Bankruptcy Law.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898.

SEC. 4. WHO MAY BECOME BANKRUPTS. —(a) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt.

(b) Any natural person (except a wage-earner or a person engaged chiefly in farming or the tillage of the soil), any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act. Private bankers, but not national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts.

SEC. 7. DUTIES OF BANKRUPTS. —(a) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate, but no testimony given by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

(a) Unlisted stocks. (b) Report of prices in 1907 is to December 1. (c) Scrip. (d) Includes \$60,000,000 gold notes. Standard Oil is an unlisted stock. Amount of stock outstanding is \$100,000,000. Last dividend 40 per cent. Highest quotation in 1907 to October 28, 564, lowest 405.

THE WORLD ALMANAC is indebted to "Bradstreet's" for the stock list and prices of stocks.

The Production of Common Brick.

Of the list of mineral products of the United States concerning which statistics are collected by the National Geological Survey only three—pig iron, copper, and bituminous coal—exceeded in value in 1906 the products of the clays; and of the clays themselves the product ranking highest in value was, as heretofore, the common brick, of which more than ten billions—to be exact, 10,027,039,000—were marketed during the last year, says the Geological Survey.

The value of this great product amounted to \$61,300,696, an increase of \$93,687 over the value for 1905, and constituted 47.30 per cent. of the value of all the brick and tile products and 38.07 per cent. of the value of the entire product of the clay industries. The largest production of common brick in 1906 by any one State was reported by New York, whose output amounted to 1,535,579,000 brick, valued at \$9,205,981, or about \$6 per thousand. This quantity represents 15.31 per cent. of the entire output of the country, and the value is 15.02 per cent. of the total.

The greater part of New York's common brick comes from the Hudson River region. Next to New York the largest producer of common brick in 1906 was Illinois, which reported an output of 1,195,210,000 brick, valued at \$5,719,906, or \$4.79 per thousand. The great common-brick producing region of Illinois is Cook County, and it was the decline in price in this district that brought the average price per thousand for the State to \$4.79, the lowest for several years.

The only other State reporting more than a billion common brick was Pennsylvania, whose marketed output amounted to 1,027,541,000 brick, valued at \$6,586,374, or \$6.41 per thousand. While third in quantity the product of this State was second in value and the average value per thousand was greater than that for either New York or Illinois. Ohio's production of common brick in 1906 was fourth in quantity and value—550,422,000 brick, valued at \$3,243,157, or \$5.89 per thousand—and New Jersey's was fifth, amounting to 413,258,000 brick, valued at \$2,610,686, or \$6.32 per thousand.

The other States range from Kansas, with 314,371,000 brick, valued at \$1,376,552, or \$4.38 per thousand, to South Dakota, with 6,064,000 brick, valued at \$54,173, or \$8.93 per thousand. California's 278,780,000 common brick were valued at \$1,962,866, or \$7.05 per thousand. The average price per thousand for common brick in 1906 was \$6.11.

### Legacy or Inheritance Tax Laws.

A law taxing the right to inherit personal property by will or intestate law was passed by Congress July 6, 1797. The rate was 25 cents on amounts from \$50 to \$100, 50 cents on amounts from \$100 to \$500, "and for every further sum of \$500, the additional sum of one dollar." This act continued in force until June 30, 1802, when it was repealed. A national legacy tax law was again enacted July 1, 1862, amended in 1864, and again in 1866, and repealed in 1870, five years after the close of the Civil War.

Again, June 13, 1898, Congress enacted a legacy tax law which was amended in 1901 and continued in force until repealed July 1, 1902. Under the acts of 1898 and 1901, the sum of \$21,603,699.02 was collected and paid into the national treasury up to June 30, 1904.

Pennsylvania enacted a legacy tax law April 6, 1826, which law, as amended from time to time, is still in force. Legacy tax laws were enacted in Maryland in 1844, and Delaware in 1869. They were enacted in North Carolina in 1846, and repealed in 1883. They were enacted in Virginia in 1844, repealed in 1855, re-enacted in 1863, and again repealed in 1874. Since 1885 legacy tax laws have been enacted in twenty-nine different States, namely, Arkansas, California, Colorado, Connecticut, Idaho (1907), Illinois, Iowa, Louisiana, Kentucky (1906), Maine, Massachusetts (1907), Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire (1905), New Jersey, New York, North Carolina (1907), North Dakota, Ohio (repealed 1906), Oregon, Tennessee, Texas (1907), Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

The Legislature of South Dakota in 1907 adopted a resolution for a constitutional amendment to this effect.

The following table shows the amount of legacy tax collected from the estates of some of the more prominent and wealthy decedents, some of whom were of national reputation:

*George Smith, resident of England (paid in New York) . . .	\$1,934,753.07	Joseph C. Hoagland, New York..	\$119,211.80
Ellis F. Huntington, New York . . .	665,000.00	Gustav W. Swift, Illinois.....	113,885.27
Jay Gould, New York . . . . .	600,000.00	Johnathan Scoville, New York...	112,758.08
Cornelius Vanderbilt, New York . .	450,052.90	Mary J. Winthrop, New York...	110,169.55
Cornelia M. Stewart, New York..	300,410.32	Leonard Lewisohn, New York...	107,634.36
Winfield S. Stratton, Denver, Col. . . . .	300,000.00	William Astor, New York.....	106,536.97
Wilson G. Hunt, New York.....	285,000.00	William H. Vanderbilt, New York . . . . .	103,612.59
Joshua Jones, New York . . . . .	284,937.53	Mary Eichler, New York.....	102,866.94
Emma A. Schley, New York . . . . .	261,490.67	W. W. Kimball, Illinois.....	86,700.21
Henrietta A. Lenox, New York . . .	234,635.70	A. M. Billings, Illinois . . . . .	85,724.75
William Whitawright, New York . . .	223,141.82	Potter Palmer, New York and Illinois . . . . .	78,063.99
Robert G. Dun, New York . . . . .	178,730.68	Ernest J. Lehman, Illinois.....	71,097.16
Catherine L. Wolfe, New York . . .	159,599.38	Silas B. Cobb, Illinois.....	63,238.32
Daniel B. Fayerweather, New York . . . . .	158,236.19	Levi Z. Leiter, Illinois . . . . .	48,235.83
George M. Pullman, Illinois...	158,232.01	Sidney Kent, Illinois . . . . .	38,070.09
John Knower, New York.....	152,319.72	Peter Fahrnev, Illinois.....	37,982.88
Daniel Edgar Crouse, Syracuse, N. Y. . . . .	150,882.48	Jacob Rosenberg, Illinois.....	37,067.32
Timothy B. Blackstone, New York and Illinois . . . . .	150,661.01	Charles W. Fullerton, Illinois...	36,461.62
Henry B. Plant, New York . . . . .	140,000.00	Catherine M. White, Illinois...	25,236.38
Ezra G. Benedict, Albany, N. Y. . .	131,122.59	Columbus R. Cummings, Illinois. .	21,861.40
Mary J. Walker, New York . . . . .	119,225.83	Joseph Medill, Illinois . . . . .	16,048.45
		Phillip D. Armour, Illinois.....	15,786.91
		Lucius E. Otis, Illinois.....	15,699.41

\* The transfer of all property, real, personal or mixed, within the jurisdiction of the State at date of death is subject to the tax, whether the decedent was a resident or non-resident. The tax is not a tax on property, but the right which the State grants to the legatee to inherit property.

### Immunity Bath Legislation.

The most radical change in judicial procedure effected by any recent congressional legislation is that which resulted from the "immunity bath" accorded certain corporate officers in connection with proceedings to enforce the anti-trust laws.

By an act approved March 2, 1907, it is provided that a writ of error may be taken by and on behalf of the United States from the District or Circuit Court direct to the Supreme Court of the United States in all criminal cases, in the following instances, to wit:

From a decision or judgment quashing, setting aside, or sustaining a demurrer to, any indictment, or any count thereof, where such decision or judgment is based upon the invalidity or construction of the statute upon which the indictment is founded.

From a decision arresting a judgment of conviction for insufficiency of the indictment, where such decision is based upon the invalidity or construction of the statute upon which the indictment is founded.

From the decision or judgment sustaining a special plea in Bar, when the defendant has not been put in jeopardy.

The writ of error in all such cases shall be taken within thirty days after the decision or judgment has been rendered, and shall be diligently prosecuted and shall have precedence over all other cases.

Pending the prosecution and determination of the writ of error in the foregoing instances, the defendant shall be admitted to bail on his own recognizance. Provided, that no writ of error shall be taken by or allowed the United States in any case where there has been a verdict in favor of the defendant.

United States Post-Office Statistics.

FISCAL YEARS.	Number of Post-Offices.	Extent of Post Routes in Miles.	Revenue of the Department.	Expenditure of the Department.	ACCOUNT PAID FOR
