Come da Diua mano alcuna corona
Da terra alzata alle celesti sfere
Vidde Arianna trasformarsi in stelle,
Tal da tua nobil mano Illustri nate
NICOLINI gentil, tratte alla luce
che dell'eternità de i scorta, e Duce
Prendon forme piu belle;
Così scorgo acquistar con pari honore,
E da lor gloria e lor da te splendore.

Questo sono le compositioni che V. Sig.a per suo gusto, et per obligar la nostra Accademia in diuerse occasioni ha composto le quali perche da me particolarmente fussero cercate, come quelle che particolarmente stimo tutte le cose sue; essendo a me tutto giorno da diuersi amici richiesto e per fare che nell'Accademia con maggior commodità si conseruino da vsarle in questa guisa ridurle, che a lei dedicate sue le presento, assicurato che la modestia dell'animo suo douerà compiacersene per la stretta familiarità che è tra noi, auuenga che non per tutti ma per la sola nostra Accademia siano composte poi che le cose et i parti suoi quanto sono più da se stessi tanto più sono di marauiglia. Riceuale dunque di buona uoglia, e di me che infinito bene li desidero iscusi la grossezza con fidanza con che fine bacio le mani di V. Sig.a Ill.ma Roma li 24 di Giugno 1611.
