Dem. vote, 15,211; Rep. 12,405; Lib. 6,889.

TERRITORIAL CAPITAL, SALT LAKE CITY.

UTAH is bounded north by Idaho and Wyoming, east by Wyoming and Colorado, south by Arizona, and west by Nevada; length, north to south, about 350 miles; width about 260 miles; land area, 82,190 square miles. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. The grazing and mountain lands comprise about seven-eighths of the Territory. Irrigation is nearly everywhere necessary, but if a perfect system was adopted, much of the soil now worthless would produce good crops, as it contains most if not all of the elements of fertility. Wheat, oats, barley, corn, potatoes, hay, and wool are the chief products. Cattle raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established. There are 27 Counties in Utah; newspapers are published in 17.
