MIGEL SILKS ORIGINALITY—QUALITY

The delicate nail root is only $\frac{1}{12}$ inch below the cuticle

DO you know that the sensitive nail root is barely a twelfth of an inch below the cuticle? When you cut the cuticle, little raw, tender places are exposed, where more than the dead skin has been cut away. These tender surfaces grow up more quickly than the uncut parts and form that ragged, uneven edge which ruins the appearance of your hand. But you can have lovely nails without injurious cutting. Cutex, the new cuticle remover, softens and loosens the dead skin which has grown up onto your nail. It removes surplus cuticle quickly, safely. In the Cutex package you will find an orange stick and absorbent cotton. Wrap some of the cotton around the end of the orange stick, dip it into the bottle and work it around the base of your nails, gently pressing back the cuticle. The surplus cuticle is softened, removed! Then carefully rinse the fingers in clear water, pushing the cuticle back when drying the hands. Secure Cutex in any drug or department store. Cutex, the cuticle remover, comes in 35c and 65c bottles. Cutex Nail White, Nail Polish and Cuticle Comfort are each 35c.
