**BOHN SYPHON REFRIGERATOR**

The lining of porcelain fused into steel (a single piece in all but the very largest models) is far different from the ordinary enamel paint which is so often called "porcelain." The Bohn porcelain will not crack or chip. The corners are round—no place for food particles or dirt to lodge. The drain is in front, where it can be cleaned easily and frequently without removing the food.

The Siphon System of rapid-air circulation from ice to food compartment, and the 10-layer, heat-resisting walls (including the famous Flaxinum insulation) hold the temperature very low and the air very dry. The Bohn Siphon is a great ice-saver. Think what this will mean this summer!

Bohn Siphon and other Bohn Refrigerators are shown here in great variety, at prices from \$19 up. If you cannot call, write for a catalog.

*The Best Way to Use Rouge*

The specialist who created the wonderful La-may Face Powder has invented a new kind of rouge. The rouge is inside the puff. All you do is to rub the puff on your face. It comes through the puff just as you need it. It goes on splendidly and stays on the face until you wash it off. The puff is in a dainty metal box. The box cannot break and the rouge will not crumble like the old-fashioned kind. This newly invented rouge is called La-may (French, Rouge L'Amé). It gives a beautiful color that looks natural under the strongest light. There are two colors—medium and dark. The fifty-cent package will last for months, yet the box is small enough to fit the purse. Because La-may Rouge is such a new invention, your dealer may not have it yet, but he can easily get it. Tell him to order for you. When you use this new Rouge and see how much more convenient it is and how much better it stays on, you will understand why thousands of women say it is the best they have ever used. Out-of-town readers may order by mail from Herbert Royston, 16 E. 18th St., New York.

The Rouge Is Inside the Puff. The Dainty Metal Box Cannot Break.
