

A quarter of a mile farther up the road Miss Lucinda H.⁵³⁷ Hayden, the present occupant of a house built 1737 by Samuel²³ Hayden, a son of the first Samuel⁹, will be pleased to show the descendants of the builder, and others who may be interested, the house and the forest oak which overshadows it.

The grandson Ebenezer¹¹ lived a little south of the house of George P.³³⁴ Hayden,—he built on the brow of the meadow hill, at the foot of which is an open spring from which the water supply of his family was drawn.
