

THE BULLOCK · PRINTING PRESS.

These Great machines continue to grow in favor with publishers of newspapers, who begin to see that the days of all Hand-Feed Printing Machines for fast work are numbered, whether for printing one or both sides of a sheet; for where is the sense of feeding by hand when it can be done better by machinery, and without cost?

THE BULLOCK SELF-FEEDING AND PERFECTING PRESS.

FEEDS ITSELF FROM ROLLS OF PAPER MILES IN LENGTH, AND PRINTS BOTH SIDES OF THE SHEET AT ONE OPERATION, THUS SAVING THE WHOLE COST OF FEEDING BY HAND.

Thirty **BULLOCK SELF-FEEDING AND PERFECTING PRESSES** are now in operation—some of them daily for the past seven years—in the following establishments:

Government Printing Office, Washington, D. C.,
Philadelphia Democrat,
Philadelphia Star,
Philadelphia City Item,
New York Sun,
Boston Herald,
New York Herald,
Pittsburgh Leader,
Chicago Staats-Zeitung,

Chicago Times,
Chicago Post,
Missouri Republican,
Cincinnati Volksblatt,
Daily Telegraph, London, Eng.,
Weekly Journal, London, Eng.,
New Yorker Presse.
Chicago Tribune, and two others.

The **BULLOCK** is the first invention of its kind that was brought into practical and successful use. It is entirely original in design, arrangement and operation, and is not borrowed from English or French inventions, as some new machines are. As it is, there is nothing abroad or at home that the **BULLOCK** can borrow, being in all respects better than anything there or here.

THE BULLOCK IS NOT ONLY THE BEST, BUT THE CHEAPEST PRESS IN THE WORLD. For further information, address

THE BULLOCK PRINTING PRESS CO.,

No. 738 Sanson St., Philadelphia, Pa.

WILLIAM H. WILLIAMS, Manager.
