

Conspicuous nose pores

How to reduce them

Complexions otherwise flawless are often ruined by conspicuous nose pores.

In such cases the small muscular fibres of the nose have become weakened and do not keep the pores closed as they should be. Instead these pores collect dirt, clog up and become enlarged.

To reduce these enlarged pores: wring a cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Then finish by rubbing the nose for a few minutes with a lump of ice.

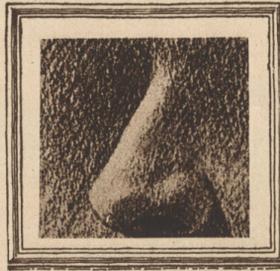

Do not expect to change in a week a condition resulting from years of neglect. Use this treatment persistently. It will gradually reduce the enlarged pores until they are inconspicuous.

How to heat your home at low cost—this will be your big problem in household economy all winter.

Every pound of coal you burn will mean money. Investigate now how to save it.

"Richardson" HEATING SYSTEMS Conserve Coal

With the "Richardson" Boiler all the heat goes into the water—none wasted up the chimney. It has seven heating surfaces exposed to the fire instead of one. This means smaller coal bills.

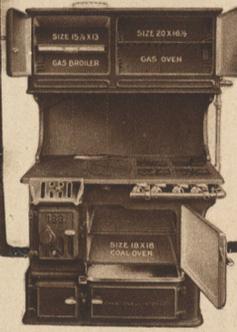

The Richardson "Perfect" Fresh Air Heater heats every room against any wind. Sealed heating chambers around fire-pot give it twice the power of an ordinary furnace. Complete ventilation and low fuel consumption.

The Richardson "Perfect" Coal and Gas Range embraces every modern convenience for cooking. Uses gas or coal—or both if larger diners are required. Produces quick meals, furnishes constant supply of hot water—always pleases the cook.
