Dear Danny:

How can San Antonio and its Symphony ever thank you enough for all you did for the orchestra and the citizens? I would answer only by building on the enthusiasm you generated Saturday night to have a bigger and better orchestra, and this, I, for one, am determined to do.

The Sunday rash of phone calls from delighted concert goers who would like an annual event seems to indicate a very positive desire by the audience also to build such an orchestra.

You created for the musicians a lasting benefit and for the audience a memorable experience they will treasure always - and for me, some very magic moments!

Thank you very much for your generous gift of self to enrich the lives of so many.

Do come see us again, only as a special friend.

With deep gratitude and best wishes.

Sincerely,

*Libby*
