

**One Package Contains  
5 Quarts of Milk**

No sour milk losses

Krystalak is just pure, separated milk in a new crystal form. Each package costs you 50c and contains the equivalent of five quarts of milk for cooking. To be kept on your pantry shelf and prepared as you need it at a saving of several cents on each quart of milk.

Krystalak is more convenient for cooking than bottled milk, keeps longer and is cleaner. The process of crystallizing takes all the water out of the milk and gives you these dry, flaky crystals, easy to use and always handy.

**KRYSTALAK**

**How to Use It**

Simply dissolve one cup of Krystalak—dry, flaky milk crystals—in 4 1/2 cups of water. Stir a few minutes and it will dissolve immediately. No beating, no lumping. You make liquid milk of these crystals with the least amount of trouble.

Speak to your grocer about Krystalak today. If he hasn't it in stock he will gladly get it. Remember,

your milk is going to freeze and force the cap off these winter mornings—and the milkman is just as apt to miss delivery as he did last winter. But with Krystalak you can go on with your cooking just as usual.

Our cook book is free. Write us direct or get one at any store listed below.

**For Sale at Your Grocer's or Any of the Stores Listed Below**
