(To speak of self is the hardest task the Compiler has undertaken
I will attempt to give some of the events which have occurred dur-
ing an uneventful life

My youthful days were spent on the farm in summer and district
school in winter Instruction at that early period consisted of
reading writing & cyphering, with a sprinkle of geography &
grammar thrown in. 1849 I was apprenticed to tailoring and for
several years followed Like other Delanos I was possessed of a
roving disposition 1856 found me in Chicago and for variety
shipped before the mast on board Schooner "Cascade" of Cleve-
land O. to Oswego N Y with wheat. The novelty wore off when
seasick, after a voyage of 12 days arrived at our destination & paid
off

In my younger days I desired to become a soldier, so went to
Buffalo June 20-1856. The next morning was at recruiting office
