

London Bridge is falling down, falling down

WAY down

London Bridge is falling

And we can't let that keep up

Keep it up oh keep it up

Oh London Bridge is falling down

Keep it up oh keep it up

Or all of London Town will drown

How'd it get that way

How'd it get in that condition

What will people say

Now you all see my position

How can I give my suppot to any other thing at all

When my brain and brawn are needed here so London Bridge won't fall

When his " " " " " " " " " " " "

What if we let the Suddan go to Satan

There's no thrat -slittin' in Britain

And when all is done and said

Stalin makes me see red

Oh, better Prussia thathn Russia.

It seems he doesn't care

To split a German hair

If it means he has to call in

Mr. Stalin

Now I acted at Munich just to save us from a war

What matter if Hitler's asking more and more

The only price we have to pay

Is to give him a slice a day

Of something that's nothing to you or I

Just a slice of Czechoslovakian pie-

Oh, sing a song of blackshirts

A pocketful of lies

Don't you know that they've got eyes on other pies

After this is eaten

Their hunger will go on

Peace will go when all the pieces of the pie are gone

Mr. Churchill knew that this peace was just a filler

Mr. Cooper too, says they'll pull a killer-diller

Let the papers make implications

Let imprecations be hurled

I'm not annoyed by accusations

I can't worry for the world

When London Bridge is falling down, falling down

WAY DOWN

London Bridge is falling down

E- Well, I'm not a bit surprised

Mr. Eden you're indeed in no position to talk

Mr. C. can it be that you're afraid to hear my squawk?

Oh, Mr. Eden, Oh, Mr. Eden

We aren't needin' you here any more

You're a very nice young fella

But I've thrown you umbrella

Outside the League of Nations door

Oh Mr. Chamberlain, oh Mr. Chamberlain

Everybody knows you disapprove of me

I give you the pip

When I pan dictator ship

Positively Mr. Eden

Absolutely, mr. C-

Yes, come on and tell us how you knewit all along

Mr. C's just jealous 'cause you pull with us is strong

DOWNING STREET--3

If you want to know why London Bridge is falling, well it feels  
Tired of standing up and being tramped by foreign heels

Tramp, tramp it's being tramped on

Tramped on by foreign heels.

Mussolini muscles in

Hitler hits and hustles in

Franco kicks us in the shank, oh

We take raps from careens Japs

And all you do is stal

While the bridge keeps fallin, down, down, dwn

Mr. C. keeps stalling, DOWN DOWN DOWN

From the delicate way you protest gently hovers

Over Spain, the new refrain is

Franco and John Bull as lovers

He is our man

But he's doing us wrong

The big shots want to shot the works

A hunt is being run

With mad dogs and Chamberlain

Out in the midday sun.

Out in the midday sun

Oh, out in the midday sun

Mad dogs knock Chamberlain out in the midday sun

No use to pretend

They've got you bulldozed, my friend

They throw the bull, while you doze

Mr. Chamberlain, don't you read the papers

Mr. Chamberlain, the world is cutting capers

Mussolini's purging grows

Hitler leads us by the nose

Poland mobilizes troops

Trad doing loop-de-loops

Hungary fights Czechs on the border

World losing all law and order

Something must be done

And you're the only one

Something, something, must be done

And you're the only, only one--

My friends, believe me I'd do more

But as I've said before--YES?

Our first considerationis-

Yes, we know, there you go

London Bridge is falling, down, falling down

WAY DOWN

London Bridge is falling down

God had better save the king

Oh, God save our noble king

Chamberlain won't do a thing

While the Bridge keeps falling, down, dow, down

Mr. C. keeps stalling down, down, down

God save the king and his crown

London Bridge is falling down

While Neville and the devil sing

Lord save us, Lord save us

God save the king.

Does Jersey City raise twice or three?
