R&S Silks Supreme

Make Charming Separate Skirts

The exquisite lustre, fine texture, and exceptional wearing qualities of R & S Silks make them especially adaptable for the separate skirts so necessary for the fall wardrobe.

They are available in all the modish street shades, as well as the more delicate hues for dress and sport wear.

The photographs show how wonderfully they drape when handled by skilful manufacturers.

For Both Sport and Dress Wear

Women who follow fashion-trends closely are choosing suits and frocks made of Gold Mark Worsted Jersey. They are well aware that no other wool fabric gives such sturdy service, while at the same time lending itself with admirable grace to every style of the season.

How leading suit and dress manufacturers are using jersey this fall may be seen from the accompanying photographs. The 12-ounce weight has been used for the suits, and the 8-ounce for the dresses.
