REPORT TO THE INNIS ASSOCIATION.

W. SALISBURY, VT., April, 1869.

To Hon. H. O. Smith, American Agent for the Innis Association:

DEAR SIR—After this long delay in the investigation of the Innis case in Great Britain, the delay unavoidable on account of my necessary change of partners in Europe, I am now able to furnish to you a short report from Mr. Herrick, relative to this case, which I think you better have printed and send to the members of the Association.

I believe this property is now recoverable by the next of kin of Jane Innis, and I hope we shall yet be able to show some member or members of this Association such next of kin. This is not an old case. On that account the difficulties of proving pedigree would be much less than would necessarily be in an old case. Mr. Mitchell, now in possession, has not yet got a title by possession. It now remains for the claimants to say whether this investigation shall go on or shall stop. We cannot go on without we are properly supported by the Association. Mr. Herrick has but just got fairly into the case. He believes it to be a good one, and has become very much interested in it, and it seems a great pity to have the investigation cease before all the facts are found out relative to it.

Yours truly,

COLUMBUS SMITH.
