

The New York Press

The Largest Republican Circulation
in the United States...

THE PRESS is willing to accept contracts from advertising agencies or advertisers on the basis of its guaranteed circulation, which is **125,000** Copies daily. Its Advertising Rates are more reasonable than those charged by any other New York newspaper, when you take into consideration the quality and the volume of the circulation.

We charge 30 cents per line for transient business. We have no extras whatever, such as extra charges for broken columns, for display, or for position, although we do not guarantee position. Whenever it is possible to favor our customers with position we do so. From this rate of 30 cents per line we have the following discounts: 10 per cent. discount for three times a week for six months; 20 per cent. discount three times a week for one year; 10 per cent. for 5,000 lines used within a year; 15 per cent. for 10,000 lines if used within a year; 20 per cent. for 20,000 lines if used within a year. From these rates there is absolutely no deviation under any circumstances. Where else in the United States can you place your advertisement in a newspaper having

...125,000 Circulation

at such satisfactory rates?
