**The head of a big hosiery department in New York says:**

"The But-i-nol is really a wonderful improvement. We have needed something of this kind for so long. And our customers have been evidently just waiting for this feature. We have never before been able to find any device which would prevent 'runs' and were delighted to obtain the Kayser But-i-nol Silk Stockings."

The Kayser But-i-nol Silk Stockings have just been introduced by Julius Kayser & Co., the originator of double-tips on silk gloves. To the wonderful beauty and richness of Kayser Silk Stockings, this new feature now adds economy and security. These six strong buttonholes save you the cost of "runs." In addition, even though your garter clasps come loose, the pad fits so snugly in the buttonhole that your stocking remains tight. Never any sagging or wrinkling. Your dealer has them in the newest colorings, in black and white, and in extra sizes; and they cost no more than the ordinary silk stockings.
