## Backing the Minneapolis Spirit.

SOMETHING OVER SIX YEARS AGO WE CONCEIVED THE IDEA OF ESTABLISHING A CHAIN OF PUBLIC SERVICE DRUG STORES IN DOWNTOWN MINNEAPOLIS.

From the beginning it has been our constant effort to gain the public's confidence by offering Better Service and a Better Quality Merchandise for a little less than it could be bought for elsewhere, and by backing every sale with an absolute guarantee of satisfaction or the cheerful refund of the purchase price.

We pride ourselves in the neatness and convenient arrangement of our stores, the prominence of our locations, and the completeness of the stocks we carry. We have no private line of goods to be urged upon our customers. We are not featuring any special brand in any department of our stores. We endeavor to give what is called for. Our method of handling stock through our warehouse and our twice-a-day delivery to each store enables us to carry a complete stock of everything obtainable in Drug Store Merchandise. Preparations unobtainable elsewhere will usually be found in our stores.

The Public Drug Company was organized and has been financed from the start by Minneapolis Business Men.

We are in no way connected with wholesale or retail Drug Concerns in this or any other city. Our officers, for the most part, devote their entire time to the personal supervision of the business.

We attribute our success and rapid growth to the honest values we offer—the loyalty of our employees and the Better service we have given to our host of Minneapolis patrons.

During our first year our sales were less than \$100,000.00. In a little over five years we have increased this amount to nearly a half million dollars annually.

We are a strictly Minneapolis Concern. We employ a large force of Minneapolis people, and during the past year have expended in this city approximately \$250,000.00 to \$275,000.00—this is Minneapolis Money going back into Minneapolis Business.
