**AMERICAN**; every evening except Sunday, and **WEEKLY**, Fridays; independent-republican; daily four pages, weekly eight pages; size—daily 24x36, weekly 24x46; subscription—daily \$2, weekly \$4; established—daily 1856, weekly 1844; American Printing Co., editors and publishers; circulation—daily J 1, weekly I 1. *Both the Daily and Weekly American circulates largely up and down the "Naugatuck Valley," one of the richest sections in the State, having the largest actual circulation in Western Connecticut. Its weekly edition has, with one exception, the largest circulation in New Haven County, not excepting New Haven. Advertisers who have given it a trial consider it one of the best paying mediums in the State and the best in Western Connecticut. Waterbury manufactories, even during the past dull, discouraging times, have, without exception, paid regular dividends, which is due to the fact that the brass interests have not suffered correspondingly with those of other classes. Three fourths of all brass and brass goods manufactured in the United States are made in Waterbury, it being the largest brass manufacturing city in the world. It is a self-evident fact that it is not always those papers whose issue is the largest that are the best paying advertising mediums, but those that circulate where there is the most money. The weekly edition has a bona fide circulation of 2,448 copies, and is a valuable advertising sheet, going into the best families and having an established reputation of over thirty-four years for enterprise and character, which causes its columns to be carefully read and its advertisements effective.*
