Dear Mr. Kay,

It was indeed a pleasure to have you visit the patients at the 249th General Hospital on 13 August 1967. On behalf of the patients, the hospital staff and the American Red Cross we offer our sincerest appreciation.

The men you visited were thrilled and honored to shake your hand and chat with you. They were also pleased to have the autographed pictures of you posing with them. We know each picture has been carefully wrapped and mailed home to the folks to see.

For those confined to beds for weeks and months the boredom that exist is hard to combat, but people like you do so much to lift the morale and bring a few minutes of happiness into the lives of these hospitalized servicemen.

Again we hope you derive a sense of real satisfaction in knowing that your thoughtfulness brought a great deal of pleasure to those serving in our Armed Forces.

Sincerely,

(Miss) Doris E. Peets,
Recreation Supervisor

(Miss) Beverly A. Davis
Recreation Worker
